VOLUME XI

MARION, CRITTENDEN COUNTY, KENTUCKY, OCT 16, 1890.

NUMBER 18.

TO THE FIELDS OF
UNLIMITED BARGAINS.
NO ROOM FOR FURTHER ARGUMENT.
—MY CHOICE STOCK OF NEW—

FALL AND WINTER GOODS
RE NOW OFFERED IN PRICES WHICH ARE BEYOND QUESTION
THE LOWEST HOUSE IN TOWN,
QUALITY CONSIDERED.

Try me and I will surely please you. My stock is complete in all of its departments.
RESPECTFULLY
A. WOLFF.
MARION, KY.

5,000 PEOPLE WANTED?
YES, TO GO TO

P. H. WOOD'S
CRAYNEVILLE, KY.,

To see his immense stock of Dry Goods, Notions, Hats, Clothing, Boots, Shoes and all kinds of Underwear.

GOOD BARGAIN FOR ALL

My goods are all bought at low prices and you shall have them as low as they can be bought anywhere in the country. Remember that \$2.00 spent with me

Secures You A Nice, Useful Present

Thanking you for past liberal patronage, I am
Truly Your Friend, P. H. WOODS.

MARION ROLLER MILLS,
MARION, KY.

ALBERT LAMB, Manager.
FLOUR, MEAL and BRAN

of all grades kept constantly on hand, and sold at rock bottom prices. Goods guaranteed to be just as represented.

Sells and Buys Wheat and Corn.
Will treat you right. Your patronage solicited.

MRS. F. W. LOVING,
Milliner and Dressmaker,
MARION, KY.

Has just received the largest, finest and complete stock of
Hats and Trimmings

OF ALL THE LATE STYLES.

Plushes, Velvets, and Silks for dresses and hats. My business is to supply the wants of the ladies in this millinery line, and I have every article you need, and taste, quality of goods and prices were all considered in my purchases.

DRESS MAKING

And fitting a specialty. The ladies are cordially invited to call and see my goods. I have what you want and will sell it to you very cheap. Don't buy elsewhere until you call.

MRS. F. W. LOVING,
New brick, 1 door West of Walker & Olive's.

L. S. LEFFLE, H. F. RAY
L. S. LEFFLE & CO

MACHINISTS AND MANUFACTURERS AGENTS for the
Best Threshers and Engines on Earth, the RUSSEL

Now is the time for clubs to organize and buy their threshing rigs for this season. We will pay special attention to

CASH ORDERS.

Call when in town and get catalogues and other valuable information. In pumps we can suit you both in style and price. Office with Crider & Crider.

THE FARMING WORLD.

CULTIVATORS.

Every farmer in the country knows how to build a culvert. It would be a disgrace to a farmer's boy to say that he could not tell just how one ought to be made, even though he lacked

strength to put in the work. There is the stone culvert—that is best of all when the stone can be had. Then the culvert built with plank and planks. There is the culvert of heavy planks, strong and supposed to be durable.

The farmers of the Eastern States have been building culverts for at least one hundred years. They ought to know what they are doing, for, as well as how to build them. But they don't.

Practice speaks louder than words. While they say that a culvert is to carry water under a road, then practice says that it is only a little bridge over a hole. Is proof wanted? Every heavy rain-storm washes out innumerable culverts—perhaps the very same that were washed out in the same way two or three years ago. And they will be washed out again in a little while. And why? Because when they are built, the ends of planks are taken with the top sides, while the bed on which the culvert is to flow is left just as the man who has the hoe or shovel dressed it.

It is very hard to make a culvert that will hold water while it is being built. It is worth while to prepare a way for the water which will come in the spring of the fall. When a smart rain comes and fills the ditch, a little stream struggles along the bed, flat bottom of the culvert. It is spread out in a wide sheet. The leaves it has brought along with it are piled up here and there, and it

barely trickles through. A heavier rain brings in sometimes. The rough, flat water gets more and more obstructed every time the water finds its way over the roadway. Figures 1 and 2 represent primitive forms of culverts of different degrees of defectiveness, but all of them may be found in country roads. Fig. 1 is a culvert in the "bottom" period, and road-making. A rough log is thrown down on either side of the

LOG CULVERT.

hasty excavation, and short string-poles are used across them to support the planks. Fig. 2 is of similar construction, save that planks are set up edgewise in place of the logs. Fig. 3 is bad and expensive. Fig. 4 is still more so. It is a culvert in the "bottom" period, and road-making. A rough log is thrown down on either side of the

by insect life to be effective. Five pounds each of potash and lard dissolved in five gallons of boiling water; one peck of good stone lime slacked in five gallons of boiling water, while hot mix with the potash and lard. The above mixture can be kept in an old tub or barrel for any length of time. To use, add to each gallon two gallons of boiling water, and mix well. Apply to trunk and large limbs with an old broom. If this mixture is applied to trees while young, and used year after year, the bark of the tree will be as smooth as glass and all bark lice and borers killed.

DEATH FROM HYDROPHOBIA.
Della Moore, aged twelve years, died at Lexington, Ky., from hydrophobia. The same dog bit Fred Harrington, who also died from the effects of the bite.

KILLED IN A WRECK AND ROBBERY.
Fireman Payne was killed a few days ago in a railroad wreck near Chattanooga, Tenn. It is claimed that the corpse was robbed of about \$500.

BANK SUSPENSION.
The bank of Madison, at Jackson, Tenn., has failed. It was a State bank with a capital of \$50,000. Liabilities, \$200,000; assets, \$225,000.

A Tobacco Dealer's Ledger.
Captain James Davis, a well-known farmer and tobacco dealer of Mason County, Ky., has assigned. Assets, \$100,000, which will cover liabilities, it is said.

THE FARMING WORLD.
A GOOD TRAP.

It is Easily Made and Can Be Used for Catching Many Kinds of Vermine.

Take lumber lumber bottom board, 5 by 28 inches; end, 5 by 24 inches; side, 5 by 20 inches. Roller at top, 3/4 by 2 1/2 inches; pin, 3/4 by 4 inches. 12 inches long in center, and placed 4 inches from end of roller; X, half-inch block to put flyer under to set trap; X X, treadle or pan, to spring trap, made of shingles 4 inches wide, 4 1/2 to shoulder, 3/4 tongue 2 inches long, to reach through front side, to catch flyer to set it.

Cut a hole in the center of the front board down to the bottom, 1 inch wide and 1 1/2 inches high. Put the pan in place, then bore a half-inch hole through

the back board where the holes come in the pan. Drive a little nail over each hole, then tie a stout string in each hole of the pan, pass it through the half-inch holes and tie to the nails just tight enough to let the pan press to the bottom when the string is struck. Then take a piece of scantling that fits loose inside the trap, or make a box 14 inches square, 28 inches long, for drop. Fill it with sand, drive a staple 4 inches from each end in the top, and put it in the trap. Tie a twine in the staples and to the short pins like first cut, then tie a twine to the long pin and to a flyer just long enough to raise the drop 4 inches when set. The trap just goes between the ends at the top, turn on

the back board where the holes come in the pan. Drive a little nail over each hole, then tie a stout string in each hole of the pan, pass it through the half-inch holes and tie to the nails just tight enough to let the pan press to the bottom when the string is struck. Then take a piece of scantling that fits loose inside the trap, or make a box 14 inches square, 28 inches long, for drop. Fill it with sand, drive a staple 4 inches from each end in the top, and put it in the trap. Tie a twine in the staples and to the short pins like first cut, then tie a twine to the long pin and to a flyer just long enough to raise the drop 4 inches when set. The trap just goes between the ends at the top, turn on

the back board where the holes come in the pan. Drive a little nail over each hole, then tie a stout string in each hole of the pan, pass it through the half-inch holes and tie to the nails just tight enough to let the pan press to the bottom when the string is struck. Then take a piece of scantling that fits loose inside the trap, or make a box 14 inches square, 28 inches long, for drop. Fill it with sand, drive a staple 4 inches from each end in the top, and put it in the trap. Tie a twine in the staples and to the short pins like first cut, then tie a twine to the long pin and to a flyer just long enough to raise the drop 4 inches when set. The trap just goes between the ends at the top, turn on

the back board where the holes come in the pan. Drive a little nail over each hole, then tie a stout string in each hole of the pan, pass it through the half-inch holes and tie to the nails just tight enough to let the pan press to the bottom when the string is struck. Then take a piece of scantling that fits loose inside the trap, or make a box 14 inches square, 28 inches long, for drop. Fill it with sand, drive a staple 4 inches from each end in the top, and put it in the trap. Tie a twine in the staples and to the short pins like first cut, then tie a twine to the long pin and to a flyer just long enough to raise the drop 4 inches when set. The trap just goes between the ends at the top, turn on

the back board where the holes come in the pan. Drive a little nail over each hole, then tie a stout string in each hole of the pan, pass it through the half-inch holes and tie to the nails just tight enough to let the pan press to the bottom when the string is struck. Then take a piece of scantling that fits loose inside the trap, or make a box 14 inches square, 28 inches long, for drop. Fill it with sand, drive a staple 4 inches from each end in the top, and put it in the trap. The Crittenden Press

ISSUED WEEKLY.

R. C. WALKER, Publisher.

Justice Miller died Monday.

There were 300 acts passed by the late session of Congress.

President Harrison reached Washington Tuesday, from his Western tour.

An explosion in the Dupont powder works near Wilmington, Del., killed twelve persons and injured 15 others.

Gen. Belknap, who was Secretary of War during President Grant's administration, died at Washington Monday.

The Constitutional Convention has been for several days discussing the report of the Committee on Bill of Rights.

Our former friends of the Third Congressional district gave it to the McKinley bill straight from the shoulder.

Crittenden county is growing; so says the census returns; we still await with bated breath for the returns from Marion.

There is an advance in prices all along the line of merchandise. The tariff is a tax, you are paying over the counter.

Friday Justice Samuel F. Miller, of the United States Supreme court was stricken with paralysis, which affected his entire left side.

The McKinley bill removed the tax from sugar the refinery need in their business, but left it on the sugar used on the table.

The total population of the State of Ohio is 3,656,719, an increase of 428,657. West Virginia's population is 760,448, an increase of 171,991.

Towns along the Ohio Valley R. R. are displeased with the new time card. You can go to no station and return the same day; hence local travel on the road will diminish.

The log cabin in which Lincoln lived as a boy, in Washington county, Ky., has been purchased by Chicago parties, and will be moved to the grounds of the World's Fair.

Rube Burrows, the notorious train robber, was shot and killed in Alabama last week. A reward of \$75,000 was offered for his arrest; a farmer arrested him and he attempted to escape, when he was killed.

Christian county will have a hanging before many days, and the chief factor in the much needed episode will be George Griffin, colored. Without provocation he shot and instantly killed George Rutledge, a man of his own race.

The general advance on nearly all kinds of goods has scared the Republican Campaign Committee into issuing a circular denying that the bill has anything to do with the advances.

The Prohibition District Committee has put Dr. Wm. Curd, of Marshall county, into the field as its candidate for Congress. Running for Congress is about the commonest thing in the district.

According to census reports Illinois has a population of 3,818,536, an increase of 740,665; Louisiana 1,116,828, an increase of 176,882; Mississippi 1,284,887, an increase of 153,290.

The Mississippi Constitutional Convention makes the Judiciary of that State appointive. There was, early in the session of the Kentucky Convention, talk of a similar provision in our constitution, but public sentiment was against it.

A committee of the General Assembly of the Presbyterian church, in session at Allegheny City discussing the proposition to revise the Westminster Confession of Faith. The committee closes its doors and the result of its labors will not be made known until final adjournment.

Hon. D. A. Wells, the well known political economist, has been nominated for Congress by the Democrats of the Third district of Connecticut. He is an original low tariff man and his pen was a power for the cause, even before President Cleveland made the tariff the issue.

President Harrison is unfortunate in his appointments of Pension Commissioners. Rum has shown his hand again by appointing a special pension examiner to work in All Taylor's district in Tennessee—the main feature of his work is trying to influence the ex-soldiers to vote for Taylor for Congress.

The tobacco warehousemen of Louisville will issue an address to the farmers explaining the character of the proposed consolidation of Louisville and Cincinnati warehouses. It must be an explicit document that convinces farmers that the consolidation is not in the interest of the warehouses and a detriment to the farmer.

A number of Baptist ministers have petitioned the Constitutional Convention to expunge that section of the old constitution making ministers of the gospel ineligible for certain offices. Those ministers are right. There is about as much propriety in having such a section in the constitution as there is in ministers running for office. Neither should be tolerated. The minister's high appreciation of his calling, the sanctity of his work and great demand for his services in the ripening harvest of his Master, should keep him out of politics and a constitutional prohibition is tautology.

The Wheelers of the Third Congressional district instead of nominating a candidate, passed some resolutions and propounded some questions to the candidates of the old parties. Among other sentiments expressed in those resolutions is the following:

"That we most earnestly protest against the bill known as the McKinley bill, which by its provisions brings increase of the tariff taxation and hurl back with scorn the increase of the tariff on agricultural products, which we regard as hypocritical and an insult to our intelligence, well knowing that no amount of such protection could have any effect on such products, and we demand from all Senators and Representatives, that they shall use their every effort to secure a reduction in such tariff taxation as will relieve the great producing classes from the unjust burdens of taxation on all articles of common necessity."

We hope and believe that the little "family" trouble in the republican party in Paducah will be settled and peace and harmony will prevail without any assistance from the Crittenden Press. We know Capt. Farley, J. R. Smith, Hugh Mulholland, W. S. Seaford and know them to be true republicans and will rally to the support of R. T. Franks, for we heard the speeches of both factions all fully endorsed the nomination of Mr. Franks. You will see the whole party come to the polls and vote for Mr. Franks. Remember we have Darrett, Hutson, Barnes, Ashera, and a number of others that will aid in a little personal feeling and vote straight, as also will all the postoffice boys at Paducah, regardless of the opinions of the Standard, News and Crittenden Press—Monitor.

Gracious, neighbor, the Press has offered you no assistance, advice nor suggestions. Had we any to give it could read like this: Give the postoffice boys at Paducah, Farley et al plenty of rope. What the Press published was the news; and the Monitor's attempt to pour oil upon the troubled water verifies the truth of our statement. The postoffice boys at Paducah may all vote for Franks, the Press has no opinion on that point, but the Press has an opinion and it is that so long as Mr. Franks advocates a high tariff, a force bill, and fights the free coinage of silver that it will require more votes than is at present in the Paducah postoffice to elect him to Congress from the First Congressional District of Kentucky, in which there are so many farmers, organized, and demanding a reduction of the tariff, and free and unlimited coinage of silver.

Mr. E. T. Franks, the Republican candidate for Congress, opened his canvass in a speech at this place Monday. A fair sized crowd gave him attention. He devoted the largest portion of his speech to the tariff and the McKinley bill, holding that a high tariff was a blessing to the country, and at the same time praising the McKinley bill for making reductions on some things. He said that he was heartily opposed to the free coinage of silver. That the country needed no such measure. That we had millions of silver piled up in the treasury now that are of no benefit. The Election Force bill, he thought, was a great thing, and went so far as to denounce those opposed to it as unfit to go into decent society. The other portions of his speech were the usual filling for such speeches. He butchers the English language pretty severely, and shows the want of a thorough knowledge of public men and public affairs to a pretty high degree. The hard things he says about those opposed to his way of thinking, shows the want of fairness or rather thought. Personally, Ed is a clever young fellow, but the applause his wild, rough stump speeches—made in county canvasses—received, together with the nomination for Congress and a nice \$4-a-day Federal office, has turned his head and made him more ambitious than sensible. He is genial and pleasant, however, when not scraping the skies, and when he rubs against the world a little more, and gets the wire edge worn off, he will not think so much of himself.

Literary Notice.
Miss Julia Magruder, a daughter of the late General John B. Magruder, of the Confederate army, who held the "Peninsula" against McClellan in the Spring of 1862, begins in the New York Ledger of October 18, a serial entitled, "Jephthah's Daughter." The story is an exquisite and artistic adaptation of the Biblical tale.

Mr. Robert C. Stockton, Agent Wm. Radam's Microbe Killer—Dear Sir—I have been suffering for four years with chills and fever and malaria fever. One jug of your Microbe Killer has stopped the chills and I am much better, but am still taking the medicine.
Yours respectfully,
J. E. Daniels,
Photographer, 610 Houston St.
For sale by Hillyard & Woods.

Salem.
Mrs S. Hodge, of Mariop, was visiting her sons of this place last week.

Mr. Glenn, the boss carpenter of Frelonia, has taken the contract to build Charlie Daniel's fine residence.

Miss Martha Linley, of Salem, has a printing outfit which she will sell cheap. The type is all new. Now is the chance for the Salem people to start a newspaper.

Farris & Gray are receiving new goods every day. These young men are merchants in fact as well as in name. They ought to advertise their business, however, and invite their acquaintances from a distance to come and see them. Why not?

Somebody having the money and desiring Salem to grow ought to build some business houses to rent. Two men came here last week and wanted to go in business here, but could get no house.

Henry Woolridge made me a present of a bottle containing Balsome Pear and fine whiskey, for medical purposes. We can't say much for the pear, but the whiskey is fine. Henry is a fine saloon keeper, and keeps only first class goods.

J. O. Gray is offering four cents per pound for fat hogs delivered to him the first of next November.

Isaac Linley has his land posted. He says he hopes hunters will now keep off his land.

Thos. Evans went to Evansville last week to drink beer with his German friends of that city. He is at home again and reports a jolly time. Abe Alvis was in town last Thursday.

Mr. Mitchell is going to put up a saw mill in town.
Rev. J. W. Crewdson, of Pinkneyville, sold his home there to Mr. Jno. Tynes for \$1200. Mr. Crewdson will probably remove to Salem—the queen valley city of Ky.

It makes a man feel good fall over to taste that seven year old whiskey at the Daniels & Woolridge saloon. The town marshal is working the streets again this week with a force of men. Main street is as good as labor can make it.

Hon. Wm. Green was blessed on the 9th of this month by the coming of another fine boy at his house, 101 pounds in weight.

Mr. R. P. Shelby was visiting her friends in Princeton last week. Tobacco in the barn and now for cribbing the corn.

Will Barnett, of Lola, was here last week.
It is a perfect feast for the eye to go into the store room of Miss Lizzie Grassham and see her beautiful assortment of millinery goods.

Go feast your eye
And see what money will buy.
Mrs. Allen Lowrey, of Carversville, is spending a few days with her relatives and friends hereabouts.

Marion Nelson, county surveyor, was in town Friday.

Charlie Humphreys is very happy over the arrival of a new boy at his house.

Will Reynolds reports another fine boy at his house weight 101 lbs. A slight unpleasantness on the streets Saturday afternoon.

For a nice hair cut, shave or shine go to the shop of Henry M. Moore. He has just received an elegant chair and fine glass.

A great coal mine has been discovered on the land of V. M. Lockhart, 2 1/2 miles from Salem, and lead has been found in paying quantities on the land of Mrs. J. A. Fleming, 1 1/2 miles from town. With a rich, fertile soil, immense forests, plenty of water, all kinds of mineral, railroads and rivers, a healthful climate, honest and energetic people, we see for Kentucky a bright future, and old Livingston, taking all things together, is the best country in the State.

The Crittenden Press has a circulation of 1500. Will it pay my business friends to invite 1500 people once every week the year round to trade with you? Hot or cold, rain or shine, good roads or bad roads, in sickness or in health, the Press takes its weary way into 1500 homes every week in the year. Therefore, the men who advertise have the advantage over those who do not advertise. "There are none so blind as those who will not see."

Henry Terry, Sheriff, was in town last week collecting taxes.
James Bebb, of Carversville, was here last Saturday; he has just recovered from a painful operation of having a cancer taken from his head. All old soldiers not drawing a pension call on J. L. Loney at Salem, Ky., and let him file your claims under the new law, and secure you a pension without delay. No pension no pay.

Overdyer Slocum.
Ft. Worth, June 7, 1889.

Mr. Robert C. Stockton, Agent Wm. Radam's Microbe Killer—Dear Sir—I have been suffering for four years with chills and fever and malaria fever. One jug of your Microbe Killer has stopped the chills and I am much better, but am still taking the medicine.

For sale by Hillyard & Woods.

Tolu Twinklings.
The frame work of Crawford's new house looms up.

The mill has shut down. We understand Mr. Swansey will soon take charge.

Harris & Son are doing grinding in the old Martin machine shop. They had a busy day Saturday and made good meal.

Mr. Lewis Hoover and family spent the Sabbath on Caney Fork, with the writer.

The school house has been furnished with an elegant Rochester lamp of 300 candle power.

Mr. S. B. Weldon has been very sick.

Ed Young thinks he will go to school in Tolu while.

Clement & Croft have some nobby suits for gents, and they are cheap, too.

Mr. J. W. Gues has a brand new breech loading, double barrel, stem winding shot gun, and in consequence our squirrels have all emigrated across the Ohio river into Ills, where the bad marksmen live and the uncertain market reigneth.

It does look as though Tolu people could build a church edifice. The town has a sufficient well to do population at this time to do this, and with very little expense to each one. There are but very few lazy Neels about the village and every one would contribute something. Talk it up.

O. G. W.—You—Are—a—Dandy—but you talk about my neighbor.
Dr. Cartly has out up a new sign, viz: "Tolu House." We commend this house to the public as being first class in every respect.

There is considerable sickness in this place. Chills and fever predominate and quinine is used instead of flour.

Pittman's alleged new blacksmith shop has the appearance of Joseph's coat.

Bethel.
The hail last week tore up the tobacco in the field.

Health is very good except a few chills.

Bro. Archey is our pastor, and he preached here Sunday.

Michel Gardner talks of moving to Lola in the spring.

Sunday school here and at Emmaus progressing nicely.

School at Oak Grove is largely attended as the children love their strict teacher.

Dr. Washburn was visiting the schools last week and paid quite a compliment on this school. The children had so much goodness many thanks, doctor.

One of the factory men lost his wife last week.

A couple from this neighborhood were over to Golconda to get married last week and the girl was too young. We feel sorry for them, but she must wait six years until she is twenty, and then try again.

Lola must be quite an attractive place, as I see a young widow sailing up quite often. That is right, Garie, she is a nice young lady, and catch her if you can.

They are having quite a good meeting at Dixon.

The show at Oak Grove school house was a failure. After the audience had gathered and pay time came around, one of the directors would not let him show, unless he gave his family a complimentary ticket, and the old showman had too much spunk to give up, and the director said pack up your things you can't show in my school house. We were very much disappointed, but on go to Lola when he shows there.

Mr. Black has moved on Mr. John Crittenden's place.

W. F. Champion is doing a large wheat fanning business.

There is a great deal moving out West this fall.

Gues.

Stonewall.
Tobacco mostly housed and sowing wheat the order of the day.

The people of this vicinity need and want a school district; they are tired of paying taxes to repair school houses and buy a lot of worthless patent seats, without receiving some benefit for their money. But they say a tax not voted by the people is not collectable as a tax; so stick a pin there. Trustees have the power to make a levy but they can not enforce it, like a county or State tax. But the people are ignorant of this. We find on the books of this Piney Creek district taxes due ten years ago, not collectable; why is this? The officers know they had no power to make a levy, so trustees must be careful how they use their power, or they will find their contracts falling back on their own shoulders. "No taxation without representation."

Prof. J. B. McNeely is much pleased with the prospects of his school in Caldwell.

Mr. Moore, of Frelonia, may go into the grocery business here.

Frank Crider's little girl fell from the fence recently and was badly hurt but is improving.
Henry Strong's little girl has been very low with scrofula but is now better.
Mrs. Ashley, who has been very

low with consumption, is rapidly improving under the treatment of Dr. Harris.

Thos. Murphy, who was stabbed during the meeting at Piney Creek church has departed for parts unknown.

Mrs. Jane Hughes has been visiting relatives here.

Blue Rain.

Repton.
Mr. J. T. Wolf is building a handsome residence at Repton; it will be occupied by J. S. McMurry, our polite and attentive merchant.

Our school is progressing finely, under the tutorage of Miss Henrie Howerton.

David Canady has the largest and best tobacco crop in this vicinity. A sample of it may be seen at Repton.

Look out for a killing frost on the 21st.

W. C. L. Moore is recovering from an attack of bilious fever.

J. R. Moore has a very sick child. Dr. Nunn and Clark pronounce its disease a well developed case of pneumonia.

Miss Ida King is visiting her sister, Mrs. Morris, of Bowling Green.

Misses Sallie Mays and Lizzie Proffer, of Malden, Mo., are visiting W. C. L. Moore's family.

The controversy between "Brit-heel" and "B" is somewhat amusing.

Messrs. J. R. and N. J. Moore are the champion bird hunters in these parts. They said they killed seventy-five down birds last winter and didn't hunt much either.

S. F. Crider is buying cattle and hogs for the home market. He pays fair prices.

E. Hibbs is an agent for D. H. Baldwin's celebrated line of musical instruments. Persons contemplating the purchase of a musical instrument of any kind will do well to get his prices.

C. B. Newcomb is teaching school at the Seminary Springs this year. He is a good teacher.

Pedagogue.
Fredonia Notes.
Mrs. John Dorr, of Princeton was visiting her son and family here Sunday.

One man who, perhaps, had never been far from home estimated the crowd at Princeton show day, at one million people. One hundredth part of that amount would be a large estimate. There was a good street parade and a splendid circus and display under the canvas.

Miss Sue Johnson and Lily Brown went to Louisville Tuesday on a visit to relatives.

W. J. Ray expects to be an exile from our town for awhile; he will locate in the city of Kattawa.

James Blue, of Morganfield was in Princeton last Thursday to attend the fair and see his friends.

Mrs. Winstead and sister, of Madisonville, are visiting Prof. Davis and family.

Mrs. F. G. Greer and children left for Texas Monday. Felix had gone some time ago and found a location: Misses Nora and Sarah Glenn are visiting in Bethlehem neighborhood this week.

Wanted, a good chimney builder, W. C. Glenn, Fredonia.

Radam's Microbe Killer Co., Nashville, Tenn.
Gentlemen—I take pleasure in testifying to the remarkable benefit I have recently received from the use of Radam's Microbe Killer. I have been much troubled with chills and night sweats for months, and after trying a great many remedies to no avail, bought a jug of Microbe Killer and was completely cured in ten days.

Respectfully,
J. J. Smith.
Frankfort, Ky., March 15, 1890.

For sale by Hillyard & Woods. And still that account of yours is unpaid. See our last warning. Pierce & Son.

I cheerfully testify that after taking Microbe Killer for fifteen days I am entirely cured, after being sick two years with malaria fever, and during which time I contracted other diseases, flux etc. I was attended during this time by three of the best doctors of the city without being benefited. Wm. Doherty, 10 Celeste St. New Orleans, Feb. 27, 1888. For sale by Hillyard & Woods.

For Sale or Trade.
A handsome parlor organ, will sell at a bargain, or trade for a good horse. Call on, H. K. Woods.

For Sale.
A good Smooter in good shape, belting, buckets etc., attached. Will sell very cheap.

J. L. Mitchell, Mulberry, Ky.
"C. C. C. Certain Chills Cure," the most pleasant to take of all fever and ague remedies. Warranted to cure chills and fever. Sold by Hillyard & Woods.

EMIGRATION COMMISSIONER VALENTINE, of Vermont, is much pleased with the Swedes who have settled in that State. They have been more than self-supporting since they came to Vermont. Fifty-five men, women and children came last April, and the money earned among them has not only supported their families, but they have with their earnings sent to Sweden to friends. Upward of twenty have already arrived. The idea of calling these self-reliant, self-supporting, self-respecting, independent, thrifty people paupers, Mr. Valentine pronounces absurd.

A young woman in Paris has invented a new method of robbery, which she has carried on with a good deal of success for weeks. Wearing a traveling dress, with a traveling bag in her hand, she waited about the stations, and if she saw a man who looked like a traveler, where to go? It constantly happened that gentlemen took pity on her and proposed to take her to a hotel. On arriving at the hotel, the gentleman, self-supporting, self-respecting, independent, thrifty people paupers, Mr. Valentine pronounced absurd.

Good for Georgia.
Up to October 1 there had been 200 miles of railway constructed in Georgia this year, 220 in North Carolina. Georgia leads all other States.

Died at Ninety.
Mrs. Sarah W. Grissam died at her home, several miles north of Hopkinsville, Ky., aged ninety years.

ENEMIES OF THE POTATO.
They are Many and One of the Worst is Man Himself.

One could almost say that man is one of the worst enemies of the potato. It is not the potato in the manner in which he sometimes neglects one of his best of vegetable friends. While it requires a warm rich soil, he gives it a water-soaked clay bed, and when the feeble plants come to the surface no encouragement is given them to struggle against the weeds that threaten to choke out the last spark of life.

Many insects prey upon the narcotic herbage of the potato, the most destructive of which is the Colorado beetle. With this well under subjection by a fully understood plan of applying London Purple or Paris Green, there remains only to develop the methods of overcoming the blights and rots, the worst of which is the so-called wet rot. This is due to the growth of a low form of vegetation closely related to the mildew of the grape. It first appears on the leaves as frothy patches, and from there it grows down the stem, and finally the slender threads reach the tubers, causing them to rot.

From the fact that the leaves are first attacked, and the rot works down the stems to the tubers, it is evident that when the leaves and stems are dying prematurely the tubers should be dug as soon. Let the potatoes dry thoroughly in the field after digging, and store only the sound ones in a dry place with a good circulation of air. Avoid a damp, poorly ventilated room. The vines and all decayed tubers left in the field should be burned.

As preventive measures at planting time it may be suggested that a second crop should not be grown where the previous crop failed from the rot. The seed should be free from the trouble, and therefore only sound potatoes are suitable for planting. Early varieties, planted early, are most apt to escape, for the rot does not get going so usually until midsummer. Experience has demonstrated that it is best to till the potatoes at the last plowing, as many germs of the disease fall on the leaves and are washed down to the tubers with the rains—American Agricul.

Save the Market.
This sketch shows a corn binder which I use in shocking corn stalks. The idea is original and not patented. I give it to readers who raise corn and keep the ground clean. Its object is to draw the stalks up firmly together and hold them until they can be bound with straw or other material. It consists of a strap about three feet long, an end of which is fastened to a handle (an old shovel or fork handle is good). The handle has a hook at its outer end, and the strap around the shock, catching the stalks and with the disengaged hand, catch and draw up as firmly as you wish.

COIN DESIGNER.
teasing it to look at the device. Any farmer can make one in a few minutes. For bands I have recently received from the use of Radam's Microbe Killer. I have been much troubled with chills and night sweats for months, and after trying a great many remedies to no avail, bought a jug of Microbe Killer and was completely cured in ten days.

Respectfully,
J. J. Smith.

"C. C. C. Certain Chills Cure," the most pleasant to take of all fever and ague remedies. Warranted to cure chills and fever. Sold by Hillyard & Woods.

Robertson & Jones, Jonesboro, Ark., write: "C. C. C. Certain Chills Cure gives universal satisfaction. Pleasant to take. No cure, no pay. Sold by Hillyard & Woods."

If "C. C. C. Certain Chills Cure" is not the best remedy you have ever used for coughs and colds your money will be refunded. Sold by Hillyard & Woods.

To the Ladies.
We have prepared a very valuable article for the complexion called BLUSH or ROSES, which successfully removes all tan, freckles, pimples, blackheads, etc., from the face, leaving the complexion perfectly clear and smooth. It is not a powder that will show upon the face, but it is a liquid as clear as a crystal, which acts upon the capillaries of the skin as soon as applied, and brings out that healthy glow upon the cheeks which is so essential to real beauty. We have secured the help of Mrs. Myrtle Thurman to introduce Blush of Roses to the ladies of Marion and vicinity, and she will cheerfully give free trials of its merits every day at her home and will take pleasure in waiting upon any who will call upon her there.

FLORA A. JONES, South Bend, Ind.

Are you sick? If so you can be restored to perfect health if you use Radman's Microbe Killer. It purifies the blood thoroughly, and when that is done you are a well man. The success of the medicine is simply wonderful.

For sale by Hillyard & Woods.
Malaria fever is caused by Microbes. The germs are in the air you breathe. Take Radman's Microbe Killer and that will kill the germs and you can not have an ache or pain. For sale by Hillyard & Woods.

Worth Knowing.
Hughes' Tonic—The old-time, reliable remedy for Fever and Ague. Reputation earned by thirty years' success. You can depend on Try it! DRUGGIST.

The First Symptoms of Death.
Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of poisoned blood. No matter how it became poisoned it must be purified to avoid death. Dr. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poisons. Sold under positive guarantee. H. Hillyard.

For the next 60 days I will make full sets of teeth on best rubber plates for \$10, or either upper or lower sets for \$8. I warrant a perfect fit and finest finished work; will go to the country or surrounding town for work at same prices. If you want new teeth let me know. F. H. Gossitt, Dentist.

To Rent.
On October 1st I will rent to the highest bidder the Ohio river land in Marion County, Ky., warehouse, exclusive shipping privileges. Will rent for three or five years, payable annually. Bond with approved security required.

R. W. Foster.
A Child Killed.
Another child killed by the use of opiates given in the form of Soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. Acker's Baby Soother. It contains no opium or morphine. Sold by Hillyard & Woods.

Our Very Best People
Confirm our statement when we say that Dr. Acker's English Remedy is in every way superior to any and all other preparations for the Throat and Lungs. In Whooping Cough and Croup, it is magic and relieves at once. We offer you a sample bottle free. Remember this remedy is sold on a positive guarantee. J. H. Hillyard.

COAL! COAL!
Brawner will handle both Commercial Point and DeKoven coal this season. Save your contracts until you try the Commercial Point and be convinced that it is as good as the best.

New Tinner
THEO. VOSIER, MARION, KY.

Has opened a tinshop and is prepared to do all kinds of work in this line. Guttering and roofing a specialty. Galvanized and sheet iron work done, work warranted, prices reasonable. Shop near Cardin's stonemason. Call.

Amos W. Harris FLOURNOY UNION CO, KY.
—Breads Registered—
DUROC-JERSEY HOGS.
If you want the very best stock, write or call on him at his farm. He guarantees his stock to be as represented.

A BARGAIN FOR SOMEBODY.
CLOSING OUT SALE.
I have a stock of groceries at Glendale, 2 miles west of Crittenden Springs, on Hurricane road, a good location, which I will sell at a bargain

Sam Howerton for Congress

At a meeting of the farmers, their wives and children, the young ladies and gentlemen, and all of human kind at

Howerton's Store, Kelsey, Ky.,

they unite in the opinion that Sam Howerton is the man, (not for Congress) to buy your fall and winter goods from. Every thing in

DRY GOODS, CLOTHING, NOTIONS,

FURNISHING GOODS,

BOOTS, SHOES, ETC.,

WE HAVE IT.

DIES FINE DRESS GOODS A SPECIALTY.

We keep right up with the times in every respect. Sell goods for cash strictly, and sell at **HAIR SPLITTING PRICES.** No lagging, dragging, or whining, but we will proceed to show you through our stock the moment you step in at the door. If you don't buy it is not our fault and no harm done.

Respectfully

Sam Howerton

WANTED.

000 Railroad Ties, for which I will pay the CASH.

Got in today 780 doz tin buckets, that market 3600 buckets bought before tariff went into effect, and will sell without tariff on them. Don't forget that I have the Princeton flour the best ever kept in Marion.

M. Schwab.

Dissolution Notice.

The firm of Kevill & Lamb has this day been, by mutual consent, dissolved. J. B. Kevill will wind up the firm's business. All persons indebted to the firm must settle on or before December 1.

J. B. Kevill.

A. W. Lamb.

This Oct. 10, 1890.

Hillyard & Woods have purchased Dr Cossitt's drug store.

John Glascock returned from Clarksville Tuesday, where he has been to assist the band at that place in furnishing music for the fair.

Call on Dr. Weaver when in Marion for dental work. He is supplied with all the latest improved instruments and will treat you right.

John Lamb and Dr. J. R. Clark have purchased the Marion Roller Mills. Mr. A. Lamb, who is an expert miller will continue as manager.

Hillyard & Woods have purchased Dr. Cossitt's stock of drugs, and will continue business at the old stand. Mr Woods will be the active partner.

Elder D. M. Green, of Marshall county, was in town Saturday, en route for Dunn Spring church, this county, to begin a protracted meeting.

Don't allow those old teeth to stay in your mouth and ache all winter. Dr. Weaver will extract them with very little pain, and put in some new ones.

The town trustees held a meeting Saturday, and allowed street commissioners to receive the money for Lumber.

Dr. Cossitt, having store, will devote his entire time to dentistry. He will shortly open his office in the second story of the Masonic block.

Having opened a store next to Siscoe Bros, I would like for you to come in and get my prices.

Freeman Hurley.

Henry Spencer has sold his brick hotel in Caseyville to Cook Bros., of Crittenden county. Consideration \$1200. Possession given the 15th inst. - Sturgis Enterprise.

Recently Mr. J. P. Sullenger lost his house and nearly all of his household furniture, meat house, etc., by fire. He is a poor man and the loss falls heavily upon him.

Rev Barbee closed the protracted meeting at this place Sunday night and went to Sugar Grove Monday, to begin a meeting. He is a strong preacher and had good congregations while here.

Mr J. L. Mitchell, of Mullica, paid a visit Saturday. He was accompanied by his brother, Charles Mitchell, of Oregon county. Mr Mitchell is on the look out for a farm in this section.

The Williamson Combination Short Hip, Corset, and the French Weave, and the Dress Form are the leading corsets. Don't buy until you see these, for sale by.

Mollie Rochester.

A hog belonging to Amos Harris, of Union county, was exhibited at the Henderson fair last week. The porker was named Polk Laddison and weighed 1,000 pounds. Mr. Harris had several other hogs of the same variety on exhibition. - Hustler.

Do not forget that I carry the largest, best and freshest stock of groceries that was ever carried in the county, and sell them 20 per cent. cheaper than they ever were sold. You know that to be a fact.

M. Schwab.

The K. P.'s will occupy their new hall Friday night week. They will celebrate the occasion with public speaking. The order has grown and is rapidly growing here, and their building and equipping a handsome and substantial hall indicates stability.

Monday afternoon John E. Watson and Thomas Woody became engaged at each other, while on the street, and soon pretty ugly, rough and loud language was used, and a strong desire to fight was exhibited. Friends interferred and bloodshed was prevented.

I want all the walnuts and hickory nuts in our 3 counties; will pay cash for them. I also want all your eggs chickens and geese; will pay for eggs 12c; large spring chickens, \$2.10 per doz; large old hens, \$2.60 per doz; will pay cash.

M. Schwab.

A party composed of H. P. Long, J. C. Elder, Jr., John Glascock, J. C. Rochester, and Mrs Long, Mrs. Julia Wheeler, Mrs J. P. Pierce, Mrs L. A. Glascock, Mrs W. D. Wallingford and Miss Maggie Wallingford expect to start to Cincinnati to day. They will go to Weston and take a steamer.

The Hampton Academy is no longer an experiment. New students are entering every week from various parts of the county. Already four of the best families of the county, living at a distance, have sold their farms and purchased property in or near Hampton for the purpose of education. Prof's Robinson and Sikes say they are highly pleased with the educational interest manifested by the people in general, and especially are they thankful for the harmony, industry and brilliancy of their pupils.

Go Hillyard & Woods for "C. C. C. Certain Cough Cure," it cures coughs, colds and all throat and lung diseases.

I will keep fresh oysters, cranberries and fresh prunes and raisins. New stock received every few days; also keep Princeton and Fredonia flour on hand.

Freeman Hurley.

Just received 2400 lbs nice country meat, 1600 lbs country lard, will sell it at 8c, either meat or lard. I still have two town lots and a small farm close to town, will sell or trade.

M. Schwab.

Princeton, Ky, Oct 12. - The through freight which passed here at 5:10 a m was wrecked at St Charles, a station eighteen miles east of here and the engineer, an old employee of the road, was killed. The accident was caused by leaving a section car loaded with rails on the track. The section boss was under the impression that the train had passed, as it was over due.

Friday a young man named Rodgers of the Crayneville vicinity, died a very painful death. Some months ago, while playing he accidentally ran a small stick into his throat, and a portion of the stick was never drawn out, and it worked its way out through his neck, causing intense pain for weeks, and bringing on other disease from which he died.

Dr. Cossitt, having been issued a license to practice medicine, will shortly open his office in the second story of the Masonic block.

J T Crider to P S Max in mineral privilege for \$120.

W R Cruce to S M Jenkins, lot near Marion, for \$450.

Kevill & Lamb to Clark & Lamb Mill for \$4,507.38.

W N Davis to A J Pickens house and lot for \$1,000.

Married.

Mr Ed Cook and Miss Fannie Nunn were married at the residence of the bride's father, John Nunn, in Bell's Mines neighborhood. Wednesday evening at 8 o'clock. Rev S. K. Breeding officiating. A number of friends witnessed the happy event and many more join with them in wishing the happy young couple a long and prosperous wedded life. Mr Cook is a prosperous young farmer of this county, and deserves the excellent young lady he has won for a wife. The bride is the daughter of one of the oldest and most highly respected citizens of the county; she is a handsome, lovely girl.

Mr W E. Sunson, formerly of this place but now a resident of Norris City, Ills, and Miss Allena Brannen, a beautiful and accomplished young lady of the same city, were united in marriage on the 1st. Ed's many Kentucky friends join with the Press in sending congratulations.

Planting Mill Burned.

Morganfield, Ky., Oct. 10. - D. M. Rhea's planing mill, containing about 20,000 feet of lumber, besides numerous saws, turning lathes, etc., was burned today. Loss about \$3,000, with no insurance. The fire is thought to have originated from the engine while the employees were at dinner.

On Wednesday of last week the largest check ever drawn on the treasury of the State presented and paid off at Frankfort. It was for the benefit of the public schools, the October draft, and amounted \$618,449.50. This represents about two-fifths of the money that will be sent from Frankfort this year to pay the teachers. Ann yet there are those who claim that the public school system of Kentucky is a failure. It is a question of time when our public schools will be the best in the United States. We have confidence in the wisdom of the masses and believe that the sentiment in favor of better schools will continue to grow and develop. - Madisonville Hustler.

NOTICE.

We the undersigned committee, will on Oct 20 at 1 P. M. 1890, let to the lowest bidder the contract for roofing Crooked Creek Baptist church. The contract will be let at the church. Good bond will be required of the contractor. All persons who have subscribed boards will please deliver at the building before that day.

R L Thurmond, Job Postlethwait, Press Fritts, Roe Gilbert, P E Shoemaker.

Court of Claims.

The Crittenden county court of claims convened Monday with the 14 justices of the peace present. The first order made was one appropriating money sufficient to pay the county's pro rata of the Claylick bridge and appointing J W Blue, jr to borrow the money.

Samuel Crowell was by order released from paying poll tax; the order was afterwards rescinded. F M Brightman, from'to have a bridge built near S O Nunn's, reported that the work had been done and I D Nunn and S O Nunn were entitled to \$150 for building same and the amount was allowed.

By order J W Phillips was, on account of old age, released from paying poll tax.

Harriet Bebout was allowed \$20 for the benefit of John Bebout, pauper idiot.

Angelina Holeman was allowed \$20 for benefit of Evass Holeman, a pauper idiot.

A A Davenport was allowed \$20 for benefit of Charles Davenport, a pauper idiot.

Eliza Underwood was allowed \$20 for the benefit of Smith Ordway, a pauper idiot.

The following claims were allowed Wrought Iron Bridge Co, balance due, \$117.25.

R C Kennedy, for repairing bridge on Livingston creek, \$74.

J H Clifton, bridge com'r, \$6.

The following claims were allowed Sam Crowell, right of way for public road, \$10.

B Barger, keeping Alice Barger pauper idiot, \$15.

Jemima Reynolds, to aid in her support, \$25.

Sarah T Davidson, right of way for public road, \$20.

P E Shewmaker, for removing timber from public road, \$40.

W R Lanham, for keeping paupers from Oct 1, 1889, to date, \$922.13.

Dr W S Cain, services as poor house physician, \$50.

F M Brightman, services bridge com'r, \$5.

A B Miller, blind man, for medicine, \$5.25.

John A Patton, Nathan W Bryant, Leroy Davidson and Wm Coffield were by order released from poll tax.

The county judge and county attorney were ordered to let out poor house and keeping of paupers for 1891, and employ a physician for poor house practice.

W H Asher was appointed Supt. of the poor house with a salary of \$20.

G W Perry presented claim for balance due him on salary as Supt. of schools for 1889. The same was rejected.

Chas Davidson was released from road work by reason of disability.

properly certified by surveyor be allowed at the rate of \$1 per day.

R L Tyner allowed \$5 for pauper coffin.

Ed Holoman, Thos Wright, John W Holoman and G H Belt released from paying poll tax.

Ordered, that a sum not exceeding \$125 be appropriated for building bridge near Bells Mines church and F J Imboden appointed com'r to build same.

Ordered, that the county judge appoint a com'r to report on the necessity and cost of a bridge on the road from Springs to Planary's, and on Deer Creek near J W Dettis' on the Lola and Sullingers road.

Ordered that not exceeding \$300 be appropriated for repairing bridge near T S Crofts, on Wallace Ferry road.

Malaria produces Weakness, General Debility, Biliousness, Loss of Appetite, Indigestion and Constipation. Grove's Tasteless Chilli Tonic is a perfect Antidote for Malaria and removes the cause which produces these troubles. Removes Biliousness without purging. Is as large as any Dollar Tonic and retails for 50c.

Is as pleasant as Lemon Syrup. Try it, and you will be delighted. There are many imitations. To get the genuine ask for GROVE'S. Never fails to cure Chills. Sold by all Druggists.

A Duty to Yourself.

It is surprising that people will use a common ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick headache and all liver troubles. They are small, sweet, easily taken, and do not gripe.

Is Life Worth Living.

Not if you go through the world a dyspeptic. Dr. Acker's Dyspepsia Tablets are a positive cure for the worst forms of Dyspepsia, Indigestion, Flatulency and Consumption. Guaranteed and sold by J H Hillard.

HAYS' ITEMS.

Don't forget that Hays will give you as much spot cash for eggs as any man.

Bring your bacon to Hays and get the cash.

Buy your groceries from Hays and get the best, and 16 ounces to the pound.

A surprise to some people to know how Hays sells so many groceries; its just by knowing where and how to buy.

Bank on the sea of trade. Hays sank prices so low they will never rise again.

Ladies heavy winter shoes at 75c, at Clement & Croft's, Tolu, Ky.

PARKER'S HAIR BALM

Keeps the hair from falling out. Promotes a luxuriant growth. Restores the hair to its natural color. Cleanses the scalp. It is the only hair dressing that is safe for the hair.

Louisville Tobacco Market

Sales on our market for the week just closed amount to 2,822 Hbls with receipts for the same period 4,181 Hbls, sales on our market since Jan'y 1st, amount to 122,478 Hbls.

The market continues extremely low for all common grade of dark tobacco, while the better grade remains steady at about such figures as have been current for a number of weeks past. The new crop may now be considered as practically housed, but in some localities it has been greatly damaged by unfavorable weather conditions, and we are promised another crop abundant in damaged tobacco.

The following quotations represent our market for dark tobacco.

Trash 50c @ 100

Common Lugs 150 @ 200

Dark lugs extra quality 2 00 @ 4 00

Good " " " 2 50 @ 3 50

Common Leaf " " 3 50 @ 5 00

Medium " " " 5 00 @ 6 50

Good " " " 6 50 @ 8 50

Fine " " " 8 00 @ 12 00

For Sale.

I have for sale a good 24 horse power engine and boiler that \$25 worth of repairs will make it as good as new, and good saw mill and corn mill in good running order, and tin shop and belts, steam machine, bolt reel and good wheat mill; will sell all the machinery alone for \$1400 or will sell the machinery and house and saw shed for \$1550. The house and shed cost \$250, and any man that will run it right can make the price with the mill in 12 months. Come and look for yourself, or apply to Leffel & Co., Marion, Ky.

Aug. 13, 1890. E. H. PORTER.

Dr Acker's English Pills

Are active, effective and pure. For sick headache, disordered stomach and loss of appetite, bad complexion and nervousness they have never been equaled in America or abroad.

NOTICE.

My deputies are now out for the purpose of collecting the taxes due.

Those who failed to meet them at the places heretofore appointed must pay or we will levy without further delay.

A. J. Pickens, S. C. C.

For Rent or Sale.

The grist and saw mill at Tolu, Ky, all in good running order. Will rent reasonable or will sell low and on easy terms.

Can give possession Oct. 8th 1890. For further information, call on or address Henry Ledbetter.

Elizabeth Howard III.

W. H. Nunn,

PHYSICIAN AND SURGEON

Repton, Ky.

Wanted,

Tye makers, Steady work. Good pay. Apply to J. R. Finley, Marion, Ky.

CENSUS FIGURES

Population by Counties of the First Supervisor's District

The population by counties of the First Supervisor's District of Kentucky, completed at the Census office is as follows:

Counties	Pop	Pop
Ballard	1890	1880
Butler	8,371	14,378
Caldwell	13,867	12,181
Calloway	13,651	13,265
Carlisle	7,614	
Christian	34,045	31,082
Crittenden	13,165	11,888
Daviess	34,003	27,739
Fulton	9,915	7,977
Graves	28,486	24,138
Hancock	8,189	8,563
Henderson	29,489	24,515
Hickman	11,045	10,651
Hopkins	23,132	19,122
Livingston	9,450	9,165
Lyon	7,567	5,658
McCracken	21,065	16,293
McLean	9,867	9,292
Marshall	11,464	9,647
Muhlenberg	17,993	15,608
Ohio	22,909	19,698
Todd	16,787	15,094
Trigg	13,890	14,389
Union	17,225	16,809
Webster	17,178	14,246

Total for the district 415,897; in 1880 the population was 365,640, an increase of 50,257, or 13.72 per cent.

The population of the principal towns in this district is as follows: Hopkinsville, 6,457, increase 2,228, per cent. 52.68; Henderson, 2,890, increase 3,465, per cent. 64.59; Owensboro 9,818, increase 3,587, per cent. 57.57; Paducah 13,024, increase 4,988, per cent. 62.0.

Ford's Ferry.

Having noticed, Mr. Editor, that you asked for a correspondent at this place I have been waiting, thinking some one more competent of handling the pen than myself would be so kind as to send you a few lines, but finding that no one feels at liberty to do so, and not feeling disposed to let our little town go any longer unrepresented, if you will accept a new scribe I will do the best I can for you.

Watermelons are still in demand. River falling slowly, leaving the banks very muddy and slippery. W B Wilborn is having a cistern dug.

With the exception of some chills health is good.

W L Clement has 40 acres of wheat laid ready for sowing.

J M Flanary is having his dwelling repaired. Carpenter Ford is doing the work. Andy is a good workman and understands his biz.

Flanary Bros are still in the ring, and don't you forget it; they are selling goods at rock bottom prices.

Misses Daisy and Mima Wilborn were the guests of Miss Sallie Rankin Sunday.

R L Yeskey attended church last Sunday.

W B Rankin and J H Wood talk of starting to Texas in a few days.

G C Wathen returned from Texas last week. Gabe expresses himself well pleased with the Lone Star State, but says old Crittenden is the garden spot of the world.

G W Nisbett, the popular merchant of Beech Valley, has disposed of his stock of groceries at that place and is now a citizen of our little town.

What's the matter with Fowlers and Ornders, they seem to be scared of each other. Come, boys, stop your bragging and do more playing, and we think both clubs will do better.

Our school is moving along quite smoothly under the management of Miss Lou McNeely. Miss Lou is teaching us a good school and gives entire satisfaction.

J C Crowell (better known as No. 2) is adding considerable improvements to the little town of Clementsburg, by erecting a new dwelling and store combined.

A protracted meeting is in progress at Dunn Spring.

Clipper.

Classifying the World's Fair Exhibits.

Chicago, Oct. 8.—The Classification Committee of the National World's Fair Commission completed the more important portion of its work today, by deciding upon 12 great departments into which the exhibits of the fair will be grouped. They are:

- Agriculture, Farm Machinery and Appliances, Forestry and Forest Products.
- Viticulture, Horticulture and Floriculture.
- Live stock.
- Fish, Fisheries, Fish Products and Apparatus for Fishing.
- Mines, Mining and Metallurgy.
- Machinery.
- Transportation and Intercommunication.
- Electricity and Electrical Appliances.
- Manufactures.
- Fine Arts.
- Music, Education, Literature, Engineering, Public Works, Sociology.
- Progress of Human Labor and Inventions (this will embrace, among other things, weapons work).

Texas Letter.

GAINESVILLE, TEX., Sept. 27, 1890.

ED. PRESS: I went to the livery stable one afternoon last week and paid \$1.50 for the use of a \$20 broncho pony to ride out into the country a few miles. I was truly astonished to see what a great change nature had placed upon the prairie. Some three or four months since I made a similar trip and then I found scarcely anything but a dry, burned up country, the grass dying, water all dried up, cattle perishing for drink, and it seemed that a famine would soon strike our fair land; but now how different things appear! Dry winds have ceased, rains have descended, and floods have come and the prairie is covered with the green growing grass, the brooks and rivers are flowing with clear, cool water, and cattle and horses look fat and healthy!

Late crops, such as garden sassa, turnips and the like, are now in abundance, but the rains did not come too soon, consequently a poor crop in general was made; therefore this may be termed a hard year for this State. Corn was very light, oats and wheat almost an entire failure, while cotton is tolerably good and will furnish the hard working farmer with sufficient means to exist on. Of course Grover Cleveland sent forth the election bugs in '88 that caused hard times; and Ben Harrison checked the rain this year, which caused tough times; consequently it seems to be a difficult task for these U S to get a man at Washington who will favor the country with flourishing times. When I was a little wee small boy (and I am not much larger yet) among the first things that I now remember to have heard, was "hard times." In Ky I always heard the cry of "hard times," on the road to Texas from the car windows at every station I heard the cry of "hard times" and in Texas the cry of "hard times" can be heard on the streets daily, and I expect to hear hard times proclaimed just as long as my ears serve me, and when I fail to hear the cry, I expect to hear Gabriel's horn.

I am proud to say that we the citizens of the Fifth Congressional district of Texas will furnish the youngest Congressman the United States ever had, in the person of Hon J W Bailey, of Gainesville, who has triumphantly and overwhelmingly defeated Hon Silas B Hare, our present Congressman. Mr Bailey is one of the shrewdest and best of men in the South, and we predict that the country will hear of him when he gets to Washington. His nomination was ratified Thursday last with a grand free barbecue where thirty beefs and as many hogs and sheep were served; fully three thousand stomachs were filled and the fragments that remained would have filled as many more.

Recently at a Republican State Convention held at San Antonio, a move was made to organize a white Republican club, independent from the negroes entirely. It is strange that the Republican party, which claims to favor the negro, and promises to do so much for him, wants him excluded from the party. The fact is, when there is anything to be done the negro is recognized, but when there appears a district or a county where there is a Republican majority, as is often the case in the South; in order to keep the negro out of office he stands excused.

I wanted to speak of the Railroad Commission and other questions that will come before the Texas Legislature this year, but it will require too much space, consequently I will close.

Very respy;

F. J. Clemen.

PRINCE ADOLF VON SCHAUMBURG-LIPPE.

Future Husband of Princess Victoria, of Prussia, Emperor William's Sister.

Princess Victoria, of Prussia, second daughter of the late Emperor Frederick, and his consort, Empress Victoria Adelaide, eldest daughter of Queen Victoria, has at length found a husband in the person of Prince Adolf von Schaumburg Lippe, who was born July 20th, 1859, the youngest child of the reigning Prince of Schaumburg Lippe. Prince Adolf holds a commission in the Prussian army. His fiancée was born April 12, 1866. The German government has bestowed upon her a grant of \$50,000 a year, upon which income the Imperial couple will be expected to live. Princess Victoria formed a strong attachment for Alexander of Battenburg, Prince of Bulgaria, but diplomatic reasons forbade the consummation of that union. She was also mentioned at one time as a possible wife of her cousin, Prince Albert Victor, eldest son of the Prince of Wales.

Have a number of desirable tracts of Livingston and Crittenden county lands for sale

Stray Notice.
Taken up as a stray, by G. W. Matthews, one mile South of Frances, Crittenden county, Ky, one dark bay colt, two years old, with white spot on neck; no other marks or brands; valued by me this day at seventy-five dollars. September 25, 1890.

T. P. Hard, J P C C

A CITY LUXURY.

Just as the city looks to the country for most of the luxuries used on its tables, so the country must turn to the city for those conveniences which are justly termed luxuries for the hard-working housewife. City housekeepers have learned to realize that to save time is to lengthen life.

SAPOLIO!

is one of the best known city luxuries and each time a cake is used an hour is saved. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. IF YOUR STOREKEEPER DOES NOT KEEP IT YOU SHOULD INSIST UPON HIS DOING SO, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well-supplied store. Everything shines after its use, and even the children delight in using it in their attempts to help around the house.

BOOK-KEEPING, SHORT-HAND, TELEGRAPHY, PENMANSHIP, Etc.
Every Young Man and Woman
Who desires to better his or her condition in life, should write for the Catalogue of BRYANT & STRATTON BUSINESS COLLEGE

DISTILLERS OF
Old Fashion Fire Copper Whisky

OLD HICKORY.

This brand of Whisky is made expressly for our retail trade in this and adjoining counties and no expense or labor is spared in its manufacture. We also use the best selected grain, a large portion of which is small grain—rye and barley. This whisky is recommended by most physicians in their practice. A good stock always on hand and for sale at lowest rates at distillery. Persons needing pure liquor for medicinal purposes will find it to their interest to use this liquor.

IA MAN

UNACQUAINTED WITH THE GEOGRAPHY OF THE COUNTRY, WILL OBTAIN MUCH VALUABLE INFORMATION FROM A STUDY OF THIS MAP OF

THE CHICAGO, ROCK ISLAND & PACIFIC RAILWAY.

Including main lines, branches and extensions East and West of the Missouri River. To all points East, North and Northwest from Kansas City to Rock Island, Davenport, Des Moines, Chicago and via Albia, Iowa, to St. Louis, St. Paul, Minneapolis, St. Paul, and interconnecting towns and cities. Water-short, direct route. In connection with lines from St. Louis, Cincinnati, Louisville, Nashville, and Eastern and Southern points converging at Kansas City, it also constitutes

THE SHORT LINE TO DENVER AND THE WEST, FROM THE MISSOURI RIVER.

It traverses vast areas of the richest farming and grazing lands in the world, forming the shortest, most prompt and economical route of transportation to and from all cities, towns and sections in Kansas, Colorado and the Indian Territory. Full Reeling Chair Cars between Kansas City and Caldwell, Hutchinson and Dodge City, and Pullman Sleeping Cars to and from Wichita and Hutchinson.

MAGNIFICENT VESTIBULE EXPRESS TRAINS,
Leading all competitors in splendor of equipment, and in summer, warmed by steam from the locomotive in winter, well ventilated and free from dust and southeast, with elegant Pullman Reeling Chair Cars between Kansas City and Caldwell, Hutchinson and Dodge City, and Pullman Sleeping Cars to and from Wichita and Hutchinson.

THE ROCK ISLAND IS THE FAVORITE TOURIST LINE
To Manitou, Pike's Peak, the Garden of the Gods, Cascade, Green Mountain, Manitou, Idaho Springs, the mountain parks, mining camps and cities, sanitary Pullman Reeling Chair Cars, equipped with every modern improvement, they also make close connections at terminal cities in Colorado at Union Pacific, Denver, Texas and Fort Worth, and all other diverging lines. For Ticket, Maps, Time Tables, Folding maps only at important intervening stations in Kansas and Colorado. Superb Dining Hotels at convenient monthly, or further desired information, address

E. ST. JOHN, General Manager. CHICAGO, ILL. JOHN SEBASTIAN, Gen'l Ticket & Pass Agent.

TO MY OLD FRIENDS AND CUSTOMERS

Since the fire I have moved my shop to the Murphy house on Bellville St., where I serve you as I have for the 40 years. I return my grateful thanks for so long a patronage and hope a continuance of the same. I have a good stock of Saddlery and Harness of all kinds, Stoves, Plows and Drills. All will sell as low as the best. Come round and see. OLD MAN before buying he will surprise you.

Yours Forever,

A. C. Gilbert.

Hughes' Tonic

Sure Cure For Chills and Fever FOR 30 YEARS A SUCCESS

Read this Testimony then TRY it for Yourself

Better than Quinine

Proprietor has never known it fail. I can certify to the fact that Hughes' Tonic is the best chills I ever took. I consider it better than quinine.

Cures Chronic Cries.

H. V. McDonald, Leland Hill Miss, writes "I have tried for Chills and Fever has not failed yet and I have sold it to a number of my friends. It cures them even of chronic cases. It cures them even of chronic cases. It cures them even of chronic cases."
