Dr. J. D. Clarady, of Christian county, has formally announced his candidacy for Governor. He runs subject to the action of the Democratic party.

The farmers in northern Nebraska are in a destitute condition because of the drouth during the crop season. A committee has reported to the Governor that \$100,000 will be needed to provide for the people during the winter months.

Mr. Blaine has grown in popularity since the election. He was opposed to the McKinley bill as it passed, and his judgement in that respect is appreciated now by his party. It is said that President Harrison is jealous of the Secretary of State's popularity.

Judging from the appearance of the Ledger, Murray is prospering as much as the most enterprising soul could desire. The Ledger is now a nine column paper, and besides having plenty of reading matter has a fine lot of handsome advertisements. A town that advertises is doing business.

Senator Sherman, when interviewed about the causes that led to the result of the late election, replied tersely and to the point: "The women did it. They found the prices higher when they went shopping, and the men had to vote against the tariff bill."

Madisonville is on a genuine boom. A wagon and plow factory, a woolen mill, a tobacco manufactory are among the new enterprises on foot in this city. The place has a Commercial Club, and that club is being used energetically to arouse the sleepy citizens and assist the enterprising ones in bringing about an era of business vitality. United efforts of this kind have made new roads spring up in desert places, laid the same character of front, a little of this work in Marion is a tedious badly needed.

To the Democrats of Crittenden and Livingston Counties.

Nov. 17th, 1890.
Recently I have heard considerable talk, also some suggestions in the Press as to whom our next Representative shall be. Now as I am myself, a Democrat, and feel a great interest in the welfare of the whole State, and especially in the these two counties, I feel inclined to express a few thoughts that may, perhaps, be of interest to some one, if not to the counties at large. I, myself, am no politician, but an humble citizen, nevertheless whatever concerns the people of my state or my county, concerns me also. What is their interest is also my interest, and the law which governs them also prescribes my rule of action; therefore, hoping that this will suffice for an excuse for me writing this article, I find courage to proceed. There has not been a time since 1862 when so much importance was attached to the work of a legislature as will be to the one of next year. Then, as will be the case next year, the work of the legislature had to conform to the letter and spirit of a new Constitution; hence the great importance of having men of wisdom and learning to represent us in the legislature of next year. The laws that were enacted by the first and subsequent legislatures after the adoption of the Constitution of 1850, which have come down to us, bespeak the wisdom of our former law-givers. But those enactments which were declared unconstitutional and set aside by the Supreme court, speak in plain terms that those men were not thoroughly learned in constitutional law. It shows that the men gathered from the fields and work shops, and who are not well learned in the fundamental principles of government, are liable to, and do make great mistakes which cost the State large sums of money to rectify. It furnishes grand opportunities for lawyers to feed fat their purses at the expense of helpless litigants. It causes unnecessary work for our courts, besides it causes legislatures to consume time in revising, repealing and remodelling such laws, all of which has to be paid for out of the hard earned money of those who bear the burden of taxation.

The work of the next Legislature will not be what the work of Legislatures usually is, viz: passing local bills and electing U. S. Senators, but far more important, and the most important part of the legislature will be the committee on judiciary work. The adoption of a new Constitution necessary calls for a revision of our statutes. What is law under the present Constitution may not be under the new one, consequently those who are sent to make new laws, revise and repeal

old ones so as to make their work conform to a new Constitution, should be men who have made Constitutional law a special study. Not necessarily, barristers, for some good practitioners are not good Constitutional lawyers. They should be men who have made the study of political economy as well as the science of state control a special study. They should be learned in the economic administration of affairs as well as the fundamental principles of government. If they are not thus learned, how can we expect to have a code of law given to us under a new Constitution, to escape the scrutiny of a learned Supreme court and avoid an enormous amount of litigation? Let me urge you my Democratic brethren to ignore the demagogue and 'chronic office seekers,' for he will prove a mare to your feet. He who obtains position by artifice and blarney is a fraud and wholly unworthy of your confidence. The man who makes a business of office seeking is not the man for the place. He studies contrivance and not Constitutional law. I am somewhat of an advocate of the old doctrine, "Let the office seek the man and not the man seek the office." At least the man should honor the office and not the office honor the man. If we will but consider the folly of sending incompetent men to the legislature, we may profit by so doing. When has there been a legislature that did not have to undo a part of what the preceding one had done? It is a shameful fact that a goodly portion of the time of each legislature has been devoted to repealing and revising some laws passed by the preceding one. Besides occasionally a law comes before the Supreme court and is declared unconstitutional and set aside. Now why is this? The answer is apparent: Because politicians and not statesmen are elected to the legislature. Men are elected on their popularity and not on their merit. We have no way of judging the future only by the past, and if we would profit by the mistakes of the past, we could avoid like mistakes in the future. Without a doubt there will be several aspirants to legislative honor next year, therefore, my Democratic friends, let me urge you to guard well your interest. Look to the competency of the man and not his vocation. Do not believe that because a man follows a certain calling or belongs to a certain class order, or profession, that he is more competent to make you a good Representative than some one else. Do not prejudice. When you are considering the merits of those who come before you, no matter who they are, what they are, or what they have been, you should look for intelligence and principle, and not be "galled" by blarney. By right of custom, the next Representative should, and doubtless will be a Livingston county man, but we desire Crittenden county to speak her sentiments in regard to him. It is not our purpose to suggest any special one just yet, but we want and desire an expression from Crittenden county. We would like for the local scribes of Crittenden county as well as those of this county to give the voice of their respective neighborhoods. Let the matter be discussed through the Press, for this is the surest way of getting the voice of the whole people. Hoping to hear from my Democratic friends through the Press, I am yours Respectfully,

CLAUDE LUYTON.

Representative E. C. Flannery was thrown from a wagon last week and in the fall his collar-bone was broken. He was considerably bruised. He was holding his baby in his arms when he fell, but succeeded in saving the little fellow from any injury.

The First Purchase.

The Crittenden Land and Mineral Company purchased D. H. Franks' farm last week, paying him more than double the price he paid for it a few years ago. This is one of the many tracts of land which this company has had an option on, and the final purchase of it for a good price is prima facie evidence that the company is on a substantial footing, and means to develop the minerals that are found in great abundance in that section.

A Card of Thanks.

I herewith tender my sincere thanks to the good people of Marion and the many friends of my late husband for their kindness and attention shown him during his late illness and their expression of sympathy.

Respectfully,
Mrs. A. Wolf.

BRIGHT PROSPECTS.

Prof. J. V. Brooks Talks Encouragingly of Crittenden County's Future.

A PRESS reporter had the pleasure of an interview with Prof. J. V. Brooks, of Louisville, now in the employ of the Crittenden Land and Mineral Co. He is good authority on all matters pertaining to mineralogy and mining; his knowledge is not simply the theoretic kind, but that gained by practical mining as well. He has now been in the county some weeks, and has made a thorough inspection of the mineral lands, and what he says is reliable.

"What are the prospects for developing the county?" was asked him.

"With such men as R. W. Wilson, G. C. Gray, the Blues, and P. S. Maxwell, of your town, as directors of the Crittenden Land and Mineral Co., the enterprise is sure to meet with success. These gentlemen are men of integrity and push. You know that Missouri supplies one half of the lead and zinc mined in the country, and Crittenden county can supply the other half, for your lands in true fissure veins, and the company controls miles of land which these veins cross."

"But, professor, while mining will do our country good, what benefit will Marion reap from this mining?"

The professor replied: "When active mining for lead and zinc takes place, it will be necessary to have furnaces on the grounds to smelt the ores. These mining developments and smelting furnaces will give employment to hundreds of men; thus when the pig metal is ready for market, some enterprising business man will find that Marion is the place to start white lead works, and as one enterprise follows another, I see no reason why the town of Marion may not, in the near future, become a manufacturing center. Then you have your coals and umbers, the mineral points—that particular branch of industry is no small matter."

What about our iron and coal?

"It is a known fact that the quality of your iron ores is of a superior grade, and instead of shipping them to Pittsburgh or Cleveland, they can be smelted at or near the mines. You have the river for cheap and easy transportation, and then there is the proposed railroad going directly through the mineral belt of the county, and through the company's lands. Then you have your coal fields. When the furnaces are erected, coke being the fuel, need not be shipped here from Connelville or Pineville, for your coal is of the quality admirably adapted for coke, thereby saving the cost of transportation of this commodity and adding another industry to your town and county. In view of these things I must say that the future of your county as a mineral and metal producing area is a settled fact. You readily see the advantages that may be derived from the development of the resources of Crittenden county, and I do not hesitate to tell you that in a very short time that which I have told you will prove true. You will see such a substantial boom as never has been before witnessed in Kentucky. The Crittenden Land and Mineral Co., has exactly what it claims and represents."

Preferred His Sweet-heart's Company to that of the Jailor.

Last Saturday there was a trial at Fords Ferry before Justice Paris, and Jake Robeson was fined \$17 for a breach of the peace, and \$10 for racing on the public highway. Jake couldn't give bond to raise the funds necessary to satisfy the Commonwealth against whom he had sinned, and he was turned over to Constable Bradley to be delivered to the Jailor. While riding leisurely along to wards the capital of the county, Jake caught the officer napping, as it were, and, turning, clapped the spurs to his steed, was soon beyond the reach of the constable, who gave chase but never brought Jacob to bay. Monday Jake came to town smiling and explained to the officers that he had an engagement with his girl Saturday night, and he left the Constable to keep his word with his bee girl.

Abe Wolf.

Mr. Abe Wolf, a well known merchant, and highly respected citizen, died at his home in Marion, Friday afternoon, Nov. 14, 1890, after an illness of some weeks. Mr. Wolf was 51 years old, and had spent about 15 of those years in the mercantile business in Marion. He has many warm friends in this community, and his name will be long and kindly remembered by the people among whom he has lived so long. He was a member of the Masonic Lodge and the Knights of Honor Lodge of this place, and in each of these orders he stood high, and had filled important offices. The two orders and a large concourse of friends accompanied the remains to the depot Sunday, and all that was mortal of Abe Wolf was taken to Paducah for burial.

The bereaved wife and little ones have the sympathy of the entire community.

S. B. WELDON ROBBED.

\$7900.00 Stolen From His Pocket While He Slept.

Mr. S. B. Weldon, the well known merchant of Tolu, met with a piece of very bad luck last Wednesday. He was going to Evansville on the steamer Joe Fowler, and when between Uniontown and Henderson he went to his room and went to sleep. While asleep his pocket-book, containing \$7900.00, was taken from his pocket. It was sometime after he awoke before he discovered his loss. No clue whatever could be found to the theft, and Mr. W. is short that amount of money. He does not merchandise on a very large scale, and the loss is a severe blow to his business. He was going to Evansville to pay off some bills and to purchase goods, when the theft occurred. The loss has so impaired his financial affairs that he has since, we learn, determined to make an assignment for the benefit of his creditors. Mr. Weldon belongs to one of the best families of the county, and his word is considered by those who know him, as good as any man's.

Good News if It Does Rain Ten Days in a Week.

While it has been raining as if the top was off and the bottom out, the news comes to us that those progressive old teachers, Coleman and Hicks, of Providence M. & F. Academy, have arranged an Advanced Teachers Course. The object of this course is to prepare teachers for teaching High Schools. The course embraces Latin, Geometry, Trigonometry, Astronomy, Algebra, Page's Theory and Practice of Teaching, and History of Kentucky. The class will be organized on the first Monday in February and continue till June 27. This is decidedly a move in the right direction, as any one will see who will reflect a moment. If the teachers in this part of the State would, when they reach the top for which the State pays in the public schools, prepare themselves for teaching the High Schools of this part of the country, we would hear no more of sending to Ohio, Indiana, or some other state for teachers of advanced schools, but Kentucky schools would be taught by Kentucky teachers, and the money for which we have worked would be paid to our own people, which of right, it should be. In fact, this is the only way by which teachers who now hold first class certificates, can hope to rise a single step higher, that is, prepare to teach high school. So we say, good luck and abundant success to Coleman and Hicks of Providence M. & F. Academy, and may they prosper as the propagators of this new departure deserves.

MUSICAL QUARTETTE CLUB.

A Company of Musical Artists to Visit Marion Friday Evening.

On to-morrow evening at the new Opera House the people of Marion will have an opportunity of hearing a musical entertainment of highest artistic merit, and one which the Press can safely promise will surpass any musical attraction that has ever before visited this city.

The members composing the Musical Quartette Club are all talented performers, and the programme that will be presented will be varied in character from the grandest conceptions of noted composers to musical light in character and popular in style. In this latter class will be several selections to tickle the lovers of comedy.

Prof. J. Maurice Bach is a composer of great popularity as well as a noted musician. His professional education was finished abroad where he was for several years under the best musical instructors of the Old World. As a pianist he is a brilliant performer, and possessing a tenor voice of purest tone; he is equally a success as a vocalist.

Madame Stiles Bach possesses a rich contralto voice of great power and flexibility. She is a graduate of the Chicago College of Music, and was trained under Dr. Ziegfeld for the stage, which career she, however, abandoned for the profession of teaching. As a singer she is an eminent success, having a fine stage presence and rendering her music with rare expression and perfect intonation. She has been flatteringly received wherever she has appeared, and the press commends her very highly.

Miss Parker is a pupil under the instruction of Madame Bach, and her singing reflects marked credit upon the teacher. Her voice is a mezzo soprano of unusual sweetness, and she takes her notes with admirable precision and artistic conception. Miss Parker, in addition to the possession of a cultured voice, is a young lady of unusually attractive appearance.

Mr. Marshall, basso, has likewise been a student in the art of singing under Prof. and Madame Bach, and has achieved an enviable degree of success as a singer and actor at his home in Henderson. He is a graduate of Princeton University, New Jersey, and was medalist in the

School of Oratory in that institution of learning. His selections in Marion will be of a dramatic character, in which style of elocution he excels.

Married.

At the Cumberland Presbyterian church near Hampton, Ky., Nov. 12, 1890, at 7 p. m., Mr. G. W. Duly and Miss Mattie B. Seville, the writer officiating. Mr. Robt. Culver and Miss Vennie Edwards, of Paducah, niece of the bride, were the attendants. The affair was very imposing, and took place in the presence of a large and appreciative audience. The prayers and best wishes of all attend the happy couple.

J. W. Crewdson.

The hunting party which is to leave our town next Tuesday, headed by Capt. R. W. Crabb, will be composed of Mr. Seth Palmer, Owsen; Mr. Clark, Russellville; Dr. J. A. Akie, Princeton; H. T. Flannery and Judge J. P. Pierce, Marion; and Peter Young, of Morganfield. They will have a colored cook—Dick Green, horses, dogs, a baggage wagon loaded with tent, bedding, cooking utensils, provisions, ammunition and stimulation. They anticipate much game and pleasure, in deer driving and bear—running.—Union Local.

The United States Court has recently decided that Lyon county must pay the railroad debt, which the citizens of that county have so long been fighting.

Something Entirely New.

Mr. J. N. Hayden, of Louisville, is stopping at the Cuffield House. He is representing C. W. Smart & Co., of Carbondale, Ill., and is introducing "The Swinging Motor Treadle," which can be applied to all sewing machines. It is calculated to dispense with about all the work that is necessary in operating a machine. Its truly "something new under the sun," and when once used will not be done without. In construction "its perfectly simple, and simply perfect." This model of convenience is now on exhibition at the Cuffield House, and the manager asks a most critical examination by all.

Louisville Tobacco Market.

Sales on our market for the week just closed amount to 2,338 Hhds. with receipts for the same period of 485 Hhds. Sales on our market since Jan. 1st, amount to 134,122 Hhds. Sales of the crop of 1890 on our market to this date amount to 16 Hhds.

There is nothing new to report from our market on dark tobacco the market remaining unchanged from our report of last week. The new crop is coming in very slowly not enough of the new crop having come forward to establish any prices. The sixteen Hhds of the new crop which have been offered have been taken at good prices considering the quality of the tobacco.

The following quotations represent our market for dark tobacco:

Trunk	50c @ 1.00
Common Large	150 @ 2.00
Dark large extra quality	2.00 @ 4.00
Good	2.50 @ 3.50
Common Leaf	3.50 @ 5.00
Medium	5.00 @ 6.50
Good	6.50 @ 8.50
Fine	8.00 @ 12.00

You are aware that you can get more money for your produce in cash at Schwab's than any man ever paid that will lie in your country.

The Poor ye have with you.

I am about ready to return to my place of business to accommodate those who desire work. In order to do this, I am bound to buy material, to get the material I am bound to have money. The poor man reaps his rewards from his labors, now all those who owe me for labor will please come forward and settle, I mean this for all, great or small, who owe anything. I trust you will appreciate my necessities and respond.

J. W. Wallace.

Private Boarding.

I am prepared to take a limited number of boarders at a fair price. Call at my store or at residence on Bellville street, 2nd house east of Coasitts drug store.

Child Killed.

Another child killed by the use of opiates given in the form of Sooth ing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. Acker's Baby Soother. It contains no opium, no morphine. Sold by Hillyard & Woods.

Our Very Best People.

Confirm our statement when we say that Dr. Acker's English Remedy is in every way superior to any and all other preparations for the Throat and Lungs. In Whooping Cough and Croup, it is magic and relieves at once. We offer you a sample bottle free. Remember this remedy is sold on a positive guarantee. J. H. Hillyard.
