

LEGAL BATTLE

Between Corporations Backed
by Untold Wealth,
In Which Many Millions of Dollars
are Involved.

The Western Union Telegraph Company
to Reopen the Suit Against the American
Bell Telephone Company for a Portion
of the Receipts of That Concern
for Certain Concessions.

NEW YORK, Sept. 7.—The World says
the Western Union Telegraph company
and the American Bell Telephone com-
pany are about to engage in a legal bat-
tle in which millions of dollars are in-
volved. By an arrangement between the
two corporations the telegraph company
was to receive 20 per cent of the
receipts of the telephone company for
certain concessions.

In 1888 the Western Union discovered
that certain receipts were not subjected
to the 20 per cent deduction, and began
an action for an accounting, involving
\$7,000,000 or \$8,000,000. The suit by
the Western Union was begun in the
United States circuit court for the dis-
trict of Massachusetts, and Judge Nel-
son appointed ex-Judge Lowell as referee
to hear the evidence. Judge Lowell
made his report a few months ago. He
decided that the Western Union is not
entitled to the accounting asked for.

Since that report was made the West-
ern Union experts have searched the
records of the Bell patents and the
previous decisions of Judge Lowell in
Bell telephone cases. Now the company
will move to rectify the error of the
ground of newly discovered evidence.
Should this motion be disallowed they
will move to set aside Judge Lowell's
report, on the ground that the number
of his near relatives hold large
amounts of American Bell telephone
stock.

The Western Union will make its first
motion in the United States court in
Boston some time this month. Ex-Judge
John Lowell, Jr., of Boston, has been
appointed to hear the case. Lowell, who
has been in the profession and has
written two volumes on the subject of
which have become standard authority.

SAMOA NEWS.

Matatiaf Attempting to Cause Another
Outbreak in the Island Kingdom.
SAN FRANCISCO, Sept. 7.—News from
Samoa per steamer Mariposa is that
the country is in a state of great unrest.
Matatiaf is still at Matia with three or
four hundred men, and has sent out
messengers again to raise a party in his
behalf.

It is generally understood the govern-
ment is only awaiting the arrival of the
English warship to punish the natives
who refuse to obey Matatiaf. Unless
some action is taken without delay there
will probably be trouble in the island.
The currency question is the burning
issue of the hour. A German firm im-
ported a number of silver marks from
Germany some time since, and has been
passing them off as gold in payment of
taxes, etc. Most of these coins are old
marks of Wurtemberg, and other small
principality.

The residents object to them as they
cannot pass, except at a discount, in
America or the colonies. The king and
government, however, they would not
take them, but the president ordered
them to do so or Germany would be
angry. They again refused, but the
king decided to accept their decision,
and the question remains open.

COTTON CROPS.

Reports are less favorable than those
of last week.
ST. LOUIS, Sept. 7.—The cotton re-
ports this week are even less favorable
than those of last. They vary only in
the estimated amount of damage done
by the weather. In some sections the
cotton is in the hands of the farmer, and
in the hands of the merchant. In other
sections, however, in another row, in other
weather, cold weather or drought,
and in some sections, rain and
weather conditions have played havoc
with the crop. Few and far between
are the reports that may be considered
at all favorable.

In Tennessee cold weather has turned
the plant brown and caused considerable
shedding, and the same agency has
changed the cotton in North Alabama,
which last week sent in good re-
ports, reducing the crop prospects, and
in southern Alabama a loss of 25 per
cent, is reported. Georgia, Florida and
Alabama reports are equally discouraging.

A PRISON DELIVERY ADVERTED.

By the Court Overhearing a Few Words
at San Quentin, Cal.
SAN FRANCISCO, Sept. 7.—The exam-
iner says a daring plot to break from the
state prison at San Quentin has been
unraveled and that the several leaders
in the movement have been placed in
solitary confinement. Mickey Delaney
had tools with which to break out. The
guard was to be overpowered and all the
convicts released. It is expected that
the plot was detected by a guard over-
hearing certain words that aroused sus-
picion. The men were watched and as
soon as the leaders were known they
were quietly put out of harm's way.
The leaders included the most desperate
criminals in the prison.

Holding Wheat for Better Prices.
SAN FRANCISCO, Sept. 7.—A special from
Portland, Ore., says hundreds of farm-
ers in eastern Oregon and Washington
are holding their wheat under orders
from the Alliance until spring, in hope
of getting better prices. The highest
price paid for wheat in the Northwest
this season was seventy-five cents per
bushel. This was three weeks ago.
Since then prices have declined from five
to eight cents per bushel. It is believed
that values will go up before long. Ore-
gon and Washington will have about
\$5,000,000 bushels for export this year,
and the bulk of it will come to Portland
for shipment.

Monarchist Captured.
MARCHESTER, N. H., Sept. 7.—The
man captured here Friday has been iden-
tified as Eastern Marston, a daring mon-
archist of Corinth, Vt., who escaped last
month, and has been hiding in Canada
and various places in this state ever
since. He will be tried at Burlington
next month.

Three Convicts Fatally Wounded in the
Result.
FRANKFORD, Ky., Sept. 7.—Two con-
victs upon each other Sunday morning
and a third convict attempted to sepa-
rate the combatants. The result is that
all three are in the hospital with fatal
wounds. The three men were sent from
Louisville. Their names are Eli Lones,
serving a life sentence for murder; Wil-
liam Bellamy, serving fifteen years;
and William Johnson, serving twenty
years.

There has been bad feeling exist-
ing between Lucas and Bellamy, and

A special to The Post from Wash-

cognize the Cuban junta. This is
positive, though the state department
still preserves its silence.

OUR MONEY IN CIRCULATION.
Different Amounts and the Per Capita
During the Past Thirty Years.

WASHINGTON, Sept. 5.—Secretary Fos-
ter, in response to many inquiries from
different sections of the country, has
prepared a statement showing the
amounts of various kinds of money in
circulation in the United States dur-
ing the past thirty years. Tables ac-
companying the statement show the
amounts of money in the United States
in the treasury and the amount per
capita in circulation from 1860 to 1891
inclusive.

The amount in circulation at the
dates specified and the per capita ta-
bles is shown in the following table:

Germany's Action Concerning Amer-
ican Hog Products.

Probably That Corn Will Be
Given a Better Show.

The Germans Ahead About \$20,000,000
by the New Adjustment of Their Meat
Duties.

WASHINGTON, Sept. 6.—President
Harrison will within a few days issue a
proclamation giving the arrangement
which has been made between this country
and Germany concerning American
hogs. It will be the last chapter in a
long controversy over removing the
German embargo on American meat
products. The embargo has been in op-
eration for about eleven years. Minister
Harris has finally been able to persuade
the Germans that the new meat inspec-
tion laws are a complete sanitary guar-
antee, and the further fact that
German producers about eight-ninths of
all the best sugar imported into the
United States inclined Germany to close
negotiations favorable to this country.

It would have cost the Germans about
\$20,000,000 for sugar during the last
year allowed by the McKinley act, but
been made against them. The presi-
dent's proclamation will announce the
satisfactory result of the negotiations
on behalf of American pork and will
further indicate that free sugar may
continue to come from Germany with-
out a discriminatory tariff which the
president has the power to proclaim
against it.

Secretary Root is much elated over
the success of the negotiations with Ger-
many. He says the admission of pork
into Germany is the most important step
for farmers the government has taken.
The secretary received official notice that the embargo on
American pork has been lifted. The
agreement relative to the admission of
pork into Germany was signed at Cape
May point about ten days ago, but at
the request of the German government
the agreement was not made public until
just prior to official action could be taken
by the home government.

The agreement not only provides for
the admission of our pork into Ger-
many, but also affords to the United
States the same schedule with reference
to our farm products as that enjoyed by
Russia.

Secretary Root is confident that he
will soon be able to extend our market
for our growing crops into Germany
for use as an article of food in the place
of rye, the crop of which in Germany is
this year exceedingly short. To this
end he has instructed his corn agent,
Colonel C. J. Murphy, now in Europe,
to proceed at once to Berlin and lay
the matter before the German govern-
ment.

What the Embargo Cost Us.
That the removal of the embargo
means millions to Americans was
shown by the following figures: While
the German decree of June 25, 1880, in
terms exempted ham and bacon from the
prohibition, the exports of these products
from the United States to Germany in
1880, in the year ended June 30,
1880, the exports were increased to a
total of \$1,409,387, but the exports of ham
and bacon fell to \$140,000. In 1881,

LEGAL BATTLE

Between Corporations Backed by Untold Wealth, In Which Many Millions of Dollars are Involved.

The Western Union Telegraph Company to Reopen the Suit Against the American Bell Telephone Company for a Portion of the Receipts of That Concern for Certain Concessions.

NEW YORK, Sept. 7.—The World says the Western Union Telegraph company and the American Bell Telephone company are about to engage in a legal battle in which millions of dollars are involved. By an arrangement between the two corporations the Bell company was to receive 20 per cent. of the receipts of the telephone company for certain concessions.

In 1888 the Western Union discovered that certain receipts were not subject to the 20 per cent. deduction, and began an action for an accounting, involving \$500,000 or \$750,000. The suit by the Western Union was begun in the United States circuit court for the district of Massachusetts, and Judge Lowell appointed ex-Judge Lowell as referee to hear the evidence. Judge Lowell made his report a few months ago. He decided that the Western Union was not entitled to the accounting asked for.

Since that report was made the Western Union experts have searched the records of the Bell patents and the previous decisions of Judge Lowell in Bell telephone cases. Now the company will move to reopen the case on the ground of newly discovered evidence. Should this motion be disallowed they will move to set aside Judge Lowell's report, on the ground that it was based on a number of his near relatives hold large amounts of American Bell telephone stock.

The Western Union will make its first motion in the United States court in Boston some time this month. Ex-Judge Lowell is a cousin of the late James Russell Lowell, and has the best blue blood of Boston in his veins. He is very eminent in his profession and has written two volumes on bankruptcy, which have become standard authority.

SAMOA CASE. Matanaia Attempting to Cause Another Outbreak in the Island Kingdom.

SAN FRANCISCO, Sept. 7.—News from Samoa per steamer Mariposa says that the country is in a state of great unrest. Matanaia is still at Matua with three or four hundred men, and has sent out his messengers again to raise a party in his behalf.

It is generally understood the government is only awaiting the arrival of an English warship to punish the natives who refuse to obey Matanaia. Unless some action is taken without delay there will probably be trouble.

The currency question is the burning issue of the hour. A German firm imported a number of German marks, and has been selling them since they were issued. The marks are still at gold value in payment of taxes, etc. Most of these coins are old marks of Wurttemberg, and other states.

The residents object to them as they cannot pass except at a discount. At America or the colonies. The king and government decided they would not take them, but the president ordered them to do so. They again refused, but finally decided to accept their decision, and the question remains open.

COTTON CROPS. Reports Are Less Favorable Than Those of Last Week.

ST. LOUIS, Sept. 7.—The cotton reports this week are less favorable than those of last week. They vary only in the estimated amount of damage done and in the causes of the damage. In one section worms, in another drought, and in some worms, rust and bad weather combined have played havoc with the crop. Few any were better than the reports that may be considered at all favorable.

In Tennessee cold weather has turned the plant brown and caused considerable shedding, and the same agency has changed the conditions in north Alabama, which last week was in the port, reducing the crop prospects, and in southern Alabama a loss of 25 per cent. is recorded. Georgia, the Carolina and Florida reports are equally discouraging.

A PRISON DELIVERY ADVERT. By the Guard Overhauling a Few Words at San Quentin, Cal.

SAN FRANCISCO, Sept. 7.—The Examiner says a daring plot to break from the state prison at San Quentin has been frustrated and that the several prisoners in the movement have been placed in solitary confinement. Mickey Delaney had tools with which to break out. The guard was to be overpowered and all the convicts released. It is thought the convicts expected help from the outside. The plot was detected by a guard overhauling certain words that aroused suspicion. The men were watched and as soon as the leaders were known they were quietly put out of harm's way. The leaders included the most desperate criminals in the prison.

Holding Wheat for Better Prices. San Francisco, Sept. 7.—A special from Portland, Ore., says: Hundreds of farmers in eastern Oregon and Washington are holding their wheat under orders from the Alliance until spring. The hope of getting better prices. The highest prices paid in the northwest for wheat this season was seventy-five cents per bushel. This was three weeks ago. Since then prices have declined from five to eight cents per bushel. It is believed that values will go up before long. Oregon and Washington will have about 35,000,000 bushels for export this year, and the bulk of it will come to Portland for shipment.

Monomaher Captured. Manchester, N. H., Sept. 7.—The man captured here Friday has been identified as Darius Eastman, a daring moonshiner of Corinth, Vt., who was caught last month, and has been hiding in Canada and various places in this state ever since. He will be tried at Burlington next month.

FIGHT IN A PENITENTIARY. Three Convicts Fatally Wounded in the Result.

FRANKFORT, Ky., Sept. 7.—Two convicts in the penitentiary made a deadly assault upon each other Sunday morning and a third convict attempted to separate the combatants. The result is that all three are in the hospital with fatal wounds. The three men were sent from Louisville. Their names are Eli Lucas, serving a life sentence for murder; William Bellamy, serving fifteen years, and William Johnson, serving twenty-one years.

There has been some bad feeling existing between Lucas and Bellamy, and

RECOGNIZED.

Enoch Sam Pitts His Right to the New Chilian Government.

NEW YORK, Sept. 7.—The Herald's Washington special says the president has instructed Minister Egan to recognize the new government in Chili.

Keeping Them. A special to The Post from Washington says Mr. Egan has been told to recognize the Chilian junta. This is positive, though the state department still preserves its silence.

ISSUED WEEKLY.

The American hog can now go to Germany.

The educated Chinese class demand the withdrawal of foreign missionaries from that country.

The constitution repealer is still talkative, and it will require at least three weeks for them to have their say.

J. S. Durham was appointed minister to Hayti in the place of Fred Douglass. Durham is a Kentucky negro.

In the Tennessee legislature one Senator called another "an infamous liar." Friends prevented a fight.

The ladies connected with the management of the World's Fair are decidedly opposed to opening the Fair on Sunday.

The Republican candidate for Governor of Maryland threatens to withdraw unless Charles Westcott refuses the chairmanship of the State committee.

An educated Arkansas negro, Dr. J. R. Riley, in an address before the Palmer Club of Washington said: "The magnanimity shown to colored office holders by Mr. Cleveland and his administration was without parallel."

Mr. Clay's suggestion that the railroad commissioners should be elected instead of appointed may or may not be good, but it was a display of bad taste in him to offer it at the time he did. He was evidently not assuming his equanimity since his defeat for Governor.

A copy of the Jasper (Mo.) Bee reached this office this week, and we find at the mast head: G. M. Russell, editor and proprietor. Mr. Russell is a newspaper man of long standing, capable and industrious, and if the people of Jasper want a good paper, they can get it by supporting the BEE. Mr. Russell was with the PRESS five years, and we know whereof we speak.

Col. Franks at Washington.

Mr. E. T. Franks was at Washington last week to assist Col. H. H. Houston in his fight for the Paducah post office. A Times correspondent interviewed our distinguished politician, and among other things he said:

"I believe Col. Houston will receive the appointment, because he is in every way qualified for the place, and because he has earned it by reason of faithful service to the Republican party. It is by appointing such party workers that the President will strengthen the Republican party in the South."

Mr. Franks says there is no question but that Harrison will have a solid delegation from Kentucky at the next national convention.

Damage Suits.

In the Superior Court yesterday William Brayson filed a complaint against the Ohio Valley Railroad Company to recover \$5,000 damages by reason of injuries sustained by the plaintiff on account of being thrown by a wagon which was struck by one of the company's engines and through the carelessness of the company's employees.

In the same court Artemus Croft asks the court to grant him judgment in the sum of \$500 against the Ohio Valley Railroad Company for damages sustained by reason of carelessness of the company's employees, which resulted in a collision of one of the company's engines with a wagon while crossing the company's track on Washington avenue.

Samuel Weed through his attorneys, J. S. and C. Buchanan, commenced proceedings against the Ohio Valley Railroad Company, asking damages in the sum of \$500, for injuries sustained by a collision of the company's engine with a wagon being driven across the Ohio Valley track on Washington avenue, which the plaintiff alleges was the fault of the company's employees.—(Evansville Courier.)

There is talk of building business houses on the West side of the public square. Marion is large enough to spread a little in that respect.

BACK AGAIN.

The Constitutional Delegates Begin Their Finishing Touches.

They Feel Happy Over the Result of the Late Election.

Frankfort, Ky., Sept. 2.—It was a merry set of grave men who gathered in the hall of the House of Representatives this morning to begin the work of mending the new constitution, the document so warmly embraced by Kentuckians the first Monday of last August. Behind the sedate and owl-like countenances of the men who will go down in Kentucky history as constitution makers a beam of satisfaction, almost amounting to glee itself, had taken the place of the worry and doubt that was depicted there when these men parted a few short months ago. The 140,000 majority made this change.

Crittenden and Livingston's big and brainy member, is as happy as any of them. When he is congratulated over the rousing majority his own county gave his deep set eyes sparkle with pleasure. I hear there is some talk of his being a candidate for Circuit Court Judge. A better man cannot be found in the district for the high and important place. Versed in the law, with an analytical mind, an even temper, incorruptible, he would make model judge. He will fill the measure of responsibility according to the Jeffersonian test; he is honest, he is capable, he will be faithful to the constitution.

At 12 o'clock the convention was called to order by President Clay, who made a few remarks touching the work in hand. One thing that he said has been the source of considerable comment and that is his suggestion that the railroad commissioners should be elected instead of appointed by the Governor. The roll call showed ninety-one members present.

After other perfunctory matters, resolutions in great numbers were offered, all to regulate the manner of doing the work in hand.

All the resolutions were referred to the Committee on Rules, and that committee will formulate and report to-morrow some method of procedure. It may be taken for granted that no material changes will be made in the constitution as adopted; inconsistencies and grammatical errors will receive proper attention, and when these are weeded out the work will be done.

Good guessers say that the delegates will be here from two to four weeks.

Ex-Governor Black, of Kansas, predicts that the State will cast its electoral vote for the Alliance Presidential candidate.

More than a thousand people are homeless on account of fire at The Dalles, Ore. Eighteen business blocks, 500 residences, three churches and the opera house were burned.

Arkansas negroes are being swindled by scamps who represent themselves as agents of a Liberia colonization scheme and who get \$1.50 for round trip tickets to Liberia from the ignorant blacks.

The Louisville banks are trying mightily hard to have constitutional convention eliminate that part of the constitution which taxes them like it does other people. So far their appeals have not changed the opinion of the revisory committee.

Lieut. Governor Jones, of New York, who is a candidate for Governor, has written a letter to Grover Cleveland telling him to "hands off" in the contest for the nomination for governor, or he might injure his prospects for the presidential nomination next year. Grover generally does as he pleases whether the people keeps or not.

A prominent colored politician of Ohio was invited from the dining room of the Gibson House at Cincinnati last week, and told by the manager that his meals would be served in a private room. The prominent colored man grew very irate and went to the Burnett House where he was permitted to eat with the white folks.

Henry Tally, who killed Wm Rice in Union county in 1888, was arrested in Arkansas last week and brought to Morganfield jail by T. M. Dyer, the deputy sheriff of Union county.

The following are some of the proposed changes in the new constitution as reported to the convention by the committee. Those of our readers who have a copy of the new document, (and who has not?), can find the changes.

Amend Preamble, line two, by striking out word "which,"

Section 1, subsection 7, by striking out the words, "shall not be questioned."

Section 5, lines six and seven, by striking out words, "or children."

Add to section 33: "And the counties forming a district shall be contiguous."

Section 37, line two, strike out the words, "and no more."

Section 38, line four, after word "thereafter" insert the words, "the General Assembly shall meet;" and after "ninety-three," in line three, use semicolon (;).

Section 44, line seven, strike out "such change," and insert the word "it;" also in line ten, after word "Constitution," insert "nor to the Senate when sitting as a Court of Impeachment."

Section 47, line one, strike out "at any time."

Section 48, line eight, strike out "by consent."

Section 54, line three, by striking out the word "contract," and inserting the word "or" after the word "indebtedness," and by striking out "or obligation" in same line.

Amend section 61, so as to read: "The General Assembly shall neither audit nor allow any private claim against the Commonwealth, except for expenses incurred during the session at which the same was allowed; but may appropriate money to pay such claim as shall have been audited and allowed according to law."

Section 62, subsection 16, stricken out; re-number following subsections.

Subsection 19 stricken out, and in lieu thereof insert: "To create, increase or decrease fees, percentages or allowances to public officers, or to extend the time for the collection thereof, or to authorize officers to appoint deputies."

Section 63, strike out all after the word "State," in the eighth line thereof.

Strike out all of section 64.

Section 72, in the second and third lines, strike out "at the time when, and the place where, they shall respectively vote for Representatives."

Section 79, lines four and five, strike out the words "and no more."

Section 92, add after the word "adjournment," in the third line, the following: "Or as otherwise provided in this Constitution."

Strike out sections 94, 99, and 105 and insert the following in lieu thereof:

Section 94. A Treasurer, Auditor of Public Accounts, Register of the Land Office, Commissioner of Agriculture, Labor and Statistics, Secretary of State, Attorney General and Superintendent of Public Instruction, shall be elected by the qualified voters of the State at the same time the Governor is elected, for the term of four years, each of whom shall be at least thirty years of age at the time of his election, and shall have been a resident citizen of the State at least two years next before his election. The duties of all these officers shall be such as may be prescribed by law, and the Secretary of State shall keep a fair register of and attest all the official acts of the Governor, and shall, when required, lay the same and all papers, minutes and vouchers relative thereto to before either house of the General Assembly. The officers named in this section shall hold office until the election and qualification of their successors.

Section 96, second line, after "Attorney General," insert the following: "Superintendent of Public Instruction."

In the tenth line, same section, after the word "officers," insert the following: "Liberator created, and."

Section 98, first line, strike out the word "first," and add to the section the following: "And the same day every four years thereafter."

NOT SETTLED.

Both Sides Waiting for Overtures.

The Courier-Journal says: "Although United States Marshall Burchett and his force have retired from Lyon county, and the matter of levying executions in the Quinan case has been dropped, a compromise has not yet been secured. When Maj. Burchett returned, a compromise of the celebrated suit was thought to be at hand, but it seems that it is not. One side appears to be waiting for the other to make an offer. The citizens of Lyon county, being masters of the situation, are pursuing the even tenor of their way, and when the question of a compromise is spoken of they will consider any offer made by the bondholders. In other words, they know they want to make the bondholders do the walking. On the other hand the bondholders say that if the taxpayers can not pay the full amount of their obligation they will listen to an offer of compromise for what they are able to pay. A proposition was made some time ago by the bondholders, but the taxpayers said the amount asked was more than they could pay. Thus the matter rested, and Marshall Burchett was sent down to Lyon county to serve the executions. As it is known, he was unsuccessful. Just how long it will be before the matter is settled no one can tell."

Everything quiet in the city. Everybody well and satisfied. Farmers are busy preparing their lands for wheat, while some of the boys are getting ready to make sorghum. Our citizens have quit the old time way of working roads just before court and put the roads in good condition, which was a right step in the right direction.

We had a new organization and one of the grandest of the kind that has ever been in our town. This new organization took place last Monday and seventy-eight members were enrolled the first meeting, with Miss Mina Wheeler president, and Miss Tina Wheeler vice president. Everything seems very flattering for us to have one of the best schools in the county.

Miss Nannie Young has gone to Providence to teach school.

Walter Clement, the invincible, says he is still in the ring with the biggest lot of goods in the county; that men can buy them cheaper than they could steal them.

What is the matter with the Monitor man at Sheridan?

It hath been said that a hit dog will always "holer." Selah! No, sir, we don't want your head in a charger or out of a charger. No, not us. Give us something new; that old quotation you used last week is a very stale old article, and like the Sheridan correspondent's head, is out of date. Give us a rest and not quite so much Latin or somebody will think that you are one end of a ponsassinator.

PREY OF AN EAGLE.

Indian Child Carried Aloft and Dropped to Death.

Sault Ste Marie, Mich., Sept. 6.—John Cowdage, a Chippewa Indian living on the shore of Echo Lake, started yesterday to guide a party that was moving over into Canada. His only child, a girl baby, was on the outside of the hut near the door, his wife being on the opposite side of the little dwelling. When the Indian father and the party had proceeded half a mile or so they saw an enormous bald eagle circling over the edge of Echo Lake, near the hut. There was no thought of danger to the child, but their sportsmen's instinct prompted them to turn back to get a shot at the bird. As they turned to retrace their steps, the eagle made a sudden swoop to the earth. The Indian quickened his pace, and reached his cabin in advance of the white men. When they arrived at the lake they saw a dead eagle of unusual size and formidable appearance lying upon the ground, and near it the Indian babe, torn and bleeding and also dying.

The scream and rush of the great bird upon the child brought the Indian mother upon the scene. Her babe was already several feet in the air, held by the ugly talons of the eagle. The child was evidently too heavy for the bird, and was dropped to the earth, and the fall caused its death. The eagle made another plunge for its victim, but was fought off by the mother, who succeeded in driving it away. As the bird arose in the air it was shot by the father, who had arrived too late to save the child. The white men had no difficulty in securing the eagle, and they will have it stuffed.

A SCOUNDREL.

Dick Carr, col., Attempts a Heinous Crime.

On Wednesday evening of last week, almost in the shadow of her home, Dick Carr, a negro man, attempted a heinous crime upon the person of the twelve-year-old daughter of Mr. J. R. Finley, of this place.

Carr had been employed in the garden and about night he started home, meeting the little girl and her little brother a short distance from the house, he sent the boy away on some pretext. The girl ran away from the scoundrel and ran screaming to the house.

Mr. Finley was away from home, and the affair was not generally known until next day. Carr left immediately, telling his family that he had killed a man. A posse was organized and search made for the scoundrel; the officers have been diligently searching for him, but up to the time we go to press he is still at large.

The community is very much aroused over the matter, and had Carr been caught, it is very probable that short work would have been made of him.

Dr. Jenkins, dentist, is located at Morganfield, and makes special rates for patients from a distance.

Respectfully, N. B. JENKINS, Morganfield, Ky.

The changing of the channel of the Ohio river so that it will run down in front of Smithland, Ky., will be a big help to that ancient village, also to the mouth of Cumberland river.

For years in low water passengers have had to get on and off steamboats at the foot of Cumberland Islands and then ride to Smithland in a skiff.—Union Local.

Attempted Suicide. The report comes that Mr. Bennett M. Hopkins, of Smith's Mills, while laboring under mental aberration last Friday evening, attempted self-destruction by cutting his throat with a razor.

Mr. Hopkins had been to the fair at Uniontown, where by some means he lost his horse and what money he had with him, how it is not known. He lives with his brother's family, he being unmarried.

Dr. G. W. Norman attended him and dressed his wound, a gash four inches long. The doctor is hopeful of Mr. Hopkins' recovery if blood poison does not ensue.—Morganfield Sun.

The Prohibition Cases. There was considerable excitement last week, occasioned by the arrest of Carey Bragg and Thomas Seales for violation of the prohibition law of Caldwell county, and the arrest of eight or ten men for gambling.

These arrests were not made, as many supposed, at the instance of the Law and Order Club, but was the result of a disagreement or rupture among certain card players. Just how the information was furnished is not generally known.

The two former cases were brought to trial Monday and Tuesday and for want of sufficient evidence they were dismissed. Those guilty of gambling confessed to their offenses and were given a nominal fine.—Princeton Banner.

Having sold my stock of goods to Mr. J. W. Shaw, I now retire from the mercantile business in Marion, I desire to thank the good people of this and surrounding counties for their very liberal patronage in the past. I heartily recommend my successor in business to the confidence of the people and hope my old friends and customers will stand by him. I want to get all of my outstanding business closed up. All parties owing me either notes or accounts will find me at the old stand. Please call at once and settle. In event of my absence Mr. R. E. Pickens is authorized to collect and receipt you. Very Respy, G. C. Gray.

County Court Orders. T. J. Lanham allowed \$5.25 for draining pond in public road, near Allen's.

J. W. Johnson allowed \$7.50 for repairing bridge.

W. H. Hayes allowed \$11.00 for repairing bridge.

J. W. Ainsworth qualified as justice of the peace in Hurricane precinct.

A Card to the Public. Having failed to sell out my store I have concluded to resume business and have purchased a large and well selected stock of fall and winter goods, consisting of dry goods, notions, boots, shoes, clothing, hats, caps, quensware and a full line of furniture. These goods I have bought to sell and will make it to the interest of all to come and trade with me. Remember my motto is quick sales and small profits. No trouble to show goods. All kinds of produce taken in exchange for goods. The highest market price paid for dried fruit. Thanking you for past patronage and soliciting a continuance of the same, I am respectfully, T. J. CAMERON.

The riding, leaping, the swing balancing, the trick mules, the double horizontal bar performance, the clown's singing, witty sayings and acting of Terrell Brothers shows was of a high order of skill, and the two large audiences were well pleased with what was given them. THE QUART MEASURE.

Given Another Lease on Life as the Distillery.

Tuesday evening Messrs. James Moore, et al, received a telegram from Frankfort stating that the Court of Appeals had made an order in the celebrated injunction suit of F. E. Robertson & Co. vs. County Judge Moore and County Clerk Woods, enjoining them from spreading the certificate that put the local option into full force and effect. It will be remembered that the suit was taken before Judge Givens, and he dissolved the injunction; the case was then taken to the Court of Appeals, and according to the telegram that court ordered the reinstatement of the injunction. The case will now come before the Circuit Court at its December term, and be tried upon its merits. The plaintiffs allege illegal votes and this is the point that will be contested, though other allegations are made.

In the meantime Robertson & Co. will continue to sell liquor by the quart.

A CLOSE CALL. Frank Moore Accidentally Shot.

One day last week Frank Moore and Geo. Stansbury, two young men of the Repton neighborhood, were practicing with their pistols. Moore said to Stansbury: "You can't hit my hat, when I throw it up," and began to swing his hat to toss it in the air and Stansbury began to make ready his firearm for a quick shot. Before the hat left the hand, the ball left the pistol, and struck Moore in the shoulder and glanced off in his arm, and is there yet.

A QUARREL AT CHURCH. John Will Woody cuts Decimo Crowell.

At Oakland church one night last week, two boys named John Will Woody and Decimo Crowell engaged in a quarrel during services at Oakland church, six miles east of Marion. Crowell was sitting at a window on the inside of the building and Woody was on the outside when the difficulty began in words. Crowell went out, and blows ensued, in a moment Woody drew his knife and cut his antagonist across the back, making an ugly and deep wound. Crowell fell to the ground, and has been unable to handle himself since. The cut was deep and it is feared of a very serious nature.

I simply ask you to try one of the Kingham Canvas bags. They are the best in town. Schwab.

See that elegant line of woolen dress goods at Shaw's.

Our stock of boots and shoes is immense, and the best made, and are selling rapidly, caused by the excellence of the quality and the low prices. Shaw.

Prices are flat down at the Cheap John store. If you are in need of groceries, millinery goods for fall and winter, notions, etc., you can save from 20 to 100 per cent by buying goods at the above store. Mrs. Laura Skelton, who has been engaged in the millinery business in Marion for the past two years, will have charge of the millinery department, and she proposes to have her goods on exhibition on Monday, Sept. 14, and she invites all her friends and customers to call and see her goods, as she intends to sell cheaper than ever. Notice a few prices:

Pair of towels 10 cts

Good wool or fur hat 75 cts

Good pair suspenders 15 cts

Two spools machine thread 200 yards for 5 cts

Good handkerchief 5 cts

Good shaving brush 10 cts

Pair of cuffs and a collar 15 cts

Good fine shirt 40 cts

I propose to sell pants, shirts, underwear, furnishing goods, in fact, everything that I handle, cheaper than any one in the county. If you will give me a chance I will convince you. Don't fail to call on me County Court day. J. W. Skelton.

THE WORLD'S FAIR.

Congress to be Asked for a Big Appropriation.

Chicago has raised \$11,000,000, but wants \$7,000,000 more. Salaries to be cut.

Chicago, Sept. 2.—Congress is to be asked to loan the World's Columbian Exposition \$5,000,000 at least and perhaps \$7,000,000. That is the decision of the National Commissioners, and the Chicago directors are giving them strong moral support. For two days a special committee has been holding sessions, discussing the best policy to pursue in getting the loan. This committee is composed of Gen. St. Clair, of West Virginia, and G. V. Mossey, of Delaware, both influential members of the National Commission; Director General Davis and Directors Gage, Baker and Jeffery. All are agreed that Congress ought to make the loan, but how to get it is the question now under discussion. Many of the members declare that Congress should make an outright appropriation of at least \$5,000,000. They agree that the United States has more at stake than the city of Chicago, and say it should be liberal and magnanimous. \$5,000,000 have already been secured by popular subscription, and the city of Chicago has issued bonds for \$5,000,000 more.

Another deep cut is to be made in the salaries of officials of the World's Columbian Commission. It is the program mapped out yesterday in adopted President T. W. Palmer will surrender his salary of \$5,000 a year and receive nothing but his traveling expenses; Col. James A. McKenzie, Vice Chairman of the Executive Committee, also will be denied a salary of \$5,000 a year, and George Miles, chief clerk of Director General Davis, will lose a salary of \$3,000 per annum. This will reduce the expenses of the National Commission about \$12,000 a year. By holding no session of the board next April a further saving of \$12,500 will be effected, and this will keep the expenditures of the National Commission within the appropriation. At the present rate of paying out money, President Palmer's board would be confronted by a deficiency of \$23,240 at the close of the year. Secretary of the Treasury Foster has warned the officials not to create a deficiency. Congress appropriated \$50,500 to pay the expenses of the fair to June 30, 1892, and the commission has been spending money at the rate of \$82,740 per annum. Yesterday members of the Finance and Auditing Committee got together and decided that heroic measures were necessary to avoid a deficiency. They prepared a report, which will be sent in to the Commission early during its session this week, recommending that President Palmer, Vice Chairman McKenzie and Chief Clerk Miles be dropped from the salary list and that the Commission hold no further meetings until Congress has made further appropriation for the exposition.

MISSOURI LETTER.

POPULAR BLUFF, Mo., September 3, 1891.
ED. PRESS.—As I am blessed with the privilege of perusing your paper weekly, learning the local news from all the sections of your bailiwick, I thought perhaps a short sketch of this place would not be distasteful to your readers.

Popular Bluff is on the Iron Mountain railroad, seventy-five miles west of Cairo, and is on Black river, one of the most beautiful streams in the state; though small as it is the steamers are coming and going daily.

We have numerous factories; the ice factory not only supplies the town, but ships large quantities to other towns along the road and river. The vanishing factory works a hundred hands, many of them young women.

The gallows, upon which Dr. Harben will meet his doom in October, has been erected.

More than a hundred arrests have been made in a month upon the charge of gambling, and I am sorry to say that some of the one-Kentucky boys are among the lot, thus departing from the teaching of their mothers. But this does not mean that we have a bad town, for Christianity and temperance number their votaries by the hundreds, and they are doing a grand work.

I am loading with Sol Boaz, an old citizen of Crittenden, who will shortly make a visit to his native heath.

A COOL THOUSAND.

A Kentuckian Relieved of His Wad in Evansville.

Evansville, Ind., Sept. 4.—Yesterday L. P. Roquette, a coal miner who lived near Livermore, Ky., came to this place accompanied by a friend. The visited the saloons too frequently, and Roquette went to sleep in a chair in front of a hotel. When aroused by the police the drowsy man claimed that he had been robbed of \$1000. His friend had also disappeared.

A BREAD FAMINE.

The Poor European Crops Make the Outlook in London Very Gloomy.

London, Sept. 2.—The price of bread is rising in London, and the working classes are already beginning to feel the pinch of the distress consequent on deficient harvests. The advance so far is a half-penny on the quarter loaf. People are talking of dear bread during the coming winter, and with the throngs from Russia and Germany that have crowded into the city during the season, it is apparent that charity will be taxed to supply the needs of the London poor. The Salvation Army is increasing its lodging and food accommodation in preparation for the demands of winter, and, notwithstanding the opposition of the church and of the Times, money is flowing in liberally from various quarters to the army exchequer. There is a public sentiment that, however crude the army methods might be, the poor are assisted without the red tape that involves so many of the London charities.

THE LOTTERY CASES.

Inspector Maynard Thinks the Power of the Company is Broken.

Washington, Sept. 3.—Mr. John C. Maynard, the inspector in charge of the New Orleans district, was at the Post Office Department today. He has just come from New Orleans where he has completed the work on some twenty-five cases against the President of the Louisiana Lottery Company. Mr. Maynard says that the chain of evidence in these cases is complete, and that the lottery company will hardly dispute the facts.

Mr. Maynard considers that these cases will have an important bearing upon the future of the company. He thinks that the power of the company is broken, and says that the business is reduced to such a point that, although they advertise a capital prize of \$300,000, yet they do not now sell more than the half of any ticket, so that it is impossible for the full capital prize to be drawn.

Tribute of Respect.
In remembrance of Lucinda Crowell, wife of Rev. W. B. Crowell, we, the undersigned, have been requested to prepare the following:
Lucinda Crowell, nee Clark, daughter of William and Elizabeth Clark, also sister of Doctor J. R. and J. H. Clark, was born March 18, 1826. She was married to Rev. W. B. Crowell, June 14, 1849, and lived a married life of 42 years, 2 months and 2 days. To this union was born one boy, Monroe, who died February 10, 1879, aged 17 years, 7 months and 26 days. Monroe was a good, religious boy, and now on the other side of the dark stream of death welcomes his mother home.

The subject of this memoir professed religion in 1848 and with her husband joined the Cumberland Presbyterian church at Sugar Grove December 25, 1852. They remained members of said church until 1871, when they moved their membership to Cave Spring, a church of the same denomination. She was a useful member of the church, very enthusiastic for the prosperity of her fellow human beings, and one whose hand was always ready to administer deeds of kindness. Like the rest of the human race she had her imperfections; but we are forced to acknowledge that she was a woman of kind heart and generous nature. Her hospitality was unbounded, and no person took a greater pride in entertaining their friends. Many will be the pleasant memories of those who have enjoyed her kind hospitality. She was 65 years old, yet her death was unexpected, and quite a shock to the community in which she lived. She was only sick a few hours. Her last illness was supposed to be congestion of the brain.

On Sunday morning, Aug. 9, 1891, it pleased God to send the Messenger of Death quickly and called her to come up higher. The call was so sudden it made a solemn impression on us all who heard of it. It is also a warning to us to be ready, "for in such an hour as we think not the Son of Man cometh." But we have every reason to hope that the messenger found her dead.

Besides a number of friends and relatives, she leaves an aged husband whose life is nearing the allotted time—three score and ten years—and whose time according to human nature, can not be many days, months or years at most. But when we realize that it is right for all men to die, and the Lord is ready to take us when our time comes, with out the least hesitation of mind we say, "The Lord giveth and He taketh away." "Blessed are they that die in His works do follow them."

Her presence is missed at the family altar.

Her spirit is at the throne of God; Her seat in church is now vacant. Her body is buried beneath the sod.

DISTILLERS OF
Old Fashioned Fire Copper Whisky
OLD HICKORY.
This brand of Whisky is made expressly for our retail trade in this and adjoining counties and an extensive labor is expended in its manufacture. We also use the best selected grain, a large portion of which is small grain—rye and barley. This whisky is recommended by the most prominent in-law, medical, and stock men. It is sold on hands and for sale at lowest rates at distilleries. Persons needing pure liquor for medicinal purposes will find it to their interest to use this liquor.
