THE CYCLONE'S WORK.

Kansas Swept By a Death Dealing Tornado.

People Killed and Their Homes Destroyed.

Kansas City, Mo., April 1.—A tornado of mad destructiveness to human life and property swept over Kansas last night. Butler county seems to have been the scene of the greatest havoc. The town of Towanda was entirely wiped off the face of the earth and Augusta, and Augusta, a few miles distant, was buffeted out of all semblance to its former self.

Not a house or building was left standing in Towanda. The town was asleep when the storm swept down, razed everything in its path and left dead bodies lying in its wake. Six dead bodies have been recovered from the ruins already searched. Twenty persons are fatally hurt and forty more seriously injured, besides a large number more or less maimed.

Towanda is a small town of 1,300 inhabitants situated ten miles west of Eldorado. Of the eighty families composing the population there is not one to-night that is not either mourning for a dead or dying member, sorrowing with the suffering.

Wellington, Strong City, and South Haven all suffered the loss of life and great destruction of property.

The storm, so far as can be determined, swept across the country from the Indian Territory, in the southwest part of Barbour county, Kan., taking the little town of Kiowa in its path. In the northeasterly direction it passed through Harper county, and through the center of Sumner county. Bending as a bow, it patted almost directly north through the remainder of Sumner county and along the western part of Butler county. Villages and farm-houses were carried away as it swept along.

Portions of Missouri, Nebraska, Minnesota, and Wisconsin suffered greatly.

A Terrible Cyclone.

Nelson, Neb., March 31.—A terrible cyclone struck Nelson at 6:15 o'clock this evening. It came from the southwest, and could be seen for at least miles before it struck the town. It was preceded by a terrific hailstorm, lasting seven minutes, after which the worst was thought to be over with, but this hope was soon blasted by the appearance in the southwest of the coming storm, which proved to be the worst and most destructive that ever visited this section of Nebraska. The storm struck the town with terrific force. Many rushed into cellars and stores for safety. The damage is estimated at \$100,000. A number of persons were seriously injured.

Some Washington Superlatives. The biggest thing I have seen in Washington is the Capitol, which is 751 by 324 feet. If you don't know how big that is take a line and measure off that area.

The tallest is the Washington Monument, 555 feet high. The finest public is the State, War and Navy Department. It was designed by architect A. B. Mullett, and cost \$10,700,000. Compare that with the taxable property of Crittenden, Livingston and Caldwell counties.

The greatest thoroughfare is Pennsylvania Avenue, extending from the barracks in the southeast to Georgetown in the southwest.

The most popular residence street is Connecticut Avenue. The British Legation and the Chinese Legation are on this Avenue.

The ugliest public building here (or anywhere else) is the new Pension Office.

The finest school building is Georgetown College.

The finest residence, from an architect's point of view, and perhaps from any point of view is Snyder's new house on 18 and Q Sts. It is by no means the largest, but it is unique, symmetrical, and altogether pleasing.

The most homelike and "Rest-and-be-Thankful" place is "The Oaks" on the heights of Georgetown.

The most imposing church is The Covenant, 18 and Connecticut Avenue; and the best arranged church I have ever seen is the First Baptist, 17 St. above Scott Circle. I've not seen inside all the churches.

The most striking statues are the bronze equestrian statues of George Washington and of Andrew Jackson.

The noisiest thing I've heard was the dog show.

The "cutest" thing I've seen is a pony about three feet high drawing a nobby little cart with three pretty children in it.

The sweetest that I can speak of is the painting, Rebecca at the Well.

The funniest, The Texas Steer, played last week at the New National.

The best theatres, The National, The Academy of Music and Albaugh's.

The best actress, Alexander.

The best comedian, Selena Fetter; the greatest, Rhea.

The most eloquent, Robt. G. Ingersoll; and the best preacher, Rev. Dr. Stakely.

The best newspapers are the Star and Post.

The greater show with the widest range of subjects, where one may learn most in the shortest time at the least cost is the Smithsonian Institution.

A CORRECTION.

In my account of visit to Mount Vernon, "ruined" should read "removed," and "repaired," should read "replaced."

Much of the furniture at Mount Vernon is the same used by the Washington family and is in an excellent state of preservation. D.

Train Robbers.

Birmingham, Ala., March 31.—When the train on the Georgia Pacific road, stopped at Weir's Junction last night three masked men boarded the engine and mail car, made the mail agent—after shooting him—hand over forty-seven registered packages. In three minutes the robbers were gone. The railroad company and the government have offered \$2,000 for the arrest of the robbers and blood hounds on their trail.

The Golden Rule Burned.

Cincinnati, March 31.—Just as the steamer, Golden Rule, was ready to leave the wharf for New Orleans, there was a sudden burst of flames from the hatchway, and in a few minutes the boat was enveloped in flames. The passengers escaped by climbing into another boat. Miss Nellie Maloney attempted to jump from the burning boat to another, but fell into the river and was drowned. The steamer was valued at from \$20,000 to \$25,000 and was insured for \$15,000; her cargo was worth \$50,000.

THE SENATE PASSES IT.

The Separate Coach Bill Goes Through.

Frankfort, Ky., March 31.—When the time arrived in the Senate for considering the separate coach bill a dozen amendments were offered:

"After a short discussion Senator Lindsay's amendment making a car divided by a wooden partition 'separate coaches,' in the meaning of the law, and Senator Newman's amendment giving the conductor authority to assign 'white or colored' passengers to their respective coaches, were adopted."

After an hour of filibustering, the vote was taken upon the passage of the bill, and it passed by a vote of 18 to 10.

The vote was as follows: Senators May, McCann, Mulligan and Newman, of the Democrats voting no, and Senator Stewart, of the Republicans, voting aye.

Yeas—Alexander, Board, Breckinridge, Clark, Connor, Galloway, Gates, Hannah, Hargis, Hutcheson, Kenton, Lindsay, McCain, Miller, Ogilvie, Patterson, Smith, Stewart.

Nays—Daum, Downer, Jones, Martin, May, McCann, Mulligan, Newman, Parker, Roberts.

WORLD'S FAIR NOTES.

The World's Fair appropriations for foreign countries, as far as reported, aggregate more than \$4,500,000.

Several additions have recently been made to the appropriations made by the States and Territories, which now aggregate \$3,180,000. Maryland and New York, respectively, have voted \$600,000 and \$200,000. Its appropriation of \$200,000 by \$50,000; Iowa its \$50,000 by \$125,000, and Massachusetts has doubled the \$75,000, which it had already appropriated.

It is proposed to run from New York to Chicago, at the time of the dedication of the Exposition buildings, ten special trains, ten minutes apart, each train to have elaborate decorations and music.

An East India village and exhibit will occupy 200,000 square feet of space on Midway Plaisance.

The Silk Association of America and the Silk Industry Association have decided to combine in making the finest possible exhibit of silk goods and products.

At an expense of \$79,300 contracts have been let for furnishing the Fair with boilers of 10,000 horse power capacity. The Exposition power will burn oil instead of coal. About 225,000 barrels will be required, for which the Exposition Company will pay 72 1-2 cents a barrel. The contract has been let for putting in about twelve miles of sewerage pipe in the grounds for \$57,736.

One million signatures of people directly and indirectly connected with the Exposition are being collected by the World's Fair Mammoth Autograph Album Co. Copies of these collections of autographs will be bound in three volumes of 2,500 pages each, to be presented, respectively, to the President of the United States for the Smithsonian Institution, to the Governor of Illinois for the State Library, and to the Mayor of Chicago for the City Public Library. The names will be collected from all parts of the world.

The Methodists have decided to hold an international camp meeting of a month's duration at the time of the Expo-

sition. It will be held half the time at Lake Bluff. Both places are a few miles out from Chicago.

Dr. David J. Guzman, the Director of the Costa Rica Commission which has in charge the exhibit of that Republic at the World's Fair, has prepared a very carefully detailed classification and descriptive list of everything which will be included in its display at Chicago, and printed the same in a pamphlet, which has been sent to all the officials of the Government, with specific directions for securing the desired articles. The planters, merchants, artisans and skilled workmen, in various parts of that country, are taking great interest in the matter, and are already at work in the preparation of their products and illustrations of their varied industries. The Director is a gentleman of large experience in other Expositions; and is besides an enthusiast on the subject of a fine display for Costa Rica, so that, with the active aid and sympathy of the Government there is no doubt of his success.

A herd of live elk will be taken from Idaho to the Exposition.

Minnesota will supplement its World's Fair appropriation of \$50,000 by \$100,000 raised by subscription.

Idaho will show some splendid specimens of mica in the Mines Building. It has ledges of mica eight feet thick and apparently inexhaustible. Sheets of it as large as 10 by 12 inches, without a flaw, and as thin as tissue paper, are not uncommon. It is the mica of the Idaho building glazed with mica.

The Canadian Pacific railway will exhibit at the Fair a model passenger train, and also models of the fine ocean steamers in that company's service.

More than 7,660 ear loads of building material have been received on the Exposition grounds.

From the Royal Nurseries for Ireland John Thorpe of the Bureau of Floriculture has received information that two cases containing 1,550 plants have been shipped to the World's Fair.

Republican Gerrymander in Ohio

Columbus, O., March 30.—The Legislature to-day enacted into a law the bill redistricting the State for Congressional purposes. It gives the Democrats six and the Republicans fifteen, which is just reversing the present apportionment.

Storms at Chicago.

Chicago, April 1.—At about 6:30 o'clock this evening sky, which had been threatening all the afternoon, became as night, and in another moment a terrible cloudburst occurred. The wind blew at a hurricane rate and drove the rain in sheets along the streets, sweeping every movable object before it. The wind was of cyclonic force, and at the corner of Halstead and Pearce streets blew down a big building, which crushed others, killing three people and injuring many more.

The building at Halstead and Pearce streets was a seven story brick structure. It was surrounded by one and two-story frame and brick buildings, the homes of humble laborers, and, crashing upon them, instantly crushed out the lives of three unfortunates, and fatally or seriously injured many others.

THE SCHOOL FUND.

Figures Showing Where the Money Comes From.

Frankfort, Ky., March 31.—The report of the Superintendent of Public Instruction gives an itemized statement of the permanent school fund of this State:

Though Kentucky, as one of the earlier States in the Union, had no United States Government land with which to establish her permanent school fund, like Texas, California and many Northwestern and Western States, it can not be said that she has been any the less thoughtful and generous in the provisions made for the endowment of her common schools. Besides the \$606,641.63 direct tax money recently received from the United States Government and converted by the Legislature into a six per cent. interest bearing bond and turned over Tuesday by the Governor to the State Board of Education for the benefit of the schools, and for which the State will hereafter pay the State Board annually \$36,398.46, there is the old bond of the Commonwealth for \$1,327,000, on which interest is paid at six per cent., amounting annually to \$79,620; the county surplus bond due the counties of \$378,946.71, on which interest at six per cent. amounts to \$22,736.80; also 735 shares of stock in the Bank of Kentucky, on which dividends accrue to the amount of \$5,885. These incomes are uniform and annual, and will aggregate \$144,635.26.

Other sources of income are variable by reason of the changes made by the Legislature in the tax levy for the benefit of the schools, but the past year's income has been \$12,000. The total income of the schools is \$162,431.06, which is a standing offer of \$10. Henderson Journal, their equal.

Figures Showing Where the Money Comes From.

Frankfort, Ky., March 31.—The report of the Superintendent of Public Instruction gives an itemized statement of the permanent school fund of this State:

Though Kentucky, as one of the earlier States in the Union, had no United States Government land with which to establish her permanent school fund, like Texas, California and many Northwestern and Western States, it can not be said that she has been any the less thoughtful and generous in the provisions made for the endowment of her common schools. Besides the \$606,641.03 direct tax money recently received from the United States Government and converted by the Legislature into a six per cent. interest bearing bond and turned over Tuesday by the Governor to the State Board of Education for the benefit of the schools, and for which the State will hereafter pay the State Board annually \$36,398.46, there is the old bond of the Commonwealth for \$1,327,000, on which interest is paid at six per cent., amounting annually to \$79,620; the county surplus bond due the counties of \$378,946.71, on which interest at six per cent. amounts to \$22,736.80; also 735 shares of stock in the Bank of Kentucky, on which dividends accrue to the amount of \$5,883. These incomes are uniform and annual, and will aggregate \$144,635.26.

Other sources of income are variable by reason of the changes made by the Legislature in the tax levy for the benefit of the schools, but the past year has been the best interest already mentioned. Twenty-two cents out of the total tax rate of forty-two and one-half cents on each \$100 taxable valuation—the one-half cent being the provision for the Agricultural and Mechanical College at Lexington, fifteen cents for general expenses of the State Government, and five cents for the sinking fund—making a proportion for the common schools of forty-four eighty-fifths of all taxes from Sheriffs, railroads, banks, distilled spirits, lotteries, corporations, licenses, fines and forfeitures. For the year ending June 30, 1891, the fund derived from all the sources enumerated amounted to \$642,989.38.

HORROR IN BURMAH.

Two Hundred Persons Roasted To Death.

Rangoon, March 30.—A great fire is raging in Mandalay. Three-quarters of the town are already destroyed, including the new telegraph office and the old palace. Great loss of life reported. Later advices states that the loss of life has been between seventy and a hundred so far as known, and scores of persons have not been accounted for. The loss may reach 200 and possibly more.

No search has been made for bodies, as the people have been fleeing to the open country all day. They are camping at a distance from the city without food or shelter, and calls for help have been sent out by the authorities.

The rest of the city will be destroyed before morning, and about 25,000 families will be homeless.

Chief Secretary Symes has appealed to the English in Rangoon for aid.

The total number of those severely burned is thought to be about twenty-five hundred.

Roarer Awake! Snorer Asleep!

ROARER Isn't caught napping. He is on to the best place to trade and knows by instinct or intuition when bargains are being placed upon the counters. By the way he is a frequent visitor at our store and from the fact that he continues we deduct the conclusion that every thing is satisfactory. This is as we wish it and as we strive to have it.

SNORER is a sheepy, thick headed fellow, who is not alive to the exigencies of trade and does not realize that right here in his own place is a store equal to any this side of Kalamazoo in every respect. If there is any Snorer, depend on us to find it; this seems like brag but it is straight truth.

Pursuant to the instructions of the Democratic State Central Committee, a mass meeting of the Democrats of Crittenden county is hereby called to meet in Marion on Saturday, May 14, 1892, at 2 o'clock, p. m., for the purpose of appointing delegates to the State convention to be held in Louisville, May 24, for the purpose of selecting delegates to the National Democratic Convention to be held in Chicago in June.

The loss by the fire at Mandalay, Bernah, is estimated at \$5,000,000.

Several weeks ago something was said about a man named Hill as a candidate for president.

The Union Local says the contract for building at \$33,000 Catholic church at Uniontown has been let.

It is claimed that tin ore has been discovered near Chattanooga. Claims of this kind will be numerous from now until after the election.

The Mississippi Legislature has made it a fine and imprisonment to sell a newspaper, containing a lottery advertisement, in that State.

The time of adjournment of the legislature is no longer discussed by press or people. That body is employed by the job and paid according to time.

A bill has been introduced in the Legislature providing that future hangings in the State shall take place inside the walls of the penitentiary. This bill should become a law.

The Minnesota Democratic State Convention said to its delegates to the National Convention: "Vote and work for Grover Cleveland as long as there may be a reasonable hope for his nomination."

Hon. John W. Lockett has been recently importuned by his many friends in the Second district to run for Congress, but he publishes a card declining. John Lockett would be a valuable adjunct to either the Legislative or Judiciary department of the country.

Evansville went Republican Tuesday in the city election. The Democrats needed a little chastisement to make them quit quarreling among themselves and get ready for the November effort. Local questions and not National issues determined the result.

C. C. Moore, editor of the Blue Grass Blade, is serving a sixty-day sentence in the Bourbon county jail for publishing a libel on the members of the Christian church at Paris. He wants to be moved to the Lexington jail where he can continue to edit paper. Unless he discontinues his libelous publication Kentucky should present him to the czar of Russia as a good subject for Siberian exile.

Now comes the news from New York that Tammany Democrats have translated the tracings of the Democratic hand-writing and are ready to yield to the demand of Democrats that Cleveland must be nominated. In an interview Richard Croker, the head of Tammany Hall, says:

"The New York delegation to Chicago has no disposition to stand in the way of the evident wishes of the Democrats of the country, and will cordially acquiesce in Mr. Cleveland's nomination, not only this, but we will carry New York for Cleveland in November."

The new election law now before Senate for consideration has a local option section similar to our present law on that subject. It provides that upon the petition of one tenth of the voters of any county, town or precinct, the county judge shall order an election. Any number of persons, not less than ten may contest the election, and the same board that tries contests in the election for county officers shall determine contests in local option elections, and appeals may be taken to the circuit court. The provisions of the law shall not apply to any manufacturer or wholesale dealer who, in good faith, and in the usual course of trade, sells by the wholesale, nor to druggists who sell for medicinal purposes on a prescription made and signed by a regular practicing physician; but no physician shall make or sign any prescription except the person for whom it is made is actually sick, and such liquor is absolutely required as medicine, and the physician who violates this law shall be fined \$50.

Bitten by a Mad Dog.

A gentleman at Georgiana, Ala., writes the Press as follows: "Mr. A. J. Bennett, one of your most prominent citizens and successful farmers paid the Messrs. Bennett of this county, a flying visit last week. He expressed himself as being highly pleased with our people, our pine forest and pretty roads. He made many friends while here and it is thought that he returned with a lucky rabbit foot. If Mr. Bennett does not make a good crop this year, there is no virtue in a grave yard rabbit's foot rear foot."

John Hendricks.

We authoritatively announce Mr. John K. Hendricks, of Smithland, a candidate for Congress. His wide spread acquaintance in the Press' belittled makes it a redundancy for us to refer to his eminent qualifications for the honors to which he aspires. Back in the seventies he was a school teacher in this county and later he was deputy sheriff. In both of these capacities he was popular. Afterwards he went to Livingston county, and for two terms held that county an exceptionally good officer as county attorney. Then he was sent to the State Senate and there his ability as a statesman and fearlessness in the discharge of duty, made for him an excellent reputation co extensive with the State. He is a man of strong convictions, aggressive in his demands for what he conceives to be right and just, and his aggressiveness is backed by an abundance of other wit, and a large fund of local knowledge and general information. He would, without doubt, do honor to the old Gibraltar district of Kentucky in the National Congress.

Hon. W. H. Bush Dead. Will R. Bush died at his home in Smithland Saturday of consumption. He was the son of Capt. J. V. Bush, the well-known attorney at law. In 1878-9, young Bush represented Crittenden and Livingston counties in the Legislature. He was a promising young man and had many friends in the two counties.

W. C. CARNAHAN DEAD.

An Old and Substantial Citizen Passes Away at the ripe Age of Seventy-Four.

Mr. W. C. Carnahan died at his residence in Marion Saturday afternoon, April 2, at 2:25 p. m., after a few days before his death he ventured out in the sunshine, paid the bank a visit, greeted a few friends on the street; he was out but a short time, but contracted a cold which developed into pneumonia, and ended his long and successful life. Funeral services were held at the Methodist church Sunday afternoon, and were conducted by Revs. S. K. Breeding and J. F. Price, and were largely attended, after which the remains were interred in the cemetery. His wife and four children survive him. The widow is the daughter of the late Martin Hammond; the children are his two sons, Benjamin and Harry, and the two daughters, Mrs. Judia Wheeler, wife of Frank Wheeler, and Mrs. Electra M. Boaz, wife of John D. Boaz, all residents of Marion.

W. C. CARNAHAN.

William Chandler Carnahan was born in Hopkins county, May 18, 1818, and was one of a family of eight children, only two of whom survive him, Mrs. Elizabeth O'Bryan and Mrs. Mary A. Cardwell, both now living in Hopkins county. When in his sixteenth year the subject of this sketch was apprenticed to Wm. Young, a saddle and harness maker of Madisonville; after serving an apprenticeship of four years, he began business for himself, with nothing but energy, knowledge of the business and tact as his capital. His first stock was paid for with a lot of raccoon skins, most of which he had come in possession of as a hunter. After working at the trade for two years, he moved to a farm in Hopkins county and after tarming a few years he came to Marion in 1844—two years after Crittenden county was organized, and when Marion was but a cross-roads settlement, with a store or two, a smith shop, and a few other small business affairs. Here he entered upon his trade as a saddle and harness maker, which he industriously pursued until 1861, at which time by his industry and economy, he had accumulated some means. From 1861 to 1865 he engaged in trading and began to invest in property at this place. In 1865 he was elected sheriff of Crittenden county, and in '67 was re-elected. After his term of office had expired, he continued to trade, and invest in property. He was one of the chief spirits in organizing the Marion Bank, and was at its organization, elected Vice President, and afterwards President, which position he held at the time of his death; his safe business methods and sturdy character gave the public great confidence in the institution from the beginning and his management has since shown his ability as a financier. Years ago, his business foresight and sagacity led him to invest largely in real estate in Marion, when the town was struggling along and property cheap, he purchased and as the town grew, his possessions became more valuable, and his estate includes the best and most substantial business houses in Marion. The improvements he made of recent years are of the kind that add to the substantial character of the town, and when Marion refers to her growth and the citizens whose judgment and money contributed to her development and prosperity the name of Wm. Carnahan will be in the mind.

Resolutions of Respect. At a call meeting of the officers and directors of Marion Bank held at their office in the Bank on April 4th, 1892, J. W. Blue, Sr., was appointed chairman and J. C. Elder, secretary. The chairman then announced the death of W. C. Carnahan, President of Marion Bank in a few appropriate remarks, and thereupon H. H. Loving introduced the following resolutions which were unanimously adopted. Resolved, 1st. That it is with profound regret we have heard of the death of our esteemed and worthy president, W. C. Carnahan and as a token of our respect and

esteem for him as President of this Bank the front door of the Bank is ordered to be draped in mourning for 30 days. 2nd. In the death of Mr. Carnahan the town and community in which he lived have lost an honorable upright and public spirited citizen, who has used his means with liberality in building up the material interests of the town and in promoting the general prosperity of the community. 3rd. We extend to the bereaved widow and family of the deceased our sincere sympathy in their bereavement. 4th. That a copy of these resolutions be sent to the widow and a copy each to the Crittenden Press and Marion Monitor with the request that they publish same, and that these resolutions be spread upon the records of the bank. J. W. BLUE, Chairman. J. C. ELDER, Jr., Secretary.

The Carnahan heirs allotted the town real estate among themselves. The opera house building, and the Leigh residence on Bellville street goes to Mrs. Boaz; the Masonic block and Marion Hotel to Harry; the two new buildings adjoining the bank to Mrs. Wheeler; the small room next to the bank, the houses occupied by

L. S. Lefell & Co., and the vacant lot on Main street go to Mrs. Boaz; the family residence and the business houses on the corner of Main and Salem street go to the widow. The estate of the late W. C. Carnahan is variously estimated at from \$100,000 to \$150,000. The heirs will make a division among themselves without having recourse to any of the usual methods of arranging such affairs. Thanks. EDITOR PRESS:—Through your paper permit us to return our sincere thanks to the many friends for their considerate and kind attentions during the late illness of our beloved dead. Mrs. Sallie Carnahan and Children. Who will succeed W. C. Carnahan as president of Marion Bank? is the question that has had considerable local discussion since the death of Mr. Carnahan. The Press has it from a reliable source that Mr. R. W. Wilson, the old President will be tendered and will accept the place. No man can more satisfactorily fill the place than Mr. Wilson; his experience and high standing as a financier, and his great popularity among the people of Marion and Crittenden county, make him the man for the most important place in the most important financial institution in the county. He retired from the bank some months ago to give his attention to his personal affairs and his return will be heartily approved by every patron of our deservedly popular bank.

WIN AGAIN.

The Whiskey Men Appear to Hold the Winning Hand.

Friday the great and only whiskey question, and its opposing parties were before County Judge Moore, with their war paint thickly spread on. Robertson and Doss had been summoned to appear before the court to answer in six cases each to charges of violating the local option law. The defendants swore Judge Moore off of the bench, and the bar immediately proceeded to the election of a pro tem judge to try the cases. Mr. P. C. Stephens was elected. The attorneys for the local optionists were not pleased with the result, and had the cases postponed until July, in order to have the matter brought before the grand jury. The next appearance of the long-drawn-out fight will probably be in the Circuit Court. The local optionists think Judge Givens will give the grand jury a special instruction in this matter. Until Circuit Court in June the litigants will rest upon their arms, and then the fight will begin again with renewed vigor.

AN UNSUCCESSFUL CHARGE.

Three Illinois Citizens Undertake to Capture Ford's Ferry and Land in Jail.

Saturday, Horace Walker, Clifford Kaylor and John Courley, came over from Illinois to Ford's Ferry, and after embibing sufficiently to make them feel powerful, they undertook to paint the town red, using the citizens thereof to spread the paint on with. Two or three parties evaded their onslaught and they finally pressed the matter on young John Daugherty, who was not disposed to flee from the wrath threatened; a fight ensued; daugherty was severely cut in the arm by Kaylor, while Courley attempted to shoot, but his pistol—a long barrel old fashion Smith and Wesson—refused to do service. Justice of the Peace Rankin organized a posse and after a desperate struggle, the three invaders of the peace were overpowered. They were put in a wagon, and, in charge of a guard, started for Marion; just before reaching town Walker leaped from the wagon and disappeared in the darkness. Kaylor and Courley failed to fill a \$300 each and they were put in jail to answer the charge of stabbing with a knife in an affray. The punishment of the offense charged is a fine of from \$50 to \$500.

In making a stroke at Daugherty with a knife, Kaylor missed his victim, and cut an ugly gash in his own thigh. They were before the court Monday and Kaylor was held over until Circuit Court to answer the charge of cutting with intent to kill; failing to fill a bond he was remanded to jail. Courley was fined \$25 and 10 days in jail for carrying concealed weapons, and \$50 for giving liquor to Kaylor, who is under twenty-one years; the fine to be paid in labor on some public work, unless it is reprieved or paid.

Kentucky's public school fund this year is \$1,314,164.25 on a per capita of \$2.25. In providing for the education of her children Kentucky stands in the front row. Counties and districts of other States may aid their schools by a greater local taxation than do many of the counties of Kentucky, but in providing a general public fund few exceed our Commonwealth. Near fifty per cent. of the taxes collected by the State goes into the public school fund.

FASHION NOTES.

Watches are more worn than for several years.

Most of the new dress skirts have greater fullness at the top.

The prettiest hat pin is a bow-knot as it lays flat to the hat.

Smoke pearl buttons are shown in oval, square and round shapes and in light and dark tints.

There is a decided tendency shown by the latest models in sleeves to a modest droop over the elbow.

A color freak is displayed in the attempted introduction of pale green shades upon toilettes of light tan.

The new silk blouses worn with woolen skirts will make the most popular and comfortable traveling dresses this summer.

The Prince of Wales bow makes a pretty shoulder decoration for evening brocades. It is made of three high curving loops of ribbon.

The reappearance of sage green in so many of the leading novelties emphasizes the fact that this shade is alike becoming to blonde and brunette.

The velvet bodice will be a popular addition to the chevron-striped wool skirt. When this is worn this is worn the seams of the skirt are generally piped with velvet.

The Carmencita is the appropriate name for one of the new parasols, the full chiffon flounces representing the skirt-dancer's skirts. It is flounced inside as well as out, and is a decided novelty. Although a great deal of jet will be used on parasols, it does not seem appropriate, as it retains the heat so long.

One of the prettiest and simplest ways to make a gingham dress is to have a bell skirt, edged with a ruffle of lace, and to overlap this and sewed to a separate band a skirt to reach nearly to the knees, and bordered also with a ruche of lace. This overskirt should be slightly full on the band all around to represent the lower part of the long Russian blouse, and worn over a round, full waist with a belt.

Roustabouts Strike.

St. Louis, March 31.—Today about 2,000,000 negro roustabouts, employed on the Mississippi steamers went on a strike. They want an increase of wages. Under the production of the American Federation of Labor they have gone "on a strike" fully 2,000 strong, and apparently no one views their action with more surprise, stranger or more characteristic comment than do the sable strikers. The strikers have been in the main peaceful, conducting themselves in a quiet manner. As each boat arrives the general nature of the strike becomes evident, for, in addition to those already tied up, the new arrivals, four to-day, find themselves without power to unload, and they, too, perforce, are compelled to lie along the levee without a hand to move their cargoes.
