## TARIFF TAXATION.

What Some Prominent Republi-  
cans Have Said About It.

High tariff speakers and  
high tariff writers frequently  
take pride in calling attention  
to utterances of certain Dem-  
ocrats, and, after constructing  
these utterances to suit them-  
selves, announce that there  
men were protectionists of the  
latter day strife; when in fact  
such tariff taxes as are now in  
existence were not then even  
dreamed of.

Prominent Republicans have  
also spoken on this great ques-  
tion, and the echoes from the  
voice of some of them have  
hardly died away. They were  
not discussing the law tariff  
taxes of the earlier periods of  
our country either, but the pre-  
sent tariff—the tax that was  
levied to carry on the war, and  
which the manufacturer, the  
monopolist, has succeeded in  
having increased and retained  
to the present day. Here is  
what some of things have been  
said by Republicans since agi-  
tation of this question began:

W. B. ALLISON.

March 14, 1879.—The agri-  
cultural interest, it will be seen  
is much the largest interest in  
its aggregate product as well  
as in the number of persons  
employed I believe no one will  
claim that this large interest  
is directly protected. It is  
true that under customs laws  
there is a small duty upon  
wheat, barley, oats, and other  
agricultural products, but it  
does not afford any protection  
to the great wheat and grain  
producing regions of the coun-  
try.

What is true of wheat is  
equally true of other grains.  
Therefore the farmer has prac-  
tically no protection at all, and  
whatever benefit he derives is  
from what the home market  
furnishes for home products.  
Unfortunately for the farmer  
the market price of wheat is  
fixed by the price which the  
surplus will bring abroad, or  
the price of wheat in London  
or Liverpool. At that market  
where the surplus is sold; and  
which fixes the value of the  
whole crop, he comes in com-  
petition with the grain produc-  
ers in the Crimea, in Hungary,  
and in the region of the Baltic,  
from fields cultivated by what  
is known, in comparison with  
our own, as pauper labor.

But I am told we must so  
legislate as to furnish a home  
market for all our agricultural  
products; and this can only be  
done by high tariff. Any one  
examining the subject will see  
that our agricultural products  
increase more rapidly than our  
population, so that, if we do  
not export these products in  
their natural condition, we  
must do so by converting them  
into manufactured articles, and  
export those articles. But this  
cannot be done under a high  
tariff, for all nations will buy  
manufactured products where  
they are the cheapest, and the  
nation selling the cheapest  
will control the market.

HON. BEN BUTTERWORTH.

May 10, 1890.—I sound this  
note of warning; and whatever  
this House may decide, and al-  
though it may resound with  
plaudits of utterances that a  
Chinese wall is the security of  
our people, yet I assert that  
there never was a time in the  
history of the Republican party  
when it was in more danger of  
defeat than upon this one sug-  
gested idea that it is permis-  
sible to levy tribute upon all the  
people of this country of sixty-  
five millions to confer a benefit  
upon a few hundred.

May 14, 1890.—The manu-  
facturers and the Trusts get the

protection and the profits of  
the tariff—the farmer gets the  
husks and the humbug.

HON. PRESTON B. PLUMB.

1883.—No one raising any-  
thing within the State of Kan-  
sas and no manufacturer with-  
in that State asks for an in-  
crease of duty on anything.  
We do ask that a ring—if I  
may use that expression with-  
out offence—a collection and  
combination of interests locat-  
ed upon the eastern frontier  
of this country, near to the  
seat and sources of power,  
easily accessible to tariff com-  
missions and easy to get their  
ears—shall not have their own  
way about everything of this  
kind, entirely irrespective of  
the sections of this country re-  
mote from the seat and sources  
of power.

The people want no higher  
taxes, but lower taxes; and in  
giving the protection for  
American industry, they want  
to give a decent chance to a  
class of people who, by reason  
of their calling, cannot be pro-  
tected at all, but who have got  
to take their chances in the  
markets of the world for their  
products—hard products to  
get to market, and in the pro-  
duction of which there is the  
smallest margin of a profit.

1889.—I call his attention to  
the fact that there has been a  
very close corporation formed  
consisting of all the manu-  
facturers, as I understand, some  
six or eight in number, in the  
United States, whereby the  
price of these articles (steel  
beams, etc.) has been made  
not only uniform, but has been  
largely enhanced. In the con-  
struction of the capital build-  
ing at Topeka, Kan., the con-  
tractor found that he was able  
to save, I think, some twenty  
or twenty-five thousand dol-  
lars by purchasing articles of  
this kind abroad and shipping  
them to this country; and the  
contractors for the State-house  
in Texas saved between one  
hundred and fifty and two hun-  
dred thousand dollars by a sim-  
ilar purchase. One of the con-  
tractors for the Texas State-  
house told me that when the  
question of purchasing the  
beams for that building was  
under consideration his super-  
intendent applied to all the  
manufacturers of steel beams  
in the United States for prices  
and received from each one of  
them a reply naming the same  
price; and it was found impos-  
sible to get up any competition  
or in any way to break the  
price, so they were constrained  
to go abroad to save this very  
large sum of money, which  
they did. I have no doubt  
that the price of these beams  
is much larger than it ought to  
be, and that if there is no other  
way of breaking up this com-  
bination, it ought to be reached  
by a sensible reduction of the  
duty.

These manufacturers were  
not willing to enlarge their pro-  
duction and thereby meet the  
entire American demand, but  
preferred to manufacture a  
limited supply at enormously  
increased profits, and that, I  
think is a feature of the iron  
manufacture in this country to  
a very considerable extent.  
That is to say, those who man-  
ufacture these articles—beams  
—do not care to supply the  
entire American market, but  
prefer to supply only that por-  
tion of it which they can sup-  
ply at an enormous profit.

HON. JOHN A. LOGAN.

April 18, 1870.—Now, when  
the gentlemen who seems to be  
the protector, in an especial  
manner, of the great labor in-  
terests of this country speaks  
of his protection being the pro-  
tection of the labor of this coun-

try, I ask him: Does not every  
farmer and machine in this  
broad land make use of iron  
in all kinds of labor? The  
4,000,000 men that have been  
freed recently are laborers and  
producers, not manufacturers.  
They are not men of skilled  
labor; they evidently are not  
men who are protected. And  
then there are the men in the  
Northwest, who produce corn,  
wheat, oats, pork, and beans,  
etc. They are producers, and  
consumers, and are not pro-  
tected; and it is they who pay  
this large amount of money  
into the pockets of the manu-  
facturers of this article. And  
when a gentleman stands upon  
this floor and tells me that this  
high, this extraordinary high,  
tariff is for the protection of  
the laboring men, I tell him I  
do not understand how he can  
possibly substantiate such a  
theory.

HON. JEREMIAH M. RUSK.

1890.—I had an opportunity  
to take some stock in the com-  
bination [National Harvest  
Trust] and I know what in-  
ducements were offered. An  
investigation will show that  
this same combination is now  
selling, or offering to sell  
machinery in Russia and Aus-  
tralia and other wheat-growing  
countries at a lower figure than  
they do in this country. This  
won't do, and I need not offer  
any argument to prove the  
weight or truth of the assertion.  
The first thing the farmer will  
do when he is acquainted with  
the facts will be to make a howl  
against trusts and protection  
that does not protect. Whether  
justly or not, he will refer to  
the Republican party.

as certain as I can be of  
anything that this mover and re-  
aper Trust will cost the Repub-  
lican party hundreds of thou-  
sands of votes at the next Pres-  
idential election unless it takes  
a firm stand against it and  
trusts in general.

## 200 GRAVE DIGGERS.

They Work Day and Night to  
Bury the Victims of  
Cholera.

London, Sept. 9.—The Morn-  
ing News' Hamburg correspon-  
dent describes the Ohlsdorf  
cemetery and the route thither,  
the latter formerly a holiday  
resort. He says of this ap-  
proach: "It is now shunned  
except by an unending proces-  
sion of hearses." He adds:  
"Already 6,000 bodies have  
been buried in the cemetery  
since the outbreak, 200 grave-  
diggers working at increased  
wages day and night. The  
bodies are buried en masse in  
trenches in rough coffins.  
Flaring petroleum lights are  
dotted over the cemetery at  
night. A great number of  
corpse carriers are lodged in  
huts in the cemetery; their  
march from hearse to grave  
proceeds with slow decorum in  
the day time, but briskly at  
night, when there is no relig-  
ious ceremony of any kind.  
Generally there is a line of  
hearses half a mile long wait-  
ing."

The Standard's Hamburg  
correspondent says: "A fur-  
ther abatement in the epidemic  
is visible, but the number of  
fresh cases to-day is still heavy  
the total being 789. The deaths  
in the last twenty-four hours  
number 246, and the inter-  
ments 481. In the hospitals  
and barracks there are 2,941  
patients under treatment, but  
there are only nine cases in the  
shipping quarter. Prince Bis-  
marck has donated 10,000  
marks to the relief fund. The  
opening of the theaters has been  
postponed until October. Con-  
fidence is returning."

## Carrollville.

Work on our streets seems  
to be the order of the day.

Carrollville is just on the eve  
of a boom, that is all that is  
needed, is a boom, and we  
are looking for him daily.

The board of trustees of the  
town propose to adopt a new  
set of by laws. We suppose  
they will give us good laws,  
plenty of protection, and will  
pass the force bill, as the board  
is composed of three Republi-  
cans and two Democrats. It  
appears that the Republicans  
will soon be in the majority in  
our town from the way they in-  
crease. Ten years ago there  
was only about three Republi-  
cans in the town and now they  
are pretty well divided; in fact  
we are under their control, both  
in the town and public school.  
The voters here say they are  
used to nothing so, are willing  
to have Nunn for circuit judge.

The vote will be pretty well  
divided between James and  
Gordon for commonwealth  
attorney.

Farmers report the present  
dry weather as affecting the  
late potato crop, which is the  
largest ever planted in this sec-  
tion.

John Clark, known as "Ele-  
phant" Clark, was in our midst  
a few days ago, canvassing for  
the sale of a cultivator his own  
patent.

The board of town trustees  
have put a veto on saloon keep-  
ers selling intoxicants to inebri-  
ates, which may be the  
means of reducing the price of  
bad head whisky, then won't I  
that is, if I can just drink  
up sober.

## FOR SALE.

You correspondent wishes to  
sell his property in Carrollville,  
consisting of store house, resi-  
dence and stock of goods, con-  
sisting of dry goods, notions,  
boots, shoes, hats, caps and a  
complete stock of staple and  
fancy groceries, all nice, clean  
stock of about \$3,500. Also 3  
houses and 5 town lots; the  
store house is 60x32 feet, with  
an elegant office 12x32 feet;  
residence attached, with 3 nice  
rooms 14x20 feet; a good cell-  
ar under kitchen; also a cellar  
under store house, and dwelling  
32x60 feet, the office is well  
arranged, well lighted and has  
all the furniture necessary, in-  
cluding a large iron safe with  
4 tills and book case, all of the  
above can be bought for \$5,500;  
easy payments after first pay-  
ment of \$2,000. Here is a  
chance for any one who wishes  
to invest his money in real es-  
tate and merchandise. Inquire  
at the office of Adams Express  
Co., Carrollville, Ky., for terms.  
Agent will show property.  
Good Luck.

## ALL IN LINE.

Tammany Hall Declares Boldly  
For Cleveland.

New York, Sept. 9.—Tam-  
many Hall came out boldly to-  
night for Cleveland and Stev-  
enson. A meeting of the gen-  
eral committee had been called  
together to issue a call for the  
primaries of the districts.

The chairman made a brief  
address endorsing the Presi-  
dential and Vice Presidential  
candidates and the hall shook  
with cheers. Bourke Cockran  
then presented a resolution en-  
dorsing the nomination of the  
principles.

The resolution in conclusion  
says: "We do cordially pledge  
our untiring efforts to the elec-  
tion of Grover Cleveland to the  
presidency and of Adlai Stev-  
enson to the vice presidency of  
the United States.  
The resolution was adopted  
unanimously.

## DOUBLE HANGING.

The Necks of Two Murderers  
Snap in the Ohio Peniten-  
tiary.

Columbus, O., Sept. 8.—  
Charles Craig, colored; and  
Edward McCarthy, a brace of  
Cincinnati murderers, were  
executed in the annex of the  
Ohio penitentiary this morn-  
ing. Each of their cases had  
been through all grades of the  
courts, were considered by the  
Board of Pardons and a final  
appeal made to the Governor.  
The latter refused to interfere  
in either case, although a strong  
pressure was brought to bear  
on him to-day.

McCarthy was a criminal  
from early manhood. August  
23, 1890, he became involved  
in a quarrel with Albert Net-  
terman, at Cincinnati, and shot  
and killed him. He was con-  
victed and received at the pen-  
itentiary January 21, 1891,  
and sentence was suspended to  
give the case a chance before  
the higher courts and the Board  
of Pardons.

September 13, 1890, Char-  
les Craig killed his colored  
mistress; Annie Thompson, in  
Cincinnati. It was a most  
atrocious crime. He was born  
and raised in Kentucky and  
served time in the penitentiary  
of that State. He was senten-  
ced to be executed April 3 last,  
but respites were granted and  
sentence suspended to give him  
a chance before the higher  
courts.

Both men spent the day  
quietly with relatives in the  
annex. McCarthy did not  
give up hope till evening, when  
he received final word that the  
Governor would not interfere.  
The men dressed early for the  
scaffold and awaited with un-  
usual composure the last for-  
malities.

McCarthy came on the scaf-  
fold at 12:12 this morning, hav-  
ing won the choice from Craig.  
The ropes were soon adjusted  
and in a few words he asked  
the forgiveness of all. His neck  
was broken in the fall, and he  
died in thirteen minutes.

Five minutes later Craig  
stood in the same position; and  
after taking leave of the offi-  
cials the trap was sprung. His  
neck was also broken, and he  
died in twelve and one-half  
minutes. The work was rapid  
and satisfactory, being without  
special incident.

## A CORNER ON SALOONS.

Chicago Brewers to Buy Up the  
Big Dram Shops of the City.

Chicago, Sept. 9.—A com-  
bine was formed to-day be-  
tween the breweries of Chicago  
by which they are to contrib-  
ute jointly the sum of \$6,000-  
000 for the purchase of saloons  
throughout the city. The best  
paying establishments through-  
out the city are to be purchas-  
ed and run in the interest of the  
trust.

Six per cent. bonds to the  
amount of \$6,000,000 secured  
by the plants of the companies  
in the combine are to be floated  
as a means of raising the neces-  
sary funds. It is understood  
that the Milwaukee breweries  
are to some extent in the deal.

## An Irate Judge.

Philadelphia, Sept. 9.—"If  
this were a child of mine you  
would not be a prisoner before  
the bar of justice to-day, for I  
would have killed you where I  
found you," was the tirade  
Magistrate Fulmer to-day di-  
verted to Simon Monroe, charg-  
ed with criminally assaulting  
twelve-year-old Lizzie Thomas.  
The prisoner was committed to  
Moyamensing prison without  
bail.

## LIKELY TO FAIL.

Prohibitionists Cannot Get Sig-  
natures to That Million  
Voter Contract.

New York, Sept. 9.—There  
are hardly any prospects that  
the Prohibition party will be  
successful in obtaining its one  
million of signatures to the  
agreement by which each sign-  
er pledges himself to vote for  
the candidates of the Prohibi-  
tion party for President and  
Vice-President, provided the  
signatures of 1,000,000 voters  
can be secured to the agreement.  
Great store has been placed in  
this scheme by the leaders of  
the Prohibition party, and at  
the National Convention in  
Cincinnati last July the opinion  
was freely expressed that this  
agreement would provide a way  
by which the prohibition ele-  
ment could capture the nation,  
and that if 1,000,000 voters  
could be induced to band to-  
gether at the ballot box in hos-  
tility to the legalization of  
drunkard making and to all  
parties upholding it, the crack  
of doom to the legalized liquor  
traffic would be sounded. Whether, however, on account  
of the diverting of the minds of  
the voters by the tariff and  
force bill arguments, or by the  
incipient cholera scare, it is  
certain that the inflow of signed  
agreements during the past  
month or two has not only not  
been equal to expectations, but  
has not been up to the average  
of the early part of the year,  
and unless the cold-water ad-  
vocates bestir themselves in an  
unwonted degree, and Prohibi-  
tion sentiment stock takes a  
sudden boom, the committee on  
audits, which includes in its  
membership Gen. Wager  
Swayne and ex-Mayor Abram  
S. Hewitt, of New York, will  
not be called upon, this cam-  
paign at least, to sacrifice their  
time and patience in exam-  
ining and attesting to the bona  
fide character of a million of  
signatures.

## Wages Abroad.

A persistent inquirer has  
finally induced an amateur  
Protection journal to publish a  
statement of the wages paid in  
various industries in England,  
France, Germany, Italy and  
Austria.

This is the only fair compar-  
ison to make—between coun-  
tries of the Old World having  
similar conditions as to density  
of population, demand for  
labor, productiveness, cost of  
living and the other factors  
that everywhere control wages.  
To compare Old World wages  
with those of the New World  
is to ignore differences which  
are as obvious as they are vital.  
From the figures given it  
appears, as The World has  
frequently pointed out and as  
every intelligent workman  
knows, that wages in free-trade  
England are from 30 to more  
than 100 per cent. higher than  
in protectionist France, Ger-  
many or Italy.

Blacksmiths, for instance,  
receive \$9.62 per week in Eng-  
land, \$4 in Germany and \$5.81  
in France. There is substan-  
tially the same difference in the  
pay of carpenters, masons,  
painters, machinists, shoe-  
makers and other trades. Com-  
mon laborers receive \$5.29 per  
week in England, \$3.11 in Ger-  
many and \$3.53 in France.

If the tariff makes wages  
high in the United States, it  
does it not have the same effect  
in Germany and the other pro-  
tectionist countries of Europe?  
No Protectionist has ventured  
to answer that question, and  
none will.—New York World.

## METHODIST STATISTICS.

Figures Issued by the Census  
Office Covering the  
Church South.

Washington, Sept. 9.—The  
Census office to-day issued a  
bulletin giving statistics of the  
Methodist Episcopal Church,  
South, and the Congregational  
church. The returns show  
that the former has forty-two  
annual conferences in this coun-  
try, exclusive of three in mis-  
sion fields abroad, with 1,209-  
975 members and 100,017 or-  
ganizations have in all 12,687  
13-20 church edifices, which,  
with their contents and the lots  
on which they stand, are valued  
at \$18,775,362. It is a fact  
worthy of note that of the more  
than 200,000 colored members  
reported by this church in 1890,  
only a few remain in connec-  
tion with it.

## A Bloody Battle.

Anniston, Ala., Sept. 10.—  
A bloody duel took place to-day  
at Dadeville, Tallapoosa coun-  
ty, which will result in the  
death of both the combatants.  
The tragedy grew out of a  
political quarrel. Scott Pear-  
son, a Kolb man, and Daniel  
White, a Jones follower, are  
the leaders of their respective  
factions in their county. They  
are both men of iron nerve.  
They met at Dadeville and be-  
came engaged in a hot political  
discussion. The lie was passed  
and both men agreed to fight  
it out with pistols. The regu-  
lation distance was measured  
off and the ballot commenced.  
They fired simultaneously, both  
shots taking effect. The shoot-  
ing was kept up until every  
chamber in their pistols had  
been discharged, when both  
Pearson and White sank to the  
earth from exhaustion. The  
aim of each man was true and  
both men will die.

## MRS. HARRISON ILL.

Loon Lake House, Sept. 12:  
—This morning the President  
advised Chairman Hackett, of  
the New York State Republi-  
can Committee, that, owing to  
the condition of Mrs. Harri-  
son's health, it would be im-  
possible for him to make the  
tour contemplated through the  
northern and central parts of  
the State. This conclusion  
had been reluctantly reached  
but within the past day or two  
an added complication has de-  
veloped in Mrs. Harrison's ill-  
ness, and her condition now is  
such as to excite much solici-  
tation, and to prevent the Presi-  
dent's absence from her sick  
room.

(People's party), 22,444; Nel-  
son (Pro.), 1,002. Seventeen  
counties are yet to be heard  
from, which will give Fish-  
back a majority of at least  
3,000 more.

ISSUED WEEKLY.

R. C. WALKER, Publisher.

#### DEMOCRATIC TICKET.

FOR PRESIDENT,  
GROVER CLEVELAND,  
Of New York.

FOR VICE PRESIDENT,  
ADLAI E. STEVENSON,  
Of Illinois.

And there stood old Arkansas.

It looks very much like it will be  
Judge T. J. Nunn.

And now Corbett's friends want  
him to run for Congress.

The Senate passed the Attorney's  
bill over the Governor's veto.

In addition to the thanks of a  
great many people Corbett got \$35,000.

Sullivan is now fighting John  
Barleycorn. He will get knocked  
out again.

According to information up to  
date, there will be no fusion in this  
county.

Arkansas voted down amendment  
making poll-tax receipt a qualification  
for voting.

The English authorities claim that  
they have succeeded in stamping the  
cholera out of the United Kingdom.

Mr. T. T. Gardner, a Third party  
man, is booked for several speeches  
in this county. He should be asked  
to visit time.

The J. H. Rolker Company, plow  
makers of Evansville, made an as-  
signment Tuesday. Liabilities \$177,000; assets \$800,000.

There are some people who do not  
believe in quarantine. It is those  
who are on board the quarantined  
ships in New York harbor.

Judge Bishop was nominated for  
Circuit Judge and W. F. Bradshaw  
for Commonwealth Attorney in the  
Paducah district Saturday.

Tuesday one member of the lower  
branch of the Legislature called  
another a liar. It's gratifying to  
see the boys get down to work at  
last.

Dr. Pierson, of Philadelphia, has  
been chosen as successor to the late  
Mr. Spurgeon, and will fill the pulpit  
in the Metropolitan Tabernacle,  
London.

The Department of Agriculture  
at Washington in its September re-  
port places the average condition of  
the growing corn crop at 79 per  
cent of a full crop.

The Legislature has passed a bill  
postponing the assessment of property  
in the State from September 15 to  
November 15. This was done to  
give the law makers time to prepare  
and pass a revenue bill.

Mr. Cleveland went to New York  
last week and gave a dinner at which  
were Richard Croker, and other big  
Tammany men. These intimate  
associations indicate that animosities  
are turning to amenities.

Dr. Don Singletary, who with-  
drew his appointments with John  
Hendricks in this county, went to  
Arkansas to speak for the Third  
party. The latest returns from the  
State election in that State indicate  
a Democratic majority of 30,000.

The birthday anniversary of Theo.  
A. Hendricks was observed with  
great demonstration in Indiana  
Thursday. The name and deeds of  
such men as a substantial part of  
our country's history and the re-  
membering of them with reverence  
is befitting testimony to our patriot-  
ism.

Our Third party friends evidently  
want office about as painfully as any  
other party. Human nature comes  
out seemingly as strong in a Third  
party man as in anybody else. The  
truth is, gentlemen, that nothing  
but the church regenerates men.  
If a man chews tobacco in one party  
the habit will follow him into any  
other.

### NUNN IS A WINNER.

The Returns Indicate That Gor-  
den Defeats James.

#### A List of the Delegates.

Saturday the Democrats held a  
mass-meeting in each voting pre-  
cincts in this judicial district. The  
canvass has been a warm but pleas-  
ant one. In the race for Circuit  
Judge, Nunn conceded Allen his  
own county, and Allen made no  
fight in Crittenden, but both worked  
untrigly in Hopkins and Living-  
ston. In the attorney's contest the  
fight was made pretty much on the  
same line. In this contest Gordon  
was the younger man and did more  
active work; he went in to win if  
such a thing was possible; while  
James relied more upon his will  
earned and deserved reputation as a  
criminal lawyer, and did not do the  
yearlong work in the canvass that  
his friends wished.

The status of the matter is sum-  
med up as follows:

Nunn has his own county with 20  
votes solid; eighteen of the nineteen  
votes of Livingston county are in-  
structed for him. Ten votes in Hop-  
kins county are instructed for him  
making a total of 48 instructed votes.  
In addition to this, several other  
Hopkins county votes are known to  
be for him. Forty-five are neces-  
sary for nomination, hence he has the  
nomination and three votes to spare  
besides a reasonably assured re-  
served fund to draw from in Hopkins  
county.

Allen has his own county—17  
votes, and one in Livingston. Lola  
precinct. There are his instructed  
votes.

James has the twenty votes in  
Crittenden and Salem and Rudfus'  
shop in Livingston, five votes; and  
two precincts, with three votes,  
(Fredonia and Donaldson) in Cald-  
well, making 28 instructed votes.  
He has assurances of the remainder  
of the Caldwell vote, which would  
increase his vote to 42, three short  
of a nomination.

If Gordon has carried Hopkins  
solid he has 32 to start with, and  
it he has the remainder of Living-  
ston, 14 votes, as reported, this gives  
him 46 votes or one more than is  
necessary to nominate.

The delegates from Crittenden to  
the Princeton convention are:

Marion—All good Democrats who  
may attend.  
Dycusburg—S H Cassidy, Owen  
Booy, Judge Yeats, P K Cooksey.  
Union—F M Clement.  
Hurricane No 1—T J Flannery.  
Hurricane No 2—Wm Barnett,  
Sid Moore, Foster Threlkeld, Dr.  
Boyd and W L Clement.  
Ford's Ferry—H M Cook, W B  
Wilborn.

Bella Mines—S O Nunn, W H  
Asher, W F Summerville.

Livingston county as far as known  
will be represented as follows:  
Salem—S G Clark, I Linley, C R  
Stevens, J V Hayden, N M Love.  
Lola—Geo Kennedy, S Morris.  
Dyer's Hill—Frank Taylor, Wm  
Rappolee.

Carrville—H A Hodge, Dr Wash-  
burn, David Mance.  
Rodius—Morrison Hurley, H A  
Hodge, A Pope.

Carrville will probably have two  
sets of delegates at the Princeton  
convention. A correspondent writes  
from that point that when the con-  
vention assembled Saturday, a Re-  
publican was present and pledged  
himself to support the nominees of  
the Princeton convention, if he  
would be allowed to vote in the pre-  
cinct meeting. A motion was made  
that he be allowed to participate,  
and the meeting voted two to  
one for his admission, whereupon  
twelve persons withdrew from the  
regular meeting and held another on  
the outside of the house and also ap-  
pointed delegates to the Princeton  
convention.

The opposition to the regular or-  
ganized Democracy of Alabama will  
hold a convention to-day to put an  
electoral ticket in the field. A dis-  
patch from Birmingham says:  
"The aggregation together here  
next Thursday promises to be as  
nearly a crew as ever gathered in  
the confines of this State during the  
days of the carpet-bagger."

### SPEAKING.

Monday Mr. Keys opened the  
tournament at this place. He began  
at 10:30 o'clock and spoke until  
noon. His speech was about the  
same as the Third party speakers  
make. He deplores the condition of  
affairs, charges, it to the legislation  
of the past thirty years, and charges  
the legislation to the Democrats, who  
have not been in power during that  
time. He charges corruption to  
everybody, and offers himself as a  
panacea for all the ills that the  
human flesh is heir to. Fiat money,  
the sub-treasury and land loan em-  
brace the body of his speech. He  
littles the tariff tax.

Capt. Stone answered conclusively  
every argument, and his effort was  
gratifying to his Democratic hearers.  
Mr. Stone is developing great pow-  
ers as a debater in this canvass than  
he has ever shown before.

Dr. Doboe for the first time ap-  
peared on the stump. The stump is  
new to him, but he made a good  
speech from a Republican standpoint.  
He only occupied the stand about  
twenty minutes, but his speech was  
to the point and forcibly delivered.  
The high tariff and force bill were  
warmly endorsed by him.

Mr. E. T. Franks spoke for more  
than an hour, advocating and de-  
fending the Republican doctrine and  
legislation.  
Mr. C. K. Wheeler answered Mr.  
Franks. He made a magnificent  
speech, covering all of the debatable  
ground, bringing out all of the points.  
His speech was greatly appreciated  
by the Democrats.

### THEY ARE IN IT.

The Third Party To Have Can-  
didates for County and Dis-  
trict Officers.

Pursuant to the call, the Third  
party held a meeting at this place  
Monday. The object of the meet-  
ing was the discussion of the local  
political outlook, and the advisabil-  
ity of putting out candidates for  
Sheriff, Circuit Clerk, Circuit Judge  
and Commonwealth Attorney.  
Upon a vote it was unanimously de-  
cided to put candidates in the field  
for these offices.

The County Chairman was direct-  
ed and authorized to confer with the  
chairman of the party in the other  
counties of the district relative to  
the selection of candidates for Cir-  
cuit Judge and Commonwealth At-  
torney. The following were appoint-  
ed as a committee to select or nomi-  
nate candidates for Sheriff and Cir-  
cuit Clerk:

Marion—J A Hurst, J R Clark,  
G M Sisco.  
Dycusburg—W H Travis, A Sun-  
derland, Duck Stevenson.  
Union—D N Riley, T T Murphy,  
J F Howland.  
Hurricane—Jack Stallion, Alx  
Stahon, Josh Hamilton.  
Ford's Ferry—W B Rankin, D A  
Flannery, L J Daugherty.  
Bella Mines—Albert Brightman,  
F M Brightman.  
Piney—J C Little, J N Towery,  
J H Travis.

A meeting of the party was called  
for Sept. 24 at Marion. The pur-  
pose of this meeting is to endorse  
the candidates the committee selects.

If Tammany will just keep on  
swearing allegiance to the ticket,  
they may get all right before the elec-  
tion.

Monday evening the Press met a  
man prominent in Third party af-  
fairs and said:

"Are you really and truly going  
to put out county and district can-  
didates, or is this movement a flint  
to bluff, or get up a trade?"

"We are going to put candidates  
in the field," was the answer, "and  
we are not going to make any trades.  
We are going to get square in the  
road and stay there. We have been  
accused of dickering, trading and  
monkeying long enough. We will  
have candidates of our own in the  
county race; in the district, if we  
have the material in our party, we  
will have candidates, if we have not  
the suitable material, we want inde-  
pendent candidates to come out;  
candidates without the nomination  
of any party. We won't vote for the  
nominees of the old parties, but we  
will support independents, if we  
can't get candidates in our own  
party."

### Election Booths.

The new election law provides for  
voting booths. To the initiated the  
use of the word in this connection  
does not altogether give a clear idea  
of what an election booth is. Im-  
agine a box six feet long, three feet  
wide and three feet deep, standing  
on one end; remove the lid, and hang  
a curtain over the front; put a small  
shell about three feet from the  
bottom, and you have the booth.  
Three are required for each voting  
place in this county, and as there are  
eleven voting places, thirty-three  
booths are needed. As directed by  
law the sheriff has provided for these  
booths. The ones to be used in this  
county are of sheet iron, and they  
come three together, all hinged, cur-  
tained and painted. All that is  
necessary is to unbox, set them up  
and open them. Eleven substantial  
ballot boxes were also purchased,  
the total outfit for the eleven pre-  
cincts cost about \$250. If half way  
taken care of they will last for sev-  
eral generations.

Hereafter when the sovereign gets  
ready to declare his edict, he will  
body to arm him up to the poll, and  
witness the recording of the mighty  
vote, which puts power in the hands  
and honor to the name of men, but  
when the voter gets within fifty feet  
of the ballot box, his solicitude  
companions leave him and he travels  
the sacred precincts alone; approach-  
ing the clerk he gets his ticket, pro-  
ceeds to the upright coffin, and there  
from view marks his ticket, fold it  
according to "Granter," and it is  
deposited in the box.

Think ye not that the angelic and  
palliative expressions of every visage  
is a correct index to the heart of  
every individual that you meet,  
converse with, and upon several oc-  
casions treated the same with all  
heartfelt kindness and respect. At  
times have afforded such persons  
pleasure and accommodations at  
your own expense expecting only  
the same kindness if necessary as  
some future time in return. Some-  
times we receive kindness to repay  
us, but ah! the reverse is often the  
case. Often the silent respect and  
profound interest that abides within  
us, for some one is annoyed and  
erased forever and forever; by se-  
cret and false accusations designed  
only to jolocate themselves in the  
admiration of some one that could  
not be affected in any other manner.  
Beware of the velvet voice of a hy-  
pocrite.

Farmers should practice economy and buy the New American, as with it they can harrow rocky, stumpy and hard ground, cultivate corn and tobacco in either rough ground and sow all kinds of grain in all conditions of ground.

On Monday, county court day, we noticed Mr. Kellogg had his combined harrow, drill and cultivator on exhibition on the square and had the implement set up for the three different forms, making each a complete and separate implement and from the interest our farmers took in this tool and from our own observation we would judge this to be a great invention and a great improvement in farm implements, and we believe it would pay our farmers to purchase this implement while the company is located here as we understand they will remain but a few weeks.

Mrs. R. B. Dorr is receiving a new fall millinery goods; the latest styles and best goods. She will appreciate your trade.

SUSPENDED OPERATIONS.

The Tabl Lead Mines Full of Water.

For three days the pump in the Tabl lead mine, south of Marion, was kept constantly going to get the water that rushed in so suddenly last week. At the end of the three days the surface of the water stood about where it did at the beginning. The pump has been removed and a diamond drill ordered. The drill will be used to continue the prospecting and it the end is inviting larger pumps will be put to work. The drill that will be used brings out a core, hence the character of the formation as the drill goes down can be readily determined.

Rev. S. K. Breeding will leave for Campbellsville Monday to attend conference. He has been on the Marion circuit four years, and according to his church law this year closes his work on this circuit. The Merchants of Marion Have Organized and the Dead Beasts Must Go.

On Aug. 26 a number of our merchants met in the parlors of the Hotel Hilliard and organized the Crittenden County Branch of the Merchants Retail Commercial Agency, of Chicago, electing the following gentlemen its officers: J. P. Pierce, president; J. W. Skelton, vice president; Geo. M. Crider, secretary and treasurer; San Gugenheim, S. D. Hodge, E. H. Mayes, J. N. Woods and R. C. Walker, executive board. This agency uses no illegal methods to force payment of indebtedness; nor does it in any way regulate prices. Its sole object is to eliminate from the credit business, that objectionable drone upon society and business, the non debt payer, known as the dead beast, and to force a man to deal honorably with the merchant or pay spot cash for goods purchased. The merchants propose to exercise their legal right to refuse credit to persons who gain the reputation of treating a member of this agency dishonorably. Every honest, debt paying person in this county is interested in the success of this agency. Every dollar lost by the merchant by reason of dead beasts is shifted onto the shoulders of the honest paying classes and any system that has a tendency to drive that element from the business of the merchant puts him in condition to extend better accommodations to those who do pay—thus relieving them of a percentage of burden they have borne in the past.

Many a poor, worthy man has been refused credit because of the merchants' experience with dead beasts, and you honest people owe it to yourselves to assist the merchants in this war they have inaugurated against that element which draws and has been drawing upon society for so long. It is the do nothing, pay nothing class this agency is after, and unless they are pretty sharp, they will be caught.

The First Club.

EDITOR PRESS:—The nominating convention at Piney was an enthusiastic gathering of Democrats, a splendid turn out, and shows that the "boys" are "on the path." A. M. Gilbert was made chairman, and Dr. J. N. Todd, secretary. The delegates were instructed to cast the vote of Piney for T. J. Nunn and L. H. James; then the following delegates were elected to the district convention at Princeton: J. N. Todd, J. L. Cardwell, C. C. Dean, D. J. McDowell, A. F. Wool and J. A. Wood.

Convention then adjourned sine die.

At the suggestion of the chairman a Cleveland club was organized with C. C. Dean, president; J. N. Todd, vice president; J. L. Cardwell, secretary; A. F. Wool, assistant, and T. J. McConnell, treasurer. Short speeches were made by Gilbert, Todd and Dean, and the boys were given some good Democratic doctrine. The meeting was enthusiastic, and the boys will elect a Democratic outfit in November.

Yours for Democracy and every thing else that is good and right.

(From the News.) There are six colored school districts in Livingston county: Frank Croter and William Sullivan of this county were indicted in 1887 for disturbing public worship, and were before Judge Abell for trial Tuesday last. The trial was continued until Wednesday of next week for want of witnesses. Five years continuance—the mill of justice grinds slowly.

We only hope Mr. Rogers will be as popular with the public as his predecessors or has long been.

## NO FORCE BILL

Intelligent Negroes do not expect benefits from such legislation.

Orlando, Fla., Sept. 11.—At the solicitation of the Courice-Journal correspondent, the following statement has been prepared by John T. Shuften, an educated colored lawyer of this city, defining his position on the Force bill and his reasons therefor:

"There is not an honest, intelligent and patriotic colored man in the South, who has the interest and welfare of his race at heart, and sincerely desires its permanent prosperity in the Southern States, who can conscientiously indorse any such legislation as the measure known as the Force bill. While, no doubt, there are many who would desire more wholesome election laws and better management at the polls and in voting precincts, yet they are not willing to hazard the peace, safety and material prosperity of seven millions of dependent people, by indorsing a policy which would have a direct tendency to create disorder in every Southern community, and at the same time paralyze and indefinitely suspend every branch of industry by which the colored population is supported and maintained.

"The passage of the Force bill would place the negro population in a very serious position in the South. They would have all the odds against them in the great contest that would necessarily follow the operation of such a measure, and, unless the negro played his part wisely, with an eye single to his own true interests, he would lose all and be irretrievably ruined in the end.

"No Force bill, under the present circumstances, can place the race in that exalted position in the Government which it craves; it must reach that goal by or through some other process, if it is to be attained at all.

"No Congressional interference can better the political condition of affairs in these States; for, if the negro, through a lack of sufficient intelligence and of an influential moral courage, has demonstrated to the country that he is as yet incapable of exercising the right of suffrage (unless it is dropped up with bayonets and superintended by a military dictatorship,) it is indeed better that he withdraw from acting the political farce and await with patience such a time as he, or his children, shall be sufficiently qualified to discharge this high trust with honor and credit to themselves without any unnecessary interference by political tricksters or scheming politicians.

"The greatest obstacle to the elevation, progress and usefulness of the negro race is the alluring and seductive influence of politics. It is their evil genius—the Pandora's box from which all the contention and strife between the two races have ever emanated; it has been the overshadowing cloud which has threatened and menaced the peace and good order of this section for the past twenty-five years; and it will continue to harass and disturb the peace of every Southern community until the Republican party ceases to fondle and harbor the negro, and leaves him free to turn his attention from the ideal and delusive notions of political greatness, to that of acquiring a more perfect education, and to engage himself in those industrial pursuits of life which alone can make him independent and respected.

"If such men as the Hon. Fred Douglass and his thousands of admirers were to devote half as much time to looking

the race here in the South as they have spent in looking after its fancied political interest, there would be no cause for the present sorrow and grief of the President over the wretched political condition of the Southern negro.

"JOHN T. SHUFTEN."

## JUPITER'S FIFTH SATELLITE.

Lick Observatory's First Important Discovery Considered a Great Distinction For America.

Chicago, Sept. 12.—Prof. Barnard has earned a niche for himself beside Galileo, Herschel and other men of that kind, and the permanency of his fame is as secure as it can be." S W Burham, the well-known astronomer who recently resigned from the staff at the Lick Observatory to accept the position of Clerk of the United States Court in this city made the remark to-day, and showed the following telegram: Mount Hamilton Observatory, Sept. 11.—E E Barnard sends greetings to S W Burham with a fifth satellite to Jupiter, of the thirteenth magnitude; period 17 hours and 36 minutes, distance from center, 113,400 miles.

"The discovery of this satellite, which was made by Barnard Saturday," continued Mr Burham, "is the greatest astronomical achievement of the century, and will cause the world of science to ring. It simply means the addition of another body to the solar system, which is, in these days, a most stupendous discovery. It is as far greater than the finding of the satellites of Mars for these two bodies were more or less easy of observation. Barnard's work makes an addition to the solar family in a field that was well worn out and which was thought to have been so thoroughly sifted that astronomers gave up the task of looking for fresh facts. Then too, Jupiter has been the most observed of all the planets, for the reason that it is so very large and such a grand body withal that it invites inspection. I can tell you that will be grand news for the astronomers of Europe."

## ANOTHER AMERICAN TRIUMPH.

Lieut. Peary Reached the Highest Point Attained On the East Greenland Coast.

Washington, Sept. 12.—The Stars and Stripes have been planted at two points nearest the pole yet reached by civilized man. The Navy Department to-day received the following telegram from Lieut. Peary at St. John's N. F.:

"United States Navy claims highest discoveries in Greenland, East Coast, Independence Bay, 82 degrees north latitude 34 degrees west longitude, discovered July 4, 1892. Greenland's ice cape ends south of Victoria inlet."

The highest point heretofore attained on the East Coast is about 75 or 77 degrees, and was made by Holdeby, a German. The highest point on the west coast was 83, made by Lockwood and Brainard, of the Greely expedition. Naval officers are delighted at the success of Lieut Peary and his telegram was received with much pleasure.

## Death Warrant Signed.

Frankfort, Ky., Sept. 12.—The fate of Oscar Jones, of Bath county, has been sealed, and he will be hanged November 4. The court of appeals has refused to reverse the decision of the lower court, and has refused to give the case a rehearing, and to-day the Governor signed the death warrant.

The crime for which Jones is to suffer the death penalty was the killing of Taylor Vice, Marshal of the town of Blount.

## FOR SHERIFF,

We are authorized to announce JOHN T. FRANKS a candidate for Sheriff of Crittenden county, subject to the action of the Republican party. He will appreciate your vote and influence.

TO THE VOTERS OF CRITTENDEN COUNTY: Having served you for the past two years as Sheriff, I take this method of expressing to you my gratitude for the confidence imposed in me. It has been the custom of the county to endorse all past Sheriffs who have asked it of the people, and feeling that my treatment of the people has been such as to merit an endorsement at your hands, I announce myself as a candidate for re-election.

I feel that my experience will enable me to serve you better in the future than in the past, and if chosen by the people, will endeavor to do so. Yours truly, A. L. CAUCE.

To The Voters of Crittenden County.

I hereby announce myself as a candidate for re-election to the office of Circuit Court Clerk subject to the action of the Democratic party. I wish to return to the people of this county my heart felt thanks for the support given in the past. Whatever may be my lot in the future one of the brightest spots in my life will be the memory of what the people of Crittenden county have done for me. I have endeavored to be worthy of the confidence reposed in me and the honor conferred upon me. My official life is before you. If I have discharged the duties of the office with a conscientious regard for the interest of the people, without partiality to any party or shade of political belief but treating all men exactly alike and if I have performed the work of the office properly and right I respectfully ask an endorsement at your hands. For the next term if elected, I can promise nothing more than what I have earnestly endeavored to do in the past to faithfully and impartially discharge every duty incumbent upon the office; with profound gratitude for your support.

Very Respectfully, H. A. HAYNES.

TO THE VOTERS OF CRITTENDEN COUNTY: I respectfully announce myself a candidate for the office of Circuit Court Clerk, subject to the action of the Democratic party. I have for twenty four years stood with the rank and file of the party, and with them borne the heat and burden of the day, in doing so, I simply expressed my conviction of the policy of the two great parties of the country. While I am a democrat I have always cheerfully recognized the right of my neighbor to entertain and express different opinions. In this office its occupant can in no way make or influence the laws of State or Nation and I maintain it should be filled regardless of political prejudice and without pandering to parties, the people should with reference to the position and standing of the man and over with a serious regard for his qualifications to discharge the duties of the office, select and elect a good man and not a partisan.

My business training has lead me for a number of years in a chance which taught and instructed me in the duties of this office, and without presumption or egotism I feel that I am qualified for the discharge of its duties, and can promise to make a faithful and competent clerk. To my many friends of all parties if you can agree with me in the sentiments I have here expressed I ask your suffrage and if it should be my good fortune to be your choice you will ever have my heartfelt gratitude, and I assure you I shall recognize and appreciate my position if elected, as that of a public servant and from no official act of mine will any man know my politics.

Very Respectfully, J. R. FINLEY.
