AND THE VILLAIN STILL PURSUED HER.

WE ARE IN "WHAT?"

Buying your Farming Implements where you can buy them cheapest, even if you have to patronize your home merchants to do it.

Allowing us to call your attention to the Finest

COMBINATION FARMING IMPLEMENT MANUFACTURED

Manufactured in this, the nineteenth century.

The New Combination Spring Harrow

Cultivator and Seeder Combined.

The above shows the sturdiness as a cultivator for corn, tobacco and other crops growing in rows. The founders show in the leaves to protect the projecting under parts, and whatever it may be, from injury. The above have successfully met the necessities with its foot, which may serve as a substitute in such sections. The tool can be closed where the operator leaves a line or row by row, or whatever it may be, from injury, and the tool can be closed where the operator leaves a line or row by row, or whatever it may be, from injury.
Marion Planing Mills,  
J. T. ELDER, Proprietor.

Marion, Ky.

Having employed Messrs. John Weidens and Geo. Brown, first hand planers and also having had the benefit of the best advice of some of the most experienced planers in the country, in addition to my skill, I am better prepared than ever to do a thoroughfare job. Inside cutting, sanding, polishing, etc., are all done as fast as my Idaho planed, 30 percent lower in price than any other mills in the district.

Finishing Lumber, Doors, and Window Frames a Specialty.

Anything you may need I will make to your order out and as near as my skill, and no other planer in this district will receive prompt attention.

J. T. ELDER.
