COMBINATION FARMING IMPLEMENT
Manufactured in this, the nineteenth century.

The New Combination Wheel Spring Harrow...
Cultivator and Seeder Combined.

The above cut shows the machine in a partial view for ease, to show and other crops growing in rows. The seeders, shown below, can move to protect the growing crops of the harvest, hence or earlier it may be, from injury. The

Three Machines in One,
And it is far superior to all other makes for the following reasons:

1ST—BECAUSE it's so much cheaper.
2ND—BECAUSE it's so much lighter draft.
3RD—BECAUSE it has a perfect center draft.
4TH—BECAUSE there's so little weight on the tractor.
5TH—BECAUSE of the regularity of the seed rows.
6TH—BECAUSE there's no jolting of the harrow's work.
7TH—BECAUSE it is an ABSOLUTE FLEECE bread crust maker.
8TH—BECAUSE the teeth are made from the best quality of highly tempered steel.
9TH—BECAUSE it has two rows instead of one, which enables the operator to lift one section over an obstruction while the other continues.
10—BECAUSE it has a stout way through, well belted, which is much better than a soft red of less, liable to get bent out of shape.
