ABSOLUTELY PURE

ARIZONA.

The Grand Canyon of the Colorado and the Petrified Forest of Northern Arizona.

Below the readers of the PRESS will find a brief and necessarily imperfect description of two of the most awe-inspiring creations of the Supreme Being that the soul of man ever conceived or his eyes ever gazed upon. Arizona, rich in magnificent scenery as well as in dark traditions, has nothing else to compare with these. And first I will attempt to describe—

THE GRAND CANYON OF THE COLORADO

The immense mountain gorge known as the Grand Canyon of the Colorado commences in Montana, and running a distance of eighty miles, debouches in Yuma county, Arizona. Through this canyon runs the Colorado river, a yellow, rapid stream, whose mean width is some two hundred yards. This canyon is without doubt the most stupendously grand work of Nature on the American continent, if not in the world. Capt. Powell professes to have gone through it from one end to the other; but if so, he is the only human being known to have done this. Several other parties have made the attempt and were never afterwards heard from. Powell wrote a most marvelous story of the wonders he saw while going through the canyon. Roaring falls, where the river rushed over deep precipices, overhanging cliffs, whose walls sparkled in the semi-tint of the canyon with the brilliant glitter of thousands of tons of free gold, rubies and other precious gems, and giant stalactites and stalagmites, the slow accumulation of ages, are some of the wonders he describes. This canyon is estimated to be 16,000 feet in depth, and even in the brightest daylight its bottom is only penetrated by a dim, hazy mist, while from its depths the stars are visible in the heavens at midday as elsewhere at midnight. This vast chasm is supposed to have been formed by repeated volcanic upheavals and submersions, both by the ocean and an inland sea, and during the period of upheaval the river cut its gorge, and thus slowly, through a period not to be measured by years, the river kept its bed worn down to the level of erosion, sawing its channel as the saw cuts its way through the hard timber, until the present grand and gloomy level has been reached. It is worth a trip to the far west to see this canyon alone, and numerous parties are made up every year to visit it, leaving the railroad at Flagstaff, Arizona, and taking stage for the canyon.

THE PETRIFIED FOREST.

Another of the wonders of this truly wondrous land, is the Petrified Forest of Apache county, in Northern Arizona. Just think of it! Fully one thousand acres of gigantic forest trees, by the action of some subtle element of Nature, turned into all varieties of precious gems. Trees ten feet or more in diameter, with every twig and leaf perfectly formed, petrified with the most beautiful formations the eyes of man ever beheld. Moss agates, calcedony, rubies, and other precious stones lie scattered around by the hundreds of bushels. The theory advanced by scientists as to the cause of this wonderful transformation, is that some catastrophe felled the forest, which was subsequently buried in volcanic ashes. Floods of hot silicious water were poured over the ashes, possibly from geysers. The wood became water soaked, and gradually the silica took its place and shape. The pure silica would form the limpid quartz, while the rich colors of red, brown, yellow and purple would be due to iron and magnesia, held in solution; and thus we have accounted for the most beautiful creation of God's handiwork. Within this forest is the Agate Bridge, the most beautiful thing of its kind in existence. This unique bridge is simply a huge trunk spanning the canyon where it is sixty feet wide. The trunk itself is a hundred feet long, and tapers down from the thickness of five feet to the diameter of three feet. Its entire mass is made up of agates, jaspers, and other precious materials. A superb collection of petrified wood from this forest, both rough and polished, was on exhibition in the Arizona museum during the

World's Fair at Chicago.

I can not better close this account of the forest than by giving the following from the pen of Prof. H. C. Hovey, and which was published in the Scientific American:

The task of selecting specimens from a million tons of gems is less easy than it is agreeable. Each moss agate, or crystal, or amethyst, or onyx seems more desirable until it lies in his pocket or saddle pouch, and then others assert their superiority. At last my load was as heavy as could be managed on horseback. With reluctance I left the enchanted forest, made my way back to Hanna's ranch, flagged an approaching train, gained permission to take my sackful of treasure on board, and sped on my journey, convinced that whatever marvels may have existed in the days of the Arabian Nights entertainments, none in these more modern times could rival in its way the famous Petrified Forest of Arizona."

Since the appearance of Professor Hovey's article hundreds have visited this forest, it being only 17 miles from the Atlantic and Pacific railroad at Holbrook, where conveyances are obtained. I have quoted the above from Prof. Hovey more to convince the doubting ones that my description of this marvelous forest is no idle creation of the brain, but that it is both a solid and a beautiful reality, rather than to add anything to the facts already given.

I must here beg to tender my thanks to the many friends who have expressed their interest in these letters, and will try in future to make them as readable as circumstances permit.

I accept the apology of Bro. Glenn, contained in his Fredonia letter in today's paper. But don't you do so any more, brother.

INDEPENDENCE FOR CANADA

Ex-Lieut. Gov. Royal Favors Emancipation From Britain's Flag.

Montreal, March 9.—Ex-Lieut. Gov. Royal, of the Southwest Territories, recently Viceroy of Her Majesty, Queen Victoria, and an ultra-loyal servant of the Dominion Government, has issued a brochure urging the separation of Canada from the British Empire. He says the Canadian Constitution shows signs of insufficiency; her equipment grows worse and worse for the definite attainments of tranquility within her borders, and her equilibrium is menaced at several points of the social organism. Mr. Royal devotes a chapter to showing that Canada, has the right to seek independence if she wants to. England has offered her freedom at times, and Canada, by taking large measurements of self-government, has in effect taken the power to leave when it suits her. In chapter 5 Mr. Royal shows that Canada's critical commercial position makes a change necessary. He says:

"Her commercial relations with the United States. England only comes second. Protection is necessary for our manufacturers, yet we need large markets for them, which can only be obtained by the exercise of independent powers to make treaties. Imperial federation, which would separate us commercially from the United States, would mean suicide. Free trade would be no better."

Mr. Royal claims that the fruit of emancipation is ripe, and must be plucked now to benefit by it. Canada must take the first step toward separation, as she is only an embarrassment to the mother country. Thus she would lose the protection of the British flag, but the United States has no interest in the conquest of Canada vi et armis.

Mr. Royal is one of the best French Canadian writers in Canada, and much importance is attached to his argument in favor of separation from Great Britain.

Mr. W. T. Daugherty returned from Chicago last week where he has been attending a Veterinary college. He takes great interest in the work, and is a very competent veterinary surgeon. Death of a Child.

Yesterday morning the three-month-old child of Dow Little, near town, was found dead in bed. It had been sick for some days but was supposed to be better.

A SHOCKING DEATH.

J. R. Clement Meets With a Fatal and Sickening Accident.

On last Friday morning Mr. J. R. Clement, a well known farmer of the northern part of the county met with a shocking accident, and received injuries from which he died in a few hours. He was engaged in pruning stumps from his meadow, and the manner of removing them is well known to all farmers of this section. First the earth was moved from around the top of the roots; then a long sweep or pole was placed beneath the stump so as to make a powerful prize, the lever was some twenty feet long, to the end of the lever was attached a chain, and to the chain a yoke of oxen were hitched. Mr. Clement was standing behind the oxen and when they were driven forward, straining the springy lever with all their might and main, the chain broke and the lever flew back with the power of a cannon ball, striking the unfortunate man on the side of the head above the ear. The powerful blow crushed the skull as easily as if it had been paper. Mr. Clement was assisted to his feet, walked part of the way to the house, when he gave down and was carried by tender hands. After being placed on the bed, he arose twice and walked across the room; though he tried to speak, he was never able to utter a word. At 3 o'clock Friday evening he died.

FIRE BUGS.

Moses Walker Loses his Barn, Grain and Three Horses.

Saturday night a large stable of Moses Walker, a good farmer who lives on Meadow creek in the eastern portion of the county, was destroyed by fire; three head of horses, a lot of corn and hay, and farm implements in the barn when the fire occurred, were destroyed by the flames. The only theory as to the origin of the fire is that it was the work of incendiaries. Within the past few weeks four fires have occurred in that vicinity, and their origin can be accounted for in no other way than as the work of fire bugs.

HE WANTS \$10,000.

One Citizen Sues Another For Defamation of Character.

Tuesday Mr. J. R. McIntire, the dairyman at this place, filed suit against Mr. W. H. Copher, the well known groceryman, for defamation of character, and asks for damage in the sum of \$10,000. In the petition it is alleged by the plaintiff that the defendant used language, in conversation with divers persons, derogatory to the plaintiff's character. It appears from the petition that Copher had been the plaintiff in an action against McIntire in the Quarterly court, in that suit McIntire was on the witness stand, and according to the petition Copher has since said that McIntire swore falsely while on the stand, and for this the damage is asked.

CANADY AND CHEATHAM.

A Blackford Shooting Affair May Result in Death.

Monday night a shooting scrape occurred at Blackford. Henry Canady and Frank Cheatham engaged in a quarrel that led to a personal encounter. Canady drew his pistol and began firing at his adversary. One ball shattered the bone of Cheatham's arm, and another entered the lower part of the abdomen, producing a wound which the physicians think will prove fatal. The wounded man kept up some hours after the affair, but later in the day, he gave down, and Tuesday night he was taken to Sturgis. Canady has fled the country.

Other particulars of the affair are unknown. It is said that ill feelings have existed between the two for some time.

Wanted 100 Men.

Monday the deputy Sheriff of Union county was on the streets of Marion summoning 100 men to go to Morganfield; from this number will be selected a jury for the trial of Geo. Delaney. Tuesday the train from Marion to Morganfield was crowded with Crittenden people.

A Union Meeting.

Efforts are being made to secure the services of Rev. W. P. Fifer, of North Carolina, for a big union meeting at Marion. Rev. Fifer is a preacher of great power, and has been wonderfully successful in his meetings. He is known as the Moody of the South. His audiences usually number from 700 to 7,000.

"Are the Young Men Safe."

Rev. M. H. Miley will preach at the Presbyterian church tonight on the subject heretofore announced, "Are the Young Men Safe?" He will deliver the sermon at Witherspoon's school house next Sunday afternoon.

SUES THE TOWN.

G. N. McGraw, the Soap Seller, Wants \$10,000 Damages.

Monday Dr. G. N. McGraw, came to town and applied for city licenses to auction his soap and nostrums on the street. When told that the tax was \$2.50 he refused to pay it, offered \$1.25 and defiantly proceeded to sell without any licenses. He was arrested, taken before the police court, employed counsel, plead "not guilty," but refused to make a fight. A jury fined him \$5.00. He refused to pay it, was sent to jail and after remaining a short time, probably an hour, he was taken before Judge Moore on a writ of habeas corpus, and there for the first time plead that the town law was unconstitutional. The county court discharged him. Yesterday he filed suit against the town authorities, wanting \$10,000 damage because he was "greatly damaged in his business, and in the payment of fees aforesaid, and suffered great anxiety of mind, and injured in his feelings and character."

The doctor has been coming to town on public days for several months, and selling his nostrums. The licenses heretofore charged him was \$1.25 per day, but the last time he was here before this he was told that the clerk had classified his goods improperly, and that thereafter the licenses would be higher.

The doctor's going to jail was evidently not occasioned by the want of money, for the few hours the doctor did business Monday was a veritable harvest.

Gibbs Arrested Some More.

The Paducah Standard manages to turn up with some news concerning Gibbs about every other day, and as we are under contract to furnish our readers with all the news we shrink not from the task, but earnestly hope that the rapidity with which Gibbs passed from place to place will not be charged to us. Here is the latest.

"Marshal Geary received a telegram from Rev. J. W. Hicks, of Scheff City, Mo., Saturday, saying that the latter had under arrest a man answering the description of George Gibbs. It was requested that a picture of him be forwarded at once and that Dr. Shelby, of Salem, be notified. While too much confidence should not be placed in the rumor, it may be that at last the right man has been caught."

In Trouble.

Last week Mr. G. G. Hammond received from his son Dan, who is at Pine Bluff, a telegram asking for pecuniary aid to help him out of trouble. A letter came later explaining that young Hammond had been drawn into a personal encounter with another man, had shot at his adversary, had been arrested and fined a nominal sum for doing the shooting, and given the lowest fine—\$50—for carrying a pistol. The letter was from a third party and exculpated young Hammond from all blame except to hastily acting.

Death to Hottel.

Mrs. Crider, wife of W. P. Crider, died at her home at Tolu, after a lingering illness of consumption. She was the daughter of Wm. Farmer, and a most estimable lady. The bereaved have the sympathy of the entire community.

Leg Broken.

Yesterday a letter from Morganfield stated that Mr. L. S. Leffell, formerly of this place, had met with an accident in which his leg had been broken.

Tom P. Moore Assigns.

Late yesterday Tom P. Moore, one of the leading merchants of Dyersburg, filed a deed of assignment. He turns all his goods over to the assignee, Mr. C. S. Nunn of this place, for the benefit of his creditors, who are wholesale merchants.

SOME MORE OFFICES.

Road Supervisors to be Elected in April.

When the magistrates meet as a levy court the first Tuesday in April, they will find the following clause in the new road law:

"The fiscal court at its first regular term in 1894, and every two years thereafter, shall appoint a county Supervisor of roads, and such district Supervisors as may be deemed best, and may appoint such overseers as may be necessary, who shall hold their office for a term of two years from date of appointment, and until their successors are appointed and qualified. The Supervisor or supervisors shall execute bond in the county court within thirty days after his appointment, with good and sufficient sureties, to be approved by the Judge of the county court, for the faithful performance of his duties. The fiscal court shall make the Supervisor or supervisors a reasonable allowance for his services."

While this provision of the road law is not generally known, there are already some half a dozen candidates for road supervisor, and when the court convenes there need be no surprise if there are as many candidates for road supervisors as there are already Republican candidates for judges. The general disposition of the average Crittenden county man is to pitch everything into politics, and his penchant for this means of settling questions will probably be called upon to shake the bag and drop out a road supervisor. Hence the question: "How are the Roads of Magistrates?" is very pertinent at this time, and for the benefit of the candidates (and that probably means all who are not candidates for the other county offices) we give the name and politics of the members of the fiscal court. The "R" stands for Republican, "D" for Democrat, and "T" for Third party.

W. M. Morgan, R.; J. H. Buggs, R.; J. A. Myers, D.; Theo. Vozier, D.; C. W. Fox, T.; T. A. Harpending, T.; J. W. Ainsworth, R.; E. A. La Rue, R.; J. C. Stephenson, D.; W. B. Rankin, T.; W. E. Todd, D.; Geo. E. Willis, R.; T. G. Henderson, 5 Republicans, 3 Third party men.

UNHEARD OF PATRIOTISM.

Crittenden Countians Prove their Loyalty by Prompt Obedience to Law.

The cases of Henry Delaney and others implicated in the killing of Abbie Oliver were called yesterday morning at Morganfield, and owing to the Attorney for the Commonwealth being continued to the July term of court. A most agreeable evidence of the patriotism of Kentuckians in this section of the State, their supremely high regard for the laws under which they live, was brought to the attention of the court. By order, the sheriff of Union county went to Marion, county seat of Crittenden county, on Monday, directed to summon 100 jury men to be at Morganfield the following morning. It so happened there was a good crowd in the town and no trouble was found in getting the required number of veniremen.

Many of these 100 men lived a long distance in the country, some of them as far as sixteen miles, and yet when called yesterday morning at Morganfield, ninety-seven answered to their names, and three sent valid excuses. A careful survey of the men showed them to be of more than ordinary intelligence, sober, and orderly. Their prompt punctuality, something unheard of in the past, and perhaps never known in the history of the State, was exceedingly pleasing to the judge and the sheriff. It cannot be said that these men were induced by the pay, for the railway fare and other expenses about make the whole, and no more. The conduct of these citizens of Crittenden is worthy of the highest credit, and the Gleaner is most pleased to contribute its portion.

Mr. Blue at Home.

Last evening Hon. Jno. W. Blue reached home from Frankfort. He is greatly improved, and, unless some unseen complications arise, he will in the course of a few weeks be entirely recovered. The trip home exhausted his strength, and at present he is able to sit up only a few moments at the time. He suffers from a continual pain in the forehead, the seat of his severe illness. For a time he was blind, and the muscles of the tongue and throat were paralyzed, and that trouble has now disappeared.

An Expensive Disturbance.

George Mick was arrested last week upon the charge of disturbing religious worship. The case has been hanging over him for two years. He went before Judge Moore and plead guilty and was fined \$20 and costs, amounting to \$35.55.

Yesterday Drs. J. R. Clark, A. S. Donkey, E. M. Newcomb, the Eschmeyer, F. G. LaRue, and department Walker all returned from Left enigras where they have been attending the University of Louisville during their fall vacation.

The following persons have been 43 years placed on the board of pension examiners, representing: Chas. H. Hubbar, whole no. 1; Washington Perry, all American; van, a Mexican soldier, no. 1; Dyersburg; Ha; of Marion; Rev. James of Crayvenille.

A GENERAL FIGHT.

A Dance Terminates in a Shooting Bee, and Three Men are Wounded.

Last night a dance at Wm. Clark's two miles from town broke up in a general fight in which pistols and knives were freely used. John D. Gregory was shot in the hip; James Fritts has a scalp wound, the ball struck him above the eye and glanced off; Wm. Fritts was shot four times in the arms and legs, one arm is broken, and he is also cut in the back. While the wounds of William Fritts and Gregory are very painful, they are not dangerous. The two Fritts boys, James, a son of Henry Fritts; and William, a son of Bob Fritts, belong to different neighborhood factions, and have not been on the best of terms. At the dance the old quarrel was revived between these two boys and the shooting was the result. Gregory was not at the party, but went down, at the fight opened up, to get James Fritts to go home, and one report is that while there he was accidentally shot; it seems to have been a general fight and just how the shooting occurred, or who played the respective parts cannot be told.

A New Leaf.

On account of the financial depression which has rendered the collection of money due us, seemingly impossible we are forced to adopt a new system in our business, which we believe will be mutually beneficial to our customers and ourselves.

Our new rule which will go into effect on March 15, will be invariably as follows:

No goods sold on open account on longer than 60 days time; all goods sold on longer than 60 days time must be settled for by bankable note. These conditions will be strictly observed with everybody in every instance.

Please do not ask us to deviate from them, and then get offended because we refuse to do so. We will positively treat all alike, and will not unduly circumstances extend favors to one person that we can not grant to another. Under our new system we will guarantee to sell you goods for less money than you ever bought them before. We will give everyone our very lowest cash price. In this way you pay only for what you get and do not help to make up a loss incurred on some one else.

We have a large and well selected stock of Hardware, Saddlery, Stoves, Plows, Farm Implements, Machinery, Fertilizers, Wagons, Buggies, Harness etc. We are agents for the manufacturers of all the best goods in our line. We will highly appreciate your patronage and promise you the very best goods at rock bottom hard-time prices. Make it a point to see us before you buy anything in our line, and you will save money.

Mrs. Mary McGarth this morning in the Common Pleas court obtained a verdict for \$1,000 against William Eike, and individually and as the administrator of his father's estate.

THE BABIES MIXED.

Republican and Democratic Tariff Speeches Mixed Up.

Washington, March 9.—An annoying error has been discovered in the distribution of the tariff speeches of ex-Speaker Reed and Chairman Wilson, of the Ways and Means Committee. They were printed at the same office and the usual care was exercised in their preparation and circulation. Among the Congressmen who sent out Mr. Reed's speech was Mr. Van Voorhis, of Ohio.

He received yesterday from an indignant constituent the copy of the speech sent to him with a request for explanation. The cover was all right: "Tariff Speech Delivered by the Hon. Thos. B. Reed," while the body of the pamphlet was "the tariff speech of the Hon. L. W. Wilson. An investigation is in progress.

Half a Million Emigrants.

Washington, March 9.—The census taken by the Bureau of Immigration, showing the number of immigrants who arrived at the New York, Philadelphia, Baltimore and New Orleans ports during the calendar year of 1893, is shown to have been 173, and these, it is estimated, at least four-fifths of the immigrants who arrived at the ports.

Three Followers.

The wise old Hassan sat in his door, when three young men pressed eagerly by.

"Are you following after any one, my sons?"

"I follow after pleasure," said the oldest.

"And I after riches," said the second.

"Pleasure is only to be found with riches."

"And you, my little one?" he asked of the third.

"I follow after duty," he modestly said.

And each went his way.

The aged Hassan in his journey came upon the three men.

"My son, he said to the eldest, 'methinks thou wert the youth who was following after Pleasure. Didst thou overtake her?'"

"No, father," answered the man, "Pleasure is but a phantom that dies as one approaches."

"Thou didst not follow the right way, my son."

"How didst thou fare?" he asked of the second.

"Pleasure is not with Riches," he answered.

"And thou?" continued Hassan, addressing the youngest.

"As I walked with Duty," he replied, "Pleasure ever walked by my side."

"It is always thus," said the old man. "Pleasure pursued is not overtaken."

A Warning to Saloon Keepers.

Mrs. Mary McGarth this morning in the Common Pleas court obtained a verdict for \$1,000 against William Eilke, and individually and as the administrator of his father's estate.

She sued him in each of his capacities for \$10,000 damages for selling her husband liquor after she had made protest to the defendant against such acts, her husband being a confirmed inebriate. Both suits were tried together.—Louisville Times.

THE BABIES MIXED.

Republican and Democratic Tariff Speeches Mixed Up.

Washington, March 9.—An annoying error has been discovered in the distribution of the tariff speeches of ex-Speaker Reed and Chairman Wilson, of the Ways and Means Committee. They were printed at the same office and the usual care was exercised in their preparation and circulation. Among the Congressmen who sent out Mr. Reed's speech was Mr. Van Voorhis, of Ohio.

He received yesterday from an indignant constituent the copy of the speech sent to him with a request for explanation. The cover was all right: "Tariff Speech Delivered by the Hon. Thos. B. Reed," while the body of the pamphlet was "the tariff speech of the Hon. L. W. Wilson. An investigation is in progress."

CASTORIA

for Infants and Children.

"Castoria is well adapted to children that I recommend it as superior to any prescription known to me." R. A. Jackson, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it needs a word of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."

THE ONLY ADMITTED

Articles that are in any way dangerous or offensive to patients, medicines, narcotics, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition.

Why was Ayer's Sarsaparilla admitted? Because it is not a patent medicine, it is not a nostrum, nor a secret preparation, nor dangerous, nor an experiment, and because it is all that a family medicine should be.

Children Cry for Pitcher's Castoria.

4 piece glass set for 25 cts.

About a year ago I took a violent attack of the grippe. I coughed day and night for about six weeks; my wife then suggested that I try Chamberlain's Cough Remedy. At first I could not believe it, but still kept taking it, and soon found that it was what I needed. If I got no relief from one dose I took another, and it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I take pleasure in acknowledging the benefit I have received from it.
