To the City Council:
Mr. Mayor and Members of the City Council:

We have long been aware of the unfairness of the present system of street lighting. For many years the city has been without any system of street lighting, and we are therefore much interested in the recent agitation for its introduction. The system now in use is entirely inadequate, and we believe that a more efficient system could be provided by a public company. We therefore urge on the council the advisability of authorizing such a company to be formed, and we trust that they will give the matter their careful consideration.
