THREE DIVORCE SUITS.

Two Husbands and a Wife Sick: Have the Nuptial Ties Broken.

Three divorce suits have been filed since the last term of circuit court. F. M. Davis asks the court to divorce him from his wife Mollie J. Davis, setting forth in his petition that his wife has abandoned him. They were married in Crittenden county in 1893 and lived together until July, 1896. Etta Pridie seeks a divorce from her husband Isaac Pridie, upon the grounds of abandonment. According to the petition they were married in Crittenden county on Dec. 23, 1891, and lived together until August 1895, at which time the defendant, without any fault or like fault on her part, abandoned his home and the plaintiff, and has ever since refused, and now refuses to live with her. George S. Brooks seeks a divorce from his wife, Della Brooks. They were married in this county March 29, 1892, and lived together as man and wife until September, 1896, at which time the defendant abandoned the home and went to Illinois, and has since remained there; hence the husband desires the divorce.

THAT INDICTMENT

Seems to Hedge the Way to the Collector ship for Franks.

Washington, June 4.—Senator Deboe paid a visit to the Treasury today to consult the appointment of Collectors. He was accompanied by Franks, Conington and Ernst. The Senator still finds Secretary Gage unwilling to overlook the indictment against Mr. Franks, and it is therefore improbable that the Second District Collectors will progress further until the charge pending is disposed of. Deboe seems quite anxious to pull Franks through and will allow the matter to remain in abeyance until a more favorable time for pressing his endorsement. There is nothing in the way of R. B. Yerk, or Conington, and their nominations may be expected as soon as the President finds time to put them on his Senate list.

MRS. MAYES DIED.

The Victim of the Railroad Accident Never Recovers Consciousness.

Mrs. Sallie Mayes, who was injured in the accident at Howerton's crossing last week, died Thursday morning without ever regaining consciousness. The physicians think death was caused by the shock as no bones were broken and the abrasion on the head was not of such a nature as to produce death. Mr. Mayes is improving and his recovery seems almost certain now.

J. B. Hubbard Assistant Cashier.

Last week Mr. J. W. Wilson tendered his resignation as assistant cashier of Marion Bank, and Mr. J. B. Hubbard was chosen by the board of directors in his place. Mr. Wilson has made an efficient popular assistant; he resigned to look after other business interests. Mr. Hubbard has served in the capacity before and is a good man for the place.

Money For Old Kentucky.

Frankfort, Ky., June 5.—The state board of sinking fund commissioners decided today to advertise for bids for \$500,000 in bonds, as authorized by the state legislature.

In medicine the best only is good enough. The best gives the quickest and longest relief without leaving any evil after effects. Dr. Bile's Peppermint Chill Tonic is mild. It does not rack your bones and shock your nerves. Take it and see the results. Chills and malaria disappear as snow before the sunshine of spring. The after effects are sound bone, rich, red blood, good flesh and no more chills.

SMITHLAND

The Athens of The First District of Kentucky.

The District Educational Association Was Largely attended.

On Friday and Saturday, the 4th and 5th of June, the F. D. E. A. met at Smithland, the Athens of the 1st district of Kentucky. This body, once so small, has grown to an enormous size, made up of the brainiest people of Western Kentucky and during its last sessions in Crittenden, Lyon and Livingston counties more enthusiasm has been displayed than one might possibly find at the National Educational Association.

The enrollment at Smithland was good, and considering high water, measles and campaign year, the little city "overdid" itself in the way of entertainment and amusements of the guests who poured in from Lyon, McCracken, Crittenden, and even Hardin county, Illinois, there came a delegation of fifteen teachers, led by Supt. Jackson, whom (they said) came over to imbibe some of our polish and culture, while we are certain that we absorbed some of their enthusiasm and integrity.

The programme of this meeting was very excellent, and while no big guns from eastern or central Kentucky came over to help us, our home talent of the First district was ably displayed.

Crittenden itself shone as no bad light, for while some of our best teachers who were on programme failed to rally at the bugle call, we had such people as Misses Kitty Woods, Della K. Vail, Prof. Evans, Duke Hill and others who are always ready and willing to fill their own places and take some one else too. What would we do without such people?

We can truly say the Smithland meeting was a good one, and that the little historic city, with its aristocracy, its beautiful scenery, its great water power, its brilliant people, deserve much commendation for such kindness, hospitality and genuine goodness.

Much thanks are due Supt. McCracken, Miss Grassham and J. O. Rutter for their earnest effort, to make this meeting a success. And in conclusion let us tell you teachers who stayed at home, that if you want to be toasted, appreciated and really loved, go to Smithland.

HITE AND COX.

The Two Outlaws Said to be Hiding in Hopkins County.

There is still considerable talk of Hite and Cody being in the county, says the Madisonville Mail, but no one seems to want the job of catching them, as both are handy with the gun and Hite is a dead shot, and would no doubt prefer to be killed rather than submit to capture. They are said to have been in Madisonville last Friday about 10:30 o'clock, for the purpose of getting a bottle of whisky, riding up to Ruby's warehouse and sending a friend to a saloon for the whisky. Cody has heretofore borne a good reputation, being industrious and honest. It is claimed that he was looking for work at Sturgis when officers attempted to arrest Hite. It is said he first attempted to surrender but upon Hite asking him what he was going to do, he commenced shooting at the posse. It is believed Cody is tired of this life of hiding out and would gladly surrender if it wasn't for fear of Hite.

MOB IN OHIO.

A Negro Lynched After Three Men Had Been Killed by Troops.

Urbana, O., June 4.—Charles, or "Chick" Mitchell, the negro who a week ago yesterday tried to force Mrs. Gaumer, a widow, to sign a \$500 check, and upon refusal beat her almost to death, was lynched by an infuriated mob shortly before 8 o'clock this morning. Soldiers had been called out to protect Mitchell and had fired upon the crowd, killing three men and wounding seven others. The crowd afterwards grew so large that the fifty soldiers were set at naught and Mitchell hanged.

A SMALL DECREASE.

Shown by the School Census Returns of The State.

Frankfort, Ky., June 5.—Superintendent of Public Instruction Davidson has received returns from eighty eight counties, giving the school census. These returns are from rural counties and show a reduction over last year. The figures are for last year, 427,984, while these same counties for this year show 424,000, or a net reduction of 3,984. At the ratio for the past five years the same counties under the old system of taking census would have made the figures 428,005. So it will be seen that the figures have really been reduced 8,956 in the returns at hand from the rural districts. The cities are not expected to bear out this reduction. There are thirty one counties yet to be heard from. A remarkable feature of the returns is the number of married people in some of the counties of school age. In Pike county out of a total white school population of 8,180, there are 61 males, and 302 females of a school age married. In Graves county there are 229 of a school age married.

ORATORY.

The Eastern Star Pic-Nic An Occasion of Rejoicing.

The Oldest Mason in Kentucky Makes a Speech. A Tribute to the Ladies.

That "the tongue often fails to bespeak the emotions of the heart," is a truism certainly self evident, when the emotion is generated and propagated by ladies; the grandest, noblest, lovable and most sublime being on earth. Human beings who possess the power to make man fall prostrate at the shrine of cupid and offer supplication for favor and esteem. The most beautiful of everything that is beautiful, the equal of man in intellect his superior in every attribute of moral worth, the corner stone of the church, the capstone of society, the means and the elevation of man. If to love the ladies of grandmother Eve is a sin, it will follow me to the grave.

The ladies, unlike man, never do anything by halves.

Friday, May 28th, the ladies of the Marion Eastern Star by prearrangement met at Nunn's Switch with their friends. Quite a party went by rail from Marion and Blackford all with heavily laden baskets and boxes containing everything that appeases the appetite and pleases the stomach. A number of people came in from the country determined to have a day of rest and sociability with their friends. By twelve o'clock a crowd estimated at one hundred and fifty people had collected together.

The morning was spent socially, meeting old friends, making new acquaintances, renewing old ones and talking of reminiscences.

At twelve o'clock J. B. Kevil, who was appointed by the ladies of the Eastern Star master of ceremonies, appointed the following committee to see after the pleasure and wish of the people: W. D. Cannon, Albert Wilborn, W. F. Loyd and J. N. Clark. While the above committee was attending to their particular duty the ladies were making a spread of everything that is good to eat. The table fairly groaned under its weight. Bro. Harvey Travis, the oldest Mason in the State of Kentucky, was requested to return thanks, to which he responded in the form of prayer, containing every word appropriate to the occasion. Everybody was then cordially invited to assist in relieving the table of its burdensome weight. If there was anyone present that did not get all they could eat it was their own fault and not the managers, for I am sure no pains were spared in seeing that no one was slighted.

After a few minutes recreation in which to give our digestive apparatus time to devour in part what it had consumed.

The exercises proper for the day was opened with prayer by Bro. Harvey Travis. I should compliment Bro. Travis by saying that his prayer delivered at Nunn's Switch was the best and most appropriate it has ever been my good pleasure to hear. I only speak the universal opinion of those who were present. Bro. Harvey Travis is the most gifted man in prayer I ever knew. God bless you, Uncle Harvey, is the true word of all Masons whose pleasure it is to know you. May you yet live to enjoy a

number of years of unbroken happiness and may God's richest blessings be showered upon you in your declining days is the prayer of every Master Mason.

The first to appear on the program was a recitation, Eastern Star, by Mrs. Sarah Templeman. It was very excellent and received the approbation of everyone present.

Recitation by Miss Della Kevil, The Brave Girl, which was very highly complimented by all the older people, but more especially by the young men.

Recitation by Daisy Clark, Blackberry Jam and Mulberry sauce.

Recitation by W. D. Cannon of Mrs. Mayhew, the wife who wanted to become a Master Mason, which was repeatedly applauded and furnished the mirth of the occasion.

Recitation by Ida Price, The Dead Doll, who deserved and received a unanimous applause.

J. B. Kevil discussed the relation of the Eastern Star to the Blue Lodge which was logical and convincing that the two are closely allied.

Mrs. J. H. Clark recited the poem, Marco B. Harris, which was applicable to the occasion and delivered with the skill of an elocutionist.

Dr. Fraser, of Blackford, discussed the word Thought at some length, which kept his hearers very much interested in what the word Thought contains. Bro. Fraser is a valuable addition to the craft, and we as Masons look forward in the future when he will be one of our brightest jewels.

Mrs. Laura Wilborn closed the stated programme by giving a brief history of Jephtha and his daughter, she also recited a poem, Jephtha's Daughter, which was committed to memory when she was quite young. To say that Mrs. Wilborn acquitted herself admirably and to entire pleasure of her hearers but speaks the expressed compliment which she certainly merited.

Under the head of impromptu speaking Bro. Bell Kevil was called and responded by making a speech in regards Masonry in general. He would soar at times in lofty flights of oratory which spell bound his hearers, brought tears of joy to the old and rekindled anew the fires of the better nature of the young. He was unquestionably brim full of Masonry as every Mason who was present will bear testimony.

The old war horse was then called upon and replied by making the closing address of the day. I refer to one of the truest Masons in Crittenden county, Bro. P. C. Stephens. His remarks, as they are always when applied to Masonry, were appropriate. He closed his remarks by saying that all Master Masons were ready under any and all circumstances willing to meet the women on the five points of fellowship.

The crowd was then privileged the remainder of the day to recreate in any manner it saw proper, which was spent in promiscuous rambling and talking over the events and pleasures of the day.

I want to thank Uncle John and Pernecia Gilbert for myself, and as the representative of every Mason that was present for their very generous and cordial hospitality at their home. The world would be so much better if it contained more of such people.

Bros. Highly Gilbert and Birdine Ashley we have not forgotten you, no indeed; I have a feeling for Masons of your age I do not possess for younger Masons. We was all glad to

see you and have you with us. We need Masons of your age to cheer and lead us on in the noble work. The prayer of every Mason is that you may live and continue to enjoy social comforts, such as we had at Nunn's Switch, for years to come.

Thus we spent the day each and every one of us feeling the better for having been thrown together under the auspices of the Eastern Star. Such gatherings can't result in anything only that which is good. I shall always look back to the 28th day of May, 1897, as one of the happiest days of my life.

Yours Fraternally,
 J. N. CLARK.

Obituary.

Died at his home, April 21, 1897, James J. Scott. Brother Scott was born March 31, 1850. At about 17 years of age he professed faith in Christ and joined the M. E. church, South, and retained his membership with the Hillside class until the autumn of 1875, at which time he received a letter from his class and cast his lot with the Cumberland Presbyterians at Piney Fork, and was a faithful member of that congregation, and was highly esteemed for his untiring zeal and unselfish christian character that he was called to the station of Ruling Elder, which station he filled until near four years ago, when he drew his letter and removed to Kansas. Meeting with reverses there he came back to Kentucky, and deposited his letter in the C. P. church at Crayneville, where he held his membership until God said, "It is enough; come up higher."

Brother Scott was a faithful soldier of the cross. He always had the arm or on ready for the battle. He was a true christian, and while he loved the C. P. church dearly, he was no sectarian; he loved his church, he loved the people of God everywhere, no matter what their name; he loved sinners, and plead with them and prayed for them.

He loved his companion and children, and his greatest desire to live was that he might provide for their wants. But he was ready to go; death had no terrors for him. And while our hearts are sad, and the tears of sorrow fall, we realize that our loss is his eternal gain. He spent near thirty years in his Master's service on earth, and he now has a rich reward in heaven.

ONE YEAR ONE DOLLAR

The list of calamity howlers continues to grow.

President McKinley will probably reach Louisville tonight, on his way to Nashville.

The Democracy of Kentucky, having put its hands to the plow, will not turn back.

The Courier-Journal is putting in its leisure time "fixing up" slates for the Kentucky Democrats.

What Oly James did to the Courier Journal, Post and Times in the Convention was a plenty.

Capt W. J. Stone has semi-officially announced that he will be a candidate for Governor.

The Post, Courier-Journal and Times are going to put up a little ticket and vote for it their own dear selves.

Secretary Gage says the country is in a condition approaching stagnation. What's the matter with these "calamity howlers?"

The salary of Clerk of the Court of Appeals is \$4,000 per annum. He has two deputies at salaries of \$3,000 and \$2,000. All fees over these go to the state.

The attention paid to Oly James by the plutocrat press of Louisville is unmistakable evidence that his resolution in the Frankfort convention is a jagged thorn in their flesh.

It is stated that Secretary of State Sherman will resign, and that Judge Day of Canton will be his successor. Old age and impaired health are the reasons given for the resignation.

The silver Republicans held a meeting in Chicago Tuesday to perfect their organization. Thirty-two states were represented and steps were taken to extend their organization in every section of the country.

Hon. W. J. Eadington, one of the two Populist members of the late, unlamented Legislature, is announced as a candidate for the State Senate, subject to the action of the Democratic party.

The hanging of a negro by a mob in Ohio, and the attempt to hang another in Pennsylvania; show that human nature is the same on either side of the Mason and Dixon's line. With the same provocations there would be as many lynchings in the North as in the South.

Notwithstanding the supposed truce of protection in the civil service law, a number of Democrats have been dismissed from official positions in Washington. No one but the office holder will object to this. The party that bears the responsibility should draw the salaries.

The goldbugs are talking of putting up another "Palmer and Beckner" ticket this fall. The cold shoulder McKinley has given them evidently has not lessened the spite of that faction; with McCreary and Lindsey's departure from their ranks it has lessened their number.

Senator Tillman is getting them with his "pitchfork" in the Senate. As the President and Secretary of the Sugar Trust refuse to divulge information the Senate committee wanted Tillman wants an investigation to disclose what senators have been speculating in sugar. He wants the thing exposed. Tillman is on the right track. More "ruffians" like him are needed in the senate.

Secretary Gage is preparing a financial measure to be submitted to Congress next winter. In pursuance of this plan, he has sent out a letter to two hundred leading bankers and merchants, inviting suggestions for reforming the currency.

In outline the scheme will embrace the gradual retirement of the greenbacks, and the substitution of national bank notes; allowing national banks to issue to the full limit, instead of 90 per cent; reducing the tax on national bank circulation from 1 per cent to one fourth of 1 per cent.

William J. Calhoun, who was sent to Cuba by President McKinley to investigate the circumstances of Dr. Ruiz's death, has returned to Washington. The result of his investigation was unsatisfactory to himself, as it was, he says, "impossible to get proper witnesses."

"There is no end of the war in sight," said he. "The Spaniards tried to impress me with the fact it is over, but the Cubans with whom I talked expressed great confidence and a determination to fight to the end."

Ante-Election Prophecies.

Before the late election, when every means was being used to sway the voters, it was continually announced that the prime necessity for a restoration of good times was "confidence," that so soon as the "money bags" were given an assurance by the voters at the polls that no change should be made in our money system dollars would be turned loose in golden streams and the musical hum of industry would echo and re-echo in all parts of the country. Money was said to be plentiful, and a gold standard victory would open the purses, unharness the shakels and send them on a mission of industry.

Here are some of the statements that had their influence on many people:

"Millions of dollars will be invested in new enterprises if 'sound money' wins.—New York World, Oct. 31.

"Sound money" won with a whoop but where are the millions?

"A big furnace to start up when news comes of McKinley's election New York Sun, Oct. 31.

The news has girdled the earth, and aroused the natives from Greenland's icy mountains to India's coral strand, but the "big furnace" has not even been located.

"The manufacturers have been for the better part of a year utterly unable to make contracts, owing to the lack of confidence in business generally, but many of them have expressed their decided opinions that a 'sound money' victory will at once cause mills to be opened and give them that prosperity for which they have waited so long.—N. Y. Press, Nov. 2, 1896.

These things illustrate the value of modern prophecies, and they should and doubtless will teach the voters lessons that will not be cast aside for mere sentimentalism.

"Prove all things, hold fast to that which is good."

Hon. W. J. Bryan will speak in New York July 4.

Mormon Elders are proselyting in Oldham county, Ky.

In Florida a negro attempted to murder an entire family and he was lynched.

W. F. Boggs, paying teller of the First National bank of Denver, is short \$38,000.

Consul General Lee has sufficient money to relieve the wants of needy American citizens in Cuba.

In a pitched battle between factions in eastern Kentucky, J. W. and Green Charles were killed.

Myron Reed, Eugene V. Debs and others will try their cooperative color scheme in Utah and think it will prove a success.

Fifteen employees of a big department store at Chicago have been arrested for robbing the store of \$3,000 worth of goods.

From present indications there will be an abundant crop of peaches and blackberries in this section, with a fair quantity of apples.

John C. Sheehan is said to have given the labor organizations of New York satisfactory assurances that Tammany Hall will support the Chicago platform.

James Webster, an Iowa farmer, buried \$50,000 in 1893, and having gone crazy since then, is unable to locate his treasure and seems destined to die in the poor house.

Brutus Clay, of Kentucky, wants the Swiss mission, but his opponent for the place is Mr. Leishman, of Pennsylvania, who contributed \$50,000 to the McKinley campaign fund.

In the first Missouri congressional district Lloyd, the democrat, beat Clark, the republican, by over five thousand votes. The election was fought on the silver issue straight out.

President McKinley expects Congress to take the first step in the direction of financial reform by passing a bill providing for a currency commission, which shall be appointed by him.

A big mass meeting was held in Washington city Saturday night in behalf of Cuba. For three hours prominent speakers addressed the meeting, vigorous resolutions were adopted and will be delivered to the President and Speaker Reed.

Senor Santiago Barroeta, until recently a provincial deputy of Santa Clara Province, asserts that Weyler's claim as to the pacification of four provinces is ridiculous, and is only part of a scheme to keep Weyler in power.

Rigar Harris, a letter carrier shot four of his children and then himself. Two of the children are dead and the father is dying. His wife died in February and he had brooded over her death until he had become insane.

Commissioner Calhoun has sailed for home, having completed his investigations in Cuba. His report will sustain Consul General Lee in the Ruiz case, and it is believed that he will recommend that the war in Cuba be stopped at all hazards.

STATE CONVENTION.

The Chicago Platform and Bryan Endorsed in Ringing Words.

Shackelford Wins the Nomination

The Democratic State Convention, which convened in Frankfort last week, to nominate a candidate for Clerk of the Court of Appeals, was a large and enthusiastic gathering, and the proceedings throughout were as harmonious as such conventions usually are. Upon the adoption of the platform there were no differences, everybody was for standing by the Chicago platform, and great speeches were made by ex-Gov. McCreary, Jo Blackburn and other Democrats who have always stood in the front ranks when the fight was on. There were two delegations from Louisville, one in accord with the party on the issues and the other practically made up of the bolters. The bolters were turned down, went home and determined to enter the Democratic primary to be held June 22. Thus Louisville, with the exception of the three bolting newspapers, is in line again.

On the 10th ballot Sam J. Shackelford, of Owensboro, was nominated for Clerk of the Court of Appeals, the vote on this ballot standing:

Shackelford, 5581
Green, 5351

The following platform was unanimously adopted:

Resolved, That we hereby reaffirm our faith in the principles set forth and enunciated in the platform adopted by the Democratic party in the National Convention held in Chicago in July, 1896, as the platform of the Democracy of Kentucky.

Second, That the principles adopted and set forth in that platform are the true principles of Democratic faith and we urge upon true Democrats to stand by them at all times and under all circumstances and conditions.

Third, We endorse the canvass made by William J. Bryan, the nominee of the Democratic party for the presidency in the last election. We commend his wisdom, approve it as just and fair to all parties and all interests of our common country. We recognize in him the fearless orator and statesman and the great champion of the people's rights against the money power, the monopolists, the syndicates and trusts. We pledge the support of united Democracy in our State.

Fourth, We condemn the dishonesty, corruption and incompetency of the present state administration. It has resulted in disorder, encouraged crime, and increased the burden of an already overtaxed and oppressed people.

Fifth, The Democratic party has always been, and is still the friend and protector of the laboring man, whether in the field, mine or work shop, and we recommend the passage of such laws that will prevent any competition of products of convict labor against the products of free and honest labor.

Sixth, We remember with pride the heroic effort of our late Senator, J. C. S. Blackburn, and those who nobly stood by him in the recent contest, to prevent our state from being misrepresented in the Senate of the United States, and we commend the Democratic members of the Legislature for the successful defeat of the injurious measure to change the election laws of the state in the interest of fraud and corruption.

The following resolution was introduced by Oly James and was passed almost unanimously by the Convention:

We, the Democracy of Kentucky in Convention assembled, warn the people of Kentucky and the Union against these treacherous Louisville newspapers, known as the Post, Courier-Journal and Times, as enemies to our cause, too cowardly to wear their true Republican colors, but seeking themselves under a decoy, for the purpose of establishing us in the back and promoting the cause of the single gold standard and the money syndicate, whose paid and purchased sponsors they are, and we therefore condemn them as unworthy the confidence of our party and people.

Vancouver, B. C., June 7.—The officers of the steamer Hupeh which arrived today from the Orient, state that when in the Philippine Islands, on her last trip, it was learned that the Spanish government had captured 25 Roman Catholic priests, supposed to be in sympathy with the rebels, and had literally roasted them alive.

Atkins & Co., Indianapolis, Ind., writes: "I have never before given a testimonial in my life, but I will say that for three years we have never been without Chamberlain's Colic, Cholera and Diarrhea Remedy in the house, and my wife would as soon think of being without flour as a bottle of this remedy in the summer season. We have used it with all three of our children, and it has never failed to cure—no, simply stop pain, but cure absolutely. It is all right, and any one who tries it will find it so." TREATY RIGHTS VIOLATED.

Consul-General Lee Makes a Report on the Ruiz Case.

New York, June 8.—Consul General Lee's report on the now celebrated Ruiz case has been laid before the secretary of state. Dr. Ruiz, an American citizen, was found dead in a Spanish prison in Cuba. The Spaniards claimed that he had committed suicide, the friends of Ruiz hold he was murdered. The case was investigated by Lee and Calhoun and in his report Lee says it will never be known whether, heretofore, he killed himself or died at the hands of others. In keeping him in prison 315 hours, when under the treaty of the two countries 72 hours is the prison limit without trial, the Consul General says was a violation of treaty rights. This part of the report is significant. If Spain has violated the treaty in this case she can no longer demand that this country shall observe treaty rights.

Growing Children

One-third of all the children die before they are five years old. Most of them die of some wasting disease. They grow very slowly; keep thin in flesh; are fretful; food does not do them much good. You can't say they have any disease, yet they never prosper. A slight cold, or some stomach and bowel trouble takes them away easily.

SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites

is the best remedy for growing children. It makes hard flesh; sound flesh; not soft, flabby fat. It makes strong bones, healthy nerves. It changes poor children to children rich in prosperity.

Book about it free for the asking. **SCOTT'S** No substitute for Scott's Emulsion will do for the children what we know Scott's Emulsion will do. Get the genuine. For sale by all druggists at 50c. and \$1.00. SCOTT & BOWNE, New York.

BARN BURNED.

W. H. Graves Loses His Big Stock and Grain Barn.—Work of locusts.

The big stock and grain barn of Mr. W. H. Graves, four miles north of town, was destroyed by fire Tuesday night. A quantity of corn and hay, and a lot of farming implements were also burned. Mr. Graves had all of his farming implements in the barn, and a wheat drill was the only article saved.

Mr. Graves thinks that the fire is of incendiary origin. He came to town to get the bloodhounds for the purpose of tracking the guilty persons, but so many of the neighbors, attracted by the big blaze, had come and gone from the barn that it was impracticable to use the dogs.

The barn was a large new building and one of the best on the Ford's Ferry road. The loss of the building was a great one to its owner, to say nothing of the valuable contents.

MINERS' MEETING.
Can't Live on Reduced Wages and Ask An Increase.

The miners' mast meeting held at Earlington last Saturday was one of the largest and most interesting ever held in Hopkins county. Long before the hour for which the meeting was called hundreds of hignest toilers from St. Charles, Crabtree, Morton's Gap, Carbondale and other points gathered on the streets and discussed in earnest anxious words the deplorable condition of their co-laborers occasioned by the reduction of wages at Hecla, Monroah, Barney and Providence mines.

The meeting was inaugurated by the Hecla miners, who, after a trial, discovered that they could no longer give maintenance to their families by continuing to dig coal at forty cents per ton. Investigation wound the condition of the men, their wives and little ones a sad one. Large numbers were being denied the absolute necessities of life, and it was at once decided that something should be done to relieve the distress.—Madisonville Mail.

AMONG THE FARMERS.

Jos Samuels, of Repton, was delivering corn to parties in town yesterday.

George D. Kemp, of Shady Grove brought his old reaper down to town Wednesday and exchanged for a new one.

Horace Williamson is the only man who reports that he will have a larger acreage of tobacco this year than last.

Mr. E. L. Nunn of Belle Mines was in town Tuesday. "I will have about one half a crop of wheat in quantity, but extra good in quality," he said.

Mr. W. J. Fuller, of Union, was in town Tuesday. When called on for the news he said with enthusiasm: "A fine rain yesterday, we are up with our work and crop prospects are encouraging. If there is no hitch anywhere will have plenty of hog and hominy in my section in due season."

Mr. Owen Boaz, who owns a pretty farm on the Dycusburg-Marion road, was in town Saturday. He is in good spirits over the prospect of a good crop. Mr. Boaz is one farmer who does not believe in the virtue of commercial fertilizers. He thinks they ultimately impoverish the land.

Mr. David Gilliland, one of the tireless farmers of the Hurricane country, was in town Tuesday. Dave is small in stature, but it is said that when it comes to moving things on a farm he can do more than two large men. He has charge of Foster Threlkeld's big farm this year and is keeping up with his 250 acres of growing corn.

Occasionally a farmer takes hold of an old farm and makes a thing of beauty of it. One notable instance of the kind: Dan Green took the old Akers place, on the Ford's Ferry road when it was thought past redemption and the old fields had been turned out for years. Dan set his wife and musole to work, and now he has as cozy a little place as there is on the

road. The persimmon bushes and gullies have disappeared and in their stead are smooth, productive fields, a handsome cottage has taken the place of the old houses, and every thing around Dan has a prosperous air.

Mr. W. H. Bigham reports that the farmers of Chapel Hill neighborhood are done setting out tobacco. He reports the following crops: W. Bigham 6 acres, Carl Minner 6 acres, Spill Hill 4 acres, Earl Walker 3 acres, Urey Bigham 5 acres, Charles Clement 3 acres, Albert Walker 4 acres, J. C. Adams 4 acres. A number of these watered the plants as they were set. These men are not bent on big crops, but they are determined to measure up to the best in quality. Chapel Hill always has good tobacco, and the raisers have learned that the better the tobacco the better the price, and they are now going for the top figures. The Chapel Hill folks say they are going to take the "cake" from the Woodall tobacco this year, or know the reason why.

wonderful success. It has cured some
cases here that were pronounced in-

OUR BROTHER IN BLACK

TO THE READERS OF THE PRESS:

Through the kindness of the editor
we have been accorded the privilege
of furnishing occasional notes during
the summer, giving such information
of the doings and conditions of the
colored citizens as may be of more
or less interest to the many white as well
as to the few colored readers of the
Press.

The trustee election passed off very
quietly and orderly. Thirty seven
votes were registered, which resulted
in the election of G. K. Lewis for
trustee.

Our superintendent has employed
Prof. J. H. Jackson, principal of the
State Normal school at Frankfurt to
conduct the joint institute of the
Crittenden and Caldwell county teach-
ers. This institute will be held in
Marion the first week in August.
Prof. Jackson is one of the ablest, if
not the ablest colored educator in the
State, and the institute promises to
be of more than ordinary interest and
profit.

The Annual District Conference,
representing the C. M. E. churches of
Western Kentucky, will convene in
Marion on the 30th of this month.
Bishop Lane will preside.

Our trustees, under the direction
of the superintendent, are making
hasty preparations for the school
building. They expect to be able to
begin work on it within two or three
weeks. They will not be able to
complete the house this year, but
they hope to get it near enough com-
pleted for the ensuing session of
school, by having the school opened
early and closed before the bad wintry
weather begins. As the amount of
tax collected are insufficient to ac-
complish this object, the trustees
hope to have it supplemented by
donations from the friends of educa-
tion regardless of color. We hope
that our white friends will help us as
liberally as possible in this worthy
undertaking. Every thoughtful man
who reads this must realize that it is
best for us as a town, as a state and
as a nation that the masses of the
people, the negro included, be educa-
ted intellectually and morally. Ig-
norance and immorality are the com-
mon enemies of law and order, and
good citizenship. Not only is it
better for the negroes themselves that
they be educated, but it is better for
the whites that the negro be educated.

In other words, ignorance, whether it
exists beneath a black or white skin,
is injurious to the material progress
and welfare of the whole people.

The Cuban Bond Deal.

Evidence is daily accumulating of
the existence of a scheme for a giant
bond deal under the name of Cuban
independence. Its latest form is
that influential capitalists, both in
this country and in Europe, propose
to take the bonds of the Republic of
Cuba to an amount necessary to reim-
burse Spain for the loss of the island,
and enable the new government to
get a start, provided the United States
will take control of the Cuban custom
houses and see that the revenues are
properly conducted. This proposition
has, it is stated in the Washington
Post, been presented to President Mc-
Kinley. It means a United States
guarantee of the proposed bonds. The
proposition sounds well. It would be
a good thing if Spain would relinquish
her sovereignty over Cuba, and
subject to the consent of the Cubans,
deliver the island to the United
States for fifty millions of dollars; the
people of this country would approve
the transaction. But "reimbursing
Spain for the loss of the island" means
the redemption of the Spanish bonds,
amounting to over three hundred
millions of dollars, to secure which
Cuban revenues are pledged to the
bondholders. It is these bondholders
and not Spain that are to be reim-
bursed. Their bonds are not worth more
than twenty-five cents on the dollar,
which would make the entire debt
worth only seventy-five million dol-
lars. If the government of the United
States should give even one hun-
dred and fifty million dollars to reim-
burse Spain the bondholders would
get it all and reap a profit of seventy-
five millions. What a corruption
fund they could spare out of this with
which to employ lobbyists at Wash-
ington! And what a scandal it would be
then to buy Cuba on any terms.

The Administration of President
McKinley would do well to steer clear
of these schemes. We want no deal
with the speculators in Spanish bonds
Spain can not much longer maintain
an army in Cuba. The Spanish bonds
will never be paid out of the revenues
of Cuba. Cuba will be free without
any disgraceful dealings between the
rulers of Spanish bonds and officials
of the United States. Breakers ahead

quirer.

ARE STARVING.

Thousands Appeal to Americans
from Cuba for Succor.

A Tale of Cuban Suffering and Spanish Cruelty.

Havana, June 7.—A strange ap-
peal on behalf of the starving recon-
centrados in Matanzas, who excited
pity in the hearts of General Lee and
Mr. Calhoun, has been made to the
people of the United States.

The petition is headed, "An Ap-
peal to the United States." It is now
on its way to Washington. The prin-
cipal part follows:

"For some time past, we have been
contemplating the idea of appealing
to your charitable feelings for relief
for these of our people who are bitter-
ly suffering the consequences of an
inhuman war. The fear, however,
that our representations might be re-
ceived as passionate and exaggerated,
has restrained us from undertaking
the task, but since General Lee, Com-
missioner Calhoun, his secretary, Mr.
Fishback, and Mr. Alexander Brice,
the American Consul at this place,
have seen with their own eyes the mi-
sery existing here, we do not hesitate
any longer to speak to you. If, as is
to be hoped, these gentlemen make
their report to the United States gov-
ernment, of all they have seen, you
will find full confirmation of all the
statements we make.

"First and foremost let me say that
in unhappy Cuba we can do nothing
to help our unhappy countrymen, the
people that have huddled in our cities.
We would be looked upon as traitors
for so doing, and as such we would
be summarily dealt with.

"We have to witness, day after day
scenes of horror which no language
can describe. To Spain we can not
apply for succor, for she is well ac-
quainted with the present state of af-
fairs in Cuba, and so far not a fath-
ing has come to us from her, and yet
we have sent her our money freely,
whenever the Spanish people have
been in want and distress.

"But what are we to expect from
Spain, when her worthy representa-
tives here, General Weyer, indifferent
cold and deaf to our misery, coolly
says that his mission in Cuba is not to
look after the starving population but
simply to end the war according to
his own notions.

"He has converted into desert sections
of the country where abundance
once reigned, thousands of happy
towns have been looted and burned,
by a savage soldiery, and ashes and
desolation meet the eye wherever you
look, and people of America, vultures
feed on unburied corpses strewn in
ruined fields.

"Upwards of ten thousand of the
victims of this savage system of war-
fare have been crowded into Matan-
zas, without providing for their most
natural wants. And after they have
been compelled to abandon all they
had in the world they are to be seen
in crowds from 8 in the day until late
at night imploring charity.

"Many a child perishes in the street
unable to stand many and such long
continued privations. Indeed it looks
as if our graveyards had turned out
their dead upon us, such is the cadav-
erous look of the multitudes that fran-
tically go about begging for a morsel
of bread, and whose only guilt is to
have been born in Cuba.

"It is not possible to give detailed
accounts of the misery that reigns
supreme here and in other cities and
towns. It is enough to state that the
reconcentrados or pacificos are living
in huts erected in the streets of our
cities. For beds they have the bare
ground, and on it they eat, if they
happen to be relieved by some charita-
ble source."

This is signed by "100 Citizens of
Matanzas."
