VOLUME 18.

MARION, CRITTENDEN COUNTY, KENTUCKY, AUGUST 19, 1897.

NUMBER 9

Dr. James' Man Kennedy.
 P. P. Kennedy, the colored deputy U. S. Marshal, has been letting off his pistol, probably in target practice, at his residence, Clay, between Holloway and Julia, and one shot narrowly missing Mrs. Brown, a warrant was sworn out for his arrest and yesterday he was fined five dollars and the usual trimmings for his practice.—Hender son Gleaner.

Killed By a Fall.

Just as we were going to press W. H. Murry, an aged and highly respected citizen, and for many years one of the leading teachers of this county, while cutting some limbs off a shade tree in front of his home on Court street, opposite the court house, fell and was instantly killed. Drs. Daley were immediately called but could do nothing, his head being crushed by the fall.—Smithland Banner.

Slept on the Track.

Princeton, Ky., Aug. 11.—John Aussenbaugh, a farmer living in the eastern portion of this county, started home from Princeton last night in an intoxicated condition. This morning his remains were gathered up near his home on the Illinois Central road; his lower limbs had been severed and the body bruised and battered. The sup position is that he went to sleep on the track, and was killed by a train. He was married and leaves a large family.

A New Coal Company.

Evansville, Ind., Aug. 13.—It is understood that several of the leading capitalists of this city, in connection with two or more citizens of Marion, Ky., have formed a joint stock company to mine coal. Their field of operations will be at and near Nunn's Switch, on the Evansville Branch of the Illinois Central railroad. The company are said to have obtained control, by option and purchase, of vast beds of some of the finest coal in the State, and before many weeks they expect to begin mining on a large scale.

Farmer Loses His Money.

Morganfield, Ky., August 11.—Last Saturday Wm. Liddle, a farmer living near Sturgis, came to this place and fell in with several convivial spirits. He had quite a roll of greenbacks and did not hesitate to display it. As a result of his conviviality he fell asleep late that night on the steps of a saloon near the depot. When he awoke his roll of greenbacks, containing nearly \$100, had disappeared and he was left with only 60 cents in change. Wm. Shoe maker, a son of one of Morganfield's very best citizens, has been arrested charged with the robbery, and will have an examining trial tomorrow. Young Shoemaker denies his guilt most emphatically. It is a severe blow to his family.

The Pope County Fair.

The 34th annual fair by the Pope county Agricultural Association will be held at Golconda October 6-9. The association is making every effort this year to make this years fair the best exhibit ever made. Liberal premiums are offered and competition is open to all. The association has one of the finest half mile tracks in Southern Illinois, and the speed ring will be one of the features of each day's programme. Their facilities for taking care of stock are first rate. There are many large and convenient stalls and pens and a large lake in the center of the grounds, where stock may be watered without trouble or expense. The management will provide good music and everything that will tend to make the programme pleasing and entertaining. Every courtesy will be shown visitors, and a cordial invitation is extended to citizens of other counties. For further particulars address Barney Phelps, Sec.

THEIR MISSION ONE OF PEACE.

Owensboro, Ky., Aug. 15.—Kentucky is to suffer an Indian invasion during the next month that will be a matter of wonder to the pale faces and some degree of terror to the younger generation and the ill informed, but no serious consequences it is hoped will follow it.

Early in September 1,200 Cherokee braves will take the warpath in the Indian Territory under chief Quash Parker, and will march into Kentucky with all the pomp and circumstance of war. Their appearance will bear all the tokens of trouble, but the object of their visit will be peace and only peace. They will be accompanied by Capt. Raleigh, of the United States army. On Tuesday of last week a strong and muscular man of high cheek bones and copper countenance, was seen by a great many people of the city, but few realized that he was an Indian, though he was a full blooded Cherokee, Charley Parker, a nephew of the celebrated chief, Quash Parker, and whose Indian name is Me-Ton-Ish. He rode through the streets without asking a word of anybody, and went out the Hartford road as if he knew every foot of the ground—and he did, as he was the annual scout sent out by the Cherokees to keep up the traditional knowledge of the country that was once so dear to them, but which is to be theirs no more forever.

Me-Ton-Ish was mounted on a beautiful bay thoroughbred, but his ride was of more significance than the usual summer scout that is made for the purpose of tradition. He was the forerunner of the 1,200 warriors of the thirty fourth column of the twelve tribes of the Cherokees. The column is to meet September 2, at their center house and receive the report of their scout. Three days later their march will begin. They will enter Kentucky at Shawneetown and will march to a place about three miles north of Russellville, where they will search for and find the grave of a great chief of the Cherokees who was killed in a great battle with Shawnees in 1749. This battle took place on a prairie near Pond river, and the old chief was wounded and carried back into what is now Logan county, where he died and was buried.

VIRGINIA STRAIGHT.

The Democrats of that State Stand Pat for the True Doctrine.

In their State Convention last week the Virginia Democrats adopted a platform with this in it: "We reaffirm the platform of the democratic national convention adopted at Chicago in July, 1896, and upon which William Jennings Bryan was nominated for the presidency of the United States and we extend our congratulations to a noble champion upon the able and brilliant manner in which he discharged his trust. The fact that he received more votes than any previous democratic candidate for the presidency, and more than any candidate of any party, barring alone his successful opponent, is evidence that democratic principles are still dear to a vast mass of the American people, and that democracy is living in the hope of an early and complete triumph. We especially endorse the doctrines of the national democratic party upon the four great issues which are before the people of this country, viz. The tariff, the income tax, the regulating of trusts and the currency. Tariff duties should be levied for revenue purposes and only for so much revenue as may be needed for an economic administration of the government; upon the subject of currency we declare ourselves unalterably opposed to the British system of monometallism, which has aggrandized that empire at the expense of the nations producing food supplies and raw material and its adoption has only aggravated our financial servitude to London. It is not only un-American but anti-American, and it can be fastened on the United States only by the stifling of their spirit and love of liberty which proclaimed our independence in 1776, and caused the war of the revolution. We demand an unlimited coinage of both gold and silver at the ratio of 16 to 1—without waiting for the aid or consent of any other nation."

The Moneyed Oligarchy.

In the foreign correspondence of the Courier-Journal of the 1st inst., appears the following statement:

"The Spectator, in a gloomy article entitled, 'Aggressions of American Wealth,' refers to the retirement of President Andrews from Brown University and President Bemis from the Chicago University saying: 'We can scarcely escape the conclusion that a conspiracy exists among the heads of trusts in America to interfere with the freedom of teaching in the universities, so far as economic questions are concerned, in order that nothing shall be uttered which has not received the trade mark of this monopolistic approval.'"

The paper also pictures Americans as reduced almost to the situation of Russia by the censorship of wealth magnates over the universities, and says: "Capitalists have subsidized the pulpits, bought up the press, seated well paid attorneys in the senate, and finally have stretched their hands out to the colleges, which it is an easy thing to capture by such generosity as Mr. Rockefeller's. Apparently it is their intention to convert the United States into a powerful oligarchy, and then they will extend the sway of that oligarchy to other lands when they can."

The London Spectator is neither Democratic, Republican, Populist or Hamanocrat, yet the language which the Courier-Journal quotes, without dissent from it, would, if published in an American newspaper, cause it to be denounced as a calamity howler and a popocrat or Populist organ. It is not astonishing that the Courier-Journal did not deny the following statement, because it knew the statement to be substantially true: "Capitalists have subsidized the pulpits, bought up the press, seated well paid attorneys in the senate, and finally have stretched their hands out to the colleges, which is an easy thing to capture by such generosity as Mr. Rockefeller's. There is no doubt about their intention to convert the United States into a powerful oligarchy." In fact, it has already been converted into a money oligarchy. The elections have been bought, the majority of congress men occupy seats bought for them by trusts and monopolies, the president's office was bought for him by trusts and monopolies, and the leading news paper press in the United States has been bought to defend such practices. It is a little strange that the Courier-Journal, which has been denounced by the Democratic party of Kentucky as one of the bought Wall street organs, should give currency to such statements, but it probably passed the telegraph editor without going to the desk of the managing editor. This corrupt influence has been denounced as more dangerous to our liberties than anarchy. It is reaching out after the few remaining newspapers which have stood by the people and buying them up. There are a number of prominent daily newspapers now published in the southern states which are advocating the free and unlimited coinage of silver after a fashion, but which are owned by Republicans and advocates of the gold standard. Between this and the next canvass in 1900 all of these newspapers will be turned loose to advocate the policy of abandoning the financial issue and making the fight on the tariff question. That is the purpose of the owners of these newspapers, and is becoming more apparent every day. With the newspapers under their control, with the strong backing through the pulpits, with the universities bribed to teach their doctrines only, and with unlimited campaign funds to push their canvass, they hope and expect to control the next presidential election, as they controlled the last one. Those who undertake to educate the people should see that they are posted in regard to these matters so that they may give their support to those newspapers that can neither be purchased nor bribed.—Louisville Dispatch.

Gomez After Them.

Key West, Fla., Aug. 16.—Advices from Havana are that Gen. Gomez has perfected plans for the invasion of Havana Province, and the vigorous campaign he is carrying on has so alarmed the Spanish authorities that every able bodied Spaniard in Havana has been ordered to take up arms. The Cubans have entire possession of the outskirts of Havana, and the Spaniards are afraid to go out and offer them battle. The situation grows more critical day by day, and the end of the conflict appears to be drawing near.

FINDS HOPE ONLY IN SILVER.

Report of the Royal English Commission on Agriculture.

London, Aug. 12.—The royal commission on agriculture has issued a report suggesting various palliatives for the existing depression in agriculture, which the commission attributes mainly to the general and persistent fall of prices and to foreign competition, which is not likely to abate. The commissioners are very much divided in opinion with reference to a remedy for falling prices. Ten of them, including the Hon. Henry Chaplin, president of the local government board, and the Hon. Walter Hume Long, conservative member for West Derby, sign a supplementary report, declaring their belief that measures tending to increase the value of silver would greatly assist agriculture, but no recommendation on this subject is signed by the commission, as a whole.

The supplementary report expresses the opinion that depression prevails alike in protection and free trade countries, and is especially severe in the United States; that heavy protective duties, when imposed in Germany and France, failed to give either country security against depression, and suggests that the reason for universal depression may be found in the great monetary change made in Europe and the United States in 1873 and 1874.

Since the only countries which appear to be free from such depression are India and Argentina, the framers of the supplementary report contend that a prima facie case is established for the assertion that the depression is the outcome of the appreciation of gold and in the divergence of the value of metals, which gives an artificial advantage to producers in silver using countries.

While suggesting the abandonment of the gold standard, the signers of the supplementary report propose an international conference to arrange for the reopening of the mints abroad and in India, and the restoration of silver either wholly or partially, to the position it occupied in 1773.

In conclusion, the supplementary report invites the government to give effect to the resolution adopted by the British parliament, in February, 1895, in favor of such a conference.

BRYAN IN MONTANA.

Big Demonstration in Honor of the Champion of Silver.

Butte, Mont., August 13.—Amid the screeching of steam whistles, and shouts of welcome from many throats, W. J. Bryan was received in Butte. The crowd at the depot was so dense that the police were unable to cope with it. On reaching the hotel Mr. Bryan responded to calls of the people and made a brief address. Later in the day Mr. Bryan went to Walkerville, a suburb of Butte, where a demonstration took place. Today he spoke at the race track. The track had been under the ban of labor unions because of a difference with the carpenters and Mr. Bryan declined to speak there until the boycott was declared off for this occasion.

FREEMAN YANDELL SUES.

Says Telford Brasswell 'Alienated the Affections of Mrs. Vandell.

Kuttawa, Ky., Aug. 13.—Freeman Vandell, of the Eddyville prison, to 'ay filed suit in the Lyon circuit court for \$25,000 damages against Telford A. Brasswell for alleged alienation of his wife's affections. His attorneys are Wilson & James. Brasswell has retained Sam C. Molloy to defend him.

Yandell originally came from Marion and is a brother of Collector Yandell. He was one of the first men to be appointed to a place at the prison under warden J. H. Happy. Brasswell is a young man about town. The scandal developed a few days ago, when a sister of Yandell found damaging letters which had passed between Brasswell and Mrs. Yandell. Yandell promptly discarded his wife and today filed suit.

CENSURED DR. WHITSETT.

Little River Baptist Association is Not Pleased with His Course.

Princeton, Ky., Aug. 13.—Little River Association of Baptists, composed of about fifty churches, in this section of Kentucky, at its annual meeting just adjourned adopted very strong resolutions condemning the course of the Rev. Whitsett, of the Baptist Seminary of Louisville, and withdrawing its support from the Seminary so long as Mr. Whitsett remains in charge. The resolutions assert that his writings on Baptist history are demoralizing and hurtful to the church.

Dana on the Botters.

The New York Sun, a gold standard paper, has been printing some salty articles on the "bottlers" in Kentucky. The "policies" as well as some of the doctrines promulgated by the so-called "National" Democrats are dealt some pretty severe blows by the Sun. Referring to the proposition to retire the Greenbacks, as advocated by the Watterson-Currie crowd the Sun says:

"The currency now is the dominating and absorbing issue, and the Indianapolis currency declaration would sink any party which ventured to make a campaign upon it. In substance it is to retire the greenbacks by the issue of bonds, upon which the banks are to issue any more currency and take the profits. The mere statement of the proposition is sufficient to assure its defeat by the people. Only ruin is in it, and its injection into a campaign as an issue can only serve the interests of Bryanism. The people will not tolerate it."

Referring to the movement itself, the Sun truthfully says: "The National Democratic movement is mischievous because it divides the opposing forces. It is mischievous to society, as a whole, and to the Democratic party specifically, but fortunately, it represents nothing but the ambitious and vanities of a few men who are thrusting themselves forward as its leaders. Its importance, small as it certainly is now, will diminish steadily as time passes."

COUNTESS CHALLENGED GOD.

A Seed Forced Open the Tomb on Which Was Graven Her Defiance.

In the town of Hanover, in Germany, an Evangelist Moody writes his Bible Class Discourse in the August Ladies Home Journal. "There is buried a German countess who denied the existence of God and ridiculed the idea of the Resurrection. To further show her contempt for Christianity she ordered that on her death her grave should be built up of solid masonry, and covered with large stones bound together by iron clamps. On this tomb was engraved her defiant challenge to God that through eternity this tomb should never be disturbed. But one day the seed from some tree, either blown by the wind or carried by a bird, became lodged in a small crevice of the tomb where soon it sprouted and began to grow. And then as if Nature had seemed to mock the haughty infidel, she quietly extended the delicate roots of that seedling under the massive blocks of stone and slowly raised them from their place. And now although scarce four generations are passed since the tomb was sealed, that most insignificant seedling has accomplished what God himself was challenged to accomplish."

THE INDIAN EARTHQUAKE.

Thousands of Lives Lost and Many Buildings Destroyed.

San Francisco, Aug. 11.—Additional details of the great earthquake in June which made all India tremble received in mail advices confirm the original reports of its severity. In Northern Bengal, Assam and Cachar, the shocks continued for some time. The mortality in the Cherra hills is estimated at from 4,000 to 5,000. At Goal Para a tidal wave destroyed the bazaar and sixty lives were lost. The earth is fissured and the country covered with sand and mud. The telegraph office at Cherra and all Pucca buildings were destroyed and the natives forced to flee for their lives.

The country is flooded as the earth has subsided along the banks of the Brahmaputra, causing great damage to the crops. Similar reports are received from many other places.

How Trusts Thrive.

No other item in the new tariff will show so well how the trusts dominated the last session of congress as the one relating to cigarette. After the bill had been thoroughly debated in both the House and Senate, and while it was in conference, the agents of the American Tobacco Trust appeared before the conference committee, or rather before the Republican members of that committee, and demanded the insertion in the law of a paragraph forbidding any manufacturer of tobacco or paper cigarette or of chewing or smoking tobacco, to inclose in the package or print on the wrapper any prize offer or inducement to purchase the goods, other than their own value. The American Tobacco Trust desired to have a monopoly of the tobacco trade, and think they will not have to offer prizes for the use of their brands therefore they desire to prevent any of their competitors from doing so. This paragraph was never debated for one moment or offered in either house. It was simply written into the bill at the dictation of the Tobacco Trust. It will seriously interfere with the business of companies competing with that trust, and the method and manner of its enactment, as is here truthfully told, is an outrage.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK. I, DR. ISSUED WEEKLY.

ONE YEAR - ONE DOLLAR

Virginia Democrats did not trimming. They stick square to the text, and that's the way to do business.

It is said that Governor Bradley is not pleased with the endorsement the Republican State Convention gave him. He should be thankful to escape without a spanking.

Virginia Democrats held their state convention last week and gave the Chicago platform an enthusiastic endorsement. Democrats everywhere are doing this very proper thing.

The advance of the price of just one of our products is not much of an indication of returning prosperity, especially as the advance is occasioned by an absolute failure on the part of our competitors.

Immigration is at the lowest point reached since the Federal Government began to exercise supervision of it. The immigrants during the last fiscal year numbered only 230,832, a decrease of 112,485 from the total for the year before.

Last week Gov. Bradley removed Drs. Scott and Rhorer, Superintendent and Assistant Superintendent of the Lexington insane Asylum, from there was a quarrel between the two men removed, and there were charges of incompetency, and counter charges of various hues.

The Fourth Indiana Congressional District elected a successor to the late William S. Holeman Tuesday. Griffith, the free silver Democrat, was elected by a majority of 1,152. Holeman's majority last year was 852. Free silver is not dead in that district.

This year the schools will open with better qualified teachers than ever before. The standard of knowledge has been raised, and if those who have attained this standard are sufficiently versed in the art of teaching, we will have better schools. It is one thing to be equipped with necessary information and another to be gifted with the art of teaching others. Let us hope that there has been progress in both these essentials.

The Frankfort Capital estimates that there are now only 1,100 A. P. A.'s in the State, while in 1896 they numbered between 6,000 and 7,000. The Capital, a Republican paper, in commenting on these says:

"The most absurd thing in recent politics has been the capture of the Republican organization by the ragged crew of A. P. A.'s that has completely taken possession of the party that carried the State in such a splendid campaign in 1895. With some thing like 450,000 voters in Kentucky a little gang numbering less than two per cent. of the total vote has to ken charge of the party that has twice carried the State.

The price of wheat advanced because of the shortage of the crop in other countries; the price of Sugar Trust stock, and sugar advanced because of legislation in their favor as against the consumer of sugar. The farmer must depend on natural laws for an occasional advance; the speculators and trusts make congress arrange for the advance in the price of their wares. Do you appreciate the advantage of the one over the other. The farmer must wait until the rain comes of its own accord; the trusts have congress to manufacture their "rains" to order.

What Buckner Said

On the 6th day of May, 1897, Simon Boliver Buckner was nominated for Governor of Kentucky by the Democrats. In opening the campaign ten days later, on the 16th day of June, Mr. Buckner, commissioned by the platform of that convention, stated his position on the money question. The speech was published by the Louisville Times.

Mr. Buckner, in the first division of his speech, considering national politics in arraignment the republican party, thus states his position on the money question:

"It (the republican party) violated its duty to the people by abrogating the contracts of the bondholder to receive their pay in the currency of the country and gave them gold instead, and it then demonetized silver in order to make gold more valuable and further enrich the capitalist at the expense of the people."

The Ohio River Association convened with Dyer's Hill church yesterday, and will be in session three days. The Association is composed of the Baptist churches in Crittenden and Livingston counties. The delegate from the Marion church are M. H. Weldon, John A. Hurley and J. P. Pierce.

Alaska's placer mines will do well to come near the gold production in the early days of California. In 1848 the year of discovery, California's placers yielded \$5,000,000; in 1849 \$23,000,000; in 1850, \$50,000,000; in 1851, \$55,000,000; in 1852, \$60,000,000; in 1853, \$65,000,000. In 1861 the placers were still yielding \$40,000,000. Between 1848 and 1896 the California mines added to the world's gold supply \$1,263,115,604, and its annual yield now is \$15,000,000. Alaska must not yet insist it is a second California.

Do not make your children to be come decrepit in after years by giving them child tonics containing arsenic. Arsenic ruins their bone and puffs them up. They look better—for a while. Broken Chain

The family circle is never so happy after the chain is broken and a link taken. Some family chains are strong, others weak. Have you a good family history? Or is there a tendency to coughs, throat or bronchial troubles, weak lungs? Has a brother, sister, parent or near relative had consumption? Then your family chain is weak. Strengthen it. Take SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites. It makes rich blood, gives strength and vigor to weak lungs; with its aid the system throws off acute coughs and colds. It prevents the chain from breaking. Shall we send you a book about this, free?

Drilling Into the Safe.

Some days ago the clock which works the combination of the Marion Bank money safe became disarranged and all communication with the inside of the safe was abruptly shut off. The clock, or time lock, persistently refused to run. An expert from the safe-makers was sent for and arrived Monday. After an examination, he announced that there was but one way to get in, and that was by drilling through the three inch steel door, and for hours a drill has been at work slowly penetrating the hard steel. The safe is inside of the big fire proof vault, and it would require no little work of an expert to open this vault and then when the forty hours drilling on the safe is considered, it can very readily be seen that Marion Bank's money is mighty well protected.

Base Ball.

The Marion and Repton base ball teams played at the latter's grounds Saturday, and for the first time this season Marion's crack team got a big, bad, black eye. When the rain interrupted the game at the seventh inning, the score stood 19 to 33 in favor of Repton, and had not this interruption occurred there is no telling when the thing would have stopped. Repton's big pitcher is responsible for this break in Marion's record of endless chain victories. He threw a straight ball, but with such force that our batters could not get their shillab's under their will before the ball was punching a hole through the back stop.

To the Populists of Livingston County

HAMPTON, Aug. 13, 1897.
Whereas, There seems to exist a doubt in the minds of many voters as to whether the Populist candidates would continue in the race, and many and conflicting rumors being circulated in regard to the Populists fusing with the Democratic and then with the Republican party. Now in order to remove all doubt and forever set at rest these false reports, we this day declare ourselves to be in full sympathy with the address issued at Nashville by the National Populist conference, which declares that from henceforth we will have no more fusion with either of the old parties; and we this day further declare that there is no trade, dickering, or fusion existing, on foot or going to be made, notwithstanding the oft and persistently repeated reports of designing persons.

We are going to make their campaign on our own platform, and advocate the principles therein contained, and we appeal to all who desire better conditions for the people to join with us in our efforts to secure them.

A BIG REVIVAL.
Christians Work Hard All Night to Convert a Town.

Fordville, Ky., Aug. 12.—A remarkable revival is going on at the Methodist church at this place, conducted by Rev. James Little of Louisville, assisted by local preachers. Seventy conversions have been made already, and the excitement is at fever heat. The services last night lasted until 11:30 o'clock, and songs of the congregation and shouts of the happy converts and others could be heard a mile away. After the services ended the devout members of the congregation divided themselves into two bands, and one took the east and the other the west end of town for a house to house visitation. Almost every house in town was visited with singing, shouting, praying and exhortation, and the work went on until daylight. Many of the workers were exhausted from time to time, and were forced to fall by the wayside to rest, at the same time urging their brethren and sisters to continue in the good cause. As soon as they recovered sufficient strength the weary ones would rejoin the throng, and others would drop out from sheer physical weakness and exhaustion.

BRUTAL MASKED ROBBERS.
They Torture Two Aged Brothers in a Horrible Manner.

Johnstown, Pa., Aug. 12.—Four masked robbers entered the house of Philip and John Devo, aged and wealthy bachelor brothers living in Munster township, Cambria county, and demanded their money. Failing to find any money the robbers took light sticks and burned the feet of the men to compel them to tell where the money was secreted. While the burning sticks were being applied to the feet of Philip, the nephew of the old men, who managed to slip the blindfold from his eyes, turned his head to see what was going on. One of the robbers struck him a terrible blow in the mouth with his revolver, knocking out his teeth, shattering the lower jawbone and splitting the upper lip. As they could find no money the robbers finally departed, leaving all their victims tied.

Electric Bitters is an excellent appetizer, and aids digestion. Old people find it just exactly what they need. Price 50 cents and \$1 per bottle at Orme's drug store.

"Last summer one of our grand children was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed, then we tried the Chamberlain colic, cholera and diarrhea remedy, which gave speedy relief." For sale at Orme's.

Obituaries.

Mother Lucinda J. Thompson was born in Crittenden county, Ky., Feb. 29, 1824, and died in peace July 21, 1897. She was married to G. N. Thompson Sept. 9, 1841. Professed religion and joined the Cumberland Presbyterian church in 1842, and in that church she remained a faithful member until August 4, 1892, when she joined the M. E. church, South, where she remained an acceptable member until death. She professed entire sanctification two years before she died and brought forth the fruit of holiness in her life.

She was the mother of ten children, seven of whom survive her.

Mother Thompson was a faithful wife, a loving mother, a kind friend and a true Christian. She suffered several days in her last illness, but endured her afflictions patiently.

When the summons came it found her ready. Her aged husband feels very lonely since he has gone away, but he expects soon to see her again in the home of the saints. May he be kept by the Holy Ghost.

Vinson B. Phillips was born in Crittenden county, Ky., Sept. 5th, 1851, professed religion in 1874, joined the M. E. church South at Hurricane, lived a consistent member until death.

Bro Phillips was married to Miss Mattie Wofford March 17, 1881. He was a high toned, christian gentleman in every respect; he was one of God's noblemen, who had a kind word for all and scattered sunshine wherever he went. He was kind and obliging, good to the poor and needy. He was a kind and devoted husband, a loving and affectionate father, and a friend to all.

He leaves a dear wife and three bright, precious little boys, an aged mother and two brothers and two sisters to mourn their loss.

This dear brother quietly breathed his last at his home, surrounded by friends and loved ones, July 27th, 1897. He died in the triumph of the christian faith, and went home to glory to meet loved ones who had gone before. His funeral was preached by the writer from Eps. 3, and 15, at his home, to a large crowd of relatives and neighbors, after which we laid our dear brother to rest in the Hurricane cemetery, to await the resurrection.

Servant of God well done; rest from the loved employ. The battle fought, the victory won, enter thy Master's joy.

W. R. Gibbs.

Sister Susan Arliff was born in Wilson county, Tenn., 72 years ago. She was the wife of J. J. Arliff, who died several years ago. Sister Arliff professed faith in Christ more than fifty years ago, and united with the Baptist church and lived a faithful and consistent life ever since. She has been afflicted for many years, but bore her sufferings patiently.

The writer has been acquainted with this sister for thirty years. She was a noble christian lady. A few hours before her death she rejoiced in a Saviour's love, and in the full prospect of soon being released from this world of trouble and afflictions to meet loved ones gone before.

She leaves three sons and two daughters to mourn their loss. But no doubt they are all prepared to meet Mother in heaven.

Funeral services were held by the writer at Old Mount Zion, and we laid this dear sister to rest. Sleep in Jesus, blessed sleep, from which none ever wake to weep.

A Remarkable Cure of Chronic Diarrhea.

In 1862, when I served my country as a private in company A 168th Pennsylvania Volunteers, I contracted chronic diarrhea and it has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors, without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy, and after that I bought and took a 50 cent bottle, and now I can say that I am cured. I can not be thankful enough to you for this great remedy and recommend it to all suffering veterans. If in doubt, write me Yours gratefully, Henry Steinberger, Allen town, Pa. Sold at J. H. Orme's drug store.

Gloomy, Hopeless Life

Internal Pains—Lame, Tired, Nervous—Every Bad Symptom Cured by Hood's Sarsaparilla.
"For nearly five years I suffered with a severe case of stomach trouble. I had pains in my stomach and bowels so that I could not stand or work without great suffering. My appetite was very poor and when I did eat anything I was shortly afterwards seized with vomiting spells. I could not rest at night and felt lame and tired all over. I became nervous and had no energy whatever. My life seemed gloomy and hopeless. My husband advised me to take Hood's Sarsaparilla, as he had been taking it with great benefit. I began taking it and the first bottle did me a great deal of good. I continued with it regularly and have now almost fully regained my natural weight and am doing nearly all my housework." Mrs. RINDA CROCKER, Gladstone, Ala.
"My blood was out of order and I had no energy. After taking two bottles of Hood's Sarsaparilla I felt better than for a year." MARION W. SMITH, Collinsville, Alabama.
Hood's Sarsaparilla is sold by druggists. \$1.50 per bottle. Be sure to get Hood's.

"Let me give you a pointer," said M. F. Gregg, a popular conductor on the Missouri Pacific railroad, "Do you know that Chamberlain's Colic, Cholera and Diarrhea Remedy cures you when you have the stomach ache ache? Well, it does." And after giving this friendly piece of advice, the jolly conductor passed on down the aisle. It is a fact that thousands of railroad and traveling men have taken a trip without a bottle of this Remedy, which is the best cure for bowel disorders in the world. Obituary.

Died August 8, 1897, of congestion of the brain, little Dora aged 7 years, daughter of T. A. and Hattie Yandell.

The death angel has entered the home and taken sweet little Dora, the pride and joy of her parents, home to Jesus. A sweet, pure life, a tender plant, a precious jewel, has slipped from our grasp forever.

Weep not, heartbroken father and mother, your loss is her gain. Jesus has said, "Suffer little children to come unto me and forbid them not, for of such is the kingdom of heaven."

How sad to stand by the open grave and look for the last time upon all that is mortal of our loved ones. But that is not all. We will meet them after awhile in a fairer clime if we live as Jesus, the Father's son, would have us live.

The remains were interred in the family burying ground at the residence of her grandfather, Rev. D. P. Campbell. A large number of relatives and friends were present.

Rev. Jasper Wells made a short and impressive talk, and offered a consoling prayer. May God sanctify this affliction to our good and to His glory.

Little Dora she "has left us, And her loss we deeply feel, 'Tis our God that has bereft us, He can all our sorrows heal."

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery says that last winter his wife was attacked with L. Gripe, and her case became so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle of it home, and to the surprise of all she began to get better from first dose, and half a dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds, is guaranteed to do this good work. Try it. Free trial bottles at Orme's drug store.

YOU ought to know that when suffering from any kidney trouble that a safe, sure remedy is Foley's Kidney Cure. Guaranteed or money refunded.
