Crittenden Press 1897-12-16 seq-1.jpg
In the aggregate quite a large sum of money will have been saved by these people. This account is nothing unusual among people. To each it is a small sum, but to us it is a huge total. So we need not despair, and certainly ought not to place our hopes on any one man or estate. If all our artificial means were to do as well as one little child, the world would be in heaven."

The drift of a few sentences.

As in the case of the first paragraph, the third one is also a continuation of the author's argument about the importance of even small contributions to society. The author emphasizes that these contributions, although individually small, cumulatively add up to a significant amount. The author concludes by encouraging readers to continue to make similar contributions, as they can have a meaningful impact on the world.
