AROUND SANTIAGO

The soldiers as usual come from "home on furlough." They are then usually well supplied with clothing and other necessaries. They have most of them been at the front for some time and have seen much fighting. They are very glad to come home and see their friends again. They are well received by the people here and are made very comfortable. They are usually entertained in the homes of the people and are treated with great kindness. They are well supplied with food and other necessaries and are very happy to be home again.
