VOLUME 20.

MARION, CRITTENDEN COUNTY, KENTUCKY, MAY 11, 1899.

NO. 47

Many prominent members of Congress believe that President McKinley will call an extra session of that body to meet early in October.

The Reina Mercedes, which was sunk in the channel of Santiago harbor during the war, is ready to be towed to Newport News.

The Cuban National party will send a committee to Washington to ask for a percentage of customs receipts with which to purchase agricultural implements.

Gov. Roosevelt, of New York, is said to be a strong advocate of the whipping post for brutes who are guilty of wife beating or cruelty to children or dumb animals.

President McKinley left Washington Monday for two or three weeks' vacation. It is his present intention to go to Virginia to obtain rest and relief from rheumatic attacks.

A boiler at a sawmill in Christian county exploded, killing Barrett McKnight, owner of the mill, and Eph McKnight, his brother. Another brother was badly hurt and John White had both legs broken.

On June 8 the monks of Gethsemani Abbey, Nelson county, Ky., will celebrate the fiftieth anniversary of their settlement in the United States. It will be one of the most notable Catholic gatherings ever held in the South or West.

Rev. W. H. Evans has instituted a suit for \$10,000 damages against Rev. J. N. Hall, a Baptist divine, of Fulton, Ky. The suit grows out of letters written by Hall reflecting on the Christian and ministerial character of Evans.

Gov. Bradley has sent out three hundred or four hundred letters to friends in Kentucky urging them not to commit themselves yet in the race for the Republican nomination for Governor. He said that some of the Republican leaders opposed him in everything he did; and he intended to be in the fight this summer.

The report of the Court of Inquiry upon the beef charges made by Maj. Gen. Miles has been approved by the President and made public. The findings fully confirm the many forecasts. The beef packers are held guiltless of any fault. Canned roasts of beef are condemned as unfit for an army ration, and former Commissary General Egan is severely rebuked for his "colossal error" in buying it. Maj. Gen. Miles is censured for not presenting formally, and at an earlier date, his objections to "embalmed beef," and his evidence is declared insufficient to justify his charges.

An incident occurred at the court house at McMinnville, Tenn., the other day, says the Cincinnati Enquirer, that is unique in the criminal annals of the state. William Brown had been on trial for several days, charged with the murder of his wife, and the jury returned a verdict of murder in the first degree, which means hanging in that state. Just as the Judge was about to pronounce sentence, one of the jurymen stated that he had passed through the jury under the impression that it was John, the brother of the murdered woman, who was on trial, and not the husband, and that he had viewed the testimony from an entirely different standpoint than he would have been thoroughly understood the case. This development necessitated setting the verdict aside, which the judge did after some rather pointed remarks at the sovereign who had set through five days of an exciting criminal investigation and had not been able to learn who was on trial.

County Judge Evans called the Fiscal Court together Tuesday to take appropriate steps to prevent the spread of small pox in this county, there being eight cases reported at Grand Rivers. An order was made empowering the Magistrates to employ physicians in their respective precincts to vaccinate all persons unable to pay for the same; also to treat all cases that may occur that would come under the head of pauper practice, and take such other steps as may be necessary, at the expense of the county.—Smithland Banner.

As the school tax for the year 1899 was levied March 18, the 6 per cent penalty will be added on all unpaid May 18. Those owing tax for the year 1898 must settle at once.

H. A. HAYNES, Collector.

COST OF THE WAR.

Approximately Estimated Up to Date at \$275,000,000.

An approximate calculation places the total expenditures of the treasury on account of the war with Spain, from the beginning of the war preparations in March of last year up to the present time, at \$275,000,000.

It is impossible for the treasury officials to form even a rough estimate of what the war will eventually cost in the pay of increased pensions and miscellaneous charges on the treasury. The pension expenditures are expected to be heavy in proportion to the number of men engaged and the duration of the war and on account of the large percentage of sickness that prevailed in the army of Gen. Shafter.

Much will also depend on the duration of the Philippine campaign. The expenses of the navy are rapidly being reduced to a normal basis, but the Philippine campaign is still keeping the war department expenditures up.

A RADICAL CURE.

For Tuberculosis Discovered by Prof. Cervello, of Italy.

New York, May 4.—A dispatch to the World from Rome says: Prof. Cervello, of the University of Palermo, claims to have discovered a radical cure for tuberculosis. The remedy consists in the subcutaneous injection of a substance called "Formalina."

Out of a hundred patients Prof. Cervello is said to have cured sixty-five, and the others are improving. There has not been a death in the consumption hospital at Palermo. The professor is going to other hospitals in Italy.

DAMAGE SUITS.

Stahlman Making it Warm for Editors of Methodist Papers.

Nashville, Tenn., May 5.—Mr. E. B. Stahlman, the attorney who collected the celebrated Methodist war claim, has brought suit for \$50,000 damages for libel against Rev. W. B. Palmer, D. D., editor of the St. Louis Christian Advocate. Dr. Palmer has written several caustic editorials on Mr. Stahlman and on others connected with him in the collection of the claim. Mr. Stahlman has employed the best legal talent in the State and will make a vigorous fight. It is understood that other suits of a similar nature will be brought against editors and individuals who have indulged in like assaults on Mr. Stahlman.

MUST READ.

Educational Qualification to be Required of Alabama Voters.

Montgomery, Ala., May 6.—The House this morning laid upon the table, by a vote of 59 to 28, a motion to reconsider the vote by which the bill which seeks to repeal the constitutional convention act was passed yesterday. It will pass that body by an easy majority Monday. The house is now considering two important amendments to the constitution, both in the interests of the white citizen. One seeks to require that all voters must be able to read intelligibly any portion of the constitution of the State, but provided that the provision shall not extend to any citizen whose antecedents prior to 1861 enjoyed the privilege of suffrage. This provision is intended to preserve to the ignorant white voter his right to participate in elections.

County Court.

Thos. Williams and Geo. York were appointed road overseers in precincts Nos 78 and 62 respectively. J. P. Reed allowed \$25.75 for lumber for bridge. R. B. Gregory allowed \$17.80 for lumber bridge.

No sir, I have not, and will not quit the laundry business without notifying my customers. I shall always be prompt in calling for and delivering laundry. Save it for me, will appreciate it.—Ohio Pickens

DAY OF PRAYER.

Friday June 2, Set Apart as a Day of Fasting.

New York, May 4.—The National Afro-American Council of the United States has issued a proclamation calling upon the colored people of this country to set apart Friday, June 2, as a day of fasting and prayer, and has called upon all colored ministers to devote the sunrise hour of the following Sunday, June 4, to special exercises in order that "God the Father of Mercies, may take a favorable case in His own hands, and that, if vengeance is to be meted out, let God Himself repay."

The proclamation invites all the colored clergy of all denominations to co-operate and consists of a lengthy setting forth of present "indescribable barbarous treatment" of the negro in this country. Reference is made to the loyalty of the negro in foreign wars, and the recent lynchings of colored persons in the South are denounced in the most strenuous language.

ONE ARMED MEN.

Fall Out Over Politics and Punch Each Other.

Princeton, Ky., May 6.—As a result of a heated political street discussion this morning quite a lively bout was indulged in between Police Judge Peary and County Judge Pasteur, several blows being passed. The novelty of the encounter lies in the fact that each gentleman has only one arm.

FIDDLER'S CONTEST.

The Old Time Tunes and The Old Time Fiddlers.

The Commercial Association of Paducah has arranged for a Fiddler's Contest at the Paducah fair grounds Thursday night, May 25. Prizes will be given to the tallest fiddler, to the shortest fiddler, to the tallest fiddler, to the least fiddler, to the oldest fiddler, to the youngest fiddler, to the fiddler with the longest hair, to the fiddler with the longest hair, to the fiddler with the biggest feet, etc.

JOINT PRIMARY.

To Be Held By the Democrats and the Populist.

Princeton, Ky., May 4.—The Democratic and Populist County Committees met here and agreed to a jointly primary on Saturday May 20, to select a candidate for the Legislature.

The race is considered closed, with three entries. J. W. Hollingsworth, farmer; John Hewlett, farmer; and R. W. Lisabay, schoolteacher. Each of the gentlemen has a strong following.

LYON COUNTY.

Two News Items From Our Neighboring County.

Eddyville, Ky., May 5.—C. I. Canfield recovered judgement against the Evening Post in the Lyon Circuit Court today for \$1000 damages in a suit for libel, alleged to have been published on July 3, 1897. The Post published a statement charging him with snoring as clerk of the Eddyville penitentiary.

Kuttawa, Ky., May 15.—While attempting to milk a vicious cow, Mrs. Frank Dyeus, a well-known woman near here, was attacked by the animal and before being rescued by her husband was gored and trampled in a terrible manner. It is feared she is fatally injured.

Behind the Bars.

Kuttawa, Ky., May 5.—J. M. Millstead a prominent citizen of Livingston county, who was sentenced to one year and ten months in the penitentiary on the charge of swearing falsely in the Ross murder case, has been received at the Eddyville prison. Mr. Millstead is sixty-four years old, and has a family. An effort will be made by Mr. Millstead's friends to secure a pardon from the Governor.

Low Rate to Louisville.

On account of the Southern Baptist and Auxiliary Convention at Louisville, May 11 to 18, tickets will be on sale May 8th to 12th inclusive, limited to 15 days. The final limit is June 18, provided the ticket is deposited with the joint agent by May 18th and upon payment of 50 cents. H. S. Flispatrick, Agt.

BLUE AND GRAY.

Kentucky's Monument to Fallen Heroes at Chattanooga.

Chattanooga, May 3.—The beautiful monument erected by the State of Kentucky in Chattanooga Park was dedicated this afternoon with impressive ceremony. At noon Gov. Bradley and his staff and other prominent Kentuckians left the city for the Park and promptly at 2 o'clock the exercises began. The preliminary portion of the programme consisted of music—one of the numbers being "My Old Kentucky Home"—and an impressive invocation. Mr. Thomas H. Hayes, of the Kentucky Commission, in an eloquent address then formally tendered the monument to Gov. Bradley.

Following this address Miss Christine Bradley, the Governor's beautiful daughter, gracefully unveiled the shaft. Gov. Bradley next formally accepted the monument and transferred it to the government.

ANDREW CARNEGIE

Sells His Interest in the Big Steel Company For Millions.

New York, May 5.—The Times says: The entire interest of Andrew Carnegie in the Carnegie Steel Company has been purchased by the co-partners in the business, with H. C. Frick at their head.

The exact figures which represent the purchase price could not be learned. It is said, however, that the price is over \$150,000,000, and entirely satisfactory to Mr. Carnegie. It is understood that one of the stipulations of the sale is that the new company shall retain the name of the present concern.

Elections This Year.

Elections will be held in November of this year in the following states:

Kentucky—For Governor and other State officers.

Iowa—For Governor and other State officers.

Maryland—For Governor and both houses of the Legislature.

Massachusetts—For Governor State officers and both houses of the Legislature.

Mississippi—For Governor, State officers, Legislature and all county officers.

Nebraska—For Justice of the Supreme Court and two members of the Board of Regent.

New Jersey—Eight State Senators sixty members of the Assembly and county officers.

New York—Two Justices of the Supreme Court in First Judicial District, one Justice in Fifth District, three Justices in Eighth District and 150 members of Assembly.

Ohio—Governor and State officers.

Pennsylvania—State Treasurer, two Judges of the Supreme Court, and one Judge of the Superior Court.

Virginia—Secretary of the Commonwealth, Treasurer and minor State officers.

While these elections occur in only one quarter of the States, they are so scattered as to afford a fair test of public opinion in nearly every quarter of the Union.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs—she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from the first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at J. H. Orme's Drug Store. Only 50 cents and \$1.00, every bottle guaranteed.

CHAPEL HILL.

Plenty of tobacco plants. Miss Ann Hill is on the sick list. Mr. William Fowler, of Marion, was in our midst last week.

Like Hunt and wife, of Pleasant Hill, were visiting J. O. Long last Sunday.

J. C. Minner is still in the spar business; he is superintendent at Crayneville now.

B. F. Walker and wife, was visiting in Caldwell county last Saturday and Sunday.

We are told that the hessian fly is making its appearance in some of the wheat fields.

Hays Jacobs, of Crayneville was in our midst Sunday, mounted on his dapple gray.

Chapel Hill has a good prospect for crops in general; we have some fine clover and wheat fields and corn planted.

Indications are that tobacco plants will be plentiful and a good season will insure the usual crop of the weed.

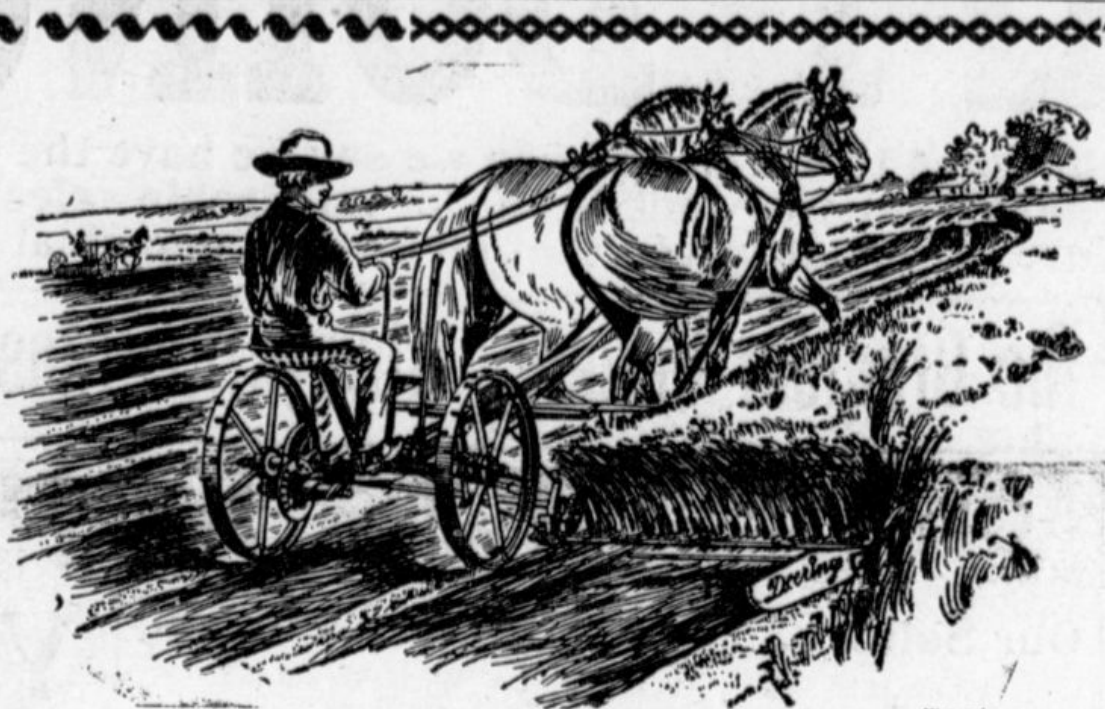

BOWL ALLEY.

Uncle Andy Hill is improving. E. R. Hill sold a lot of fine cattle last week.

Miss Nellie Phillips was the guest of friends in this neighborhood last week.

Uncle Noah Fox was 59 Sunday, but he is as spry as a fifteen year old boy and can do more work.

Sunday school at Cave Spring is on a boom, with O. M. Allen as superintendent and Miss Bettie Ray, no. 1 as secretary.

Equipped throughout with Roller and Ball Bearings.

The Ideal Mower with Roller and Ball Bearings, simple gear, adjustable drag bar, shear cut knives will start in the thickest grass without chocking. Can be drawn at a slow walk.

It is Absolutely the Most Perfect Mower Manufactured.

I have samples of these machines on exhibition at Repton and every farmer should come and see them, whether he wishes to buy or not. I keep a full line of repairs on hand, and twine and Deering Hay Rakes. I have sold a car load of machines in the Repton vicinity this season and would be pleased to place them wherever needed in the county.

ROBERT I. NUNN
REPTON, KENTUCKY.

STONEWALL.

A new girl at Sam Asher's. Blackberries are coming around all right.

R. H. Hill has moved into his new residence.

Dr. Todd, of Foodonia was in this burg Tuesday.

D. Frank Crider is hauling his tobacco to Marion.

Rev. D. E. Bentley, has been sick for several days.

Produce wagons pass through this section frequently.

James James will "take" and plant a large crop of corn this year.

The sewing machine agent has just about run in all the other agents.

Corn is scarce in this community, and is selling at 40 cents per bushel.

George Jacobs and Grant Travis will haul their tobacco to Providence.

Married—Otto Woodall to Miss Maggie Wade. Here is luck to you Otto.

W. H. Guess fell from a wagon load of hay a few days ago and was seriously hurt.

George W. Cruce, Frank Hamby and Silas Rushing have erected new barns recently.

Ed Paris has fifty acres of fine pasture, and wants all the stock to pasture he can get.

Mrs. Etie Williamson has returned home after a lengthy visit to her brother, Alex. Guess.

Visitors are beginning to come to the noted medical spring near Piney Creek church.

The work of painting the school house at this place is advertised for the lowest bidder.

A little boy of Ed Paris' came near getting killed by a horse running away with him.

Messrs. Davis, Stembridge and McChesney, of Blackburn vicinity, was visiting Rev. Bentley and Sunday.

Head Wilborn, of Marion, was in this part last week buying tobacco. I venture to say he will be a candidate in the near future.

SALEM.

Mr. H. D. McChesney visited friends at Marion Saturday and Sunday.

Mrs. J. A. Faris was at Corydon last week visiting friends.

Salem was pelted by lively hail-storm and heavy rain last Sunday morning.

Lucian Gray and wife and Messrs. Blanche and Nellie Gray went to Marion shopping Monday.

NOTICE.

To the tax-payers of Crittenden County, who just pay a poll tax for 1898. I am going to make my delinquent list in a short time. If not paid you will find your name on the list to be published by the Fiscal Court. And to those who list property and have not paid their taxes, it is but a matter of time when you will be levied upon for your 1898 taxes. I need the money to make my settlement with the county and must collect my taxes.

ISSUED WEEKLY.

R. C. WALKER, Publisher.

ONE YEAR ONE DOLLAR

FOR REPRESENTATIVE.

We are authorized to announce
T. J. NICKEL
a candidate to represent Crittenden
and Livingston counties in the next
General Assembly of Kentucky. His
candidacy is subject to the action of
the Democratic party. Election Nov-
ember 1899.

Now let us have a commission
to report upon reports of the commis-
sions.

"Uncle Jeff" platform has been
approved by quite a number of our
exchanges.

The Chinese Government is remon-
strating against the application of our
Chinese exclusion act to Cuba.

Everybody says the road discussion
through the Press and in the public
meetings have helped the good cause
along.

Rear Admiral Watson has been
ordered to Manila to succeed Admiral
Dewey, when the latter gets ready to
come home.

The negro race has the misfortune
of having to bear, to a great extent,
the name given it by the most de-
graded element in the race.

Probably Sam Jones' work in Louis-
ville will have that city in a condi-
tion by June suitable for the great
and good work of a political conven-
tion.

We hear of other Livingston county
candidates for the legislature.
Gentlemen, the way to the public's
eye and ear is through the columns
of the Press.

The insurance companies are still
running up against the grand jury
in Kentucky. The Marion county
grand jury has indicted forty-four
companies for combining to maintain
rates.

One of the probabilities is a conven-
tion of Southern Governors and At-
torney Generals to discuss plans for
concerted action in the matter of
anti-trust legislation. Gov. Jones of
Arkansas seems disposed to take the
initiative in the movement.

When he returns home Admiral
Dewey is to be given a banquet by
one hundred citizens of New York
at a cost of \$100 a plate. Our hero
should be given a royal welcome, but
we fear that if he undertakes to con-
quer \$100 worth of dainties at one
time he may find a more persistent
foe than a Spanish Admiral.

The United States and Great Britain
will stand together in the advo-
cacy of the adoption of a scheme for
the settlement of international dis-
putes by arbitration, which will be
presented to the disarmament con-
ference at its meeting in The Hague.

The shape of the canvass for the
Republican nomination for Governor
is growing interesting. It is stated
that Collector E. T. Franks is not
giving Judge Pratt anything like a
cyclonic support, but on the other
hand is warming up toward Attorney
General Taylor. Franks usually does
not do lukewarm work, he is either
for or against a man without any hesi-
tancy or mental reservation.

The war is not so much against the
colored race as it is against the race
as a whole. If they were let out
there would be no strained relations
other than those deftly made by the
hand that created both races.

The Governor of Colorado announces
that if the President don't let the
Colorado soldiers in the Philippines
come home at once, he will go after
them, or words to that effect.

The candidates for Governor are
swinging around the circle at a lively
gate, and at each turn of the kaleid-
oscope Capt. Stone's chances look bet-
ter.

In his speech at Owensboro, Mr.
Hardin stated that John Rhea wrote
the State platform of 1895. This
statement, as might have been ex-
pected, aroused the "little giant of
the Third," and he announced that
he would reply to that statement in a
speech at Owensboro later on. Gen.
Hardin denies that he made the state-
ment, while the stenographer who re-
ported the speech maintains that he
did. Thus we have it. There is
nothing we know of calculated to
arouse John so quickly as to charge
him with the paternity of that plat-
form, and there is no man in the
country more capable of saying things
when aroused, than John Rhea.

Young Folks.

Last week a new boy arrived at
Joe Tucker's, a new girl at Coleman
Byrds and a boy at Bud Small's.

"Better Be Wise Than Rich."

Wise people are also rich
when they know a perfect
remedy for all annoying dis-
eases of the blood, kidneys,
liver and bowels. It is
Hood's Sarsaparilla, which
is perfect in its action. It
so regulates the entire sys-
tem as to bring vigorous
health. It never disappoints.

Coltrane—"For 42 years I had colic, or
swellings on my neck, which was dis-
couraging and troublesome. Rheumatism
also annoyed me. Hood's Sarsaparilla
cured me completely and the swelling has
entirely disappeared. A lady in Michigan
saw my previous testimonial and used
Hood's and was entirely cured of the same
trouble. She thanked me for recommending
it." Mrs. ANNA SUTHERLAND, 406 Lovel
Street, Kalamazoo, Mich.

Poor Health—"I had poor health for
years, pains in shoulders, back and hips,
with constant headache, nervousness and
no appetite. Used Hood's Sarsaparilla,
gained strength and can work hard all day;
eat heartily and sleep well. I took it be-
cause it helped my husband." Mrs.
ELIZABETH J. GIFFELA, Moose Lake, Minn.

Makes Weak Strong—"It would give
me a bottle for Hood's Sarsaparilla if I
could not get it for less. It is the best
spring medicine. It makes the weak strong."
ALBERT A. JAGROW, Douglastown, N. Y.

Hood's Sarsaparilla
Never Disappoints

There are some folks who condemn
the school book bill before the last
legislature because some minor fea-
tures did not strike them as being
altogether the proper thing. If we
wait to get the "pink of perfection"
in a bill of this character before moving
against the school book trust, the
first step will never be taken. A
great many good laws have arrived at
a state approximating perfection by
amendments. And this is the way
to reach a good school book law. If
the original bill does not prove to be
exactly the law sought for, and does
not meet all of the ends desired, ex-
perience will teach us the amend-
ments necessary and they will follow
until the law becomes the palladium
between the people's pockets and the
trusts' fingers. If we wait until we
are convinced beyond every shadow
of a doubt that a proposed law, aimed
at an existing evil, will wipe out
the evil without a jar or jostle, Ga-
briel will sound his trumpet calling
the sleeping millions to judgment be-
fore there is any further legislation
along new lines. We have profited
by the experience of those who play-
ed upon the State of life earlier in
our history; if their show had consist-
ed of the tableaux alone, instead of
down right tragedies and comedies,
with here and there a farce, their
experience would have been a poor
heritage to the generations that suc-
ceeded. It is those who dare and do
that add value to history, and leave
something of value to those who fol-
low.

George Dinning, was given a judg-
ment for \$50,000 damages by a jury
in the United States District Court
Saturday against six citizens of Simp-
son county, whom he sued as mem-
bers of a mob which attacked him at
his home in Simpson county in Janu-
ary, 1897. The defendants are men
of moderate means and have little
property not exempt from execution.

A child of Mrs Fannie Krons ac-
cidentally stuck a nail in both feet
and is unable to walk.

Hidden Beauty

In Egypt the custom is for Princesses
to hide their beauty by covering
the lower part of the face with a veil.
In America the beauty of many of
our women is hidden because of the
weakness and sickness peculiar
to the sex. If the Egyptian custom
prevailed in this country, many
sufferers would be glad to
cover their premature wrinkles,
their sunken cheeks, their unhealthy
complexion, from the eyes of the
world with the veil of the Orient.

Bradfield's
Female Regulator

brings out a woman's true beauty.
It makes her strong and well in those
organs upon which her whole general
health depends. It corrects all men-
strual disorders. It stops the drains
of Leucorrhoea. It restores the womb
to its proper place. It removes the
causes of headache, backache and
nervousness. It takes the poor, de-
bilitated, weak, haggard, fading
woman and puts her on her feet
again, making her face beautiful by
making her body well.

Druggists sell it for \$1 a bottle.

Mr. Dave Woods is in Louisville this week on business.

Mrs. Emma Lee, who has been visiting friends in Marion returned to her home in Fulton yesterday.

Will Wallace, of Shady Grove section, was setting out tobacco Monday—probably the first set in the county.

Dr. and Mrs. J. H. Hillyard left yesterday for Colorado for the benefit of Mrs. Hillyard's health.—Henderson's Gleaner.

There has been a pretty lively war in town between the local produce buyers. The farmers and chicken raisers not hurt.

Attorney Clark and Kinnin were at Blackfoot Tuesday adjusting in a case in court. It was the first case for each of the young attorneys.

Miss Lul Martin, who taught music in the school at this place last year, left for her home at Clarksville this week. Our people were highly pleased with her as a teacher, and hope that she will return next year.

The District Sunday school convention that was to be held at Sugar Grove, May 20, has been postponed until about the middle of June.

W. A. Jacobs, Dist. Priest.

The gasoline stove in Copher's restaurant exploded yesterday morning. There was plenty of danger, some noise but no damage. It had sprung a leak and when the cook went to light it, it and the cook both went off.

Rev. W. H. Miley started to-day, Sunday afternoon to fill his appointment. Upon reaching Crooked Creek he found it almost a river, on account of the rain Saturday night, and as there was no ferry boat at his disposal, and the creek rather wide for him to swim, he returned home.

New Dentist

Dr. Kinsella, the dentist, who has been located here sometime left Monday night for his home in Louisville, and will not return. He has sold his office to Dr. R. G. Morris, of Uniontown, who will locate in Marion for the practice of dentistry. He is a graduate of one of the best dental colleges in the country, and comes recommended as a dentist and as a thoroughly reliable man in every respect. His office is over the bank where he will be glad to have those needing dental work of any character to call.

Banquet

Monday night the A. O. U. W's had their banquet. The spread was prepared by the skilled hand of A. M. Hearin and when the fifty Workmen gathered around the festal board they at once appreciated the lines,

—There is no want of meat, sir; Plenty and curious viands are prepared To please all kinds of appetites.

For an hour ample justice was done the collation, and there was "the feast of reason and the flow of the soul," that makes such occasions doubly pleasant. The occasion of the banquet was twenty-two applicants for membership—a phenomenal growth. Deputy Grand Master Workman Bernard, of Louisville, is visiting the lodge and the work of initiation will not be completed until Saturday night.

The Busy Farmer

There were a great many farmers in town Monday; they have been pushing their business for the past two weeks and have got their work pretty well in hand. Most of the corn is planted; tobacco plants are plentiful and by the middle of next week will be ready for the hill. Some crops of wheat are looking fairly well, while other fields are spotted. The acreage to be harvested will be below the average; there is some complaint of the Hessian fly. The rains Saturday and Sunday were heavy throughout the county, and the plowed ground in many places was badly washed. Of the scores of farmers we talked to practically all are interested in the road problem, and are anxious for an improvement along this line.

LIGHTNING FREAKS

Barn and Stock Burned—Stock killed.

Sunday night the big stock barn of Mr. Harmon Heath, of the Hebron neighborhood, was fired by lightning, and destroyed with its contents. Two fine work mules perished in the fire, besides a calf, a lot of hay, a wagon and farming implements of various kinds. When discovered the fire had such headway that it was impossible to stop it. During the fire there was a pretty steady down-pour of rain regarding the flames sufficiently to enable Mr. Heath and his neighbors to get other stock out of the burning building. Mr. Heath estimates his loss at \$800.

On Saturday night lightning killed two horses, and badly crippled another, belonging to Mr. S. R. Gass, who lives east of town. The horses were in a pasture.

ANOTHER BLAZE.

The Residence of Albert Wilborn Destroyed By Fire Wednesday Morning

Yesterday morning about 4 o'clock the fire alarm aroused the people of Marion from their morning nap, and the residence of Albert Wilborn, on Walker street, opposite Woods & Blue's tobacco stemmery, was found to be burning. The fire had gained such headway that it was useless to attempt to save the building. A few pieces of household goods and a trunk or two were carried out before the entire building was wrapped in flames. Smoke awoke the family, and when the door between the sleeping apartments and dining room was opened the kitchen and dining room were in flames. The origin of the fire is not known, but it is probable that it caught from the kitchen flue. Mr. Wilborn was not at home.

There was \$1000 insurance on the house and contents—\$500 on each.

Woman Candidate.

Miss Mary T. Sasseen, of Henderson, is a candidate for the Democratic nomination for Superintendent of Public Instruction, and is making an active canvass. She was in Marion this week in the interest of her candidacy and was meeting more people than the average State candidate usually sees when he comes around. Miss Sasseen is no doubt thoroughly competent for the work of the office, and she has some well defined ideas touching the work among other things she thinks the State Superintendent should visit every county for the purpose of arousing interest and assisting in perfecting the work of the public schools.

The idea of "Mothers' Day" in the schools was originated by Miss Sasseen and it has proven to be very popular in many states, and is fast becoming a feature in the public school through out the country.

Springs Not to Open

According to the latest news, the hotel at Crittenden Springs will not be open this season. The owner, Mr. R. W. Wilson, has not been able to make arrangements to suit him for running this famous hostelry and prefers to let it remain closed. We understand that parties have made him rental propositions that were satisfactory so far as the dollars are concerned, but the "open door" policy proposed did not meet his approval.

Electric Railway.

Talk about an electric railroad from Marion to the Springs and the spar mines is again revived, with the coming of spring. While the enterprise has only reached the talk stage, it is to be hoped that something more substantial than gossip will grow out of it. It is said that the I. C. railroad has been making some inquiries about the road. The Kentucky Fluor Spar Co., is also interested, as this company has untold quantities of spar which is destined for the market, the facilities for the transportation of which to the railroad are not as good as desired. Then there is Crittenden Springs, which would practically be made by this road. These three interests combined could readily construct the road, and the advantages to each would be great.

Four Graduates

Mr. R. M. Allen mangled the plan of holding commencement exercises in the country schools, Thursday evening May 4th, the school at Flatwoods closed with exercises of this kind. There were four graduates in the common school branches, and they were required to prepare and deliver an oration. The handsome little school house was decorated for the occasion, and was filled with patrons and friends. The program was as follows:

Expansion—J. Lient Sullivan.

Our Flag—Clara Nunn.

Liquid Air—Elmer Gahagan.

Climax or Catastrophe—Gertrude Nunn.

The teacher deserves much credit for his earnest successful work.

The pupils acquitted themselves with honor.

To School Trustees.

I sent each district blanks for taking census early in April. If you failed to get them please to let me know and I will send again. Knowing that it is very difficult to avoid oversights in making these lists. I will hold my report until May 25, and if you discover any mistake in your report before that date, please to let me know and it can be corrected. As the blanks did not reach us as early as they should I will extend the time for census report to May 25, but if you can send in your reports earlier it will be more convenient to me.

Miss Wheeler.

Summer School for Teachers

My summer school for teachers and others desiring a thorough review of the common school branches will begin May 29, 1899, and continue six weeks.

STRAY NOTICE.

Taken up as a stray by D. J. McDowell, living near Shady Grove, in Crittenden, on April 28, 1899, one bay mare, age about five or six years, one hind foot white, four on hands high, no other brands or marks, and which I have appraised at thirty dollars. Witness my hand this May 6, W. E. Todd, J. P. C. C.

AN ORDINANCE.

Whereas there is some doubt as to the legality of the election of A. M. Gilbert as police judge of the city of Marion, it is therefore ordained by the city council of the city of Marion that said A. M. Gilbert be and he is hereby appointed police judge of the city of Marion, Ky., to serve until the next regular election to be held in November, 1899, and an election is hereby called to be held on the Tuesday after the first Monday in November, 1899, to elect a police judge for the city of Marion, Ky., to fill out the unexpired term of said police judge.

Passed and approved May 9, 1899.

J. B. Blue, Mayor.

Attest: J. B. Hubbard, Clerk.

NOTICE.

13 pieces 3x12 inches, 9 feet long. 18 pieces 2x12 inches 24 feet long. Good clear white oak, to be delivered at Marion.

Sealed bids will be received until Saturday, May 13, for the construction of two abutments on branch on Salem road, just beyond corporate limits of Marion. Abutments to be 24 feet long, 34 feet high, 2 feet at base, tapering to one foot at top; base to begin one foot below bed of branch. Good solid masonry, without cement—rock to be imbedded in each other; no rock to be used that will not square up one foot two ways. Work to be done in good workmanlike manner.

J. G. Rochester, J. B. Kevil, Commissioners.

Musical Entertainment.

A large crowd attended the entertainment given by Miss Martin's music class at the Opera House, Thursday night, and was very much pleased with the programme. The little children rendered their portion of the program splendidly and were greeted with unbounded applause. The "Cradle Songs of Many Nations" was presented by some thirty children in costumes representing various nations, and with their dolls and songs, made the welkin ring.

The rainbow operetta was presented by seven young ladies as follows: light, Miss Fannie Gray; red, Miss Browning; yellow, Miss Melville; green, Miss Kattie Gray; blue, Miss Agnes Watkins; orange, Miss Mary Maxwell; indigo, Miss Sallie Woods; violet, Miss Lillie Dea. Each lady's costume was of the color she represented, and each in turn appeared before the queen, "Light," and sang of the beauty, utility and glory of her color. It was handsome ly done.

A Good Overseer

We had occasion a few days since to pass over the Ford's Ferry road, and found a section of it had been worked well, and the work intelligently directed. Meeting with Mr. R. H. Butler we asked him to name the overseer; with becoming modesty he replied:

"R. H. Butler has charge of it now."

Your road is in better condition than I ever saw it before; how did you manage to do all this good work, was another question to which he replied as follows:

"We put in two days work on the road. There is about two miles of it, and my sixteen hands wanted to work, and I never saw men work more earnestly and more cheerfully than did these, and you must give them credit for what has been done and not the overseer. We have got matters in shape now, and we are going to show you a good road sure enough by fall."

Mr. Butler and his road-hands deserve credit for the interest taken in road making, because they have proven their interest by good work.

WEST END NOTES.

The sounds of spring are in the air. The bird is on the wing. And from your distant stable yard I hear the donkey sing.

The urgent housewife plies her brush. The patient husband groans; The streets are full of soapy smells And irreligious tones.

The West End has several street lamp posts, but they do not shine like stars, only when you run against one and then you can see many stars.

Last week I saw the gentleman that has the contract to light the street lamps looking up some old newspapers for the purpose of cleaning the globes. We think some boiling hot soap suds frequently applied would have the desired effect on those dirty old globes.

CUBAN HOUSEKEEPER

Would Give the American House-
wife the Horrors.

Her Knowledge of Cooking is Lim-
ited and She is Not at All
Particular as to
Cleanliness.

The Cuban woman is not adaptable. She may not be to blame for it, but the fault—as we must call it—is there all the same. She is not going to try to adapt herself to our ways, because she thinks her ways are the best, and the only reason she thinks so is because they are sanctioned by antiquity. In fact, she is rather an unpromising subject to convert.

The way an average Cuban family lives would give an American housewife the horrors. Improvident, of course, and with such little knowledge of cookery that it amounts to no more than a farce. The frying-pan and the coffee pot are the only two indispensable articles in a Cuban kitchen. A roast is an unknown quantity; a stew is occasionally ventured upon, and the soup is rare and diaphanous. But the coffee pot is always in evidence, and the frying pan sizes at every meal.

I have often been amused at seeing Cuban women frying meat, and they who abhor beef fat drop it into a pan containing about half a pound of hog fat and sizzles it to the consistency of a piece of wet sole leather. Of vegetables their range is confined to yams, okra, rice, bananas, and one or two others. I very much fear that our northern markets would not please the Cuban woman.

In other matters relating to house-keeping I very much regret to say that the Cuban woman is not in line with our ideas. The broom is occasionally in evidence, but there all attempts to "tidy up" stop. Soap and the scrubbing brush appear to be unknown quantities. Year in and year out the floors remain as they were, the window panes get but an occasional wipe with a bit of paper, and the yard, if there happens to be one, is a sight to behold. Those who have read about the streets of Santiago must not think the reports exaggerated. A street where Cubans live must be cleaned by the city at all; the residents would make a move to clean before they would make a move to clean. When the dirt gets too mountainous they move. These household habits extend to the person. A bath is unknown to a Cuban woman of the ordinary sort, and a daily face wash is almost as rare. Perfumery and face powders are used as substitutes, and American women will hardly expect them in that light.

Now what is to be done with a woman who is a heathen in cookery, is not clean or tidy in the house or with her person, and is the least likely to mend her ways? To the American mind no amount of coquettish ways, no soft voice or gliding walk can compensate for these shortcomings. Such a woman needs educating. Perhaps we had better begin now organizing societies for teaching Cuban women American ways. We cannot ignore this new addition to our sisterhood, so we can but hope that our example will inspire the Cuban woman to liberate herself from the thrall of old customs and try to keep step with our higher system of civilization.—Ellie Wybrand Smith, in Chicago Times-Herald.

One Man's Luck.
Fortune came to some men almost against their will. Herbert Molynex tried hard, but could not dispose of his share in the Rivas diamond mine for \$100. He now asks \$225,000. The De Beers company is negotiating for the mine's purchase, and the price they are prepared to pay, should the test prove satisfactory, is variously estimated at from \$1,000,000 to \$2,000,000.—Johnsborough Standard.

Bismark's Iron Nerve
Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c. at J. H. Orme's drug store.

Will buy iron for 30 days only. After that time it is useless to bring it to me. Schwab.

THE FAMOUS KRUPPS

Providing for War Has Given Them
Power in Peace.

Present Head of the House Has Under His Orders a Multitude of Workmen—Family and Business History.

Many people know of the Krupp guns that have played so important a part in modern warfare, but only comparatively few know of the now distinguished family, from which these deadly weapons derive their name. The Krupps are a family of distinction so long monopolized by the Rothschilds. It is that of being wealthier than any sovereign house in Europe and exercising a power in peace no less than that they supply in war. The town of Essen, which they built and virtually own, is equal to a small principality. This realm of steel and iron is governed by a monarch without crown or scepter, and yet when Prince Napoleon visited it he exclaimed: "Why, this is a state within a state," and then hastened to disclaim any intended offense toward any government that might take umbrage at such a statement.

As a matter of fact, the present head of the house has under his orders more subjects than has the prince of Schaumburg-Lippe, who married Princess Essen, which they built and virtually own, is equal to a small principality. This realm of steel and iron is governed by a monarch without crown or scepter, and yet when Prince Napoleon visited it he exclaimed: "Why, this is a state within a state," and then hastened to disclaim any intended offense toward any government that might take umbrage at such a statement.

In addition to the quarter of a hundred balloons, large and small, Capt. Yancey has with him at Omaha two coils of wire, each 2,500 feet long. The wire is five-eighths of an inch in diameter and consists of 16 strands of nickel steel and twelve strands of copper. It is used for the double purpose of holding the balloon and of establishing telegraphic or telephonic communication with the ground. The wire is wound on a reel, connected with brass bushes and so arranged that the communication is not interrupted as the balloon ascends or descends. The daily ascensions are made to about the limit of one of these coils of wire, and from a height of from 2,000 to 2,500 feet an excellent view of the exposition grounds, the city of Omaha and Council Bluffs and the surrounding country is obtained.

A building 40 feet square on the ground and 50 feet high has been erected on the Exposition grounds. The balloon over night. It costs in the neighborhood of \$80 to inflate, and it is cheaper therefore to retain the gas from day to day than to generate fresh gas for every ascension. In order that the gas may not be lost, the balloon is fastened to the ground by a cable to escape it is necessary to protect the varnished silk of which it is made is very quickly ruined when a little rain gets to it.

U. S. WAR BALLOONS.

An Interesting Feature of the Omaha Exposition.

Daily Ascensions Are Made to Illustrate Their Utility in the Departments of War and Science.

Among the many interesting features of the United States government's exhibit at Omaha, none is attracting greater attention than the war balloons. Besides the monster captive balloon which was used by the American forces at Santiago, there are four other large balloons, each with a capacity of 21,000 cubic feet, sufficient to carry three or four persons, and a score of small signal balloons. In charge of the balloons and the half dozen carloads of apparatus accompanying them are Capt. A. Warren Yancey and a detachment of 23 members of the United States volunteer signal corps, of whom about one-half were engaged in the operations before Santiago.

The big balloon used at Santiago is an object of intense popular interest. One or other of the big balloons makes several ascensions daily from the exposition grounds.

These balloons, as stated above, have a capacity of 21,000 cubic feet of gas. This is sufficient to raise about 1,800 pounds. The balloon itself, with the car and ropes and cable, weighs in the neighborhood of 1,200 pounds. Each balloon can carry four persons of average weight.

The balloons are equipped with complete telegraphic and telephonic apparatus, communication with the ground being obtained by means of insulated wire paid out by the balloon ascends. Capt. Yancey has with him at Omaha two coils of wire, each 2,500 feet long. The wire is five-eighths of an inch in diameter and consists of 16 strands of nickel steel and twelve strands of copper. Just a Cough

Not worth paying attention to, you say. Perhaps you have had it for weeks. It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a family failing. At first it is a slight cough. At last it is a hemorrhage. At first it is easy to cure. At last, extremely difficult.

Ayer's Cherry Pectoral

quickly conquers your little hacking cough. There is no doubt about the cure now. Doubt comes from neglect. For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. It cures Consumption also if taken in time.

Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough. Shall we send you a book on this subject, free? Our Medical Department. If you have any complaint whatsoever, and desire the best medical advice you can possibly obtain, write to the undersigned, and you will receive a prompt reply, without cost.

Late Notes on Santiago.
According to Capt. Concas, the only guns in Morro castle are five brass muzzle-loaders. They were placed there in 1724. They were rifled in 1853, but have never been used except for saluting purposes. He remarked with a smile that if Admiral Sampson had known the character of the armament at Santiago he would have changed his tactics. The best guns in the fortifications, and in fact the only ones that amounted to anything, were taken from the cruiser Reina Mercedes. Capt. Concas also says that 1,500 fresh gas for every ascension. In order that the gas may not be lost, the balloon is fastened to the ground by a cable to escape it is necessary to protect the varnished silk of which it is made is very quickly ruined when a little rain gets to it.

The "White"

RIDDEN by the professional racer, it has proven a winner oftener than any in competition. Ridden by the non-professional, by the "scorcher," for business or pleasure, it has a record second to none. Material used in its construction, pains-taking care in manufacturing details, ease in running, and handsome, symmetrical design are a few of its claims for superiority. Reasonable prices, coupled with high values, are characteristics of the "WHITE." Our long established reputation guarantees the excellence of our product.
