Rhea were invited to be present and make speeches.

## REV. E. B. BLACKBURN

Nominated for Representative by the Republicans of Crittenden and Livingston.

## DELEGATES STOOD 14 TO 7.

The Republicans of Crittenden and Livingston counties held a delegate convention at this place Thursday and nominated Rev. E. B. Blackburn for the Legislature. The convention was composed of fifteen delegates from Crittenden and six from Livingston. Mr. A. C. Moore, of Marion, was chosen chairman of the convention, and Wm. Bishop, of Livingston, Secretary.

Committees on credentials and resolutions were appointed as follows: Resolutions—Messrs. J. W. Bebout, Paris, and J. J. Crittenden.

On Credentials—Harmon Sedberry, Jno. Paris and Wm. Bishop.

The committee on credentials reported no contests; the committee on resolutions filed a report, endorsing the State and National administration in every particular, and evidencing the Democratic party in every particular. The resolutions were unanimously adopted.

Nominations were then declared in order, and Wm. Bishop, of Livingston, presented the name of C. M. King, of Livingston county. He spoke in the most eulogistic terms of his candidate, referring to his sterling qualities as a man, a citizen and his faithfulness as a Republican.

H. L. Sedberry, of Smithland, in a brief speech seconded the nomination. Mr. Carl Henderson in brief chosen terms presented the name of Rev. E. B. Blackburn, speaking in complimentary phrases of his good qualities as a citizen and a true blue Republican.

The roll of counties was then ordered called, 14 of her 15 votes were cast for Blackburn. This gave him the nomination with votes to spare. Mr. Bishop withdrew the name of King and moved that the nomination of Blackburn be made unanimous. This was done, and the convention adjourned.

One delegate from Crittenden, Wm. Hicklin, was for King; his vote with Livingston's six gave King seven—just half the strength of the Crittenden man.

Rev. Blackburn was the Republican nominee four years ago, and the landslide of that year defeated T. J. Nickels the present Democratic nominee. So far as the candidates and issues are concerned we have the same race over.

## N. Y. CAPITALISTS

Are Interested in Crittenden County Mineral Lands.

## MAY MAKE INVESTMENTS.

Messrs. C. H. Jackson and J. T. Hamby representing New York capital, were in this county last week, as stated by the Press, making an investigation of some of the mineral deposits, and examining, in a general way, our mineral prospects. While their stay was short, the outlook here interested them. They were evidently not here to tell what they knew, or give opinions as to the value or probable value of the mineral prospects of this section. They came to get, rather than give information, and while we know nothing definite concerning their plans or intentions, we learn that they were favorably impressed with the country from a mineral standpoint, and regard this section as a remarkable formation for Kentucky, indeed, for any country, and it is believed that they will make a more thorough examination with a view of making extensive investments.

With vast quantities of coal, with lead and zinc, with two kinds of spar in unlimited quantities and of the finest quality, with iron ore, beds of unburnt ochre, and, according to reliable assays, with just enough silver and gold here and there to make it doubly attractive, it is not strange that old Crittenden and portions of Livingston furnish an interesting field for the geologist, and give great promise to capital that is willing to invest something when the chances for finding something are good.

The reports that have gone out, backed up with samples of ore, have attracted widespread attention, and the geologist as well as the capitalist has his attention turned this way, and the probabilities are that a great deal of money will be spent in the county within the next two years developing the minerals, and if these investigations uncover the mineral wealth that the prospects now indicate, this section will become an important factor in the commercial world.

## A FEW FINES

Will Hughes and Jackson Have to Pay the State.

The county court was engaged three days last week in disposing of some of the cases against Wm. Hughes and Elsie Jackson, the two young men charged with selling liquor without license, on a shanty boat on the north side of Hurricane island. The cases were hotly contested; Mr. A. C. Moore was employed to assist in the prosecution, while James & James and Moore & Moore were employed by the defense. The jury fined Hughes \$75 in one case, \$50 in another and \$20 in another, acquitted in one and two were dismissed. Jackson was fined \$50 in one case and the other eight were continued until today. It is very probable that by the time the court gets through with the boys they will not think well of shanty boats.

## Fraudulent Weights

Word comes from Dixon, Webster county, that the grand jury empaneled there at the late term of the circuit court, returned indictments charging J. B. Ramsey and Thos. L. Starling with grand larceny. The prosecuting witness is Dr. W. H. Hardin, of Onton. Substance of the charge is, that Ramsey, as book keeper, and Starling as weigher at Hodge's tobacco warehouse, rendered the farmer short weight and drew on the difference when funds were sent to pay for the tobacco. For the sake of the family of young Starling, which is among the oldest and most respected, in Henderson, it is sincerely hoped that the young man will be acquitted of any connection with this unsavory matter. The defendant gave bond to the December term of the Webster circuit court. Ramsey is said to be worth at least \$50,000.—Henderson Journal.

## SCHOOL OPENS

And There is Every Prospect for a Most Successful Term.

Marion Graded Public School opened Monday under the most favorable auspices. The big chapel was crowded with children and quite a number of patrons were present to witness the beginning of the fifth year of this, the most important institution in Marion except the church.

Prof. Evans made an earnest, sensible, timely talk to pupils and patrons, and his remarks showed that his heart is still in the great work, and it is with renewed zeal and energy, higher hopes and greater aspirations he begins this, his fifth term as principal of one of the best, if not the best graded public school in Southern Kentucky. Indeed, many who are acquainted with the schools of the State and who know something of our school, its work and methods, say there is no better school of this kind in Kentucky and but few that are as good. Prof. Evans has been at the head of the school since its organization five years ago, and it has been mainly through his genius and energy as a teacher and organizer that it has achieved such a high standing in educational circles and is so popular with the public not only in Marion, but throughout the county and in adjoining counties. It is all that could be wished for, and the people of Marion have showed their appreciation of it in the past, and will continue to stand by it.

Not a child in the district is without an opportunity to secure a good education without any outlay of money for tuition, and the tax the public pays is light when compared with the advantages the school affords, and its value to the community.

Mr. Albert Crider, a graduate of the high school, was present at the opening, and made a splendid talk. He has been in college a year, and the testimony he bears to the value of his training in Marion Graded School and to the inspiration he drew from the institution was such that teachers and trustees rightly feel proud of the same. The corps of teachers will have charge this year, except Miss Koon. Owing to the want of room, the music school will not be taught in the school building this year, but this department will in no wise be neglected. With everybody in good humor with the school, and with capable, earnest teachers in every department, there will be as good work this year as usual.

Texas Democrats are arranging for the biggest political demonstration ever seen in the South at Dallas October 2 and 3. W. J. Bryan and other prominent men have accepted invitations to speak, and among those invited to attend are Senator William Goebel, ex-Senator J. C. S. Blackburn and Congressman John S. Rhea, of Kentucky. One hundred thousand people are expected to attend each day's meeting.

## GOEBEL'S ENEMIES.

They Continue their Personal Fusillade Until the Senator Takes a Few Shots Himself.

At Bowling Green Monday Senator Goebel passed up a few personalities to Messrs. Hallam, Myers, Breckinridge, Owens and others who have been flinging mud in the campaign. The crowd was a big one and the applause enthusiastic.

Senator Goebel said:

ONE FOR THEODORE.

My fellow citizens before I go into the body of what I have to say, I want to say something about certain statements that were made in this community some weeks since. I never assaulted a man in my life unless he first assaulted me. But I ask no quarter; I fear no foe. There have been distributed broadcast through Kentucky copies of the Louisville Dispatch and the Louisville Post, and it they have left unsaid anything that was mendacious and malignant I should like to know what it is. Some time ago you had in this city Theodore Hallam, of Covington, and he said a good many things about me, also mentioning some of the members of my family. I repeat that I never first assaulted any man, but no man ever crowded me that he didn't get the best I could give him. I have lived for thirty years in the same town with Hallam, where all know about us both. That community has honored me by sending me to the State Senate for a period longer than was ever enjoyed by any other man. When Hallam ran against me, his friends at the time controlling the party organization I beat Hallam with the votes of Democrats in every one of the fifty-two precincts of the county, and also in his home precinct. In one vote stood 52 to 0. He got 620 and I over 4,300. In other words I beat him 7 to 1, and no doubt if the election were held today it would be 16 to 1. If the ratio in Kenton county this fall, as between the Democrats and Republicans, is not in similar ratio, it will not be my fault. Hallam said I had not changed a particle in appearance in twenty years. But I can't say as much for him. If I had been a drunkard and a debauchee, I, too, would have changed and would carry with me a face similar to a cancerous beefsteak. (Loud Applause.) He may talk about my brothers, but I never had one in the penitentiary (applause), and that is more than he can say for himself.

## ALLO HARVEY.

I will tell you what is the matter with Hallam. He and Harvey Myers, while in the Legislature, were partners in drawing a monthly stipend from the lotteries. I passed the bill that took from them that stipend. Myers, while Speaker of the Kentucky House of Representatives, wrote a letter to manager Frantz, of the Covington lottery offices demanding \$200 as a monthly stipend, and I have the original copy of that letter at home. A fac simile of it was once published in a Cincinnati newspaper, and that is one reason why Myers was not sent back to the Legislature, and one reason why he was defeated two years ago for Commonwealth's attorney by a vote 2000 Myers aided at the Lexington convention in the nomination of John C. Droge, for Treasurer, on the L. and N. ticket. Some six years ago Droge was a member of the Board of Aldermen in Covington. An attempt was made to extend the franchise of the street railway company and Droge went before the Grand Jury and had Myers indicted for attempting to bribe him to support this ordinance. The case was tried. It was shown at the time that the ordinance had been withdrawn and afterward reintroduced and Myers suggested because the ordinance was not pending at the time Droge swore that the attempt to bribe him was made. The statute applied only with reference to a pending ordinance.

## AND BILL OWENS, ALSO

And W. C. Owens, of Georgetown, is one of those who have assailed me. While at Frankfort I did what I could to make it a felony to run a faro bank or roulette table and other gambling devices, and thereby I interfered with Owens' regular business. Of course he does not like it. He became an applicant at the hands of Wm. McKinley for

ISSUED WEEKLY.

R. C. WALKER, Publisher.

ONE YEAR ONE DOLLAR

FOR REPRESENTATIVE.

We are authorized to announce

T. J. NICKEL

a candidate to represent Crittenden and Livingston counties in the next General Assembly of Kentucky. His candidacy is subject to the action of the Democratic party. Election November 1899.

When a man can not find enough of good in either the Democratic or Republican party, he might as well go out of politics, and, by the way, he generally does.

Rev. E. B. Blackburn, the Republican nominee for Representative is no novice in politics. He is a splendid gentleman personally, but a Democrat would have to go a good many miles to find a stronger or more uncompromising Republican.

We have long understood that self-preservation is the first law of nature, hence we are not surprised to learn that the L. & N. railroad is taking its passes from the newspapers that will not support its ticket, and giving free passes to those who will. The politics and shows that the L. & N. is not a novice in the business.

At the conclusion of the Dewey celebration at New York, Admiral Sampson will be relieved of the command of the North Atlantic squadron. This action is to be taken at the request of the Admiral, who has already had much more than his portion of sea service at his grade. After a short leave of absence he will be assigned to shore duty, probably in command of one of the navy yards.

Accumulated property does not always bring the pleasure we court, as many a rich man will tell you. The Philippine case brings its warriors who know how to strike hard and do not hesitate to do so, and the annexation of the Hawaii islands brings some attending evils too. The spread of leprosy, says Dr. Brown, who has just returned from the islands, has become so alarming and apparently incurable that the fear of the disease will be new dangers from the disease in this country. Our country is the best favored on earth, and when we begin to add to it the less favored portions, we begin the work of deterioration. There are some things even a lion cannot digest.

When Brown not only agreed to take but sought the Democratic nomination at the hands of the Louisville convention after that convention had without a dissenting vote adopted a platform endorsing the Goebel election law, he clearly, and without a word of protest showed his willingness, his burning desire to endorse that law. With the Governor's office at the end of the race course, he was anxious to make the run for it, against Taylor, and he was anxious to make the run with the Goebel law buckled upon his back. So soon as the executive chair was removed from the end of the road, the Goebel law became a burden on his mighty back, and now he turns to kick out of the harness and tells the public that it is because that self same Goebel law is a burden that no patriotic man will bear.

If the law is a burden after Mr. Brown failed to get that nomination, why was it not a burden when he saw the nomination looming up in front of him?

The Press feels somewhat flattered that its editorial on the school book question drew the fire of a United States Senator. As the Senator said about us, we have the warmest of personal regards for him and think he is a tip top good fellow, but there are some things about this book question that he has not had time to study carefully, hence he is not altogether up on the matter, and it will afford us pleasure to give him some valuable information from time to time as the canvass moves along. We are inclined to believe that the Senator is opposed to the Chinn bill principally because it is endorsed by the Democrats, but he overlooks the fact that a measure is a law in Indiana, where the Republicans are in power, and that instead of trying to abolish it in that State, those Republicans go right along keeping it, and that they have under the provisions of the law, recently made a new contract for school books and this contract gives the people of Indiana school books nearly fifty per cent lower than the people of Kentucky are paying for books. Now if the law is endorsed by the Republicans of Indiana, why is it such an iniquitous measure as viewed by the Republicans of Kentucky?

Don't forget that with every purchase at our house you get a ticket which entitles you to some of that beautiful chinaware.

The bolters are not satisfied with their efforts to divide the Democracy of Kentucky so that the chance for carrying the State in 1900 will be thrown away, but they are now attacking John R. McLean, who was nominated for Governor of Ohio, on a free silver anti-expansion, anti-trust platform. The Cincinnati Enquirer is one of the greatest and best free silver Democratic papers in the country. In 1896 it did a great work for the cause and every day since then it has ably expounded the true Democracy. John R. McLean is the editor of this paper, but his Democracy does not suit the bolters in Kentucky especially the Louisville Post that fought Bryan with the same venom and malignancy that is marking its fight against Goebel. The object of the whole scheme is to divide the country, get up a row among the Bryan Democrats, and thereby weaken Bryan in 1900. Democrats will follow such leaders as the Louisville Post, Bill Brackridge, Simon Bolivar Buckner, Bill Owens, Theodore Hallam, Basil Duke, Wilbur Browder et al, out of the party into the bolter camp to help accomplish the defeat of Bryan in 1900, or will stay in the party with William Jennings Bryan, Jo Blackburn, Bill Goebel, W. C. Ellis, John S. Rhea, Ollie James, Urey Woodson, Robt J. Breckenridge and scores of other illustrious Kentuckians who stood side by side with you in 1896 fighting, in this main, these fellows who now try to blind you with the cry of "purity" they want?

**Ollie in "Sweet" Owen.**  
Referring to Ollie James' speech at Owensboro last week the Herald of that place says:  
Mr. James presented the claims of Democracy to this people in a most forcible and captivating way. He gave our people the other side of the nominee, who has been painted by the Brown followers as but little better than a demon, and convinced all doubters that Mr. Goebel was in every respect worthy of their support, and would make a model Governor. His reference to Jo Blackburn, the faithful one of all our great leaders when the trying hour came, was full of pathos, and cheer after cheer for the old hero rent the air.

I was the unanimous verdict that his speech was possibly the very best that could have been delivered by any one, so forcible and easy to comprehend, and withal so free from abuse toward those of the other side.

by all who could get a chance to shake his hand, and if he ever comes to Owensboro again he will receive a most cordial welcome.

The Owens News says: The Democracy came in crowds last Monday. At 10 o'clock the crowd was estimated 2,500. They were the untiring who came in to hear the doctrine preached. Many were for the regular ticket, some were for Brown.

Hon. Ollie James, the Lion of the First District Democracy, was advertised to address the regulars and he did it in splendid style. The Brown men aimed the court house, and so no arrangement could be made for a joint debate. Mr. James took the yard, and it was well he did, as it took about that space to hold the crowd that heard him.

He is of magnificent physique, has a splendid voice, and at once caught the crowd, and for nearly two hours the crowd cheered him to the echo. His speech throughout was conservative, and of a character that carries conviction with it. He dealt the Republican party telling blows, and lifted Gov. Brown with a few undercuts.

Everyone was well pleased with him, and Owen county is his friend.

**Senator Deboe Speaks.**  
Senator Deboe addressed an audience at the court house last Thursday on the political issues of the day. The audience was not a large one, but the Senator had good attention. He upheld the National and State administrations all along the line; claiming that both had been a blessing to the country; he especially endorsed the McKinley war policy.

He is bitterly opposed to the Chinn school book bill, and spent some time in discussing the Press' editorial on that subject.

He grew somewhat furious in denouncing the election law.

His Republican auditors approved his speech warmly.

This was the first of a series of speeches the Senator will deliver in behalf of the Taylor ticket.

Miss Edith Davis intends to attend school at this place.

Jim Franklin will stay at George Woodson's and go to school at this place. Jim is a jolly fellow, but he is a monomaniac we suppose, because the Berry is gone. Weep not dear Jim for spring the blossom and the bloom, with the "Berries" all full grown.

El Haynes says he is going to leave these low grounds of sorrow, and take his flight to the sunny, peaceful clime of California.

School will commence at this place Sept. 15 under the supervision of F. E. Davis. Parents we appeal to you for prompt and punctual attendance of your children, for without your co-operation the teacher, regardless of his capability, can't do himself, children or district justice.

**NEW SALEM.**

Died suddenly at his home near New Salem church, Aug 31, at 7:30 p. m., Esq. E H Taylor, in his 61st year. In the death of E H Taylor this neighborhood has lost one of its best citizens, the church one of its best members, and the family a loving husband and father. His remains were laid to rest at old Union church with Masonic honors. Rev. Carter preached the funeral sermon. There was the largest crowd present that ever attended a funeral in this section.

Mr Vanhoosier and wife, of Sandy Grove are guest of friends in this community.

Mr Home White is doing fine with his school, although he has very poor encouragement, the district is very small and the attendance light.

N J Perrigan will run Bill Tyner's farm the ensuing year.

Everything is burning up for want of rain. Stock water is very scarce and pastures dried up.

Harry Harpending left Aug 23, for New Kirk, Oklahoma. He writes that he has found one of the finest farming countries he ever saw.

W O Tyner and family will move to Kuttawa this week.

Rufus Threlkeld has a very sick child.

**Piles Cured;**

If sufferers will use Banner Salve according to directions a positive cure will result in worst cases. Guaranteed. 25 cents at Haynes' drugstore.

**LEVIAS.**

Miss Annie Hill is progressing nicely with her school.

Protracted meeting commenced at Union Saturday with a large attendance and good interest. Bro Henry will be assisted by the home preachers.

Mrs E B Franklin, Mrs Lucian LaRue, Grace Taylor and Auburn Taylor are on the sick list this week.

Miss Pearl Docteman, of Hampton, is visiting relatives and friends here.

Among the Poultry.

The Embden is the best breed of geese.

Even ducks cannot stand dampness in their quarters.

Cornmeal can hardly be excelled for fattening.

Young ducks begin to lay earlier in the season than old ones.

Do not mix bone meal with soft feed; give them separately.

Short-legged fowls usually make the best roosters.

Old hens almost invariably lay larger eggs than pullets.

In the second year a hen is more profitable than at any other time.

Early hatched chickens fetch the best prices and bring in money when most needed.

Overfed fowls do not lay well and in the larger breeds especially, are more liable to apoplexy.

For poultry a dry, gravelly spot is necessary to beneficial conditions.

The Spanish white Leghorns and Minorcas all lay large, white eggs and are nonsetters.

In feeding all kinds of small grain at home scatter it among litter and let the hens scratch it out.

Guinea are good layers, and their flesh is a combination of the turkey and the pheasant.

Neatfoot oil is said to be better than vasoline for many of the ills of fowls because it is less irritating.

If the hens get too fat feeding with oats for a few days will soon reduce them.

Leghorns, Minorcas, Spanish, Andalusians and Hamburgs, are the fowls with the big egg-producing record; but they are not the best table fowls.

The Muscovy duck.

The name is derived from the "musk" odor which exudes from the skin, but which entirely disappears in cooking. It seems probable that its earlier name was Musk duck, and that this has been gradually changed into Muscovy. The latter name has now become well fixed in poultry nomenclature, and it would be difficult, even if it were desirable, to restore the earlier.

The Muscovy is a distinct species from our other domestic ducks. It has not the curled feathers in the tail of the drake, which are prominent characteristics of the descendants of the wild Mallard. It is found in the wild state roosting in trees and sometimes making its nest among their branches, and in the domesticated state it preserves its powers of flight and the ridge-board of a barn or the topmost limb of a tree are not to it inaccessible objects. When crossed with other domesticated breeds, the progeny is sterile when bred later so, though it is said that instances have been known where the hybrids would breed with either parent. Such instances are rare, and their existence, if well attested, would add only one more proof that hybrids are not always sterile. Males have been known to have votes, and it would not be beyond belief that a "mule" of the duck race should produce a fertile egg.

The appearance of the Muscovy is very striking. The drake has on top of the head long feathers which can be elevated or depressed at will. The sides of the head and face are covered with red caruncles. These caruncles, together with its necked neck, long and rather flat beak and broad breast, make up a tout ensemble quite different from that of other breeds.

# THE GRIM REAPER

Mows Them Down; the Old and Young Fall Before Him.

FOUR DEATHS WITHIN A WEEK.

Mr. E. H. Taylor one of the best known men in Crittenden county, died at his home in the New Salem neighborhood last Thursday. For the past two years he had heart trouble, and was subject to occasional fainting spells. Thursday while at home, he said to his family that he felt the approach of one of those spells. It came and in three minutes he was dead. He was buried with Masonic honors Friday at Union. Rev. T. C. Carter preached the funeral discourse, and many friends gathered at the grave to pay the last and tribute of love and respect to the good man. Mr. Taylor was 61 years old, and he was as good a citizen as the county had. He was known throughout the county, and every man who knew him admired him for all those good qualities he possessed as a christian gentleman and a model citizen.

Will Clement, son of Mrs. J. R. Clement died at the home of his mother in the Dunn Springs neighborhood Sunday morning, after some months illness. He had an attack of la grippe last winter, and his lungs became involved and from this death resulted. He was nineteen years old. He was respected by those who knew him and admired for his devotion to his mother and sterling qualities as a young man in many respects. He was buried by the side of his father at Mt. Zion Monday.

Berry Clark died at his home in the Hebron neighborhood Saturday after several days illness of erysipelas. He was buried at the McMillan cemetery Sunday evening. He was one of the best men in his community—honest, industrious, kind generous, he was respected by all who knew him. He leaves a wife and four children as well as a large circle of friends to lament his death.

Mrs. Nora Woodson died at her home a few miles east of Marion Thursday Aug. 30, after several days illness of typhoid fever. She was the daughter of the late N. B. Eddings, and lived in Marion until her marriage some time ago. She was an excellent woman and many friends regret her death.

## A QUIET WEDDING.

A Popular Fredonia Couple Married on the 30th.

On Wednesday August 30th, Dr. J. N. Todd and Miss Nellie Lowery, of Fredonia, were out driving, when they met a well known minister, who happened to have the requisite papers with him, and while the couple remained seated in their buggy, he pronounced the ceremony that made them husband and wife.

The bride returned to her home, and the groom to his, and the marriage was kept a profound secret until Tuesday evening of this week, when it leaked out, and the Press was debarred of the pleasure of being the first to carry the news to their friends. When it became known the happy couple were warmly congratulated on all sides.

The bride is the daughter of Mr. Mahlon Lowery, one of the leading farmers of the Fredonia Valley, and she is a vivacious, beautiful and accomplished young lady. The groom is a well known and popular physician, who has scores of friends in Caldwell and Crittenden counties, who join with the Press in extending their best wishes to the doctor and his fair bride.

## Meeting at Sullivan.

The meeting at Sullivan is progressing nicely. They are having large congregations, good interest and good attention. The Mt. Pleasant congregation of the Cumberland Presbyterian church has lately built a beautiful church house in which the services are held. The business men of Sullivan all agreed on the first Monday morning of the meeting to close all their business houses fifteen minutes before time for services day and night. This speaks well for such a business town. As a consequence we have had the business men at all our services. At the time of this writing (Monday morning) there has been twelve professions and fourteen valuable accessions to the church. The Holy Spirit has been manifested in great power. The meeting will probably continue through this week. Jas. F. Price.

Irritating stings, bites, scratches wounds and cuts soothed and healed by Dr. Williams' Wild Cherry Salve—a sure and safe application for tortured flesh. Beware of counterfeits. Jas. H. Orme.

# GOEBEL FOR BLACKBURN

And Blackburn is for "Uncle" Jeff Nickel.

THEY ARE FIVE MINUTES IN MARION

Tuesday night at 9 o'clock Goebel and Joe Blackburn passed through Marion on the train. About two hundred people gathered at the depot to see these distinguished gentlemen, and when the train stopped they were loudly and lustily called. Mr. Goebel appeared on the platform of the car, and Ollie James introduced him as the next Governor of Kentucky. Mr. Goebel said:

"Fellow-citizens, I thank you for this demonstration. I appreciate this expression of loyalty to our ticket, but I want to say to you, I do not want to be elected governor unless you elect a Democratic legislature to send this man (pointing to Senator Blackburn) back to the United States Senate."

There were loud calls for Blackburn, and he stepped forward and said:

"I thank you for this kindly expression, I want you to tell Uncle Jeff Nickel that I do not propose to wind up this campaign until I come here and make a speech for him. If there is a man in the state I want to see elected, it is that honest, sturdy old Democrat. The legislature would be incomplete without him. This affair tonight reminds me of a trip we are going to make this fall through Western Kentucky with the Hon. W. J. Bryan to speak to you."

Turning to Ollie James, Senator Blackburn said, "there is no man in the State doing better work, and more efficient service for our ticket than this young man, Ollie James."

The crowd gathered around the car and was shaking hands with Goebel and Blackburn when the train pulled out.

## BRYAN COMING.

An Illustration of the Advantages of the Chinn Book Bill.

Frankfort, Ky., Aug. 25.—At a doubt regarding the visit of William J. Bryan to Kentucky to speak in the interest of the Democratic State ticket nominated at Louisville was set at rest today by the announcement of ex-Senator Blackburn, at a meeting of the party Campaign Committee here, that he had received a letter from Mr. Bryan. The letter was dated at Lincoln, Neb., August 21, and was of a personal nature. Senator Blackburn declined to give it to the newspapers, but stated that he was authorized to say for Mr. Bryan, that he understood the situation in this State, and would come here to speak some time during the latter part of September or the first of October, the exact date of his coming to be arranged by the Campaign Committee.

Prof. Harry V. McChesney, of Livingston, the nominee for Superintendent of Public Instruction, brought with him to Frankfort today a striking illustration of the fallacy of the statement of Attorney General Taylor, in his London speech, that the Indiana cheap school book law is an injury rather than a benefit to the people of that State. The illustration consisted of two school books alike word for word and letter for letter, both purchased on the same day, one at New Albany, Ind., book store for sixty five cents, and the other purchased at a Louisville book store, the price paid being \$1, the equal price for the book all over Kentucky. Prof. McChesney has thoroughly studied the school book
