Judge W. P. Winfree has been nominated for Judge of Christian county on a fusion ticket.

Gov. Beckham and wife and a large party of ladies and gentlemen were the guests of Gethsemane monastery last week. It is very rarely that any woman is admitted within these sacred walls.

Madisonville is to have a new tobacco factory, which will begin operations in a few days. Walter T. Haines & Co. is the name of the firm. They will make twist and smoking tobacco.

Mr. E. J. Marshall, of Bowling Green, dropped dead of heart disease a few days ago. During the war of the rebellion he was in the service of the Confederate government as a telegrapher.

Mr. Hugh Mulholland and Receiver Lawrence, of the Grand Rivers company arrived in Paducah Friday, and are there for the purpose of straightening out the Grand Rivers property so it can be decided to the St. Louis capitalists who want it.

During the big parade in Memphis ex-Congressman William J. Stone, of Kuttawa, was knocked from his horse and slightly injured. The horse of the veteran next to him became unmanageable and ran into Capt. Stone's mount, the collision resulting in the accident.

Miss Fannie Morton sued the Hopkinsville Elks lodge for \$500, alleging that she secured exclusive use of Mercer park as cow pasture during the time the street fair and carnival were held there, and that the show deprived her of the use of her property.

On C. H. Jarboe's farm, near Lebanon, a rattlesnake was found and captured by two men at work on the farm. The snake measured three feet and a half, is nine inches in circumference, and has ten rattles. He was captured alive and placed on exhibition in a drug store.

Wiley Joyner, a well known citizen of Paducah, became insane last week and employed a man to dig in his yard for hidden treasure. When he was arrested the police had trouble controlling him. Worry over financial affairs is supposed to be the cause of his mental unbalance.

It develops that Louis Myers, who was captured by Lee Turner, near Middlesboro, last week, killed two women in Virginia, two men and two United States marshals in North Carolina, the sheriff of Union county, Tenn., and officers in South Carolina. There is all told \$2,500 reward for him. He is held awaiting a requisition from Gov. Aycock of North Carolina.

The remarkable strike injunction issued by circuit Clerk Gathlin, of Hopkins county, which restrained not only the soliciting of nonunion men, but also the collection of strike benefits for the union miners of Hopkins county was set aside by Circuit Judge Nunn. Great interest had centered in the case, as under the restraining order even the furnishing of supplies to men on strike was prohibited.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature,—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, relatives and friends are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of Throat or Lungs, its success is simply wonderful, as your druggist will tell you. Get a sample bottle free from Jas. H. Orme or Robert F. Haynes. Regular size 75 cents. Get Green's Prize Almanac.

Saves Two from Death.

"Our little daughter had an almost fatal attack of the whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed we saved her life with Dr. King's New Discovery; our niece, who had consumption in an advanced state, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth; 50c and \$1 bottles guaranteed by J. H. Orme; trial bottle free.

MARION, KENTUCKY.

It was semi-officially announced in Berlin, on the 7th, that it had been decided that the selection of Count Von Waldersee's successor as commander of the international forces should be left to the commanders of the international forces in China.

A report comes from Nagasaki that in return for an ice-free port in Corea—Mansampo and Port Lazareff are mentioned—Russia offers to give Dairen or Port Arthur to Japan. The Nagasaki press says it has this information from a most reliable authority at Vladivostok.

United States Ambassador to Berlin White attaches great importance to the news that some of the principal German states will drop their double tariff, as he believes this will make the negotiation of the commercial treaty between the United States and Germany much more likely.

Negotiations between the Cramp-Maxim-Vickers group of ship builders and stockholders of the Bethlehem (Pa.) steel works have been resumed and the consolidation originally mapped out had, on the 5th, been arranged so far as that was possible without the actual delivery of the stock.

The British ship Pollaloch, which was stranded eight months ago on the ocean beach near the North Coke lighthouse, was floated on the 6th. For over two weeks she had been within 30 feet of deep water. She was uninjured, not even being strained to any perceptible extent, and looked none the worse for her stay on the beach.

A snowstorm occurred throughout the central and northern portions of North Dakota on the 6th. At Jamestown snow fell for two hours. A similar state of affairs is reported in towns on the Jamestown Northern railroad. The snow quickly melted. Snow fell late in May, 1901, but a similar occurrence in June is not known to have happened before.

The Hong Kong press warmly censures Count Von Waldersee for bad conduct of military affairs in North China. The papers say the commander-in-chief can not be personally exonerated from blame for permitting attacks on innocent places and innocent people until German military rule in North China is a by-word for inefficiency and injustice.

George W. Cumberland, known to the American stage as George W. Thompson, "Father of the Elks," died in Brooklyn, on the 6th, from blood poisoning following an operation upon his hand. He was born in New York city in 1836. He is said to have founded the Order of Elks 35 years ago, becoming first exalted ruler of New York lodge No. 1 in 1868.

The Berlin Lokal Anzeiger calls attention to what it describes as the "ill-tempered utterances" of the London Times, regarding Count Von Waldersee's return, and says: "The animus of the wrath of the Times, is the fact that several hundred Germans remain in Shanghai, thus permanently divesting the city of its character as British domain."

The State Bank of Indiana, at Indianapolis, closed business on the 3d. The gilt-edged assets and deposits were transferred to the Columbia national bank, which opened its doors the same day. Other paper was placed in the hands of the Security Trust Co. as trustee, for collection. All depositors of the State bank will be paid dollar for dollar on demand.

As a result of the agitation by the German Colonial society in favor of some modifications of the law of 1870, under which thousands of Germans abroad were denationalized without any desire on their part for such a result, the government announces that a new law is being drafted, by the terms of which Germans abroad will lose their nationality only by their own volition.

About the first of next month full civil government will be set up in the Philippine islands, exactly as projected by the Philippine commission. As soon after that date as an administrative machinery can be made ready for it, the new Philippine tariff will be proclaimed, also following out the original plan formed before the announcement of the late decisions of the supreme court.

For the third time the case of Nebraska against the bondsmen of Joseph Bartley, former state treasurer, is on trial in the district court at Omaha. Suit is brought to recover the amount of Bartley's defalcation of over six hundred thousand dollars. The case has been tried twice previously in the same court, and both of the verdicts were set aside by the supreme court on errors of the trial court.

Jas. D. Ross, president of the Railway Porters' association, has issued a call for a meeting of the executive committee in Chicago, on the 20th, to complete arrangements for the establishment of a private hospital for colored men in the railway service. The question of calling a national convention before or after the national convention of the Colored People's National Business association will also be considered.

FORGING TO THE FRONT.

South's Progress in Country's Foreign Trade—New Orleans Landed Second on the List.

WASHINGTON, June 9.—The growing disposition of our exporters to distribute through the ports south of New York a part of the export trade which formerly passed through that great city is illustrated by a study of the bureau of statistics figures showing the exports through the various ports of the United States in the fiscal year 1900.

During that year, and the months which have followed, New Orleans has taken second rank as an exporting port and has displaced Boston in its position as the second exporting city of the country.

The very heavy exportation of cotton and high price at which it is exported has largely increased the value of the exports through Southern ports, while it is not improbable that the Galveston disaster may have resulted in temporarily diverting to New Orleans some of the business which otherwise would have gone through Galveston.

The exports from New Orleans in the fiscal year 1900, were \$115,858,764, the highest figure in the history of the port, except 1892, and an increase of \$28,000,000 over the fiscal year 1899. During the nine months of the fiscal year 1901 the exports from New Orleans were \$122,234,669, securing for that city a clear and undisputed title to the rank of second in the list of American export cities, the figures for Boston, which formerly held second place, being, for the nine months, \$81,172,051, or over \$40,000,000 less than those of New Orleans.

Baltimore has gained both in imports and exports. Its percentage of the total imports and exports of the country was in 1900 8.28 per cent. in 1897 8.15 per cent., and in 1895 7.6 per cent. Its imports in 1900 were 2.24 per cent. of the total imports into the country, as against 1.4 per cent. in 1897, and 1.6 per cent. in 1895. Its share of the total foreign commerce of the country in 1900 was 6 per cent., as against 5.35 per cent. in 1897, and 4.8 per cent. in 1895.

Newport News shows a rapid growth in its export trade, which in 1900 represented 2.5 per cent. of the total exports of the country, as against 2.1 per cent. in 1897, and less than 1 per cent. in 1893. Its imports have also increased materially, being in 1900 more than eight times those of 1894, but forming, however, less than 1 per cent. of the total imports into the country.

The Gulf ports increased their exportations materially, especially in cotton, wheat and flour. Galveston increased her exports over those of last year about \$7,000,000, and New Orleans increased hers about \$28,000,000. New Orleans also materially increased her imports, which in 1900 were \$5,500,000 greater than in 1899.

SCHEME IS FOR A THIRD TERM

Republican Leaders Paving the Way For McKinley Again—Governor Declares For Breaking Away From Past Customs.

CINCINNATI, June 9.—"There has been no time in our history when conditions would justify the election of a president to a third term as in the case of McKinley," remarked Congressman C. H. Grosvenor to a group of friends with whom he was chatting familiarly. "McKinley is personally the most popular president we have had in a long time, and he has certainly most creditably performed the duties of his high office. I think it is time, furthermore, to demolish the fiction that there is an unwritten law established by Washington that no president of the United States may accept a third term. The facts are, as any student of the times may discover, that it was fear of defeat which impelled Washington to decline a third nomination. Being a Federalist, he was the object of very violent attacks on the part of the Democrats of his day and, recognizing the growing strength of his opponents, he doubted, as I believe, his ability to again secure an election if he should run."

SAVED TO MRS. TABOR.

Millionaire Mine Owner Pays a Debt of Gratitude Incurred When He Was a Poor Young Fellow.

LEADVILLE, Col., June 9.—Winfield S. Stratton, the millionaire mine owner of Cripple Creek, has redeemed the Matchless mine, in Leadville, for the widow of the late Senator Tabor.

Years ago Senator Tabor advanced some money to Stratton when Stratton was a poor, struggling miner, and he never forgot it. When Tabor died he lost everything and he was vainly endeavoring to save the Matchless mine, which he always insisted still contained millions in its lower contacts, never explored. The property was sold some months ago at sheriff's sale and final title would pass on July 4 to the new owners. Senator Tabor's widow has continued the struggle, and Mr. Stratton has now come to her assistance, and will also enable her to exploit the property to greater depths.

STILLWELL IN MEXICO.

Purchases a Railroad and Will Extend Same to Tampico.

MEXICO CITY, June 9.—The Stillwell group of American capitalists have purchased the Pachuca, Zacualtipan & Tampico railroad from Richard H. Thrice for \$1,000,000 gold and 35 per cent. of the common stock in a company to be organized. The road will be prolonged from Sandoval, its junction with the Vera Cruz railroad, and extended to Tampico, making a short line between this city and Northern Gulf points.

HAIL AND WIND:

A Heavy Storm Visits Memphis, But No Material Damage Done.

MEMPHIS, June 10.—The rain, hail and wind storm which precipitated itself upon this section yesterday afternoon was one of unusual severity and for nearly two hours there was a tremendous downpour of water, the accompanying breeze occasionally taking on what threatened to be a cyclonic force.

Throughout various portions of the town and suburbs there was an uncommonly heavy hail fall.

The stones were considerably above the average size, many of them being abnormally large. The quantity of hail was much larger in some portions of the city than in others. It increased both in abundance and size as the path extended in its northeastward course, until at Madison Heights, the yards were covered with hailstones, and so hard frozen were they that it was fully thirty minutes ere they had melted. Many were seen that were over an inch in diameter.

Another peculiarity of yesterday's storm was the density of the rain clouds. They gathered in low and compact mass of black capor and between 4 and 5 o'clock in the afternoon the gloom occasioned by the clouds enveloped the city like a pall and darkness was as complete as if it were already nightfall.

TAFT TALKS ON TAXES.

Suggestions to Newly Organized Philippine Province—Money From Internal Levy.

MANILA, June 9.—The Philippine commission returned to Manila today from the province of Nueva Ecija, Luzon, having organized provincial government at San Isidro, capital of the province, with Capt. J. F. Krups, of the Twenty-second infantry, as governor; Lieut. R. C. Day, of the Thirty-fourth volunteer infantry, as treasurer, and Lieut. DeWitt C. Lyles, of the same regiment, as supervisor.

Judge Taft told the people that, if no power were given to levy customs, the expenses of the central government would be provided by additional internal taxes. He pointed out also that if the decision of the authorities at Washington should result in free trade with the United States, opening up such a great market an increase in land values would enable the people to respond to the increased internal taxes.

The Northern tour has been postponed.

The American astronomical commission has returned from Sumatra and will sail for home shortly.

Lieut. Wray's command has had six engagements with the insurgents in the province of Sorsogon, Luzon, killing six. Twenty-three insurgents were captured and at near Atimonan, province of Tayabas, and several minor captures are reported from other parts of southern Luzon, where the insurgents are still active.

The report circulated in the United States that Gen. Canles has surrendered is unfounded.

STALLION MURDER TRIAL.

A Vast Throng Is Present to Take in the Sensation.

GALENA, Mo., June 9.—An unusual scene is presented here at the preliminary hearing of Mrs. John Stallion, her father, James Crabtree, and his two sons, Frank and Charles Crabtree, for the murder of Alice Stallion, the woman's 16-year-old daughter. The hearing is being held in a grove, the two justices sitting at a table under a tree and 2,000 people, attracted from points miles around, forming a circle about the court and defendants.

Notwithstanding no overt act has yet been attempted, threats have been made against the Crabtrees by many of the strangers, and the county officials are taking all the precautions at their command to protect the prisoners. Galena is off the railroad and the fact that 2,000 people would care to come miles to attend the hearing is considered significant.

It has been decided to exhumate the body of the girl, that it may be examined by the doctors to investigate a theory of the county prosecutor that a criminal assault was made upon her by one or both of the Crabtree boys, and that they killed her to hide the crime.

OKLAHOMA WHEAT CROP.

It Was Practically Destroyed by the Fierce Storm of Friday Night.

WICHITA, Kas., June 9.—A correspondent who arrived here tonight from the scene of devastation in Kay county, Oklahoma, says that the storm of Friday night ruined the wheat crop of four hundred farms West and Northwest of Blackwell. These farms are all in one body of territory. The farmers, who had purchased twine and harvest machinery, are asking the local dealers to take them back and the dealers are referring them to the factories.

The loss of crops will cause no distress, as the farmers are in good condition financially, owing to a successful season of good crops during the past five seasons.

STOLEN COIN RECOVERED.

Detectives Force a Prisoner to Disgorge Most of His Loot.

MILWAUKEE, June 9.—A Sentinel special from Mineral Point, Wis., says that \$12,000 more of the gold stolen from the First National bank on the morning of May 24 has been recovered. It was found in the earth vault of a common out-house of the City Hotel, at which the prisoner, Steward Jelliff, boarded. This find and the \$8,000 before recovered, comprises all the gold missing from the bank. The balance, \$5,800, is in currency.

Changes In Revenue Law

The Reduced War Taxes as They Go Into Effect July 1

Beginning with July 1 certain changes in the war revenue bill will go into effect. The original measure, it will be remembered, was enacted by congress June 13, 1898, just after the breaking out of the Spanish-American war. Just prior to adjournment the last congress made certain amendments to this act. Perhaps the changes that will be most noticed by the general public will be the removal of the tax on bank checks and drafts, sight drafts, money orders, leases, mortgages or conveyances in trust, promissory notes and telegraph messages. The tax on bankers of \$50 for \$25,000 and \$2 for each additional \$1,000 is to be retained. So also is the tax on stock brokers of \$50, on pawnbrokers of \$20, on commercial brokers of \$20 and on custom house brokers of \$10.

Proprietors of theaters and like places of amusement and proprietors of circuses are still to be taxed \$100. The tax of \$10 on all other exhibitions is also retained. The new law made no change in the tax of \$5 levied on each bowling alley or billiard table.

Tobacco and snuff come in for a discount of 20 per cent. on the old tax. There is a distinction drawn in the case of cigarettes. The tax on those of a certain grade and weight is retained; on others the tax is reduced. Dealers in tobacco and leaf tobacco, and manufacturers of tobacco and of cigars, will be taxed according to the rate now prevailing.

On bonds, debentures, etc., and on certificates of stock of original issue the tax of 5 cents per \$100 is to be retained. In the provision taxing transfers of stock 2 cents per \$100, the same tax is extended to bucket shops. The tax on sales of products at exchanges is cut in half. In the case of sales of merchandise in actual course of transportation the tax is entirely removed. The tax on all forms of insurance is repealed.

Proprietary medicines, perfumery and cosmetics and chewing gum are all to be exempted from taxation. Petroleum and sugar refineries are still to pay one-fourth per cent. of their gross receipts in excess of \$250,000. Each sleeping and parlor car ticket will continue to pay 1 cent to the government. Legacies of charitable institutions, religious, literary or educational in character, will not be taxed after July 1.

Epitaph and Pun.

One evening at a small party which included the two friends, Douglas Jerrold and Charles Knight, the author-publisher, the talk turned on epitaphs.

As they were walking home together, Knight, half lightly and half in earnest, asked the wit to write him an epitaph for him. Jerrold made no answer, but when they came to the parting of their ways, he suddenly said:

"I've got your epitaph."
"Well, what is it?"
"Good Knight!"—Youth's Companion.

A COMPLETE STATEMENT.

A Bulletin that Fully Explains
Mrs. McKinley's Illness
From Its Beginning.

IT HAD SO FAR BEEN HELD IN ABEYANCE.

The case at present affords ground for hope of recovery, and the President feels considerably encouraged—flowers and gifts for Mrs. McKinley on her birthday.

Washington, June 8.—Mrs. McKinley's physicians were in consultation about two hours to-day, and subsequently a very complete statement of the true character of the illness from which she has been suffering was issued. Such a statement had been promised from time to time, and while in San Francisco it was said that the president desired a fuller announcement of the nature of Mrs. McKinley's illness given to the public. But, for one reason or another, it has been withheld up to the present time. The bulletin is as follows:

"The cause of Mrs. McKinley's illness has been a blood infection, resulting from peritonitis of the index finger (bone felon), which began in Los Angeles and which was promptly treated by incision. The subsequent condition of exhaustion was due to the same blood infection ascertained with a severe diarrhoea. She improved, however, and was brought home in comfort and without loss of strength. The principal cause of anxiety in her case since her arrival in Washington has been acute endocarditis (inflammation of the lining membrane of the heart), involving the mitral valve, the result of the same blood infection. This does not appear to be progressive, and there has been an improvement in the diarrhoea and in her general condition. Mrs. McKinley's case at the present time presents a more cheerful aspect."

The statement that Mrs. McKinley's case at this time presents a more hopeful aspect is the best word that has come from the sick room since the arrival of the distinguished patient in Washington. The president feels considerably encouraged. To-day was Mrs. McKinley's birthday, and many beautiful flowers and gifts were left at the White House for her.

MAY SAVE THE ASSYRIAN.

Divers Say the Steamship Assyrian
Can be Saved If the Weather
Holds Good.

St. John's, N. F., June 8.—The divers' reports show that it will be comparatively easy to tow off the Leyland steamer Assyrian, ashore, off Cape Race. They are now only awaiting the arrival of a suitable wrecking tug, which is on her way from Sydney, with powerful pumps and other requisites, which will enable the leaky holds to be kept free from water and prevent the vessel from foundering when drawn off the rocks. Five schooners are unloading the cargo from the after holds.

The steamer Algerine is engaged in the same work. The ship's own steam is hoisting out the cargo. The weather continues perfect.

HER BEARING CHANGED.

Lulu Prince-Kennedy No Longer
Maintains Her Cool, Careless
Attitude.

BROKE DOWN COMPLETELY IN COURT.

The Attitude of Judge Wofford and the Damaging Nature of the Testimony Adduced Seems to Have Unnerved Her—Court Adjourned Till Monday.

Kansas City, Mo., June 8.—Lulu Prince-Kennedy cried conclusively in the court room when a witness testified to a conversation held with the prisoner's brother, Bert Prince, a few minutes after the killing of Kennedy. Mrs. Kennedy was removed from the room in an effort to quiet her, but when she was brought back a few minutes later she sobbed aloud, and finally collapsed utterly. Unable to proceed with the trial, Judge Wofford ordered an adjournment till Monday morning, and the prisoner, moaning and crying aloud, was carried bodily across the corridor to her cell. This was the first real sign of a breakdown the prisoner has displayed since the killing in January last, the cool attitude and apparently careless bearing she has shown having completely puzzled the officers who have had her in their care.

Bertie Litchfield's Testimony.
Miss Bertie Litchfield, a former schoolmate of Bert Prince, was on the stand, resuming her testimony of Friday, when she told of Prince being in the Kildge building at the time of the murder and of his conversation with her at the time. The defense had objected to this conversation being related, and Judge Wofford reserved his decision, announcing, Saturday morning, that the state would be permitted to give the testimony.

Theory of the State.
The theory of the state is that Bert Prince, together with his brother Will and his father, C. W. Prince, all of whom are awaiting trial on a charge of complicity in the murder, had conspired with Mrs. Kennedy to kill Kennedy, and that the male members of the family were present in the building watching the different entrances to prevent his escape.

Bert Said "Lulu Did It."
Miss Litchfield testified to having seen Bert Prince on the floor above Kennedy's office a moment after the shooting. "I told him," said Miss Litchfield, "that I had been down stairs; that someone had been hurt. Bert said: 'Lulu did it; she gave him the shot.'"

At this point Mrs. Kennedy gave way to a fit of crying and was taken from the room. Bert Prince, who is a traveling musician, has since her incarceration, done more apparently than any other member of the family, to make the prisoner's situation bearable, frequently holding concerts in her cell, and Mrs. Kennedy has shown her favoritism for him and keen regret that his name had any connection with the case.

Charles Dittmer's Testimony.
Charles Dittmer testified to Bert Prince having forecasted the murder. Two days before the murder occurred, Dittmer said, Prince accosted him while reading a newspaper account of Kennedy's suit for annulment of the marriage. Prince had remarked: "You'll read worse than this about him before long."

Other Testimony.
Wm. T. Hacker told of seeing Mrs. Kennedy and Bert Prince together in the vicinity of Kennedy's office a few hours before the murder, and Clifford Lawson testified to having seen Prince there at about the same time with a woman whom he did not know.

While in the states of Kansas and Nevada no petitions were filed, and in Hawaii and New Mexico, 1 each, and Delaware, Indian territory, North Dakota and Oregon, 2 each.

McDannold fainted in the midst of his speech, Friday, but appeared in court. He attempted to talk, but failed pitifully. A physician who was summoned declared that the lawyer would not live ten minutes if he attempted to address the jury, and Judge Tukey accordingly declared court adjourned till Monday, when an attempt will be made to finish the arguments and give the case to the jury.

BRITISH RACING GOSSIP.

London Still Talking of the Taking of the Derby and the Oaks by Americans.

TOUCHES THEM UPON A TENDER SPOT.

The Status of Volodyovski, the Derby Winner—Mr. Keene Can Not Bring the Colt to America, Having Simply Leased the Horse, Lady Meux Declining to Sell.

London, June 8.—London is still talking of the derby and the Oaks. The discussion of the relative merits of American and British methods of training and riding has broken out anew. It must be confessed that the British comments are generally very fair. They sorrowfully admit the superiority of America on every point. The Sporting Times said:

First Time by American Jockey.
"The derby has been won by a French horse and an American horse, but never, until Wednesday, was it won by a horse that had other than an English jockey in the saddle. Whatever our horses might be, the supremacy of our jockeys was deemed complete. But that fallacy is now exploded. Thus two records were broken, viz.: A victory for a jockey who was not a subject of the king, and the running of the race in the fastest time on record. The derby was an Anglo-American triumph, but not the Oaks, which was American pure and simple. It is a fact that rivalry ran high in America last year between Mr. Whitney and Mr. Keene, almost amounting to bad blood, when a colt of Mr. Whitney's beat Olympian for the Futurity."

Not a Little Singular.
Under the circumstances it is not a little singular that Mr. Whitney should have won the derby and Mr. Keene the Oaks. The derby running of Olympian told Darling he had the Oaks in his pocket with Cap and Bells II. To add to the American triumph, the Tammany chieftain, Croker, ran third in the Oaks, while an American jockey rode the winner of the derby and the first three in the Oaks were ridden by jockeys of that nationality. Henry, who was imported by Mr. Keene, who brought Sloan to this country, has made a rare beginning."

The Status of Volodyovski.
The papers have printed New York dispatches saying that Mr. Whitney would take Volodyovski to America, but he can not do that. He has simply leased the horse for £5,000 and half of what the horse might win at three and four years of age, after which he is to be returned. Had Lady Meux cared to sell the colt outright on an offer that was made he would now stand at £25,000, the offer being £15,000 down and £10,000 more if he won the derby.

Lady Meux Not After Money.
In these matters she has not looked on money at all. Her great desire was that as Huggins had borne the heat of the day he should reap the reward. For that reason she accepted an offer that would admit of Volodyovski's remaining in his stable. The only thing that might have altered all this was if King Edward had continued to be prince of Wales. But for this accession to the throne we now would see him credited with that which no living man has been credited with, viz: three derby winners.

A Public-Spirited Woman.
Lady Meux is a very public-spirited woman. She paid fully for a battery of guns, and the public is little aware of the tons of stores and comforts she has caused to be sent to the troops in South Africa. She has a splendid collection of Nelson relics, including Lady Hamilton's jewelry. When Temple Bar was removed, Lady Meux saved the materials from being broken up for sidewalks, had every stone numbered, and now old Temple Bar, exactly as it was in the Strand, forms the principal approach of her estate at Theobald's Park.

Americans Heavy Winners.
Fabulous sums were won on Cap and Bells II's victory in the Oaks. The commissioners had literally unlimited orders to back the filly, as long as a decent price was obtainable, and every American, man and woman, that saw Foxhall Keene for a week was advised to back the horse.

Cubans Must Toe the Mark.
Washington, June 8.—As the result of the cabinet meeting, Friday, Gov. Gen. Wood will be instructed to make it clear to the Cuban leaders that the United States will withdraw its troops and permit of the establishment of an independent government only after the Platt amendment is unqualifiedly accepted, and satisfactory assurance is given that it is final and irrevocable.

Gen. Grant on Aguinaldo.
New York, June 8.—Gen. Fred D. Grant, referring to Aguinaldo, in an address Friday evening, said: "If, over there, they got the idea that we have an high idea of Aguinaldo's importance, when he gets home he will have a following which may make us trouble."

Was Bred in Old Kentucky.
New York, June 8.—Foxhall Keene's filly, Cap and Bells II, which won the Oaks stake, in England, Friday, is a Kentucky bred youngster, by Domino, out of Ben My Chree by Gaipoin. The Keenes will devote the purse to charity.

William J. Samford, governor of Alabama, died yesterday morning.

The President pardoned Randal Adams, of Knott county, convicted in 1895 of being implicated in the murder of Deputy U. S. Marshal Wireman.

Twenty-two houses were burned and numerous families rendered homeless by fire in Lexington Friday. The loss is estimated at \$50,000, with insurance estimated at \$13,400. The buildings were mostly of frame and a high wind gave the fire good headway. It was not controlled for two hours.

A gruesome find was made at Pineville last week by C. T. Berry, who while digging up a large stump on his premises unearthed the remains of a woman. From the size of the bones and the state of preservation it seems she must have been there from three to five years. A Bible was also found in a fair state of preservation.

Ed Crossland, a negro under sentence of two years for house-breaking, and who was being tried for perjury escaped from the court room at Princeton Friday. The introduction of evidence had just been closed when court adjourned for dinner. The court house being crowded he rose and went out with the crowd, and was not missed until he had been gone for some time.

The third term talk has received a quietus. McKinley has issued a personal statement declaring that he will not be a candidate for the third term. He expresses himself in this language: "I will say now, once for all, expressing a long settled conviction, that I not only am not and will not be a candidate for a third term, but would not accept a nomination for it if it were tendered me."

Miss Ollie Tyson, a poor Todd county girl, has fallen heir to great wealth. She has learned through attorneys that she will recover \$2,000,000 from the estate of her uncle, who died recently in Australia. Miss Tyson is 24 years of age and has been an orphan for many years. She is one of eighteen heirs to the estate of her uncle, John Tyson, her father's brother. Tyson is a Scotsman who went out to Australia in the forties and made a fortune of over \$40,000,000.

The complete success of the fusion movement in Christian county, which makes the outcome very doubtful from a Republican standpoint, has thoroughly alarmed the Republican ring. The number of Republicans who will vote the fusion ticket is estimated at from 500 to 1,000, and as even 500 will defeat them they are seriously considering a plan to take James F. Rogers off the ticket for representative and put Judge Jas Brethitt, their ablest leader, in his place. This show of weakness and fright is greatly encouraging the fusionists.

The Madisonville Graphic of last week contained a stenographic report of Ollie James' speech in the noted trial of deputy Lindle and possemen. The Graphic states that hundreds of people who heard the address declared it to be the greatest speech ever made in the Madisonville court house. The Graphic says:

"Mr. James is one of the leading members of the bar in this section of the state. In fact he has not only a state but a national reputation as a lawyer and as an orator. He has hundreds and even thousands of friends in this county who would have been glad to hear that speech, but as that was an impossibility, they now have the privilege of reading the same at their homes and at their leisure."

Chas. Dickens' Love Letters.

For more than fifty years an Englishwoman (who is still living) has cherished a little sheaf of letters written by Charles Dickens. These charming letters show the novelist in a new light—that of the successful matchmaker. They tell the story of another man's courtship and show the writer spurred a faint heart into winning a fair lady.

They will be printed—for the first time—in the Saturday Evening Post for June 15.

Everybody Invited.

Our Children's Day service will be held at Rosebud church the 4th Sunday in this month. We have a nice programme to render, and want all friends to give us their presence and attention on that day. But I want you to take notice of three things:

1st. Before you leave your home pray for a good, sweet, holy time.
2d. Put some money in your pocket to drop in the contribution box.
3rd. Bring a nice basket or bucket well filled with old fashioned grub, and let us spend a good time with the children.

Yours for success,
J. W. Crowe, P. C.

Osteopathy.

[From Our Special Correspondent].

FRANKLIN, KY.,
June 10, 1901.

ED. PRESS: How long will it take to cure me and what will it cost?

That depends upon many things. We have had patients who expected to be cured in a month, after ten years of sickness. This may be unreasonable. No doctor can undo within a short time what has taken years or many months to do. Most of our cases are chronic cases, that have been treated years without success by the medical doctors. We have cured chronic cases with One Treatment. But it would be misleading to suggest such results in your case. As a rule it takes some time to benefit cases of long standing; but it depends upon the condition. As a rule we discharge our chronic cases in a comparatively short time. Our patients consider the results they get little short of marvelous. Very often the best results come late, even after the treatment has been discontinued. We have had patients stop treatment and be not entirely satisfied with the results of one or two months treatment, and write us that they rapidly get entirely well after going home—the result of the treatment they had taken. It takes time to get effects. There is no magic in Osteopathy; it is nature working at her best. The osteopath is helping nature. We are positive that we can do more in a given time than any other system and we are willing to make a comparative test at any time.

The cost will be twenty-five dollars a month for treatment, and from ten to fifteen dollars a month for board. At a cost of forty dollars you can take a month's rest and treatment in one of the nicest summer resorts in the country—Franklin, Kentucky. This is the time for overworked teachers, and business and professional men to get in shape for the fall work. We will help you. Suppose you write us about it.

Very truly,
Southern School Osteopathy.

WHAT'S UP?

A Corps of Railroad Surveyors in the County.

Tuesday a corps of railroad surveyors from Chicago reached Marion, and are now at work in the county. They are not talking so volubly that the PRESS or anybody it can find is loaded with information as to the work these half a dozen gentlemen have in hand. The only report they give of themselves is: "We are not supposed to know what the design of trip here is."

Hence we are left to conjecture. They come from Chicago, hence they are probably in the employ of the I. C. railroad. It may be they are to survey the proposed road from Salem to Kuttawa, or from Salem to Mexico, or from Salem to Marion. As the I. C. had a crew a few months ago sounding the Ohio river from Elizabethtown to Ford's Ferry, supposedly seeking a suitable place for a railroad crossing, it may be that this corps has some connection with that work and will locate a route from the point chosen on the river through the interior. It is evident that some movement will be made in a very short time, but the public will have to guess at some things for awhile.

MENACE TO SOCIETY.

John Alexander Dowie, King of Religious Confidence Men.

Sales His Followers with Iron Hand. Pockets the Lion's Share of Their Earnings and Abuses All the World.

[Special Chicago Letter.]

THE religious confidence game is a money-maker par excellence. From time immemorial there have arisen so-called prophets and sons of prophets. Every nation and every sect have paid tribute or given followers to one or more impostors who posed as God-sent apostles and preached recognition and social reform by simply

"Stamping God's name upon a lie just made."

To turn a penny in the way of trade. The religious confidence man is a cosmopolitan sort of chap; and that is why the United States, with its mixed and somewhat nomadic population, has been his favorite field of operation. And of the cities in the United States, Chicago has been his Mecca.

The oily Schweinfurth established his headquarters in the modern Babylon at the foot of Lake Michigan, after he had been driven out of Michigan, where he began operations, and his somewhat less notorious imitator, Teed, likewise selected Chicago as his headquarters. Both of these oleaginous individuals found hundreds of disciples; especially Schweinfurth, who proclaimed himself as the Messiah. Hysterical women flocked to hear him, and transferred everything they had in the world to the "community" of which he was the head—the whole thing, in fact. He might have ended his days as a very rich man had not his baser nature triumphed over his by no means inferior intellectual and business attainments. But in an hour, evil to himself and beneficial to his dupes, he established a community house near Rockford, Ill., which he called "Heaven," but which, according to oth-

the purchase of a valuable tract of land near Waukegan, Ill., where a modern city, to be known as Zion, is to be built.

The Christian Catholic church claims a membership of 10,000; and as each communicant is supposed to contribute a lion's share of his or her income to the overseer in the form of tithes, it is not surprising that Dowie can live in the lap of luxury. The humble exile of ten years ago assumes all the dignity of an Indian nabob and for a stranger to approach him is about as difficult as to secure an audience with the pope. He still preaches, but evidently only for the purpose of abusing those who do not agree with him. Many of his remarks are positively libidinous, others would do credit to a Hamburg fishwife. In word and action he is puffed up by arrogance, and although so far nothing has been said against his personal life his actions would indicate that he is the slave of some drug or else on the verge of insanity.

Looking at the man from a purely commercial point of view it cannot be denied that as an organizer and financier he has few superiors. Starting with nothing, he accumulated \$4,000,000 worth of property in less than a decade, founded a bank conducted for his personal benefit, and laid the foundation of what may become a prosperous and important manufacturing town. In spite of opposition from press and pulpit he is holding together thousands of men and women who would prefer death to the loss of their faith. That such devotion should turn the head of any man is not unnatural; nor is it surprising that Dowie considers himself a second Elijah and the object of many of the prophecies of the Old and New Testament. As the head of the most perfect religious oligarchy of our day he occupies a position without parallel in the history of this or any other country.

Much of his success is due to hypnotic power, which he possesses in a remarkable degree. A vast percentage of the so-called "cures" performed in the early days of the movement were due to this force, and to it he owes his fame as a healer. His unprecedented financial triumphs are the result of

JOHN ALEXANDER DOWIE, GENERAL OVERSEER OF ZION.

ers, was nothing but a harem. The people of Rockford forced him to leave their town, and in the course of time Schweinfurth disappeared altogether from public view. It has been stated that he has turned over a new leaf and is leading an exemplary life. For the truth of this rumor the writer cannot vouch, although it comes from a fairly reliable source.

Before the Schweinfurth excitement had subsided there appeared in Chicago another prophet, whose name has since become familiar to the newspaper readers the world over—John Alexander Dowie. He came from Australia, spoke with an oily tongue, called himself a doctor of divinity and the founder of a new faith cure system of healing all diseases. His assumed humility secured immediate recognition. Several churches opened their doors to him, and his first proselytes were made in houses of worship whose people he has since denounced as "children of the devil." He made some remarkable "cures" and preached a series of powerful sermons. Within a short time the pauper immigrant from the Antipodes had accumulated enough capital to buy a handsome pair of horses and a carriage and to equip a large tabernacle, printing house and sanitarium in Woodlawn, the world's fair district of Chicago.

These outward manifestations of prosperity were followed by the founding of the Christian Catholic Church of Zion, of which he made himself "general overseer." His "hospital" soon degenerated into a public nuisance; and the property owners of Woodlawn, under the leadership of George W. Riggs, instituted a series of legal proceedings which terminated in a victory for law and order, as far as the location of the sanitarium was concerned, but also resulted in advantage to Dowie, who posed as a martyr before his dupes, and induced them to buy a valuable piece of property at the corner of Twelfth street and Michigan boulevard, then known as the Imperial hotel. He renamed it "Zion," refurbished it throughout, and advertised it far and wide as the headquarters of the new religion. Subsequently additional real estate purchases were made and new buildings erected, and a year or so ago his people sanctioned

nerve and the gift of selecting competent assistants. It is said that in employing heads for the various departments of Zion he has not made a single mistake, which, if true, stamps him as a wise judge of human nature. The men entrusted with the management of the vast machinery of the Zion organization are paid liberal salaries—more than they could earn elsewhere—and thus self-interest is made an ally of religious prejudice.

Attempts to bring the Zion bank under state supervision have been foiled by the clever managers of the institution, as well as honest endeavors to secure a statement of its resources and deposits.

The numberless slaughter of innocents—men, women and children, who die by the score, and might have been saved by rational medical treatment—has attracted considerable attention, but thus far the law has not been able to protect the victims of Zion fanaticism. Very recently the wife of one of the church's most prominent officers, H. Worthington Judd, died under the most distressing circumstances, after Dowie had "prayed" for her recovery. Physicians of all schools are unanimous in asserting that the woman's life could have been saved. At the coroner's inquest, her husband volunteered the information that his wife had not asked for medical aid, and if she had he would not have consented to her receiving it. Such is the bigotry of the followers of Dowie. This same Judd, by the way, is the man who assisted Dowie in giving an alleged expose of Free Masonry several months ago. He had been a Mason for many years, but Dowie convinced him that all Masons are "devils" and "children of the devil," hence he considered the act of violating his obligations as one of merit and entitled to Divine reward.

Such is, in brief, the character of Dowie and the work he is doing. How much longer his reign may last it is hard to say; but that it will end ignominiously may be taken for granted, because no system of religion based on personal aggrandizement and the storing up of wealth for wealth's sake has ever endured.

WASTE OF GOLD IS HEAVY.

Loss and Wear of the Precious Metal Amounts to a Million Dollars a Year.

It is fortunate for the world that new gold mines are being developed at a rapid rate; otherwise there would soon be a famine in the precious metal. The loss by the wear of gold coins is in itself of much consequence. A competent statistician estimates it at 1½ per cent. of the total amount in circulation, or \$37,500,000 for gold and silver combined. On this basis it may be calculated that the annual loss which actually takes place in gold alone by wear and tear is about \$20,000,000. Gold is lost in many other ways, vast quantities are hoarded (especially in foreign countries), and a large proportion of this is subsequent-

ORGANS CARRIED IN TRUNKS.

One That Traveled Around the World—Many Are Thus Carried in This Country.

"In the Sun awhile ago," said a man of organs, says the New York Journal, "I read an interesting paragraph about a trunk that a New York manufacturer had made for an organ that was carried around the world by Ira D. Sankey, the singing evangelist. He carried the organ with him to be sure to have one to use whenever he wanted it, and he had that trunk made for it to insure its safety in transportation, and to make it easy to transport instead of boxing and unboxing it every time. They used to carry this organ in its trunk right onto the stage and just open the trunk and throw the top and sides

COL. HENRY STEELE OLCOTT.

This distinguished American is famous the world over as one of the founders and president of the Theosophical society. Although a native of New York, he has for some time made his home at Adyar, Madras, India, where he is considered one of the great lights on all matters pertaining to religious thought. He is now nearly 70 years of age, with a notable record as a civil war veteran, journalist and lawyer. He was one of the intimates of Mme. Blavatsky, and assisted her in forming the Theosophical society, which now has members in all parts of the civilized and semi-civilized world. As a lecturer he has few equals.

ly lost, as shown by the quantity of treasure trove which comes to the surface every year, though it probably represents but a small part of that which has been concealed. Every ship which founders at sea takes a certain amount of gold with it, which may amount anywhere from a few dollars to millions, if it happens to be laden with the precious metal. The amount of gold required annually in the arts is estimated at \$80,000,000, and, as this calculation was made a few years ago, when the annual production was about \$120,000,000, it follows that the amount used in this way is about double that which is used as currency.

An Insulted Goller.

An inquisitive commuter on one of the trains that pulled into the Grand Central station had his dignity ruffled the other day by a facetious engineer. The commuter wore a golf suit of the latest pattern. His suit wasn't ruffled, but his temper was,

back and there was the organ ready for use.

"Very probably that organ trunk made the longest continuous journey of any ever made, but I guess you would find a dozen or dozens of organs toted all over this country in trunks made to carry them in. These organs are carried by theatrical and other traveling entertainments. It might seem as though an organ could be found anywhere in the country, but as a matter of fact that is not so. Carrying an organ along they avoid all difficulty and have just what they want. And if you could get them all into a bundle together I guess you could gather up something like a carload of baggage consisting of organs carried in trunks."

Women in Holland.

A great change has come over public feeling in Holland as to girls in the upper classes earning their own livelihood. The prejudice against

NATURE BUILT THIS BRIDGE.

The accompanying picture shows an interesting example of a so-called natural bridge. It is situated in Whitley county, Ky., about four miles west of the Cincinnati Southern railroad. Geologically it represents the upper part of the lower coal measure of this section. The opening has a span of about 25 feet, and the height from spring to crown is ten feet; the thickness of the arch at the crown is about nine inches. As shown in the illustration, which is taken from the Engineering News, several thrifty trees are growing upon the arch.

when the engineer took him for a bicycle rider. Mr. Inquisitive, seeing that the big locomotive in the yard was in some sort of trouble, yelled at the engineer a query as to what was the matter. His curiosity was satisfied and his suit of clothes insulted when the grimy engineer shouted back at him: "Nothing much; just punctured my tire. Got a pocket pump with you?"

Muscle of Beetles.

While the structure of the muscle of stridulating organs of beetles is extremely simple, they sometimes possess contrivances for varying the pitch. The general structure of such an organ is a hard surface covered with striations, over which some other member of the body furnished with a rasping edge or area is rubbed. When the striated surface is divided into parts with finer and coarser markings, variations of pitch can be produced.

women working for a livelihood has almost disappeared and even rich women sometimes choose a profession. They number doctors, dentists, many of them first rate, photographers, and gardeners. About 1,000 girls hold posts as assistant chemists, some 3,000 are nurses, trained in the White Cross homes, and on a par with the very best of their profession. A woman is curator of the natural history museum in Haarlem and another holds the same post at Utrecht, while a third is head dispenser at a hospital in Amsterdam. The railway, post and telegraph offices are largely served by women clerks, who altogether outnumber the men.

New York a Century Ago. An old copy of the New York Spectator shows that the population of New York city just 100 years ago this May was 60,483. Philadelphia then contained 35,752 people.

NAMING THE STREETS.

A Task That Is Puzzling Washington City Officials.

They Are in Favor of Euphonious Nomenclature, But the "Old Settlers" Protest Against Aesthetic Innovations.

[Special Washington Letter.]

WE RECENTLY had a talk about the development of Greater Washington, according to plans and purposes of the executive and legislative branches of the federal government; and this is supplementary to that statement of current history.

The citizens who have opportunity to visit the capital city of this republic take occasion always to express their pride in its beauty, but they do not realize the fact that its grandeur is due primarily to the genius of L'Enfant, the man whose brain conceived and whose skilled fingers drafted the plan upon which it has been built.

As a matter of fact, this city has been a gradual growth, from decade to decade, and but for the commands of Washington, requiring that every development should be in accordance with the original designs of L'Enfant, this city would be as zig-zag and unsymmetrical as cow-paths could have made it. But every city government has carefully adhered to the original plans, so that out of domestic conditions symmetry has resulted. Within the memory of the writer, farm lands have been invaded, subdivided and built upon, by street and avenue extension of the plans made so many, many years ago.

Now that the congress has authorized a complete system of extension of the highways, in accordance with L'Enfant's plan, the gentlemen in charge in the work, which will stand for a century of city development, are bothered by street and locality nomenclature. The people have heretofore paid little attention to this subject, but it is very interesting.

In its beginning every town is more or less crude and uncouth. Only as it grows into pretentious proportions the civic pride of its people develops. Early conditions and events have a way of leaving their traces in names; this being apparently the principal means of linking past with present conditions and environments. History shows us that many secrets are unraveled in names of locations and individuals.

There is no other way probably in which people put themselves on record in a more spontaneous manner than the names they give to things about them. So it happens that the residents of new towns sum up many of the picturesque, unhappy, ludicrous or grotesque incidents and conditions of the early days by the names which they give their cities, streets, buildings and environs.

As a town grows older its early names are replaced by new ones, fre-

quently much more euphonious and conventional, but seldom as full of meaning. Thus it seems that people who have been content to have their mail addressed Dead Man's Gulch, Snakeville, Cowtown or Windy Gap, eventually begin to feel an aesthetic longing in their souls which leads them to have the names of their post offices changed to Buena Vista, Lakeside, Glendower or Idlewild. This is usually accomplished against the wishes of the "old-timers," who feel it a sacrilege to dishonor local traditions.

But although the name of a town be changed, and its streets rechristened, the old traditions will be kept up in the names of its alleys, and of particular localities of doubtful desirability. The reason for this is because the progress which sweeps the old things away elsewhere doesn't penetrate these places. Hence in every large city, where the landmarks of its foundation are annually disappearing, many of the old traditions will be found preserved in the names of its alleys and less improved localities.

Washington is no exception in this, and a study of the names of its alleys must convince one that this is a matter in which very little interest has been taken by the citizens. In almost every section of the city alleys are to be found with amusing and surprising names, behind many of which there is doubtless a wealth of local history, while in others nothing more than a vagrant whim or a passing fancy is expressed.

It was not without meaning that a certain section of Washington between the capitol and the Potomac river came to be known, and is still called "Bloodfield." The name is less deserved now than it once was, but in the popular mind it will live on long after the reason for it has lapsed, just as few people could reconcile themselves to speaking of the stream that used to flow from the north of Washington down past the

capitol by its official name. That noble stream, which was turned into a sewer some years ago, stood on the maps since the city was laid out as the Tiber river, but thoughtless people were always letting the cat out of the bag, and revealing the plebeian origin of the sparkling waters by referring to it as "Goose creek."

Few people who know much about Washington have failed to hear of "Hell's bottom," although the conditions which gave rise to that unkind designation passed away years ago. Without question, however, the notorious Triangle saloon used to stand will go down among the police men of Washington as "Hell's bottom," and the stories that the name recalls will serve to keep a chapter in Washington history which might otherwise be forgotten. There is a surprising tenacity about names. Long after they have left the plate on the front door, they lead a contented and impersonal life on the alley door. The officials who are rejuvenating Greater Washington in this matter of

THEY FAVOR THE OLD NAMES.

street and avenue extension are bothered with the names of the thoroughfares which are being extended. They have concluded that "Blood alley" should be called "Broad alley," and that "Fighting alley," "Ambush alley" and "Savage alley" shall be named after less reputable historic events of their localities, and they are to be called streets instead of alleys.

It has been decided that there shall be no change made in the paved alleys, which will continue to be known as Methodist, Presbyterian, Baptist, Catholic and Grace alleys; because their names are suggestive of good things and good people. Moreover, their denizens are typical of the religious beliefs indicated by their appellations.

There are two Pig alleys, three Hog alleys and five Bacon alleys, which will keep their names, just as Cow alley will be allowed to hold its own. The porcines and bovinous whose peregrinations to the sledge and knife of the butcher gave names to their highways no longer reach the tables of epicures in that way; but the names of the pathways will be retained by these wise officials who think that a growing city should retain, for at least a time, a part of its local traditions. Parenthetically, it might be said, that it is a pity Chicago might not retain some of the names of its cowpaths and pigpaths, instead of the names of presidents which have been assumed during these later years, since

"The fire fiend threw back his red mantle From off his big blood-dappled vest, And leered in the face of Chicago."

The queen of the north and the west. But this is not a talk about Chicago, although a reference to that capital city of the commercial center of our republic is not out of place by way of illustration of this street nomenclature theme concerning the capital city of the republic in which all of us are intensely and intensely interested.

The officials charged with responsibility in this work for greater Washington are bending over their desks studying the plans and maps. They have already decided upon certain streets and avenues which shall bear the names of presidents, cities and momentous events. It is quite likely that they will manifest sufficient acumen and comprehension to take care of these alleys also; albeit there are scores of gray-haired and bald-headed old men who are making their lives a burden by clamors in vehement behalf of the retention of the names of hitherto almost unheard-of obscure paths which are open according to the common law as "commons of way."

Greater Washington is following in the footsteps of Greater New York and Greater Chicago; but it is toddling along with its difficulties and household troubles, as herein slightly indicated.

SMITH D. FRY.

Caught a White Muskrat. George Archer Brown, whose house is close to the Canoga marshes, in the town of Fayette, Seneca county, N. Y., has in his possession a white muskrat. Like the white deer, the white robin and the white blackbird, this is a very rare animal, tradition having it that but once before has one been seen in central New York waters. Mr. Brown captured the rat, a full-grown one, during the high-water period upon the submerged Montezuma marshes, where it had been drowned out of its usual haunts by the flood. He succeeded in capturing it alive, and values it highly. It differs from the common muskrat only in color, having instead of a ruddy or dark brown fur almost a pure white.

The X-Ray Slot Machine. Chicago capital and inventive genius have succeeded in harnessing the X-rays to the nickel-in-the-slot machine, so that for five cents one can subject his hands or arms to the penetrating rays. For that matter, however, he can turn the light on almost any subject he pleases that can be placed in the aperture in the machine.

FOR SYSTEMIC CATARRH

Peculiar to Summer Pe-ru-na Gives Prompt and Permanent Relief.

Clem G. Moore, Editor of the Advocate-Democrat of Crawfordsville, Ga., writes the Peruna Medicine Company as follows:

Gentlemen—"After four years of intense suffering, caused by systemic catarrh, which I contracted while editing, and traveling for my paper, I have been greatly relieved by the use of Peruna. I gave up work during these years of torture, tried various remedies and many doctors, but all the permanent relief came from the use of Peruna. My trouble was called indigestion, but it was catarrh all through my system, and a few bottles of Peruna made me feel like another person, noting the improvement after I had used the first bottle. Peruna is undoubtedly the best catarrh remedy ever compounded."—Clem G. Moore.

Captain Percy W. Moss, Paragould, Ark., says: "I think Peruna is undoubtedly the finest and surest catarrh cure ever prepared, and it has taken but two bottles to convince me of this fact."

Judge Wm. T. Zenor, of Washington, D. C., writes from 213 N. Capital Street, Washington, D. C.:

"I take pleasure in saying that I can cheerfully recommend the use of Peruna as a remedy for catarrhal trouble and a most excellent tonic for general conditions."—Wm. T. Zenor.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Help for Women Who Are Always Tired.

Who do not feel very well, I am so tired all the time.

You hear these words every day; as often as you meet your friends just so often are these words repeated. More than likely you speak the same significant words yourself, and no doubt you do feel far from well most of the time.

Mrs. Ella Rice, of Chelsea, Wis., whose portrait we publish, writes that she suffered for two years with bearing-down pains, headache, backache, and had all kinds of miserable feelings,

Mrs. Ella Rice.

all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numerous medicines she was entirely cured by Lydia E. Pinkham's Vegetable Compound.

If you are troubled with pains, fainting spells, depression of spirits, reluctance to go anywhere, headache, backache, and always tired, please remember that there is an absolute remedy which will relieve you of your suffering as it did Mrs. Rice. Proof is monumental that Lydia E. Pinkham's Vegetable Compound is the greatest medicine for suffering women.

THE GRAY PILGRIMS.

Lines Written by a Confederate Veteran Dedicated to His Comrades of the Lost Cause.

(Written for the Memphis Reunion.) Whence cometh all these Pilgrims in the pleasant month of May? And wherefore do these aged men toward Memphis wend their way? With shrunken frames, and figures bent, and faces scarred and old— Seek they some Memphis Oracle, their future to unfold?

These men are they who wore the gray in eighteen sixty-one; The future does not trouble them—their duty's nobly done. Their hair is scant, their beards are gray, their shoulders bent and round. But Fame, with laurel and with bay, each hoary head hath crowned!

It was not thus that they appeared some forty years ago. When health and strength were in their limbs, their veins with youth aglow. They firmly stood in serried ranks, each led in gray attire; Their eyes were bright, their muscles taut, their hearts with ardor fired.

For when upon their mother-soil the proud invader trod. Each eager rushed to meet the foe and free their native land from his oppressor. They heard the Union's trumpet call, and answered well the blast. The young, the old, they mustered all—each fearful he'd be last.

'Tis hard, indeed, to realize that these in this array. Are men who under Johnston, Lee and Jackson wore the Gray. For they're as small as common men! whereas their deeds of old Would seem to say, "Behold the Gray were cast in giant mold."

And these same old, decrepit men are some who in that day Of fearful fratricidal strife, did all that mortal man may! They're gathering here in memory of a cause they loved full well; Perchance from their old comrades' throats we'll hear the "Rebel Yell."

But 'twill not rise in thunder tones, as once it did, forsooth; For Time has shrilled their vocal chords, while robbing them of youth. Nor will it voice the fierce, wild ire, born of the battle's rage. Yet will it mark the patriot fire—their children's heritage.

But 'tis not age alone that dims the luster of their eyes. Nor lung impaired that causeth them to utter muffled sighs— Their thoughts today are far away on events of the past. They think of those they'll meet no more 'til Gabriel sounds his blast.

They think of those who with them faced the sleet of shot and shell. And drowned the roar of battle with a ringing "Rebel Yell!" Of those who, boys in point of age, in point of war were "Yess!" Who dauntless braved the cannon's mouth and feared not bayonets.

They think of those who, fighting, fell with pierced and bleeding breast; Of money wounds on many fields where valiant comrades rest. Anon you'll hear a quivering sigh escape some Pilgrim's breast. And furtive hand will seek the eye to brush a tear away.

And when the Angel Gabriel sounds the final reveille. "Assemble on the Colors," next the signal call will be. Then from mountain, plain and valley they will rather with their scars. And they'll yell in joyful chorus underneath the Stars and Bars.

And they'll sing the song of Dixie as they form their last array. And they'll feel the cadence as they march upon their way. And when good Saint Peter challenges, as sentry at the Gates. They'll proudly give the countersign: "We're Ex-Confederates!"

Then will jolly old Saint Peter, give to each a welcome hand. Saying, "I have heard that heathen gods the Titans did withstand. 'But I find certain ramparts wouldn't fare so very well. Should these Pilgrims Gray assail them with their old-time 'Rebel Yell.'"

\$2 A DAY FOR FARM HANDS.

Texas Crops, Both Corn and Cotton. Said to Be Very Much Behind—Work Mules Are Scarce.

Too Many of Them Have Been Bought for the British Army—Big Increase in Price a Result.

DALLAS, Tex., June 1.—The increase in the acreage of corn in the territory tributary to Dallas for the year 1901, as compared with that of 1900, is approximately 20 per cent.; that of cotton is at least 10 per cent.; some estimates make it 15, and others as high as 20 per cent. The 10 per cent. estimate is probably the more reliable.

Very little land of either crop has had to be replanted. Weather conditions were good when the planting was being done.

The labor problem is a most serious one. The situation probably was never so unsatisfactory. Farmers report that labor is scarce, high in price and generally of indifferent classes of workers; no reliance can be placed on the vast majority of the men who promise to go to the farms and plantations, even at the tempting offers of \$2.00 per day and board, to hoe corn and chop cotton. As a result corn and cotton are from three weeks to 30 days late; —on the worst in that respect. Barring the unfavorable labor situation, the outlook is excellent. The most earnest desire the farmers express is to get "caught up" with their work.

May has been unseasonably cold and wet. This has also assisted in making the crops late, as soggy ground has made the fields difficult to work in. Considerable complaint is heard of the scarcity of good farm mules. The demand for these animals for British army service in South Africa was so large last year as to leave the Northern Texas markets bare. The grade of first-class mules that last year sold in Dallas at \$150 per span, can not now be purchased at \$200 per span.—Special to St. Louis Republic.

Mechanical Baggage Smasher. As I stood waiting for the train I saw them run my trunk through a powerful machine, which almost instantly reduced it to an unrecognizable mass of pulp.

My curiosity was piqued. "Why do you do this?" I asked. "In this way we save the wages of four baggagemen," replied the official in charge of the station, politely.

Truly, thought I, we live in an age of mechanical marvels. But what of — hands thus thrown out of employment?—Detroit Journal.

Children love to take Morley's Little Liver pills for Bilious people, because they are small, look and taste like candy, and do not gripe nor sicken them. Sugar-coated. One a dose. Sold by J. H. Orme.

Seven Years in Bed.

'Will wonders never cease?' inquire the friends of Mrs. L. Pease, Lawrence, Kan. They knew she had not been able to leave her bed in seven years, on account of Kidney and Liver trouble, nervous prostration and general debility; but "three bottles of Electric Bitters enabled me to walk," so she writes, "and in three months I felt like a new person." Women suffering from headache, backache, nervousness, sleeplessness, melancholy, fainting and dizzy spells will find it a priceless blessing; try it; satisfaction guaranteed; only 50c; at Ormes.

I have a cottage house with four rooms and hall, in desirable section of the town for sale. Large lot and good improvements.

Black Hair

"I have used your Hair Vigor for five years and am greatly pleased with it. It certainly restores the original color to gray hair. It keeps my hair soft."—Mrs. Helen Kilkeny, New Portland, Me.

Ayer's Hair Vigor has been restoring color to gray hair for fifty years, and it never fails to do this work, either.

You can rely upon it for stopping your hair from falling, for keeping your scalp clean, and for making your hair grow.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.
