KENTUCKY LEGISLATURE

Representative Pogue tells of the Organization and Officers.

FRANKFORT, KY., Jan. 13, 1902. —DEAR PRESS: According to promise I shall try to tell you something about the Legislature.

We organized on the 7th and as we stand 99 Democrats to 37 Republicans it goes without saying that we elected all the officers in both branches. The "Pennyrite" was very fortunate in securing her share of the places. In the Senate we landed Utley, of Lyon, for speaker pro tem.; Mc Walters, of Marshall, for Doorkeeper; and Watson, of Graves for cloak room keeper; while in the house the races were more spirited and much politics was resorted to. The old Gibraltar stood like a stone wall with its eight votes, and when the smoke of battle had lifted the proud victors were G. T. Finn, of Simpson, speaker; Jas. Stone, of Breckinridge, clerk; Geo. H. Peters, of Hopkins, assistant clerk; Garland Sledge, of Warren assistant cloak room keeper; J. B. Knox and Geo. Lawrence pages. We never lost a vote when we set out to win.

The pride of our delegation is George Lawrence, who won for page on the first ballot with twenty votes to spare. He is a brother of Henry R. Lawrence, the member from Trigg who will one day be a power in the politics of the First district.

In our caucus for United States Senator we were not so fortunate. Messrs Wheeler and Smith withdrew, and in the race between Mr. Creary and Cantrell our Representative voted for Judge Cantrell and I hope that the Democracy of my district will not censure me, as I was wholly uninstructed between those candidates, and relying on my judgment I felt that the laurels belonged to the soldier who bled for his country; the Judge who stands without a peer in the history of this state; and a Democrat whose democracy has never been questioned.

We shall ballot next week for prison commissioners; there are two members to be elected and Mr. Richardson, who has made such an excellent record during the four years past will be re-elected, and a close fight is expected between Messrs George and Finnell for the other place.

The race for librarian has ceased to be interesting, as the election is conceded to Miss Pauline Hardin, who has filled the place for the two preceding terms.

We hope next week to be able to give you something about the work of the legislature and the committee appointments.

Yours for the Press,
M. F. POGUE

Strange Sight on face of Moon.

INEZ, Ky., Jan. 7. —W. H. Copeley, a prominent planter and magistrate, claims to have seen strange pictures in the moon. On the last full moon he awoke before daylight and saw the picture of a headless man in the moon, ascending a mountain and carrying a cross where the head should have been. From his description of the mountain it was an exact picture of Calvary. He aroused his wife, and she is a witness to the sight. He firmly believes that had it not been for the passage of Scripture which says that "no man shall see the face of the Lord and live," he would have had a complete view of Calvary and the crucified Saviour.

OLLIE JAMES

Has a Clear Field—Utley will Not Be a Candidate.

Senator N. W. Utley, of Lyon county, who has been prominently mentioned as a candidate for the Democratic nomination for Congress from the First district, Thursday announced that he would not enter the race, and that he would support Mr. Ollie M. James, of Crittenden county. This leaves Mr. James a clear field up to the present time, and First district politicians say he will have no opposition. Mr. Sam Crossland has been mentioned as a possible candidate, but one of his friends said that he probably would not run. Mr. James is here working in the interest of Congressman Wheeler, for the United States Senatorial nomination. The records of the State campaign committee for several years back show that no man in Kentucky has made more speeches and traveled over more territory campaigning for the Democratic State tickets than Ollie James. Though he has been a tireless worker and one of the recognized leaders in Western Kentucky, Mr. James has never held a public office except that of page in the Kentucky General Assembly, when he was a mere boy. He was a candidate for congress against Mr. Wheeler in one of that gentleman's races, but Mr. James withdrew in the interest of harmony. —Courier-Journal.

Five Eclipses.

There will be five eclipses in the year 1902—three of the sun and two of the moon.

The first is a partial eclipse of the sun on April 8th, invisible here. The second is a total eclipse of the moon, on April 22d. Invisible here but visible in Europe, Asia and Africa.

The third is a partial eclipse of the sun, on May 7th. This will also be invisible in our part of the globe.

The fourth is a total eclipse of the moon on October 16th. This "comes our way." This eclipse will be visible all over North and South America, in the Western part of Europe and Africa, and in Northern Asia.

The fifth and the last eclipse for the year will be a partial eclipse of the sun Oct. 31st. This eclipse will not be visible in this country.

The Every-Day Child.

The mother aims at perfection for her child without realizing what perfection in a child should be. Too often the fond parent thinks that the dress makes the child, and consequently adorns it in the latest of showy fashions, without realizing that harm instead of good is done to the child by hampering its actions or making it over conscious. The every-day child will revel in dirt. It accumulates it by satisfying its curiosity, for its hands are into everything, as well as its feet and knees and clothes. He must get nearer to Mother Earth. His instinct is unerring in this respect, and his good nurse repays him a thousand fold. Dr. Peckham Murray, in the February Delineator, says mothers should encourage the mud pie making and sand digging, and the dress and clothing should be such that the child will not be reproved for muddy shoes, or soiled and torn dresses.

SENATOR DEBOE

Receives Republican Nomination for United States Senator.

After a day of hard work, in which it was discovered that Senator Deboe had the most votes, the Republican Senatorial caucus convened, with but one name before it, and Mr. Deboe was nominated by acclamation. Mr. Boring withdrew by telegraph and Mr. Worthington withdrew Mr. Bradley's name. Surveyor of Customs Barnett worked hard to marshal the Deboe forces, as he felt that a defeat for Deboe would mean D. R. Collier's appointment to succeed him.

With the rather remarkable declaration that he was the "only United States Senator Kentucky had ever had," State Senator Thos. S. Kirk, of Johnson county, presented the name of Wm. J. Deboe to the Republican minority of the General Assembly as its candidate to be voted for on re-election.

DEBOE'S ACCEPTANCE.

Deboe started out by telling his assembled Republican friends that he did not intend "at this time" to "discuss in detail all the great national questions which have come before the United States Senate in the past four years." At another point in his remarks he said that he had gone to the Senate from Kentucky uninstructed and had to "exercise my own judgment" on the great national questions. In concluding his remarks he said that he "did not want to be judged by what my political friends have said of me in the press."

The voting was as follows: Deboe 19; Boring 12; Bradley 8.

Governor's Message in Brief.

Urges retrenchment in expenditures to avoid an increase in the tax rate.

Reviews and approves the work of State Board of Prison Commissioners.

Recommends a thorough investigation and reform in expenditures for eleemosynary institutions.

Advices that these institutions be managed by a commission, as the prisons are managed.

Suggests a law providing a uniform system of text books.

Indorses appeal of State College at Lexington and State Normal School for colored persons at Frankfort for larger financial assistance.

Calls attention to the recommendations of the head of the State Military department.

Urges that localities be required to care for their own pauper idiots.

Recommends an appropriation for new State buildings.

Wants a graduated license tax on the business of non-resident corporations, not paying franchise tax.

Approves suggestion of appropriations to enable the State to be represented at Louisiana Purchase Exposition.

A PROFITABLE INVESTMENT.

"I was troubled about seven years with my stomach and in bed half my time," says E. Demick, of Somerville, Ind. "I spent about one thousand dollars and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want to and Kodol Dyspepsia Cure will cure all stomach troubles. LIVINGSTON COUNTY.

Narrow Escape from Death—A Peculiar Wedding.

Mrs. C. H. Bash, of Smithland, had a narrow escape from being burned to death last Saturday. She was alone at home when her clothing was ignited from the grate. Her first impulse was to scream for assistance and begin tearing off the clothing. By the time assistance reached her she was recovering from her fright and viewing the burning garments lying on the floor in front of her. Fortunately she escaped with but slight injury.

The Pittsburg Fluor Spar and Mining Company sustained a heavy loss Wednesday night. A barge of spar had been loaded from the mines near here, on the Cumberland river. During the night the barge sunk in fifty feet of water. The towboat Key City had a contract to tow the barge to Joppa, where the spar was to have been reloaded on cars for the market. The steamer was lashed to the barge and lying at the bank when about midnight the barge went down. The boat was also badly damaged, her sides being torn loose. The loss to the mining company is \$5,000, this being the first shipment started to market.

A matrimonial alliance of an unusual character took place Friday in the Berry's Ferry section of the county. W. B. Davis was united in marriage to his step sister, Miss Maud Hughes. The groom is 18 and the bride 16 years of age. The novel wedding took place at the home of the parents of the couple.

Miss Kitty Coram, who has been teaching school at Grand Rivers, was taken to her home last Saturday on the steamer John S. Hopkins. She was accompanied by her father, who is taking her to her home at Berry's Ferry, Ky. opposite Golconda.

Miss Coram commenced teaching at Grand Rivers last October, and recently she broke down and has been confined to her bed ever since. She has overworked herself.

Miss Coram has been teaching school in the surrounding towns for several years. She has taught at Smithland, Carrsville and other places.

Miss Coram is well known in Crittenden county.

HUSBAND,

If you have a weak, nervous, debilitated wife, do not scold or become impatient with her. Give her kind treatment, loving words and Morley's Liver and Cordial, to renovate, regulate, and strengthen her system, and she will soon be your happy, healthy best half. Price \$1 at Woods & Co.

Sowing wild oats would not be nearly so bad if wives and children did not often have to subsist on the crop reaped.

ALMOST BLIND.

My little four years old girl's eyes were always so weak from birth that she could not stand any light at all. Was treated by several physicians without benefit. My neighbors persuaded me to buy Morley's Sarsaparilla and Iron from Mr. C. Daugherty, Bannock, Ky. Three bottles not only restored her sight but made her stronger and healthier than she ever was in her life. David Kessing. Sold by agents in every town, and by Woods & Co.

An old shoe for comfort and a fresh son for worry.

Cut this out and take it to Haynes' drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German syrup. It will promptly arrest consumption in its early stages, and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds, and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at H. K. Woods & Co's drug store. A WEEK'S RECORD

All the News of the Past Seven Days Condensed.

HOME AND FOREIGN ITEMS

News of the Industrial Field, Personal and Political Items, Happenings at Home and Abroad.

THE NEWS FROM ALL THE WORLD

CONGRESSIONAL.

Both houses of congress reassembled on the 6th and the senate almost immediately adjourned as a mark of respect to the late Senator Sewell, of New Jersey. In the house Mr. Kern (Ill.) introduced a bill to reestablish the army canteen and Mr. Jenkins (Wis.) presented a bill which, in addition to providing the death penalty for assaults on the president, requires alien immigrants to take oath not to assault those in government authority, and not to publicly uphold the subversion of the government by violent means. The death of Senator Sewell was announced and an adjournment was taken.

Over 300 bills and joint resolutions were introduced in the senate on the 7th, among them being one for a memorial arch in Washington in honor of the late President McKinley. In the house bills were introduced for a conference to formulate a universal language; to repeal all of the increased taxes under the war revenue act, and to provide for a complete form of civil government for the Philippines, to begin January 1, 1904. A bill granting to Mrs. McKinley the postal franking privilege was favorably reported, and the Nicaraguan canal bill was discussed.

While considering pension legislation in the senate on the 8th Senator Gallinger, chairman of the committee on pensions, said that none but absolutely meritorious cases would be presented to the senate for its consideration. The nominations of Leslie M. Shaw, of Iowa, for secretary of the treasury, and Henry C. Payne, of Wisconsin, for postmaster general, were received. In the house debate on the Nicaraguan canal bill occupied most of the time. Bills were introduced for the payment of pensions monthly instead of quarterly, as at present, and authorizing the secretary of the treasury to loan the federal surplus to national banks at two per cent. interest.

In the senate on the 9th in executive session the nominations of Leslie M. Shaw to be secretary of the treasury and Henry C. Payne to be postmaster general were confirmed. The committee on census agreed to recommend the passage of a bill to create a permanent census bureau. Adjourned to the 13th. In the house the Nicaragua canal bill was passed by a vote of 308 to 2. Every effort to introduce the Panama canal as a feature being defeated. The census committee agreed upon a bill to maintain silver at a parity with gold.

FROM LAKES TO THE GULF.

Project Giving a National Aspect to the Big Chicago Drainage Canal.

A LINK BETWEEN LAKES AND THE GULF.

The Government to Be Asked to Provide Funds For the Construction of Turning Basins in the Chicago River to Facilitate General Navigation.

Washington, Jan. 13.—The project of giving a national aspect to the Chicago drainage canal, making it a link in water connection between the great lakes and the gulf, was considered by the house committee on rivers and harbors. Two delegations from Chicago were present, one including the officers of the sanitary district interested in this larger project and another headed by former Representative Adams, of Chicago, who appeared in advocacy of improved navigation facilities, including turning basins in the Chicago river. The latter project was first presented by Mr. Adams, who explained the vast magnitude of the commerce on the river and the difficulties and dangers incident to navigation at this time. The city is making extensive improvements, widening the channel, erecting the most modern bridges, etc., costing in the aggregate about \$11,000,000. All of this benefited the general navigation interests and it was desired that the federal government supplement the work by providing turning basins to cost about \$500,000.

W. H. Baker, chairman of the committee representing the canal trustees, stated the general purposes of the project of extending that waterway to the Mississippi and thence giving a deep water channel to St. Louis. For the present, the committee asked only a government survey to develop the feasibility and advantages of the plan, this survey to cost \$200,000. Mr. Baker did not go into the general merits of the project, saying that the arguments were the same as those so fully presented last year.

Chairman Burton stated in this connection that the members of the committee possibly examined the project last summer and were familiar with its general features. Mr. Reeves, of Illinois, also stated that the members of the committee were possibly familiar with the situation and this obviated the necessity of a long hearing. At a later date the committee will pass upon the two items proposed.

TEN MILLION YEN STOLEN.

Corean Government Officials to Lose Their Heads for Stealing Public Money.

Tacoma, Wash., Jan. 13.—Mail advices from Seoul, Corea, via Yokohama, are to the effect that checking of the government receipts from taxes and internal revenue reveals the astonishing fact that not less than 10,000,000 yen have been embezzled by government officials during the last six years.

Ye Yo Yok, minister of finance, advised the emperor to pass sentence of death on all officers who embezzled over 2,000 yen. The emperor's sanction was given over three weeks ago, and wholesale executions will soon take place. Eighty officials are implicated, many of whom have already been arrested.

Among those condemned is Cho Pyng Jik, premier. The officials under arrest claim that the money taken by them was in payment for salaries or expenses incurred in collecting.

WILL FIGHT TO THE LIMIT.

John N. Watts Doesn't Want to Come Back to Illinois From Canada.

Windsor, Ont., Jan. 13.—Magistrate Bartlett, before whom application was made, some time ago, for a warrant to extradite John N. Watts, formerly of Springfield, Ill., who is charged by his divorced wife with having kidnapped their child, whose custody the Illinois courts awarded to her, decided that the alleged offense was extraditable, and ordered Watts remanded for extradition. The case will be carried immediately to the high court of justice in Toronto by Watts' attorneys by means of habeas corpus proceedings.

MRS. MAMIE BARNES ON TRIAL.

She is Charged With Complicity in the Murder of Her Husband by Means of Poison.

Jacksonville, Ill., Jan. 13.—Mrs. Mamie Barnes is on trial in the circuit court of Morgan county on a charge of complicity in the poisoning of her husband, Dr. Joseph L. Barnes, who died at the Central asylum for the insane, in this city, under mysterious circumstances last May.

William Ferguson, a negro servant in the Barnes family, who is now serving a sentence in the penitentiary on the strength of his own confession of being a party with Mrs. Barnes in the murder, will appear as the principal prosecuting witness. It was Ferguson that carried the fatal dainties to the insane patient, and he claims to have been the agent of Mrs. Barnes, who, he says, inspired the deed.

NORTHERN SECURITIES CO.

Minnesota's Action Will Be Up for Hearing in the Supreme Court January 29.

Washington, Jan. 13.—In the United States supreme court Chief Justice Fuller announced that argument upon the application of the state of Minnesota for leave to file a bill of complaint against the Northern Securities Co., bearing on the consolidation of the Northern Pacific Railway Co., with other railroad companies would be heard Monday, January 27. The chief justice also issued an order requiring that notice of the application should be given to the Securities Co.

BRICKLAYERS AND MASONS.

Annual Convention of the Bricklayers and Masons' International Union at Pittsburgh.

Pittsburg, Pa., Jan. 13.—More than 300 delegates to the annual convention of the Bricklayers and Masons' International union were in the seats at ten o'clock Monday morning, when Dr. J. Guy McCandless, director of the department of public works, welcomed them to the city. Response was made by President Gubbins, of Chicago, after which the usual committees were appointed and the rest of the session was devoted to receiving and accepting credentials. The convention will be in session two weeks.

AN OLD CHARGE REVIEWED.

Col. Wilder S. Metcalfe Finding Opposition to Confirmation as Pension Agent.

EVIDENTLY HAS ENEMIES IN KANSAS.

The Charge is Reiterated that He Killed, an Unarmed Filipino Prisoner During the Battle of Caloocan While the Prisoner Was Pleading for Mercy.

Washington, Jan. 13.—Before the senate committee on pensions, Monday, the charge against Col. Wilder S. Metcalfe, of killing a prisoner while in service in the Philippine islands, was revived. Col. Metcalfe is the nominee to the office of pension agent at Topeka, Kas., and the charge is made in connection with the effort to defeat his confirmation. Col. Metcalfe was a major in the Twentieth Kansas volunteers when the battle of Caloocan was fought, and the charge is that during the battle he shot with his revolver a Filipino prisoner who was unarmed, and, at the time, on his knees pleading for mercy. Affidavits from soldiers in the Twentieth Kansas have been filed with the committee and Capt. Edward Boltwood, late captain of Co. K., of this regiment, appeared before the committee in person. He pressed for full investigation, saying that the inquiry which had been made by the war department was superficial. The committee heard Capt. Boltwood at length and at the conclusion of the hearing Chairman Gallinger referred the nomination to Senators Simon, Scott and McCumber for further investigation.

THE BATTLESHIP ILLINOIS.

The Big Ship Has Successfully Demonstrated the Possibilities of the New Floating Dock.

Washington, Jan. 13.—The big battleship Illinois has just come out of the floating drydock at the New Orleans naval station, having successfully demonstrated the possibilities of that structure. The department has been obliged to change its plans in respect to the vessel's movements. It will be necessary to omit the call at Pensacola, which had been promised to the Florida people, and, instead the ship, after touching at Havana for coal, will proceed directly north to Newport News. Under the terms of the contract of the builders the two day's sea trial must be had soon, and the ship must be thoroughly inspected by the board to make sure that the contractors do not escape any proper liability for deterioration. It is expected that the Illinois will be one of the American warships present at the coronation ceremonies in England.

SETTLED WITH MISS KNIGHT.

The Duke of Manchester Settles Miss Portia Knight's Branch of Promise Suit.

London, Jan. 13.—The breach of promise suit brought by Miss Portia Knight, the American actress against the duke of Manchester has, after all, been settled out of court, the duke paying Miss Knight £1,000, and defraying the costs of the legal proceedings. An agreement was reached Saturday and the final papers will be signed Wednesday next, when the money will be paid.

The lawyers in the case say nothing in the nature of a grave scandal would have developed had the suit come to trial, but unpleasant notoriety would have attended the reading of love letters, etc.

A POLICEMAN AND HIS GUN.

Policeman Cruse, of Knoxville, Tenn., Objecting to Being Shot at, Shoots Some Himself.

Knoxville, Tenn., Jan. 13.—Early Monday morning Policeman Cruse shot and probably fatally wounded Lon and Alex Nelson. Cruse was going home when he claimed, he was fired upon, and on investigation he found the Nelsons with some other men on a nearby corner. A difficulty followed in which Cruse shot the two Nelsons. It is alleged that an attempt was made several months ago to assassinate the policeman.

NO QUARTER IS SHOWN

The Fight Between the Roads and the Scalpers—Henry Caspary Arrested on Charges Preferred by the Joint Validating Office.

Henry Caspary, a ticket broker, was arrested at the Atlantic Coast Line depot yesterday afternoon on a charge of disorderly conduct. The charges were preferred by representatives of the joint validating offices. The agency had prepared for another big "killing" of scalpers' tickets and it was while the work was being planned that Caspary was arrested.

During the day it became known to the agency that a number of long distance tickets would be used on the Coast Line train, and, as there was an abundance of evidence and identification, the representatives of the office were prepared to see that none but original purchasers went through. In order to inspect all transportation before the train started north all avenues leading out from the station were locked and passengers were required to pass through the regular gate. Many cut-rate dealers were in the station. One dealer went to the gate and he was told that he could not go in without showing his ticket. He had none and he quietly stepped aside. Caspary appeared at the gate just as the other dealer moved away and the agency people allege that he became obstreperous when refused admittance. He was talking loudly, when a policeman was called and he was placed under arrest. He was released on the deposit of a \$10 bond.

The fact that proper identification had been secured by the validating office prevented the scalpers from sending their customers to the gate and they resorted to other means of hoodwinking the railroad. They made an utter failure, however, for telegrams from Florence last night stated that several passengers had been ejected from the train for attempting to use scalpers' tickets.

In order to get by the agents in Charleston the purchasers of the "out law" goods bought tickets to Florence, at the station, and after passing Florence handed in the cut-rate transportation. It happened that the conductor who left Charleston went on to Rocky Mount and he was given instructions about the tickets. The scheme was too thin and the ejected passengers had to walk back to Florence through the cold night air.

Ordinarily the scalpers might be able to get their goods through by following this plan, but the situation is being handled so well here by the validating agency that most tickets that drift into the office of the brokers are put on the blacklist.

A man who had bought a cut-rate ticket out of Charleston had an unpleasant experience the other day that he is not apt to forget. He was traveling with his wife and was in the dining car on the Atlantic Coast Line train when the conductor went in for his transportation. The train had stopped for a moment and consequently the conversation was heard by every person in the car. The conductor was looking at the signature.

"Why, I don't understand this," said the conductor, "for you are riding on a negro's ticket." The passenger pricked up his ears, then colored quickly and his eyes dropped. By this time the other people were listening. "This ticket," he continued, "was originally purchased by a negro known personally to me. It is not yours, neither is this your name, so I think I'll take it." The passenger looked sheepish and then paid his fare. The incident was not pleasant for his wife, but it was amusing to others in the dining car. News and Courier, Charleston, S. C., December 18, 1901.

The Principal and Pupil.

We must tell you a highly diverting incident related of Mr. Legstrom, the popular principal of the Englelimber high school.

It seems that one of the young ladies was writing an essay.

"Mr. Legstrom," she asked, pausing at the end of a line of her manuscript, "how do you divide 'infinite'?"

Mr. Legstrom's severely scholastic features relaxed into a smile.

"My dear young lady," he said, "it is not permissible to split the infinitive at all."

On being informed of this bon mot, O. T. Brilliant, the genial and capable county superintendent of schools, could not restrain his mirth.—"Chicago Tribune.

Children's Questions.

Little 3-year-old Philo had been taught to say to his mother, "I love you more than tongue can tell." He had repeated this one day to the admiration of some visitors, when, looking puzzled, he asked, "Mamma, what is 'tuncan'?" A few days after this he had been at church one Sunday and heard the choir sing "The consecrated cross I'd bear." On the way home he inquired, "Mamma, what is a consecrated cross-eyed bear?"—Hemiletic Review.

Big Prayer Books in England.

There is at present an unusual demand for the largest-sized prayer books, which are used by the clergy in the conduct of religious service. In many cases the changes necessitated in these, following the death of Queen Victoria, were simply made with a pen. It was thought unnecessary to buy new copies until the changes were completed by the creation of the hair apparent as Prince of Wales. Now that has come about, copies of the

AFFAIRS IN PORTO RICO.

The Work of Preparing a Code of Laws to Supplant the Spanish Progressing.

LEGISLATURE DILIGENTLY AT WORK.

The Present Feeling of Buoyancy in the Island in Marked Contrast With the Depression of Two Years Ago—United Support of the Administration.

New York, Jan. 13.—L. S. Rowe, chairman of the law revision commission of Porto Rico, arrived from San Juan on the steamship Ponce. The codes prepared by this commission are being made the main subject of discussion at the session of the legislative assembly of Porto Rico, which opened on the first of January. In speaking of the work of the session Mr. Rowe said:

"The attitude of the legislative assembly towards the codes submitted by the commission demonstrates the widespread desire to secure, as soon as possible, the full benefit of American institutions. The Foraker act continued in force all the Spanish laws until amended or repealed by the local legislative assembly. This work of amendment has been taken up with great earnestness. The codes which the legislative assembly is now considering will bring the legal system of Porto Rico into close harmony with the general principles of law prevailing in the states and territories of the union, it is said, and will, to that extent, encourage the influx of American capital to the island."

"The feeling of buoyancy which now prevails throughout Porto Rico stands in marked contrast with the depression of two years ago. The improvement of the credit of the municipalities, as shown by the San Juan loan, will enable the cities and towns to undertake much needed improvements in drainage, water supply and sanitation. A final element of strength is added to the situation by the fact that both political parties have come to the support of the administration. At the banquet recently tendered Gov. Hunt, the leaders of both parties pledged their united efforts for the advancement of the common interests of the island."

Cleveland, O., Jan. 13.—The last step in the formation of the big Pneumatic Tool trust was the filing of a deed of trust for \$2,500,000 in the county recorder's office Monday. The deed was from the Chicago Pneumatic Tool Co., of Detroit; the Boyer Machine Co., of Philadelphia; the Chisholm & Moore Manufacturing Co., of this city; the Franklin Air Compressor Co., of Franklin, Pa., and 20,000 shares of the new Taite-Howard Pneumatic Tool Co. of London, England, together with all the patents of the big concern, are included in the securities.

CASE OF MRS. RICHARDSON.

A Plea of Not Guilty Entered and a Continuance Until January 30 Agreed Upon.

Kansas City, Mo., Jan. 13.—A special to the Star from Plattsburg, Mo., says:

The case of Mrs. Addie L. Richardson, charged with the murder of her husband, Frank W. Richardson, was called in the circuit court here. The formal charge was not read to Mrs. Richardson, Judge Barnes merely reading the title of the case. One of the attorneys for the defendant pleaded not guilty for her. Then the attorneys announced that they agreed on a continuance until January 30, when the selection of a jury will begin. It is believed by that time that Stewart Fife, who is under arrest at North Yakima, Wash., charged with complicity in the murder, will have been returned to Missouri.

THE CARNEGIE INSTITUTE.

The Trustees Say There Is No Reason for Congressional or Government Action.

Washington, Jan. 13.—It is stated by one of the incorporators and trustees of the Carnegie institute that no reason is perceived at present for any congressional or governmental action in connection with that educational scheme. As it stands the institute is like any other private corporation. Therefore, it is held, there can be no question as to the propriety of its holding any class of securities whether steel bonds or United States government bonds as the basis of its endowment.

This statement is believed to indicate Mr. Carnegie's purpose to place his bequest in the shape of United States Steel securities as originally intended.

A Day's Doings in Kentucky.

THE GENERAL ASSEMBLY.

After a Short Session Both Houses Adjourned Until Monday.

Frankfort, Ky., Jan. 11.—The state senate met at 10:30 o'clock Friday. Senator Nat Howard introduced a bill to take the place of the present Kentucky law as to negotiable instruments. It is a copy of the law now in force in 16 states, and is to carry out the idea of lawyers everywhere that a uniform law on this subject should be established. The senate at 12:30 o'clock adjourned until noon Monday. Senator Taylor, of Franklin, offered a bill providing that distillers may have ten days from the 1st of January, May and September to report withdrawals of whisky to the state auditor and may omit the serial numbers of barrels. A resolution similar to that adopted by the lower house inviting the white ministers of the capital to open the sessions with prayer was adopted by the senate. Senator McNutt, of Louisville, presented a bill to change the present law giving the general council of that city the power of electing a city attorney and fixing his salary to appointment by the mayor at an annual salary of \$5,000 and two assistants at \$2,500 each. Senator Tolin, of Boone, offered a bill requiring all telephone lines to plug together at least one place in each town and city in the state.

The house session was brief. Representative Rogers, of Christian, offered a resolution that the house drop politics and get down to business. It was withdrawn after some discussion, and the house adjourned until noon Monday.

SENSATIONAL CHARGES.

James E. Doyle Enters Suit Against the Standard Oil Co.

Lexington, Ky., Jan. 11.—James E. Doyle, former local manager of the Standard Oil Co., and until lately identified with the Wilburne oil works, of Cincinnati, Friday filed suit against the Standard Oil Co. and G. B. Gilman and M. F. Griffith, doing business as the Brilliant Light Oil Co., for \$25,000, alleging a conspiracy to ruin his business and control the oil business in Lexington. Among sensational charges are these, that the representatives of the two companies used threats and deceptions to rob him of patrons, that their employees pursued, set upon, abused and threatened the driver of his delivery wagon, causing him to resign; that they instigated his arrest on two occasions on charges proved to be false and circulated false reports about him and his wares, and threatened his customers with prosecution, finally forcing him to give up his position.

THE JURY COMPLETED.

Opening Statement in the Howard Case Made By Judge Williams.

Frankfort, Ky., Jan. 11.—The jury in the Howard trial was completed Friday afternoon and Judge Ben Williams, for the prosecution, made the opening statement to the jury, in which he said it would be proved that Howard admitted, after he returned to Clay county, that he shot Goebel. He said Howard wanted a pardon. Taylor wanted Goebel killed, and when the two met Goebel's death resulted. Attorney Gordon objected to Williams' statements, and Judge Cantrill sustained the objection in part, but overruled Gordon's motion to discharge the jury because of Williams' statements.

The jury is composed of nine democrats, two republicans and one populist.

Died Suddenly.

Lexington, Ky., Jan. 11.—Alexander McClintock, aged 68 years, father of U. D. McClintock, dean of the Chicago university and at one time the most prominent breeder of Alderney stock in the entire south, called his wife to his side Friday morning at 10 o'clock and, laying his head on her shoulder died without uttering a word. He complained Thursday of heart trouble, but no attention was paid to it Friday was his birthday.

SYDNEY LASCELLES CAUGHT.

The Police of Boston Capture Sydney Lascelles, the Noted Swindler of Many Alliances.

Boston, Jan. 11.—The police here have captured Sydney Lascelles, a noted swindler, said to be known to the police of three continents as Lord Walter Beresford. He is held on request of the authorities at Hot Springs, Ark. When arrested he gave the name of Robert Leonard, but when shown his photograph from the police gallery he admitted he was Lascelles. He has been known under many aliases, besides Lord Beresford, among them being Sir Harry Vane, R. N., and Lord Courtney, Claude B. Lascelles and James B. Lascelle. The charge against him in Hot Springs is the larceny, in 1891, of \$1,200 from Lyman J. Hay, proprietor of the Arlington hotel.

It is said that Lascelles, as Lord Beresford, eloped from Algiers with the daughter of an American minister, who, after learning of the man's character, secured a divorce. He has served terms in New York and in Georgia for swindling and forgery. It is said he is now the husband of a wealthy young woman of Providence, R. I.

PARAGUAYAN REVOLUTION.

The Reported Revolution in Paraguay Turns Out to Be the Real Thing.

Buenos Ayres, Jan. 11.—(Via Galveston)—The rumors circulated here, Thursday of a revolution in the Republic of Paraguay, turn out to be well founded. The revolt, which broke out at Asuncion, the capital, was caused by the question of the presidential succession, the term of President Aceval expiring in November of this year.

The revolutionary junta was composed of Gen. Caballero, Gen. Escobar, Col. J. A. Encuerro, the minister of war, Senor Marro, a cabinet minister, and Senator Freitas.

President Aceval resigned the presidency and congress accepted his resignation.

A collision occurred in the chamber of deputies, during which Senator Facundo Infran, president of the hygienic council, was killed, and Gen. Caballero, Senators Miguel and Corbalan and Deputy Fernando Carreras were severely wounded.

The congress of Paraguay has placed the reins of government in the hands of the vice-president, Senor Hector Carvallo. Great excitement prevails.

FOR VENEZUELAN WATERS.

Rear-Admiral Higginson, With the Kearsarge and Other Vessels, Going to Venezuela.

Washington, Jan. 11.—It is probable that Rear-Admiral Higginson, with his flagship Kearsarge, and several other vessels of the North Atlantic squadron, will shortly repair to Venezuelan waters, making his headquarters at La Guayra. The ships which Admiral Higginson will take with him on this cruise will have an unusually large complement of marines aboard. These precautions are taken, not with any offensive intent towards Venezuela, but merely to guard against an outbreak of anarchy and rioting in the event that the revolutionists should prevail over Castro's forces in the field. Owing to Admiral Higginson's high rank he naturally would command any joint operations that might be incident to the landing of naval forces of various nationalities.

IT CREATED A SENSATION.

Lexington (Ky.) Daughters of the Confederacy Object to Uncle Tom's Cabin Shows.

Lexington, Ky., Jan. 11.—Lexington chapter United Daughters of the Confederacy have sent a written petition to Charles B. Scott, manager of the Lexington opera house, asking that the play "Uncle Tom's Cabin" never be played again at the opera here. They give reasons that the best citizens and old families living in and about Lexington were once slave owners as a heritage not of their own choosing; that the incidents of "Uncle Tom's Cabin" are not typical of slave life in the south, but of isolated cases; that the production, the play and its being advertised with bloodhounds and pictures of an old negro in chains and a slave owner with whip in hand, give a false idea of the history of the times to the children of the city, and its disrespect to the southern gentleman and good citizens and their families in this part of the country.

The petition is signed by four of the most prominent women of the chapter and indorsed unanimously by the members. It has created a sensation here.

THE RELEASE OF MISS STONE.

According to Constantinople Advertisements It Is Only a Question of Hours Now.

London, Jan. 11.—The release of Miss Ellen M. Stone by the brigands who have held her in captivity since September 3, is believed to be only a question of hours. An official telegram received in London, Friday afternoon, which was dispatched from Constantinople after midday, says the release of Miss Stone is imminent.

WILLIAM MARSH RICE'S WILL.

An Order that Indicates a Settlement With the Heirs of the Murdered Millionaire.

New York, Jan. 13.—An order signed by Surrogate Fitzgerald indicated that there may be a settlement made with the heirs of the late William Marsh Rice, the aged capitalist of Texas, for whose alleged murder Albert T. Patrick, an attorney, is awaiting trial here. The order permitted Nina Belle Rice, grandniece of the deceased, to withdraw her opposition to the probate of the will of 1896, known as the Baker will, on receipt of \$75,000. Reason for the supposed settlement was said to be found in the belief that the so-called Patrick will, which made the alleged murderer residuary legatee, would fail and that the will of 1896, creating the Rice institute in Texas would stand.

Mrs. Bland as Hostess.

ANNOUNCEMENT.

FOR CONGRESS.
We are authorized to announce
OLLIE M. JAMES

a candidate to represent the First District of Kentucky in Congress, subject to the action of the Democratic party.

James B. McCreary was formally elected United States Senator Tuesday to succeed W. J. Deane. Only one ballot was taken.

The increase in insurance rates in Marion may be justified from a business standpoint, but we would like to see some evidence on that proposition before it is accepted.

Senator Campbell has introduced a bill to prohibit the use of Paris green on tobacco. That is all right, if he will make it a fine for tobacco worms to be caught running at large.

The Kentucky Senate, Democrats and Republicans voting together, adopted a resolution endorsing the Dewey verdict in the Sebelius case. This is getting to be about as unanimous as vaccination in a smallpox epidemic.

The Democrats at Washington and the Republicans at Frankfort might get up a mutual admiration society for their own delectation this winter; neither seems to be able to make its presence known where it is. Either could establish an alibi without a prodigious expenditure of money.

The legislature and the people alike are to be congratulated upon the promptness with which the former dispatched the election of a United States Senator, prison commissioners, and State librarians. With the ground cleared and stumps out of the way, the boys can get down to plowing and other real business on hand.

When a man runs out of a job in Marion, he falls back upon the old and very pleasing amusement of cussing the police court. It might be said right here, that this court is constituted by law, recognized by the people, and is under as great an obligation to perform its functions as any other branch of the judiciary in the State. Its jurisdiction may not be concurrent with that of the circuit court, and matters involved in its calendar may not be as momentous as those of the Federal judiciary, but for "plain drunks," and incidents and issues resulting therefrom, it is the tribunal proper and people who "cuss" the court should turn the muzzle of their vituperative weapons towards the law that makes drunkenness an offense, and not against the court that seeks to enforce a law enacted by the legislature.

SALEM LETTER.

Interesting Local News Gathered For Press Readers.

The mining business here has been very quiet for several weeks, very little being done at any of the mines; but most of them open up again soon with a full crew of hands.

Mr. Herne, President of the Eagle Fluor Spar Co., is here now and busy putting in machinery to separate the metals found in his mines here; while our genial friend, Capt. Hasse, the general manager of the company is making Marion headquarters while he looks after their interests at Needmore.

Mr. Morton, general manager of the American Lead, Zinc and Fluor Spar Co., who has a large plant at Lola, returned last Sunday, bringing his wife with him, and we are informed that he expects to begin work there again soon, in earnest. Mr. Morton always has one good eye open to business, and his company own some good mining property at several points in the county. We welcome Mr. and Mrs. Morton and hope they will become permanent fixtures of our town.

The Manard mines near Cumberland river are running on full time with a full force of hands and have been all winter. Mr. Manard, the general manager, is a hustler and his company own some of the finest mining property in the county and they have the means to develop it. As soon as we get the railroad through to Carrsville to Kuttawa we predict they will put in a spur from this place to their plant. They will find this cheaper than boating the

output, especially if they meet with the misfortune to sink many more barges of spar.

Dr. Fred LaRue and wife and Judge Thos Evans, of Smithland, paid our town a visit last week.

Jim Barnett of Carrsville attended church here Sunday.

Mrs. Chas LaRue and her little daughter, Leola, and Miss Addie Boyd, of Levas, were visiting friends here Saturday and Sunday.

Miss Fleet Barnes, who has the charge of a millinery establishment at Eureka Springs, Ark., is visiting her parents here during the dull season. She will return in the early spring.

Calvin Elder, of Marion, the genial and hustling tobaccoist, is general manager for Mr. Cardin's stemmy here this year. They have made a large purchase of the weed and are working a full crew of stemmers.

H. D. McChesney and wife entertained a party of friends Sunday at the noonday meal. The menu was complete and was most admirably served. When Mrs. McChesney's dinners fail to awake your appetite you are surely sick.

Mrs. Roney, of Marion is spending a few days in our town. She has many friends here and we are always glad to have her with us.

Prof. Roxa Tyler, of Chicago, Vice President of the Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter, which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy, and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering and I will never be without this splendid medicine again." At Haynes'.

STATE NEWS.

Gov. and Mrs. Beckham will entertain the members of the General Assembly, State administration and Frankfort friends Friday evening.

James Mayes, a negro accused of an attempt to assault a white girl was hanged by a mob at Smithfield, Ky., at 2 o'clock Saturday morning.

Senator George W. Hickman of McLean county has announced his candidacy for Congress from the Second district. The other candidates are O. A. Stanley and W. R. Howell. Capt. W. T. Ellis, of Owensboro, is a candidate to succeed Judge Guffey in the Court of Appeals.

New York, Jan. 8.—The Atlantic and Pacific Oil Company, now booming Kentucky oil lands among investors in this city, is playing as a big card the so-called "gusher" opened in Knox county. The company followed the strike with a half page advertisement in the Herald, in which it announced that "Kentucky surpasses Texas" in oil lands.

Ex-Gov. James B. McCreary was chosen by the Democratic caucus as the nominee for United States Senator on the first ballot, Thursday night. The name of Judge James E. Cantrell was the only other presented. The vote was 62 to 37, and the nomination was at once made unanimous. Messrs. Wheeler, Smith and Cantrell conceded early in the afternoon Mr. McCreary's certainty of success, and Messrs. Wheeler and Smith announced their withdrawal, but the friends of Judge Cantrell, anxious to compliment him, insisted upon presenting his name to the caucus. When the ballot had been taken and Mr. McCreary declared the nominee, he was called into the legislative hall, where thirty-two years ago he sat as a member, and he made a speech of acceptance.

FRUIT IS KILLED,

By December Blizzard, Say the Wiseacres—No Peaches.

Those who profess to know, are making doleful predictions regarding the fruit crop of 1902.

They say the unprecedented December weather of some weeks ago killed the peaches, the cherries, the plums and the pears, according to the Paducah News-Democrat. A few dormant buds may have escaped, but, according to the wiseacres, the peach crop, at least, is apt to be a total failure.

What is almost as bad, it is said that the blackberry, dewberry, raspberry, and strawberry vines were all frozen and killed by the intensely cold weather of the past month, and that no fruit may be expected from this source.

Mrs W. A. Blackburn returned to her home in Louisville Monday after a visit with relatives here. Her sister, Miss Laura Harley, accompanied her home.

Monday morning the residence of Dr. J. R. Trisler caught fire from a defective flue, but the flames were soon extinguished and the damage was slight.

Mrs. J. B. Kevil will leave today for Walnut Springs, Texas, where she will remain for several months. Mrs. Kevil goes to Texas for the benefit of her health.

Boston & Walker carry a large stock of building lumber and always sell at rock bottom prices. If you need a single or car load of lumber see them.

Big cut in prices; come and see.
P. H. Woods.

Oliver Hurlay is the guest of his parents in this city. Oliver has a good position in a drug store in Crossville, Ill., owned by the Stinson brothers.

The farce-comedy, "A New Buffalo," was presented at the opera house Monday night. The performance was excellent and the audience was well pleased.

Mr. P. E. Cook has been given the position as manager of the Ohio Valley Produce Company's Dressing House at Paducah. Schwab succeeds Mr. Cook as manager of the house at this place.

Mr. E. J. Harrod, of Chicago and Mrs. Lucy Pierce were united in marriage Thursday evening at the Methodist parsonage. Mr. and Mrs. Harrod will reside with the bride's mother, Mrs. E. M. Boaz.

We have a lot of plain sash windows and are able to make you good prices just now.

J. R. Clark Planing Mill Co.

If you are looking for bargains in the clothing line go to O'Bryan's. Read his ad. in this issue. The prices at which he sells his goods are the same prices the merchants pay the wholesale dealer for their goods.

Thanking you very much for past favors I hope to sell you lots of goods in the future. Come with the cash and get the bargains.
P. H. Woods.

Mr. W. G. Hammond has accepted a position with the Illinois Central in their Chicago office. After graduating from the Press office Mr. Hammond took up railroading, and by courtesy of manner, quick intelligence and close attention to business he has gradually risen to his present position, with bright prospects of still further advancement. He has hosts of friends in Marion who will sincerely rejoice at his deserved good fortune.

Dick Waddell Dead.

R. C. Waddell, a well known colored school teacher, died at his home in Marion Tuesday. He had been afflicted with lung trouble several months.

Minstrels Coming.

Goodwin & Noel's Big Minstrels will appear at the opera house Friday night, January 24. This is one of the best minstrel organizations on the road, composed of twenty-five men. They carry a fine band and orchestra. Seats will be on sale at the Press office Jan. 20th.

DAVID WOODS, The Old Clerk is Now Assistant Cashier of Marion Bank.

When Mr. David Woods finished his twenty-four years career as county clerk he was not left without work. Several positions were offered and propositions to go into business again were not wanting. A man with such business qualifications, so popular with the people and so eminently trustworthy, in every way, finds a demand for his talent, and Mr. Woods began work as assistant cashier of Marion Bank Monday morning, and it goes without the saying that he is at home at this kind of work, and he already looks natural at his new desk. The bank is to be congratulated upon its good luck or good judgment in securing the services of Mr. Woods.

OLD OFFICERS

Re-elected by City Council Last Tuesday Night.

The city council convened Tuesday night. The election of city officials was the most important business transacted. The old officers were elected without opposition. The following are the officials:

A. S. Cannan marshal and supt. of streets.
John A. Moore, city attorney.
Joe C. Bourland clerk and assessor.
H. K. Woods, treasurer.

The Sunday School Contest.

The contest at the Baptist church Sunday night was largely attended and was a success in every particular. The beautiful gold medal offered by Mr. Jno. Morse for the best essay was won by Miss Sadie Rankin. There were four contestants, viz: Misses Melville Glenn, Sadie Rankin, Della Barnes and Jesse Glenn, all members of Mr. Morse' Sunday school class.

Mrs S. M. Jenkins Entertains.

Tuesday afternoon the Literary club was entertained by Mrs S. M. Jenkins, assisted by Mesdames R. W. Wilson and G. C. Gray. The club is pursuing an interesting course of study and reading this winter, and the weekly recitations are always full of delight and reliable information. After the session Tuesday afternoon the club was invited to the spacious and elegantly furnished dining room. The refreshment table was tastefully decked in pink, with potted flowers and ferns, lighted with calandabra shaded with pink, throwing a soft pink light over all. Pressed chicken on lettuce leaves, coffee, crackers, pickles, [and] ices were served. During the luncheon the soft, sweet strains of Mrs Jenkins' harp filled the room, and as the club is composed entirely of ladies, there was just a "touch of talk" now and then. Besides the club the following guests were present: Misses Della Barnes and Kitty Gray, and Mesdames R. L. Moore and R. C. Walker.

POLICE COURT MATINEE

An Interesting Performance, with Specialties Not Advertised.

Thursday afternoon a lively session of the police court was held. Judge Kevil and city attorney Jno Moore were kept busy during the better part of the afternoon. Millard Glore was on trial for using abusive language and breach of the peace. The case was the result of Mr. Glore refusing to be vaccinated. Things began to grow exciting; one of the attorneys for the defence questioned the veracity of one of the witnesses for the prosecution in his speech; then the trouble began, and the lawyer and witness went after each other. In attempting to part the combatants others became involved and the quarrel became general. Quite was finally restored, and five fines were assessed by his honor, Judge Kevil. This was indeed a notable and conspicuous opening of Judge Kevil's administration.

AN OFFICIAL VACANCY.

Forest Heath Fails to Qualify as Magistrate.

Mr. Forest Heath, who was elected magistrate in the Fords Ferry district after a warm fight, was detained at home by the serious illness of his father the day he should have qualified. According to the law he forfeits his right to the office and can not serve even by appointment. County Judge Towery would readily have appointed him, but the law even forbids this. Mr. Heath is one of the most popular young men in his section, and while his friends regret that circumstances were such that he did not and can not qualify, they appreciate his devotion to his old father, who is nearing his ninetieth birthday, and who, it was thought, could not live during the day, on which the other officers qualified. On account of his friends Forest regrets that he was unable to assume the duties of the office.

Notice.

All people knowing themselves indebted to me on drug account will save trouble by calling on Henry Haynes at the court house and settling at once, as I must have my money. J. H. Orme.

The U. S. Civil Service Commission will hold examinations at several places in each state during March and April, to secure young men and women for the government service. 9,889 persons secured positions last year through these examinations. Probably 10,000 appointments will be made this year. All appointments are for life, and for most positions only a common school education is required. Salaries at appointment vary from \$660 to \$1200 per year with liberal promotions afterwards. Politics is not considered. There is less competition in the southern states than in other parts of the country. This affords a good opportunity for people between 16 and 45 years of age. Those desiring places of this kind can get full information about them, free, by writing to the Columbian Correspondence College, Washington, D. C., and asking for its Civil Service catalogue, number three.

Sheriff's Land Sale FOR TAXES.

By virtue of taxes due Crittenden county and J. T. Pickens, Ex S C C for the years 1898, 1899, 1900, and 1901, I or one of my deputies will on Monday, the 10th day of February, 1902, between the hours of 10 o'clock a. m. and 3 o'clock, p. m., at the court house door in Crittenden county, Ky., offer the following tracts of land for sale for taxes, or so much thereof as may be necessary to satisfy the amount of taxes due and cost, to-wit:

115 acres listed by Mary L. Walker. in Marion precinct, No 1 for 1898, \$ 8.15
30 acres listed by Hurst heirs in Bells Mines precinct No. 7 for 1899, \$ 2.50
300 acres listed by Gladstone Mining Co. for 1899, 1900, and by F. B. Posey for 1901, in Bells Mines precinct No. 7, \$55.25
10 acres listed by W. D. Brantley in Bells Mines precinct No. 7, for 1899, \$ 4.75
113 acres listed by Dallas Watson in Hurricane precinct No. 5 for 1899, \$ 5.60

At the March term of county court I will offer another list of land for sale, and at March term of circuit court I will offer more land for sale for taxes. I must collect and settle up my business so take warning and save cost. This Jan. 14th, 1902.

Century 42 takes the cake, carries first prize as the biggest yielder everywhere. The fact is, Salzer's wheat are best to produce. The U. S. Department of Agriculture claims that out of over 400 samples and kinds tested, Salzer's were the best. How do you like that? Mr. Farmer! Our new 25th Century 42 is bound to completely revolutionize oat growing, and we expect dozens of farmers to report yields 1500 bushels from 500 to 500 bushels per acre. Price is dirt cheap. Be in the swing and buy this variety this spring to sell to your neighbors the coming fall for seed. It will surely pay you.

Salzer's Marvel Wheat—42 bu. per Acre
The only spring wheat on earth that will yield a perfect crop north, east, south, and west and in every state in the Union. We also have the celebrated Macaroni wheat, yielding on our farm, 60 bushels per acre.

SPELTZ
The most marvelous cereal and hay feed on earth, producing from 40 to 50 bushels of grain and a ton of rich hay per acre.

VEGETABLE SEEDS
We are the largest growers and our stock of earliest Peas, Beans, Sweet corn and all money making vegetables is enormous. Prices are very low. Orders sent 25 cents and up a pound. Catalogue free.

For 10c—Worth \$10
Our great catalogue contains full descriptions of our Seedless Hareley, yielding 100 bushels; our Triple Luscious Corn, going 400 bushels; our potatoes, yielding 400 bushels per acre; our grain and clover mixtures, producing 4 tons of magnificent hay; our Peas that will last 6 months of hay; and Yonkers with 80 tons of green fodder per acre. Salzer's great catalogue, worth \$10 in any wide awake gardener or farmer, with 10 farms and samples—worth \$10 to get a start—is mailed you on receipt of the postage.

THE MINING WORLD.

Just Now It Is Deeply Interested in California.

All Sorts of Minerals Are Now Sought After by the Prospectors—Wonders of the Famous Coast Range.

[Special San Francisco Letter.]

RECENT inventions, the discovery of improved processes for the smelting of ores, and cheaper transportation have made mining more profitable, and there is more activity in that industry on the Pacific coast than for many years past. There is more territory being prospected, more capital invested, and less "wildcatting" than since the golden days of the "bonanzas," when any hole in the ground would sell at a high price. Mining is now more on a business basis, and efforts are directed towards digging the ore out of the ground, rather than assessing the stockholders. Another cause of the advance in this industry is the more general use of electric lights in the deep mines and a better system of ventilation, thus securing better work, and cheaper labor. In the "low grade" mining camps, where the ore is worth only ten dollars a ton or less, mining cannot be conducted profitably with high-priced labor, consequently, many of the "low-grade" camps were abandoned as soon as the high-grade metal had been taken out. These mines are now being relocated, and districts that were heretofore unprofitable are being worked and more thoroughly prospected. A large number of coal and lead miners from the east have recently engaged in prospecting for gold and silver, working in small companies, and individually. In addition, there are more Chinese engaged in mining than heretofore. They also prospect in small companies or individually, more especially as they are not liked by the white miners. As a rule, the Chinese prospect in the fields abandoned by the whites, and, though they use the crude method, they make good wages. They work the abandoned camps as a matter of expediency, knowing that there are less chances of the envious "Melican man" driving them away. Some of the Chinese prospectors are attracted to these old mines, with the hope of finding hidden treasure. In olden times, when the only means of transportation was by mule, miners buried their gold dust and nuggets in their camps. Some of them died suddenly, or were killed by robbers, and the secret died with them. Many large sums have been found in these camps, and, strangely, this vain hope leads many white prospectors to explore these old abandoned camps.

MINING SETTLEMENT.

The large deposits of mercury, or quicksilver, in this state, and the recent active development of these mines, also add to the cheapness of reducing gold and silver ores. The coast range of California is very rich in quicksilver mines, but they have not been developed to any great extent until recently. It is as profitable as gold mining, and the risks are less. This valuable mineral is found in small globes in porous rocks, but more commonly in the ore known as red cinabar. Hence, its discovery is much easier for the prospector, yet this industry, necessary to mining, has been almost neglected. It was known to exist before the discovery of gold—being found in the mountain ridge near San Jose. It was discovered by a Mexican, who named the mine "New Almaden," after Almaden, in Spain. It produced millions of dollars' worth of quicksilver, of which the Mexican got only a few thousands of dollars. This is the noted mine for the possession of which William McGarraghan contested in the courts for a quarter of a century, and died penniless. American prospectors also discovered quicksilver mines along the coast range while looking for gold, and abandoned them, though they were more valuable than gold mines. Even when gold was discovered, little attention was given to prospecting for quicksilver, or any other mineral, though it was generally known that immense beds of copper existed in the Sierra Nevada mountains, and that the San Bernardino mountains on the south were rich in tin. The prospectors for silver found lead in these ores, also nickel, and in the beds of streams the miners found iron dust which had been washed down from the mountains. But no attention was given to these minerals—the miners were after gold and silver, and threw away fortunes in the pursuit. Now, however, capitalists and more practical men are prospecting for all kinds of minerals and developing the mines. Almost every metal known to commerce is found in this state, and, with cheap labor and modern machinery and appliances, they can be mined with profit. This is being done,

and a new era in the development of minerals has actively begun. The greatest activity is along the coast range, extending from north of San Francisco to the Mexican line. Sulphur is also found in large deposits, and in the southern part of the state manganese, gypsum, rock salt, silica and bitumen are found in large quantities. Bitumen, or asphaltum, is very plentiful along the coast range, and is now being mined for use in paving streets and roads leading to the neighboring towns.

Only recently has bitumen come into general commercial use in this section. The Mexicans formerly used asphaltum for roofing houses—covering the asphalt with gravel. Many of them do so now. Numerous "springs" of asphaltum appear along the coast

MINERS AT A GAME OF DRAW.

at Santa Barbara, El Morro and Capistrano. These springs run into the ocean, and the "troubled waters" are smooth for several miles with this thick, black scum. Asphalt is discovered by traces of the dark fluid oozing from a mountain side to a lower level. It exists in the form of a "spring," is odorless, and thickens when exposed to the air. It burns brightly, and the flame is very hot. Mexicans cut out chunks and use them for fuel. The mining of bitumen is now becoming a very profitable business, since it has come into more general use. The climate of California is favorable to asphaltum pavements—being neither too hot to soften, nor cold enough to harden the material. It makes a noiseless pavement, and an easy spewaway, and is generally used at the public resorts and in the rural districts inhabited by wealthy "colonists."

It is singular, or at least seemingly so, that gold exists only on the west side of the Sierra Nevada, and silver is found only on the east side—an arrangement of nature which geologists have not explained. Also, that gold occurs in its virgin state, while silver appears in various ores.

With silver are also found lead and copper—the lead is used in its smelting. There is always found, also, a few grains of gold with the silver, but so few that they are not worth counting.

Geologists hold that the western side, or gold-bearing part, of the Sierra Nevada is of comparative recent formation, and that the eastern, or silver-bearing, side is of much older formation. In proof of this they cite the fact that the eastern ridges where silver is found consist of granite rocks of a harder formation than the slates of the western side where gold alone exists.

The greater development is now directed to the coast range, which has heretofore been practically neglected—several other valuable minerals being found in the search for gold. Another reason for active development in that part of the state is the climate

HYDRAULIC MINING.

mate is milder, and work can be carried on in winter. On the coast is found the best and mildest climate in the state, and it is more conducive to labor of all kinds, especially mining.

Death Valley, however, is prospected mainly in the winter, as the summer temperature is 120, or higher, and no shade. Rich mines exist in the rocky ravines that course that burning valley, and when the projected railroad is finished water can be transported to the mines, and the ore can be brought out in larger quantities and much cheaper than now.

Almost inexhaustible borax mines exist in the valley, and millions of dollars' worth of this commodity have been taken from them. Water is hauled in by wagons, and every pound of provisions for the laborers also. Nothing eatable grows on this barren waste, and everything soon decays. The wagons are immense structures, and it requires a team of 40 horses to pull a loaded wagon through the heavy sands. Salt and soda deposits also exist there in large quantities. Borax exists nowhere else in California in such paying quantities as in Death Valley. Since the development of these deposits began the price has greatly decreased, and will no doubt continue to decrease.

Black lace should be sponged with green tea to be made to look quite new and fresh again.

Sour milk added to the water with which oilcloth or linoleum is washed gives it a luster like new.

Flat irons should not be allowed to become red hot, for they never retain the heat properly afterward.

When making cakes, etc., try greasing the tins with olive oil instead of butter, and they will turn out much better and without any trouble.

To preserve blankets that are badly worn, patch all holes too large to darn; then cover with cheese-cloth and tack with colored yarn or worsted. Buttonhole with the yarn across the ends.

To loosen a glass stopper soak a corner of a glass cloth in boiling water and then wrap it round the neck of the bottle. The heat will cause the neck to expand and then the stopper may easily be removed.

To renovate leather furniture wash it with a little soap and water and when dry apply a little vaseline, rubbed in with the hand. Let it remain till next morning, then polish with a soft duster. This treatment will prevent the leather from cracking.

The very best dishcloths are made of knitted cotton, for they wash again and again and look like new. After using always wash a dishcloth with soap and soda, then rinse thoroughly and hang in the air to dry. A dirty dishcloth is a disgrace to a housewife.

Must Speak Spanish.

American railroad men in Mexico, holding positions which bring them in touch with the traveling public, and who are not able to speak Spanish, are now spending all their leisure time in acquiring a knowledge of the language of the republic.

The new federal law, which took effect on January 1, is responsible for the studiousness of the railroad men. It requires all representatives of railroad companies to furnish information after that date.

Story of Dr. Hailes.

Dr. William Hailes, of the Albany Medical college, is very fond of a joke, and can give as well as take one. Among the students in anatomy is one who answers to the somewhat unusual cognomen of Crow—when he answers at all—for this student was, as the doctor facetiously observed a week after the opening of college, when for the first time he answered roll call, a rare bird. After an unusually prolonged period of absence, the student presented himself the other day, and one of his classmates tried to explain that he must have been detained by a game of croquet! The racket which succeeded this remark made no impression on the doctor. Without heeding the diversion, he proceeded to express his great pleasure at the wanderer's return, and then convulsed the class by quickly remarking: "Why I am delighted to see you, Mr. Crow, what is bothering me is whether there is any necessary connection between the absence of your caws and the 'caws' of your absence."—Golden Days.

FARMER AND PLANTER.

THE GRIP OF WINTER HERE.

What Shall We Do Now—An Important Question—Each Season Brings Its Work.

Stern, cold unfeeling winter is now upon us. It has set in with unusual severity in France, England and the United States of America. Her snowy mantle has already spread itself over all the north. We of the south are not, as yet, snowed under, but the chilling blast of winter's breath has greeted us and warned us.

WINTER WORK.

What shall we do now? This is an important question. Each season brings its appropriate work.

The fall has been passing lovely. Long-continued sunshine has hastened to maturity the crops of all kinds. The spring and summer had been late, wet and cool. The crops were slow in maturing. Cotton was particularly late. But October and November sunshine hastened to maturity the early and the late. The crop has been gathered under the most favorable conditions. Most of it has been marketed as fast as it was picked.

The price has been kept down by the extra heavy receipts. Now it is nearly all gone from the producers' hands. Will we ever learn the folly of over-selling? The farmers lose millions of dollars every fall, simply by selling too fast.

Such has been the eagerness to pick and market the cotton, that very many have failed to sow grain at the right time. To such the old adage, "better late than never," may perhaps apply. Sometimes late grain succeeds. Generally it fails.

But a more serious matter is the half-way preparation that has been given to much of land sown to grain. This has been an ideal fall for deep plowing and thorough pulverization with rollers and harrows. But very many have been too busy with cotton to do this work as it ought to be done.

Through all the vicissitudes of wind and rain, one thing has shown itself everywhere. Thorough preparation, subsoiling and harrowing have paid on all crops.

Where the hard pan has been broken the excess of water has rapidly sunk into the subsoil and left the soil in better condition than where this work had not been done. When the dry weather came these fields have supplied the needed moisture from below. Consequently the crops on these fields are good. Never was the thorough preparation put to a severer test, and never has it been more triumphantly vindicated.

These farms are not washed. The manure and fertilizers have not been carried off, and the owners have been paid for all time and expense for doing good work. We urge any farmer to use every suitable day, before the winter rains and freezes set in. Plow and plow deep. The soil once made deep is easily kept so.

Look after the comfort of your stock for the winter. It never pays to let an animal suffer from cold. Look after your stalls and your supply of bedding. Keep the animals comfortable by frequent changes in the bedding. Save all the solid and liquid droppings in the same way. Keep all manure under cover until ready to be spread upon the fields.

Spreading on freshly plowed or harrowed fields is better than composting. Keep fire out of your farms. Keep all vegetable matter to plow in.—Southern Cultivator.

THE CARE OF SHEEP.

To Get Good Results From the Coming Lamb Crop Sheep Must be Kept Well.

If we get the meat from next year's lamb crop the sheep must be kept in good condition during the winter. If the ewes are kept just alive, the lambs are like to be too weak to live, and if they do survive they will be stunted and will not make the growth that is necessary to make them profitable. A poor ewe, if she gives any milk at all, will not give sufficient to make the lamb grow well, besides, poor ewes are usually infested with ticks, these get on the lambs and annoy them terribly. It is claimed by some that ticks will not stay on fat sheep, but I think that the reason is that the sheep will not stay fat if they are infested with ticks.

Sheep should have some green pasture in winter if possible. Winter oats if sown early in latitude where they can be grown, make excellent pasture. Corn blades, bean hulls and cow peas are all relished by sheep. If there is no green pasture the sheep should be fed turnips, or some other succulent food. This with a modern grain ration will keep the sheep in good condition if they are provided with a good shelter. If the sheep are given a little sulphur in their salt, or with their feed, it will keep them free of ticks and lice. Care should be taken that the sheep are not allowed to fall off and then be fed to improve them as this will cause wool shedding. There is little danger of them losing their wool if fed regularly.

With some, there is a prejudice against corn as a sheep feed, but I see no reason why corn may not be used as a sheep feed if supplemented with some more nitrogenous food. When the lambs begin to come, the feed should be increased and a liberal quantity of bran or middlings fed in order to make the ewes give a liberal supply of milk. A lamb is hard to freeze to death if it gets plenty of milk, but a half-starved

lamb easily succumbs to cold.—Cor. Epitomist.

FEEDING SLOP TO HOGS.

Practical Suggestions in Response to a Writer's Queries On the Subject.

A writer in an exchange wishes that someone would invent a cheap way to mix slop. He speaks of having 175 hogs on his farm to care for this winter, when feed is high. Now if he puts slop for these in a barrel or tank, mixing it in that way before he gives it to them, I do not wonder that he wishes for a cheap mixer. He also finds a V trough a wasteful one. The use of this trough I have in the main discarded on account of the waste from it.

I find after many years' experience in handling slop that the pig is the best and cheapest mixer. But the mixing by the pig can not be done in a V-shaped trough without too much waste.

The right kind of a trough for this is one with a flat bottom. Ten inches wide is about right, with the sides four inches above the bottom of the trough, making them any desired length. I have them from three to twelve feet long; six to eight is long enough, as they are easier to handle. For ease and convenience in doing the work, the pigs or hogs should be fastened out of the lot while the feed is being prepared in the troughs. The troughs should be as nearly level as possible before the feed is put in. Put in the amount of dry feed required and the pour over it about an equal amount of water or kitchen and dairy wastes. Then open the gates and let the pigs to the troughs. If hearty and properly fed they will make no quarrel with their owner because he has not mixed more labor with the slop. They do the mixing in an earnest and rapid manner and waste little if any feed.

With the feed in a V trough very much of it will be worked over the sides of the trough and lost. I do not know any way that the labor of preparing slop can be reduced below this, nor do I know any way to prepare it that will make it more acceptable to them. If the troughs are placed on a clean place—a floor or clean straw or corn stalks under them—and with the feed lots well covered with straw and stalks there is no need or reason why the slop troughs should become filthy. During winter or doubtful weather the trough should be turned upside down after feeding, then they will not have to be emptied of water or snow.

Taken all together, it is a safe estimate to make that no protection against the changing weather adds 25 per cent. to the cost of feed. Protection cuts down the cost of feed. How to keep up growth and shorten the feed expense should be the leading point this winter. At the same time it is well to remember that just sustaining the animal without gain is a throwing away of the feed given. Sometimes hogs will not come to their feed promptly because the feeding grounds are exposed to driving winds. It is well to remember that a pig is very sensitive to the changes of the weather, and avoids driving winds as much as can be, hence it is the part of a careful farmer or herdsman to prepare wind breaks as a profitable protection against the weather. If there is no draft between their sleeping quarters and feeding grounds they will come to feed much more promptly and not squeal with cold while eating. The lot the writer will use this winter is protected on the west side by a long shed, on the north and east by fodder ricks. Their small houses will be placed in this lot a few steps from where they will be sloped and fed.

By this arrangement there will seldom be a day that they will be slow about coming out of their houses because they feel hard blasts of wind. There is, besides the economy in this, the satisfaction in knowing that I have tried to make the animals comfortable, and added much to my own comfort in doing so.—Cor. Stockman and Farmer.

HERE AND THERE.

—In shipping to market always be careful to have the carcasses perfectly clean of blood spots.

The animal weighing the most at any period of its age for the food consumed is the most profitable.

—The hog feeder and breeder must keep one eye on the individual animal and the other on the market.

—The smut is last year's corn is causing the death of many horses and cattle throughout Tennessee, and farmers will have to use great care to prevent great losses.

—The American hen has to a certain degree come into her own. By the poultry press and the henmen of the agricultural press she has been crowned "the queen of money makers."

—A few oak leaves buried in a furrow will often more than double the crop of sweet potatoes. The same is true, if we put a little wheat or oat straw in the furrow with the Irish potatoes.

—An old subject, one that has been often treated, pro and con, and yet a subject ever of vital interest. The hen that lays best is the one that pays best, and when a hen doesn't lay at all she is of no more value than a rooster.

—A great many poultrymen give extra attention to ventilation. They believe in an abundance of fresh air. As the poultry-houses are not usually plastered it will be found more difficult to keep the fresh air out during cold weather than to get it in.

The World's Famous Catarrh Remedy---PE-RU-NA.

CHIEF JUSTICE W. L. CHAMBERS

CONGRESSMAN AMOS J. CUMMINGS

CONGRESSMAN A. T. GOODWYN

CONGRESSMAN J. L. SHEPPARD

Amos J. Cummings, Congressman from Tenth Congressional District, New York.

Congressman Cummings, of New York, in a letter written from New York city regarding the merits of Pe-ru-na, said the following:

"Pe-ru-na is good for catarrh. I have tried it and know it. It relieved me immensely on my trip to Cuba, and I always have a bottle in reserve. Since my return I have not suffered from catarrh, but if I do I shall use Pe-ru-na again."

AMOS CUMMINGS.

Judge A. T. Goodwyn.

Hon. A. T. Goodwyn, Congressman from Alabama, in a recent letter to Dr. Hartman says:

"I have now used one bottle of Pe-ru-na and am a well man to-day. I could feel the good effects of your medicine before I had used it a week after suffering with catarrh for over a year."

Representative Sheppard, of Texas.

Congressman John L. Sheppard, of Texas, writes the following commendation of Pe-ru-na from Washington, D. C. Congressman Sheppard uses Pe-ru-na in his family and says:

"I have used Pe-ru-na in my family and found it to be a most excellent remedy for all catarrhal complaints."

Chief Justice William Lee Chambers.

In a recent letter to The Pe-ru-na Medicine Co., Chief Justice William Lee Chambers says the following of Pe-ru-na:

"I have tried one bottle of Pe-ru-na, and I can truthfully say it is one of the best tonics I ever used, and I take pleasure in recommending it to all sufferers who are in need of a good medicine. I can recommend it as one of the very best remedies for catarrh."

W. L. CHAMBERS.

Men of prominence all over the United States are recommending Pe-ru-na. Over forty members of Congress have written their indorsement of it. Scores of other government officials speak in high praise of it. Thousands of people in the humbler walks of life rely upon it as a family medicine. Send for free book of testimonials.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Hard on the Chickens.

In an Ohio town last fall the African Methodist Episcopal church of that district held a conference, and for a week the town was filled with colored pulp orators. A few days after the conference closed its sessions one of the leading colored women of the town drove out to Pea Ridge to purchase chickens of an old man who had supplied the family for years. Aunt Hanna, coming to the gate, said: "I'm sorry, Miss Allie. I ain't got a chicken left. They all done enter de ministry."—San Francisco Argonaut.

Best for the Bowels.

No matter what ails you, headaches to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

NEIGHBORHOOD NEWS.

CHAPEL HILL.

Little Lester Bigham is still on the sick list.

James Fowler will build a new house this spring.

Will Adams was through our neighborhood in the interest of the Hill Home Fund.

George Wilson, from Weston, was in our precinct Saturday.

Miss Ruby Bigham visited her aunt, Mrs. Horace Williamson, Saturday and Sunday.

Another big singing at M. G. Jacobs' Saturday night.

Wheat in this vicinity looks very promising.

We will have a change in our county road; the change will be around T. M. and James A. Hill's farms, which places the road on better ground than it was before.

The people of Chapel Hill are preparing for a large crop of tobacco, several are now burning plant beds.

Mr. Yancey, from near Mexico, was through our neighborhood soliciting aid for Taylor Storks, who lost his house and contents Jan 5th.

James Hill, son of H. S. Hill, has entered the school at Marion for the spring term.

Laurence Crider and wife have moved to Marion.

A WOMAN'S WEARINESS.

Woman's sensitiveness make them subject to more intense weariness than men. The melancholy, depression and exhaustion they suffer is due to sluggish action of their organs, which loads the system with impurities, poisons the blood, and shatters their nerves. Morley's Sarsaparilla and Iron will cleanse the system, vitalize the nerves and give strength and energy. At Woods & Co.

MEXICO.

Bell Moore, of Paris, Tex., visited his sister, Mrs. Nelson, recently.

Mrs. Mary Pierce is recovering from a long spell of fever.

T. A. Yandell moved from this place to Livingston county and M. J. Brasher, to Lyon county.

Thos. Nelson bought the store and dwelling house of W. I. Tabor, and will move his goods in soon. Mr. Tabor will close out as soon as possible and turn his attention to farming.

Frank Rogers and wife and Misses Laura Rogers and Eliza Watts are visiting relatives at Grand Rivers.

Marion Lewis and family were guests of Mr. Jacobs of Crayneville last week.

Mrs. Piety Wheeler is visiting her son, W. M. Wheeler of this place this week.

Rev. LaRue filled the pulpit here Saturday and Sunday.

Misses Emma and Nora Tabor were guests of their grandmother Pollard last Sunday.

CHILD WORTH MILLIONS.

"My child is worth millions to me," says Mrs. Mary Bird, of Harrisburg, Pa. "yet I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately; the youngest child can take it with entire safety. The little ones like the taste and remember how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly. For sale at R. F. Haynes' drug store.

TOLU.

Our river is in fine boating stage, and packets almost as regular as trains.

Hugh and Trice Bennett left Saturday for Cincinnati with a lot of hogs and cattle.

Mr. Desbrow, of Michigan, is erecting a large store room opposite the post office. He will put in a complete line of merchandise.

Jonathan Stone has purchased the farm of Dr. R. G. Carty near Hurricane camp ground; consideration near \$5,000. Dr. Carty and family will leave for California in a few months.

O. T. Stone has moved to town and will engage in the lumber business along the Ohio, Cumberland and Tradewater rivers.

C. G. Humphreys smiles because there is a brand new girl at his house.

Good luck to the Press.

Beat Out of Increase of Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48 I contracted Mexican diarrhea, and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for Diarrhoea, and is pleasant and safe to take. [At Haynes']

DYCUSBURG.

Rev. W. J. Newlan, Birmingham, Ky., is called as pastor of the Baptist church for the year 1902. Appointments 4th Saturday and Sunday. A good speaker to hear him.

Cassidy & Co. have bought about 600,000 lbs tobacco at this point. Carter of Clarksville has bought 300,000 lbs.

The following parties have received their appointment as town councilmen: P. K. Cooksey, Dr. F. L. Phillips, Fred Ramage, Steve Tisdale, Marvin Charles; a safe, good board.

J. C. Griffin, merchant of Dycusburg and one of the proprietors of the saw-mill owned by Griffin & Hornbeck, now being operated in the Caldwell Springs neighborhood, made an escape from being torn to pieces by a circular saw on the 10th. A piece of wood about a foot in length fell upon the carriage track. Mr. Griffin extended his right foot to remove the obstruction when the saw caught his shoe, tearing it from his foot and he was thrown violently into the saw pit. He sustained some bruises but was not seriously hurt.

Bile and all other obstructions to good health are immediately removed from the Liver, Stomach, and Bowels by Morley's Little Liver Pills for Bilious People. Sugar coated. One a dose.

Mrs. Koon, at aged lady, died at the home of her son Ollie Koon, who owns the saw-mill at Bennett Springs. She was buried in the Dycusburg cemetery Tuesday.

Miss Estelle Richards has gone to Brookport, Ill. for an indefinite stay.

Lewis Clifton and wife of Marion, are visiting relatives here.

Cumberland river is in good boating stage.

Aaron Charles who has for many years been a successful farmer and highly esteemed citizen, has sold his farm over in Livingston county. With his family he left for Cumberland City, Tenn., their future home.

Harry Bennett, a prosperous young farmer, whose fertile acres lie adjacent, captured Miss Melvina Fox, of Dycusburg and carried her off to Grand Rivers Wednesday, where they were wedded. Congratulations.

W. H. Bennett, a leading business man of this community, is very ill of pneumonia.

FREDONIA.

Berry Butler has been visiting friends here for several weeks past; he has been residing in Ill.

Rev. Reed and wife are visiting their daughter in Arkansas.

Mrs. H. C. Rice is visiting her brother S. R. Cassidy and family of Paducah.

Mrs. Henrietta Moore, of Dogwood, was in town Sunday, the guest of her sister, Mrs. R. L. Wigginton.

Albert Neel, of Princeton, was in town Saturday.

The prize contest of the Delineator will end in a few days, and I should be glad to have the subscription of every one who wants a first-class fashion and literary magazine combined. Price only \$1; over two thousand others to select from. W. C. Glenn, Agent.

Will Radcliff, of Princeton, was here last week.

Isaac Hodges of Crittenden, was here a few days ago; he gets around as spry as a boy of twenty.

T. R. Guess of Crider was in town last week.

Miss Lena Buckner left for Owensboro last Saturday, where she will engage in school teaching.

Malcom Buckner died on the night of Jan 23, after a few days sickness.

Miss Elsie Morgan left last week for Seattle, where she will make her future home.

Taylor Storks lost his house and portion of its contents Jan 5th.

Mack Hillyard and family lost all they possessed by fire, except the clothing they had on, while away from home on Jan 4th; the house belonged to his brother-in-law.

W. C. Rice has been in bad health for a week or two.

New laces and embroideries. Sam Howerton.

New calicos, white India linen, etc. Sam Howerton.

A big run on overcoats and clothing; going like "hot cakes" at the prices we are now making. Sam Howerton.

Our stock will be all new for spring, will come in early and the best values we have had for years before. Sam Howerton.

Mrs. Martha Rice and her two grandsons of Princeton came down Sunday evening to see Mrs. Lily Rice, who has been dangerously ill at the home of her sister, Mrs. J. E. Crider, for several weeks past, and died at 9 o'clock Sunday night and was buried at the old family graveyard in town.

NEW SALEM.

The health of this section is not very good.

The last week has been bad on the growing wheat.

The wheat crop does not look so promising as last year's crop.

Corn is getting scarce; what is to become of the poor man who has no corn and no money.

Rev. E. M. Eaton, of Salem, was in his section last week, greeting his old friends and neighbors.

Everybody in this borg are burning tobacco beds.

At present it looks very much like we were to have another big crop of tobacco.

Bill Tyner finished gathering corn last week.

Bill Tyner lost a valuable mare last week.

Horses and cattle are still dying all over this section; the horses have something like the blind staggers, going totally blind before dying.

The 1901 crop of tobacco is about all sold and mostly delivered. It brought some money into the pockets of the farmers, but with corn to buy it won't last long.

Geo. Wecker and family, of Marion, were the guests of Esq. Harpending's family last week.

Harry Harpending, of Marion, was the guest of his father's family last week.

The New Salem iron bridge will be put up this week.

Mrs. Nelson has moved to the child-rear farm near View, Ky.

Thomas Binkley has moved to the Conyers farm, lately vacated by Moses Nelson.

A. H. Cardin has bought three-fifths of the tobacco in this section.

Mac O'Hara and Fred Clement are busy with a set of men sinking a shaft on the Arch Crosson farm. These prospects are very flattering.

With meal at \$1 per bushel, flour \$6 per barrel, bacon 15 cts per pound what the devil is to become of a poor man.

The remains of Handy P. Brown, who moved from this section to Livingston county some four or five years ago, were buried at the Millikan graveyard on the 3d of January. Hardy Brown was raised in this neighborhood and every one knows him. He was a man who counted his friends by the score. A large concourse of relatives and friends attended the funeral. Peace to his ashes.

We understand that Smith Lowery is making his arrangements to go to his son, Dr. Allen Lowery, in Oklahoma. This section loses a good citizen in the person of Mr. Lowery.

The mining excitement is on a boom. The woods are full of mineral and oil men. The land owners have caught the fever and are giving leases right along. They say if they have anything on their lands the sooner it is developed the better for all parties.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL

WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF

DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success. Consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.
