TUBBS WATERLOO.

J. Llewellyn Tubb was six feet tall built like a keystone, handsome as Apollo and dressed like a tailor's model. Among the vealy of his own sex he was the glass of fashion and the mold of form; among women he ranked as a grand marshal of dress parade. He was a necessity at smart soirces for he led the german with a lithe grace and aplomb impossible to those who are not built and trained for that high achievement. He had a front that had borne him out of many a hole. He had no profession but "style" and just enough brains to dodge creditors indefinitely and get his accounts "mixed" with everybody who had financial dealings with him.

But after nearly six years, during which his debts grew in inverse ratio to his business reputation, he woke up one morning with a dim but insistent realization that he was nearing the end of his rope. In a mad effort to induce the payment of his rent Tubb's landlord had shut off the steam and the hot water. His last valet was loitering in the street, lowering at Tubb's window. He examined his mail-all bills; not a single pink note nor a polite invitation. So he laved his handsome face with cold water and perfume and began to think as vigorously as a rabbit that has heard the dog.

After breakfast he picked up his nopaper, lighted a cigarette and reclined. His eye fastened on a brief dispatch from Albany, which read:

"Clifford A. Rogers, the millionaire lumber factor, formerly of Michigan, died here to-night. . . . He leaves an enormous fortune and his young wife . . . charming . . young wife . . . charming . . no children. . . She is devoted to philanthropy. . . . "

Tubb dropped the paper, grabbed it again, reached for a scissors, clipped the Albany dispatch and with unaccustomed fervor and vulgarity mur-

"Me to Albany! Me for the widow."

In half an hour, faultlessly dressed. gloved, groomed and debonnair, he sauntered into an office in the Gasconade building upon the door of which was the legend: "Huff & Peak, Bankers."

Mr. Peak was glad to see Mr. Tubb, but became a bit ferrety when the latter unfolded his business. He urged his plan to marry the Albany widow and his need of financial help for the campaign; claimed old acquaintance with the Rogers family and, with conscious plausibility, predicted that he could win and marry the prize "probably within six months, certainly within a year."

"How much will you need?" said Huff, twiddling his pencil.

"I should think \$3,000 would see me through," yawned J. Llewellyn Tubb with assuring sang froid.

But the "banker" was finicky. He would have to "look up" the lady's commercial rating, estimated wealth, actual existence. He would let Mr. Tubb know; the sum was large, no collateral, etc., etc., but he would give his answer, say in a fortnight.

Meanwhile Tubb actually got busy. He wrote many letters to Albany, sent for its newspapers and was pretty well posted about Mrs. Rogers when Huff about how Clara had repudiated J. the list of the widow's big estate, but every word was a trumpet note of triumph forestalled. Huff estimated the estate at something like \$800,000 after the incumbrances had been allowed, mostly stocks, bonds and real estate.

Mr. Tubb," said the Shylock, "but, as | ness with square people, anyhow."it's an unusual risk, you'll have to | Chicago Record-Herald.

expect to pay a rather considerable NEWS OF THE WORLD. interest. If you pay in six months \$3,000 will cost you \$5,000; say, at the rate of 33 1-3 per cent. a year; but mind," the broker was insisting now, "mind you, if you fail to pay it all in six months you must renew the loan with note signed by your wife and yourself JOINTLY. If you do that we'll be glad to renew indefinitely."

This proposition ruffled the calm ted airily that for his part he would exposition. be just as well satisfied if the deal was not made; it was most unusual, very hazardous at best and quite "out

"But," he concluded, "I've gone so Mr. Johnson, resigned. far as to get cash ready, the note is filled out and if you want to do business NOW, all right. If not," and he picked up the slip of paper which Tubb could turn into \$3,000 so readily and made a motion as to tear it, "if burg. not, I'll just tear this up and-

Tubb reached for a pen, tapped it softly against his left glove andsigned. After listening wearily to a lot of instructions about "advising the office from week to week" and "excuse us if we take the liberty of prying a little into your lovemaking," Tubb walked out with six \$500 bills nestling against his mauve waistcoat. In ten days he checked three trunks for Albany and disappeared from his haunts ike an errant cavalier. Four months later Huff got a telegram. "Engage- Railroad was wrecked near Char ment made. Wedding private. All lottsville, N. C., by a landslide, caus 'Tubb," but it was quite unnecessary, known white tramp. for the banker had made a few secret trips to Albany, and having seen Clara doubted not that his client

It lacked but a day of the six bride arrived at the Hotel Detrop, honeymooners en tour, with enough baggage to equip a comic opera troup. The bellboys "allowed" that Mrs. J Llewellyn was "a sight," but her husband showered money around until there was quite a flurry in the hotel, and Huff, Banker Huff, who hovered in the corridors like a covote waiting for night, sneered at the extravagance of the client whom he dogged. He cornered Tubb in a dark hallway, told him that the note would be due in 24 hours and asked whether the Tubbs wanted to pay up or renew."

haughtily, "our financial affairs are not yet arranged. I'll sign another

your paper this time, it ain't worth

"All right, all right; good day, I'm very busy to-day," and Tubb strode majestically away.

At ten o'clock the next morning Huff sent up his card to the Tubb again and grinned, scanning the renewal. It was yet wet, as to the signatures, but Tubb reached for a blotter.

"I had one of our own blanks made out," said Huff, taking out his pocket-

"Oh, I was afraid you wouldn't, Mr. a drive."

folded up his doubly signed promise | murders were committed. to pay, beamed upon the fat and squabby Clara and was gone. The next day the Tubbs left for Denver. and for many moons Huff and Peak heard not from them. When the note their vast wealth.

Huff was in his office when a telegram was handed in. He tore it open and read:

"Mrs. Tubb says her signature is a forgery. Have protested note. Wire instructions."

And Huff replied: "Arrest Tubb unless they pay tonight. Threaten exposure.

And the next day's newspapers had scare heads about "A Husband's other fearful and elaborate accounts the principal foreign governments. | increase of \$629,534. summoned him to hear the answer. Llewellyn and his dark deeds, and had Sing she would divorce him and try to live down the folly of a lonely widow's girlish trust in a wretch.'

"Huff," growled Peak to his part-

ner, "you're a chump." "but it was a great scheme. Tubb was "We'll take a chance on this scheme, prize ass. I always hated to do husi-

CONCERNING OLIVE OIL.

Information.

Our consul at Marseilles, in enswer

diana, says the Indianapolis News, sets out some interesting facts concerning olive oil. The Indiana man inclosed a label that he had removed olive oil. He wrote that, the weather olive oil, while the rest appeared to be congealed cottonseed oil. The consul says from his knowledge of the firm that the label represents, he is sure the bottle contained what it was said to contain-namely, "superior virgin olive oil, guaranteed quality." That it congealed, he says, was probably due to the fact that it was what it known as tender oil, which in cold weather congeals rapidly, whereas a hard olive oil is especially calculated to resist climatic changes. Of the subject generally, the consul says that consumers of the United States are not always familiar with the delicate nature of olive oil and fail to reproves with age, it begins to deteriorate from the moment of manufac-French sardines have the fine flavor is

American Scheme Abandoned.

Upeless Employes Devour Big Percentage of Our Revenue.

A State of Affairs for Which No Political Party Is Responsible, But Which Should Be Abolished at Once.

[Special Washington Letter.] R EVERTING to the thesis that imperialism exists in our republic, and has come to stay, there must be uttered the corollary with developing imperialism there has developed extravagance in government expenditures which isnaturally imperial in its nature and boundlessness.

One of the elements of extravagance long well known to experienced newspaper men has been the top-heaviness of the pay-rolls of the senate and house of representatives. The business of the congress might easily be transacted with one-half of the number of employes now on the then the wounded man was lifted pay roll. Competent men and women might also be obtained for smaller salaries: and each individual have the evening mist, and the steamer rifleshot and hailed you. We are in little man watched everything with a competence, with enough to "lay aside for a rainy day."

Only recently there came before the senate a resolution providing for took his last look at the land to soned my foot, and am unable to been placed on a bed, and his foot at- the appointment of 20 additional walk any further. As you can see tended to as well as the rough sur- clerks to the senate clerical force; gery of the place would admit, Grant- and it would have been adopted but ham did something he had not al- for the vigorous and determined opready done, and that was to ask them | position of Senator Allison, of Iowa, the chairman of the committee on "My name is Kitwater," said the appropriations. You must underblind man, "and the name of my stand that each branch of the confriend here is Codd-Septimus Codd. gress has a contingent fund, and out He's one of the best and stanchest of that fund each house pays its emlittle fellows in the world. I don't ployes regardless of what the other Two months had elapsed since the the hands of the Chinese," the taller know whether our names will con- house may do. Neither the senate vey much to you, but such as they nor the house of representatives enare you are welcome to them. As a croach upon the contingent fund of matter of fact, they are all we have the other. Consequently, if the prowith which to requite your hospi- posed resolution had been adopted, the contingent fund of the senate would have been increased and the not say, but it was evident from the additional clerks have been employed, first that Capt. Handiman did not be- while the general public would have lieve the account the refugees gave of known nothing of it whatever. Imthemselves. He was one of that pe- mediately thereafter, the house of culiar description of persons who representatives, looking after its own have an idea that it adds to their dig- rights to the spoils of office, would aity not to believe anything that is have increased its contingent fund, told them, and he certainly acted up and employed 20 additional clerks, although their work is not needed.

Now as to the effort to have 20 additional clerks appointed for the senate, there is one reason worthy of your attention. The senate pay roll has been increased from time to time, because the senators have so When Mme. Sarah Bernhardt was without additional help. Instead of acterization of the looting which was in one of our western cities a few appealing direct to the people for ad- flagrant and well known in the press They have worked for individual senators as stenographers and confidential clerks. Thus the senators dared not take directly, although

plimented the man in extravagant The senators who opposed the recent attempt to add 20 clerks to the senate pay roll are in favor of going leave it as it is, and, when we get clared. "It is magnificent!" Then directly to the people and telling worlds," he said. "You don't know just in time to see a large boar cross you to the station, we will see what suddenly, to the utter discomfiture of them that the salaries and emoluments of every senator ought to be increased. That is true, and it would be the more honorable course. The salaries of senators should be increased from \$5,000 to \$10,000 per an-

THE HUSKY CORRESPONDENT. (Drew \$100 a Month for Folding Imaginary Documents.)

num. They should also have \$4,000 each additional for clerical assistincrease their efficiency for the peo-

Representatives receive \$5,000 each per annum, and senators receive the same. Representatives are obliged to correspond with the people of their to maintain correspondence with the people of entire states. The difference is very great. For example, take the state of Illinois, with its 20 representatives and two senators. The people of all of those districts, coverirg the entire state. If each senator porary indulgence in office holding. received a salary of \$10,000, he would

THE PEOPLE'S MONEY | be obliged to spend more than half of it for assistance in the performance of his duties to the state. There would be no profit in it.

Not many years ago the senate pay roll contained the name of a promiuent newspaper correspondent, who was ostensibly employed in "the folding room," where he was reported as folding all the way from 60,000 to 100,000 documents per month, at one dollar per 1,000. That meant that he was drawing from \$60 to \$100 per month from the contingent fund of the senate. It was known, however, that he never folded a single document, but simply drew the money on the cheques of the sergeant-at-arms of the senate.

At the same time there was a veteran newspaper man who has long

BLIND AND DECAYED. (Was Down as a Blacksmith and Drew \$75 per Month.)

been afflicted with granulated eyelids, whose sight has been so affected that he could scarcely see to read the daily papers. He was on the pay roll as a blacksmith at \$75 per month, and he drew the money, although, of course, he never did any work for it. Col. Sterrett, of Texas, was here at the time and he said: "I can understand how an energet. rellow like this husky correspondent could fold 100,000 documents by working day and night all during the hot months of July and August, but I cannot understand how this blind much required of them that they old rascal shod any horses for the cannot attend to all of their duties money." That was a sarcastic char-

Now while senators need additional salaries and clerk hire there is exe travagance beyond measure on the pay roll of the house of representatives. Every member of the majority party must have one appointment, no matter whether the house needs the services of a man or not. Then the older members of the house manage to work in an extra policeman or two, in order to provide places for their working constituents and political backers. There are messengers, watchmen and assistant doorkeepers galore, whose services might well be dispensed with; but they are on the pay roll because of their political pulls, and there they will remain until something like a political earthquake strikes the republic. Up to date, it doesn't seem to make any difference which party is in the major-

ity, the loot goes on. Twenty years ago, when we were 50,-000,000 people, it cost an aggregate of \$300,000,000 for the yearly expenses of the government. Now, with 70,000,-000 population, the expenses of government are ranging up towards the \$800,000,000 point. It may be true, as the old song says, that "Uncle Sam is rich enough to give us all a farm," but he is not rich enough to stand continual increases of expenditures out of proportion to the national growth.

Nobody needs to be niggardly in order to be economical. The government need not be niggardly to avoid extravagance. But it is not necessary to pay an army of men in the civil service salaries of from \$2,000 to \$5,000 per annum for services of less value and importance than are performed by men in ordinary business pursuits for approximately half of that amount.

One of the auditors of the treasury recently said to the writer: "There is a clerk here drawing \$1,600 per annum who could not get more than \$600 per annum in my factory at home, but he is dogging the life out of me for a promotion, and has been sending his senators after me. I won't stand it much longer, but will have him dismissed entirely for the good of the service. The work done by him is similar to work done in my factory and the employes all go to work at seven o'clock in the morning. They work until six in the evening, with an hour for dinner. They ance. That would not add one iota cheerfully put in ten hours of work to the income of senators, but would every day. Here the clerks report for duty at nine in the morning, have half an hour for lunch at noon, and quit work very promptly at four in the afternoon. That is six and a half hours of work, but they usually loaf at least half an hour, so that they actually districts, while senators are obliged work only about six hours a day, and not one of them ever soils his fingers. Yet all want promotion, and a few are

always fighting for it." That is a fair characterization of the average disposition of the well-20 representatives draw \$5,000 each salaried government clerk. It also per annum, which is an aggregate of shows that the government is paying \$100,000. The two senators draw the maximum in salaries for the mini-\$5,000 each, which is an aggregate of mum in talent. It comes from a gov-\$10,000 per annum. And yet, each ernment official who is a successful senator has to correspond with the business man, and whose common sense has not been warped by his tem-

ANNOUNCEMENT.

FOR CONGRESS. We are authorized to announce OLLIE M. JAMES

a candidate to represent the First Dis trict of Kentucky in Congress, subject to the action of the Democratic party.

"Glad to Hear It."

There was once a man who had a way of replying to every bit of information his own questions elicited with the phrase, "glad to he called upon a neighbor and meeting the neighbor at the door. put the familiar query: "How's your health and how is your family?" The neighbor replied that his wife had just died. "Glad to hear it, glad to hear," came forth the usual ejaculation. The force of habit or a lack of the power of differentiation produced a very ludicrous situation for the man. While this incident has long been a matter of history, the name of the individual, like the cognomen of the fellow who hit Billy Patterson, had never been discovered intil recently. We have found nim and his name it is Jim Lemon of the Mayfield Messenger. He s an all around good fellow, but ne is totally devoid of the power of discrimination. To illustrate, the time named for the congressional primary, two years ago, was a little more than thirty days from the day the call was promulgated, while this year the time is seventy believes in the consent of the gov- New Jersey, to fill the engageof the call. Notwithstanding the little difference of thirty days in favor of this year, Bro. Lemon assumes that thirty days is the same thing as seventy days, or that ten dellars will buy as much hash as twenty dollars, and quotes from the Press of two years ago to prove it. We must admit that the veracity of the witness can not be uestioned, and that its "reputation for truth and veracity among its friends and neighbors" is good, out two years ago it was talking about one month, and this year it has to discuss two months. They are not the same, but no doubt, Bro. Lemon, if they were you would be "glad to hear it."

Another matter that serves to point the moral of this tale is this: two years ago the congressional committee provided that the ex penses of the primary should be assessed ratably among the candidates and that the pay for election officers should not exceed \$3.50 to the precinct. .

"This year the committee added the following significant words:

"It is hoped that there can be found sufficient number of loyal Democrats in each county who will make capable election officers to hold said primary WITHOUT CHARGE FOR THEIR SERVICES."

Now Bro. Lemon can see n more difference between the utterances of the committee two years ago and this year than he could see between the use of his phrase, 'glad to hear it," when his friend was in sorrow and when he was in joy. Blind to the plain points of divergence, he again quotes from the Press' comment upon the action of the committee in 1900 to prove that its provision in 1902 is to read that "poor excuse." Give wrong. At the risk of being call- them a chance and they will do ed egotistical, we congratulate the more than "just think." dessenger upon its wisdom in seecting its mentor, if it would keep n touch with us, instead of fol- well in the mineral developments, owing along two years behind, its and taking laudable interest in the efforts not to live in vain might matter. Louis Jolly,

the ashes from his pipe, barked in The Girl Who Romped

By PAUL P. HARRIS.

***** MASTING for bass, hungry, greatmouthed fellows who lay in cool waters down by the lily-pads, would have answered very well as a pastime. The fishing at Sister lakes was particularly good, and many years had intervened between Spencer's boyhood and the "hurry away" vacation of the present; they had been, for the most part, spent in a city law office, not particularly airy nor thronged with affluent clients bent on separating themselves from musty bills and ancient eagles; but there was just one thing that Spencer enjoyed even more than he enjoyed fishing, and that was lying in the cool shade, gazing through the dense foliage skyward, thinking of Bob and Bill, who used in the old autumn days when the leaves were sear, to climb out on those very boughs and shower the beach nuts down.

Then, of course, the thoughts would gradually revert, in spite of all that he could do, to the girl with the changeable hazel eyes that promised only to retract; to the venturesome romp who laughed, not to hear herself, not to be heard, but be ause there was something within hat just wouldn't stand suppressing; to the girl whose glance wrought the mischief of making of a prepossessing lad a stammering lout and there left him to marvel as to the whys and to resolve that as soon as the melons in the valley patch had ripened they should be gathered and sold, and that a snug sum should be appropriated for "fixins" designed purposely to spellbind hazel eyes and give her of the irrepressible mirth to understand well that a man need not necessarily be a fool just because he sometimes couldn't think of his own name-that indeed he might be quite a fellow.

Spencer rolled slowly over and dashing the locks from his forehead. looked far across the water where Bob, he who in a recent year had courted death on San Juan hill, who had knelt in a storm of shot and shell and drawn the lids over the lusterless eyes of Bill, who used to sit astride the limbs above and shower the bursting beechnuts down-Bill was brother of the girl who romped -sat in the rays of the hot September sun casting lazily for bass. It was at his instance that Spencer had torn himself from the haunts of the again to San Juan and the final restless and sought quiet near his charge. old home in a cottage all Bob's own. Bob had a fashion of divining the desires of his friends even before they themselves had sensed them.

historic battle of the hill, he had written a long letter of condolence ething else, but somehow, stopped to recall the e had been subject to spells of quaking, the ever mailed. When Bob, nd worn, returned from was hastily rewritten undating and entrusted to

Three years ago, just after the

ning, early in his stay at Spencer strolled away cottage, and though it was in the night when he re-Bob asked no questions nor Spencer vouchsafe explanation. He might have told how he had gone on past the old mill and tumbledown schoolhouse and passed and repassed the little white cottage with the green blinds and broad veranda that nestled in the glen. He might have told how, summoning to his service all the resolution that he possessed, he had crept along the elect greensward beside the gravel path to the shadow of the lilac bush that grew beside the kitchen window. He might have told how he stood there trembling as might some very guilty fellow about to perpeis life; how he felt weak-kneed and ow the perspiration gathered on his when unexpectedly confronted the eyes of irrepressible mirth, had been rendered speechless, and entirely bereft of his faculties it would have been quite imible for him to have said whethwas afoot or horseback.

amed of eavesdropping, Spengroped his way back through the of the quiet September night. moon had sunk behind the copse fringed the hill that ran along old turnpike, and Spencer felt a ponding sinking within.

that queer little way which he called coughing, and began: "Ted, do you mind that mackerel sky? It reminds me of a night in '98. Bill and I were lying in the trenches. He was about the fourth man from me, I reckon. We had been 24 hours constantly expecting the order to move forward. The sky was just like that over yonder and the moon shone through the Honey Mesquites much as it does through those cedars. Ed Culter, our second lieutenant, the same who was so desperately in love with Bess, started the word along the line to make ready. Bill changed places with long geared Harry Marsh, the eigarette fiend, whose position was next to mine, and as we lay hoping for and at the same time dreading the order, Bill unburdened himself to me. He had a sort of presentiment that he was half ashamed of, yet inclined to heed. Said he: Bob, if it should happen that you go back alone, have an eye on Sis. As you know, Cutler's been very persistent, but I can't think that he quite suits. There's another. You know who I mean; but I'd rather a thousand times over that Ed be the man than that Sis take up with some fellow who cares one whit less. Bess and I came up together and understand each other to a T. You see, we used to talk these things over. It's my opinion, and it was her's for that matter, that a man should be put to the test. A woman has so much at stake, and true love'll stand a jilt or two. She wouldn't tolerate a lukewarm lover; her nature's too ardent for that.'

"Just then an orderly crept along the line and a moment later, we heard the word 'Forward!' As he stumbled over a palmetto root, I out for her, but it's up to you now,

Bob, it's up to you." The speaker paused and was about to continue when a rap at the cottage door aroused them both. Two that he had seen her somewhere before. The other, not poorly formed, was of youthful step, but of thought-

"Tell our fortunes? Well, you the future, less said the better," answered Bob. He resumed his seat Record. and Spencer concluded by the tense expression of his mouth and the fixed eyes that he had taken himself

The younger of the two women preically reached forth his hand, but he, too, was thinking of San Juan and that last injunction and hoped that Bob would continue. The gypsy drew her chair close to his and he crossed her palm with silver as he whispered: "Now, little one, go ahead, and softly, for that great-hearted fellow over there is thinking of a past experience quite as weird as any you can see in the future for me, be you ever so imaginative." "But I am not imaginative," she answered as she scanned the lines of his hand, "nor do I see anything weird in past nor in time to ome. I see only a good, long life, uneventful, unromantic; spent for the most part in a great city, perhaps. There's only a trace of sorrow-1 doubt if your nature could experience an all-absorbing grief-and that's made up for in the tranquility that follows. You have lost a friend, a dear friend, perhaps?"

Spencer answered: "Very." "And there seems to be something more, rather indistinct; possibly a love affair in the city. There's nothing to indicate a grand love, more likely a childtike fancy inspired by a doll face

or less important matter and-' "Stop there," said Spencer. "Let's start right." He glanced at Bob and thought of the expression: "She wouldn't tolerate a luke-warm lover," then continued: "If a man, who for rate the most dastardly crime of ten long years had eyes for no face but one; if a man who knows no love save that which he has carried with him row and formed little rivulets which through hardship and grief from childtreed down his face and neck; but hood days, may be said to possess a childlike love only, then you have made childlike love only, then you have made mself. They reminded him of a no mistake; but I thank God for this child love. It is purer, sweeter than

any other." Spencer did not look up, but he was conscious of an uneasy shifting about in Bob's corner and a pair of honest eyes fixed on him. He looked down upon the little fortune teller, but she said not a word. Something like a sob shook her frame and she clasped his hand unnecessarily tight. He noticed that hers was firm and white and smooth, and he wished, for the moment, that he also was a fortune teller. He stooped to raise her to her feet, murmuring to himself: "A soft spot in a gypsy heart? Well, who'd have thought it?" She raised her flushed, tear-wet face to his and he staggered back, for he looked into the wistful eyes of Bess, into the eyes of of the bullfrog in the spatter | the girl who romped .- Radford Re-

> A Spendthrift's Wise Course, Lord Francis Hope, who has managed to spend \$3,000,000 since coming of age, has just assured himself of a certain income for the rest of his life, says the London correspont of the New York Herald, by turning over all his property and expectations to a life insurance company, which guarantees him an income of \$10,000 a year for life. Lord Francis is now at Brighton, where he is recovering from the amputation of his foot, performed some time ago. He is to be fitted with an artificial foot next month.

THE FEMINIST MOVEMENT.

French Women Who Are Endeavoring to Retain Their Names After Marriage.

The champions of woman's rights have in recent years gained very appreciable advantages for their sex. Women not only attend the lectures at the various faculties at the university, but many of them have taken the degree of doctor of medicine, and more than one has been admitted to practice at the bar. They also, in sufficiently large numbers, study at the Academy of Fine Arts, and, as was stated in the Standard of a few days ago, the question is debated as to whether they should not be placed on an equal footing with men in the competition for the Prix de Rome. Though it is quite possible to approve all these measures, it is difficult not to pronounce against the demand formulated the other day in a resolution adopted at one of the sittings of the Women's Suffrage society, held at the town hall of the Eleventh district of Paris. It is to the effect that it is prejudical to a woman's interest to lose her name by marriage and to be obliged to adopt that of her husband. The moving spirit of this society is

Mme. Hubertine Auclert, says a Paris correspondent of the London Standard. In conversation with a journalist, who did not quite share her opinion on the subject, she declared it was deeply humilating for a woman to have, on her wedding day, to become so completely the property of her husband as to forget her own origin. By the present order of things a wife was constrained to forget her ancestors. though to honor them was admittedly a virtue and a duty. Though the meeting was nearly unanimous in favor of a married woman continuing to bear her own family name after marriage, even the supporters of this "reform" could not agree as to the name to be borne by the children. Some supported the idea of giving the name of both the father and mother to the offspring. That would do for the first generation, but it might be embarrassing later on, as at the second generation a person would have four names, and at the fifth generation a child would inherit no fewer than 32 surnames, not to speak of the Christian names the parents might think fit to confer upon it. That solution being regarded as too embarrassing, the choice seemed to be limited to the name of either the father or mother. Without pronouncing definitively on that matter, it is, perhaps, only natural that the members of this Woman's Suffrage Society should have shown marked preference for that of the mother. They argued that it was impossible to deny that a child was more a part of a wife

Defect That Is a Blessing.

than of a husband.

A magazine writer complairs that the human senses are grossly inadequate, and illustrates the case with the remark that "the ear hears little of what is going on around us. By means of a microphone the tread of a fly sounds like the tramp of cavalry.' It would not enhance the enjoyment of a summer morning nap to add a microphone ear to a fly's present numerous advantages .- St. Louis Globe

TO BRING BACK OLDEN DAYS.

Martha Took a Swing in the Alley But There Were Strenuous Objections.

"Martha Gibbons is coming with a swinging gait," remarked the recorder at the police matince the other day, when a Darktown devotee of beer and chitlings came from the waiting

"Martha," continued the recorder addressing the prisoner, "the officer tells me you were blockading Crooked ley last night with a swing, and you ouldn't allow anybody to pass. People had to climb the fence to get by you. Don't you know it is against the law to block a public alley?"

"Jedge Briles," stated the prisoner 'us hait't got no backyard er tall to hab fun in. Ise been lowin' ter hab good ofe swing jest to bring back de membrance of mer chillun time Dere hain't no trees in de alley, and de mos' ob de fences done been tore down fer kindlin' wood. So I jest tied de well rope ercross de alley fer er little while. P'raps I mouter keeped some ob dem niggers from gallervantin' up an' down de alley, but dey will thor, Eugene F. Ware. Mr. Ware is a all tell yer dat I wus willin' ter let 'em swing some. Naw, sah, dey nin't got no 'commerdashun erbout 'em Dey jest got jellerfied bekase dey nebber had no swing, an' dey runned from Topeka. Mr. Ware is a veteran off atter de perlice. Jedge Briles, jest let er nigger in dat alley git er leetle highferlutin' an de udder niggers get angerfied an' calls for de percloak-room the other day. "How in | nuttin' 'cept de perlice an' de stock-

> "Maybe you ought to have given a swinging bee," suggested the recorder. "However, you have violated the law by blocking up the alley and we can't leys. I'll fine you \$3.75."

"Dat's mouty high for one leetle swing, Jedge Briles." exclaimed

"Yes," the recorder replied, accord-Ing to the Atlanta Constitution, "it may be best to swing low in a sweet chariot. The cheapest thing to do is to go to the park and rent a swing for ten cents an hour. You can now swing corners for the stockade."

Lobster Balls,

Take the meat from a fine hen lobster and mince very fine with the coral. Mix with it not quite the quantity of bread crumbs, season with salt, pepper and a little cayenne and bind together with two ounces of softened butter. Roll the mixture into balls the size of hen's eggs; brush over with beaten egg and cover with crumbs and fry a light brown; serve hot with sauce tartar.-Washington Star.

Scrambled Eggs with Tomato Sauce.

Put one and a half cupfuls of tomatoes over the fire, add two teaspoons of sugar, cook for five minutes, put four level tablespoonfuls of butter in a pan; when hot, add one slice of onion and a little salt, remove the onion, add the tomators strained and four eggs slightly beaten; cook as for scrambled eggs, add a little pepper and serve hot .- People's Home Journal.

Oysters Piquante.

Trim the beards from one and onehalf dozen oysters; scaid them in their own liquor just long enough to plump then; then drain them on a cloth. Fry them a nice brown in a little butter; a seasoning of mushroom catsup, the rind of half a lemon and a small sprig of parsley minced fine. Serve them up with sauted potatoes and parsley .-Washington Star.

Obeying Orders.

Mrs. Naggs (at telephone)-Is my husband in the office? Office Boy-No, ma'am. Mrs. Naggs-When will he be in?

Office Boy-I can't say. Mrs. Naggs-Why can't you say? Office Boy-Because he told me not to.-Tit-Bita.

Acquired Skill,

Methodically the angry wife hurled the cup and saucer at her husband. Seizing the meat platter, she batted the salt cellar and pepper holder at him, and followed with a volley of sugar bowl, butter dishes, cream mug, and knives and forks.

Seeking safety in the hall, the bruised husband mused to himself "I knew that woman harbored ulterior motives when she devoted so much time to the study of ping-pong." — Baltimore

WATER ON THE FARM.

Importance of a Good Supply of Water On the Farm Not to Be Lost Sight Of.

This can hardly be said to be sec ond in importance to feed, as both are indispensable and dependent up

A farm well supplied with good water for both winter and summer may be said to possess one of the first and best advantages, and he who does not pay attention to this matter in selecting a farm is making a

serious mistake. There is nothing better for this purpose than good spring water, and barn and especially if this can be done by gravity. It will pay to conduct water a good distance to the farm building where this can be done. but so located that the water will not run by gravity to the buildings. In such cases, if the springs are large of a few feet, the water may be brought where wanted by hydraulic force. This is the case on the farm of the writer and the system has been in successful operation now for a number of years. But it is necessary with this system to have a large spring, as only one-seventh of the be forced to the buildings, the larger it is a happy relief, and we are both part being required for operating the

If there is no fall by which ing stuffs rich in protein-the power can be afforded to operate the highest-priced constituent of feeding would get Lydia E. Pinkham's employed to force the water to its thrive in the south. Red and white Vegetable Compound at once, destination. Windmills are largely clovers grow in limited areas, while ervoirs, streams or wells, for farm or where and vetches are at home over

at all times of the year.

was conducted to the stables below, to the yard outside, and across the road to the house, where it was used for a variety of purposes. This was a very convenient arrangement and must have answered the purpose well.

Another intelligent and well-to-do farmer in the central part of the state obtained a plentiful supply of water by boring an artesian well in a ledgy hill, to the back of his buildings, erecting a windmill and putting in a pump. Near the well he constructed a large reservoir capable of holding enough for a week's supply. After this was filled the windmill would be thrown out of gear until again wanted.

So it will be seen water may be furnished for the use of the farm in tendant circumstances, but it will be Ranch. better for a farmer to invest quite a sum in obtaining a supply of water that may be relied upon, rather than undertake to get along in such ways as are often resorted to .- E. R.

Towle, in Farmers' Home Journal. A MODERN FARM GARDEN.

It Should Contain Everything Likely to Be Needed In the Family Economy.

The essentials of a good garden are rich soil and a sunny location. The land must be well fertilized, deeply plowed and thoroughly pulverized. foo much care can not be taken in getting the soil in the best possible condition. This work can be done with a horse and tools, and requires but a few hours. A small hotbed should be provided for starting early plants, such as tomatoes, cabbages, cauliflower, celery, peppers and the like. This is not difficult of construction or management, and the details have frequently been given in these columns. The cost is trifling, amounting to almost no expenditure of money, as old boards about the farm can be used for making the frame, and discarded window sashes for the glass.

Plant everything in the farm garden that your family is fond of. Plant everything that can be easily grown, for if it is not liked at first, it soon will be. Start tomatoes, cabbages, cauliflower, peppers and celery in a hotbed. As soon as the ground is in a good condition set out a few roots of asparagus. Then plant a few potatoes, carrots, peas, radishes, onion sets, and when danger of frost is past, two or three rows of beans. As soon as the ground becomes warmer and the season advanced, put in seed enough to furnish a full supply of liberally of dwarf limas. Plant also carrots, parsnips, turnips and salsify. Set out your early cabbages from the hotbed and sow a few rows of late cabbage and cauliflower for fall and

ter squashes.

den will not take more than a day, The Injurious Habit of Improper If your rows are long and straight, an hour or two at a time with a horse and cultivator will do most of the work of cultivating, and but little hand hoeing or weeding will be necessary .- Farmers' Tribune.

STOCK RAISING IN THE SOUTH. The Possibilities are Great For the

Successful Raising of Live Stock.

During the recent international stock show one of its visitors from Trousdale county, Tenn., left at this office a sample of winter oats ten was the third crop from one seeding. fortunate are those so located that The cotton plant must be recokoned the water can be carried to house and with in a large way in considering what the south may become as a livestock producer. For every pound of lint there are two pounds of cotton seed. As the average production of In some cases there are good springs, the south is about 10,000,000 bales of cotton of 500 pounds each, the enormous output of seed can easily be calculated. In an address delivand there is a fall directly from them | ered not long since before southern farmers, Secretary of Agriculture Wilson told his audience that one pound of cotton seed is equal to 1.13 pounds of cornmeal. In addition to this enormous out-

put of concentrated feed there must be added the corn possibilities of the south, which are fair in every diswater passing through the ram will trict, and enormous in many places. Then to all of this must be added the possibilities of grain production by the cowpea and the soy bean. The Cattle Problem.

terized the cattle trade during the last twelve months can not exist always. There is bound to be a turning point. The fat cattle supply, notwithstanding the immense receipts, has been short for several months. Notwithstanding the enormous recelpts in Chicago, it has been no easy task for shippers and exporters to get enough matured cattle to fill their orders. The consumption of good beef is ever on the increase, while the supply of mautured beeves in the country is continually growing smaller. The natural question is where will it all end? It takes only a few months to produce a crop of quite a variety of ways, more or less hogs, but it takes years to replenish expensive according to location or at- the supply of cattle.-Farm and

LUNGS THAT ARE LAZY.

Breathing and How It May Be Broken.

So much stress is laid in these days advocated for certain diseases, especially tuberculosis, says Youth's Companion.

In all this spread of knowledge and good sense it is unfortunately very possible to lose sight of the real issue. It is no exaggeration to say that many inches in height, which he declares a one who can glibly patter off the number of cubic feet of air necessary for each one to breathe rarely draws a full breath. Fresh air is a free gift, but it is like most of the gifts of Heaven, in that we must do our share of work to benefit by it. No one would expect to have a good fire just because a pair of bellows hung on a nail by the chimney, but this is exactly what many people expect of their lungs, which are really only the bellows given us by which to keep the fire of life burning bright and clear within us.

It is not too much to assert that lungs properly used in a comparatively close room will do more good than lazy lungs in an open field. This trick of lazy lung is a habit, like any other, and may be overcome by persistent effort. Many persons, for example, are afflicted with a nervous habit of holding the breath unconsciously. These are the people who, in spite of plenty of time spent out of doors, yet catch cold easily, digest poorly, and are always more or less "under the weather" physically. They are often much benefited by a course of active exercise because it is impossible to exercise vigorously without drawing some good deep breaths.

Many other persons-and they constitute the great majority of mankind breathe only with the upper part of the lungs, and although they may breathe regularly, do not draw in sufficient air at a breath to fill all the

When once the pernicious habit of broken up, the health undergoes such marked improvement, there is such brightening of the spirits and improvement of the looks, that the luxury of deep breathing is not likely to be readlly foregone.

A good way to start the new habit is to take deliberately a few minutes at stated intervals and devote them to proper breathing. If this is done systematically the reformer will find himself unconsciously breathing more and more, until very soon he is obeying nature and really breathing to live. In this way we must all work for a liging if we want a good one.

Besides the gain to the general health which comes from the habit ticularly effective in the cure of caof deep breathing there is created a reserve strength and preparedness which is often of great service in warding off acute pulmonary diseases.

TO BRING BACK OLDEN DAYS.

Martha Took a Swing in the Alley. But There Were Strenuous Objections.

"Martha Gibbons is coming with # swinging gait," remarked the recorder at the police matinee the other day, when a Darktown devotee of beer and chitlings came from the waiting

"Martha," continued the recorder, addressing the prisoner, "the officer tells me you were blockading Crooked alley last night with a swing, and you wouldn't allow anybody to pass. People had to climb the fence to get by you. Don't you know it is against the

law to block a public alley?" "Jedge Briles," stated the prisoner, "us hain't got no backyard er tall to hab fun in. Ise been lowin' ter hab a good ole swing jest to bring back de membrunce of mer chillun time. Dere hain't no trees in de alley, and de mos' ob de fences done been tore down fer kindlin' wood. So I jest tied in' up an' down de alley, but dey will all tell yer dat I wus willin' ter let 'em swing some. Naw, sab, dev n'et some ob dem niggers from gallervantgot no 'commer.iashun erbout 'em. Dey jest got jellerfied bekase dey off atter de perlice. Jedge Briles, jest let er nigger in dat alley git er leetle highferlutin' an de udder niggers get angerfied an' calls for de perlice. Dat's all dey knows in dat alley, nuttin' 'cept de perlice an' de stock-

"Maybe you ought to have given a swinging bee," suggested the recorder. "However, you have violated the law by blocking up the alley and we can't have any swinging in the grapevine swing or any other swing in our alleys. I'll fine you \$3.75."

"Dat's mouty high for one leetle swing, Jedge Briles," exclaimed Martha

"Yes," the recorder replied, according to the Atlanta Constitution, "it may be best to swing low in a sweet chariot. The cheapest thing to do is to go to the park and rent a swing for corners for the stockade."

Lobster Balls.

Take the meat from a fine hen lobster and mince very fine with the coral. Mix with it not quite the quantity of bread crumbs, season with salt, pepper and a little cayenne and bind together with two ounces of softened butter. Roll the mixture into balls the size of hen's eggs; brush over with beaten egg and cover with crumbs and fry a light brown; serve hot with sauce tartar .- Washington Star.

DAN GROSVENOR SAYS:

when the value of fresh air that it is impossible for anyone to miss the lesson. Good ventilation is taught in all our schools, if it is not always practiced; and treatment by the open-air method is becoming more and more

"Pe-ru-na is an Excellent Spring Catarrh Remedy---- am as Well as Ever."

HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.

Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived from one bottle of Peruna. One week has brought wonderful changes and I am now as well as ever. Besides being one of the very best poor, shallow breathing has been spring tonics it is an excellent catarrh remedy."

In a recent letter he says:

"I consider Peruna really more meritorious than I did when I wrote you last. I receive numerous letters from acquaintances all over the country asking me if my certificate is genuine. I invariably answer, yes."- Dan. A. Grosvenor.

ington, D. C., says the following of Peruna, the national catarrh remedy:

"I can conscientiously recommend has been commended to me by who have used it, as a remedy par-
