A HUNG JURY IN THE SISCO TRIAL!

Sisco Released Under Bond!

After Many Hours Deliberation No Verdict Could be Agreed Upon.

STRONG ARRAY OF EVIDENCE AGAINST ACCUSED—BRILLIANT FIGHT MADE BY ATTORNEYS FOR DEFENSE—RAPID PROGRESS MADE IN THE TRIAL.

THE EVIDENCE IN FULL!

The trial of George M. Sisco, charged with the murder of Miss Bertha E. Williamson, is over and the accused stands neither acquitted or condemned.

The jury was unable to agree upon a verdict and was discharged by Judge Gordon Saturday night. The twelve men whose duty it was to decide whether or not Geo. Sisco was guilty or innocent of the heinous crime of murdering the fair young girl, retired to the jury room a few minutes past 6 o'clock Friday evening. The following composed the jury:

Z. J. Winders, A. B. Crisp, Oscar Terry, J. E. Bell, M. Ledbetter, S. G. Griffith, J. H. Hardesty, G. W. Tucker, Kelly Walker, T. W. Walker, W. T. Springs and Rutledge Newcomb.

On the first poll of the jury eight stood for acquittal and four for conviction. After a deliberation of three hours the jury retired to rest. All day Saturday the case was debated. In the afternoon the jury reported that they were unable to agree. Judge Gordon asked them to keep the case a few hours longer. At nine o'clock Saturday night the jury again reported that they could not agree upon a verdict, and were of the opinion that they could never agree. At this hour they stood ten for acquittal and two for conviction. The jurors holding out were for the death sentence, but were willing to compromise on the life sentence. The Judge discharged the jury and the Sisco trial was at an end.

Sisco was brought into court Monday morning. He asked for bail. Judge Gordon fixed the bond at \$2,500, which was secured by Sisco's father, Mr. Prest Sisco, and the accused was released. He left at once for his home in the Chapel Hill neighborhood. He seemed to be in good spirits and believes that he will yet prove his innocence.

The examination of the witnesses for the commonwealth began Wednesday morning. The witnesses for the defense were introduced Thursday morning. Rapid progress was made and the examination of witnesses for both the defense and commonwealth was completed early in the afternoon of Thursday. The Judge instructed the jury. The indictment charged Sisco with willful murder and if the jury found him guilty as charged they were instructed to

give him the death penalty or a life sentence.

After the jury received their instructions the speeches were made. Thursday afternoon attorney Jas. A. Moore made the opening speech for the defense. He spoke for nearly two hours. His effort was strong and forcible. Friday morning Mr. A. C. Moore addressed the jury in behalf of the defendant, and his presentation of the case was splendid. He spoke with characteristic power and earnestness, and his pleading was effective. Moore was followed by county attorney Carl Henderson for the prosecution. The arguments he put forth were strong. He placed the evidence before the jury in a most convincing manner. The last plea for the defendant was made by Mr. Ollie James. His speech was a great one. He reviewed the evidence in a careful manner and his reasoning was able. Commonwealth's Attorney Grayot made the closing speech. He spoke in his usual eloquent and convincing manner, and demonstrated that the case against Sisco was not a weak one. Immediately after Grayot's speech the jury took the case under consideration.

The defense attempted to prove an alibi. The accused and members of his family swore that the accused was at home on the evening of the murder, and did not leave the house. These witnesses stated that Eb. Daniel of Livingston county spent the night at Sisco's. The attorneys for the defense did not introduce Daniel; it was alleged that he was ill at Golconda, Ill. They produced a letter from him in which he stated that he knew Sisco was innocent and would try to be here. The letter was not allowed to go to the jury as evidence. The commonwealth introduced a young lady who swore that Daniel was eighteen miles from Sisco's, in Livingston county on the evening of the murder.

The testimony of Grover Brown, the murdered girl's lover, was of little value. Brown swore on the witness stand that Sisco was the murderer, while he had stated before the coroner's jury that he did not recognize the murderer. In his speech the commonwealth's attorney asked the jury not to consider Brown's testimony, that the commonwealth's case was strong enough without it.

The evidence on each side is weak in some points. In the opinion of the commonwealth it will have a stronger case by the June term of court, and the defense expects to have a stronger case.

The trial naturally attracted widespread attention and the court room was crowded with interested spectators, from the beginning to the end of the trial. Many ladies were present.

The story of the crime is well known to the readers of the PRESS. On the night of Oct. 23d, 1902, while returning from church, Miss Bertha Williamson, of the Chapel Hill neighborhood, was shot and killed by a hidden assassin. The young lady was pretty and generally beloved, and a more heinous crime has never been committed in this section of the state. Geo. M. Sisco, a farmer of the neighborhood, was arrested charged with the crime.

The evidence produced at the trial is as follows:

COMMONWEALTH EVIDENCE.

GROVER BROWN.

I live one mile and a half from town. Came from Livingston county about five years ago; am nineteen years old; was waiting on Bertha Williamson the night she was killed; took her to church that night; Ida and Ona Long and Elmer and Ray Williamson, brothers of Bertha, were with us. Went to Chapel Hill, which is about a mile from Horace Williamson's. We walked, started between 5 and 6 o'clock; we came back between 9:30 and 10:30 o'clock. Ida and Ona Long, Wade Brooksher, Elmer and Ray Williamson and my brother Pierce came back with us; Long girls had to go by Williamson's to get home; we came along together. Bertha and I were in front until we came to road where we turned off to go up to Williamson's. The Long girls kept on down the main road; we turned up road. Ona Long said, "Goodbye, Bertha", and Bertha said, "Goodbye, Ona". We stepped about two steps and the gun fired; I was at Bertha's side. The main road was lower than the side road. Bertha pushed me down as she fell; I rolled down incline into main road. When I got up I saw the person that fired the shot. He was in the fence corner with his hands on fence looking over; I saw no gun. The man was George Sisco. He had on light hat, wore mustache; I drew my pistol; first cartridge snapped, he whirled and ran; I shot at him twice. He either fell or I knocked him down with the shot. He ran in direction of George Sisco's house. I went on up to Williamson's house as I didn't know Bertha was shot and thought she had gone up to house; went back to her; she was shot in neck and her whole throat was cut away by shot; she was 18 years old; we were engaged to be married; the weapon used was a shotgun. I never had any trouble with George Sisco; had trouble with Allie Sisco; murder occurred Oct 22, 1902.

Cross-Examination.

Murder occurred little over mile from church, near Williamson home, on Frances and Dycusburg road; Williamson home about 30 feet off of main road. The side road was 4 or 5 feet high on each side; there was wheat field on one side, garden or potato patch on the other. There was fence between the person who fired the shot and myself; he was about 5 feet from me; I was next to fence; never saw the man after I shot; said afterward I believed I hit him; I was not excited. I testified before the coroner's jury. I swore at that time that I didn't know the

THE DISTRICT GETTING IN MOTION!

Information which appears to be of a very positive character from the Illinois Central General offices at Chicago, to the effect that the original survey from Marion to the river opposite Cave-in-Rock, has been adopted for the new short line railroad between St. Louis and Nashville, has been received here.

McArthur Bros. the Chicago railroad contractors, are getting men and tools ready for the grading, and a big force of Italians, with the wheel scrapers, grading machines and the many other essentials will swoop down upon us sometime the latter part of May, and grade the road from the south east corner of the Reed addition to Marion down through the depression in that property via Crittenden Springs to the river. The bridge at Cave-in-Rock across the Ohio river will not be constructed in time for the World's Fair, at St. Louis, but a transfer boat will be used, similar to one now in service on our Evansville line. The rapid construction of the Illinois Central from Golconda, Ill., up the river will make a connection at Cave-in-Rock early in the fall probable.

The new depot and grounds right at the junction of the Prince and Dycusburg roads, adjoining the Reed addition, will have a strong tendency to jump up the value of the city building lots situated anywhere in the 100 acres.

The record books in the county clerk's office tell terse but interesting stories of the deeding, the leasing, and the optioning of mineral lands. The story these broad pages publish, while not romantic, are of absorbing interest to all of us who have the welfare of the district in mind.

Turning back a few pages from the present date, with every now and then a page devoted to the record of lots sold in the Reed addition, we come to the following, which is necessarily condensed:

Foster Threlkeld, lease to United Mining and Development Co. of Indiana, 385 acres at Tolu; royalties, fluor spar 25c per ton, \$1 for carbonate of zinc and lead, 25 cents per ton for coal.

Aacia Kirk and Langford Kirk, deed to the Paducah, Lead, Zinc, and Fluorspar Development Co. of Paducah, mineral rights under 67 acres in View, Ky., \$375.

Abraham Newkirk and Catharine, his wife, deed of 95 acres on the Dry Fork of Livingston creek near Mexico for \$5,500, to the Haplaw Mining company.

Wm. G. Miller, Sarah E. Miller, and other heirs, deed to Marion Mineral company their interest in the lands of Pleasant Miller on Deer Creek, for some \$1,000, this being Miller carbonate property.

E. E. Hodge and others to Wm. S. Lowery, lease of the John Blue tract of 104 acres on Claylick creek, royalty basis.

William Polk to Marion Zinc Co., contract for 6 months prospecting at \$10 per month and privilege of purchase for \$2,000, payment to be made in 6 and 7 months notes.

John Saucer lease to United States Mining and Development Co. of Indiana, 149 acres in Tolu on royalty.

Rush Stephenson, to Marion Zinc company 77½ acres near Mexico, prospecting privilege \$6.25 per month for one year; right to purchase at expiration for \$3,000.

W. P. and J. L. Clemens to Marion Zinc Co., 75 acres, \$100 paid for 90 days prospecting, option for \$4,000.

The sale of the Tabb mines near Mexico, some ten miles south of Marion, is reported, the purchasers being the Commercial Mining and Smelting company of Hopkinsville. The owner of the land on which the mine is situated is Mr. Brown, of Pittsburg. Mr. E. E. Squier of St. Louis, has the lease on the lead and zinc ores, and the Kentucky Fluorspar company the lease on the fluor spar. Possibly these various interests have been merged, although the Kentucky company, of this city, had no information regarding it.

One hundred wagons and 100 heavy teams are wanted by the Kentucky Fluor Spar company for the transportation of fluor spar and lead ores from their several mines to the railroad.

The meeting today at St. Louis of the Columbia Mining company with several representatives of ore dressing machinery, will result in an order being given for the 100 ton daily capacity concentrating plant, to be erected at the Columbia mine.

During the past winter about 2,000 tons of fluor spar have been mined on the land belonging to the Tabb mine near Mexico. The flooding of the deep shaft on this property years ago, and the drowning of quite a valuable pump, which of course still remains at the lowest depth, put a quietus on deep mining there. Probably the Commercial Mining company will now clear the water out and investigate the ore body below.

Editor Hanlon, of the Gallatin Democrat, Shawneetown, Ill., evidently believes in the mining resources of Hardin county as strongly as in the Democratic principles which his paper advocates. He has associated with him Mr. S. G. McWade, of Cleveland, and between them they propose developing the long abandoned iron interests of that portion of Illinois. The iron ore fields of this section at one time had almost a national reputation for both quantity and quality.

Mrs. Mary Ida Pierson, of Sturgis, visited the city last week and was so impressed with the location and desirability of the city building lots in the Reed addition to Marion, coupled with the \$1,000 worth of mining stock with each lot that she purchased twelve, securing a warranty deed for the lots and \$12,000 worth of mining stock. Among the other purchasers of the week are: Mr. J. B. Jenkins of Albert, West Virginia; Chas. Stedler of Henderson; J. S. Bagby of Mattoon; A. J. Bennett of Tolu; Robert F. Haynes, Creed Taylor, Harry Watkins, C. J. Pierce and Robt. Drescher, of Marion.

Our roads are still in very poor shape for anything except saddle horses. The surface is gradually drying yet there are many dangerous places where the chances for accident to the horse or its rider are at a maximum.

Notwithstanding all the drawbacks of moving through the country there are scores of people from abroad, traversing both Livingston and Crittenden counties. They represent nearly all classes; those who come to inspect property where they have invested money, those who desire to secure mining property, the prospector, the promoter, the miner, the ma-

chinery salesman and always somewhere in the procession the man who can tell one just where the very best things are to be had and what is better, he has an option or a lease on them which can be had remarkably cheap.

And it is not surprising that so great an interest is made manifest. There are but few, if any, mining districts in America that offer such decided advantages in the way of low priced lands carrying such enormous veins of lead and zinc ores as do this trinity of counties, Crittenden, Livingston, and Caldwell.

The past year has shown this in a very decided way. The shipments of zinc ore, both to the smelters at Mineral Point, Wis., and Joplin, Mo., has been large and constant, except during the bad roads season, when even a light buggy has proven an impossible burden to a team of horses. The sale of lead ore is but just commencing, the first car load of concentrates being ready for the smelter and will likely go forward this week.

The stocks of fluor spar are rapidly decreasing at all the shipping points—Marion, Crayneville and Mexico, still there is fully thirty days supply on hand and the large accumulation at the mines will begin to move toward the railroad in ample time to keep all orders filled. The demand for this spar has been on a much greater scale than during any previous year known in this district.

The United States Geological Survey will issue a bulletin entitled, "Contributions to Economic Geology for the Year 1902," containing, among many similar papers, a brief account of the Survey's work in Western Kentucky. This bulletin will be ready for distribution in a few weeks.

The final report, which will be very complete in every respect so far as our ore veins and rock formations are concerned will be in the printer's hands about June 1st. Prof. Ulrich, to whom this district is so greatly indebted for the very positive position he has always assumed regarding our fissure veins, is devoting his entire time to this report.

The result of the separation effected by Mr. Keene of the Hodge mine's zinc blend and fluor spar, shows an advance in concentrating methods that six months ago was thought an impossibility. The Hodge vein of zinc and fluor spar shows such an intimate mixture of the two ores that fine crushing is an absolute essential to their separation. The position taken by Mr. Keene that given the half of one per cent difference in specific gravity of two minerals with close sizing a first class commercial concentration can easily be made on the finer types of tables, with some improvements of his own suggested by his late experiments is unequivocally correct, as the samples on view in the Reed Mining company's office attest. It is somewhat of a triumph over all preconceived ideas.

GOV. BECKHAM'S

Name Must Go On the Ballot... Lower Court Affirmed.

The Court of Appeals affirmed the decision of Circuit Judge Cantrell, holding that the Democratic State Executive Committee had ample authority for calling the State primary fixed for May 9th, and granting Gov. Beckham a writ of mandamus compelling the committee to place his name on the ballot as a candidate for the gubernatorial nomination. The court recommends that some changes be made in the rules governing the State primary in order to conform to the statutes. Touching the matter of Gov. Beckham's eligibility to re-election, the court holds that the committee had no right to raise such a question.

The Court of Appeals affirmed the decision of Circuit Judge Cantrell, holding that the Democratic State Executive Committee had ample authority for calling the State primary fixed for May 9th, and granting Gov. Beckham a writ of mandamus compelling the committee to place his name on the ballot as a candidate for the gubernatorial nomination. The court recommends that some changes be made in the rules governing the State primary in order to conform to the statutes. Touching the matter of Gov. Beckham's eligibility to re-election, the court holds that the committee had no right to raise such a question.

A HUNG JURY IN THE SISCO TRIAL.

Continued from First Page.

person who shot Bertha Williamson. I believed it was Sisco then but I didn't swear that he was the murderer before the coroner's jury, the morning after the killing. Told several I knew who fired the shot; was at the depot when they took Sisco to Henderson but had no intention of shooting him.

Re-direct Examination.

When I went back to Bertha she was lying on the spot where we stood when the shot was fired. I went to train when Sisco was taken to Henderson intending to go to Mexico on the local. I didn't think of hurting him.

Re-Cross Examination.

Had been engaged to Bertha Williamson about two weeks; had been her constant escort for about a year. The night was clear and starlit, no moon. The man had black mustache, light clothes, couldn't see features of his face; I told Joel Farmer, who was on coroner's jury that I didn't believe I knew the murderer. I was bothered and troubled next morning is reason I could not say then that Sisco was the murderer of Bertha but I do say so now.

IDA LONG.

Knew Bertha Williamson; was along the night she was shot; we had been to Chapel Hill to church. Wide Brooks, Ona Long, Elmer and Ray Williamson, Grover Brown and Bertha Williamson were in the crowd. My sister, Brooks and I were a little in front. I heard the shot, saw some one running after the shooting was done. The man was running north east, in the direction of George Sisco's house. Saw no one fall; didn't know Miss Williamson was shot till I got to Williamson's house. Do not know who fired the shot.

G. W. BROOKSHIRE.

I live at Crayneville; was along night Miss Williamson was shot. The Long girls, Grover Brown and brother Pierce, Rhea, Elmer and Bertha Williamson and myself were coming from Chapel Hill, where we had been to church; the Long girls and I were in front of Bertha and Grover; my cousin Ona Long said goodbye to Bertha Williamson as Bertha and Grover Brown turned off to Williamson's and Bertha said goodbye to Ona. Before the shot was fired I saw some one raise up. The person was just over the fence in Williamson's garden. He fired. I heard the gun; it sounded like a shotgun. The person I saw had on light hat, and as far as I could tell, light clothes. I was about 14

feet from where the man raised up; Miss Williamson wasn't more than 3 or 4 feet from him. The good-byes were said loud enough for the man to have heard. After he fired he straightened up and leaned over the fence and looked over to where Miss Bertha fell. Then he ran. Grover shot twice; I saw him shoot. When the man shot Grover fell into the road down in to my right; Miss Williamson and Brown were on the private road when the shot was fired. Miss Williamson fell in the private road, Brown in the main road. The private road is higher than the main road. After the shot was fired the man ran along beside the inside fence, going in the opposite direction from the fence behind which he was located when I saw him. I never was over that country and don't know whether he was running in the direction of anybody's home.

HORACE WILLIAMSON.

I live about 5 miles from town. Have lived in that section twenty years. Bertha Williamson was my daughter. I was at home the night she was killed. Heard the report of the gun; was in bed; jumped out, put on my pants and ran to the door. After children told me what had happened I went down the road and found my daughter killed. She was dead when I got to her. She was shot in the neck, jaw and throat. The whole load went in right side of throat and ranged up. From the wound I could tell that the shot was fired from a shotgun. I heard the report. Also heard two shots from a pistol. Bertha would have been eighteen years old in April. George Sisco was unfriendly toward me.

SANDY BARKER.

I live at Mr. Clement's. I was in Marion night of the killing. The evening before I was coming up from Mr. Garnet's and passed Mr. Williamson's; coming by Williamson's got scared right in front of the house. I came on down the road until I got down, I reckon, just below where the shooting was done, and some man, I don't know who it was, colored or white, darted right across the road between two stumps. Then the mare I was riding jumped across a stump, and turned my saddle. I said, "Good evening," but nobody returned any answer; me leaning on the horse when my saddle turned didn't give me any time to pay attention to who it was. He was in the main road on the side next to Mr. Williamson's, about 20 feet from where the road turns up to Mr. Williamson's. It was about 6:30. The people had

gone to church. Appeared to have on a light hat.

ELMER WILLIAMSON.

I am a son of Horace Williamson; am 16 years old, a brother of Bertha Williamson; was with her the night she was killed. My brother and I went to church with she and Grover Brown, Ona and Ida Long, and Brookshire were a little in front coming back. My brother and I were down in the main road and Grover and Bertha were in the private road when the shot was fired. I saw nobody there before the shooting; I heard report of a gun, saw the flash; it came from the fence corner right inside the field. Just at the firing I could not see anything for the smoke; then I saw Grover fall down in the road, and I saw somebody rise up and lean over the fence and look. I saw Grover rise up and the man started to run. The man was somewhat low, had on a white hat, light clothes, and had a mustache; I took him to be George Sisco. Have known Sisco about ten years, and have seen him often. The man ran in the direction of Sisco's home. After the shooting I walked on to the house. Thought the rest of them had gone on. I did not know my sister was hurt; I did not see her fall.

Cross-Examination.

It was a clear night, the stars were shining and it was light enough to see everything good. Did not see him until after he fired. I was a little excited. The man stood leaning over the fence until smoke had cleared away. The smoke was gone in about a minute; I was about twelve or fourteen feet from him; saw him run; could not see his hands, just see from the breast up. I testified before the coroner's jury and swore that the man I saw resembled Sisco. I couldn't tell whether his mustache was black or not.

ONA LONG.

I was along the night Bertha Williamson was killed. My sister, Wide Brookshire, the two Williamson boys, Pierce Brown, Grover Brown, Bertha Williamson and myself came back together; I heard the shot, saw no one run and do not know who fired the shot. I went and looked at Bertha and then went back to the Williamson house.

ALBERT CANNAN.

I am town marshal of Marion. I know George Sisco; I went out to both Williamson and Sisco's houses the day after the shooting. Joel Farmer and coroner Holcomb were with me. I examined the

place where the man is said to have stood. I found where there had been some weeds cut out of the fence corner and a bush no larger than your forefinger had been cut down. It looked like the party had been there some time. I saw tracks going from the place along the garden fence toward the west. There had been a potato patch adjoining the garden fence on the northside and the tracks were made alongside of the fence by the potato patch. The tracks looked like those of a man running. I followed the tracks. Farmer and Holcomb were with me. After we got through the potato patch as far as the garden went we could track no farther. In a field where grass or wheat had been sown I again found tracks. These tracks were of the same measurement as the other. I measured tracks at both places; I followed the tracks across the field; I found two sets of tracks, one leading toward Mr. Williamson's house from the direction of Sisco's home, the other set leading in the opposite direction toward Sisco's house. All of these tracks were of exactly the same measurement. The tracks were fresh. This was about 3 o'clock in afternoon after the girl was killed. After going through the first field we came to a wheat field I think, the ground was hard and we couldn't find any tracks at all; we came to another field of pretty good size, which had been sown in wheat or grass; here we found the same tracks of the same measurements, going to and from; followed the tracks clear through the field, going toward Sisco's house. After going through the field we found no more tracks until we got nearly to Sisco's house. Just before we got to his barn we found what seemed to be the same track. I couldn't get the full impression of the track there, but I measured the heel both ways and across the wide part of the shoe and it measured exactly the same as the other track. The last tracks were about 50 or 75 yards from Sisco's house. Just before entering the lot, going in the direction of the house I measured the tracks in several different places, some going toward Williamson's and some going toward Sisco's; they all measured exactly the same. The two sets crossed in each field. In the first field the tracks going in the direction of Sisco's were further apart, the party seemed to be taking long steps; also in the second field they seemed to be measuring longer steps that afterward. On the left track there seemed to be an impression of a sole worn in the left shoe, and where the ground was damp that showed distinctly in the track. On the right heel

of the track there was an impression which seemed to have been made by some tracks along the back of the heel of the shoe. The tracks didn't look as though they had been made over 24 hours. I went to Sisco's house; no one was there, the family was gone; I went in; the beds looked as if the people had just got up, they were not made up; clothing was scattered in each room as though they had undressed and left the clothing in the room; some clothing was on the floor, some on the bed. Examined a double barreled shotgun; it was a muzzle loader; found a pair of shoes; they were well worn and in the left shoe on the bottom of the sole, right about the ball of the foot, there was a hole worn in the outer sole about the size of a dollar. Went out to Sisco's the next morning and got the shoes and gun. John Gregory was with me. This is the gun (examining the gun handed him); I noticed several scratches and dents on the gun which seemed to be fresh. These are the shoes (examining shoes handed him). An impression in the right track looked very much as if made by this place, (showing) on the right shoe. I measured the shoes and the measurement corresponded exactly with that of the tracks; found shoe under the bed; there were three beds in room I found the shoes.

Cross-Examination.

I have known George Sisco about three years. The place where the party who fired the shot stood looked as if it had been occupied some time. We followed the tracks by the side of the garden as far as the ground was loose enough to show tracks; then I didn't look very carefully until we got to the next field; here found tracks going and coming in same route as the other tracks. The tracks measured the same. From where we lost sight of the tracks to Geo Sisco's house it was about three-fourths of a mile. The next track, near Sisco's house, were of the same measurement as the tracks in the first field and those in that fence corner. They also were going from direction of Sisco's house toward Williamson's, and then from direction of Williamson's house toward Sisco's. There were some places where the track didn't measure exactly the same as the shoe; you could see where they had slipped a little. Wherever I could get a full impression the tracks measured exactly the same as the measure of the shoe. Some places might have varied just a little from the size of the bottom of the shoe, but where there were full impressions the measure was always the same. The shoes were in the room where beds were unmade. Found gun in same room. Ramrod was in

gun; it was unloaded. Don't know Allie Sisco. I have seen George Sisco in town often; can't say that I ever saw him with these shoes on. Didn't see shoes he had on when arrested. I didn't see him arrested.

ALONZO DUVALL.

Have lived in Marion 22 years. was out at Horace Williamson's day after Bertha Williamson was murdered. Saw place where man is said to have stood; was in corner of fence; seemed as if the party had been there some time; the weeds and grass worn down and bushes cut off. Saw tracks; the first I saw were just west of the corner where party is supposed to have been, a distance of 8 or 10 feet. They were going west; Joe Dollar and I followed them about one half mile. They went in direction of Jim Fowler's and Geo. Sisco's. The tracks looked as if heels turned in a little; the tracks going west seemed to be those of a party running. About one hundred yards west of place where party who did the shooting is supposed to have stood, I found where the party had stepped into a sort of gully and had slipped and stumbled, and then possibly 200 or 250 yards I found where he had stumbled and fallen; seemed to have fallen on his knees. I knew he had fallen on his knees, and at one side there was a place where ground was gouged up as if he had a gun in right hand and had jabbed into ground at his right as he fell. Still farther, in a wheat field, he stumbled, but did not fall. He went on to a cross-fence between that and a fresh sown grass field; we tracked him through the field until we came to Jim Fowler's pasture field; there we stopped. Tracks were running both ways, one set going toward Williamson's, one the other way. They were close together and crossed each other in some places.

The Only Store Where Such Bargains are Possible.

Look for the Red Tickets, They Mean a Big Saving.

Cliftons Great Loom End Sale!

Never before Have Such Bargains been offered you See that you Profit by it.

In order to arrange for this Sale our store will be closed from Friday, April 3, at noon, until Saturday morning at 9 o'clock.

WHAT ARE LOOM ENDS ?

Every factory and mill in the manufacture of their products accumulates mill ends or loom ends as they are commonly called. They are short ends from the looms, generally 2 to 10 yards in length, too short for a bolt, and then these short ends are laid aside until the end of the weaving season, when those pieces which contains from 2 to 10 yards are put up in large cases, 300 to 400 pounds to the case, and are disposed of in large quantities by weight, so much per hundred pounds, instead of so much per yard, the price always being less than the actual cost of the raw material from which they are made. Dealers whose trade warrants the purchase of merchandise in such large quantities, can secure almost every conceivable kind of merchandise at figures that will permit them selling the same at less than half the regular cost.

WHAT ARE LOOM ENDS ?

Every factory and mill in the manufacture of their products accumulates mill ends or loom ends as they are commonly called. They are short ends from the looms, generally 2 to 10 yards in length, too short for a bolt, and then these short ends are laid aside until the end of the weaving season, when those pieces which contains from 2 to 10 yards are put up in large cases, 300 to 400 pounds to the case, and are disposed of in large quantities by weight, so much per hundred pounds, instead of so much per yard, the price always being less than the actual cost of the raw material from which they are made. The first bluebird whistle is a notice to the city council that the time for taking up the good work of macadamizing the streets has arrived.

There are even some people who complain of the promptness with which Marion fires her Cannon at the disturbers of the peace and the breakers of law.

The ease with which the Superintendent of the Home Society is finding, in this county, homes for the little orphans, shows what a world of tenderheartedness there is among our people.

The question of making good roads is as much a matter of business as selling goods, farming, practicing law or following any other avocation, and it should be thought of in that light.

If the business men of Salem and Marion could get on confidential terms, and enjoy a free, open, frank, easy tete-a-tete about business matters, and cultivate a real friendly, fraternal disposition, they would very readily arrive at the conclusion that the long-talk-

ed of turnpike from one town to the other would be of great value to both places, no disadvantage to the present or future of either, and of inestimable advantage to a large scope of country between the two. The Press has an abiding confidence in the disposition and ability of the people interested to build that road, and a united effort would demonstrate that our confidence is not misplaced.

State bonds to the amount of \$973,050 were destroyed by burning at Frankfort this week. These bonds had been redeemed with a portion of the funds recently collected from the Federal government on the State's old war claim. This leaves Kentucky's bonded indebtedness only \$48,000, and this will be wiped out as soon as the bonds can be secured.

The decision of the Court of Appeals in the Beckham case is a disappointment to those who expected it to directly and explicitly settle the question of Mr. Beckham's eligibility, and put an end to this issue between the candidates for governor. The discussion of this point will last to the end of the primary fight and will become more acrimonious between the partisans of the candidates.

Fortune seems to be against Hon. Malcolm Yeaman, in so far as that capricious dame shapes his destiny in the seeking of a public office. He was defeated Saturday for the nomination for circuit judge in his district by J. W. Henson, a rising star of Webster county. Twice has Judge Yeaman been defeated for a place on the Appellate bench. He takes his defeats like the philosopher he is, and continues to be a loyal Democrat and one of the brainiest and purest men in the old commonwealth.

In this district, if the mining prospects develop into as healthy enterprises as the situation now promises, there will be ample room for a number of thriving towns, and we hope to see not only our own little city, but each of the towns in the trio of counties enjoying, to its fullest extent, the advantages with which nature has endowed its own locality. A friendly rivalry, pursued in a friendly spirit, is not harmful, but awakens the energies and sharpens the wits of the live people in each in the laudible effort to attract the attention of the capital necessary for developing. The Press hopes that dame nature has bestowed upon each abundantly from her cornucopia, and our mining news department is to assist in the development. The news from one is as gladly received and as generously treated as from another. Items for this department from every town or locality in the district are solicited. Our mining editor has already been of incalculable benefit to the district and he hopes to increase his usefulness during the spring and summer period of activity. For reliable mining news, done up in handsome packages, continue to read the Press; and we will be pleased to hear continually from operators and prospectors, guaranteeing to place the information they furnish us where it will do the most good.

BEN WATT.

We take pleasure in announcing the candidacy of Mr. Ben Watt for Superintendent of Public Instruction. Mr. Watt is an able educator, thoroughly acquainted with the duties of the office, a loyal Democrat and in every way deserving of the honor he seeks. It was through his assistance that Harry McChesney was nominated four years ago; at the critical period in the struggle for the nomination Mr. Watt withdrew and threw his strength to McChesney, and it would be a graceful thing now for Crittenden and Livingston to show their appreciation by giving Mr. Watt a handsome vote.

A CALL.

The Republican county committee of Crittenden county is requested to meet at the court house in Marion, Ky., on Monday, April 13, 1903, (county court day) at 1 o'clock p. m., for the purpose of setting forth time and manner to nominate a candidate for circuit court clerk.

It is of importance for all committeemen to be present.
J. Frank Conger, Ch'n.

COURT ADJOURNS.

Dr. Moore Secures Small Judgment Against Railroad.

Circuit court adjourns today. The commonwealth docket was finished last week and civil cases have been claiming the attention of the court.

A verdict for the plaintiff was rendered in the suit of Dr. R. L. Moore against the I. C. railroad, the plaintiff was awarded a judgment of \$250. He asked for \$2,000. The railroad was granted an appeal.

The suit of Mrs. R. L. Moore against the I. C. railroad was continued.

Mrs. Sarah Nunn against John King, verdict for defendant; question involved as to whether or not Mrs. Nunn signed a certain deed, and the jury held that she signed the deed.

Henderson Woolen Mills against J. W. Pritchett. Decision rendered by court. Plaintiff given judgment of \$145.

Ed. Phillips against J. W. Pritchett; verdict for plaintiff of \$15.

Mrs. Alice Foster was granted a divorce from her husband, Nathan Foster.

Luther Hardesty plead guilty to charge of selling liquor on Sunday and was fined \$15.

SETTLED OUT OF COURT

The Wolfe-Threlkeld Suit is Compromised.

The suit of Foster Threlkeld against J. C. Wolfe, which, on account of the prominence of the parties, attracted considerable attention, was settled prior to the calling of the case in court. Friends suggested to each of the litigants that a compromise would be the wisest course for both, and both readily agreed to entertain an effort with that end in view, and the settlement resulted. Under the terms agreed upon, the plaintiff, Threlkeld, takes all of the property attached, pays the indebtedness and cost of suit, and pays the defendant \$300.

Arkansas Will Visit Hickman.

Yesterday Congressman James received a telegram from the Secretary of the Navy informing him that the big war vessel Monitor Arkansas, had been instructed to visit Hickman on her trip to St. Louis. A few days ago Mr. James was requested by the people of Hickman to secure, this visit, and the telegram was the result of his effort.

Walking a Wholesome Exercise.

Walking is the simplest, most natural and the most wholesome of all exercises. No athlete ever trains for a contest, no matter what its nature may be, without walking a considerable distance in the open air each day. Many keep in vigorous health by this alone, and no matter what other exercise you take, you must walk. But, first of all, you must learn how to walk. A great many people walk in an aimless, shuffling manner, and secure but little benefit from the exercise. In walking for exercise the effect is better if the mind is directed toward some pleasurable end. Walk with consciously directed movements, until you have brought every muscle under perfect control of your will. Moping along in an aimless, lackadaisical manner, does little good physically and harms one mentally.

The necessity of maintaining a proper, erect position of the body must, says a writer in the April Cosmopolitan, be borne in mind. Bear the weight on the balls of the feet, keep the shoulders back and down, the chest high, but do not hold the abdomen inward. There should be perfect freedom to breathe normally.

We take pleasure in announcing the candidacy of Mr. Ben Watt for Superintendent of Public Instruction. Mr. Watt is an able educator, thoroughly acquainted with the duties of the office, a loyal Democrat and in every way deserving of the honor he seeks. It was through his assistance that Harry McChesney was nominated four years ago; at the critical period in the struggle for the nomination Mr. Watt withdrew and threw his strength to McChesney, and it would be a graceful thing now for Crittenden and Livingston to show their appreciation by giving Mr. Watt a handsome vote.

A CALL.

The Republican county committee of Crittenden county is requested to meet at the court house in Marion, Ky., on Monday, April 13, 1903, (county court day) at 1 o'clock p. m., for the purpose of setting forth time and manner to nominate a candidate for circuit court clerk.

It is of importance for all committeemen to be present.
J. Frank Conger, Ch'n.

COURT ADJOURNS.

Dr. Moore Secures Small Judgment Against Railroad.

Circuit court adjourns today. The commonwealth docket was finished last week and civil cases have been claiming the attention of the court.

A verdict for the plaintiff was rendered in the suit of Dr. R. L. Moore against the I. C. railroad, the plaintiff was awarded a judgment of \$250. He asked for \$2,000. The railroad was granted an appeal.

The suit of Mrs. R. L. Moore against the I. C. railroad was continued.

Mrs. Sarah Nunn against John King, verdict for defendant; question involved as to whether or not Mrs. Nunn signed a certain deed, and the jury held that she signed the deed.

Henderson Woolen Mills against J. W. Pritchett. Decision rendered by court. Plaintiff given judgment of \$145.

Ed. Phillips against J. W. Pritchett; verdict for plaintiff of \$15.

Mrs. Alice Foster was granted a divorce from her husband, Nathan Foster.

Luther Hardesty plead guilty to charge of selling liquor on Sunday and was fined \$15.

SETTLED OUT OF COURT

The Wolfe-Threlkeld Suit is Compromised.

The suit of Foster Threlkeld against J. C. Wolfe, which, on account of the prominence of the parties, attracted considerable attention, was settled prior to the calling of the case in court. Friends suggested to each of the litigants that a compromise would be the wisest course for both, and both readily agreed to entertain an effort with that end in view, and the settlement resulted. Under the terms agreed upon, the plaintiff, Threlkeld, takes all of the property attached, pays the indebtedness and cost of suit, and pays the defendant \$300.

Arkansas Will Visit Hickman.

Yesterday Congressman James received a telegram from the Secretary of the Navy informing him that the big war vessel Monitor Arkansas, had been instructed to visit Hickman on her trip to St. Louis. A few days ago Mr. James was requested by the people of Hickman to secure this visit, and the telegram was the result of his effort.

Walking a Wholesome Exercise.

Walking is the simplest, most natural and the most wholesome of all exercises. No athlete ever trains for a contest, no matter what its nature may be, without walking a considerable distance in the open air each day. Many keep in vigorous health by this alone, and no matter what other exercise you take, you must walk. But, first of all, you must learn how to walk. A great many people walk in an aimless, shuffling manner, and secure but little benefit from the exercise. In walking for exercise the effect is better if the mind is directed toward some pleasurable end. Walk with consciously directed movements, until you have brought every muscle under perfect control of your will. Moping along in an aimless, lackadaisical manner, does little good physically and harms one mentally.

The necessity of maintaining a proper, erect position of the body must, says a writer in the April Cosmopolitan, be borne in mind. Bear the weight on the balls of the feet, keep the shoulders back and down, the chest high, but do not hold the abdomen inward. There should be perfect freedom to breathe normally.

Call on J. P. Pierce. 43-3w

Occasionally we find a Kentuckian with feet so large that he is very properly ashamed to take them out in company, but it is a rare thing to find one whose feet are too small to perform the work required of them. Rev. J. S. Henry, a popular minister of this place, has been for several months suffering great inconvenience on account of the smallness of his feet as compared with his body. He weighs 250 pounds, and has a No. 54 or 6 foot; he is increasing in weight, and it is becoming difficult and painful for him to walk. He can not stop his body from growing and can not induce his feet to keep pace, and the question of locomotion is worrying him.

The loveliest and largest assortment of trimmings ever brought to Marion at Mrs. Franks.

HOMES FOR ORPHANS.

J. W. Gardner, Superintendent of the Children's Home Society, arrived Monday with twelve children for whom he desired homes. He succeeded in securing homes for all the little fellows save one, a baby, who returned to the home with Mr. Gardner and the matron.

WANT TELEPHONE LINE.

The people of the Ford's Ferry section are anxious for telephonic connection with Marion. That is the only section of the county that has been overlooked by the telephone people, and there seems to be no good reason for it, as a line to Ford's Ferry would catch quite a number of phones and doubtless pay a good profit on the investment. We hope the Alexander line will take the matter up.

DODGE—HOWERTON.

At the residence of the bride's father, Mr. G. W. Howerton, three miles east of town, Tuesday evening March 31, Mr. J. F. Dodge and Miss Ada Howerton were united in marriage, Rev. T. C. Carter officiating.

Quite a number of friends witnessed the happy event. The bride is an amiable, handsome and accomplished young lady; the groom is one of the most popular business men in Marion; both have a wide acquaintance and enjoy a large circle of friends and they have the best wishes of all.

CLIFTONS BIG ENTERPRISE.

No town has more enterprising, wide-awake merchants than Marion, business men who are always moving, always striving to better their business, and in so doing benefit their patrons. No business firm is more wide-awake than Cliftons, the big dry goods firm. They hustle for patronage; they undoubtedly enjoy an enormous trade, and they know how to please their patrons and retain their trade.

The Cliftons announce in this issue their "Great Loom End Sale," which begins Saturday, April 4th, and continues until Saturday night April 18th. We don't profess to be dry goods men, but we know a good thing when we see it, and there is no doubt that in this big sale are offered great bargains, unheard of bargains. Everybody knows that the Cliftons are reliable and stand by all they say, and it is safe to predict that the big store will be the busiest place in town during the next two weeks.

Come and look and be convinced that our's is the stock you'll like the best. Yandell-Gugenheim Co.

Isaac Keeling, of Blythesville, Ark., says for the readers who may be afflicted as I was I will tell you the merits of Hill's Anti-Malarial Tablets. They have never failed to cure the chills on my children, they give them a good appetite and bring back the rosy hue to their cheeks. I have used them for bad blood; good success. I carry a box in my pocket, they are convenient and cheap and come nearer being a cure-all than any medicine I ever knew of. Letters like this from all over the United States is quite convincing of their merits. Price 25c at all dealers in the county.

See the new dress goods and waistings. Yandell-Gugenheim Co.

J. W. Riley, of the firm of Riley & Armstrong, formerly of Cave-in-Rock, Ill., but now of Poseyville, Ind., writes: The people of this vicinity take Hill's Anti-Malarial Tablets for rheumatism, neuralgia, lagrippe and all the little complaints of the family, they never fail to give relief or cure. These tablets are peculiarly adapted to these as well as all run down conditions. These great Tonic Laxative Tablets are positively guaranteed to give satisfaction, for sale at all stores in the county where patent medicines are sold, price 25c per box.

Table linens cheaper than you ever saw. Yandell-Gugenheim Co.

For liver troubles and constipation there's nothing better in creation than Little Early Risers, the famous little pills.

They always effect a cure and save doctor bills.

Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues, by arousing the secretions and restoring the liver to the full performance of its functions naturally.

Occasionally we find a Kentuckian with feet so large that he is very properly ashamed to take them out in company, but it is a rare thing to find one whose feet are too small to perform the work required of them. Rev. J. S. Henry, a popular minister of this place, has been for several months suffering great inconvenience on account of the smallness of his feet as compared with his body. He weighs 250 pounds, and has a No. 54 or 6 foot; he is increasing in weight, and it is becoming difficult and painful for him to walk. He can not stop his body from growing and can not induce his feet to keep pace, and the question of locomotion is worrying him.

HOMES FOR ORPHANS.

J. W. Gardner, Superintendent of the Children's Home Society, arrived Monday with twelve children for whom he desired homes. He succeeded in securing homes for all the little fellows save one, a baby, who returned to the home with Mr. Gardner and the matron.

WANT TELEPHONE LINE.

The people of the Ford's Ferry section are anxious for telephonic connection with Marion. That is the only section of the county that has been overlooked by the telephone people, and there seems to be no good reason for it, as a line to Ford's Ferry would catch quite a number of phones and doubtless pay a good profit on the investment. We hope the Alexander line will take the matter up.

DODGE—HOWERTON.

At the residence of the bride's father, Mr. G. W. Howerton, three miles east of town, Tuesday evening March 31, Mr. J. F. Dodge and Miss Ada Howerton were united in marriage, Rev. T. C. Carter officiating.

Quite a number of friends witnessed the happy event. The bride is an amiable, handsome and accomplished young lady; the groom is one of the most popular business men in Marion; both have a wide acquaintance and enjoy a large circle of friends and they have the best wishes of all.

CLIFTONS BIG ENTERPRISE.

No town has more enterprising, wide-awake merchants than Marion, business men who are always moving, always striving to better their business, and in so doing benefit their patrons. No business firm is more wide-awake than Cliftons, the big dry goods firm. They hustle for patronage; they undoubtedly enjoy an enormous trade, and they know how to please their patrons and retain their trade.

The Cliftons announce in this issue their "Great Loom End Sale," which begins Saturday, April 4th, and continues until Saturday night April 18th. We don't profess to be dry goods men, but we know a good thing when we see it, and there is no doubt that in this big sale are offered great bargains, unheard of bargains. Everybody knows that the Cliftons are reliable and stand by all they say, and it is safe to predict that the big store will be the busiest place in town during the next two weeks.

Come and look and be convinced that our's is the stock you'll like the best. Yandell-Gugenheim Co.

thing then about going to Livingston county; was not at his home the night before the killing; Sisco told me he was going to Geo Daniels' the day he and his family went off. Have been at Sisco's house several times. I suppose his son is paralyzed as I never saw him move about. Have seen him sitting in a chair. Don't know what was in the trunk. I have seen several different people at his home at different times, day and night.

Re-direct Examination.

Sisco and his family said they were going to stay at Daniel's until next day, said they were going after a pig that Daniels had given Sisco's boy. Said they were taking the trunk to carry things for Allie.

SHERIFF J. W. LAMB.

I arrested Sisco at the house of George Daniel. Sisco made no resistance, and he did not ask a single question as to why he was arrested or as to the crime with which he was charged, made no enquiries whatever regarding the arrest.

JOEL FARMER.

Visited scene of the murder the next day; saw place where man said to have stood. Tracks were leading to and from the place; measured tracks and shoes found at Sisco's house and the measurement tallied, as did impression made by the wearing out of the place in the shoe.

WILL HOLCOMB.

Am Coroner; examined place where murderer supposed to have stood. Saw tracks and shoes; the measurements were the same.

J. A. DOLLAR.

Live in Marion; was out at Williamson's day after the murder. Examined place where man supposed to have stood. Weeds and grass beat down. Saw tracks, measured them with a stick; followed tracks going away from Williamson's; tracks looked like man was running. Tracks were both going and coming; tracks both ways appeared to be same size. Saw where man had fallen three times; at one place the ground was torn up like something had been run into it, making a round hole; the place was about 15 inches long, the size of a chair leg; saw the gun at Sisco's, there was dirt on the end of the ramrod. In the stubble field I did not see tracks leading to the corner, but in second field I saw the tracks going both ways.

ALBERT CANNAN—Recalled.

When I examined the gun at Sisco's noticed dry dirt on the ramrod.

Youngest son of Horace Williamson; was in the party going home from Chapel Hill church on night of murder. Saw man who fired the shot as he leaned over the fence. I thought the man was George Sisco. (The little fellow talked in a straightforward way, and was not confused and was firm in statements. He did not testify before coroner's jury as they thought he was too young; but Judge Gordon found him to be bright and intelligent and placed him in witness stand. He is about nine years old).

PHIL DEBOE.

Had a conversation with George Sisco after his son Allie had been shot, in which defendant said to

me in speaking of the affair, 'there will be another day.'

PIERCE BROWN.

Was along the night Bertha Williamson was murdered. Person in fence corner fired the shot; after he fired raised up, looked over the fence and ran. My brother, Grover Brown, then fired at the man twice. Don't know who it was that fired the shot. The person looked to be rather tall, had dark complexion, dark mustache, had on light looking hat and light coat.

After introducing the above witness the commonwealth rested, and the examination of the witnesses for the defense began.

EVIDENCE FOR DEFENSE.

GEORGE SISCO.

Defendant testified as follows: Forty-one years of age; born and raised in the county about five miles from town. Have a wife and five children. When asked if he committed the crime with which he is charged, he answered, "I positively did not." Witness said, "I was at home on night Bertha Williamson was killed, and never went out of the house from the time I quit work digging potatoes at all, except I did go out on the porch for a moment and spoke to two parties who were passing." Defendant said his family, with exception of two little girls who spent the night at Mrs. Floyd's, were at home that night, and Eb Daniels spent the night there. That he went to Livingston county the next morning after the shooting, leaving about 11 o'clock, to get a hog from his brother-in-law, Geo. Daniels. He said he took his cripple boy, Allie, who is afflicted with paralysis along and had to take a trunk to carry his boy's things in; the boy needed to have a great number of things carried along. Defendant claimed that he had previously notified Geo. Daniels of his coming sometime before he did go. Met Dr. Paris on the way and told him where he was going. I was unarmed when arrested. Sheriff Lamb said, when he arrested me, "George, we have come after you." I said, "What for?" He said, "For killing that Williamson girl." "They kept standing there and I said, 'Come on, let's go.' In testifying as to the condition of his paralyzed boy, Allie Sisco, he said he needed constant attention, and they had to have many appliances for his use and need. That on the night Bertha Williamson was shot and killed the entire family sat up until 12:30 waiting on him and exercising him on a contraption that had been arranged in the room for that purpose. Said the family ate dinner on the morning of going to Livingston county at about 10 or 11 o'clock so they could get away on their trip. "Geo Daniels lives about 15 or 18 miles from my house; I don't know the exact distance." In regard to the shoes that the commonwealth contended made the tracks found in the vicinity of the shooting, defendant claimed he never wore the shoes in his life; that they were the shoes of this boy Allie, who had them on when he was shot and was stricken with paralysis. He said his wife, since Allie had been sick had been wearing the shoes spoken of. Defendant denied having had a conversation with Phil Deboe at any time in which it was claimed he had said, while talking about Grover Brown shooting Allie, that "there would be another day." Said he had no malice and didn't want to hurt Grover Brown. Defendant said he had never owned or worn a white or light hat or light suit of clothes in his life, thus denying the claim of commonwealth. Said the gun presented before the jury and found on his premises, was his own, and that it hadn't been used since Lacy Miller and Leonard Piley, two boys, had borrowed it to shoot a coon three weeks before the shooting of Bertha Williamson.

son. Witness said he was friendly to Horace Williamson, father of murdered girl. He said Grover Brown frequently passed his house and was around in the neighborhood from the time he shot his boy up to the time of the shooting of Bertha Williamson, and he had ample chance to harm him had he desired to do, but had no such desire.

DR. W. J. J. PARIS.

Practicing physician for 25 years. Attended Allie Sisco when shot. Described and located the wounds, and said in his opinion he would never recover. Said it was necessary for them to have constantly on hand a great number of things for the boy, syringes, catheter, rubber cushion, cloths, etc., and had to be cared for like an infant. Met George Sisco on the day after shooting of Bertha Williamson on his way, as Sisco said, to George Daniels.

DOLTIE SISCO.

Daughter of defendant, said she was 16 years old, and remembered the night of the killing of Bertha Williamson. She said her father was at home all that night and never left the house at all. The family sat up until about twelve o'clock waiting on Allie, her sick brother. Eb Daniels was at the house that night arriving after dark; no one else was there outside of the family but him. Witness said she did not go with the family to George Daniels' in Livingston county, but remained at her grandfather's during the absence of the family. Witness said her two little sisters spent the night at one Mrs. Floyd's at a play party, and the arrangement was to go by the school house next morning and get the two children and take them to George Daniels' with them, which was done.

JIM SISCO AND ALLIE SISCO.

Testified to practically the same thing as regards to their father being at home on the night of the shooting of Bertha Williamson, and were positive that he never left the house. Allie Sisco was brought into the court room on a cot on account of his feeble condition. He said he and Bertha Williamson had been sweethearts. He said he did not know who shot him; that he was shot in the back.

LEONARD RILEY AND LACY MILLER.

Two boys, said they had borrowed Mr. Sisco's gun, which proved to be the gun introduced in the case by the commonwealth, to shoot a coon, three or four weeks before the shooting of Bertha Williamson, and that during the night they used the gun; it laid on the ground under the tree where they had treed a coon, from 12 at night until next morning. The defense undertook in this way to account for some dirt said to have been found on the ramrod of gun; it being contended by the commonwealth that the dirt was there by having been run into the ground by the party carrying it on the night of the shooting; one witness testifying a place gouged out in the ground as though some one had fallen while running and jabbed something into the ground.

JOEL FARMER AND S. J. HUMPHREYS.

Testified that the evidence at inquest held over the body of Miss Williamson, neither Elmer Williamson, Grover Brown or any one, testified that they recognized the party who fired the shot on the night spoken of. Mrs. Eliza Floyd, Finas Butler, and George Daniels corroborated statements made by defendant Sisco and his family.

J. A. DAVIDSON AND MRS. FLOYD.

Testified that on the evening of the shooting Eb Daniels passed their homes going in the direction of George Sisco's. This was corroborative of the testimony given by the Sisco's that Eb Daniels spent that night at their home.

REBUTTAL EVIDENCE.

On rebuttal commonwealth introduced Miss Florence Lewis, who said on the night of 22nd October, the night of the shooting,

she was at her sister, Maggie Daniels, wife of Coy Daniels, 14 miles from George Sisco's residence, and that Eb Daniels was there that night, and on the night of 23rd of October.

JNO. D. GREGORY.

Identified gun introduced by commonwealth as gun found by him and other parties at defendant's house. Said he found the gun in the same condition as it was when presented to him in court. Ramrod extended about six inches above barrel of gun when found. He discovered a little dirt in knotch of ramrod, he said.

HARRY HAYNES.

Testified he examined the gun soon after it was brought to town by the officers and it did not have the appearance of having been recently fired.

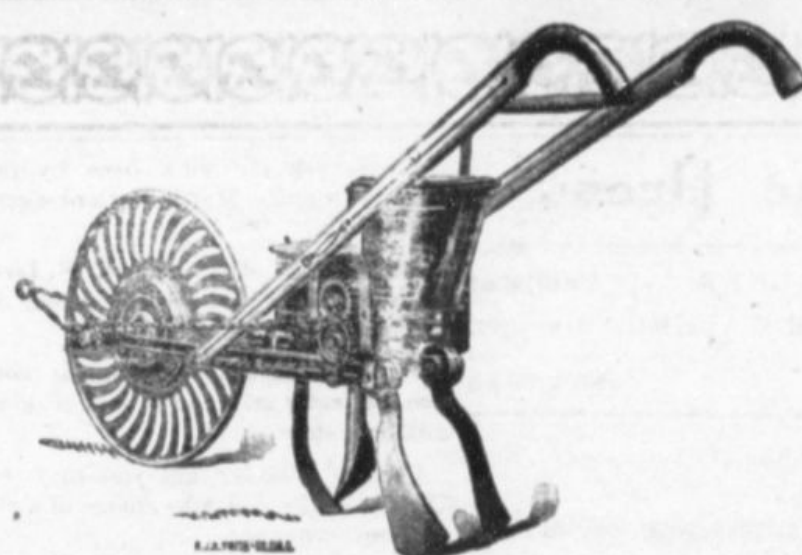

Several witnesses were then introduced to testify as to defendant's character and all said it was good.

APRIL WEATHER.

Hicks' Forecast for the Month--
Not an Excess of Rain.

Hicks' summary on April weather is about as follows:

April 1 and 2 are reactionary storm days, on or about which may be expected rain and thunder storms. Mercury period will be central on the 4th. Look for cloudy and unsettled weather, with snow squalls in the north for several days. About the 7th much warmer and storms of rain, with some hail, thunder and wind, will pass eastwardly over most parts of the country, from the 8th to the 11th. About these dates look for high temperature, low barometer, rain, thunder and hail, followed by Westerly gales, rising barometer, with fitful squalls of snow and sleet northward, and a very general and decided change to colder. After a few mornings of chill and frost, over all sections central and Northward, change to warmer with falling barometer and more April storms will center about the 13th and 14th. The transition of the season through the most part of April brings, as a rule, scattering "April showers" at any time. Much warmer about the 17th and very decided storms from the 18th to 21st, running their regular course from East to West across the country. This period will be followed by westerly gales and

He said he did not know who shot him; that he was shot in the back.

LEONARD RILEY AND LACY MILLER

Two boys, said they had borrowed Mr. Sisco's gun, which proved to be the gun introduced in the case by the commonwealth, to shoot a coon, three or four weeks before the shooting of Bertha Williamson, and that during the night they used the gun; it laid on the ground under the tree where they had treed a coon, from 12 at night until next morning. The defense undertook in this way to account for some dirt said to have been found on the ramrod of gun; it being contended by the commonwealth that the dirt was there by having been run into the ground by the party carrying it on the night of the shooting; one witness testifying a place gouged out in the ground as though some one had fallen while running and jabbed something into the ground.

JOEL FARMER AND S. J. HUMPHREYS

Testified that the evidence at inquest held over the body of Miss Williamson, neither Elmer Williamson, Grover Brown or any one, testified that they recognized the party who fired the shot on the night spoken of. Mrs. Eliza Floyd, Finas Butler, and George Daniels corroborated statements made by defendant Sisco and his family.

J. A. DAVIDSON AND MRS. FLOYD

Testified that on the evening of the shooting Eb Daniels passed their homes going in the direction of George Sisco's. This was corroborative of the testimony given by the Sisco's that Eb Daniels spent that night at their home.

REBUTTAL EVIDENCE.

On rebuttal commonwealth introduced Miss Florence Lewis, who said on the night of 22nd October, the night of the shooting,

she was at her sister, Maggie Daniels', wife of Coy Daniels, 14 miles from George Sisco's residence, and that Eb Daniels was there that night, and on the night of 23rd of October.

JNO. D. GREGORY.

Identified gun introduced by commonwealth as gun found by him and other parties at defendant's house. Said he found the gun in the same condition as it was when presented to him in court. Ramrod extended about six inches above barrel of gun when found. He discovered a little dirt in knotch of ramrod, he said.

HARRY HAYNES.

Testified he examined the gun soon after it was brought to town by the officers and it did not have the appearance of having been recently fired.

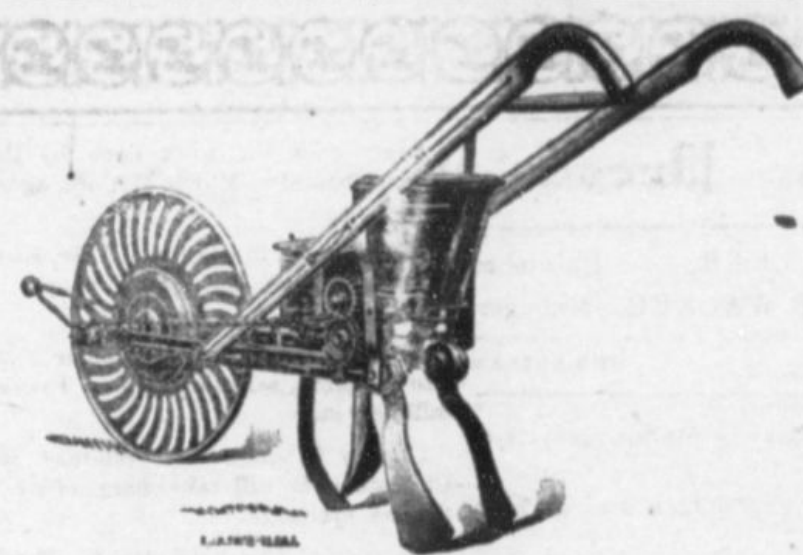

Several witnesses were then introduced to testify as to defendant's character and all said it was good.

APRIL WEATHER.

Hicks' Forecast for the Month--
Not an Excess of Rain.

Hicks' summary on April weather is about as follows:

April 1 and 2 are reactionary storm days, on or about which may be expected rain and thunder storms. Mercury period will be central on the 4th. Look for cloudy and unsettled weather, with snow squalls in the north for several days. About the 7th much warmer and storms of rain, with some hail, thunder and wind, will pass eastwardly over most parts of the country, from the 8th to the 11th. About these dates look for high temperature, low barometer, rain, thunder and hail, followed by Westerly gales, rising barometer, with fitful squalls of snow and sleet northward, and a very general and decided change to colder. After a few mornings of chill and frost, over all sections central and Northward, change toward more falling barometer and more April storms will center about the 13th and 14th. The transition of the season through the most part of April brings, as a rule, scattering "April showers" at any time. Much warmer about the 17th and very decided storms from the 18th to 21st, running their regular course from East to West across the country. This period will be followed by westerly gales and

very cold nights. The next period in which storm conditions will develop and run their courses from West to East will be central on the 24th to 25th. The showery stormy conditions will not pass off until about the 28th, after which there will be a change to much cooler and frost northward. Warmer as the month goes out. April will be a month for industries. There will not be an excess of general rains, but rather the other extreme.

A Sweet Breath

Is a never failing sign of a healthy stomach. When the breath is bad the stomach out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, heal and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet." R. F. Haynes.

Paine's Celery Compound

Permanently Cures Sick and Nervous Headaches that Make Life Miserable.

Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of. Headaches as a rule, result from a disordered condition of the nervous system. Mental excitement, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headaches invariably follow. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous fceleness, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructant of the nervous system. Mrs. Henry Westrick, St. Clair, Mich., tells of her release from suffering as follows: "I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

NAMED FOR PRESIDENTS.

The New York Tribune says: The number of post offices in the United States bearing the name of President Roosevelt is steadily climbing, and has now reached fifteen. This is precisely the number that bear the name of President Fillmore, and is only two less than the number of McKinley post offices. Mr. Roosevelt will have to double the number of post offices which bear his name before he can approach the Cleveland post offices in point of numbers. President Cleveland has more post offices bearing his name than any other President. He has thirty-two in all. In this respect Mr. Cleveland is ahead of George Washington and James Monroe, and one ahead of Abraham Lincoln. These four names are the only ones in the thirty class. There are twenty-five Jeffersons and Madisons, twenty-seven Jacksons, twenty-three Grants, twenty two Garfields, and the Adams and Johnson post offices number just an even score. The next in order are Harrison and Taylor, nineteen each, Arthur eighteen, McKinley seventeen, Gilmore fifteen, Buchanan fourteen, Tyler and Polk ten each, Van Buren and Hayes, nine each, and Pierce seven. These figures are of offices bearing the same name as the Presidents, but there are numerous variations, such as Polkville, Adams center, etc

Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Woods & Co's drugstore.

WANTED:—Several persons of character and good reputation in each state (one in this county required) to represent and advertise old established wealthy business house of solid financial standing. Salary \$21.00 weekly with expenses additional, all payable in cash each Wednesday direct from head offices. Horse and carriage furnished when necessary. References. Enclose self-addressed envelope. Colonial Co., 334 Dearbon St., Chicago.

Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by H K Woods & Co., druggist.

AN EGG FIFTY INCHES LONG.

In the farm yard of A. J. Jones of Magness, this county, a few days ago, was found an egg fifteen inches long. At one end is the yellow, which is just the size of an ordinary egg. Attached to this is a soft, shell like substance which seems to be filled with the white of the egg, and which is just thirteen inches in length. The white part is round, and where it is attached to the yellow is about one quarter of one half an inch in diameter. It enlarges gradually until it is something near one and a half or two inches in diameter at the center, where it begins to get smaller, until finally it tapers to a small point at the end.—Benton Democrat.

Walks Without Crutches.

I was much afflicted with sciatica, writes Ed C Nud, Towaville, Sedgewick county, Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 10c and \$1.00 at Woods & Co.

SEED CORN.

I have about 40 bushels of fine white "Dent corn" for sale at \$1.50 per bushel. I planted it last year on the 28th of May and although it was a dry season, it yielded 90 bushels to the acre, and was fully matured by the last of August. Send in your orders early.

A Thoughtful Man

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Woods & Co's drugstore.

STRAYED.

From my farm on Wednesday, March 18th, one black mare mule about 14 or 14 1/2 hands high. Will pay liberal reward for her return or information leading to her recovery.—James Perryman, Levia, Ky. 1w

Save the Loved Ones!

Mrs. Mary A Vilet, Newcastle, Colo., writes, "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no for-it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00. H. K. Woods Company.

FARM FOR SALE.

250 acres—all under fence, about 200 in cultivation, about 70 acres bottom. Good timber. Good six room house, 3 good feed barns. Good orchard. Land will produce good wheat, corn and tobacco. As I want to go west will sell at low price. For terms and other information address J. H. CRIDER, Marion, Ky. 41-1w.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes, "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1. Guaranteed by Woods & Co., druggists. Trial bottles free.

STRAY HOG:—About two weeks ago a large black sow, mark crop and split and underbit in left ear, strayed from me, near Hurricane camp ground. Will reward for her return, any information as to her whereabouts thankfully received.—G. W. Sullenger, Tolu, Ky.

J. H. Tyner, general implement dealer of Cave-in-Rock, Ill., said: I have used Hill's Specific in nearly all forms of bowel complaints in my children and I find it a quick relief for nearly all complaints peculiar to teething children. Mr. Tyner hit the key note when he said that for it was especially prepared for these complaints and there is no medicine on earth that has as sure effect in such cases. Price 25c.

Paine's Celery Compound

Permanently Cures Sick and Nervous Headaches that Make Life Miserable.

Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of. Headaches as a rule, result from a disordered condition of the nervous system. Mental excitement, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headaches invariably follow. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous weakness, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructer of the nervous system. Mrs. Henry Westrich, St. Clair, Mich., tells of her release from suffering as follows: "I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

NAMED FOR PRESIDENTS.

The New York Tribune says: The number of post offices in the United States bearing the name of President Roosevelt is steadily climbing, and has now reached fifteen. This is precisely the number that bear the name of President Fillmore, and is only two less than the number of McKinley post offices. Mr. Roosevelt will have to double the number of post offices which bear his name before he can approach the Cleveland post offices in point of numbers. President Cleveland has more post offices bearing his name than any other President. He has thirty-two in all. In this respect Mr. Cleveland is ahead of George Washington and James Monroe, and one ahead of Abraham Lincoln. These four names are the only ones in the thirty class. There are twenty-five Jeffersons and Madisons, twenty-seven Jacksons, twenty-three Grants, twenty-two Garfields, and the Adams and Johnson post offices number just an even score. The next in order are Harrison and Taylor, nineteen each, Arthur eighteen, McKinley seventeen, Gillmore fifteen, Buchanan fourteen, Tyler and Polk ten each, Van Buren and Hayes, nine each, and Pierce seven. These figures are of offices bearing the same name as the Presidents, but there are numerous variations, such as Polkville, Adams center, etc.

Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Woods & Co's drugstore.

WANTED:—Several persons of character and good reputation in each state (one in this county required) to represent and advertise old established wealthy business house of solid financial standing. Salary \$21.00 weekly with expenses additional, all payable in cash each Wednesday direct from head offices. Horse and carriage furnished when necessary. Referencences. Enclose self-addressed envelope. Colonial Co., 334 Dearbon St., Chicago.

Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by H. K. Woods & Co., druggist.

AN EGG FIFTY INCHES LONG.

S. R. ADAMS

JOHN L. NUNN

In the farm yard of A. J. Jones of Magness, this county, a few days ago, was found an egg fifteen inches long. At one end is the yellow, which is just the size of an ordinary egg. Attached to this is a soft, shell like substance which seems to be filled with the white of the egg, and which is just thirteen inches in length. The white part is round, and where it is attached to the yellow is about one quarter or one half an inch in diameter. It enlarges gradually until it is something near one and a half or two inches in diameter at the center, where it begins to get smaller, until finally it tapers to a small point at the end.—Benton Democrat.

Walks Without Crutches.

I was much afflicted with sciatica, writes Ed C. Nud, Iowa, Sedgewick county, Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00 at Woods & Co.

SEED CORN.

I have about 40 bushels of fine white "Dent corn" for sale at \$1.50 per bushel. I planted it last year on the 28th of May and although it was a dry season, it yielded 90 bushels to the acre, and was fully matured by the last of August. Send in your orders early.
41-4W LEWIS JOLLY, Salem, Ky.

A Thoughtful Man

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Woods & Co's drugstore.

STRAYED.

From my farm on Wednesday, March 18th, one black mare mule about 14 or 15 hands high. Will pay liberal reward for her return or information leading to her recovery.—James Perryman, Lewis, Ky.

Save the Loved Ones!

Mrs. Mary A. Vliet, Newcastle, Colo., writes, "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no for it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00. H. K. Woods Company.

FARM FOR SALE.

250 acres—all under fence, about 200 in cultivation, about 70 acres bottom. Good timber. Good six room house, 3 good feed barns. Good orchard. Land will produce good wheat, corn and tobacco. As I want to go west will sell at low price. For terms and other information address J. H. Caines, Marion, Ky. 41-1W.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes, "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1. Guaranteed by Woods & Co., druggists. Trial bottles free.

STRAY HOG:—About two weeks ago a large black sow, mark crop and split and underbit in left ear, strayed from me, near Hurricane camp ground. Will reward for her return, any information as to her whereabouts thankfully received.—G. W. Sullenger, Tolu, Ky.

J. H. Tyner, general implement dealer of Cave-in-Rock, Ill., said: I have used Hill's Specific in nearly all forms of bowel complaints in my children and I find it a quick relief for nearly all complaints peculiar to teething children. Mr. Tyner hit the key note when he said that for it was especially prepared for these complaints and there is no medicine on earth that has as sure effect in such cases. Price 25c.

Gossipy Letters From all Sections of the County.

DYCUSBURG.

The Lotus Simms, a large steamer loaded with wheat and bound from St. Louis to Nashville passed up the Cumberland Sunday.

Miss Kora Graves is visiting in Hopkinsville.

Miss Estelle Richards returned from a lengthy stay at Brookport Wednesday.

A series of meetings will begin at the Methodist church April 6, conducted by Rev. Tolly. P. C., and Rev. Smith of Carrsville.

Mr. Alfred Atkinson is sojourning for several weeks in Dycusburg.

T. P. Moore left on steamer Richardson Sunday on regular commercial work.

Mr. Wm. Hall and wife, of Livingston are visiting in Crittenden county.

Rev. Kemper and wife are visiting at Tolu.

Eugene Brown will go on the road April 1st to represent a Paducah grocery house.

Fruit prospects are at present good in this section. Wheat is looking well, and garden seeds are being planted. We await the increase.

W. S. Dycus and children, of Kuttawa, are guests of F. B. Dycus and family.

James Nall and wife, of Kuttawa, visited F. B. Dycus Sunday.

Mr. and Mrs. Aaron Charles, of Cumberland City, Tenn., have bought property and located in our town. They formerly lived in Livingston county, opposite Dycusburg.

Albert Butler, of Livingston county, was here last week.

Sam Watson, one of Caldwell county's best farmers, is visiting his mother-in-law, Mrs. Vosier.

S. H. Cassidy & Co., commenced mining on one of their tracts of land last week with fair prospect of success. They are sinking a prospecting shaft 5x5 feet. At 3 feet they struck blue and pink spar; at 5 feet the spar began to show much better with mixture of lead; at 10 feet deep they have a solid vein of this spar showing considerable lead in it and very hard. The vein covers the entire bottom of the shaft, and continues to widen showing more galena. This mine is near Dycusburg and Cumberland river, and well located for shipping by boat or barges to Paducah, Ky., or Brookport or Jopka, Ills. Messrs. Cassidy & Co., have christened their mine "The Morning Glory."

HONOR ROLL OF DYCUSBURG SCHOOL.

The following named pupils were on the honor roll the first month of school ending March 27: First Grade—Mollie Lee Dycus and Lottie McReynolds. Second Grade—Arley Mitchell and Anson Bennett. Third Grade—George Graves. Fourth Grade—Albert Robinson, Hugh Graves, Lillian Decker, Charlie Bennett and Lou Bennett. Fifth Grade—Nina Bennett, Rhea Cooksey, Nona Cothorn, Ida Lou Ramage and Mary Pickern. Lula Wheeler, Teacher.

Rube Glone, of Marion, has moved into Mr. Sims' house on the hill just above the mill. He is going to work Mr. Sims' farm this year.

Saturday is grinding day at the Sims mill.

I have several times in the past few years says Hiram S. Barger, an employee of the Illinois Central railroad company in the surveying corps, been attacked with severe pains in the stomach and bowels and would be relieved each time by one single dose of Hill's Specific.

Others have also had the same experience; it is no wonder that people all over the United States praise Hill's Specific.
