## DIAMONDS IN KENTUCKY

Every Condition Similar to the South African Diamond Field—Copper Found on One of The Reed Veins—Working Life in England Instructive Article on Zinc Ores.

### LARGE DECREASE IN JOPLIN DISTRICT

The American Museum of Natural History in New York has on exhibition specimens of green rock known as dunite, which occurring in conjunction with carbon-bearing strata, carboniferous sandstone and shales in portions of Elliott county, Kentucky, has given rise to the suggestion that Kentucky may contain diamond deposits which will one day make the State an American Kimberly.

The Journal of the American Museum states that the question is undecided, but that the conditions are so favorable that the diamond field theory is at least plausible for Kentucky.

On an opening made on the Leander White farm, that lays bare one of the Reed veins, Harry Watkins finds quite a considerable percentage of copper in the form of carbonate of copper mixed with the fluor spar. Should this continue, and copper is a deep-seated ore, the money to be made in this wonderful district can scarcely be computed. In England, where fluor spar and tin are almost invariably associated, more or less, copper is always found. We should also find, in connection with our fluor spar, a tin ore, but probably very few of us are acquainted with its characteristics. There are several varieties, the most common, perhaps, being stream tin, known to mineralogists as cassiterite, varying in color from a light brown to a lustrous black. It occurs in grains and pebbles, having subrounded and rounded forms, and is quite heavy, its specific gravity being very similar in handling to that of lead.

It would be wise for prospectors generally to secure and reserve for assay or analysis any heavy substances that they may be unacquainted with, as all metallic ores show by their weight a value that more earthy deposits do not have.

Of course should the veins passing through the Reed addition to Marion carry both tin and copper in addition to their fluor spar, zinc and lead, their value could hardly be figured. Careful scrutiny will be given to the output here, and it is very probable that developments will be made that will astonish the country.

A gossip letter from Mr Chas. Steinmiz brother, who is now located in Manchester, England tells some of the peculiarities of English manufacturing and working life:

"The climate in this, the northern part of England, is very unpleasant. By reference to my diary I see that it has rained the last nine days. It is owing to this climatic peculiarity that Manchester exists, as its existence is due to the large number of cotton mills located here, and they are here because of the excessive humidity of the atmosphere enabling them to handle more cotton threads to the loom than elsewhere and so make the finest cotton goods.

"Hustling here, as we use the term, is an unknown factor. The men start in the works at 6, work until 8, breakfast at 8:30, work up to 12:30, dinner to 1:30, Saturdays close at 12:30, but on Monday they do not start until 8:30. This is owing to an institution known here as week end, that is, a holiday from Saturday noon till Monday morning. Everybody who can raise the price goes somewhere. The officials get at their offices about 9:30, have lunch from 1 to 2, tea from 4 to 5, and dinner any time they get through with their work. It is very amusing to go into an office at 4 o'clock and be invited to a cup of tea. The clerks or 'clarks' as they term them, take lunch at some sort of tea room or cafe, and with their light lunch play a game of chess, checkers or dominoes, provided by the cafe. I went to one of Cook's offices, the tourist agent, about 1 o'clock to draw some money, on my letter of credit. After keeping me waiting about fifteen minutes they told me the cashier was out to lunch, and to call again in one and a half or two hours. In their banks they have no railing on the counter; they weigh their gold coins and handle them with a small shovel. No paper money of a less denomination than one pound, five dollars, is issued or used."

Hon. R. Barret of Galena, Ill., contributes an interesting and instructive article on zinc ores and zinc mining to the Galena Gazette from which we make extracts.

"As the mining of zinc ore in this section of the country is increasing so rapidly, and the developments already made show so conclusively that this is a very rich zinc mining district, it may be well to publish some facts in regard to zinc and zinc mining that are not generally known to those who are interested in it. Aside from the tillage and cultivation of the land, zinc mining is becoming by far the most important industry, and its importance will soon be much greater than it is at present. The increase in the production of zinc for the last six years has not averaged 10 per cent a year, but the consumption has increased in the United States over one hundred per cent during the same time. The demand, both in this country and Europe, is constantly increasing, and it is stated as a positive fact that it will take many years for the increase in production to equal the present demands. Eighteen furnaces have been added by smelters in Kansas, Texas, and Colorado since 1901, and it is not known where they can obtain ore to supply them. Zinc ore mining in Missouri, insignificant in 1888, had grown to immense importance in 1897. It is very easy to see that prices must further advance, for the output of the zinc mines of Europe is steadily decreasing.

"If the phenomenal prosperity of the mining districts in Missouri has been brought about when the price of ore averaged only \$20;

00 per ton, and the rock yielded less than 10 per cent. of zinc ore, what may be expected of this mining district when the price of ore is over \$30 per ton, and the rock yielding from ten per cent. to forty per cent. The consumption of the different kinds of zinc ore that are mined in this country is principally for the following purposes: About one-fourth of the whole is made into zinc oxides, for paints and similar uses. Most of the ores used for these purposes are carbonate of zinc and are usually found above the permanent level of the water; while most of that made into spelter, (that is, metallic zinc) comes from below permanent water level, and is a sulphide of zinc, commonly called black jack. The amount made into spelter is about three-fourths of the whole.

In the last number of "Contributions to Economic Geology," published by the United States Geological Survey, a preliminary report on our mining district is made by Prof. E. O. Ulrich. It was our good fortune in the early inception of mining here during the years 1889 and 1890 to have the benefit of this gentleman's mining and geological knowledge. Indeed had it not been for Professor Ulrich's "stjoktoitiveness" we doubt very much if we should now be shipping a million pounds of zinc and four to five million pounds of fluor spar monthly, besides the various concentrating plants that are being erected in different sections of the district for the handling of our sulphide ores of lead and zinc.

Professor Ulrich in this advance publication of results and conclusions, confirms with additional emphasis his conclusions of a dozen years ago. We quote in a condensed form a few of his very interesting statements:

"The district for the first time in its history are having numerous veins and mines systematically prospected and developed."

"It seems probable that a field containing mines that were operated with profit for the lead ore alone, the zinc ores and fluor spar being left on the dumps, should under competent and modern management become a producer of importance."

"The roads are bad, a condition common to all new fields. Two-thirds of the district lie fully five miles from the Illinois Central railroad, which traverse it. Two navigable rivers, the Ohio and the Cumberland, are also being used, and this cheap mode of shipment must exert a considerable influence on the development of the field."

"The most marked structural feature of this district is an extensive series of fractures. All available evidence tends to the conclusion that vein deposits occur in all the fractures, where either one or both walls are limestone, excepting where the fractures are occupied by peridotite dikes. It has been proved by developments in nearly all the mines of the district and nearly all the promising prospects, that either the St. Louis or Princeton limestone occupy one of both sides of the fracture."

"There are at least 30 faults in the district, traceable for distances of from 2 to 20 miles or more. Of the subsidiary fissures there are probably hundreds, and it is my belief that many of them will prove more productive for equal lengths than the veins in the main faults. Taken as a whole the fractures fall into at least two (and probably four) well defined systems, one trending northeast, the other northwest. The northeasterly system is the more prominent

and its fractures more generally mineralized than those of the other systems."

We shall await with great interest Professor Ulrich's full illustrated report, which is now in preparation and will be published by the survey in late summer.

In the grand clean up that will be made in the hereafter, there will of course be a large representation of mining men; at least we hope there will be, as some of us will need their services badly to do a little mining for water. There will be one class of miners, however, who will probably have to stand the heat. It's the ones that are always and eternally finding fault with other people's property.

For instance, on the Columbia mine a contract has been let for a first class 50 ton daily separating plant; the parties letting it have been in the business of mining and smelting the class of ores produced here for a decade. It is to be presumed they know their business, at least up to this time no one has ever questioned that fact, yet we are told by one of these "knowalls" that a bucket of ore occasionally is all that this great property will produce, and that it is foolish to erect a separating plant.

In the deep shaft on the Memphis grounds, belonging to the Kentucky Fluor Spar company, zinc blende made its appearance at 160 feet. The Mineral Point, Zinc company, through an arrangement with the Fluor spar people, for taking over their zinc showings in their various properties commenced work here. At 184 feet in this shaft galena (lead ore) and fluor spar came in very heavily with but little, if any, zinc. As it is zinc and not lead that the Mineral Point Zinc company desired, they having a large zinc plant at Mineral Point, Wisconsin, they notified the Fluor spar company, who are already taking out great quantities of leaded fluor spar from the same ground, that they would commence work on the Holly instead, another shaft that shows strongly in "Jack," and now the party tells us that the Memphis mine has been pinched out on account of the Mineral Point people stopping work.

But about the worst is the Effel tower lie regarding the "Old Jim" mine. The owners of this property have probably been at more trouble and expense in procuring and disseminating knowledge regarding our various ores than any one else in the field, and if we remember rightly the very people who would gloat over a falling off in revenues of the Old Jim were the very people whom Blue & Nunn took especial pains to teach the A, B, C, of the mineral kingdom; and not only that, but in various ways, and in ways that only a large, broad minded, established concern could do, to forward their interests. In the deposition of zinc ores in the Old Jim mine nature was in an extraordinary liberal mood; no other property in the world can duplicate it. Still nature took her usual course, and where there was a crevice 60 feet wide she filled it with zinc as she did the openings of but 24 inches; still, wherever there was the slightest cavity it was filled to the brim. In the natural order of events thousands of tons of zinc have been marketed, other thousands are being marketed, and other thousands are being mined for market. The Old Jim mine today shows the most remarkable tonnage of both carbonate and Jack that it ever has had at any time during its entire workings; and yet we are told by these individuals that the "Old Jim" is about played out.

## FOR SALE High Class Mineral Rights!

About 3000 feet lineal of same vein as the Riley mine and joins Riley mine. Land owned by J. C. Kinsolving. The rights cover everything but the farming privileges. Owner will show vein. Experts say there are four or five locations for shafts that promises as much as the Riley mine. 500 feet of this vein cannot be worked out in a life time. Club together and buy this good property. Will pay a commission for sale. Address

Geo. C. Hughes,  
Price \$7,500. 613 Broadway, PADUCAH, KY.

As the Old Quaker said to the man who was telling about other people's property, "Friend, if the devil should ask me to bring him the greatest liar on earth I should put my hand on your shoulder and say, friend, the devil wants you."

Dudley Baldwin, of Cleveland, has closed a deal in Knoxville, Tenn., for over 2,000 acres of zinc lands, and has secured options on a number of other large tracts in the zinc belt of that section. Baldwin was there last week in consultation with Geo. T. Wilder, pension agent, and closely inspected the property. He has made arrangements for the erection of a mill, the construction of which is to begin at once. He is at the head of a syndicate which includes besides a wealthy Connecticut man, H. Clay Evans, former United States commissioner of pensions, and Wesley Adams, of Chattanooga.

Since spring has opened up, operations in the zinc region around Milton have taken on new activity. The Ohio Zinc Mining company of Ottawa, Ohio, have reached a depth of 100 feet and are finding zinc ore.

Milton is on the line of the proposed electric railway to run from McMinnville to Nashville, the deeds to the right of way for which have already been secured.

At Joplin for the week ending May 17th, the lower prices offered for zinc ore induced many of the larger producers to withhold their production. Zinc shipments showed a decrease of 222 tons and lead ores of 269 tons. The values were \$20,156 less than the week before. The highest price for the week was \$40 per ton for several lots of zinc ore; lead holding steady at \$54 per ton.

The year's output has been 16,000 tons less than the first four months of last year, and it is practically impossible for the Joplin district to meet the demand of the smelters of zinc ores this year.

The automobile that transacts business between the Illinois Central depot and the hotels, will receive a new coat of paint in the near future. It may be of interest to strangers to learn that the sienna with which this moving resort is painted was mined on Dudley Wallingford's farm, burnt on his cotton seed oil stove to the beautiful burnt sienna color, and applied by hand by Dudley himself, who also made the windows and the back door; the glass was bought in the store.

The demand of the postal authorities for additional room for the transaction of the greatly increased business is a good augury for the future. Marion is gaining, and gaining fast.

Something over 100 tons of fluor spar were shipped to Nashville, Tenn., a few days ago from an extensive vein recently discovered near Rome, in Smith county, Tennessee. This vein is said to be 100 feet wide and the quality of the product is very high. It occurs in beautiful crystalline masses with distinct cleavage planes, which makes the mining very easy. The cost of mining is said to be 75¢ per ton, while the selling price is \$7. This shipment goes to St. Louis, Pittsburgh and Ohio. Most of it will be used in blast furnaces but a portion will be used in the manufacture of opalescent glass. This discovery adds another valuable mineral to the economic products of Tennessee.

The Mineral Point Zinc company, of Mineral Point, Wisconsin, a part and portion of the New Jersey Zinc company, commonly known as the zinc trust, has been of very great service to this mining field, in the way of taking hold of and operating several prospects. They have done much to develop this section in a mining way, and if they are the kind of trusts Teddy is bucking against, then we are certainly agin' Teddy.

Arrangements are about perfected for drilling a deep well for the Marion Electric Light and Ice company. Probably this well will be large enough and of sufficient depth to furnish all of the water required by the city for many years to come.

On the Felix Cox farm near Sheridan, the Kewanee fire clay people will deepen the existing shaft that started on the very strong showing of surface lead ore. The vein of ore very likely dipped out of the vertical shaft, as most all of our veins do.

Mr. Green Bright has given a 90 day option on his farm near Princeton, to druggist Hardwick, of Hopkinsville; \$10,000 is the price named. The surface showing of fluor spar, it is said, is very good indeed.

The Horn silver mine at Frisco, Utah, have shipped a 200 ton lot of zinc to Antwerp. The ore carries about 40 per cent. zinc. It is estimated there are 300,000 tons in the old workings of this mine.

Prospectors searching for fluor spar near Alcorn, Tennessee, discovered zinc blende under conditions which give promise to develop into a large body of ore.

New York men have purchased the properties of the Gageville Mining company in Miller county Mo., for \$40,000.

The Horn silver mine at Frisco, Utah, have shipped a 200 ton lot of zinc to Antwerp. The ore carries about 40 per cent. zinc. It is estimated there are 300,000 tons in the old workings of this mine.

Prospectors searching for fluor spar near Alcorn, Tennessee, discovered zinc blende under conditions which give promise to develop into a large body of ore.

New York men have purchased the properties of the Gageville Mining company in Miller county Mo., for \$40,000.

Continued on Eighth Page.

## REPUBLICAN CONVENTION.

To Nominate a State Ticket to Be Held July 15.

The Republican State convention will be held in Louisville, Wednesday, July 15. Delegates will be selected in the counties on the Saturday preceding.

This was decided at a meeting of the Republican State Central Convention.

Dr. Thos. H. Baker, the Louisville Postmaster, acting in the interest of Mr. A. E. Wilson, made a pull for Lexington as the place for holding the convention. Belknap and Pratt favored Louisville. The vote on the question of location was 7 to 6.

The basis of representation was one delegate to every 100 votes cast in the last general election. On this basis Crittenden county will send eighteen delegates to the convention.

### QUEER FINDS IN TREES.

The Benton Democrat tells the following:

On April 27, 1903, while cutting a tree on Poley Henson's land in Clark's river bottom four miles southeast of Princeton, J. W. Banks and Ollie Henson found a pocket knife in a hole in a black gum tree, about forty or fifty feet high.

The knife was open and had a horn handle, one jaw was eaten off and the other gnawed as if a squirrel had done it.

The Wingo Outlook furnishes this one:

Thursday at noon Robert Culom, a farm hand working on the farm of R. C. Mullins, one and one-half miles southeast of town, climbed a tree at least 100 feet from the ground to a hawk's nest, where with a long pole he punched out of the nest the following curious and extraordinary occupants:

Three young hawks, large as frying size chickens, 13 snakes, 3 to 4 feet long; 1 young duck, 1 turkey, 4 young chickens, 2 moles, 2 rabbits and 2 lizards.

### THE EARLY SUMMER FASHION.

The key-note of the Summer fashions is picturesqueness. The gown of the season is unlined and made to fall in lines that are graceful and easily adapted to different figures. Linen dresses, made either in simple shirt-bouse style or lavishly trimmed with embroidery and antique lace, or ultra-fashionable modes of the season. Tucks are used more than ever. All-over face waists are stylish, and one of the charms of the Summer bodice is the deep cape collar made either of tiny tucks and in-section or all-over lace.

One of the most popular fabrics is silk voile. Veilings, dotted, checked and figured in a score of ways, and canvas weaves are used especially for tailored dresses. The ombre or shaded effects in the silks make them wonderfully effective.

Hand work gives the smart touch to the frock of this season and the newest fancy in embroidery is the rope stitch on heavy, coarse linen. Among the most elaborate trimming devices are the "Art Nouveau" appliques, artistic designs in cut-out cloth applique upon velvet or silk, or vice versa. The popular pendant ornaments are now made of braids and cords that will withstand washing, and some of the new wash braids are sufficiently soft and pliable to be shaped in fanciful patterns. Buttons are a principal source of embellishment this season, and jeweled ornaments are a feature of the smartest gowns.—From the Delineator for June.

### FATAL SNAKE BITE.

Herman Boswell, colored, seven years old, was bitten by a copper-head snake Monday near Henderson and died Tuesday night.

## OLD TIME BOAT RACE.

May be Run from St. Louis to New Orleans—Some Famous Races.

Sir Thomas Lipton's interest in aquatic racing has taken a new turn. It is reported that he has offered a prize of \$20,000 for an old fashioned steamboat race on the Mississippi river.

He will impose no conditions, it is said, save that the fastest boats on the river shall contest. If the offer is accepted it is understood that the date of the contest will be fixed so as to allow Sir Thomas to attend while on his trip to the United States to "lift the cup."

The race will probably be from New Orleans to St. Louis.

The idea of the race came to Sir Thomas when reading Mark Twain's "Life on the Mississippi," in which the old steamboat races are so graphically described.

The simple love of sport is the sole object of Sir Thomas in offering the prize. He expects, it is said, to announce his plan in a few days.

The steamboat record between New Orleans and St. Louis is held by the Robert E. Lee, which made the trip in 3 days, 18 hours and 14 minutes, in the famous race with the Natchez. The distance is about 1200 miles.

There have been many famous races, many strenuous record-breaking efforts on the Mississippi.

"The slowest boat," paradoxically speaking, Mark Twain says, "was the John J. Roe. She was so slow," says Twain, "that when she finally sunk at Madrid Bend it was five years before the owners heard of it."

River men used to say that one of the greatest trips of the R. E. Lee, in 1879, when she went from New Orleans to Cairo in three days and one hour was the fastest on record.

At that time it is estimated, however, that the river distance between those points was about 1,000 miles, making the Lee's average speed about 14½ miles an hour.

Champions of the long forgotten Eclipse declare that when she made this trip in 1853, she did it in 3 days, 3 hours and 20 minutes, but at that time, they claim the distance was 1,080 miles. Her average speed was, therefore, something under 14.3 miles per hour.

The fact is undisputed, however that the time made by the R. E. Lee in 1879, in her famous race with the Natchez from New Orleans to St. Louis, covering the distance in 3 days 18 hours and 14 minutes, is the best river achievement on record. This race created intense interest throughout the nation. That was the high water mark of western steamboating.

The R. E. Lee landed at St. Louis at 11:25 a. m., on July 4th, 1879, six hours and 30 minutes ahead of the Natchez. Capt. John W. Cannon commanded the Lee and Capt. Tom P. Leathers had charge of the Natchez during the race.

### SNAKES VALUABLE.

Prof. L. E. Daniels, of Indianapolis, assistant state geologist, in company with Prof. A. C. Billups, of the same city, is making an investigation of the insects and shells of Indiana, and is getting a mounted specimen of each variety of snake in the State. There are twenty-nine species and ten varieties, only two or three being poisonous. The professor says that a black snake is worth \$5 and a garter snake \$1 to a farmer for the insects they eat which injure the crops.

## THE PRESS.

Judge Brewer Shows its Effects On American Life.

In the New York World, Associate Justice David J. Brewer, of the United States Supreme court, contributed the following article on the subject, "The Effect of a Free Press on American Life."

"First—The effect the press has had on the recent advance in American life has been in realizing the constitutional purpose to form a more perfect union. Forty years ago a bitter civil war prevailed. North and South were enemies. Now sectional animosities are disappearing; patriotism is becoming universal; the North eulogizes Lee; the South venerates Lincoln. New York respects Bryan; South Carolina honors Senator Hoar. We are becoming truly one people. What has brought this about? Knowledge of each other. We may hate those we know; we never love those we do not know. The press, which tells us each morning what all do and say, helps us to know each other. New York knows New Orleans and San Francisco as well as it does Brooklyn. Without the press, even with the telegraph and post office, what strangers we should be. Knowing each other we find how much alike we are; some defects but many excellencies. So, by bringing the American people into a more intimate acquaintance, the press has been making a perfect union.

"Second—In grappling with the social conditions and questions, disease, ignorance, crime, poverty, have always existed. We used to accept them as inevitable, and thank God we escaped. Now we penny fate and try to remove or improve. The nation is wrestling with these problems; it is the terror and sweet of struggle. The press informs of and inspires every effort. Each laborer knows he is not working alone and is given the encouragement and strength of co-operation. Only through such is there possibility of success in the solution of this problem.

"Third—In the evolution of the court of public opinion, the court mightier than any organized development, is but the crude beginning of the Washington of tomorrow. But it is a beginning—a most audacious move on the part of one of the most audacious men who ever rose to first place in the republic.

bunal, at whose bar all who are judged are men, events and purposes. Here the press does mighty work. It collects the universal opinion, announces its conclusions and whisks them again all for gloom or glory. These facts speak more for the uplifting of the nation, and in each the press has been one, if not the greatest factor. May it continue its work, promoting national unity, hastening the solution of the great social problems, and bringing all matters before the court of public opinion, a court of increasing wisdom and power."

### SHE DID THE PROPER THING.

Miss Louise Hadley, a chambermaid at the Hotel English, at Indianapolis, was discharged for refusing to make up a bed occupied by Booker T. Washington the night before. Washington lectured here Wednesday night, and left Thursday morning. In the evening it was noticed that the bed he had occupied had not been made, and Miss Hadley's attention was called to it. "I won't make up any nigger's bed," she indignantly replied, and was discharged at once. The English is one of the best hotels in the city.

## THE WHITE HOUSE.

\$3,000 Weekly Expense—How Roosevelt Entertains.

Mr. Roosevelt's White House, astounding as it is as a sudden demand upon Congress for running expenses, leaped from the customary \$25,000 to \$50,000. Mr. Roosevelt's salary is just under a thousand dollars a week, and as he evidently believes the people expect the President to expend his salary upon the embellishment of the position, it appears that the new White House, the new court, is now on the average costing in the neighborhood of \$2,000 per week, half from the pocket of the people, the other half from Mr. Roosevelt's private pocket. As the heavy expense is crowded into five months of the year—December to April inclusive—the probabilities are that the new White House is costing during the season not far from \$3,000 a week. This means that the new departure has certainly doubled and has perhaps trebled the cost of the White House court—for most Presidents have contributed about half their salary toward holding court and have called on Congress for a supplementary appropriation of \$25,000 per year.

Mr. Roosevelt entertains, not occasionally but constantly, not exclusively but democratically, not meagerly but lavishly, not a few score guests, but hundreds and thousands. He has a multitude of guests to lunch, a multitude to dine, a multitude to hear music or to take part in various kinds of "drawing rooms," and leaves, a multitude to stay the night under his roof—not a multitude all at one time but a multitude in the aggregate. Rich and poor, snob and democrat, white and black, American and foreigner, capitalist and laborer, Maine woods guide, western scout, fashionable and frouzy, all equally welcome, all equal at his court. Morgan and Jacob Rills, Countess de Castellane and Booker Washington, Wild Bill and Bishop Potter, Ruse and Rough Rider Rob, Will Allen White and a New York cotillion leader. Not long ago, when some one said in his hearing, "There's no first class hotel in Washington," he replied, "You forget the White House." He has made it indeed a national hotel, or rather a national assembly place. And he is ever unsatisfied, ever reaching out for more and more "doers," more and more people of interest or importance. He wishes all people of mark to bask in the presidential sunshine, to give him the benefit of their intellect or character, or whatever they have that is worth seeing or hearing. For he wishes to receive as well as to give, and he is determined that his court shall be entirely and completely representative.—David Graham Phillips in Collier's Weekly.

## REPUBLICAN CONVENTION.

To Nominate a State Ticket to Be Held July 15.

The Republican State convention will be held in Louisville, Wednesday, July 15. Delegates will be selected in the counties on the Saturday preceding.

This was decided at a meeting of the Republican State Central Convention.

Dr. Thos. H. Baker, the Louisville Postmaster, acting in the interest of Mr. A. E. Wilson, made a pull for Lexington as the place for holding the convention. Belknap and Pratt favored Louisville. The vote on the question of location was 7 to 6.

The basis of representation was one delegate to every 100 votes cast in the last general election. On this basis Crittenden county will send eighteen delegates to the convention.

### QUEER FINDS IN TREES.

The Benton Democrat tells the following:

On April 27, 1903, while cutting a tree on Poley Henson's land in Clark's river bottom four miles southeast of Princeton, J. W. Banks and Ollie Henson found a pocket knife, in a hole in a black gum tree, about forty or fifty feet high.

The knife was open and had a horn handle, one jaw was eaten off and the other gnawed as if a squirrel had done it.

The Wingo Outlook furnishes this one:

Thursday at noon Robert Culom, a farm hand working on the farm of R. C. Mullins, one and one-half miles southeast of town, climbed a tree at least 100 feet from the ground to a hawk's nest, where with a long pole he punched out of the nest the following curious and extraordinary occupants:

Three young hawks, large as frying size chickens, 13 snakes, 3 to 4 feet long; 1 young duck, 1 turkey, 4 young chickens, 2 moles, 2 rabbits and 2 lizards.

### THE EARLY SUMMER FASHION.

The key-note of the Summer fashions is picturesqueness. The gown of the season is unlined and made to fall in lines that are graceful and easily adapted to different figures. Linen dresses, in a d e either in simple shirt-blouse style or lavishly trimmed with embroidery and antique lace, or ultra-fashionable modes of the season. Tucks are used more than ever. All-over lace waists are stylish, and one of the charms of the Summer bodice is the deep cape collar made either of tiny tucks and insertion or all-over lace.

One of the most popular fabrics is silk voile. Veilings, dotted, checked and figured in a score of ways, and canvas weaves are used especially for tailored dresses. The ombre or shaded effects in the silks make them wonderfully effective.

Hand work gives the smart touch to the frock of this season and the newest fancy in embroidery is the rope stitch on heavy, coarse linen. Among the most elaborate trimming devices are the "Art Nouveau" appliques, artistic designs in cut-out cloth applique upon velvet or silk, or vice versa. The popular pendant ornaments are now made of braids and cords that will withstand washing, and some of the new wash braids are sufficiently soft and pliable to be shaped in fanciful patterns. Buttons are a principal source of embellishment this season, and jeweled ornaments are a feature of the smartest gowns.—From the Delineator for June.

### FATAL SNAKE BITE.

Herman Boswell, colored, seven years old, was bitten by a copper-head snake Monday near Henderson and died Tuesday night.

## OLD TIME BOAT RACE.

May be Run from St. Louis to New Orleans—Some Famous Races.

Sir Thomas Lipton's interest in aquatic racing has taken a new turn. It is reported that he has offered a prize of \$20,000 for an old fashioned steamboat race on the Mississippi river.

He will impose no conditions, it is said, save that the fastest boats on the river shall contest. If the offer is accepted it is understood that the date of the contest will be fixed so as to allow Sir Thomas to attend while on his trip to the United States to "lift the cup."

The race will probably be from New Orleans to St. Louis.

The idea of the race came to Sir Thomas when reading Mark Twain's "Life on the Mississippi," in which the old steamboat races are so graphically described.

The simple love of sport is the sole object of Sir Thomas in offering the prize. He expects, it is said, to announce his plan in a few days.

The steamboat record between New Orleans and St. Louis is held by the Robert E. Lee, which made the trip in 3 days, 18 hours and 14 minutes, in the famous race with the Natchez. The distance is about 1200 miles.

There have been many famous races, many strenuous record-breaking efforts on the Mississippi.

"The slowest boat," paradoxical ly speaking, Mark Twain says, "was the John J. Roe. She was so slow," says Twain, "that when she finally sunk at Madrid Bend it was five years before the owners heard of it."

River men used to say that one of the greatest trips of the R. E. Lee, in 1879, when she went from New Orleans to Cairo in three days and one hour was the fastest on record.

At that time it is estimated, however, that the river distance between those points was about 1,000 miles, making the Lee's average speed about 14 1/2 miles an hour.

Champions of the long forgotten Eclipse declare that when she made this trip in 1853, she did it in 3 days, 3 hours and 20 minutes, but at that time, they claim the distance was 1,080 miles. Her average speed was, therefore, something under 14 3/8 miles per hour.

The fact is undisputed, however, that the time made by the R. E. Lee in 1870, in her famous race with the Natchez from New Orleans to St. Louis, covering the distance in 3 days 18 hours and 14 minutes, is the best river achievement on record. This race created intense interest throughout the nation. That was the high water mark of western steamboating.

The R. E. Lee landed at St. Louis at 11:25 a. m., on July 4th, 1870, six hours and 30 minutes ahead of the Natchez. Capt. John W. Cannon commanded the Lee and Capt. Tom P. Leathers had charge of the Natchez during the race.

### SNAKES VALUABLE.

Prof. L. E. Daniels, of Indianapolis, assistant state geologist, in company with Prof. A. C. Billups, of the same city, is making an investigation of the insects and shells of Indiana, and is getting a mounted specimen of each variety of snake in the State. There are twenty-nine species and ten varieties, only two or three being poisonous. The professor says that a black snake is worth \$5 and a garter snake \$1 to a farmer for the insects they eat which injure the crops.

## THE PRESS.

Judge Brewer Shows Its Effects On American Life.

In the New York World, Associate Justice David J. Brewer, of the United States Supreme court, contributed the following article on the subject, "The Effect of a Free Press on American Life."

"First—The effect the press has had on the recent advance in American life has been in realizing the constitutional purpose to form a more perfect union. Forty years ago a bitter civil war prevailed. North and South were enemies, now sectional animosities are disappearing; patriotism is becoming universal; the North eulogizes Lee; the South venerates Lincoln. New York respects Bryan; South Carolina honors Senator Hoar. We are becoming truly one people. What has brought this about? Knowledge of each other. We may hate those we know; we never love those we do not know. The press, which tells us each morning what all to do and say, helps us to know each other. New York knows New Orleans and San Francisco as well as it does Brooklyn. Without the press, even with the telegraph and post office, what strangers we should be. Knowing each other we find how much alike we are; some defects but many excellencies. So, by bringing the American people into a more intimate acquaintance, the press has been making a perfect union.

"Second—In grappling with the social conditions and questions, disease, ignorance, crime, poverty, have always existed. We used to accept them as inevitable, and thank God we escaped. Now we deny fate and try to remove or improve. The nation is wrestling with these problems; it is the terror and sweet of struggle. The press informs and inspires every effort. Each laborer knows he is not working alone and is given the encouragement and strength of co-operation. Only through such is there possibility of success in the solution of this problem.

"Third—In the evolution of the court of public opinion, the court mightier than any organized tri- bunal, at whose bar all who are judged are men, events and purposes. Here the press does mighty work. It collects the universal opinion, announces its conclusions and whisks them again all for gloom or glory. These facts speak more for the uplifting of the nation, and in each the press has been one, if not the greatest factor. May it continue its work, promoting national unity, hastening the solution of the great social problems, and bringing all matters before the court of public opinion, a court of increasing wisdom and power."

### SHE DID THE PROPER THING.

Miss Louise Hadley, a chambermaid at the Hotel English, at Indianapolis, was discharged for refusing to make up a bed occupied by Booker T. Washington the night before. Washington lectured here Wednesday night, and left Thursday morning. In the evening it was noticed that the bed he had occupied had not been made, and Miss Hadley's attention was called to it. "I won't make up any nigger's bed," she indignantly replied, and was discharged at once. The English is one of the best hotels in the city.

## THE WHITE HOUSE.

\$3,000 Weekly Expense—How Roosevelt Entertains.

Mr. Roosevelt's White House, astounding as it is as a sudden demand upon Congress for running expenses, leaped from the customary \$25,000 to \$60,000. Mr. Roosevelt's salary is just under a thousand dollars a week, and as he evidently believes the people expect the President to expend his salary upon the embellishment of the position, it appears that the new White House, the new court, is now on the average costing in the neighborhood of \$2,000 per week, half from the pocket of the people, the other half from Mr. Roosevelt's private pocket. As the heavy expense is crowded into five months of the year—December to April inclusive—the probabilities are that the new White House is costing during the season not far from \$3,000 a week. This means that the new departure has certainly doubled and has perhaps trebled the cost of the White House court—for most Presidents have contributed about half their salary toward holding court and have called on Congress for a supplementary appropriation of \$25,000 per year.

Mr. Roosevelt entertains, not occasionally but constantly, not exclusively but democratically, not meagerly but lavishly, not a few score guests, but hundreds and thousands. He has a multitude of guests to lunch, a multitude to dine, a multitude to hear music or to take part in various kinds of "drawing rooms," and levees, a multitude to stay the night under his roof—not a multitude all at one time but a multitude in the aggregate. Rich and poor, snob and democrat, white and black, American and foreigner, capitalist and laborer, Maine woods guide, western scout, fashionable and frouzy, all equally welcome, all equal at his court. Morgan, and Jacob Rils, Countess de Castellane and Booker Washington, Wild Bill and Bishop Potter, Rose and Rough Rider Rob, Will Allen White and a New York cotillion leader. Not long ago, when some one said in his hearing, "There's no first class hotel in Washington," he replied, "You forget the White House." He has made it indeed a national hotel, or rather a national assembly place. And he is ever unsatisfied, ever reaching out for more and more "doers," more and more people of interest or importance. He wishes all people of mark to bask in the presidential sunshine, to give him the benefit of their intellect or character, or whatever they have that is worth seeing or hearing. For he wishes to receive as well as to give, and he is determined that his court shall be entirely and completely representative.—David Graham Phillips in Collier's Weekly.

### CHICKENS AND THEIR CARE.

Keep a record of each hatch. Never set a hen with scaly legs. Pullets are unreliable as setters. A wild hen will have wild chickens. Neglected chicks will be stunted. Set each hen in an apartment alone. When the chick droops look for lice. Dust the hen well before setting her. Keep the coops and nests clean. Be sure to keep the hens in a warm place. Keep small grit constantly within reach. The fresher the egg the better the hatch.

There are no positive non-setting breeds. Sprinkle insect powder in the nests every week. Leave the hen with her young so long as she clucks. It is not always the fat hen that becomes broody.

Jim Dumps gazed out on sidewalks hot  
And looked in vain for one cool spot;  
And vowed he ne'er again would eat  
A lunch of heat-producing meat.  
Once more has "Force" restored his vim  
Although 'tis hot, he's "Sunny Jim."

## FOR SALE!

### The Crittenden Press Newspaper and Printing Plant.

On account of the failing of health of the proprietor of the PRESS, and his desire to go west upon the advice of his physician, THE CRITTENDEN PRESS newspaper, the entire printing outfit, business house and business is offered for sale. It is a good business on a paying basis. Price reasonable.

If you mean business, write or come and see me.  
R. C. WALKER.

All play and no work makes mighty poor roads.

The present road law, the county attorney evidently thinks, was not made for ornamental purposes only.

If all laws were enforced like the road law, the boys would carry a pistol in every pocket, and buy "licker" from every bush.

With two hangings in the State last week, and a few more arranged for the near future, the sun may do some more shining on the old Kentucky home.

While all of the votes were not polled in the primary election, about 75,000 more voters took a hand in making the nominations than would have been in a court house convention.

The lessons Messrs. Cleveland and Watterson are getting from the Federal courts almost daily ought to enable them to get together on the "government by injunction plank" of Mr. Bryan's platform.

With a special term of circuit court on hand in Breathitt county the denizens are probably congratulating themselves upon the increased opportunities for taking up their professional work of settling feuds.

Some of the anti-primary election papers are distressed because only about one-third of the party's strength voted in the recent primary. If about fifty to one hundred fellows in each county had been permitted to meet at the court house and fixed up the delegates to a convention the thing would have been lovely.

The continuous work of the Federal courts ought to enable Messrs. Bryan, Cleveland and Watterson to get together on the anti-junction plank of the Kansas City platform.

The reorganizers want to disorganize before they reorganize. In other words they want to catch their rabbit before they skin it. They are just now beating the bushes with G. C. as an outdriver.

The lessons the public is getting almost daily from the Federal courts ought to enable Messrs. Bryan, Cleveland and Watterson to get together on the "government by injunction plank" of the Chicago platform.

At Martinsville, Ind., two candidates for town marshal had an equal number of votes. They settled the tie by tossing up a dollar. That was an effective way we suppose, but to a Kentuckian it appears mighty insipid; why not shoot at a spot—on each other.

For a man who does not want the nomination if he could get it, and who could not get it if he wanted it, Mr. Cleveland's movements attract a wonderful amount of attention. If he really were in, or if he could get into the fight, other questions before the public would look like thirty cents for the noose.

Sachs and Watts, lawyers of Louisville, were sentenced to jail by the United States District court in Indiana for contempt. The contempt, as held by the district court, consisted in advising clients to adhere to the State court in a case that the Federal Judge had ordered to his court.

The Supreme court, in a decision this week, holds that the lawyers were not guilty of contempt, and that the district Federal court erred in peremptorily taking the case from the State court. It is not a hurtful thing for the Supreme court of the United States to mark out the old lines occasionally, otherwise, many of the old demarkations would be so deeply frosted over by the austerity of greatness that people would come to think that the Federal court was the whole thing.

The legislature of Pennsylvania has recently adopted an amendment to the libel law of that State that curtails to some extent the liberty of the press, and this has occasioned adverse criticisms from some of the newspapers. The liberty of the press is a sacred tenet of Americanism, and should be zealously guarded. The press is a mighty breakwater that checks the flood of corruption and crime that would appal the nation were its powers for good emasculated by laws restraining it from criticisms of public officials, and from publication of crimes of low and high degree in private life. When

assured that they are covered by the cloak of secrecy, many men readily take chances of escaping the punishment that God has fixed at an indefinite distance in the future, but they quake and tremble at even the possibility of their evil deeds being made known to their fellow men. Here the restraining influence of the newspaper is more potent than the public dreams of, and to greatly impair this influence would be a public calamity almost as hurtful as the elimination of the rope or electric chair or other means of hateful death from the catalogue of punishments for murder. But while we clamor for the freedom of the press, it must not be forgotten that this freedom can be abused to such an extent that it will destroy its own power for good, and in so doing will create a demand for more strict libel laws. Those who read extensively the public prints of the day have observed a growing tendency, in some quarters at least, of papers to go beyond the bounds of all reason. If any perceptible percent of the press shows this disposition, we may expect other States to follow the lead of Pennsylvania.

## THE LATEST NEWS.

An aged woman in New York laughed herself to death over a funny story.

Hon. John G. Carlisle says the Democratic party has an excellent opportunity to elect a President if the leaders get together.

Former mayor Ames, of Minneapolis, has been sentenced to six years at hard labor in the State penitentiary for corruption in office.

Ten thousand veterans, with one hundred thousand visitors, were in New Orleans at the opening session of the reunion of the Confederate Veterans.

A check for \$1,000 was sent from New Orleans to Louise Hadley, the chambermaid who refused to make the bed of Booker Washington at an Indianapolis hotel.

The Executive Committee of the Kentucky Press Association accepted an invitation to hold the next meeting of the association at Lexington, and fixed July 22d as the day.

Hermis, the great Eastern champion race-horse, has been sold to E. R. Thomas, of New York, for \$60,000. This is the highest price paid for a thoroughbred horse in years.

Former State Senator Charles F. Burche, the confessed St. Louis boulder, in his statement before Circuit Attorney Folk, acknowledged that he was paid \$300 a session for voting in the Legislature, on corporate measures as "Bill" Phelps dictated.

## BUNCO GAME.

Said to be Among the County's Enterprises.

### A STARTLING STORY TOLD BY A FARMER.

For the past few days the streets have been agog with the story of a bunco game as extensive in its ramifications as it is startling, as a local enterprise, in its character. While names and dates are not given explicitly, it is stated that several of the alleged victims have consulted attorneys, and that law suits are pretty sure to result. One man, a well-to-do farmer, was in town last week consulting with friends and attorneys relative to means of redress. This man, according to reports, lost \$480 in the game, and he is showing no disposition to "grin and bear it." A score of other men, according to current gossip, have parted with from \$50 to \$100 each, and the aggregate transfer of local capital amounts to some \$4,000 or \$5,000.

According to the tale as told, some dozen men are united for the business of offering "green goods" to a "few of their best friends."

They will show an intended victim a ten dollar bill, have him examine it, put it to the test, and at the same time tell him that they can get him all he wants, just like the sample, at ten cents on the dollar. They refer him to men who have made profitable investments, and assure him that the opportunity comes but once in a lifetime, and then only to a very select circle of choice spirits—of which he is fortunate in being one. The victim puts up his money, and after a sufficient sum has been thus gotten together, a man is sent to a city to exchange the little pile of good money for a big pile of the "green goods" or as is sometimes the case, the party furnishing the money accompanies the other to the city. But in either case the man who takes the money and is expected to do the exchanging, invariably gets robbed after he reaches the city, and the trusting soul who puts up his cash gets neither the green goods nor his own good money back.

The game, it is said, has been going on for several months, and men in almost every neighborhood have gotten tangled in its meshes.

## 1903 SCHOOL TAX.

Must be paid on or before May 25th, if you would save the 5 per cent penalty.

## LOST HIS LIFE

In a Railroad Accident—R. J. Robinson's Untimely Death.

Robert J. Robinson, a well known young man of this city, met a shocking death Thursday afternoon. He was riding in the caboose of a freight train on the main line of the Illinois Central, near Princeton. In some manner the caboose became detached from the train; when this was noticed the train was backed in order to secure the caboose; a collision followed and those in the caboose were thrown in all directions. Young Robinson evidently came in contact with the heating stove. He was unconscious when found, and lived only a few hours, never regaining consciousness.

Friday morning the remains were brought to this city. He was a member of the Henderson lodge of Elks. The funeral services were held at the Presbyterian church Saturday afternoon, after which Henderson lodge, No. 206, B. P. O. E. acting in conjunction with the Evansville lodge of Railroad Trainmen, took charge of the remains and performed the last rites at the new cemetery. The floral offerings were numerous and very beautiful.

Mr. Robinson was a son of Mrs. Mary Murphy of this city. He was a worthy young man, capable and industrious. He had been in the employ of the railroad for several years, serving as brakeman and flagman, but at the time of his tragic death he was not employed by the road.

Mr. Robinson carried \$3,000 life insurance.

## THE SCHOOL BOARD

Will Meet Saturday, May 30, to Select Teachers.

The board of trustees of Marion Graded Public School will meet at 9 a. m. Saturday, May 30, 1903, for the purpose of reorganizing, and to select teachers for next year.

## SHOT IN THE HAND.

Sunday an ugly gun-shot wound was made in the hand of Charles Williams, of near View. He was standing near a dense woods, talking to a companion, when, at the crack of a rifle in the woods, the ball ploughed its way through his hand. It is probable that the party shooting did not know of the proximity of Williams, and had no intention of wounding him.

## THE PRIMARY'S VOTE.

With the Reports of but Four Counties Missing.

The total vote received by the respective candidates in the Democratic primary Saturday, May 9th, with four counties not reported is as follows:

For Governor—J. C. W. Beck, 103,616.

Lieut. Governor—W. P. Thorne, 58,429; Abram Renick, 35,465.

Auditor—S. W. Hager, 58,242; John B. Chensault, 37,221.

Treasurer—Henry M. Bosworth, 58,288; Josh T. Griffith, 27,977; Gus W. Richardson, 9,079.

Attorney General—N. B. Hays, 34,751; William Mitchell, 26,140; Charles Carroll, 15,410; Ira Julian, 13,340.

Secretary of State—H. V. McChesney, 58,570.

Supt. Public Instruction—J. H. Fuqua, Sr., 29,290; Ben Watt, 22,851; Thomas H. Arnold, 12,498; C. E. Sugg, 14,748; J. J. Watkins, 12,100.

Commissioner of Agriculture—Hubert Vreeland, 47,989; J. M. Frazer, 17,947; T. T. Hedger, 21,177.

Clerk Court of Appeals—J. Morgan Chinn, 52,290; Robert L. Greene, 46,102.

## To the Citizens of Marion.

We have used every means in our effort to have our city cleaned up and put in a sanitary condition. We have gone to you through the Press; we have called on many of you personally, and have endeavored to show you that it is in the interest of you and your loved ones that you have your premises put in a salubrious condition. We have been patient and kind and are very grateful to the few who have so generously responded to our request, but to the many who have not, we will be compelled to invoke the strong arm of the law unless your premises are cleaned up and disinfected within five days from this notice. A member of the board of health will make a personal inspection of your premises next week. Yours truly,  
T. Atchison Frazer,  
Health Officer.

## FOR SALE!

### The Crittenden Press Newspaper and Printing Plant.

On account of the failing of health of the proprietor of the PRESS, and his desire to go west upon the advice of his physician, THE CRITTENDEN PRESS newspaper, the entire printing outfit, business house and business is offered for sale. It is a good business on a paying basis. Price reasonable.

If you mean business, write or come and see me.

R. C. WALKER.

All play and no work makes mighty poor roads.

The present road law, the county attorney evidently thinks, was not made for ornamental purposes only.

If all laws were enforced like the road law, the boys would carry a pistol in every pocket, and buy "licker" from every bush.

With two baugings in the State last week, and a few more arranged for the near future, the sun may do some more shining on the old Kentucky home.

While all of the votes were not polled in the primary election, about 75,000 more voters took a hand in making the nominations than would have been in a court house convention.

The lessons Messrs. Cleveland and Watterson are getting from the Federal courts almost daily ought to enable them to get together on the "government by injunction plank" of Mr. Bryan's platform.

With a special term of circuit court on hand in Breathitt county the denizens are probably congratulating themselves upon the increased opportunities for taking up their professional work of settling feuds.

Some of the anti-primary election papers are distressed because only about one-third of the party's strength voted in the recent primary. If about fifty to one hundred fellows in each county had been permitted to meet at the court house and fixed up the delegates to a convention the thing would have been lovely.

The continuous work of the Federal courts ought to enable Messrs. Bryan, Cleveland and Watterson to get together on the anti-injunction plank of the Kansas City platform.

The reorganizers want to disorganize before they reorganize. In other words they want to catch their rabbit before they skin it. They are just now beating the bushes with G. C. as an outdriver.

The lessons the public is getting almost daily from the Federal courts ought to enable Messrs. Bryan, Cleveland and Watterson to get together on the "government by injunction plank" of the Chicago platform.

At Martinsville, Ind., two candidates for town marshal had an equal number of votes. They settled the tie by tossing up a dollar. That was an effective way we suppose, but to a Kentuckian it appears mighty insipid; why not shoot at a spot—on each other.

For a man who does not want the nomination if he could get it, and who could not get it if he wanted it, Mr. Cleveland's movements attract a wonderful amount of attention. If he really were in, or if he could get into the fight, other questions before the public would look like thirty cents for the noose.

Sachs and Watts, lawyers of Louisville, were sentenced to jail by the United States District court in Indiana for contempt. The contempt, as held by the district court, consisted in advising clients to adhere to the State court in a case that the Federal Judge had ordered to his court.

The Supreme court, in a decision this week, holds that the lawyers were not guilty of contempt, and that the district Federal court erred in peremptorily taking the case from the State court. It is not a hurtful thing for the Supreme court of the United States to mark out the old lines occasionally, otherwise, many of the old demarkations would be so deeply frosted over by the austerity of greatness that people would come to think that the Federal court was the whole thing.

The legislature of Pennsylvania has recently adopted an amendment to the libel law of that State that curtails to some extent the liberty of the press, and this has occasioned adverse criticisms from some of the newspapers. The liberty of the press is a sacred tenet of Americanism, and should be zealously guarded. The press is a mighty breakwater that checks the flood of corruption and crime that would appall the nation were its powers for good emasculated by laws restraining it from criticisms of public officials, and from publication of crimes of low and high degree in private life. When

assured that they are covered by the cloak of secrecy, many men readily take chances of escaping the punishment that God has fixed at an indefinite distance in the future, but they quake and tremble at even the possibility of their evil deeds being made known to their fellow men. Here the restraining influence of the newspaper is more potent than the public dreams of, and to greatly impair this influence would be a public calamity almost as hurtful as the elimination of the rope or electric chair or other means of hateful death from the catalogue of punishments for murder. But while we clamor for the freedom of the press, it must not be forgotten that this freedom can be abused to such an extent that it will destroy its own power for good, and in so doing will create a demand for more strict libel laws. Those who read extensively the public prints of the day have observed a growing tendency, in some quarters at least, of papers to go beyond the bounds of all reason. If any perceptible percent of the press shows this disposition, we may expect other States to follow the lead of Pennsylvania.

## THE LATEST NEWS.

An aged woman in New York laughed herself to death over a funny story.

Hon. John G. Carlisle says the Democratic party has an excellent opportunity to elect a President if the leaders get together.

Former mayor Ames, of Minneapolis, has been sentenced to six years at hard labor in the State penitentiary for corruption in office.

Ten thousand veterans, with one hundred thousand visitors, were in New Orleans at the opening session of the reunion of the Confederate Veterans.

A check for \$1,000 was sent from New Orleans to Louise Hadley, the chambermaid who refused to make the bed of Booker Washington at an Indianapolis hotel.

The Executive Committee of the Kentucky Press Association accepted an invitation to hold the next meeting of the association at Lexington, and fixed July 22d as the day.

Hermis, the great Eastern champion race-horse, has been sold to E. K. Thomas, of New York, for \$60,000. This is the highest price paid for a thoroughbred horse in years.

Former State Senator Charles F. Burche, the confessed St. Louis bootler, in his statement before Circuit Attorney Folk, acknowledged that he was paid \$500 a session for voting in the Legislature, on corporate measures as "Bill" Phelps dictated.

## BUNGO GAME.

Said to be Among the County's Enterprises.

A STARTLING STORY TOLD BY A FARMER.

For the past few days the streets have been agog with the story of a bungo game as extensive in its ramifications as it is startling, as a local enterprise, in its character. While names and dates are not given explicitly, it is stated, that several of the alleged victims have consulted attorneys, and that law suits are pretty sure to result. One man, a well-to-do farmer, was in town last week consulting with friends and attorneys relative to means of redress. This man, according to reports, lost \$480 in the game, and he is showing no disposition to "grin and bear it." A score of other men, according to current gossip, have parted with from \$50 to \$100 each, and the aggregate transfer of local capital amounts to some \$4,000 or \$5,000.

According to the tale as told, some dozen men are united for the business of offering "green goods" to a "few of their best friends." They will show an intended victim a ten dollar bill, have him examine it, put it to the test, and at the same time tell him that they can get him all he wants, just like the sample, at ten cents on the dollar. They refer him to men who have made profitable investments, and assure him that the opportunity comes but once in a lifetime, and then only to a very select circle of choice spirits—of which he is fortunate in being one. The victim puts up his money, and after a sufficient sum has been thus gotten together, a man is sent to a city to exchange the little pile of good money for a big pile of the "green goods" or as is sometimes the case, the party furnishing the money accompanies the other to the city. But in either case the man who takes the money and is expected to do the exchanging, invariably gets robbed after he reaches the city, and the trusting soul who puts up his cash gets neither the green goods nor his own good money back.

The game, it is said, has been going on for several months, and men in almost every neighborhood have gotten tangled in its meshes.

## 1903 SCHOOL TAX.

Must be paid on or before May 25th, if you would save the 5 per cent penalty.

H. A. Haynes, Treas.

Paint that will not crack, peel, blister or chip off for five years. Guaranteed or \$110 per gallon.—Bigham & Brown, Inc.

## LOST HIS LIFE

In a Railroad Accident—R. J. Robinson's Untimely Death.

Robert J. Robinson, a well known, young man of this city, met a shocking death Thursday afternoon. He was riding in the caboose of a freight train on the main line of the Illinois Central, near Princeton. In some manner the caboose became detached from the train; when this was noticed the train was backed in order to secure the caboose; a collision followed and those in the caboose were thrown in all directions. Young Robinson evidently came in contact with the heating stove. He was unconscious when found, and lived only a few hours, never regaining consciousness.

Friday morning the remains were brought to this city. He was a member of the Henderson lodge of Elks. The funeral services were held at the Presbyterian church Saturday afternoon, after which Henderson Lodge, No. 206, B. P. O. E. acting in conjunction with the Evansville lodge of Railroad Trainmen, took charge of the remains and performed the last rites at the new cemetery. The floral offerings were numerous and very beautiful.

Susie Boyd, of Salem, left yesterday  
to attend the reunion at New Orleans and  
visit friends in Texas.

Mr. Denton, the Metropolitan Insur-  
ance agent, who has been located here  
for more than a year, has resigned his  
position and gone to Ohio.

Prof. Evans will conduct five institu-  
tions this summer. He has been engaged  
for the work in Todd, Christian, Web-  
ster, Union and Crittenden counties.

Dr. J. H. Threlkeld and son, Lal,  
were in town Sunday enroute to Salem  
after attending the medical association  
at New Orleans, and making a short  
visit to Cuba.

Chittenden & Chittenden will give  
away a splendid \$85.00 organ. With  
every \$1 purchase made at the grocery  
you will get one chance for the organ,  
which is on display at their store.

See our stock of floor paints.—Bigham  
& Browning.

The band gave a concert on the street  
Tuesday evening. The boys played ex-  
ceedingly well.

Mr. Louis L. Bebout, of Paducah, has  
been elected to the position of Great  
Senior Sagamore, of the state organiza-  
tion of Red Men, the most desirable off-  
ice within the gift of the organization.

A District Sunday School Convention  
will be held at Hill's Dale Saturday,  
May 30, beginning at 10 o'clock a. m. It  
is incumbent upon all the Sunday school  
workers of District No. 5, to be present.

For Ladies and Gents Summer Under-  
wear go to Taylor & Cannan's.

Articles of incorporations of the Salem  
Land Investment Company, of Living-  
ston county, with \$200 capital, were filed  
at Frankfort. H. B. Haase and D. Garth  
Hearne are the incorporators.

Will Clifton returned last week from  
Buffalo, N. Y. He left his father, Judge  
J. H. Clifton, of Dycusburg, rapidly im-  
proving in health. Judge Clifton will  
remain in the north several weeks.

that will suit you examine those at Tay-  
lor & Cannan's.

Dr. H. F. Ray and family have moved  
from Charlotte, N. C., to Flatcreek,  
Tenn. Mrs. Tannehill and daughter,  
Miss Annie, of this city, will join them  
at that place.

The W. L. Douglas shoe is the  
King of shoes.

Drs. Goldstein, the noted opticians,  
will be at the New Marion Hotel, Mon-  
day, May 25th, and will remain several  
days. The gentlemen are well known in  
our city, and persons needing glasses or  
the services of opticians should not fail  
to see Drs. Goldstein.

Bater, the expert piano tuner of Evans-  
ville, will be in Marion, June 1st; all par-  
ties having pianos that need attention  
should notify A. J. Chittenden. Bater  
is employed by W. W. Kimball Piano  
Co., and his work is guaranteed. He  
perfectly understands pianos of all makes

**A BIG POTATO.**  
Claude Bennett brought to the Press  
office Monday, a wild sweet potato,  
weighing nearly twenty-six pounds,  
which was found in the river bottoms  
in this county opposite Elizabethtown,  
Ills.

**CHapel Hill Cemetery Co.**  
Articles of incorporation have been  
filed in the county clerk's office by the  
Chapel Hill Cemetery Company. The  
company has no capital stock and its  
purpose is the care of the cemetery at  
Chapel Hill. A board of directors will  
be elected annually by the people of the  
neighborhood.

**A GOOD SHOW.**  
Colorado Grant's show gave two ex-  
hibitions in this city Saturday. The per-  
formances were highly creditable. The  
educated horses were the best ever seen  
here, and the other features were splen-  
did. Owing to the fact that the show  
train was late in arriving the afternoon  
performance was not largely attended,  
but in the evening a big crowd heartily  
enjoyed the show. The show is not a  
very large concern but judging by the  
performance, Colorado Grant's show is  
far ahead of the average circus. Grant  
is a nice fellow and his employees are  
courteous and orderly.

### A YOUTH'S DEATH.

George Ford, seventeen-year-old son,  
of the late Galand Ford, died at his home  
near Ford's Ferry Sunday, after being  
ill only a few hours.

### NEW POST OFFICE BUILDING.

It is very probable that Messrs. J. W.  
Blue and Sam Gugenheim will erect a  
large brick office building on the lot just  
east of the CRITTENDEN PRESS building,  
the lower floor to be occupied by the  
postoffice and the second story to be  
composed of business offices. The crowd-  
ed condition of the present postoffice  
building, and the rapidly increasing pos-  
tal business demands additional room.

### SOCIAL EVENTS OF THE WEEK.

A most delightful dinner party was  
given by Mrs. Dr. Clement at the old  
homestead in View in the early part of  
week. The dinner was given in honor  
of Mrs. Sayre, of Philadelphia, who has  
recently made Marion her home, and  
whose charming entertainments in this  
city have been attended by many of our  
ladies and gentlemen. Among the diners  
were Mr. Wm. Baird and Mrs. Eva  
Moore, Mr. Chas. Steinmetz and Miss  
Helen Sayre, Mr. Robt. Sayre and Miss  
Clements, Mr. and Mrs. H. H. Sayre.

Misses Lavine Woods, Jettie Nichols  
and Isa Price gave a party Wednesday  
evening at the residence of Mr. P. H.  
Woods. Many friends of the young  
ladies were present, and the evening was  
very pleasantly spent.

Miss Mildred Haynes entertained her  
friends Friday evening at her home on  
West Bellville Street.

### RETURN VISIT

Drs. Goldstein in Marion Again, and  
Will Remain a Few Days.

Remember the eye is the most sensi-  
tive organ we have. In its normal con-  
dition we can see at all distances alike;  
we can admire the beauties of nature  
and everything that is beautiful in life.  
The eye is often abused and neglected,  
the sight becomes impaired and requires  
artificial aid, and as medical attention  
is of no consequence there is one method  
to restore the sight to its normal con-  
dition, and that is the use of proper glasses.  
Drs. Goldstein will be here Monday,  
May 25, for a few days. This is the op-  
portunity of your life to get glasses fit-  
ted to your eyes to make you see prop-  
erly and to rest and strengthen them. Drs.  
Goldstein are well known to some of our  
citizens and are highly recommended.  
Drs. Goldstein charge you nothing for  
examination and consultation and will  
give you proper advice. The value of  
perfect fitting glasses with reference to  
health can not be over estimated. Their  
effect upon the nervous system is direct,  
and, through this directly upon the en-  
tire organization.

A few of the troubles which result  
directly from neglect in this particular  
are neuralgia, sick headache and ner-  
vous prostration. In addition to the  
general diseases I have enumerated the  
following local affections often result

## NEW RESTAURANT AND GROCERY

## PIANO TUNER COMING

Mr. Bater, the expert piano tuner, of Evansville,  
will be in Marion, June 1st. All parties having  
pianos that need attention should notify A. J.  
Chittenden. Mr. Bater is employed by the W. W.  
Kimball Piano Co., and his work is guaranteed.  
He thoroughly understands pianos of all makes.

from uncorrected errors of refraction;  
conjunctivitis (granulated lids) keratitis,  
with ulcers of cornea, paralysis of the  
nerves, astrophia of nerves. A sad mis-  
take is made by most people in putting  
off spectacles too long. The old advice,  
"Don't begin specs until you have to,"  
has done a world of harm. Anyone can,  
by squinting, and straining and looking  
shar, go along time without spectacles,  
but he is sowing seeds of destruction to  
his eyes.

Consultation and examination free.  
At New Marion Hotel.

For honest goods at honest prices call  
at Taylor & Cannan's.

Have four horses and one mule for  
sale; will sell on 12 months time.  
Ohio Valley Produce Co.

Taylor & Cannan will save you money  
on clothing. A look and you will buy.

Taylor & Cannan's line of hats is com-  
plete and up-to-date. Call and see them.

Bargains in clothing for the next 30  
days at Taylor & Cannan's.

We carry in stock paints, oils and var-  
nishes of all kinds.

Bigham & Browning.

You give the order, we will put in your  
screen doors and windows and the price  
will be right.—Bigham & Browning.

Examine the tailor-made skirts at Tay-  
lor & Cannan's and you will be convinc-  
ed of the bargains they are offering.

Wool wanted, highest cash prices paid  
by the Ohio Valley Produce Co.

will be at the New Marion Hotel, Mon-

day, May 25th, and will remain several

days. The gentlemen are well known in

our city, and persons needing glasses or

the services of opticians should not fail

to see Drs. Goldstein.

Bater, the expert piano tuner of Evans-

ville, will be in Marion, June 1st; all par-

ties having pianos that need attention

should notify A. J. Chittenden. Bater

is employed by W. W. Kimball Piano Co.,

and his work is guaranteed. He

perfectly understands pianos of all makes

**A BIG POTATO.**

Claude Bennett brought to the Press

office Monday, a wild sweet potato,

weighing nearly twenty-six pounds,

which was found in the river bottoms

in this county opposite Elizabethtown,

Ills.

**CHAPEL HILL CEMETERY CO.**

Articles of incorporation have been

filed in the county clerk's office by the

Chapel Hill Cemetery Company. The

company has no capital stock and its

purpose is the care of the cemetery at

Chapel Hill. A board of directors will

be elected annually by the people of the

neighborhood.

**A GOOD SHOW.**

Colorado Grant's show gave two ex-

hibitions in this city Saturday. The

performances were highly creditable. The

educated horses were the best ever seen

here, and the other features were splen-

did. Owing to the fact that the show

train was late in arriving the afternoon

performance was not largely attended,

but in the evening a big crowd heartily

enjoyed the show. The show is not a

very large concern but judging by the

performance, Colorado Grant's show is

far ahead of the average circus. Grant

is a nice fellow and his employees are

courteous and orderly.

### A YOUTH'S DEATH.

George Ford, seventeen-year-old son,  
of the late Galand Ford, died at his home  
near Ford's Ferry Sunday, after being  
ill only a few hours.

### NEW POST OFFICE BUILDING.

It is very probable that Messrs. J. W.  
Blue and Sam Gugenheim will erect a  
large brick office building on the lot just  
east of the CRITTENDEN PRESS building,  
the lower floor to be occupied by the  
postoffice and the second story to be  
composed of business offices. The crowd-  
ed condition of the present postoffice  
building, and the rapidly increasing pos-  
tial business demands additional room.

### SOCIAL EVENTS OF THE WEEK.

A most delightful dinner party was  
given by Mrs. Dr. Clement at the old  
homestead in View in the early part of  
week. The dinner was given in honor  
of Mrs. Sayre, of Philadelphia, who has  
recently made Marion her home, and  
whose charming entertainments in this  
city have been attended by many of our  
ladies and gentlemen. Among the diners  
were Mr. Wm. Baird and Mrs. Eva  
Moore, Mr. Chas. Steinmetz and Miss  
Helen Sayre, Mr. Robt. Sayre and Miss  
Clements, Mr. and Mrs. H. H. Sayre.

Misses Lavine Woods, Jettie Nichols  
and Ina Price gave a party Wednesday  
evening at the residence of Mr. P. H.  
Woods. Many friends of the young  
ladies were present, and the evening was  
very pleasantly spent.

Miss Mildred Haynes entertained her  
friends Friday evening at her home on  
West Bellville Street.

### RETURN VISIT

Drs. Goldstein in Marion Again, and  
Will Remain a Few Days.

Remember the eye is the most sensi-  
ble organ we have. In its normal con-  
dition we can see at all distances alike;

## BIBLE SCHOOL.

### New Opportunity For Tired Christian Workers.

The Summer Bible School is a new organization which contemplates two chief purposes namely: The instruction and inspiration of Christian workers in all departments, and such physical and mental rest as are yearly necessary for the highest efficiency of such workers. It proposes to be at once a true school and an opportunity for the most profitable vacation possible. Such a combination of instruction, inspiration and rest will commend itself immediately to many. They would enjoy and their physical condition demands recreation. They crave also special preparation for the great work in which they are engaged. But one short period must suffice for both of these objects.

The Summer Bible School will meet for the third time in Hopkinsville, June 15, and will continue its meetings until and including June 19, a period of five days. It will use the buildings of South Kentucky College. Entertainment at the college will be furnished at the nominal price of \$3 a week.

The school offers a really great program. Rev. J. B. Briney, of Missouri, is principal and instructor in N. T. Exegesis. Mr. Briney is a distinguished preacher, debater and lecturer, and a writer and editor of much power and influence. He will deliver six lectures in the five days.

President H. A. Jenkins of Kentucky University, will give four lectures. Revs. R. L. Clark and Robert Lord Cave will lecture. Prof. A. L. Feterman, the editor of Plain Talk, will lecture once on The Pulpit as Viewed from the Pew. These men are all experts and will both instruct and please those who shall hear them.

The South Kentucky Christian preachers originated, and are fostering this enterprise. This body of earnest men deserve the gratitude of the people of the Christian churches throughout Western Kentucky.

Representatives of all religious bodies will be welcomed to this retreat.

### Wedell Phillips and the Slave.

At the close of the Civil War and before he was well known, Wendell Phillips, the distinguished abolitionist, went to Charleston and put up at a hotel. He had breakfast served in his room, and was waited upon by a slave.

Mr. Phillips seized the opportunity to represent to the colored man in a pathetic way that he regarded him as man and a brother, and that he himself was an abolitionist. The other, however seemed more anxious about the guest's breakfast than he was about his own position in the social scale or the condition of his soul.

Finally Mr. Phillips became discouraged and told him to go away, saying that he could not bear to be waited upon by a slave.

To this the darky remonstrated: "You must excuse me, massa, but I've 'bliged to stay yere, 'cause I've responsible fo' de silverware."

—Youth.

**HARPER WHISKY**

PURE and MELLOW  
RICH and DELICATE

For sale by  
**EBERLE, HARDIN & CO.**

## KITCHEN HINTS.

Add a pinch of salt to make the white of an egg beat quicker; and a pinch of borax to cooked starch to make the clothes stiffer and whiter.

Kerosene will remove rust from the stove. Wash well with a woolen cloth dipped in kerosene. Use old brush on the grooves and ornamental work. After a day repeat the washing. Finally rub the stove dry with a woolen cloth, and polish it with stove blacking.

Camphor put into drawers or trunks keeps away mice.

Hinges will not creak if rubbed with a feather dipped in oil.

Salt and lemon juice rubbed on spots of iron rust will remove the stain.

Paint stains can be removed with turpentine, and tar stains with lard. Iodine spots disappear if vigorously washed with ammonia and water.

Ammonia takes out most spots. Ammonia and whiting together are handy for brightening nickel work. Apply it with a woolen cloth.

## KENTUCKY WOMEN.

Kentucky women are among the loveliest in the world and renowned the world over for tact and gentleness as well as beauty and dash. They have been sought by governors, senators, congressmen, counts and earls, and have in nearly every instance been the superior of the men they married. These Kentucky women have been the wives, mothers, sisters, daughters, and sweethearts of the men who have made the laws, presched the gospel, healed the sick, and fought the battles of the United States. —Birmingham (Ala.) Ledger.

## OBITUARY.

Little Willie, youngest daughter of W. M. and J. A. Redd, was born June 23d, 1892, died March 21st, 1903, age ten years and eight months.

She came with her mama to Shady Grove to see her sister, Mrs. King, who was sick at the time. Willie was sick only a short time. It was sad to part with little Willie, the home is so lonely now; but she is now up yonder, standing at the golden gates, waiting to welcome father, mother and little sister and loved ones home.

Little Willie seemed to realize she was going to die. She would say, mamma do you want me to die? She says, no, darling, mamma don't want you to die; and then she would call her papa and sister who were not with her when she died.

Willie was loved by all who knew her. But while loving hearts are bleeding we say to the bereaved ones weep not, for Willie is happy; she is a sweet little angel now, sweeping through heavenly streets. Don't think that God was severe in taking Willie from you, He knew she was too good to live in this world, and He saw a vacant place for her to fill and took her.

Don't think of her as in the grave but as dwelling in the beautiful city of God, singing the sweet songs of our Redeemer. It seems as if I can almost hear that sweet song now as she sings it, with a host of angels joining in the grand chorus.

Cousin Ettie.

## COAL MINE FOR DIXON.

A dispatch from Madisonville says: A company has been formed composed of some of the wealthiest and most enterprising men of Webster county, for the purpose of opening up coal mines in Dixon, Ky., in Webster county. They now have the machinery on the ground and boring for coal will begin the latter part of the week.

## SHORTHAND

A valuable accomplishment for every young man and woman. Learn it Here. We teach all business branches. Correct methods. Large patronage. Enter any time. GOOD BOARD FOR \$1.75 A WEEK. Write for catalogue. Lookyear's Business College, Evansville, Ind.

## An Ocean Pastime

(Original.)

Two men were sitting in the smoking room of an ocean liner.

"There should be detectives," said one to the other, "aboard these steamers to protect innocent people. That lean country Jake is being fleeced at cards by those sharpies."

"Why don't you warn him?"

"I'd only get myself into trouble. The other fellows would tell him that I was trying to gain his confidence to fleece him myself."

"I'll tell you what to do. You are the best poker player in America, and I flatter myself I'm not far behind you. We'll get the fellow to sit down to a private game with us, win his money and return it to him when we get to Southampton. It'll serve to amuse us, and we will be doing the man a great favor."

"That's a good idea."

The next day the two men, Mr. Graham and Mr. Tidball, met the greenhorn on deck. They had concluded to carry out a veritable bunko game, so they suddenly turned and stared at him; then Graham rushed up to him, grasped his hand and said:

"Why, Skinner, I didn't know you were aboard!"

Tidball came up and seized the other hand. "Skinner, how are you, old man?"

"My name ain't Skinner," said the man, looking at them with eyes full of surprise, almost fear.

"Do you mean to tell me," said Graham, standing off and looking at the countryman from head to foot, "that you're not Amos Skinner of Pawtucket?"

"Why, no; I'm Jim Robinson of Shelbyville, Tenn."

"Well, now," said Tidball, "you'd make a better likeness of Skinner than his own photograph. The wine's on us. Come along."

It wasn't long after the wine was opened that the two kindly disposed men had Mr. Robinson seated at table, with cards before them.

"Shall I be poked?" asked Graham.

"Not much," said the victim. "I'm not a-go'n' to win the money of two gentlemen that has treated me so fine—almost like a brother. Why, I'm considered the best poker player in Shelbyville."

The confederates looked at each other. They admitted that they were different poker players, but insisted on the game, and the stranger at last consented to play with a low limit. But he declared that as soon as he had won \$20 the game must stop and he would spend his winnings in wine.

They played in the stateroom of the confederates, who felt very sure that they could win at a fair game, and, if caught at any irregular proceedings it might get them into trouble. Besides, it would be more fun to win fairly. They found the countryman easy prey and soon won all his loose cash. Then he went for his gripack and produced a large number of crisp twenty dollar bills. They played regularly every day for three days, and when the ship was nearing port the countryman confessed that he was "dead broke."

Then there was a scene. Robinson bemoaned his fate, while the two bunks enjoyed his discomfiture. Then when he seemed utterly crushed they gave him a lecture on trusting strangers and told him of their scheme to ruin him for his own good. There was a glad light in his eye as he grasped both their hands, tears streaming down his cheeks, and declared that they were the finest men on the ocean, the finest men in America, the finest men in the whole world.

Graham and Tidball emptied their pockets of the money they had won and were about to hand it back to the loser when he stopped them.

"You gentlemen," he said, "have shown me what a galoot I am and how little I'm fitted to take keer of money. But this is only one way of gittin' it out of me. In a week some feller'll git it in some other way. Now, I want you to do me a favor. Keep all except enough to take me to London. You're goin' there; so am I. When we get there, I got a friend, and I'm a-go'n' to put it in his bank. I'll never trust myself ag'in with more 'n enough to pay expenses."

The friends reluctantly consented, and with tears of thankfulness the farmer departed.

The next morning the ship was in port. Mr. Robinson did not appear, and the two friends hunted for him high and low; then, leaving their London address for him with the purser, they started to go ashore. Graham, while on the gangplank, turning, saw one of the men from whom they had saved Robinson pointing to himself and his friend. The next moment two men clasped hands on their shoulders, then handcuffed them.

"What's this?" they both cried, agast.

There was no reply. They were taken to a police station, their hand baggage opened and found to contain several thousand dollars of counterfeit money.

They had scarcely left the dock before the grateful farmer, puffing a long cigar, left the steamer. He lost no time in jumping into a carriage and was never afterward heard of in either Europe or America.

Messrs. Graham and Tidball were a week convincing the police that they had been the victims of a gang of counterfeiters, who, in order to get their goods into the country, had turned suspicion from themselves by loading a large quantity of the stuff upon their dupes. The dupes endeavored to keep the matter quiet, but it leaked out.

MARTIN B. OLCOTT.

# High Qualities Low Prices!

Is the basis of our business standing. We make it a point in buying to get the best possible for our money, and in selling we see that our patrons get the best possible for their money. That we succeed is evidenced by the fact that our goods are constantly moving, our stock always new, fresh clean and the latest things the factories make.

Bed Room Suits, Parlor Lounges,  
Odd Dressers, Sofa Lounges,  
Extension Tables, Folding Beds,  
Iron Beds, Wardrobes,

## Everything in the Way of Furniture

WINDOW SHADES. Wall Paper, Wire Screens,

We have all qualities, all the popular colors. In fact we have the largest and best assorted line in the county.

We have a great line of Wall Paper, and our new patterns are universally admired. No trouble to show these goods.

The season for screening the flies out of your house is here, and we are fixed for it with the best line of door and window screens on the market.

## PAINTS —AND— PAINTS!

Two great brands—Sherwins-Williams, we guarantee to be pure lead and zinc and linseed oil. The highest grade goods on the market. It cost a little more than others, but steel costs more than iron; silk costs more than cotton. A gallon of this covers more surface, stays on longer and looks brighter. Its the best and the best is the cheapest in the end always. Ruchters Durable Fire Proof is a fine Paint, a pure linseed oil paint, (you put the oil in yourself and know that it is pure.) It stays on when put on. We also carry Lead, Oil, Varnishes and everything else in this line.

YOURS MOST TRULY,

## USUALLY THE OPPOSITE.

The usual order of things was reversed in the Circuit court at Henderson when George Jones, a white man, was found guilty of breaking into a hen house and stealing chickens from a negro. Jones was given one year in the county jail at hard labor. He confessed the crime and asked the jury for mercy, saying he stole the chickens because his children were crying for bread.

## MAN'S FOUR AGES.

Man born of woman is little per-simmons and generally green. His life might be divided into four parts. As he starts his stomach is full of pains, blackberry balsam and paregoric, and he winds up the first period by stealing green apples and fishing on Sunday. The second term, commencing at fifteen, rapidly passes into the smart Aleo fever, and he learns to wear standing collars, smoke cigarettes, call his father old man and go with the girls. At twenty-one he has bankrupted his father, and blown in every cent of his own, he finds a woman who is fool enough to marry him, and she takes in washing until she is called away. The last period, he lives around with his children, tells the big things he did when he was a boy, and finally goes under, making a momentary bubble on the sea of humanity, then is forgotten.—Antwerp (Canada) Bee.

Employers of labor in Kansas City have organized to combat the labor unions of that city. They will refuse to deliver goods to places discriminating against union men.

THE BEST should be your aim when buying medicine. Get Hood's Sarsaparilla and have the best medicine MONEY CAN BUY.

## BIBLE SCHOOL.

### New Opportunity For Tired Christian Workers.

The Summer Bible School is a new organization which contemplates two chief purposes namely: The instruction and inspiration of Christian workers in all departments, and such physical and mental rest as are yearly necessary for the highest efficiency of such workers. It proposes to be at once a true school and an opportunity for the most profitable vacation possible. Such a combination of instruction, inspiration and rest will commend itself immediately to many. They would enjoy and their physical condition demands recreation. They crave also special preparation for the great work in which they are engaged. But one short period must suffice for both of these objects.

The Summer Bible School will meet for the third time in Hopkinsville, June 15, and will continue its meetings until and including June 19, a period of five days. It will use the buildings of South Kentucky College. Entertainment at the college will be furnished at the nominal price of \$3 a week.

The school offers a really great program. Rev. J. B. Briney, of Misouri, is principal and instructor in N. T. Exegesis. Mr. Briney is a distinguished preacher, debater and lecturer, and a writer and editor of much power and influence. He will deliver six lectures in the five days.

President H. A. Jenkins of Kentucky University, will give four lectures. Revs. R. L. Clark and Robert Lord Cave will lecture. Prof. A. L. Feterman, the editor of Plain Talk, will lecture once on The Pulpit as Viewed from the Pew. These men are all experts and will both instruct and please those who shall hear them.

The South Kentucky Christian preachers originated, and are fostering this enterprise. This body of earnest men deserve the gratitude of the people of the Christian churches throughout Western Kentucky.

Representatives of all religious bodies will be welcomed to this retreat.

### Wedell Phillips and the Slave.

At the close of the Civil War and before he was well known, Wendell Phillips, the distinguished abolitionist, went to Charleston and put up at a hotel. He had breakfast served in his room, and was waited upon by a slave.

Mr. Phillips seized the opportunity to represent to the colored man in a pathetic way that he regarded him as man and a brother, and that he himself was an abolitionist. The other, however seemed more anxious about the guest's breakfast than he was about his own position in the social scale or the condition of his soul.

Finally Mr. Phillips became discouraged and told him to go away, saying that he could not bear to be waited upon by a slave.

To this the darky remonstrated: "You must excuse me, massa, but I've 'bliged to stay yere, 'cause I've responsible fo' de silverware." —Youth.

## KITCHEN HINTS.

Add a pinch of salt to make the white of an egg beat quicker; and a pinch of borax to cooked starch to make the clothes stiffer and whiter.

Kerosene will remove rust from the stove. Wash well with a woolen cloth dipped in kerosene. Use old brush on the grooves and ornamental work. After a day repeat the washing. Finally rub the stove dry with a woolen cloth, and polish it with stove blacking.

Camphor put into drawers or trunks keeps away mice.

Hinges will not creak if rubbed with a feather dipped in oil.

Salt and lemon juice rubbed on spots of iron rust will remove the stain.

Paint stains can be removed with turpentine, and tar stains with lard. Iodine spots disappear if vigorously washed with ammonia and water.

Ammonia takes out most spots. Ammonia and whiting together are handy for brightening nickel work. Apply it with a woolen cloth.

## KENTUCKY WOMEN.

Kentucky women are among the loveliest in the world and renowned the world over for tact and gentleness as well as beauty and dash. They have been sought by governors, senators, congressmen, counts and earls, and have in nearly every instance been the superior of the men they married. These Kentucky women have been the wives, mothers, sisters, daughters, and sweethearts of the men who have made the laws, preached the gospel, healed the sick, and fought the battles of the United States. —Birmingham (Ala.) Ledger.

## OBITUARY.

Little Willie, youngest daughter of W. M. and J. A. Redd, was born June 22d, 1892, died March 21st, 1903, age ten years and eight months.

She came with her mama to Shady Grove to see her sister, Mrs. King, who was sick at the time. Willie was sick only a short time. It was sad to part with little Willie, the home is so lonely now; but she is now up yonder, standing at the golden gates, waiting to welcome father, mother and little sister and loved ones home.

Little Willie seemed to realize she was going to die. She would say, mamma do you want me to die? She says, no, darling, mama don't want you to die; and then she would call her papa and sister who were not with her when she died.

Willie was loved by all who knew her. But while loving hearts are bleeding we say to the bereaved ones weep not, for Willie is happy; she is a sweet little angel now, sweeping through heavenly streets. Don't think that God was severe in taking Willie from you, He knew she was too good to live in this world, and He saw a vacant place for her to fill and took her.

Don't think of her as in the grave but as dwelling in the beautiful city of God, singing the sweet songs of our Redeemer. It seems as if I can almost hear that sweet song now as she sings it, with a host of angels joining in the grand chorus.

Cousin Ettie.

## COAL MINE FOR DIXON.

A dispatch from Madisonville says: A company has been formed composed of some of the wealthiest and most enterprising men of Webster county, for the purpose of opening up coal mines in Dixon, Ky., in Webster county. They now have the machinery on the ground and boring for coal will begin the latter part of the week.

## An Ocean Pastime

(Original.)

Two men were sitting in the smoking room of an ocean liner.

"There should be detectives," said one to the other, "aboard these steamers to protect innocent people. That lean country Jake is being fleeced at cards by those sharpies."

"Why don't you warn him?"

"I'd only get myself into trouble. The other fellows would tell him that I was trying to gain his confidence to fleece him myself."

"I'll tell you what to do. You are the best poker player in America, and I faster myself I'm not far behind you. We'll get the fellow to sit down to a private game with us, win his money and return it to him when we get to Southampton. It'll serve to amuse us, and we will be doing the man a great favor."

"That's a good idea."

The next day the two men, Mr. Graham and Mr. Tidball, met the greenhorn on deck. They had concluded to carry out a veritable bunko game, so they suddenly turned and stared at him; then Graham rushed up to him, grasped his hand and said:

"Why, Skinner, I didn't know you were aboard!"

Tidball came up and seized the other hand. "Skinner, how are you, old man?"

"My name ain't Skinner," said the man, looking at them with eyes full of surprise, almost fear.

"Do you mean to tell me," said Graham, standing off and looking at the countryman from head to foot, "that you're not Amos Skinner of Pawtucket?"

"Why, no; I'm Jim Robinson of Shelbyville, Tenn."

"Well, now," said Tidball, "you'd make a better likeness of Skinner than his own photograph. The wine's on us. Come along."

It wasn't long after the wine was opened that the two kindly disposed men had Mr. Robinson seated at table, with cards before them.

"Shall it be poker?" asked Graham.

"Not much," said the victim. "I'm not a-goin' to win the money of two gentlemen that has treated me so fine—almost like a brother. Why, I'm considered the best poker player in Shelbyville."

The confederates looked at each other. They admitted that they were different poker players, but insisted on the game, and the stranger at last consented to play with a low limit. But he declared that as soon as he had won \$20 the game must stop and he would spend his winnings in wine.

They played in the stateroom of the confederates, who felt very sure that they could win at a fair game, and, if caught at any irregular proceedings it might get them into trouble. Besides, it would be more fun to win fairly. They found the countryman easy prey and soon won all his loose cash. Then he went for his gripsack and produced a large number of crisp twenty dollar bills. They played regularly every day for three days, and when the ship was nearing port the countryman confessed that he was "dead broke."

Then there was a scene. Robinson bemoaned his fate, while the two bunkers enjoyed his discomfiture. Then when he seemed utterly crushed they gave him a lecture on trusting strangers and told him of their scheme to ruin him for his own good. There was a glad light in his eye as he grasped both their hands, tears streaming down his cheeks, and declared that they were the finest men on the ocean, the finest men in America, the finest men in the whole world.

Graham and Tidball emptied their pockets of the money they had won and were about to hand it back to the loser when he stopped them.

"You gentlemen," he said, "have shown me what a galoot I am and how little I'm fitted to take keer of money. But this is only one way of gittin' it out of me. In a week some feller'll git it in some other way. Now, I want you to do me a favor. Keep all except enough to take me to London. You're goin' there; so am I. When we get there, I got a friend, and I'm a-goin' to put it in his bank. I'll never trust myself ag'in with more 'n enough to pay expenses."

The friends reluctantly consented, and with tears of thankfulness the farmer departed.

The next morning the ship was in port. Mr. Robinson did not appear, and the two friends hunted for him high and low; then, leaving their London address for him with the purser, they started to go ashore. Graham, while on the gangplank, turning, saw one of the men from whom they had saved Robinson pointing to himself and his friend. The next moment two men clapped hands on their shoulders, then handcuffed them.

"What's this?" they both cried, aghast.

There was no reply. They were taken to a police station, their hand baggage opened and found to contain several thousand dollars of counterfeit money.

They had scarcely left the dock before the grateful farmer, puffing a long cigar, left the steamer. He lost no time in jumping into a carriage and was never afterward heard of in either Europe or America.

Messrs. Graham and Tidball were a week convincing the police that they had been the victims of a gang of counterfeiters, who, in order to get their goods into the country, had turned suspicion from themselves by loading a large quantity of the stuff upon their dupes. The dupes endeavored to keep the matter quiet, but it leaked out. —MARTIN B. OLCOTT.

# High Qualities Low Prices!

Is the basis of our business standing. We make it a point in buying to get the best possible for our money, and in selling we see that our patrons get the best possible for their money. That we succeed is evidenced by the fact that our goods are constantly moving, our stock always new, fresh clean and the latest things the factories make.

Bed Room Suits, Parlor Lounges,  
Odd Dressers, Sofa Lounges,  
Extension Tables, Folding Beds,  
Iron Beds, Wardrobes,

## Everything in the Way of Furniture

### WINDOW SHADES, Wall Paper, Wire Screens,

We have all qualities, all the popular colors. In fact we have the largest and best assorted line in the county.

We have a great line of Wall Paper, and our new patterns are universally admired. No trouble to show these goods.

The season for screening the flies out of your house is here, and we are fixed for it with the best line of door and window screens on the market.

## PAINTS OUTSIDE AND INSIDE PAINTS!

Two great brands—Sherwins—Williams, we guarantee to be pure lead and zinc and linseed oil. The highest grade goods on the market. It cost a little more than others, but steel costs more than iron; silk costs more than cotton. A gallon of this covers more surface, stays on longer and looks brighter. Its the best and the best is the cheapest in the end always. Ruchters Durable Fire Proof is a fine Paint, a pure linseed oil paint, (you put the oil in yourself and know that it is pure.) It stays on when put on. We also carry Lead, Oil, Varnishes and everything else in this line.

Employers of labor in Kansas City have organized to combat the labor unions of that city. They will refuse to deliver goods to places discriminating against non-union men.

THE BEST should be your aim when buying medicine. Get Hood's Sarsaparilla and have the best medicine MONEY CAN BUY.

**Dead Sea Evaporation.**  
Scientific observation justifies the estimate that a daily average of 6,500,000 tons of water is received from the Dead sea from the Jordan and other sources during the year. During the rainy season, the amount is very much greater; during the dry season it is of course very much less, but this average will be maintained year after year. There is no outlet, and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down the gorges between the mountains. This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual heavy clouds form and thunderstorms sometimes rage with great violence in the pocket between the cliffs even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining, and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead sea are rarely seen with distinctness because of this haze.

**The Rattlesnake's Rattle.**  
The utility of the rattle to the rattlesnake is a problem still awaiting solution. It has been supposed to be useful as paralyzing its prey through terror excited by the sound thus induced. But this is a very doubtful explanation. It is akin to the notion formerly entertained that serpents had a power of fascinating other creatures. Others have thought that it seems to excite the curiosity of animals and so brings them within the rattlesnake's reach. It has also been supposed that it serves, as it may do, to enable snakes of different sexes to find each other and also to guard the animal from attack when it is helpless from its power of offense having been temporarily exhausted. No sufficient evidence has, however, been collected to show that any of these ingenious speculations affords us a real clue to the true cause of such a curious and elaborate mechanism.—Quarterly Review.

**Definition of Felicity.**  
A Baptist minister tells the following story:  
"A friend of mine, who is quite a scholar, once accepted an invitation to preach at a country church in the south, and, as was his custom, he used very learned language. After the service the pastor of the church said that he felt sure the members of the congregation did not understand the sermon. 'Nonsense!' replied my friend. 'I am sure there was nothing in my sermon which they could not comprehend.' 'Well,' said the pastor, 'it will call one of them in and see if he understands the meaning of the word "felicity".' So he called in a laboring man and said, 'John, can you tell me what is the meaning of the word "felicity"?' 'Well, I don't know, sir,' said John, 'but I believe it is some part of the inside of a pig.'"

**The Zeal of Hunting.**  
You can never know the zeal of hunting or fishing until your dinner depends upon your success; you have never attained the sublime in cooking until you have spitted your fish or meat on a freshly peeled stick, rubbed the salt in with your fingers and broiled it over a woodland fire, you watching it jealously lest it get ablate, and all the time that meat is browning you get hungrier and hungrier, and every time it sputters in the glow you catch wafts of fragrance until you feel that you have the capacity of a dozen starving men and wonder whether a single haunch of venison can supply your wants.

**You Will Be Happy if Well.**  
**Paine's Celery Compound**  
Bestows that Health and Vigor that Makes Living a Pleasure.

If you are sick and out-of-sorts, it is in your power to make yourself healthy, strong, and happy.  
There is not the slightest reason why you should go through life feeling sickly, miserable, languid, and melancholic. To be well and strong, means happiness and true joy.  
If you are sleepless, rheumatic, neuralgic, dyspeptic, or have the shadows of disease hovering over you; if you are not as bright, energetic, and strong as you were some weeks ago, the use of Paine's Celery Compound will tone up and fortify your whole system, cleanse the blood, correct digestion, sharpen the appetite, and conduce to restful sleep. Thousands once in a half-dazed condition owe their present good health to the use of Paine's Celery Compound. Mr. Wm. S. Gibson, of Pleasantville, Ky., who, through sickness and suffering, was brought near the dark grave, writes as follows, regarding his marvelous cure:  
"I have been broken down in health and strength, nervous system shattered, kidneys out of order, had nervous and trembling spells off and on for the last ten years. I have taken three bottles of your Paine's Celery Compound and all of the above-mentioned troubles have left me, and I can now do a good day's work. I go about my business all day long and it does not worry me, and I now feel better than I have in ten years. I have a good appetite, and can eat and get around on foot as active as when I was a boy. My age is 65 years."

**DIAMOND DYES**  
Color Jackets, Coats, Capes, Ribbons, Neckties, Waists...  
Stockings will not fade or crack when dyed with Diamond Dyes. Directions book and 45 dyed samples free. DIAMOND DYES, Burlington, Vt.

**TO DETECT A MAD DOG.**  
There are two stages of rabies. In the first, the dog is restless and uneasy. He has a hacking cough, shifts from one place to another, and toward the end of the first stage begins to bite at the place of inoculation. In this stage he is harmless, and can easily be put out of the way.  
In the second stage he becomes violent, wanders off, and will bite anything that interferes with him, though he will never attack unless he is attacked. Always turn out for a dog that won't turn out for you, and you will avoid all danger.—Dr. James McDonough.

**The Waste of the Body**  
Every seven days the blood, muscle, and bones of a man of average size lose two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform the functions, the strength lets down, the health gives way, and disease follows. Kodol, a digestive cure, enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. At Haynes.

There are no drafts on the Bank of Motherhood which are not honored without discount.  
The thing that puzzles a mother most about her baby is how it resembles its father and yet looks so much like both George Washington and Napoleon.

**A Little Early Riser.**  
Now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that will cure the bowels gently yet effectually, yet giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if this rule is continued for a few days there will be no return of the complaint. At Woods & Co.

**Men like to be backed; horses do not.**

An optimist is a man who has a weathercock where his brain ought to be.

A courageous man never knows he is one until he has been one.

**A Startling Test.**  
To save life Dr. T. G. Merritt, of No. Mohopeny, Pa. made a startling test, resulting in a wonderful cure. He writes that a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles, so I prescribed them; the patient gained from the first, and has not had an attack in 14 months. Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, constipation and Kidney troubles. Only 50c; Woods & Co's.

The sweetest pleasures are those which we have not yet tasted.  
When you believe your brain is idle it is in reality working over time for the devil.  
Many so-called low necked dresses have no neck at all.

In a recent letter from Fred Edmonds who traveled for the Forked Deer Pants Co. of Paducah, Ky., he says: "I was seized with a very severe headache and securing a box of Hill's Headache Tablets I obtained immediate relief and a cure. These tablets are the friends of everybody who has given them a trial, as they will give immediate relief in neuralgia, nervous affections, reduce fever and cure any case of nervous headache that ever was in a few minutes; price 25c; for sale by all proprietary medicine dealers in the country."

To most people a clean conscience is a luxury, not a necessity.

Straightened finances often turn crooked.

It is your luck that makes you lose; your judgment that makes you win.

**From a Cat Scratch.**

On the arm to the worst sort of burn sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve be sure to get DeWitt's, as this is the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles; at R. F. Haynes.

**CATCHING CRABS.**  
Choptank River Fishermen Land Them by an Ingenious Method.  
These who crab for market on the Choptank river, Maryland, have an ingenious method of catching crabs in quantity. A rope about the thickness of a clothesline several hundred feet long is kept coiled in a keg. At intervals of two feet along the entire length of the rope the fisherman has untwisted it and inserted between the strands short pieces of salted eels. The torsion of the strand holds them tightly in place. Each end of the rope has a keg buoy attached, together with a heavy stone. Arriving at the favored place, usually on oyster beds, he throws a keg overboard and pays out a highly scented rope as he sails. When the other end is reached, he anchors it with another stone and throws out another buoy. After lowering his sail he waits a few minutes, then takes his stand on the bow of his boat. Alongside of him is his landing net, with a handle six feet long. He raises the buoy and stone end, and hand over hand, pulls his boat along the line. When a crab, clinging to its refreshment, comes in sight, he seizes his net, dashes it under the crab and flings it into the boat. The wary crab may loosen his hold and dive for the bottom, but such is the fisherman's dexterity that his net is swifter than the crab. One seldom gets away from the hundreds of crabs are often taken at each overhauling of the rope. When he has caught all he wants, he packs them in barrels and sells them to a local dealer, who ships them to market.—Country Life in America.

**"Doing" Europe in Your Mind.**  
According to a Calico contemporary, persons who wish to let their friends know that they are "doing" Europe on a princely scale the while they are living in retirement for a time need only apply to an agency in Paris, which will undertake to send your letters to practically any place in Europe you may select and there to have them posted for you on any date you may choose. The demand for such an institution arose out of the absolute horror the Parisian of "high life" has of being suspected of remaining in Paris or its environs in the bathing season. One feature of the joke is that you can not only get your letters posted from some distant spot, but you can get answers received for you and reposted to your temporary hiding place. There are great possibilities for American travelers in this. Why not stay in America and "do" Europe! —New York Tribune.

**A Sure Thing.**  
It is said that nothing is sure except death and taxes, but that is not entirely true. Dr. King's New Discovery for Consumption is a sure cure for all lung, and throat troubles. Thousands can testify to that. Mrs. C. B. VanMeter, of Shepherdstown, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It is infallible for croup, whooping cough, grip, pneumonia and consumption. Guaranteed by Woods & Co, trial bottle free; regular sizes 50c and \$1.

Figures don't lie but the people who juggle them often do.  
No will contest has ever been waged over the ills that man is heir to.

**Spring Ailments.**  
There is an aching and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is that during the winter there has been an accumulation of waste matter in the system. Herbine will relieve it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissue and give you strength instead of weakness; 50 cents at Woods & Co's.

A woman who is ashamed of her husband nevertheless expects others to respect him.  
Truth is stranger than fiction, but an untruth often saves friction.

**The X-Rays**  
Recent experiments with practical tests and examinations, with the aid of the X rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How can I Cure my Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the stomach. Kodol digests what you eat, makes the stomach sweet.

Russia has replied to China's refusal to grant the Manchurian demands by a warlike movement. Not only has a naval force assembled, but New Chwang has suddenly been reoccupied by a larger force, while garrisons and forts have been established along the Liao river. Other points have been ordered occupied and new forts are being erected.

**World Wide Reputation.**  
White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion; and assimilation of food, strengthens their nervous system, and restores them to the health, vigor, and elasticity of spirits natural to childhood; 25c at Woods & Co's.  
Mrs. Josephine McCarty, mother of Wm McCarty, who will be executed at Friday for the murder of his wife, died Saturday. She did not know a date had been set for the execution of her son.

**More Mosquitoes.**  
There are more mosquitoes this season than there ever was before, and scientists say that they carry malaria from one person to another. If this the case we will have more malaria among us than ever before, and it is the duty of every one to guard their own health as well as that of their family. This you can easily do against all diseases of malarial origin by taking Hall's Anti-Malarial Tablets, which are a sure cure for chills, fever, general debility, poor blood, foul stomach, sluggish liver, loss of appetite, and all broke down conditions. Price 25c; at all medicine dealers.

**Incredible.**  
An Irish harvester found himself in a small Scottish town. At the gasworks he saw a gasometer for the first time in his life and stopped a countryman who was passing to ask, "What's that big round thing there standing on end?"  
The Scotchman scratched his head and replied, "A dinnis ken."  
"Get out with you," said the Irishman; "you never saw a dinner can as big as that lid your life."

**What Caused the Indigestion.**  
"Mollie Brown has a model husband." "In what way?"  
"Whenever he doesn't eat anything she asks him if the cooking isn't as good as his mother's."  
"And what does he say?"  
"He says he has no doubt it is, but that his indigestion has quite unfitted."

Keep your bowels regular; that is the secret of good health, for when your head swims as you bend over, or your tongue always has a heavy coat on it, your back aches, your limbs hurt and ache, you have spots to come and go before your eyes, you feel weak, tired, sleepy and restless, then is when you want to take a good brisk cathartic, and nothing is any better than Hall's Universal pills, their record where they have been tried has been one continual list of cures. Price 25c; at all medicine dealers.

**Mattress Filling.**  
One of the cheapest things with which to fill a mattress is a pine fiber, and it is a pretty good sort of filling. No one without experience can imagine the different varieties of hair which go into mattresses of different grades. There are eight or nine different kinds of mixtures.

**Quick Arrest.**  
J. A. Guffedge of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies had failed Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and pain; at Woods & Co

About 9,000 emigrants have arrived at Hamburg for transportation to the United States. Extra steamers are necessary to accommodate the unusual number.

**Made Young Again.**  
"One of Dr. King's New Life Pills every night for two weeks has put me in my 'teens' again," writes D. H. Turner, of Dempseytown, Pa. They are best in the world for liver, stomach and bowels. Never gripe; only 25c at Woods & Co's.

**Don't Pay Too Much**  
Buy **Radcliffe** Shoes for Women \$2.50  
Thousands of well-dressed women prefer Radcliffe shoes. They cost \$2.50 to \$3.00, but they are worth every cent. Call and examine them.  
Sold by Taylor & Cannon.

This wonderful medicine positively cures Consumption, Coughs, Colds, Bronchitis, Asthma, Pneumonia, Hay Fever, Pleurisy, La Grippe, Hoarseness, Sore Throat, Croup and Whooping Cough. Every bottle guaranteed. No Cure. No Pay. Price 50c. & \$1. Trial bottle free.

**Constipation**  
And all symptoms and Results of Indigestion  
Absolutely removed by the use of  
**DR. CARLSTEDT'S GERMAN LIVER POWDER**  
Money refunded if you are not pleased with results; has cured thousands—why not you?  
Mr. E. B. Hackett, a prominent merchant of Morgantown, Ky., was a sufferer for years from constipation and indigestion, and was prevailed upon to try Dr. Carlstedt's German Liver Powder by one whom it had done great good. He gave it a single trial, when he began to feel better at once. Troubled with piles, Mr. Hackett was surprised to find himself cured of this most dreaded of bodily ailments. He is now a well man and does not use any medicine. If you are afflicted in this manner, give it a trial; it will cost you only 25 cents, and should it not serve as we say the druggist is authorized to refund your money.

**MEAT & MALT**  
THE IDEAL TONIC AND RECONSTRUCTIVE.  
There's Life and Strength in Every Drop  
A scientific combination of the essential constituents of PRIME BEEF and PURE OLD MALT.  
Louisville, Ky., January 22, 1907  
MEAT & MALT CO., Louisville, Ky.  
Gentlemen—Having examined your Meat and Malt preparation, and being thoroughly acquainted with its composition and mode of manufacture, I can state that it is an efficient nerve and blood tonic. It excites the appetite and invigorates digestion, and is especially beneficial in nervous prostration and all diseases attended with debility. Yours truly,  
L. D. KASTENBINE, M. D.,  
Louisville College of Pharmacy.  
**MEAT & MALT CO., Louisville, Ky.**

**Dead Sea Evaporation.**  
Scientific observation justifies the estimate that a daily average of 5,500,000 tons of water is received in the Dead Sea from the Jordan, and other sources during the year. During the rainy season, says the Chicago Record-Herald, the amount is very much greater; during the dry season it is of course very much less, but this average will be maintained year after year. There is no outlet, and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down the gorges between the mountains. This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual heavy clouds form and thunderstorms sometimes rage with great violence in the pocket between the cliffs even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining, and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead sea are rarely seen with distinctness because of this haze.

**The Rattlesnake's Rattle.**  
The utility of the rattle to the rattlesnake is a problem still awaiting solution. It has been supposed to be useful as paralyzing its prey through terror excited by the sound thus induced. But this is a very doubtful explanation. It is akin to the notion formerly entertained that serpents had a power of fascinating other creatures. Others have thought that it seems to excite the curiosity of animals and so brings them within the rattlesnake's reach. It has also been supposed that it serves, as it may do, to enable snakes of different sexes to find each other and also to guard the animal from attack when it is helpless from its power of offense having been temporarily exhausted. No sufficient evidence has, however, been collected to show that any of these ingenious speculations affords a real clue to the true cause of such a curious and elaborate mechanism.—Quarterly Review.

**Definition of Felicity.**  
A Baptist minister tells the following story:  
"A friend of mine, who is quite a scholar, once accepted an invitation to preach at a country church in the south, and, as was his custom, he used very learned language. After the service the pastor of the church said that he felt sure the members of the congregation did not understand the sermon. 'Nonsense!' replied my friend. 'I am sure there was nothing in my sermon which they could not comprehend.'  
"Well," said the pastor, "I will call one of them in and see if he understands the meaning of the word 'felicity.'" So he called in a laboring man and said, "John, can you tell me what is the meaning of the word 'felicity'?"  
"Well, I don't know, sir," said John, "but I believe it is some part of the inside of a pig."

**The Rest of Hunting.**  
You can never know the rest of hunting or fishing until your dinner depends upon your success; you have never attained the sublime in cooking until you have spitted your fish or meat on a freshly peeled stick, rubbed the salt in with your fingers and broiled it over a woodland fire, you watching it jealously lest it get abaze, and all the time that meat is browning you get hungrier and hungrier, and every time it sputters in the glow you catch wafts of fragrance until you feel that you have the capacity of a dozen starving men and wonder whether a single haunch of venison can supply your wants.

**You Will Be Happy if Well.**  
**Paine's Celery Compound**  
Bestows that Health and Vigor that Makes Living a Pleasure.

If you are sick and out-of-sorts, it is in your power to make yourself healthy, strong, and happy.  
There is not the slightest reason why you should go through life feeling sickly, miserable, languid, and melancholic. To be well and strong, means happiness and true joy.  
If you are sleepless, rheumatic, neuralgic, dyspeptic, or have the shadows of disease hovering over you, if you are not as bright, energetic, and strong as you were some weeks ago, the use of Paine's Celery Compound will tone up and fortify your whole system, cleanse the blood, correct digestion, sharpen the appetite, and conduce to restful sleep. Thousands once in a half-dead condition owe their present good health to the use of Paine's Celery Compound. Mr. Wm. S. Gibson, of Pleasantville, Ky., who, through sickness and suffering, was brought near the dark grave, writes as follows, regarding his marvelous cure:  
"I have been broken down in health and strength, nervous system shattered, kidneys out of order, had nervous and trembling spells off and on for the last ten years. I have taken three bottles of your Paine's Celery Compound and all of the above-mentioned troubles have left me, and I can now do a good day's work. I go about my business all day long and it doesn't worry me, and I now feel better than I have in ten years. I have a good appetite, and can eat and get around on foot as active as when I was a boy. My age is 65 years."

**DIAMOND DYES**  
Color Jackets, Coats, Capes, Ribbons, Neckties, Waists...  
Satisfying will not fade or crack when dyed with Diamond Dyes. Directions back and 45 dyed samples free. DIAMOND DYES, Burlington, Vt.

**TO DETECT A MAD DOG.**  
There are two stages of rabies. In the first, the dog is restless and uneasy. He has a hacking cough, shifts from one place to another, and toward the end of the first stage begins to bite at the place of inoculation. In this stage he is harmless, and can easily be put out of the way.  
In the second stage he becomes violent, wanders off, and will bite anything that interferes with him, though he will never attack unless he is attacked. Always turn out for a dog that won't turn out for you, and you will avoid all danger.—Dr. James McDonough.

**The Waste of the Body**  
Every seven days the blood, muscle, and bones of a man of average size lose two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform the functions, the strength lets down, the health gives way, and disease follows. Kodol dyspeptic cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. At Haynes.

There are no drafts on the Bank of Motherhood which are not honored without discount.

The thing that puzzles a mother most about her baby is how it resembles its father and yet looks so much like both George Washington and Napoleon.

**A Little Early Riser.**  
Now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that will cure by arousing the secretions, moving the bowels gently yet effectively, yet giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if this rule is continued for a few days there will be no return of the complaint. At Woods & Co.

Men like to be backed; horses do not.

An optimist is a man who has a weathercock where his brain ought to be.

A courageous man never knows he is one until he has been one.

**A Startling Test.**  
To save life Dr. T. G. Merritt, of No. Mehopeny, Pa. made a startling test, resulting in a wonderful cure. He writes that a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles, so I prescribed them. The patient gained from the first, and has not had an attack in 14 months. Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, constipation and Kidney troubles. Only 50c; Woods & Co's.

The sweetest pleasures are those which we have not yet tasted.  
When you believe your brain is idle it is in reality working over time for the devil.  
Many so-called low necked dresses have no neck at all.

In a recent letter from Fred Edmonds who traveled for the Forked Deer Pants Co. of Paducah, Ky., he says: "I was seized with a very severe headache and securing a box of Hill's Headache Tablets I obtained immediate relief and a cure. These tablets are the friends of everybody who has given them a trial, as they will give immediate relief in neuralgia, nervous affections, reduce fever and cure any case of nervous headache that ever was in a few minutes; price 25c; for sale by all proprietary medicine dealers in the country."

To most people a clean conscience is a luxury, not a necessity.

Straightened finances often turn crooked.

It is your luck that makes you lose; your judgment that makes you win.

**From a Cat Scratch.**

On the arm to the worst sort of burn sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve be sure to get DeWitt's, as this is the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles; at R. F. Haynes.

**CATCHING CRABS.**  
Choptank River Fishery Land Them by an Ingenious Method.  
Those who crab for market on the Choptank river, Maryland, have an ingenious method of catching crabs in quantity. A rope about the thickness of a clothesline several hundred feet long is kept coiled in a keg. At intervals of two feet along the entire length of the rope the fisherman has untwisted it and inserted between the strands short pieces of salted eels. The torsion of the strand holds them tightly in place. Each end of the rope has a keg buoy attached, together with a heavy stone. Arriving at the favored place, usually on oyster beds, he throws a keg overboard and pays out a highly scented rope as he sails. When the other end is reached, he anchors it with another stone and throws out another buoy. After lowering his sail he waits a few minutes, then takes his stand on the bow of his boat. Alongside of him is his landing net, with a handle six feet long. He raises the buoy and stone end, hand over hand, pulls his boat along the line. When a crab, clinging to its refreshment, comes in sight, he seizes his net, dashes it under the crab and flings it into the boat. The wary crab may loosen his hold and dive for the bottom, but such is the fisherman's dexterity that his net is swifter than the crab. One seldom gets away. Several hundreds of crabs are often taken at each overhauling of the rope. When he has caught all he wants, he packs them in barrels and sells them to a local dealer, who ships them to market.—Country Life in America.

**"Doing" Europe in Your Mind.**  
According to a Cakro contemporary, persons who wish to let their friends know that they are "doing" Europe on a princely scale while they are living in retirement for a time need only apply to an agency in Paris, which will undertake to send your letters to practically any place in Europe you may select and there to have them posted for you on any date you may choose. The demand for such an institution arose out of the absolute horror the Parisian of "high life" has of being suspected of remaining in Paris or its environs in the bathing season. One feature of the joke is that you can not only get your letters posted from some distant spot, but you can get answers received for you and reposted to your temporary hiding place. There are great possibilities for American travelers in this. Why not stay in America and "do" Europe?—New York Tribune.

**A Sure Thing.**  
It is said that nothing is sure except death and taxes, but that is not entirely true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMeter, of Shepherdstown, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It is infallible for croup, whooping cough, grip, pneumonia and consumption. Guaranteed by Woods & Co. trial bottle free; regular sizes 50c and \$1.

Figures don't lie but the people who juggle them often do.

No will contest has ever been waged over the ills that man is heir to.

**Spring Ailments.**  
There is an aching and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is that during the winter there has been an accumulation of waste matter in the system. Herbine will relieve it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissue and give you strength instead of weakness; 50 cents at Woods & Co's.

A woman who is ashamed of her husband nevertheless expects others to respect him.

Truth is stranger than fiction, but an untruth often saves friction.

**The X-Rays**

Recent experiments by practical tests and examinations, with the aid of the X rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How can I Cure my Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the stomach. Kodol digests what you eat, makes the stomach sweet.

Russia has replied to China's refusal to grant the Manchurian demands by a warlike movement. # LOCAL NEWS.

Gossipy Letters From all Sections of the County.

## MATTOON.

As we have been absent from the columns of the Press for several issues we will come again.

The farmers finished delivering their tobacco last week; quite late but they had to make room for another crop.

Tom Harmou, the section foreman at Repton, has about finished grading up his section.

Uncle Wm. Asher, of Weston, was here Friday.

J. R. Summerville and family visited in Marion Saturday.

Aunt Elizabeth Burton visited her daughter, Mrs. Cora Roberts, a few days ago.

Jim Sullivan has sold his interest in the crop at home and will work for Dan Travis this summer.

Mr. Givens, of Providence, was here last week trying to secure options on some of our coal land.

John Brown, who returned from Missouri a few weeks ago, is now working for Gus Summerville.

Uncle Frank Summerville is experimenting this spring with alfalfa. He says he believes it will prove to be the very thing our farmers and stock raisers are looking for.

Jim Franklin was in Blackford Saturday.

Will McChesney, of Shady Grove, was through here a few days ago.

D. J. Travis and family attended church at Sugar Grove Sunday.

J. N. Roberts was at Iron Hill Monday.

Dr. Enoch Heath, a native of this immediate section, but for 25 or 30 years a native of Tennessee, visited his brother Robert (Uncle Bob) May 15th, their birthdays, ages 71 and 88 years.

Query: Is there an older native, man or woman, in Crittenden county, than Uncle Bob?

Miss Lily Doss visited her sister, Mrs. Bart Summerville, the first of the week.

Miss Estell Gilbert is on a visit to her relative Miss Ida Duval.

We don't know the attraction, but Frank Summerville, Jr., and Marshall Gilbert are frequent visitors to Marion.

Clyde Woody, who has been working in Mr. Gilbert's tobacco factory, is laid up with chills.

Uncle Bob Heath is spending a few days with his niece, Mrs. Bell Summerville, and cousin, J. M. Gilbert.

J. R. Summerville has a No. 1 good milk cow for sale.

## WOOL WANTED.

Highest cash prices paid.  
Ohio Valley Produce Co.

## CHAPEL HILL.

The recent rains have put a new smile on our boys' faces.

The singing at Cal Adams was well attended Saturday night.

Frank Dorroh and wife from Crayneville, was out at church Sunday.

George Kinsolving, of New Salem, attended church here Sunday.

Albert Crider, of Marion, was the guest of H. S. Hill Sunday.

Scott Paris, of Levas, visited B. F. Walker and family Sunday.

Robt. Allen, of Livingston coun

George Crider, I. C. agent at Crayneville, was out at church Sunday.

A good cow and calf for sale. Apply to W. H. Bigham, 3 miles south of Marion.

Miss Mattie Perry was the guest of Miss Ruby Bigham Sunday.

Al Adams says he would not have a buggy that didn't not have a looking glass in it, so he could see his best girl while travelling.

Car load of old iron wanted by Ohio Valley Produce Co.

## GLENDAL.

Chinch bugs have almost ruined the wheat in this part of the county.

Most of the farmers are planting corn in this section.

Miss Maud Humphrey, of Sheridan, is visiting her grandmother, Mrs. Shoemaker.

Charlie Thomas made his regular trip to Piney Sunday.

The peach crop is short in this section.

Rev. U. G. Hughes, of Marion, was in this community Sunday.

J. F. Flannery was in this neighborhood Monday.

Will Hurley gave his road a good working recently.

Indications point to a good black berry crop.

Our singing class will go to the Sunday school convention at Crooked Creek.

There will not be more than half a crop of tobacco put out in this section.

J. P. Reed bought about 30 fat hogs in this neighborhood.

Will James has the contract to sink a ten foot shaft for Major Clement at the Crittenden Springs.

Tom Farmer is "bossing" for the Wilson Mining Co., at Crittenden Springs.

Ed Beard and family were the guests of Charlie Simpson, and family Sunday.

## TOLU.

Rev. J. W. Bigham preached at Tolu Saturday night, Sunday and Sunday night.

Saturday was a big day for Tolu merchants; everybody came shopping, and everybody else came to mill.

The Baptist had a foot washing at Forest Grove Sunday. There was about 1000 people there, and no spring, well or cistern near. This was a gentle reminder that water is a good thing in its place.

L. A. Weldon was called to Salem Sunday to see his grand son, Guy Babb, who had fell from a ladder and received a scalp wound.

Miss Nettie Spickard returned to her home in Caldwell county, after several days visit with Mrs. Dr. Moore, of Tolu.

Miss Sallie Funkhouser and Mr. James Ingram were married in Elizabethtown last Sunday.

Misses Blanche and Clara Crawford, Willie Clement and Messrs. J. O. Brown, T. B. Gillespie and Master Foster Brown, went to the carnival at Paducah.

Dr. Dixon and wife of Marion, visited relatives at this place Sunday.

Mrs. P. B. Croft and Mrs. Steel attended the Paducah carnival.

Sam Agent and family, of Hardin county, Illinois, attended church at Forest Grove Sunday.

The Chapel Hill correspondent says they have no peaches. He will have to come down to Egypt for fruit, where there is a fair crop of apples, peaches, cherries and blackberries.

Miss Fannie Butler and her best fellow attended church at Forest Grove Sunday.

This correspondent attended church at Forest Grove Sunday and feasted with Mr. and Mrs. J. C. Funkhouser and Mr. and Mrs. Will Fralick, who spread a sumptuous dinner on the ground.

Will James and wife attended church at Forest Grove Sunday.

The Sunday school recently organized at Forest Grove is in a prosperous condition. W. L. White is superintendent.

Owensboro wagons for sale by Ohio Valley Produce Co.

Mr. J. A. Trimble, of Carversville, was in the city a few days ago. He says he is in the White Bronze Monument Business and can erect monuments as cheap as anybody, if not cheaper. If you desire anything in this line address him at Carversville, Ky.

## A WARM CONTEST CERTAIN.

Two contesting district committees have named two Democratic candidates for Circuit Judge in the district composed of Lyon, Trigg, Christian and Calloway counties.

The new committee met at Eddyville and decided that Judge Bush had won the nomination by 147 votes. The members of the old committee declared that Judge Cook had won by 77 votes. The new or "regular" committee secured a majority for Bush by throwing the votes in Cadiz and Wallonia, Trigg county, on the ground that the polls there were held open until 5 p. m.

The state executive committee will be asked to decide which is the lawful committee and after that, the matter will go to the courts.

There was no bad blood manifested at the meeting at Eddyville by the partisans of either candidate, but all that was done was done good humoredly.

## Young Man Save Your Money.

Patrick McAler died in Boston the other day at the advanced age of 88. He had worked all his life at the carpenter's bench and was worth \$3,000,000 at the time of his death. This great fortune was indirectly the result of his manual labor. He saved the income from his honest toil and his investments of his money in time bore vastly greater fruit than his daily labor. The young man who will deny himself slightly in early life will soon find himself the possessor of a friend which will work for him while he rests, that friend is his savings. A man does not have to take care of his money long before his money in turn will reward his thrift by taking care of him. The almighty dollar is never unfaithful to those who care for it. Young man, save your money.

## DRESS HINTS.

Cornmeal wet in benzine and rubbed over gloves while on the hands is recommended as a perfect method of cleaning.

If cotton blouses are slightly dampened and pressed with a warm iron after being worn, they will remain fresh a much longer time.

Before throwing aside a garment remove the buttons or hooks and eyes. Sometimes the want of one of these trifles is very great, particularly if one is far from the shops.

Do not wear a hat or bonnet out of proportion to the head, no matter what the prevailing mode may be. The long, full face surmounted with a tiny hat or bonnet is ludicrous.

The clothes that a girl has no opportunity to wear except on Sunday should be the best she can afford in quality, style and fitness, but never so gay as to attract any one's attention.

No matter how limited the wardrobe space may be, a hatbox for every hat should be the rule. The head covering necessarily gets very hard wear and needs exceptional care because of the perishable quality of the materials usually employed.

For Tired People.

In my book of choice recipes I have the following simple and available recipe, a medicinal bath for the nervously worn and those who cannot sleep at night. It was the prescription of an old physician, wise in his day and generation. It is not claimed as a cure all, but some degree of relief I believe is in store for those who give it a faithful trial.

Take of sea salt four ounces, spirits of ammonia two ounces, spirits of camphor two ounces, of pure alcohol eight ounces and sufficient hot water to make a full quart of the liquid. Dissolve the sea salt in the hot water and let stand until cool. Pour into the alcohol the spirits of ammonia and camphor. Add the salt water, shake well and bottle for use. With a soft sponge dipped in this mixture wet over the surface of the whole body. Rub vigorously until the skin glows.

When nervous or "blue" or wakeful, do not omit this bath. The rest and refreshing that follow will amply repay the effort required to prepare it—Household.

## MINING NEWS.

Continued from First Page.

A very good name for a mine would be, "The Princetta."

Mr. Persons, the mining captain at the Holly mine, will likely reside at that property.

The Tribune of Chicago says that Kentucky has plenty of law, but in the feud fighting districts it is used for decorative purposes only.

The mining plant, consisting of boiler, double acting hoist, buckets, cars, etc., have arrived for the Holly mine, and will be actively at work this week.

There are rumors of a big find of copper and zinc ores out Piney Fork way, some five miles from Marion, but nothing that we could substantiate before going to press.

## JUNE 9TH

Date of County Sunday School Convention.

Programme of the Annual Sunday School Convention of Crittenden county to be held at Crooked Creek church, June 9th, 1903, under the auspices of State and County Association.

10:00 Our greatest need in Sunday school work.—Rev. T. A. Conway.  
10:20 Round table.—The primary work. Music.  
10:40 The value of early training.—J. W. Blue.  
10:55 Lesson preparation.—Rev. T. C. Gebauer.  
11:20 What can we do?—Rev. J. W. Flynn. Music.  
11:40 Reports.

1. District Secretaries.  
2. County Secretary.  
3. County Treasurer.  
11:50 Offering for state and county work  
11:55 Appointment of committees.  
NOON INTERMISSION.

1:00 Song and praise service.—Rev. W. T. Oakley.  
1:10 Round, table, Sunday school management.—Rev. J. F. Price.  
1:35 Five minutes please for some advanced methods.

1. The Home Department.  
2. The Normal Class.  
Rev. A. J. Thompson.  
3. Grading.—T. C. Gebauer.  
4. Decision Day.—Rev. Joiner.  
5. Observance of Sunday school week.—R. M. Franks.

2:00 Questions asked and answered. Music.  
2:15 Heart power.—Prof. Chas. Evans.  
2:35 Ten minutes talk on "the Sunday school Four-in-Hand."

1. The parents.—Rev. Bigham.  
2. The pastor.—T. C. Gebauer.  
3. The superintendent.—A. A. Deboe.  
4. The teacher.—Rev. Henry.  
3:15 Round table, or the Sunday school "Four-in-Hand."—Rev. Gebauer. Music.

3:50 Reports and unfinished business.  
4:00 Adjournment.

It will be observed that the above is a splendid program. The executive committee has been untiring in its efforts to make the coming convention the best ever held in the county. This is a rare opportunity to hear such an able man as our State Field Worker, Rev. T. C. Gebauer.

Crooked creek has kindly invited the convention and will be unstinted in her efforts and hospitality to provide for it, but Crooked creek is not expected to feed the large crowd we hope to see at the convention, so everybody bring well filled baskets.

Every Sunday school in the county is expected to be represented, either by class or regular elected delegates. The superintendents are requested to send the report of their school and contribution to the State Association and to their district secretary at once. If any superintendent has not received a statistical blank, bring your apportionment

and report to the convention. A cordial invitation is extended to the public. Come and let us spend a pleasant and profitable day for the Lord in Sunday school work.

R. M. Franks, Co. Pres.  
B. Frank Jacobs, Sec'y.

## A CARD.

With gratitude I shall ever remember the manifestations of sympathy and many acts of kindness shown me by the president and managers of the Wilson Mining Company, also Dr. J. O. Dixon, Mrs. Gill, Mr. Joe Crayne and the many other friends who kindly remembered me in my recent illness.  
Thos. H. Farmer.

## Real Estate

### BARGAINS!

We have a small farm for sale near Salem, Ky., on the Marion-Salem road, suitable for a man with small family, who wants a desirable home, containing 21 1/2 acres, good log house, frame stable, cistern, a splendid young orchard in full bearing. This place is in the center of the great mineral belt, and has a mineral vein running through it with no leases on options on it; near good school and church, and in one of the best neighborhoods in the county. One-third of farm in creek bottom. Price \$300. For particulars call on T. A. Harpending, 2 miles east of Salem, or on J. C. Bourland, Marion, Ky.

A desirable home in East Marion, together with 14 acres of ground that can be sold as building lots. Price reasonable. A splendid investment. For particulars call on or address J. C. Bourland, Marion, Ky.

## LET LIGHT INTO THE HOUSE

Better to Have Wall Paper Fade Than Your Children.

Most housekeepers years after artistic home furnishing, and few can resist the temptation to shroud the windows in heavy tapestried hangings and to draw down the shades in order to carefully exclude any beams of sunshine which might have the audacity to peep in. Oh, the placid egotism of finite intellect!

Subdued light is essential to artistic effect in your handsomely furnished parlor, is it, madam? We must assume, then, that art had little to do with the creation and that a sad offense against good taste was committed in that time ago very, very long ago when, the beautifying of this poor old world being all complete, "there was light."

Do the trees and the grass and the flowers ever suffer in appearance from being viewed in the strong radiance of sunshine? It is the false complexion that blooms best in shadow. If your rooms will not bear the light, it is the fault of the furnishing. Choose the better part. If need be, banish those dust catching canopies, those delicate and perhaps slightly soiled upholstery, those tulle tables and gilt chairs, too ornate for the common daylight.

And yet, again, if you dared put up your shades those bright, intrusive rays would spoil the carpet, would they? Don't have carpet, then; don't have rugs; don't have hand painted cushions; don't have silk tasseled draperies; don't have anything inimical to the free admittance of the blessed sunshine, which disinfects and beautifies and makes healthful whatever it is permitted to shine upon. It is better to see the roses on your wall paper fade than those on the cheeks of your children.

It is a mistake to suppose that the beautiful house is the gloomy one, where the guest takes a header, as it were, into the parlor, trusting that luck will help him to a chair, and where people engaged in conversation peer at each other out of dusky corners. Let in the light, with its accompanying cheer and gladness.—Exchange.

## Folding Workbag.

Here is an invaluable little comfort for the home, and it is easily made. It is a folding workbag, the frame of which may be made of either straight or curved strips of wood, with a pivot

# LOCAL NEWS.

Gossipy Letters From all Sections of the County.

## MATTOON.

As we have been absent from the columns of the Press for several issues we will come again.

The farmers finished delivering their tobacco last week; quite late but they had to make room for another crop.

Tom Harmon, the section foreman at Repton, has about finished grading up his section.

Uncle Wm. Asher, of Weston, was here Friday.

J. R. Summerville and family visited in Marion Saturday.

Aunt Elizabeth Burton visited her daughter, Mrs. Cora Roberts, a few days ago.

Jim Sullivan has sold his interest in the crop at home and will work for Dan Travis this summer.

Mr. Givens, of Providence, was here last week trying to secure options on some of our coal land.

John Brown, who returned from Missouri a few weeks ago, is now working for Gus Summerville.

Uncle Frank Summerville is experimenting this spring with alfalfa. He says he believes it will prove to be the very thing our farmers and stock raisers are looking for.

Jim Franklin was in Blackford Saturday.

Will McChesney, of Shady Grove, was through here a few days ago.

D. J. Travis and family attended church at Sugar Grove Sunday.

J. N. Roberts was at Iron Hill Monday.

Dr. Enoch Heath, a native of this immediate section, but for 25 or 30 years a native of Tennessee, visited his brother Robert (Uncle Bob) May 15th, their birthdays, ages 71 and 88 years.

Query: Is there an older native, man or woman, in Crittenden county, than Uncle Bob?

Miss Lily Doss visited her sister, Mrs. Bart Summerville, the first of the week.

Miss Estell Gilbert is on a visit to her relative Miss Ida Duvall.

We don't know the attraction, but Frank Summerville, Jr., and Marshall Gilbert are frequent visitors to Marion.

Clyde Wordy, who has been working in Mr. Gilbert's tobacco factory, is laid up with chills.

Uncle Bob Heath is spending a few days with his niece, Mrs. Bell Summerville, and cousin, J. M. Gilbert.

J. R. Summerville has a No. 1 good milk cow for sale.

## WOOL WANTED.

Highest cash prices paid.
