## 8000 TONS FIRE CLAY.

Great Tonnage of Ores Being Shipped From Marion—Railroad Increases Its Trackage—The New Producers Nearly Ready to Ship—A Booming Condition all Along The Line.

### MARVELOUS PROGRESS BEING MADE!

The long string of wagons loaded with fire clay from the Stevens farm near the bustling city of Salem, is the forerunner of active commercial mining in that vicinity. The Kewanee Fire Clay company were prospecting for either zinc, lead or fluor spar, on the Stevens farm when the long tunnel they were driving ran into this fire clay bonanza.

From Supt. Bush, who has charge of the work, the PRESS learns that this clay lies in a bluff into which a tunnel was driven a distance of 235 feet. The opening is 7 feet high and some 6 feet wide and well timbered. From this tunnel rooms are cut out, leaving pillars wherever practicable, for the support of the roof. The fire clay seems to lie in a fissure, Mr. Bush says, fully 70 feet wide. Fifty teams are desired by the company to haul this material to the cars at Marion for shipment to the works at Kewanee. The quality of the clay, it seems, is much superior to that generally obtained. Six to eight thousand tons are wanted for the season's supply, which means two or three car loads per day for several months.

In the process of brick making the clay is finely ground by ball pulverizers and properly tempered before going into the kiln. These bricks are sold as high as eighty dollars per thousand.

The shipments of the various products originating in this district by car loads is assuming very large proportions. The Illinois Central railroad is already preparing to increase the trackage in the depot yard at Marion. An average of five cars per day, meaning 150 to 200 tons of zinc, fluor spar, fire clay, tobacco, oak staves, etc., is the ordinary traffic. The opening of three more carbonate of zinc properties, with the addition of a large increase in the delivery of fire clay, the starting up of the Columbia concentrating works, and the many smaller mining plants will congest railroad facilities at this city to a standstill, without immediate steps are taken to increase the trackage for cars.

It is very gratifying to note the almost unanimous expression of visitors to this city in regard to the remarkable progress that Marion is making. As the PRESS has had occasion to predict many times during the past three years, this city is destined to become one of the largest producing and shipping points of the Southern country. No doubt the Illinois Central railroad officials, will be keen enough to size up the situation and build taps to the mines that are producing a tonnage great enough for any railroad to envy. The I. C. is on the ground and should be ready to at once take advantage of the situation rather than allow a foreign road to enter such a revenue producing section as this is and will be.

Salem is now showing what she can do in the matter of carload freights. There are two or more railroads across the river that with half a welcome would commence track laying in 60 days toward that territory.

Every house in Marion is occupied, every store rented, vacant rooms are at a premium and the town full of people. Property is advancing on every side railroad shipments of our ores are quadrupled, and Marion is simply booming. If a man can and does not make an investment in Marion he is not wise. The mining development on the Reed land the past week has been very satisfactory. A strong vein of mineral was found at 19 feet depth, and sinking is progressing on the two other veins that pass through this land. The 50x150 building lots and the \$1,000 in mining stock are now selling at \$75 for both, is an investment in Marion that can not fail to prove immensely profitable to the purchaser.

Some misunderstanding among a portion of the stockholders of the Senator mine near Princeton has again caused a cessation of work. It seems that no special provision was made for mining expenses, the treasurer being kept supplied with funds by a few of the stockholders, to whom such contributions finally became burdensome. It is always a bad feature in incorporating this class of industries to issue all of the stock regardless of future mining needs, and it is especially unfortunate in this case, as the property is of too great an ore value to remain idle for any length of time.

The original work at the Holly mine was evidently intended for surface mining only. The openings some two feet wide were perhaps ample enough for prehistoric days, but in these days of deep mining it is somewhat like putting a number eight foot into a number six shoe to attempt any large operations in the openings heretofore made. The Mineral Point Zinc company will enlarge the opening several feet by cutting down one wall and will then be able to commence regular mining work from the 70 foot level.

The shipments of the Kentucky Fluor Spar company are more than keeping pace with the predictions made by the officials at their last annual meeting. The increased demand from all over the country and the prompt filling of orders is strong evidence that this company is in an eminently satisfactory condition in every possible way.

It was stated in last week's PRESS that a full account would be given in this issue regarding the new zinc district lying East of the railroad. It has been found impossible to do this in time, and we are obliged to defer the report to a later date.

Reports from Sturgis indicate that the Hillman Iron Coal company will abandon all of their coal interests in that section. The machinery will be moved elsewhere. It is stated that the Bell coal, which they have been mining does not make a satisfactory coke for the production of a high grade of iron. The Hillman company have probably expended \$25,000 in the pumping, opening and testing this coal for coking purposes.

Some ten thousand dollars in par value of the Marion Mineral company's stock was sold last week to Hopkinsville parties, the price not being made public, although it is understood that it was very near fifty per cent. The stock originally cost the seller six per cent, hardly twelve months ago. This indicates the kind of a mining country and the kind of mining management we have in this section.

The Myers farm at Mexico, in this county, being the same land leased to Henry and Cruse some years ago and by them conveyed to Jameson and Kevil, will be capitalized for \$1,000,000 by Hopkinsville parties. Their intentions, it is understood, is to commence mining on the known vein of barite, fluor spar and galena that outcrops near the Myers residence, and to thoroughly exploit it.

The slope at Bells Mines, operated by the Hillman company has been abandoned. A new and larger entry will be made some considerable distance from this old opening, and a much greater output of this celebrated coal will be made. It seems that in and around the present slope the coal was exhausted for a considerable acreage which was unknown to the present owners. A new shaft will be sunk on virgin ground.

Some especially good carbonate of zinc was shown us last week from the near vicinity of Salem. From the account given by the owner of the property the situation is ideal for a very large body of it. The carbonate is very close to a mica pendate dike, very similar to that of the Old Jim, except in the color of the dike rock, which in this instance is a reddish brown, with a golden colored mica.

The 50 ton daily capacity concentrating works at the Columbia mine will be started up nearly on contract time. Estimates under the direction of Mr. Johnson, of Paris, Tennessee, as to the number of tons of high grade zinc and ores already available, were made last week, as well as many of the minor details settled, and the production of this big mine will soon assert itself.

The PRESS especially requests Mr. F. B. Harwood, Assistant General Freight Agent of the Illinois Central railroad to furnish it with fluor spar tariffs from both the Kentucky and Illinois Districts. They will not be publicly exhibited but they will be privately compared and comments will be made through the United States mail.

The Marion Ice company's drill penetrated a vein of coal at 70 feet depth on Saturday. Water was obtained at about 50 feet. Should a supply of ammonia be secured in the immediate vicinity of the coal and water, as is probable, the company can furnish ice cheaper than Jack Frost can make it. What a country this is.

The boiler furnishing steam for the 8-inch pump in the Lucile mining shaft is not large enough for deep mining, and a cessation of work is necessary. The pump did splendidly down to about 50 feet depth, when the steam pressure was not great enough to lift the water in so large a cylinder from so great a depth. A larger boiler has been ordered.

From Henderson we learn that the splendid strike of zinc made by David Clark on behalf of his associates has caused the greatest interest to be manifested in that city over our unparalleled mining resources. The other gentlemen of Henderson can not afford to simply talk about it. There are other properties and other real estate to get into.

### GOV. BECKHAM,

Tells of Steps He Has Taken in the Breathitt Trouble.

### HIS AUTHORITY LIMITED.

Gov. Beckham has given out a lengthy statement regarding the steps he has taken toward the suppression of lawlessness in Breathitt county. He explains that his powers are limited by the Constitution and the statutes, but says he has devoted considerable time and thought to the situation, and has left undone nothing that would tend to the restoration of law and order. He says he has no right to declare martial law, or to remove Judges. While expressing confidence in Judge Redwine, he says he urged him to vacate the bench in the Jett White trial and favored the removal of the case to another county. In response to criticisms from Republican papers at home and abroad, the Governor draws a contrast between their attitude at the time of Governor Goebel's assassination and at present, and asserts that Democratic papers are unanimous in condemning the killing of Marion, and are not raising subscriptions to defend his assassin. He compares his pardon record with that of Gov. Bradley, and reminds his critics of the disorders in Clay county during Gov. Bradley's term. He states that he has been careful in issuing pardons, and that while he may have made a few mistakes he is willing to stand by the record.

### SECURED BY THE I. C.

It is reported that the Illinois Central has purchased the Tennessee Central, which has been completed from Nashville, East, to the Cincinnati Southern at Harrison, and a line from Nashville to the Illinois Central at Hopkinsville, Ky., is now under construction. This purchase gives the Illinois Central an outlet to the southeast, through the Southern railway.

### WASP STING PROVES FATAL.

The wife of Robt A. Gibson, residing near Tilden, Webster county, died of blood poisoning, caused in a most peculiar manner. Mrs. Gibson was stung on the nose two weeks ago by a wasp. In a very short time her face was very badly swollen from the effects of the sting.

A physician was called and everything possible done to relieve her. Blood poisoning set in and she gradually grew worse until her death. She was fifty-six years of age and the wife of one of the most prominent men of the county.

## MARION TO THE FRONT.

Progress Made During the Past Year Simply Wonderful—Prices Jumping on Real Estate—Enthusiasm Over Our Mining Resources Continually Increasing.

### OPPORTUNITIES ARE RIGHT NOW!

A party of Henderson gentlemen have uncovered a great big body of carbonate of zinc in that wonderful land of mineral veins, Crittenden county, near Marion.

A year's output of this ore means more money to each of them than twenty years of active business life would produce.

If within reach, you might ask David Clark, of Clark & Clark, Exporters of Tobacco; Charles D. Lam, Cashier of Henderson National Bank, or Julius Baldauf, Druggist, all of Henderson, about the immense ore values in this section.

Two gentlemen, Mr. Bement, of Evansville, Ind., and Morris Schwab of Marion, Ky., have also opened a property of the same character below Marion in Livingston county, from which great wads of money will flow back to their bank account. They are both interested in the Ohio Valley Produce Company.

Messrs. Bass and Cooper, of Hopkinsville, Ky., are also largely interested in a strong carbonate property a few miles west of Marion.

Messrs. Ross and Stewart Givens, one the banker and the other the merchant of Providence, Ky., are also uncovering a carbonate vein in the immediate vicinity of the Hopkinsville parties property.

Of course all this means much, very much to these gentlemen.

Everybody knows what Blue & Nunn have done and are doing in their magnificent carbonate of zinc mine at Marion. The last two years work have brought many, very many thousands of dollars to them, and the grass roots still show close to the greatest depth attained and their grandchildren' children will be receiving the same kind of money for the same kind of ore generations hence.

It is a wonderland indeed.

Prospecting for this same carbonate of zinc is being actively pushed on the Reed land in Marion with every showing of success. This ground being so near the city of Marion has been platted into 50x150 foot city building lots, with 40 foot streets in front and 15 foot alleys in the rear of each lot.

Three great veins of mineral are known to traverse the entire 123 acres and the work of mining has already commenced.

The mineral underneath is owned by the Reed Mining Company who also own 23 acres of surface for their ore mills and mining shafts.

There are 500 lots in this tract of land and each purchaser of a lot receives his pro rata of the entire mining stock. There are 500 certificates of 1000 shares each in this mining company and each lot owner receives one certificate of 1000 shares the par value being \$1000.

The purchaser of one city lot receives a warrant deed for the land and \$1000 in nonassessable stock which in the natural order of events here in Marion may be worth par within a few months, or possibly within a few weeks, simply owing to the success attained in uncovering ore in this most promising property on which the miners are now working.

It means that the man with a few dollars has just the same opportunities for making the same big percentages that the man with many dollars has.

It also means that your investment at the start is as safe as land ownership can make it. You own

absolutely the real estate you buy; the deed for the same being made direct to you, and the mining stock being in the usual form of mining stock certificates.

The city building lot near the growing city of Marion is worth today nearly the sum paid for both lot and stock, and it will advance not as fast as the stock of course, but it will always be worth in cash, more and more as the city grows month by month.

For those who desire to invest in a small way, it is, we believe, the safest, surest and probably the most profitable that has ever been offered.

The building lot and \$1000 in the stock of the mining company can now be had for \$75.

It is always of interest to the purchaser of real estate to know who his neighbors will be. We select from our sales book a few names of the citizens of Marion who have purchased city building lots and hold 1000 shares of the Reed mining stock with each lot. Many of these gentlemen hold more than one. In nearly every case they walked over the 123 acres of land, examined the outcroppings veins, became satisfied that as Marion became greater in population and wealth these lots would increase in value in the same proportion, and also became satisfied that with proper continued mining work these mining shares would advance in value to quite a tremendous extent. In other words they were satisfied that these lots were worth the price asked and that the speculative value of the shares might be very great in such a wonderfully productive mining section as lies around Marion, where a few hundred dollars has already brought returns of a great many thousand from the ore shipped.

Probably any one of the gentlemen named would reply to an inquiry regarding this property, its nearness to the city, and the value of mining property in the district generally.

### MISSIONARY BOAT,

The "Megiddo" Visits Smithland A Unique Steamer.

#### AN INTERESTING BAND OF PEOPLE

Several days ago says the Smithland Banner, Smithland was visited by the famous missionary steamer, "Megiddo," under the charge of Capt. Rev. L. T. Nichols, having on board 85 souls, all dedicated to mission work. The object of their missionary efforts, says one of the number, "is not the heathen Chinese scattered up and down among us, but their's is essentially a mission to professed Christians, to stir up church members to prepare for the coming of Jesus Christ back to the earth, which event they regard as near at hand, to provoke christian people to lives of greater sanctity and self denial, and by study of the Word of God, to become familiar with its true teaching."

Thirty-four families have banded themselves together to carry on this work. Capt. L. T. Nichols, the originator and soul of the whole movement, thought a steam boat would be the cheapest and best way of accomplishing the end in view, and drafted and planned and superintended the building of the boat from keel to pilot house. The boat does credit to its builder. It is certainly a wonder of design and execution. We were privileged to go through and found it to be more remarkably fitted within than any outside view would suggest the faintest idea of, and totally unlike any other steamboat in every particular. On the main deck right midway of the boat, is the chapel, a light, airy, pleasant room, 16x35, capable of seating 150 people. When not being used for service this is the parlor and sitting room. Adorning its walls are pictures representing Bible objects and scriptural mottoes.

On the other side of the meeting room corridors ran the entire length of the boat, with ante-rooms 9x12 from one end to the other. These staterooms are a marvel,

furnished just like a parlor at home—lace curtains, lounge, easy chairs, pictures on Bible subjects, and scriptural mottoes. Most of the rooms have folding beds that closed up during the day add considerably to the available space. All the rooms are carpeted alike, and same as the corridors and chapel, but there is quite a pleasing variation in the fitting up of the rooms, and the way every corner is utilized for cupboards, book cases, etc., is certainly an object lesson in economizing space. Many of the rooms contain a miniature copy of a large chart which hangs in the chapel and gives a complete chronology of the times and dates mentioned in the Bible. The "Christian Brethren"—the name by which the mission people are known—understanding the law of Moses as a type or shadow, hold that six days, each of a thousand years duration, will usher in the glorious Sabbath rest—the millennium—and that the 6,000 years from the creation of Adam will be up about 1941, at which time they are fully satisfied that the Kingdom of God will be fully set up on this earth.

The members comprising this remarkable boat crew are the first fruits of this new order of things, and indeed to see thirty-four families living under one roof in harmony and good will, thirty women cooking on one large range, without a cross word or an angry look, all of which they aver is true, is little short of marvelous. This cooking range and brick oven combined is a unique affair. It is the invention of the boat's Captain; it bakes, we are informed, the most delightful bread—Graham bread. The mission people never eat any white bread or pork or lard, and but little meat. They drink no tea or coffee, and as tobacco and liquor they look upon them with abhorrence.

On the barge, towed alongside wherever they go, is a fine large band wagon, capable of seating twenty musicians, with organ and all necessary accessories, a carpenter shop, blacksmith and shoemaker shop, and a striking array of cupboards, one whole row perpendicular to the boat, and for each family bearing their own name. Space forbids us speaking in detail of many other peculiar features of this remarkable boat. The children's school room, where daily the children of those living aboard are taught, says one of the Brethren Bible truths and reading, writing, and arithmetic; never to get angry to be obedient to parents and those in authority, to live in peace and love and harmony with one another and with all.

The Captain of the boat and leader and minister of the mission, Rev. L. T. Nichols, is a preacher of considerable fame. It is said that he has traveled extensively, both in America and Europe, and has been the means of doing an immense amount of good among his fellow men.

While the boat was here Rev. Nichols preached several sermons at the court house and was heard by hundreds of people.

#### HARDESTY.

Wheat has been harvested and is a poor crop.

Oats look well. After an illness of about thirty years Mrs. Sallie Raglin, a well known citizen of this neighborhood, passed away a few days ago. She was buried at the old Hardin graveyard.

Hood Kennedy of Lola is mining on Della Crawford's place this week.

The grand barbecue at this place Saturday was a grand success; no one went away hungry or crippled.

We are glad to state that one new span to the iron bridge at this place was erected last week by the Bracket Bridge Company, of Cincinnati.

We raise our hat to the court for an iron bridge instead of another wooden one.

Misses Jessie and Ora Hardin, with their brother-in-law, L. Hardesty and Courtney May, of Livingston county, went to Crittenden Springs Sunday, and on their return home Luther's horse ran off and bruised Miss Jessie's face and left lower limb; Luther's face and left hand were bruised, but no serious wounds were inflicted. The buggy was completely torn up.

We are glad to say that Mr. Si. Franklin, of Levas, has rented the Staten house and is at this writing putting up a nice stock of new groceries.

Brother Nation filled his appointment Sunday at the Barnett school house.

Some of the boys still have the army fever.

#### HEBRON.

Not hearing anything from this place for some time we think the old correspondent must be "gone dead," so I will write some.

Rain is needed very badly in this part of the county.

Miss Harvie Ainsworth returned Monday from Irma, where she had been visiting her uncle.

Cornelius Wiggins has a new way of planting corn, "something like this": with a double row corn planter, a whole field without any corn in it.

Walter Griffith was after me the other day to buy his buggy; wonder what is the matter? If I knew it was the buggy that had been attracting the attention of the young Miss he has been handling around I would buy it, but I am afraid he would get another.

Health is very good in this community.

Free ferrriage to the Cave every Saturday.

There is to be a big ice cream supper Saturday night, given by Thomas & Herrin.

Mr. Harmon Heath is out looking for a farm.

I don't know what we will do now, as Henry Williams has gotten his new buggy torn up. The "Nation" seems to be turning perfectly "Green."

#### IRMA.

Crops looking very well in this section.

Deller Watson, of Lola, is a frequent visitor in this vicinity.

Luther Hardesty's horse ran away a few Sundays ago, tore up his buggy and badly injured his sister-in-law; he was very badly hurt. They were coming from the Crittenden springs.

The singing at Lucy Hardin's on Saturday night was largely attended.

Ed Large, who returned home some time ago on a visit, has left again for his old post in the army. Every one regretted his departure.

RESOLUTIONS OF RESPECT.—\$1.00

The Iowa Democratic State convention had something of the spirit of compromise about it. The candidate is said to be an ardent friend of Mr. Bryan, while the platform eschews any mention of the question upon which Democrats differ.

While the "bunco" men escape the law, they will not escape the just condemnation of all good men. It is unfortunate for public morals that there could not be a public arraignment. When such things escape, it encourages crime, makes bold those who would get money by unfair or foul methods.

A decision of the Supreme court of Tennessee upholds the local option laws of that State, and these laws, backed by a vigorous public sentiment against the sale of liquor, is demonstrating that prohibition can prohibit. The sale of liquor is shut out of that State, except in a few of the large cities.

When the jail is paid for, the PRESS is going to urge the building of a new court house. The important court records of sixteen thousand people in a big county like Crittenden, should be in a more secure building. A stray match and mouse could effectually wipe out the land titles of the county, to say nothing of the hundreds of other valuable papers.

Breathitt county has not only put law and order to shame, but it has given the State a bad name abroad. The only possible method of even a partial reparation, is the swift, and certain, and severe punishment of those responsible for the high crimes. A dallying policy, with a hesitating doubt as to the result of the effort, will not do. Let the officials go squarely to the mark, with an effort that means nothing less than the hanging of every man that has shed innocent blood, irrespective of political or other surroundings.

Gov. Beckham, goaded by adverse criticism, elicited by the state of affairs in Breathitt county, issued an address in which he compares his own record in office with that of his predecessor in so far as their official acts may have influenced, directly or indirectly, the lamentable condition that has

existed in some of the mountain counties for years. The governor shows that his exercise of the pardoning power has been no more extensive than that of his predecessor, indeed not so great, and that behind each pardon was strong reasons for the exercise of executive clemency, and in most of the cases these reasons were set out in petitions signed by the trial juries, Judge and commonwealth's attorney. He shows that martial law, the demand of a clasp of impulsive, unthinking individuals, is unconstitutional and clearly beyond his power. He assures the public that he will "rid Breathitt of this reign of lawlessness, if it takes up the entire time of my term of office and all the money in the State treasury to do it." Gov. Beckham is not a man that arrives at conclusions in undue haste, nor forgets resolutions once made. He is honestly and earnestly bending his energies, and all the power the constitution gives him to end the reign of terror by the punishment of the terrorizers. Good results may confidently be expected from his efforts.

### NO INDICTMENTS.

According to authentic reports the grand jury made a thorough investigation of the local bunco "green goods" men, whose peculiar manner of doing business has attracted so much attention, but there being no law to fit the offense, no indictments were found. A large number of witnesses were before the jury, and the story as told in the PRESS was substantiated beyond the shadow of a doubt. It is to be hoped that the investigation, and the effort to catalogue the business with these against which there is law, will effectually stop this transgression upon public morals, and put an end to this gross and violent infraction of the rules of common old fashion honesty and decent business methods.

### REAL ESTATE IN MARION.

There is nothing more indicative of the substantial growth of Marion than the increased value of her real estate. Just a few years ago all that portion of the town East of the railroad was field and woodland, over which the gunner with his dog revelled in the delights of the hunt, and only the plow, and the seed pushing its way to sunlight broke the soil. Now, it is one of the beautiful residential sections of the town, containing many of our cozy homes, increased in value 400 to 500 per cent. But yesterday, a landowner on the south side of the little city,

moved a colored village from a piece of farm land, three-quarters of a mile away to the southern outskirts, because he wanted the village site for growing hay and corn, and the south suburbs were too far out, he thought, ever to be valuable as town lots. Now, neat and substantial residences have sprung up along the streets until they have reached the colored village, and there is a growing disposition to buy the "cabins" in order to get the lots—the lots having increased in value from 300 to 500 per cent.

Out College and Walker streets south, lots that sold for \$125 to \$150 but a short time ago, would go now like hot cakes at two and three times that amount. Northeast of town "Boxville" was founded far beyond the jurisdiction of Marion, and the lots sold at from \$50 to \$75. Now, lots beyond "Boxville" sell for from two to four times that amount, and Boxville has her electric lights.

Other sections of the town kept the step upward fairly well, and the business blocks were changed from wooden to brick structures.

And this was taking place before the mining enterprises came in sight. This growth germinated and waxed strong in and upon the fact that Marion was a splendid business center, with fine schools, live churches, with their healthful moral atmosphere, and a sociable, cultivated citizenship. No factories, no ore mills, jigs nor smelters were dreamed of.

If this splendid increase in real estate values occurred "in in the dry" what may we expect "in the green?" If Marion real estate increased in value several hundred per cent during the three years prior to the discovery of the rich ore bodies surrounding us, what will the increase be during the next five years? Let those who are seeking a safe investment for their money look the situation squarely in the face. The opportunity for safe and remunerative investments is at our door, in the shape of improved and unimproved real estate in and around Marion.

### TO VISIT BOSTON.

A party of Marion people will leave Friday to attend the National Educational Association at Boston. They will be absent two weeks and will visit New York, Philadelphia, Washington, and other Eastern cities. The following expect to take the trip: Mr. and Mrs. Charles Evans, Misses Kittie Moore Fannie Gray, Lena Woods, Rosa Kevill and Mrs. T. H. Cochran.

## SISCO TRIAL

Continued—Grand Jury Returns Fourteen Indictments.

### COURT ADJOURNS NEXT WEEK

The grand jury completed its work and adjourned Saturday. Fourteen indictments were returned.

The trial of George M. Sisco charged with the murder of Bertha Williamson was called for trial Monday. The case was continued until the November term of court by the Commonwealth on account of the absence of important commonwealth witnesses.

The following cases were disposed of the latter part of the week: Charles Watson, carrying concealed deadly weapons, fined \$25 and ten days in jail.

Marshal McKee and others, disturbing religious worship, McKee, Denny Brantley and John Riley Travis plead guilty and were fined \$25 each.

Jno. Winders, carrying concealed deadly weapons, jury trial and acquitted on preemptory instruction.

Lacy Miller, carrying concealed deadly weapons, fined \$25 and given ten days in jail.

Dr. Ben Franklin, empericism, hung jury.

The trial of Fred Lemon charged with violating the local option law by selling whisky at Shady Grove, resulted in the acquittal of the defendant on preemptory instructions. The court held that the local option law governing Piney precinct did not govern Shady Grove. The commonwealth takes an appeal in the case to the court of appeals.

The commonwealth docket was finished Monday and the work on the civil docket began yesterday. Court will adjourn next week.

The Sparkman-Tyner damage suit, which has been on the civil docket for several years, was again continued, on the account of the absence of witnesses for the plaintiff.

### HARD—OLIVER.

Mr. Lawrence E. Hard and Miss Nona B. Oliver were united in marriage last week at the bride's home near Frances.

Mr. Hard is a prominent young gentleman of the Dyousburg community. He was employed as salesman with Taylor & Cannon in this city, for several months. The bride is the pretty daughter of Mr. W. F. Oliver, of Frances.

## SENATOR DEBOE'S GIFT

To the School Library—Other Additions.

Senator Deboe has presented to the school library the "History of the War of the Rebellion," composed of 128 finely bound volumes. This is one of the most complete and comprehensive historical works ever published and will prove a valuable addition to the school's enormous library. Senator Deboe is a warm friend of the school and has frequently given substantial proof of his interest in the institution.

Prof. Evans has recently purchased for the library 105 volumes made up as follows:

Makers of History, 32 volumes.  
Standard Poets, 32  
Shakespeare, 8  
Tom Reed's Modern Eloquence 10 volumes.

Miss Mulback's Historical Fiction, 18 volumes.

History of the Nation, 5 volumes. With these additions the number of volumes in the library will reach in the neighborhood of 1500.

## THE INSTITUTE

Will Be Held During the Week Beginning Aug. 17.

The Crittenden County Teacher's Institute will be held at Marion during the week beginning August 17th. All persons who have certificates or who expect to be examined for certificates to teach are expected to attend.

JNO. B. PARIS,  
Superintendent.

## SPECIAL GRAND JURY

Impaneled Tuesday by Judge Gordon.

Tuesday Mr. Lewis Hance, a fisherman who lives in a shanty boat, came to town and reported to the court that he had been forcibly taken, without his consent and against his will from his boat, which was anchored to the Kentucky shore, and carried to Cave-in-Rock, Illinois, and fined by the Illinois officers.

Kentucky has a special statute against offenses of this kind, and the punishment is confinement in the state prison. The jury was organized Tuesday and subpoenas issued for the witnesses.

## MANY CONVERSIONS,

The Revival Awakens Great Interest—Large Congregations.

The revival meeting is still in progress. The big tent had to be returned to Louisville this week, and since Monday evening the services have been held in the opera house. The interest in the meeting has been constantly growing, and there has been some fifteen or twenty conversions. Every service is largely attended, and in the evening the seating capacity is severely tested.

Dr. Gardner will practice his profession at Catheyville. He was located at Sheridan for some time and desires to thank the people of that locality for past favors. Dr. Gardner is a splendid young man and will doubtless make a successful physician.

### DIED FROM HIS INJURIES.

Thomas Preston, residing near Tolu, died Thursday. He was thrown from a mule several weeks ago, and sustained injuries which resulted in his death.

### A BRIDE AT THIRTEEN.

County Clerk Weldon issued license Monday for the marriage of L. Z. Watson and Miss Sallie May Mitchell, of the county. The bride is just thirteen years of age while the groom has seen twenty-one summers.

### Seven First Class Certificates.

Seven of the fourteen teachers who were examined in this city June 19th and 20th, received first-class certificates. They were Miss Verna Casner, Mrs. Jos. H. Walker, Messrs. Wesley Clift, Curtis, Dye, J. R. Wells, Misses Mary Moore and Maude Gill.

### COUNTERFEIT DIMES.

Counterfeit dimes are making their appearance in this city. They are evidently made of aluminum and quicksilver and the engraving is almost perfect. A close examination of the coins will reveal their worthlessness. It is reported that several towns in this section are being flooded with these spurious coins.

### TROUBLE IN POLICE COURT.

Saturday morning, Mr. Sherman Franklin, bar tender at Haury's saloon, found himself in police court charged with selling whisky to a minor. During the progress of the trial, it is alleged that the city attorney used Franklin pretty roughly in his speech. Franklin resented and but for the interception of friends, trouble would have followed. Franklin was acquitted.

### Disturbed Religious Worship.

Wednesday afternoon one of the proprietors of the shooting gallery in operation in this city, was arraigned in police court on a charge of disturbing religious worship. He was fined \$50 and costs. On the evening before the minister in his sermon at the tent meeting denounced the shooting gallery as an evil, the defendant who was standing at the entrance to the tent, heard the remarks, and it was alleged, used abusive language.

### FACULTY OF CITY SCHOOLS.

### BIG ENTERTAINMENT.

To be Held at the Opera House

Thursday, July 23d.

### PREPARATIONS ARE BEING MADE FOR A SPLENDID HOME TALENT ENTERTAINMENT TO BE GIVEN AT THE OPERA HOUSE IN THIS CITY ON THURSDAY EVENING, JULY 23d.

A program of the highest merit will be offered. "Peggy Moore's Famous Minstrel Stars," thirty in number, will present their elaborate minstrel first part, "The North and South United." The Kemp and Woodall family bands will be among the attractions. Superb shadow pantomimes and brilliant tableaux will be presented. Mrs. Jarley, with her famous wax works will be there and a weird electrical production, "The Palace of Horrors," will be a prominent feature. Rehearsals are in progress. The management will spare no expense in making the affair a great success. Watch for further announcements.

### DISTILLERY COMPANY

Seems to Have Gone to Pieces.

J. B. Walker Out of Town.

Some months ago Mr. J. B. Walker came from Louisville to Marion and leased the distillery at this place, and incorporated under the name of "Old Hickory Distilling Co." He left here about two weeks ago, and it is developing that his business affairs are in rather a disintegrating state. According to authentic reports, the distillery owes the government about \$1200. It fell short of its assessed capacity to that extent, during the time it ran, and the owners of the distillery, Messrs. J. H. Orme and F. E. Robertson, will be the sufferers on this account. Mr. Orme is also in receipt of letters from out-of-town people claiming that they had purchased and paid for five barrels of Old Hickory, which they have never received, and they are anxious to locate it, but it seems that more has been sold than was made. Walker also owed the Milling company \$245 for meal, etc.

### BORN IN CRITTENDEN.

Mrs. Bettie Hudson, aged 34, died today at 618 North Fourth street. The remains will be buried Sunday morning at 9 o'clock at Oak Grove. Mrs. Hudson was born in Crittenden county, but has lived here for some time.—Paducah News-Democrat.

Pierce, Corley & James are prepared to furnish on short notice all kinds of building material. Leave your order with J. P. Pierce.

### PICTURE GALLERY AT KELSEY.

We will open a picture gallery at Kelsey, Monday July 6th, and will remain two weeks. Will do first class work. Our prices are very reasonable, from 50cts. up.

Kington and Phillips.

Instead of paying \$3.50 for a \$3.00 shoe come in and buy a pair of the "Clifton" for \$3. You get as much service, more style, more comfort and be 50c ahead. CLIFTONS.

If you buy a pair of Shoes, Suit of Clothes or Hat before seeing our line of these goods you positively do not consider your own interest. It costs you nothing to see and price our goods and if we don't show you that we are saying you money we won't expect to sell you. CLIFTONS.

### CLIFTON-COOK.

Prominent Marion People Wed At Paducah.

At Paducah Tuesday morning the marriage of Mr. Thomas Clifton and Miss Pearl Cook was solemnized in the presence of a few intimate friends and relatives. Mr. and Mrs. Clifton left immediately for Dawson; after spending a few days there they will return to this city to reside.

The bride is the daughter of Mr. and Mrs. Lewis Cook, of Paducah. For several years she has been a member of the Marion school faculty, and is high in the favor of the people of this city; she has always been prominent in social affairs, and is a young lady of noble character.

Mr. Clifton is well and favorably known throughout the county. He is one of Marion's most prominent business men.

### CRITTENDEN SPRINGS.

The Opening Ball and Some Things that Happened.

One hundred and three guests were registered on the evening of the event.

Mr. and Mrs. John W. Wilson led the gay crowd in the grand march.

It was a charming scene; tall, soldierly looking John Wilson, with his beautiful bride, followed by a small army of handsomely costumed ladies attended by their gallant escorts.

A good many of the guests were from Illinois and Indiana. They appeared to admire Kentuckians and the Kentucky way of doing things.

An innovation was the service of a la carte lunch at 11 o'clock in the small ball room. It was appreciated by the dancers.

The music was by the Senegambian band of Smithland, who will remain during the hotel season.

The sulphur water had the same old flavor of matches, and there was the usual number of flirtation parties on the verandas.

The gentleman who was the belle of the ball last season, met with a singular accident, perhaps incident would be better. Some envious person stole part of his wearing apparel, a part that in cold weather is really necessary for comfort. It was at first thought he would have to return home in a barrel, but by skillful draping of lace curtains on the two curtain poles he was all right and looked fine. The thief, however, better not wear the pants to town.

Hats and bridles were also stolen and much malicious mischief was done. Of course there were a good many Northern people present and several from Henderson, but we do not at this time care to emphasize this fact, although it never happened before at any of the opening balls, but we do not remember of Northerners and Hendersoners ever being there in other years, when things were not "misplaced."

Everybody had a jolly good time and returned home as fresh as though they had played finch all night.

Thanks to Manager Kennedy.

### CHAPEL HILL.

Some few have out their clover hay, which is of most excellent quality.

J. Tilford Bigham and family, of Crayneville, were guests of T. M. Hill's family Saturday and Sunday and Sunday.

Miss Ruth Hill visited her grandma, Mrs. H. S. Hill, Saturday and Sunday.

Horace Williamson and wife visited Ambrose Wheeler of Lone Star.

Mrs. McGee, of Mexico, returned home Monday after an extended visit to her parents of this vicinity.

Quite a number of our Chapel Hill people attended church at Crayneville Sunday.

Eura Bigham and family were guests of Doc Cook's family, of Crayneville, Sunday.

## GENERAL NEWS NOTES.

Seventeen murderers are awaiting execution in the State of New York.

During the year ended May 31, there was donated to the founding of libraries in the United States the sum of \$10,306,400.

In Morgan county, near Caney, Mack Nickells and Gordon Wells were shot and killed by Dave Purcell over a game of cards.

The Kappa Alpha fraternity, South, will erect a \$10,000 memorial hall at Lexington, Va., to Gen Robert E. Lee.

The biggest shipment of coal in the history of the trade left Pittsburgh last week for the South. It amounted to 9,015,000 bushels.

Representative Pou, of North Carolina, declares that one of the demands of the Democratic party in the approaching presidential campaign, should be a rigid investigation of all Government departments.

The Ministers of Great Britain, Turkey, Holland, and France have left Serbia in anticipation of King Peter's arrival. In an interview at Vienna King Peter emphasized the difficulty of punishing the assassins, who have been pardoned by the National Assembly.

The President and the Attorney General have decided to press the prosecution against Edward W. McSweeney, former Assistant Commissioner of immigration at New York. He is accused of abstracting public documents and records at Ellis Island.

While trying to arrest Everett Beatty, a barber, at Olive Hill, Deputy Marshal Gus Hall was shot and killed by Beatty and Marshall Louis White then shot and killed Beatty. The Coroner's jury exonerated White.

The Kentucky Educational Association closed its annual meeting at Lexington last Thursday M. H. Bourne, of Owenton, was elected president, and Maysville was selected as the next place of meeting.

The public consistory, which many believe will be the last ceremonial of the kind under Pope Leo XIII., was held Thursday at Rome, when red hats were bestowed upon the Cardinals by the Pontiff. The Pope at times manifested extreme weakness.

The State Board of Equalization adjourned Saturday. The State's equalized assessment is \$621,939,964, a raise of \$5,657,381 over the local assessments. On this the State will collect in taxes \$3,109,699.82, of which Jefferson county will pay \$676,287.91. The State Board increased the local assessment in 39 counties.

Circuit Judge Osborne has announced that a special term of his court will be held at Cynthiana, beginning Monday, July 27, for the purpose of trying Curtis Jett and Tom White, for the murder of James B. Marcum. Adj. Gen. Murray released ten militiamen from service at Jackson, leaving about seventy-five soldiers on duty there.

Though it is stated that many of those who took part in the lynching of the negro, Geo. White, at Wilmington, Del., are known it is also believed that public sentiment so strongly approves of their deed that a conviction will be exceedingly difficult to secure even if steps are taken for their prosecution. Gov. Huns will probably confer with the Attorney General relative to a course of action.

New York's real estate assessments this year aggregate \$4,750,000,000, and the personal assessments \$678,000,000; a total of \$5,408,000,000.

J. C. Newhill, aged 34, and Miss Kittie Smith, aged 14 years, were married in Paducah last week. Smith is one of the youngest persons who ever secured a marriage license in McCracken county.

A resolution was reported at the committee meeting of the Colored National Emigration and Commercial Association favoring the chartering of ships to carry negro colonists to Liberia. A petition was adopted asking the Government for \$1,000,000 to forward this movement.

Gov. W. D. Jelks, of Alabama, when questioned regarding the Wilmington, Del. lynching of a negro, declared that "such a gruesome affair" has always been impossible in any populous section of his State. Another riot broke out in the streets of Wilmington Thursday night and a number of shots were fired. Two negroes were wounded. Gov. Huns visited Wilmington and said that the law would henceforth be maintained, at all hazards.

The visit of the American fleet to Kiel, Prussia, was the signal for unusual favors on the part of Emperor William. He visited the harsarge, Admiral Cotton's flagship, and personally inspected a great portion of the equipment of the vessel. At the close of the day his Majesty sent a message to President Roosevelt thanking him for the pleasure of the visit and conveying congratulations upon the splendid appearance and discipline of the squadron.

A general cleaning up of the Executive departments of the government will probably result from the postal investigation. Charges of one sort and another have been made against the State War Interior, Treasury and Agricultural Departments and a complete investigation is expected by the President or Congress. Post-office inspectors are gathering evidence in half a dozen new cases of fraud, and as many indictments are looked for. Postmaster General Payne was confined to his home by illness.

President Roosevelt has decided to risk the possibility of incurring the enmity of the Russian Government by forwarding to the Czar the petition of the B'nai B'rith regarding the treatment of Jews in Russia. The United States Government has been unofficially advised that Russia will not receive the petition, and if such proves to be true diplomatic relations between the two countries may be broken. It will require about two weeks to secure the necessary signatures to the petition.

Popular approval of the work of the mob at Wilmington, Delaware, which burned at the stake a negro who confessed to criminal assault, was shown Wednesday night when two thousand citizens of Wilmington made a demonstration before the jail where Arthur Corwell, of Hartford City, Ind., was confined on a charge of complicity in the lynching. Corwell was released on \$5,000 bail and the citizens loudly cheered him and then dispersed. A coroner's jury has decided that George White, the negro victim of the mob, died at "unknown hands." The belief is growing that none of the mob will be prosecuted.

Edmund H. Driggs, former congressman from Brooklyn, was indicted by the Federal grand jury on the charge of receiving \$500 in July, 1900, from an automatic cashing company for securing a contract from the Government. Mr. Driggs is the tenth person against whom an indictment has been returned as a result of the Postoffice Department investigation. President Roosevelt has asked the Department of Justice to furnish two lawyers to assist the District Attorney at Washington in the prosecution of the pending cases.

### A GREAT SPEECH.

With accustomed enterprise The Bee today publishes in full the speech of Hon. Ollie James, made before the jury in the recent and final trial of the cases against J. B. Lindell, Wade McIntosh and Ed Johnson. Many of The Bee's readers will appreciate this enterprise and all who read the speech will be entertained and enlightened. This really great speech of a talented young lawyer and orator is published complete as recorded by the expert stenographer employed by the defense and transcribed for The Bee. An audience limited only by the capacity of the Hopkins county court house was thrilled by Mr. James' eloquent argument for law and order and shaken with order at his abundant wit and sarcasm.—Earlington Bee.

### BURIED AT SEA.

A Philadelphia telegram says: "Pleading on bended knee with the ship's officials and offering all the money he had with him if his wishes were carried out, Pierre Bennett, a wealthy manufacturer failed to save the dead body of his wife from a burial at sea.

Heartbroken, he was compelled to stand by the rail, with his two children, while with tender hands the brawny sailors of the French liner La Savoie cast the weighted and shrouded body into its last resting place in the blue waters of the Atlantic.

When his wife died, Bennett offered the captain \$10,000 to bring the body to land. There were no appliances for embalming on board and the stern rigor of the unwritten law of the seas fell heavily on the stricken family.

The body had to be buried, and the bereaved husband's prayers and offers were alike vain.

## STATE ASSESSMENTS.

### Taxes Paid by Counties of the First District.

Frankfort, Ky., June 22.—This year the State of Kentucky will collect for State purposes taxes in the sum of \$3,109,699.82. ### OBITUARY.

Mrs. Irving Travis, of Vi., as she was called by all who knew her, the second daughter of Mr. and Mrs. Kelly Orr, was born Sept. 15, 1876, converted to Christ in 1884, was married Feb. 28, 1888, and died Jan. 4, 1903.

She left father, mother, brothers and sisters, husband and four little motherless babes to mourn her loss.

May God's grace and heavenly benediction rest upon them.

We had known her but a short time, but to know her was to love her.

Rest in silence and in calm, dear friend, rest. Thy day's work is over and night brings peace under its enfolding wings.

The story of thy short life, of thy noble, ideal womanhood, the sweet, obedient daughter, the gentle sister, the loving wife, the tender mother, the faithful friend, will serve as a new idyl to enrich the coming years.

Having served thy family and thy friends according to the will of God thou hast fallen to sleep, the long, unending, dreamless sleep. Earth's dreary noise will never more disturb thy sacred slumber.

Dear friend farewell! Thou hast entered the silent land of everlasting peace, whither the love and tears of thy family and the entire community to follow thee.

A FRIEND.

## MR. M'LEOD

(Original.)

There is a flutter among the elite of Newport society. There are people who have spent years fawning, flattering, pushing, even at critical moments "putting on the screws" in the case of some stubborn insider, until they have broken down the barrier and secured an entrance into the golden circle. And now comes a young man whom nobody knows and nobody would for and walks right in.

Donald McLeod, with Scotch antecedents and Canadian connections, appeared one morning at Newport, was driven to a hotel and the same evening was seen at the soiree of Mrs. Van Binkhelsen, in whose veins flows the bluest blood of the old New York Dutchmen and in whose coffers are deeds to acre upon acre of Manhattan Island real estate. No one dared question her right to introduce him. All treated him with scrupulous politeness, but no one slapped him on the back and said, "Old man, command me for any invitation you want." Mrs. Van Binkhelsen, led him to several of the young ladies whom it would seem desirable for him to know, but the moment her back was turned they proceeded to freeze him from their presence.

It so happened that Miss Adele Mainwaring, a young lady whose family had been well and favorably known in New York many generations and who for this reason was somewhat fond of snubbing the wealthiest of the social leaders, noticed the slight upon the Scotch Canadian and, yielding to a natural antagonism for the descendants of those whose ancestors used to sell her ancestors garden truck, took him up and danced with him three times, holding her head very high the while, as much as to say, "Whoso wishes to knock a chip off my shoulder let her do so." When the evening was over and the young man asked permission to call upon her, she gave her consent, though she had no especial desire to receive him. The truth is that an evening entertainment is not a place to judge of a man's intellectual parts, and Miss Mainwaring had as many friends as she wanted.

When, however, she came to pass an afternoon in Mr. McLeod's company in one of her own little parlors, she was not long in discovering that he knew more on any one subject than she knew on all put together. This was somewhat surprising to her, for she was considered, and justly so, a very intellectual girl. She found him rather reticent and much more prone to listen to her than to talk himself. But there was something in the quiet way he sat and permitted her to pour things into his ear that pleased her.

Though Mr. McLeod's stay at Newport was brief, it was productive of a great deal of trouble. Some of the girls who had elicited him took Miss Mainwaring's acceptance of his attentions as a personal affront to them. This led to social skirmishing which soon blazed into open war. Mrs. Van Binkhelsen was much blamed for having introduced "the fellow," but on account both of her blue blood and her vast wealth she was unassailable. Then society was suddenly further startled by a report that Miss Mainwaring was about to throw herself away on "that kamuk who showed no signs of even being able to wear good clothes."

"Excellent match," exclaimed all the girls who had quarreled with her. "She'll disappear from society and in time sink to where she belongs—a tenement house."

It was true that Miss Mainwaring had given the stranger her heart, but she hesitated to bestow her hand on one who did not seem inclined to disclose his identity. She was something of a stickler for blood and, being without any income in her own right, felt it necessary that if she married her

husband should be able to support her in fair style. McLeod told her that he could at least give her a home and that he fancied his ancestors were quite as good as hers. Finally he gained such an influence over her that she was ready to accept him as soon as he should make known his antecedents, his family and his financial condition. He seemed in no hurry to satisfy her, and against her better judgment she surrendered unconditionally.

One afternoon Mr. McLeod was sitting in the casino, people passing and repassing, some giving him a slight nod, others not even a recognition. Several "bunches" were standing in a group, with their backs to him (intentionally), when they heard a cheery voice behind them say:

"Hello, Toit! You here? I thought you were dancing another dance on the governor's general."

The party turned and saw Lord Buckthorne, a recent arrival from London.

"Good morning, gentlemen," said Buckthorne. "You know my friend, Melrose—the Marquis of Melrose? He's the right hand man of the governor general of Canada."

The secret was out. Melrose to escape social notoriety had confided his identity to Mrs. Van Binkhelsen alone and incidentally had won the heart and hand of Miss Mainwaring, who first heard the news of her lover's position from his friend and after her engagement.

Lady Melrose occasionally visits Newport and doesn't fail to snub the snubbers of her once innocent husband.

However, since he is now rising to the more important positions in the British diplomatic service she has very little time to devote to her old enemies who hate her the more lately she rises higher she risks. As for Melrose, he has long ago forgotten the Newport incident and is very fond of Melrose.

The expression "baker's dozen" which is in point of fact 13, has a history. For a baker in the olden times to give short weight in his bread exposed him to severe penalties, and thus the custom arose of adding an extra loaf to the dozen as compensation for any possible deficiencies in the rest of the batch. The extra article was originally a safeguard to avert the change of a heavy sea.—Pittsburg Dispatch

30,000 people was destroyed at St. Pierre, on the island of Martinique by almost the same means of those at ancient Pompeii, almost in a breath. Thousands of people are killed every year by accident and thousands through neglecting their liver and kidneys; this you should not do, always keep a box of Hill's Universal Pills on your list of family medicines and you will never need to watch your liver and kidneys for they will always be cleansed. Price 25c; for sale by all patent medicine dealers in the country.

The importation of opium that is prepared for smoking is double that used by physicians and morphine habitues. The amount is more than half a million pounds, and the value \$3,500,000.

### WHAT A PAINTER SAID.

Henry Cook once said: Hill's Specific cured me of the cramp after taking one dose. This great remedy has proven as prompt in hundreds of cases, and will immediately relieve or cure diarrhoea, flux, dysentery, cholera morbus, cholera and griping pains; it is astringent, Anodyne, Aromatic-Mild, pleasant to take but effective. Price 25c at all proprietary medicine dealers in the country.

A scheme has been prepared for carrying out an underground railway in Manchester, England, with connections with the principal out districts.

I have practiced medicine for 35 years and have consulted the leading physicians in this country in regard to a remedy for dyspepsia, but have never been able to find anything that would effect a cure until I used Kodol Dyspepsia Cure. Could not eat anything but milk toast for months, but since I used Kodol I can eat anything, and feel that my health is better than it ever was in my life. I can not say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia if taken as directed.—M. D. Settle, M.D., Big Hill, Ky.

### A Surgical Operation

It is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for 20 years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of piles since.—H. A. Tidale, Summerton, S. C. For Blind, Bleeding, Itching and Protruding Piles no remedy equals DeWitt's Witch Hazel Salve. Sold by R. F. Haynes

### Greatest Merchant in the World.

Who is he? The list of great ones is long. Possibly we shall have to yield the palm to Sir Thomas Johnson Lipton. He is about the only merchant on earth who can afford to advertise heavily spending half a million annually on a yacht designed to explore the America's cup. Over 100,000,000 of the United States have seen him as millions behind our doors. Lipton stands the back of alone. He is worth \$50,000,000. Twenty-three years ago he started behind a counter waiting customers. Thirty years ago he was in the rice fields of South Carolina and was so poor that he slept with the negroes in the woods. Today he employs two thousand persons in his various establishments and is the pet of the King of England. In 1905 he will be an Earl.

### Remarkable Cure For Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan Texas. "I got temporary relief but it came back again and again and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment with out avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents cured me." For sale by Woods & Co.

Two carpenters of Kennett, Mo., viz: W. W. Hoskinson and Harry Hoewisler, have both used Hill's Specific in their families and write of its wonderful healing power. It cured Mr. Hoewisler's baby of a very serious case summer complaint; this is only like thousands of letters which we receive daily; it is doing this kind of work wherever it has been tried. A better remedy was never discovered for summer complaints such as flux, diarrhoea, dysentery, cholera morbus, cramps teething children, etc. Price 25c; for sale by all patent medicine dealers in the country.

### Catarrh of the Stomach

When the stomach is overloaded with food is taken in it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarrh of the Stomach. For years I suffered with catarrh of the stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure—J. R. Rhea, Coppel, Tex. Sold by R. F. Haynes.

Speaking of cremation, the London Lancet expresses the opinion that the chances of a living body thought to be dead being reduced to ashes are too infinitely remote to merit attention. In the vast majority of instances there is no real foundation for the stories of premature burial or intended burial.

### Spring Ailments.

There is an aching and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is, that during the winter there has been an accumulation of waste matter in the system. Herbine will relieve it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissue and give you strength instead of weakness; 50 cents at Woods & Co's.

The Liverpool docks, one of the wonders of modern commerce, extend along the Mersey a distance of six and a half miles.

### World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion and assimilation of food, strengthens their nervous system, and restores them to the health, vigor, and elasticity of spirits natural to childhood: 25c at Woods & Co's.

The annual loss from the burning of buildings in the United States is about \$135,000,000, not including cost of insurance and the appliances for fire protection.

### [Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by Woods & Co.

### Just About Bedtime

Take a Little Early Riser—it will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are different from other pills. They do not gripe and break down the mucous membranes of the stomach, liver and bowels, but cure by gently arousing the secretions and giving strength to these organs. Sold by R. F. Haynes.

## Paine's Celery Compound

Permanently Cures Sick and Nervous Headaches that Make Life Miserable.

Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of.

Headaches as a rule, result from a disordered condition of the nervous system. Mental excitement, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headaches invariably follow. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous tenderness, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructer of the nervous system. Mrs. Henry Westrick, St. Clair, Mich., tells of her release from suffering as follows:—"I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

**DIED:**—Little Clara Henry after a brief illness, died June 4th, 1903. The death of this little one is a deep bereavement to her parents and friends, but to those of them who are prepared to meet their lost in Heaven she has but bridged the cash of time and awaits them in a happier home than parents ever gave a child on earth. Her age was 11 months 9 days.

Sunday was Oklahoma day in Dycusburg. Every available turn out was driven thither, the occasion being Children's Day, and a sumptuous "basket dinner."

Mrs. Clara Bradley is visiting in the country.

Misses Clara Cassidy of Cincinnati and Annie Campbell, of St. are guests of Miss Cora and Miss Cora and Mrs. Fannie Graves.

A few evening since Mr. and Mrs. M. B. Charles entertained at their home about 60 invited guests. Refreshments of ices, fruits and other delicacies were served. The entertainment was given in honor of Miss Mamie Graves on her return from St. Vincent and Mr. Clarence Brasier of Missouri.

An "Observation Party" was much enjoyed by our young people one evening last week at the home of Mr. and Mrs. J. H. Clifton. Delightful refreshments were served.

## Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—

"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it for baby."

Kodol Digests What You Eat.
