NASHVILLE TO ST. LOUIS!

The Anticipated Short Line via Marion Ordered
Constructed—Large Quantities of Fire Clay
Being Shipped—Two Hundred Tons of
Fluor Spar Mined Every Day.

MINING STOCKS RAPIDLY ADVANCING—THE COLUMBIA
MILL NEARING COMPLETION—OIL INDICATIONS
VERY PRONOUNCED.

THE WEEKLY ROUND UP OF THE MINES

The Press is informed by Illinois Central officials that preliminary work has already been ordered at Cave-in-Rock for the slip for a transfer boat between the Illinois and Kentucky shores of the Ohio river, to be used until the bridge is completed. All of the bridges between Princeton and Hopkinsville are being tested as to their strength for heavy trains on the through Nashville and St. Louis Air Line via Marion and Cave-in-Rock.

The building of the new railroad between Marion and the Ohio river to St. Louis has been decided upon absolutely.

The net prices for our ore and clay products are as follows, f. o. b. cars, less freight equal to New York points:

Barytes, crude, \$7.50 to \$9.
" floated, \$18.00.
Kaolin, \$8.25 to \$9.25.
Fireclay, \$4.25 to \$6.00.
Fluorspar, \$12.40 to \$17.90.
Ochre, \$9.25 to \$10.00.
Metallic brown, \$19.00.
Red, \$16.00.
Carbonate of zinc, \$5 to \$25.

The Columbia Mining plant will resume operations now very soon. Grinding and separating the ores will be commenced in the 50 ton plant July 20th, and a great production of ore is anticipated.

Mr. Robert Drescher, the business manager, was in Mineral Point, Wis., all of last week and will probably remain until the mill starts up, when he will return here qualified to perform every act in milling ore, from raising the smokestack to analyzing the smoke that comes from it.

The drilling of a well by the Ice company that at present is 109 ft. in depth, has passed through several varieties of rock. In nearly all the strata the prevalence of oil has been most marked, lying in cells in most of the rock masses. In the old Bigham shaft this oil seems to be disseminated throughout the entire vein, and at times considerable oil was obtained from the fluorspar.

In the bottom of the 20 foot shaft on the Reed land, a very heavy oil is visible upon the surface of the water. Oil seems to be near the surface everywhere throughout this entire break.

A very handsome showing of lead, zinc, fluor spar and barites at the surface may be seen on the Ed Flannery farm of 200 acres. Samples of these ores are now on exhibition one door west of the post office, where a plat of the property may be seen and the price obtained for the farm. Some Marion man ought to own and mine this land.

Mr. Harry Watkins reports the mining of 200 tons of fluor spar daily, on the various properties of the Kentucky Fluor Spar company.

Lead ore will probably be marketed here as it is in Joplin, the price being based on 70 per cent. of metallic lead in the ore. The St. Louis price for pig lead being the basis generally taken to get at the ore value. Originally the quotation was multiplied by 7, the smelting charge of 2.50 being deducted, the resulting amount being the price per 1000 pounds; should lead be selling at St. Louis at 4.50 per 100 lbs., multiply by 7 the result would be \$31.50, less 2.50, leaving \$29 per 1000 lbs. of ore or \$58 per ton.

George Corn tells the Press that the property of Ross and Stewart Givens has the Miller carbonate vein very plainly defined, a simple rail fence alone separating the two.

The carbonate of zinc also on the Corn property belonging to the same two gentlemen is beginning to be of importance.

Some five or six teams are hauling fluor spar from the Corn property to Marion on account of the Givens Bros., and many more are wanted at good prices.

At Joplin, the highest price paid for zinc ore, which has rested several weeks at \$40, was increased in one instance to at least \$42.50 per ton. The lot of ore selling at this price was purchased on a basis of \$38 per ton of 60 per cent. zinc, and the ore assayed from a car sample 64.5 per cent. zinc. The basis price, regulated by the distance of haulage and the grade of the ore, ranges down to \$6.00 per ton of 60 per cent. zinc. The assay basis has been generally advanced 1.00 over a week ago.

Lead ore receded 3.50 per ton during the week, the market closing steady at 50.50 per ton. A year ago the highest price for lead was 45.50, and for zinc was \$5.00 per ton.

The increase of \$301,432 in the value of the output of the zinc and lead ores of the Joplin district for the first six months of 1903 over the same period of 1902, tells of the prosperous condition of the mining industry in that region; this gain was made with a decrease of 13,662 tons in zinc shipment, and 1,576 tons of lead shipments. The ore values of the district for the first six months of the year were nearly \$5,000,000. The output of the last week is estimated by conservative buyers at 5,000 tons, of which 4,475 tons were sold leaving a net increase of the reserve stock of 225 tons. The apparent increase has been taken advantage of to lower the price in a few instances—isolated lots of ore and some that was off grade. A few of the cheapest grade lots of ore were sold as low as a \$33 basis but the medium and better grades sold on a \$35 and \$37 basis. A few lots selling at \$40 were equal to a \$38 basis. Ore that brought equal to that was sold on a straight bid.

Thomas A. Nevins, the President of the United States Coal company, who recently purchased the Paducah Coal and Mining company's properties in Crittenden and Union counties, has filed suit in the Federal court against George Rock, W. F. Paxton, T. J. Flournoy, Ed. Woolfolk, and Geo. C. Wallace, of Paducah, and Isaac Reese, of Memphis, Tenn., for \$54,000.

He claims that he bought the defendant's property March 31, 1902, and it was supposed to contain, among other things, 3,400 acres of coal lands in Union and Crittenden counties, two boats and a quantity of marketable coal, valued at one thousand dollars. He claims that he has since found the land is 500 acres short, says he was compelled to spend \$3,000 on one of the boats, and there was no coal out of ground and ready for the market, and that he has been damaged in the above amount. It is one of the largest suits ever filed in Paducah.

Mr. James Henry reached Marion on Monday evening, after having secured the great Sturgis meteor, which is now safely housed in Marion. Its story follows:

Thirty-nine years ago, on the farm of a gentleman named Granger, situated near Sturgis, a meteor flashed through the atmosphere, leaving a blazing trail of light behind it, and buried itself some seven feet in depth in the ground. The men who were laboring in the field in which this celestial visitor lodged were naturally greatly alarmed at the unlooked for event and left the field as rapidly as possible. After some time had elapsed they returned and made an excavation large enough to raise the six or seven hundred pound mass. It is entirely distinct from the Hopkinsville meteor that Mr. Henry found and which the Government has in the national museum at Washington.

Some 19 feet deep in the shaft on block E of the Reed Mining company's property near the city, the top of a vein of pyrites and Jack has been exposed. This vein extends diagonally across the shaft in a southwesterly direction. An old saying in the zinc regions is, that "sulphur always rides a good horse," and no possible doubt is entertained but that this sulphur, iron and zinc ore will come into a magnificent body of Jack or zinc blende, the highest price zinc ore that nature puts up in her laboratory.

During Major Clement's recent visit to Joplin, Webb City, Mo., and Galena, Kansas, he had his Clement mine ore analyzed by Waring & Son of Webb City. The following is the result:

No. 1, high grade, 33.95 per cent. metallic zinc, and 2.55 per cent. metallic lead, equaling 56.60 per cent. of zinc blende and 2.80 per cent. of lead sulphide.

No. 2, low grade, 4.07 per cent. metallic zinc and 1.50 per cent. metallic lead, equal to 6.80 per cent. of zinc blende, and 1.70 per cent. of metallic lead.

Major Clement was not so deeply impressed with the Joplin district as he had anticipated. The fact that the Jack was in practically a dark colored, muddy composition may have had much to do in forming his opinion, as our ores are so decided in character, and the matrix is so clean that the Joplin ores are almost always a disappointment to a Kentucky miner.

Lawrence Cruce has just returned from a twenty day trip to his mining property near Alto Pass, Illinois. This is almost a virgin territory, Mr. Cruce and Mr. Henry being the only prospectors in the district. Samples of extremely heavy galena from a well defined vein, comprising masses of nearly pure lead ore weighing several hundred pounds are not uncommon in this fissure. Near this vein a very considerable quantity of carbonate of zinc has also been uncovered.

Messrs Cruce & Henry also purchased what appears to be a large mountain of very pure white fire clay, samples of the same being shown in the Reed Mining company's office at Marion. An analysis of this clay is being made and it is thought will show a very valuable product.

An 85 foot trench on the J. H. Pace farm, near the New Salem church, some 8 miles west of Marion, in Crittenden county, was out last week, between two of the three rows of sink holes. The showing is especially fine for the opening made. A vein some 8 feet in width had been exposed on Saturday, the foot wall of St. Louis limestone bearing northeast and southwest. During the week plows and scrapers will be utilized to make an opening 8 feet wide and possibly 500 feet long, which will open up the various veins in fine form. The work is under the charge of Mr. John Harpending.

Under date of June 29th, Chas. R. Montgomery, writing from Elizabethtown, Ill., to the Press says:

"In one of my shafts, which is about 35 feet deep, I have struck metallic copper, and both the green and the blue carbonate of copper, and today it looks like I have struck gold quartz and gold."

The Ebbie Hodge lease on land showing strong bodies of fluor spar, on many places, was sold last week for \$2,000, an advance of \$1250 over the price asked the week previously. It is understood that the Pittsburg Mining and Mfg. company of Pittsburg, Pa., were the purchasers, through Mr. Lowery, of Salem.

Many inquiries have come to the Press recently regarding iron pyrites and their value. Where the sulphur contents run from 42 to 44 per cent, the average price is \$5 per ton. Concentrates where the pyrites occur in rock, are called after milling, "fines"; these fines are worth 10 cents per unit.

Mr. Will Snow, of Mineral Point, Wis., was in Marion the other day, but our people did not see half enough of him. We want a lot of just such clean cut young men as he is down in this section of country and want them right now.

It is stated by several parties who have visited the Miller carbonate property of the Marion Mineral company, that carbonate of zinc shows for 40 feet in width in their vein or deposit in several places. Some 80 tons are now ready for shipment.

The recent finding of nickel and cobalt in large quantities in Mine La Motte, in St. Francis county, Missouri, has greatly stimulated prospecting in that vicinity. Michigan men are now drilling adjacent lands.

The Henderson carbonate of zinc mine on the Farmer property is proving really larger than anticipated. Mr. Clark reports that the showing on Saturday last was far greater than any one had reason to expect. Shipments will commence very soon.

On the Schwab carbonate of zinc property on the Vaughn farm near Lela, dressing platforms are being made and mining of the ore will be pushed with vigor. A sample of this carbonate is on exhibition at the Reed Mining company's office.

Thirty-five teams were hauling fire clay from the Stevens mine last week. That number will be increased to 50 from now on, making a delivery at the depot of about 100 tons daily of fire clay alone.

The shaft of the Wilson Mining company, near Crittenden Springs is now down 75 feet, and seems to be close to the Columbia vein at that depth.

The monthly pay day of the Wilson Mining company was celebrated by the boys on the fourth of July.

A sale of Marion Mineral company stock was made on Monday, at an advance over last week's prices.

An oil expert of high standing says that oil is always found south of the coal measures.

The Old Jim pay day was as usual on the first Saturday of the month.

Judge Uren, of the "Old Jim," was in town over Sunday.

Quicksilver is reported from Tennessee.

No news from Piney Fork.

AROUND THE WORLD

The President Sends a Message—Pacific Cable Completed.

The Pacific cable was completed at 10:50 o'clock Saturday night, Eastern time, by the welding together of the eastern and western links at Honolulu, on board the cable ship, Angila, thus completing the entire line of telegraph from San Francisco to the Philippine Islands, a distance of over 3,000 miles, and bringing to a conclusion the greatest and most difficult of submarine cable enterprises undertaken in the history of ocean telegraphy.

The first message to Gov. Taft in the Philippines over the Pacific cable was sent by President Roosevelt from Oyster Bay at 10:50 o'clock Saturday night and Gov. Taft's reply was received at 11:19 o'clock. The President started a message around the world to Clarence Mackay at 11:23 o'clock. Twelve minutes elapsed time, was required in the transmission of the latter message. Mr. Mackay's answer was sent in nine and a half minutes.

WANTS HOMES FOR BABIES.

The Kentucky Children's Home Society have in their receiving Home several beautiful babies, ranging from eight weeks to six months old, for whom they are desirous of finding good homes. At this season of the year it is very hard for us to find homes for babies where they can get all the fresh milk they need and fresh country air. We can place them in the city, but we do not think it wise to do so. Any one feeling an interest in adopting or taking into their home one of these little children will confer a favor on the Society by addressing the letters to, the Kentucky Children's Home Society, care of the Masonic Temple, Louisville, Ky.

BRIDGE DAMAGED BY FIRE.

A portion of the Illinois Central bridge spanning the Tennessee river, east of Paducah, was destroyed by fire Saturday morning, causing considerable delay in transportation and serious loss to the road.

It is estimated that the damage to the railroad will be \$100,000, to say nothing of loss of business and delay. It may be two weeks before the bridge is sufficiently repaired to allow trains to pass over it.

FOURTH OF JULY FATALITIES.

The Chicago Tribune has compiled the following list of accidents as a result of the Fourth of July celebration: Dead, 7; injured, 1,082. Detail of injuries: Fireworks, 148; sky rockets, 27; cannon, 61; fire arms, 237; gunpowder, 413; toy pistols, 194; runaway, 6.

Negroes Killed at Uniontown.

Uniontown, July 6.—The D. A. Nisbet and barge brought three hundred negro excursionists from Henderson Sunday. Leaving the wharf here, in a general fight, five men and three women were shot, three drowned, and many put in jail.

50c saved is 50c made instead of paying somebody \$3.00 for a pair of Mens Fine Shoes come in and get our celebrated \$2.50 shoe. You'll get as much service, you'll get as much style and you'll make 50 cents. CLIFTONS.

COKING TESTS FAIL.

Further Particulars Regarding the Abandonment of Old Bells Mines.

A dispatch from Sturgis says: The Hillman Iron Company, of St. Louis and Grand Rivers, which has spent some \$25,000 in developments of the Bell coal field here, has abandoned the properties on account of the coal failing to stand the special tests required for coking purposes and for use at the Grand Rivers iron furnaces. The company has heretofore been getting its coke from West Virginia, but experimented with the Bell coal, thinking it would make the quality desired and at the minimum cost. Notwithstanding the coal makes a superior grade of general purpose coke and has no superior as a steam and grate coal, it was a trifle high in sulphur for use in the iron furnaces, though John Bell, of Tennessee, the pioneer iron man of this section, utilized the coal for the purpose before the war. The property will be operated, however, by Col. W. W. Smith and Mr. C. H. Wilson, who own much of the territory and control the options, and the coal shipped to the South.

HIGH CLASS FEATURES

For the Fair at Owensboro—Executive Committee Make New Contracts.

The Executive Committee of the Kentucky State Fair Association which will hold its big fair at Owensboro, beginning September 21, has added some highly interesting free amusement features to the program, among them being Dr. Carver, the celebrated marksman, the eight wonderful horses which race at full speed without drivers; a race between a team driven by a bull dog and a team driven by a man; four automobile races, one of which will be for amateur enthusiasts of Owensboro only; a fine football game and mule and hurdle races.

In addition to the \$20,000 cash prizes for exhibits, there will be many prize silver cups offered by various associations and individuals.

The contracts for the big buildings will be let within a week.

Catalogues or any information can be secured by addressing the Secretary, L. B. Shropshire, room 25 Board of Trade Building, Louisville, Ky.

A COLD JUNE.

Up to the present time the month of June has been an unusually cool one, but "There are Others." In 1816 it was so cold in June that the year was known as a year without a summer. June of that year was as cold as February. Frost was common throughout all the northern states. Ten inches of snow fell in Vermont, seven inches in Maine and three inches in central New York. Even as late as July 5 freezing weather prevailed in New England. Ice was common enough in New York and in parts of Pennsylvania.

We had a pretty cold June two years ago, and it was cold in the east region as the result of a heavy snow storm in North Dakota. On the sixth of June the temperature was down to twenty-three degrees at Boise, Idaho, and down to twenty-six degrees at Baker City, Oregon. On June 5 there was a heavy snow storm on Lake Michigan.

This year harvesters wore their coats, many of them buttoned up, nearly every day of the wheat cutting season.

A woman may be shapeless and homely, but if she can talk well, and has a good disposition, she need not despair.

FLOOD OF IMMIGRANTS.

Million Foreigners Came to America Last Year.

Nearly a million immigrants have landed on our shores during the fiscal year just closed. Sixteen of our states have less population than the enormous number who came last year to swell our population. Italy headed the list, then came Russia, Great Britain, Sweden, Germany. Our seeming unlimited prosperity and the standing army and other oppressive abominations of the old nations are month by month augmenting this tide of immigration. April broke the record of arrivals and May has surpassed April, and it seems that we are to have flood tides for June and on.

Much history is being silently made by this heira, it is as epoch making as the crusades. It takes no prophet to see that things cannot continue this way for very many decades. The Old World could not stand this drain of its life's blood, and the power and wealth of the United States would become so predominant as to make it indeed the absolute arbiter of the world, and so we are confidently looking for the old nations to come to themselves, to be forced to adjust their constitutions and policies to the new order of things that they may live.—Baptist Argus.

BEGS HER TO RETURN.

Gen. Cassius M. Clay Longs for His Former Child Wife.

Gen. Cassius M. Clay, the venerable sage of White Hall, who is now ninety-seven years old, has written to his former child-wife, Dora Richardson Brock, whose husband was killed by a train in Illinois several days ago, asking her to come back and remain with him the rest of his life. General Clay realizes that he has only a short time to live, and he has called continually for his young wife even since she got a divorce from him and married Brock.

Immediately after her marriage to Brock, Gen. Clay bought them a home in Woodford county and furnished it handsomely for them even decorating the walls with the fine paintings he secured while he was in Russia, as United States Minister to that country.

JULY SNOW,

Fall Was Heavy on the Continental Divide—Crops Damaged.

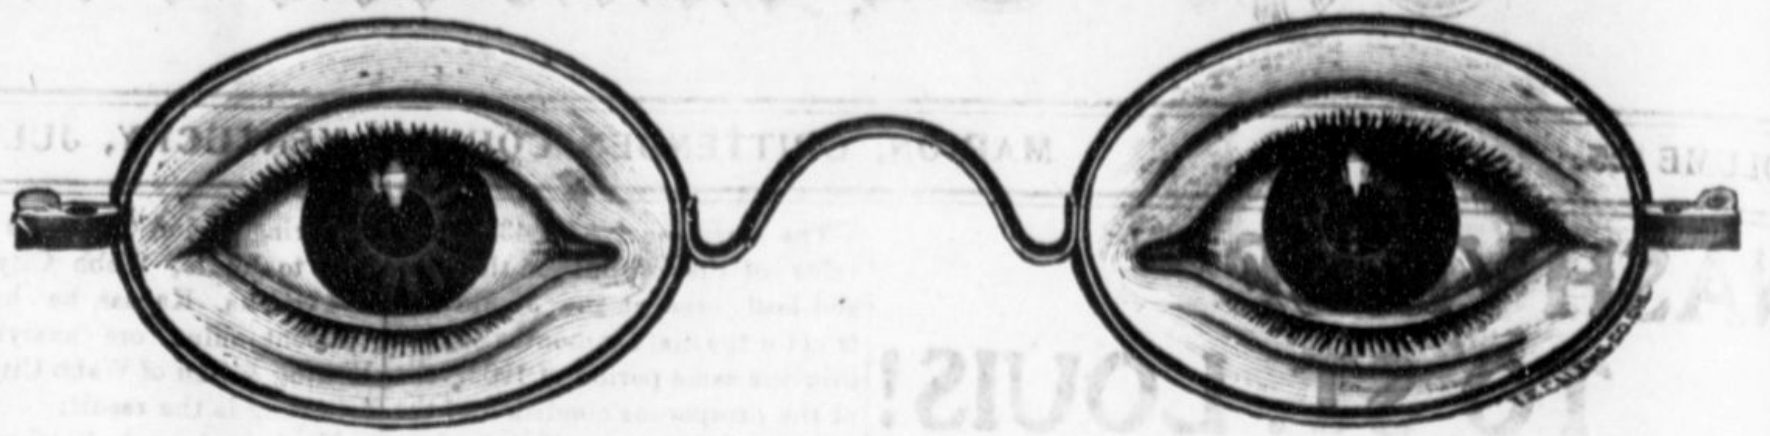

Butte, Mont., July 2.—Snow was general in Montana to day, slight flurries being reported from all over the State. The fall was heavy on the continental divide. The temperature has dropped to forty-five degrees. Snow alternates with cold rains, and great danger to crops is feared.

BELIEVED TO BE INSANE.

Gen. Cassius M. Clay is believed to be hopelessly ill, and insane in his fifty-eight room mansion, White Hall, in Madison county. Recently physicians were sent to White Hall at the request of Gen. Clay, who stated he needed medical attention, but they were not permitted to enter the mansion, after sending in a number of messages.

Clay's bodyguard in the only person who has been permitted to enter the room in ten months. The famous old statesman and duelist is said to be in a precarious condition.

HOW ARE YOUR EYES?

If you are having trouble of any kind with them you should call on

HEART RENDING SCENES

At a Coal Mine—Over two Hundred Lives Lost.

Of 282 men who went into the Union Pacific Coal Company's No. 1 mine at Hanna, Wyo., 235 were killed by the explosion of black damp that occurred at 10:30 a. m. Most of the dead are Finlanders and negroes.

Members of the rescuing parties tell of pitiful scenes about the seventeenth level, as deep as it has been possible to penetrate.

Some of the survivors were driven insane and fought like fiends against the rescuers. Dazed, listless survivors were found sitting on cars or lying on the floor, careless of whether they lived or died. Near the seventeenth level twenty bodies were found strewn over a pile of debris, which the men had striven to surmount before overcome by the deadly fumes. Some were seared and blackened by flames, but all had died crawling toward fresh air. The eleven rescuers who penetrated this far were too weak to bring out a body.

For hours the scene at the mouth of the level was heart moving. Mothers, wives, sweethearts and children huddled together, weeping and wringing their hands. Many sat on shattered timbers blown from the mine's mouth insensible to their surrounding. The most frantic pushed to the edge of the gap and tried to force a way into the slope.

An expert who went almost to the seventeenth level says the mine cannot possibly be cleared for a month. It is feared that many in the lower levels were torn to pieces by the explosion which hurled great timbers high over the town and 1,700 feet beyond the mouth of the slope.

HIGH PRICED HORSES

London, July 1.—There has been strong competition from the American, French and German horse markets in the sale of Chevel Park Stud, owned by the late Col. Harry McCalmont.

The highest price paid was \$28,000, by Lord Marcom Beresford, on behalf of King Edward, for the mare Medora with a bay colt by Ladas.

For Hauteuse, also with a colt, by Ladas at foot, the representative of August Belmont, of New York, stayed longest in the bidding, and the mare which is the dam of the winners Haughty, Hartenbas, Rising Glass and See Fair, became his property at \$23,000.

Mr. Belmont's representative also purchased the chestnut mare Fair Gold for \$18,000. Wm. C. Whitney's agent took the mare, Jennessee Dore, with colt by Whit tier, for \$17,500, and Knowy Carrie, with a colt, for \$13,000.

The young duchess of Marlborough has a father, a mother, a stepfather and stepmother.

UNIQUE PROCLAMATION.

Of Mayor Powell of Henderson. Array of Beautiful Language.

The following proclamation was sent forth by Mayor J. Henry Powell, of Henderson, last week. It is unique and beautifully written, and characteristic of Col. Powell:

"Hearken all good people to the delicious tinkle of our toot from a brazen trumpet, proclaiming that round after round of riproarious and rollicking fun is about to materialize. Herds of royal Buffaloes wreathed with the colors of a noble order soon will capture Henderson. On the 29th of June, 1903, and for one glorious gala week thereafter, they will give an entertainment fresh as a mountain stream, and rejuvenating as the richest Falernian wine that ever quenched a Roman's thirst. Nothing like it has ever been seen beneath the shining sun and sparkling stars. It is the wonder of the world. All hail to the great original, quaint, curious, nerve soothing, liver invigorating, side splitting, mirth provoking, button bursting, carnival of jolly Buffaloes. Adorn the portals with green and white, open wide the doors of our hospitality. Guests of honor and visitors in general accept a heartfelt welcome to an unpretentious little city, which boasts of the most beautiful women and ugliest men on the habitable globe. All enterprising newspapers, without expectation of charge will publish this proclamation. The consciousness of doing good will be a sufficient reward. Witness my hand this 27th June, 1903.

J. H. POWELL, Mayor, Of the City of Henderson, Ky.

SALVATION ARMY

Will Disseminate the Local Option Law in the Mountains.

The Salvation Army Corps, of Cleveland, O., has decided to conduct a campaign for the dissemination of the Gospel in the feud counties of the mountains. The plan, which was approved by Commander Booth Tucker, will be put into execution the first week of August, where the invasion will commence at Huntington, W. Va. and will be carried to Bristol, Tenn. A series of services will be held at Jackson, Ky., and permanent posts will be established along the route.

COKING TESTS FAIL.

Further Particulars Regarding the Abandonment of Old Bells Mines.

A dispatch from Sturgis says: The Hillman Iron Company, of St. Louis and Grand Rivers, which has spent some \$25,000 in developments of the Bell coal field here, has abandoned the properties on account of the coal failing to stand the special tests required for coking purposes and for use at the Grand Rivers iron furnaces. The company has heretofore been getting its coke from West Virginia, but experimented with the Bell coal, thinking it would make the quality desired and at the minimum cost. Notwithstanding the coal makes a superior grade of general purpose coke and has no superior as a steam and grate coal, it was a trifle high in sulphur for use in the iron furnaces, though John Bell, of Tennessee, the pioneer iron man of this section, utilized the coal for the purpose before the war. The property will be operated, however, by Col. W. W. Smith and Mr. C. H. Wilson, who own much of the territory and control the options, and the coal shipped to the South.

LYNCHING NEGROES.

Is More Commendable than Remaining Apathetic.

A MINISTER'S STRONG STATEMENT.

Chicago, June 29.—"I am no advocate of lynching or mob law, but I would rather see a community wrought to the highest pitch over crimes that would seem impossible this side of hell, than to remain apathetic," was the startling declaration of Rev. Dr. W. A. Bartlett at the First Congregational church yesterday in the pulpit on "Lynching from Another Point of View."

Dr. Bartlett said among other things: "I have seen so many sermons, editorials and resolutions denouncing lynching and mob law that one gets the impression that the citizens who hang or burn the destroyer of life, home and all that is held sacred by womanhood are the real offenders, rather than the monster whom they destroy."

"We shudder at the torture of the criminal who is burned, but apparently forget to shudder for the innocent girl, whose mental and spiritual agony is tenfold greater than that of the brute. This is not a race problem, except so far as one race are the offenders. The white man who commits the crime is just as guilty."

"The indignant uprising of a community, and some of the best in it, to avenge a wrong of such awful magnitude, may be counted lawless, but the spirit which causes the uprising is the reflection of a higher civilization. There are crimes so dreadful that the pure and the chivalrous and the strong find it well-nigh impossible to endure the thought that such a degenerate should pollute the earth with his presence. It is easy to theorize about the anarchy of mob law, but the same hand which penned the calm editorial might be the first to grasp the torch if it was his mother, wife or daughter who was the victim."

MILK PRESERVED SIX YEARS

Mr. M. C. Balcom believes it has been thoroughly proved that milk can be preserved six years or longer without chemical treatment. One of his friends tells how it was proved, and Mr. Balcom says that his friends' word is not to be questioned.

The friend is a farmer living in Trigg county. He says six years ago he was in the habit of keeping a jug of buttermilk in a well to drink during the day. One morning he let down the jug and the string broke. The water was too deep to think of fishing out the jug, and it was allowed to remain where it fell. Recently the well was cleaned out and the jug was found. In order to see what was the condition of the milk the jug was uncorked and the milk was tasted. It was found to be just as good as it was the day it fell into the well.—Clinton Gazette.

A GLUTTONOUS CONVICT.

Alex. Messer, a lifetime convict from Eddyville, was in Paducah to appear before the Pension Examiners. He wants a raise in his pension from ten to thirty dollars a month. It is his first visit to the city for many years. He was sent up for life from Pike county, fifteen years ago. He was one of the principals in the Hatfield-McCoy feud and is alleged to have tied a McCoy youth to a tree and shot him to death. Messer said today he was innocent. He said that he wanted the increase in pension so he could eat more. The prison officials say he spends all his pension money for food.

SICK ROOM SUGGESTION.

An excellent method of lowering the temperature of a bedroom when it contains an invalid, or a specially sultry night makes sleep impossible, is to soak the window screen with cold water, to which has been added a spoonful of ammonia. Apply the water with a sponge, saturating the netting thoroughly, and repeat the operation in a little while if it seems necessary. In this way the air which enters the room is cooled and purified.—July Woman's Home Companion.

HE FOOLED THEM.

Yellow puccoon is a root that brings a good price in the market and there is no trouble in disposing of the stuff, but the Madisonville market at present is a little overflooded. A fellow from the country came in a week or two since with over a hundred pounds of what he called yellow puccoon. A buyer bought it and paid well for it. In a few days he returned with another big lot, and tried to sell to the same man he had sold to before, but the buyer was suspicious. The puccoon man, however, found a buyer and unloaded. He came back in a few days with another lot and soaked the third dealer. It was discovered that it was not puccoon, but some other root that will hardly pay the expense of the shipping. The buyers are now a little particular as to how they purchase the yellow root. Madisonville Graphic.

Bradley's Pardoning Record.

Anent the question of pardons, which seems to be desired as the principal issue in the gubernatorial race by the Republicans, here is a statement of four years of the Bradley regime in Kentucky: Murders committed.....816 Convictions for murder.....385 Pardons of Murderers.....216

LATEST NEWS.

Two Alabama farmers were sentenced to the penitentiary for one year and a day on pleading guilty to the charge of poisoning.

The fund for the benefit of B. J. Ewen and family subscribed through the Courier-Journal is now \$2,300.

The official estimate of the postal deficiency for the fiscal year just closed, is \$4,617,202. It is attributed to increased expenditures for rural free delivery.

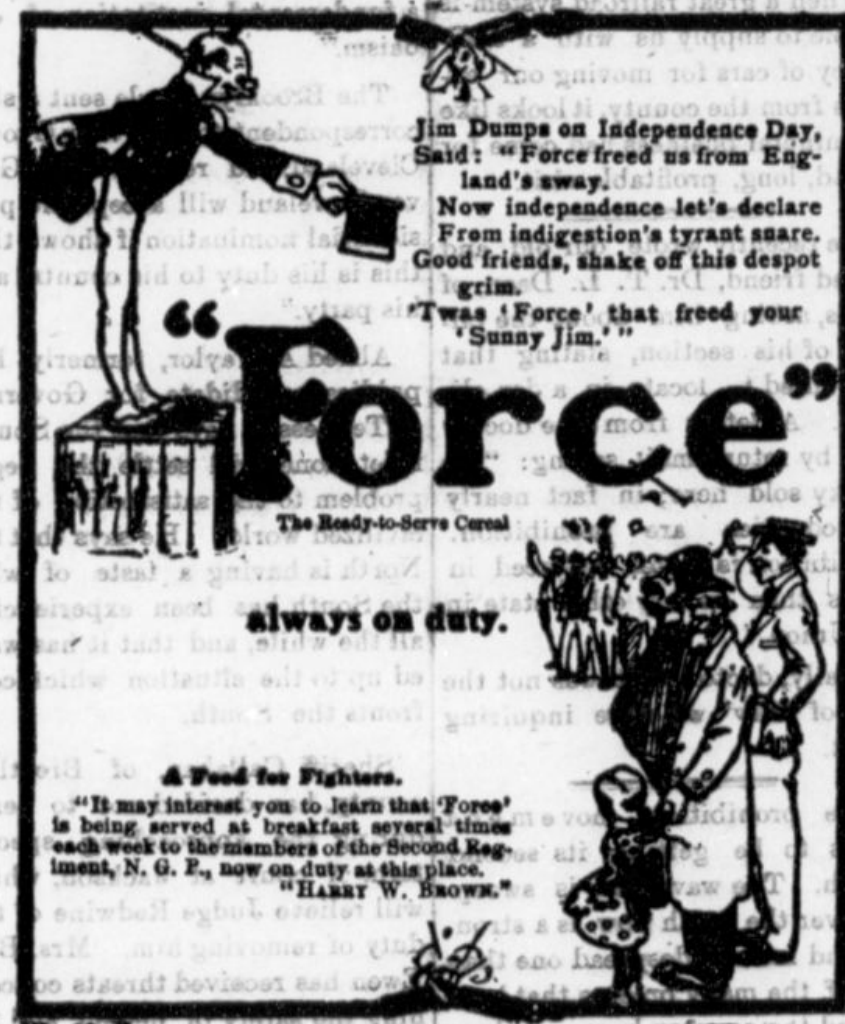

The treaty between Cuba and the United States, placing the Isle of Pines under Cuban sovereignty and ceding to the United States naval and coaling stations, was signed at Havana July 21, at noon.

After a period of intense heat, which caused four deaths and numerous heat prostrations in New York, that city was visited by a terrific electric storm. Much damage was done and three persons were killed in the confusion.

Additional clerk appointments and promotions in the postal service became effective July 1st, thereby increasing the salary rolls over \$1,000,000. There were also put into effect \$96 new rural free delivery routes, making a total of nearly 16,000 routes now in operation.

President Roosevelt signed an order making reservations of land in Porto Rico for the use of the United States. Lands not reserved accrue to the island government, and will yield about \$500,000, to be used for educational purposes, when sold.

Col. Rochefort, serving with the Abyssinians, Somaliland, has reported an engagement with the forces of the Mad Mullah, in which 10,000 spearmen were killed and almost all their camels, sheep and cattle captured. Co-operation with the British forces is shortly expected by the Abyssinians, when pursuit of the Mullah will be prosecuted. The latter is now crossing a waterless part of the country.

always on duty.

A rigid enforcement of President Roosevelt's order of silence has resulted in a cessation of the news regarding the post office scandal. Postmaster General Payne looks improved in health since the order went into effect.

The State Department Wednesday night issued a statement respecting the assertion authorized by Russia during the afternoon, that the Czar's government "must categorically refuse to receive from any Power any petition" bearing on the Jewish outrages at Kishinef. In the department's statement it is declared that delay in transmitting the petition has been caused solely by the delay of the petitioners in forwarding their petition to the Secretary of State. It is added that the State Department "will not hesitate to give expression to the deep sympathy felt for the unfortunate Jews who have been the victims in the recent appalling massacres and outrages."

What you say is not so interesting to the other woman as what she says to you. When you really understand this you'll soon gain a glorious reputation as a splendid and entertaining friend.

TRIBUTE OF RESPECT.

Dycusburg Lodge No. 282, F. and A. M.—Dycusburg, Ky., May 9, 1903:

Whereas, It has pleased the Supreme Ruler of the universe to call from our midst our beloved Brother, T. O. Owen, to a higher and better life. Therefore, be it—

Resolved, That in his death Dycusburg Lodge No. 232, has lost a faithful member, and an earnest advocate.

Resolved, That we his brethren, extend to the bereaved relatives of our departed brother our heartfelt sympathy, and we assure them that the virtues of their loved one shall live in perpetual memory in our hearts and affections.

Resolved, That these resolutions be spread upon our minute book, and a copy be sent to the bereaved wife and children and a copy sent to the Crittenden Press and the Masonic Home Journal for publication.

Joseph T. Cluck,
O. Boaz,
J. C. Walters,
Committee.

Don't Spend All of Your Money

For things to wear, and on the farm and about the barn, when a few well-directed dollars, exchanged with us for 100 cents worth of Household Goods will add to the comfort, convenience, beauty and attractiveness of the Home and to the pleasure and happiness of every member of the household.

We Have A Great Line of Household Furniture

and our Prices on these goods will enable you to place them where you need them, and besides, they are New and Up-to-date. We carry Bed-room Suits in many styles, Odd Dressers, Bureaus, Wardrobes, Chiffoniers, 100 styles in Rockers, Dining and Reception Chairs, Extension and Center Tables, Safes, Cupboards, etc., etc. Book-cases and Desks, Hall Trees, Hat Racks, Folding Beds.

Wall Paper.

5000 Rolls of the Latest Designs, from 4 to 25 Cents.

Paints, Varnishes and Glass.

Our paint is one of our strong points, because we handle a pure Lead, Zinc and Linseed Oil Paint—the best paint material in the world, when properly mixed. A gallon of S. W. P. is the Cheapest because it is the best. A gallon will cover more square feet, stay on longer and look better than any so called cheap paint. It has been on the market 30 years, has stood all tests and the largest paint consumers in the country use it, and those who use it never complain of the poor results from ready mixed paints.

We carry a complete line of Oil, Varnishes, Wagon and Buggy Paints, Floor Paints and Stains, Enamel Paints and Varnishes for Furniture.

Window Shades.

We Carry the Largest Line, and assortment in town.

Our Undertaking Department

A Complete line of Coffins, Caskets, Robes and Slippers. A good hearse and we prompt attention to calls from any part of the country.

Walker & Dodge.

LYNCHING NEGROES.

Is More Commendable than Remaining Apathetic.

A MINISTER'S STRONG STATEMENT.

Chicago, June 29.—"I am no advocate of lynching or mob law, but I would rather see a community wrought to the highest pitch over crimes that would seem impossible this side of hell, than to remain apathetic," was the startling declaration of Rev. Dr. W. A. Bartlett at the First Congregational church yesterday in the pulpit on "Lynching from Another Point of View."

Dr. Bartlett said among other things: "I have seen so many sermons, editorials and resolutions denouncing lynching and mob law that one gets the impression that the citizens who hang or burn the destroyer of life, home and all that is held sacred by womanhood are the real offenders, rather than the monster whom they destroy."

"We shudder at the torture of the criminal who is burned, but apparently forget to shudder for the innocent girl, whose mental and spiritual agony is tenfold greater than that of the brute. This is not a race problem, except so far as one race are the offenders. The white man who commits the crime is just as guilty."

"The indignant uprising of a community, and some of the best in it, to avenge a wrong of such awful magnitude, may be counted lawless, but the spirit which causes the uprising is the reflection of a higher civilization. There are crimes so dreadful that the pure and the chivalrous and the strong find it well-nigh impossible to endure the thought that such a degenerate should pollute the earth with his presence. It is easy to theorize about the anarchy of mob law, but the same hand which penned the calm editorial might be the first to grasp the torch if it was his mother, wife or daughter who was the victim."

MILK PRESERVED SIX YEARS.

Mr. M. C. Balkcom believes it has been thoroughly proved that milk can be preserved six years or longer without chemical treatment. One of his friends tells how it was proved, and Mr. Balkcom says that his friends' word is not to be questioned.

The friend is a farmer living in Trigg county. He says six years ago he was in the habit of keeping a jug of buttermilk in a well to drink during the day. One morning he let down the jug and the string broke. The water was too deep to think of fishing out the jug, and it was allowed to remain where it fell. Recently the well was cleaned out and the jug was found. In order to see what was the condition of the milk the jug was uncorked and the milk was tasted. It was found to be just as good as it was the day it fell into the well.—Clinton Gazette.

A GLUTTONOUS CONVICT.

Alex. Messer, a lifetime convict from Eddyville, was in Paducah to appear before the Pension Examiners. He wants a raise in his pension from ten to thirty dollars a month. It is his first visit to the city for many years. He was sent up for life from Pike county, fifteen years ago. He was one of the principals in the Hatfield-McCoy feud and is alleged to have tied a McCoy youth to a tree and shot him to death. Messer said today he was innocent. He said that he wanted the increase in pension so he could eat more. The prison officials say he spends all his pension money for food.

SICK ROOM SUGGESTION.

An excellent method of lowering the temperature of a bedroom when it contains an invalid, or a specially sultry night makes sleep impossible, is to soak the window screen with cold water, to which has been added a spoonful of ammonia. Apply the water with a sponge, saturating the netting thoroughly, and repeat the operation in a little while if it seems necessary. In this way the air, which enters the room is cooled and purified.—July Woman's Home Companion.

HE FOOLED THEM.

Yellow puccoon is a root that brings a good price in the market and there is no trouble in disposing of the stuff, but the Madisonville market at present is a little overflooded. A fellow from the country came in a week or two since with over a hundred pounds of what he called yellow puccoon. A buyer bought it and paid well for it. In a few days he returned with another big lot, and tried to sell to the same man he had sold to before, but the buyer was suspicious. The puccoon man, however, found a buyer and unloaded. He came back in a few days with another lot and soaked the third dealer. It was discovered that it was not puccoon, but some other root that will hardly pay the expense of the shipping. The buyers are now a little particular as to how they purchase the yellow root. Madisonville Graphic.

Bradley's Pardoning Record.

Anent the question of pardons, which seems to be desired as the principal issue in the gubernatorial race by the Republicans, here is a statement of four years of the Bradley regime in Kentucky: Murders committed.....816 Convictions for murder.....385 Pardons of Murderers.....216

LATEST NEWS.

Two Alabama farmers were sentenced to the penitentiary for one year and a day on pleading guilty to the charge of peonage.

The fund for the benefit of B. J. Ewen and family subscribed through the Courier-Journal is now \$2,300.

The official estimate of the postal deficiency for the fiscal year just closed, is \$4,617,202. It is attributed to increased expenditures for rural free delivery.

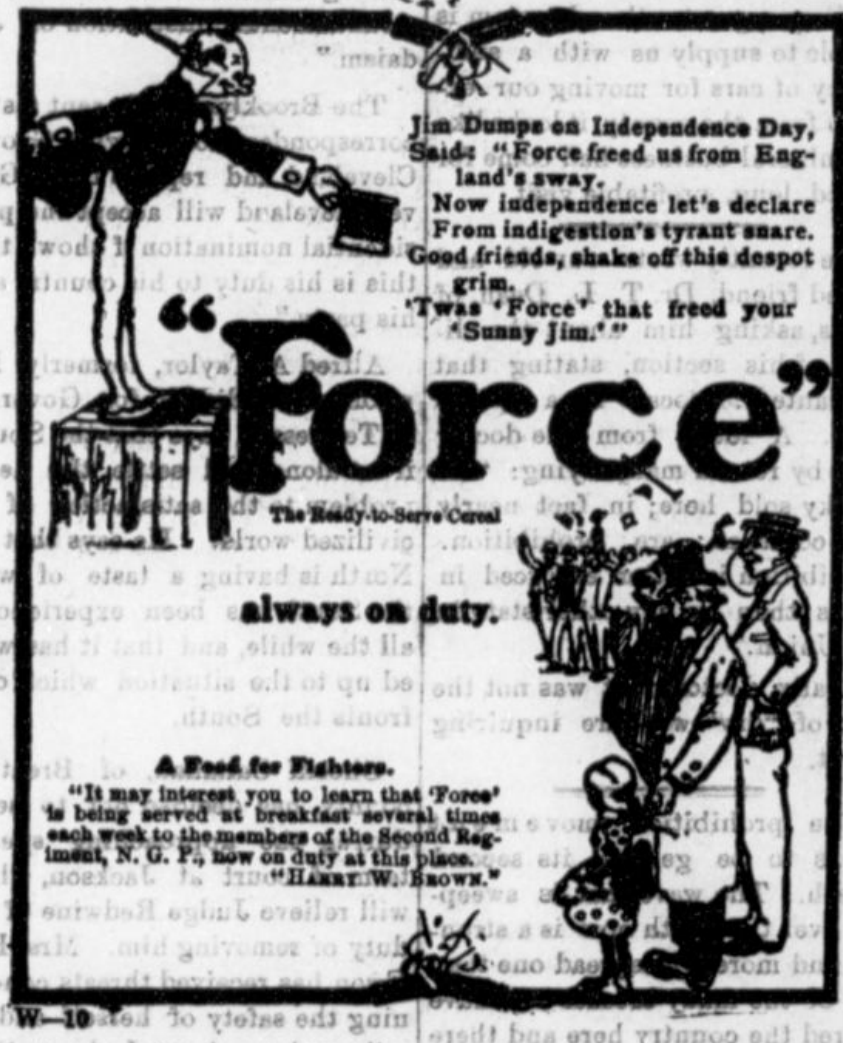

The treaty between Cuba and the United States, placing the Isle of Pines under Cuban sovereignty and ceding to the United States naval and coaling stations, was signed at Havana July 21, at noon.

After a period of intense heat, which caused four deaths and numerous heat prostrations in New York, that city was visited by a terrific electric storm. Much damage was done and three persons were killed in the confusion.

Additional clerk appointments and promotions in the postal service became effective July 1st, thereby increasing the salary rolls over \$1,000,000. There were also put into effect \$96 new rural free delivery routes, making a total of nearly 16,000 routes now in operation.

President Roosevelt signed an order making reservations of land in Porto Rico for the uses of the United States. Lands not reserved accrue to the island government, and will yield about \$500,000, to be used for educational purposes, when sold.

Col. Rochefort, serving with the Abyssinians, Somaliland, has reported an engagement with the forces of the Mad Mullah, in which 10,000 spearmen were killed and almost all their camels, sheep and cattle captured. Co-operation with the British forces is shortly expected by the Abyssinians, when pursuit of the Mullah will be prosecuted. The latter is now crossing a waterless part of the country.

OBITUARIES:—Not exceeding 10 lines will be published free of charge. All over 10 lines at 5 cents per line. RESOLUTIONS OF RESPECT:—\$1.00

Even the heavens are contributing material things to our great mineral collections.

Illinois, Indiana and Delaware are setting a pace that calls to mind the fate of "Poor Lo."

We are glad the railroad people are adding a charm to our local news pages these warm days. Something substantial will come out of all this yet.

The new school houses of this year speak well of those in charge of our educational affairs. Trustees are taking more interest than ever in their work.

The Chicago Journal puts it tersely thus:

"Some people seem to overlook the fact that the average victim is lynched not because his body, but his soul is black."

Judge Parker, the New York possibility, was paying the Democrats of Georgia a visit last week. He must have been gratified at the reception tendered him—it was a royal one.

The green goods men have gone into their hole, but they have not filled the hole they made in other people's pockets. They should be advised that the scriptures teach the doctrine of restitution.

When a great railroad system is unable to supply us with a sufficiency of cars for moving our exports from the county, it looks like the mineral business had come for a good, long, profitable visit.

We recently wrote our old and valued friend, Dr. T. L. Dean, of Texas, asking him about the climate of his section, stating that we wanted to locate in a dry climate. A letter from the doctor came by return mail, saying: "No wisky sold here; in fact nearly 100 counties are prohibition. Prohibition is better enforced in Texas than in any other state in the Union."

Really, doctor, that was not the kind of "dry" we were inquiring about.

The prohibition movement seems to be getting its second breath. The wave that is sweeping over the south now is a stronger and more widespread one than any of the many breezes that have stirred the country here and there at intervals for years past. Public sentiment has been forming, and every recurring effort of the temperance people is stronger. Some of these days Kentucky will line up as a prohibition State and there will be a public sentiment behind the majority of voters of sufficient power to enforce the law.

The governor of Indiana now has a pressing demand for his boasted statesmanship, his love of equity, his yearning for justice, his love of home and country and that broad catholic spirit that knows no difference in race or condition. He should not only see that law and order is restored in Evansville, but that the colored citizens who have been run out of the city are invited back to their homes and given every protection known to the law and that there is a restoration of their destroyed property. That the innocent of the colored race should be made to suffer material loss, and forced to surrender their homes because of the sins of the depraved wretch who killed the policeman, is an injustice that Gov. Durbin in the plenitude of his love of justice, to say nothing of his mercies, can not tolerate and we shall expect some heroic action equal to the occasion.

Since Evansville has the floor in her race war, the little unco pastime of Breathitt county looks like a plugged ten cent piece.

Colonial flower gardens are to be constructed to correspond with the colonial Whitehouse. A colonial man like Gorman, for instance, should be thrown in as president to get perfect harmony.

Mr. A. E. Willson, candidate for the Republican nomination for governor, is raising a kick about the treatment the committee is giving him in Louisville. His complaint sounds powerfully like some publications just prior to a primary election held in Louisville some time ago. Machines or kickers are not confined to any particular party in Louisville—the lambent air is usually laden with sulphurous odors about the Falls City, whenever there is a brew of politics on hand.

LATEST NEWS.

Twenty thousand teachers are attending the convention of the National Educational Association in Boston.

Tom Hamilton will give an ice cream supper at Irvin Thompson's, 2 miles north of Sheridan, next Saturday night. Everybody cordially invited.

It is said that Bourke Cockran may renounce his American citizenship and accept a seat with the Irish party in the British Parliament.

The Central Conference of American Rabbis, in session at Detroit, after a debate lasting several hours declared itself in favor of "maintaining the historical Sabbath as a fundamental institution of Judaism."

The Brooklyn Eagle sent a staff correspondent to interview Grover Cleveland, and reports that "Grover Cleveland will accept the presidential nomination if shown that this is his duty to his country and his party."

Alfred A. Taylor, formerly Republican candidate for Governor of Tennessee, says that the South, if let alone, will settle the negro problem to the satisfaction of the civilized world. He says that the North is having a taste of what the South has been experiencing all the while, and that it has waked up to the situation which confronts the South.

Sheriff Callahan, of Breathitt county, has decided not to serve during the approaching special term of court at Jackson, which will relieve Judge Redwine of the duty of removing him. Mrs. B. J. Ewen has received threats concerning the safety of herself and family and may leave Jackson. Subscriptions to the fund for reimbursing Capt. Ewen for the loss of his hotel amount to about \$7,000.

The Democratic State Executive Committee met Saturday at Frankfort for the purpose of auditing and paying claims for expenses incurred in the State primary of May 9. It was found that the expenses aggregate \$19,684, which was \$3,684 in excess of the estimates. The Democratic nominees on the State ticket were assessed this amount to make up the deficit. Chairman Young refused to give out a detailed list of the claims.

The Fourth of July was generally celebrated in all the large cities and towns of the United States. At Washington an official observance was held, Secretary Moody being the principal speaker. M. Jusseread, the French Ambassador, was a guest of honor. Tammany Hall observed the day with a patriotic celebration in which a letter from former President Cleveland was read, and addresses were made by Senator Bailey, former Senator Charles A. Towne and others. In European capitals the day was generally observed.

RACE WAR IN EVANSVILLE

Soldiers Fire On Mob and Six are Killed and Many Wounded—Riotous Scenes—Result of the Murder of Policeman Massey.

NEGROES FLEEING FROM THE CITY!

Evansville has been in the midst of a fierce race war for several days, as a result of the murder of Patrolman Massey Friday night by Lee Brown, a negro. Excitement has been intense, and after the arrest of Brown the jail was guarded night and day.

Friday night a lynching was feared, and the mob that surrounded the jail during the night was held at bay only by the ready weapons of dozens of deputies. Sunday an outbreak was feared and the negro was secretly removed from the jail and taken to Vincennes, where he now lies in jail at the point of death from his wounds.

It took twenty-five policemen to prevent the lynching at the jail Saturday night, but their bravery was not sufficient to avert the bitter race war.

The mobs smashed down iron gates and were part of the way into the jail before they were repulsed by the police. Their efforts to lynch Brown aroused the enmity of the negroes, who gathered about the jail Sunday afternoon and made threatening demonstrations. The negroes were chased away by a crowd of white men. Mutterings of revenge were heard and a clash followed.

Riotous scenes occurred all day Monday, and as a result of the militia firing upon a mob in front of the jail Monday night six were killed and twenty-five or more were injured; several of the injured will die. The mob was very noisy. Numerous incendiary speeches were made. An attempt was made to break the line of soldiers around the jail.

Finally some one threw a rock and struck a soldier in the neck, and he fell. A pistol shot was then heard and the firing became general. There was a mad rush for safety, and it has been proved since that most of the injured were wounded while running away.

As the crowd fled some of the mob turned and opened on the soldiers and five wounded militiamen are now in hospitals, as are many of the other wounded, although numbers of the latter were taken to their homes by friends. When the street was cleared of the fleeing crowd it resembled a slaughter pen, the dead and wounded being strewn all over the street.

Gov. Durbin authorized the sheriff to swear in one thousand deputies if necessary.

Negroes have been leaving Evansville in great numbers on every boat and train. Hundreds have come to Kentucky.

Among those killed Monday night was little Hazel Allman, a little girl; her breast was torn away by a load of buckshot.

The little girl had driven with her father and mother, Mr. and Mrs. Allman, from her home, only a few minutes before the shooting occurred. They were in a single buggy, three on the seat and stopped to see the mob as it surged to and fro.

The buggy had hardly stopped before the shooting began. A bullet evidently from the steps of the court house struck the girl in her left breast.

No one knows who fired the first shot. The soldiers claim it was the rioters, while the rioters make no claims and refuse to talk about it. The governor is said to have instructed the authorities not to jeopardize the safety of the jail with half-way measures.

Evansville was quiet last night. There was nothing to indicate that for the last few days scenes of violence had been enacted or that an angry mob had but the night before attacked and been repulsed with awful loss of life by the militia guarding the county jail.

Few people were out during the day, but occasionally crowds of young people would assemble about the picket lines despite the fact that many of the onlookers Monday night had been killed or wounded.

The negroes who still remained in the city went about the streets quietly, and no clash between them and the whites occurred. Negroes walked the streets with the same freedom as before the trouble began.

The negro, Lee Brown, has been removed from Vincennes to Jeffersonville where he was placed in the penitentiary.

Extra troops are on duty. It is hoped that the worse is over.

REPUBLICAN

County Conventions Saturday—Belknap the Favorite.

The Republicans will hold county conventions throughout the State Saturday for the purpose of selecting delegates to the State convention which will be held in Louisville July 15th. Belknap has the support of Senator Deboe and the leading Republicans here, and it is safe to say that he will receive the entire delegate vote of Crittenden county in the convention at Louisville next week. It is very probable that Belknap will be the Republican nominee for governor, though Pratt and Willson are making strong efforts to land the nomination. Crittenden county will be entitled to eighteen delegates.

DELEGATE CONVENTION.

At Marion July 27, to Nominate Candidate for Legislature.

The delegates to be chosen Saturday, July 11, to nominate a Republican candidate for the legislature, for the counties of Crittenden and Livingston, are hereby called to meet at the court house in Marion, Ky., on Monday, July 27, 1903, at 1 o'clock, p. m., for the purpose of making said nomination.

J. FRANK CONGER, Ch'n.

LEVIAS.

Bro. J. S. Henry preached to a large congregation at Union Sunday.

Richard Bebout and sister, of Sheridan attended church here Sunday.

Miss Millie Eaton, of Salem, is visiting Miss Zetta Price, of Levias.

The Keystone Mining Co., is doing good work on the J. B. Carter farm.

G. B. Taylor has over one hundred thousand brick made and in kiln on his farm. He will soon be ready to supply the builders with good material for constructing houses.

The school house question has not been settled yet owing to the fact that so many people are contrary and do not look to the interest of the majority but look to self interest. We hope that prejudice may be left off and the matter settled as near as possible to accommodate the children.

Dr. T. M. Radcliff, of Loia, Ky., has located in our village to practice his profession. We are glad to welcome him in our midst as a citizen as well as a doctor.

Carson Franklin and Will Davidson returned from Hancock county last week, and report a favorable sale of buggy braces.

L. L. Price and C. C. McClur have been on the sick list.

Miss Susie Boston, of Marion, is visiting Misses Addie and Glenn Carter.

BAKER.

Quite a number of young folks went to Sturgis Saturday.

R. L. Drury and family visited G. T. Drury and family Sunday.

Rev G. S. Davis returned from Texas last week.

Charley Lucas, of Webster, was visiting at Rosebud Sunday.

F. E. Davis says that all of his young quails are dead except one, and its leg is broken.

If the mysterious Rosebud correspondent of last week would pay a little more attention to the accuracy of his own ludicrous "reasons" perhaps he would not be submitted to criticism like others. His "reasons" why the young lady was second in the contest was erroneous, as there was some five or six contestants.

SCHOOL CENSUS.

More than Five Thousand School Children in the County.

The annual school census was taken several weeks ago. The enumeration shows that there are 5221 children within the school age in Crittenden, 4883 white children and 335 colored. There are sixty-eight white schools and nine colored schools in the county.

In the Marion school district, according to the recent census, there are 416 white children within the school age.

\$15.68 Evansville to Hot Springs Ark., and Return.

On July 7th and 21st, August 4th and 18th, and September 1st and 15th the Illinois Central Railroad will sell tickets from Evansville, Ind., or Henderson, Ky., to Hot Springs, Ark., and return for \$15.68. Return limit 21 days from date of sale, with privilege of extension of limit to 90 days by paying difference between the above rate and regular excursion rate.

F. R. WICKLER, C. P. & T. A., 129 Main St., Evansville, Ind.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
Bottles only \$1.00. Size holding 2 1/2 times the trial size, which sells for 50 cents.
Prepared by E. O. DEWITT & CO., CHICAGO

THE END IS NEAR.

Pope Leo XIII in a Dying Condition—An Operation Performed.

THE CLOSE OF A GREAT LIFE.

His Holiness Pope Leo XIII head of the Roman Catholic church is in a dying condition, and Dr. Mazzoni, the Pope's favorite physician, in an interview yesterday afternoon admitted that he had given up all hope of saving the Pope's life. Pleurisy had developed in addition to his pneumonia, and an operation was found to be necessary. Although he is still very low, the aged pontiff remains conscious, and continues to take a lively interest in mundane

affairs. He realizes, however, that the end is near, and has so informed his physician.

His Holiness is ninety-three years old and has been Pope twenty-five years. Great activity is being displayed by the Cardinals, from among whom a successor to Leo will be chosen. Telegrams are said to have passed between members of the Sacred College in Rome and those abroad, Cardinal Rampolla is thought to have the best chance.

Former Governor Stephens, of Missouri, states that during his term of office Col. Ed. Butler, offered him \$20,000 if he would appoint his son, James Butler, to the position of Excise Commissioner of St. Louis.

Durbin in the plenitude of his love of justice, to say nothing of his merities, can not tolerate and we shall expect some heroic action equal to the occasion.

Since Evansville has the floor in her race war, the little unco pastime of Breathitt county looks like a plugged ten cent piece.

Colonial flower gardens are to be constructed to correspond with the colonial Whitehouse. A colonial man like Gorman, for instance, should be thrown in as president to get perfect harmony.

Mr. A. E. Willson, candidate for the Republican nomination for governor, is raising a kick about the treatment the committee is giving him in Louisville. His complaint sounds powerfully like some publications just prior to a primary election held in Louisville some time ago. Machines or kickers are not confined to any particular party in Louisville—the lambent air is usually laden with sulphurous odors about the Falls City, whenever there is a brew of politics on hand.

LATEST NEWS.

Twenty thousand teachers are attending the convention of the National Educational Association in Boston.

Tom Hamilton will give an ice cream supper at Irvin Thompson's, 2 miles north of Sheridan, next Saturday night. Everybody cordially invited.

It is said that Bourke Cockran may renounce his American citizenship and accept a seat with the Irish party in the British Parliament.

The Central Conference of American Rabbis, in session at Detroit, after a debate lasting several hours declared itself in favor of "maintaining the historical Sabbath as a fundamental institution of Judaism."

The Brooklyn Eagle sent a staff correspondent to interview Grover Cleveland, and reports that "Grover Cleveland will accept the presidential nomination if shown that this is his duty to his country and his party."

Alfred A. Taylor, formerly Republican candidate for Governor of Tennessee, says that the South, if let alone, will settle the negro problem to the satisfaction of the civilized world. He says that the North is having a taste of what the South has been experiencing all the while, and that it has waked up to the situation which confronts the South.

Sheriff Callahan, of Breathitt county, has decided not to serve during the approaching special term of court at Jackson, which will relieve Judge Redwine of the duty of removing him. Mrs. B. J. Ewen has received threats concerning the safety of herself and family and may leave Jackson. Subscriptions to the fund for reimbursing Capt. Ewen for the loss of his hotel amount to about \$7,000.

The Democratic State Executive Committee met Saturday at Frankfort for the purpose of auditing and paying claims for expenses incurred in the State primary of May 9. It was found that the expenses aggregate \$19,684, which was \$3,684 in excess of the estimates. The Democratic nominees on the State ticket were assessed this amount to make up the deficit. Chairman Young refused to give out a detailed list of the claims.

The Fourth of July was generally celebrated in all the large cities and towns of the United States. At Washington an official observance was held, Secretary Moody being the principal speaker. M. Jussarsand, the French Ambassador, was a guest of honor. Tammany Hall observed the day with a patriotic celebration in which a letter from former President Cleveland was read, and addresses were made by Senator Bailey, former Senator Charles A. Towne and others. In European capitals the day was generally observed.

RACE WAR IN EVANSVILLE

Soldiers Fire On Mob and Six are Killed and Many Wounded—Riotous Scenes—Result of the Murder of Policeman Massey.

NEGROES FLEEING FROM THE CITY!

Evansville has been in the midst of a fierce race war for several days, as a result of the murder of Patrolman Massey Friday night by Lee Brown, a negro. Excitement has been intense, and after the arrest of Brown the jail was guarded night and day.

Friday night a lynching was feared, and the mob that surrounded the jail during the night was held at bay only by the ready weapons of dozens of deputies. Sunday an outbreak was feared and the negro was secretly removed from the jail and taken to Vincennes, where he now lies in jail at the point of death from his wounds.

It took twenty-five policemen to prevent the lynching at the jail Saturday night, but their bravery was not sufficient to avert the bitter race war.

The mobs smashed down iron gates and were part of the way into the jail before they were repulsed by the police. Their efforts to lynch Brown aroused the enmity of the negroes, who gathered about the jail Sunday afternoon and made threatening demonstrations. The negroes were chased away by a crowd of white men. Mutterings of revenge were heard and a clash followed.

Riotous scenes occurred all day Monday, and as a result of the militia firing upon a mob in front of the jail Monday night six were killed and twenty-five or more were injured; several of the injured will die. The mob was very noisy. Numerous incendiary speeches were made. An attempt was made to break the line of soldiers around the jail.

Finally some one threw a rock and struck a soldier in the neck, and he fell. A pistol shot was then heard and the firing became general. There was a mad rush for safety, and it has been proved since that most of the injured were wounded while running away.

As the crowd fled some of the mob turned and opened on the soldiers and five wounded militiamen are now in hospitals, as are many of the other wounded, although numbers of the latter were taken to their homes by friends.

When the street was cleared of the fleeing crowd it resembled a slaughter pen, the dead and wounded being strewn all over the street.

Gov. Durbin authorized the sheriff to swear in one thousand deputies if necessary.

Negroes have been leaving Evansville in great numbers on every boat and train. Hundreds have come to Kentucky.

Among those killed Monday night was little Hazel Allman, a little girl; her breast was torn away by a load of buckshot.

The little girl had driven with her father and mother, Mr. and Mrs. Allman, from her home, only a few minutes before the shooting occurred. They were in a single buggy, three on the seat and stopped to see the mob at it surged to and fro.

The buggy had hardly stopped before the shooting began. A bullet evidently from the steps of the court house struck the girl in her left breast.

No one knows who fired the first shot. The soldiers claim it was the rioters, while the rioters make no claims and refuse to talk about it. The governor is said to have instructed the authorities not to jeopardize the safety of the jail with half-way measures.

Evansville was quiet last night. There was nothing to indicate that for the last few days scenes of violence had been enacted or that an angry mob had but the night before attacked and been repulsed with awful loss of life by the militia guarding the county jail.

Few people were out during the day, but occasionally crowds of young people would assemble about the picket lines despite the fact that many of the onlookers Monday night had been killed or wounded.

Three of the many injured Monday night died Tuesday, and others cannot live.

The negroes who still remained in the city went about the streets quietly, and no clash between them and the whites occurred. Negroes walked the streets with the same freedom as before the trouble began.

The negro, Lee Brown, has been removed from Vincennes to Jeffersonville where he was placed in the penitentiary.

Extra troops are on duty. It is hoped that the worse is over.

THE END IS NEAR.

Pope Leo XIII in a Dying Condition—An Operation Performed.

THE CLOSE OF A GREAT LIFE.

His Holiness Pope Leo XIII head of the Roman Catholic church is in a dying condition, and Dr. Mazzoni, the Pope's favorite physician, in an interview yesterday afternoon admitted that he had given up all hope of saving the Pope's life. Pleurisy had developed in addition to his pneumonia, and an operation was found to be necessary. Although he is still very low, the aged pontiff remains conscious, and continues to take a lively interest in mundane

Former Governor Stephens, of Missouri, states that during his term of office Col. Ed. Butler, offered him \$20,000 if he would appoint his son, James Butler, to the position of Excise Commissioner of St. Louis.

300 prs mens black lace stripe French hse socks. A splendid 25c sock for only 14c at CLIFTONS.

REPUBLICAN

County Conventions Saturday—Belknap the Favorite.

The Republicans will hold county conventions throughout the State Saturday for the purpose of selecting delegates to the State convention which will be held in Louisville July 15th. Belknap has the support of Senator Deboe and the leading Republicans here, and it is safe to say that he will receive the entire delegate vote of Crittenden county in the convention at Louisville next week. It is very probable that Belknap will be the Republican nominee for governor, though Pratt and Willson are making strong efforts to land the nomination. Crittenden county will be entitled to eighteen delegates.

DELEGATE CONVENTION,

At Marion July 27, to Nominate Candidate for Legislature.

The delegates to be chosen Saturday, July 11, to nominate a Republican candidate for the legislature, for the counties of Crittenden and Livingston, are hereby called to meet at the court house in Marion, Ky., on Monday, July 27, 1903, at 1 o'clock, p. m., for the purpose of making said nomination.

J. FRANK CONGER, Ch'n

LEVIAS.

Bro. J. S. Henry preached to a large congregation at Union Sunday.

Richard Bebout and sister, of Sheridan attended church here Sunday.

Miss Millie Eaton, of Salem, is visiting Miss Zetta Price, of Levias.

The Keystone Mining Co., is doing good work on the J. B. Carter farm.

G. B. Taylor has over one hundred thousand brick made and in kiln on his farm. He will soon be ready to supply the builders with good material for constructing houses.

The schoolhouse question has not been settled yet owing to the fact that so many people are contrary and do not look to the interest of the majority but look to self interest. We hope that prejudice may be left off and the matter settled as near as possible to accommodate the children.

Dr. T. M. Radcliff, of Lola, Ky., has located in our village to practice his profession. We are glad to welcome him in our midst as a citizen as well as a doctor.

Carson Franklin and Will Davidson returned from Hancock county last week, and report a favorable sale of buggy braces.

L. L. Price and C. C. McClur have been on the sick list.

Miss Susie Boston, of Marion, is visiting Misses Addie and Glenn Carter.

BAKER.

Quite a number of young folks went to Sturgis Saturday.

R. L. Drury and family visited G. T. Drury and family Sunday.

Rev G. S. Davis returned from Texas last week.

Charley Lucas, of Webster, was visiting at Rosebud Sunday.

F. E. Davis says that all of his young quails are dead except one, and its leg is broken.

If the mysterious Rosebud correspondent of last week would pay a little more attention to the accuracy of his own ludicrous "reasons" perhaps he would not be submitted to criticism like others. His "reasons" why the young lady was second in the contest was erroneous, as there was some five or six contestants.

SCHOOL CENSUS.

More than Five Thousand School Children in the County.

The annual school census was taken several weeks ago. The enumeration shows that there are 5221 children within the school age in Crittenden, 4886 white children and 335 colored. There are sixty-eight white schools and nine colored schools in the county.

In the Marion school district, according to the recent census, there are 416 white children within the school age.

\$15.68 Evansville to Hot Springs Ark., and Return.

On July 7th and 21st, August 4th and 18th, and September 1st and 15th the Illinois Central Railroad will sell tickets from Evansville, Ind., or Henderson, Ky., to Hot Springs, Ark., and return for \$15.68. Return limit 21 days from date of sale, with privilege of extension of limit to 90 days by paying difference between the above rate and regular excursion rate.

F. R. WHEELER, C. P. & T. A., 126 Main St., Evansville, Ind.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
Bottles only, \$1.00 Size holding 2 1/2 times the trial size, which sells for 50 cents.

Don't forget that we handle the famous McInney Bread.

'Phone 28. H. F. MORRIS & SON. Goods Promptly Delivered to any Part of the City.

STEVE NATION DEAD.

Well Known Young Man Dies Suddenly at Fords Ferry.

Sunday morning his many friends in this city were shocked by the sad intelligence of the sudden death of Mr. Stephen Nation, of Fords Ferry.

On Saturday evening Mr. Nation retired to his room after working all day, to bathe and dress a wound in his side caused by an abscess, which formed as a result of a serious attack of fever a few years ago. Members of the family heard unusual sounds in the young man's room and on entering the room found that Mr. Nation had fallen to the floor. He died in a few minutes without speaking. Death was caused by the rupture of a blood vessel in or near the wound.

The funeral services were conducted at Dunn Springs church Monday, in the presence of hundreds of friends. The deceased was a member of Blackwell Lodge, No. 37, K. of P., of this city, and a member of Zion Hill Lodge No. 371, F. & A. M. A large number of the members of the two lodges attended the funeral.

Mr. Nation was postmaster at Fords Ferry and also had charge of a mercantile house at that place. He was a son of Mr. William Nation, 29 years old, and unmarried. He was a young gentleman of high moral character, and was well and favorably known in many sections of the county.

REV. COOCH DEAD.

A Well Known Baptist Minister Passes Away.

Rev. Charles I. Gooch died at his home at Blackford on Wednesday of last week.

He was prominent in church circles, popular as a preacher and loved and admired as a man and a christian. He was forty-six years old and had been preaching eighteen years. He leaves a wife and two daughters. His wife was a daughter of the late C. L. Curry, formerly warden of the Eddyville prison.

THE INSTITUTE

Will Be Held During the Week Beginning Aug. 17.

The Crittenden County Teacher's Institute will be held at Marion during the week beginning August 17th. All persons who have certificates or who expect to be examined for certificates to teach are expected to attend.

Jno. B. Paris, Supt.

THE MEETING OVER.

Concluding Services of the Revival Wednesday Evening.

The series of revival services came to a close at the opera house Wednesday night, after being in progress nearly three weeks. The meeting resulted in great good. The ministers of the various denominations worked together faithfully and the bonds of love and friendship existing between the churches were greatly strengthened. There were about fifteen conversions.

ACCEPTS ANOTHER CALL.

Rev S. J. Martin, pastor of the Presbyterian church at this place, who has served his little flock faithfully and well for the past four years, has accepted a call as stated supply of the First Presbyterian church of Marion, Ky., and left with his family last Thursday morning for that place.

The announcement of Bro. Martin's anticipated change, which came to us only a short time ago, was indeed an unpleasant surprise, as almost every one who knew him had, because of his devotion to his work, pleasing personality and strict attention to his own business, became to love him, all of whom regret to lose from our town and community such estimable people. We heartily commend this good christian family to the good people of Marion, and extend our very best wishes for success in their new field of labor.—Delta Democrat, Tunica, Miss.

Another Precinct Heard From.

The Cave-in-Rock Era of July 3 has the following:

"Joe Walker rented property from Mrs C. A. Shelby and was to have moved to town Monday, but being quietly told by our citizenship he best not do it—he didn't. This is right, too. Check the negro influx upon a town at all times and you have no cause of after regret. Walker is a good, quiet old colored man, but Cave-in-Rock doesn't need him as a resident, for precedent's sake.

We not only promise to save you money, but we'll show you the saving. You'll never find us too high on a single item and on many goods you will always find us much lower than same can be bought elsewhere, in other words you will always find us with more bargains and better bargains than you can get elsewhere. CLIFTONS

MYSTERIOUS ACTIONS

Of a Stranger With His Throat Cut—Bloody Vest Found.

Several days ago the team a man was working in a field on the Dollar farm in Caldwell county, near the Crittenden county line, became frightened at some object in a fence corner. The driver started to investigate, when a man sprang out of the corner into the road. He stopped to let a man on a horse pass. It was noticed that he wore a rough bandage around his neck and acted very suspiciously. He walked on up the road. In the fence corner, it is reported a bloody vest was found. In a pocket was found a gold watch.

The authorities at Fredonia were notified of the man's strange actions and the bloody vest was turned over to them. Marshal McCullom, of Fredonia, tracked the man to this city, but declined to arrest him, as he could make no direct charge against him. A report in circulation that a man had been cut up and robbed in Caldwell county was not substantiated. The injured man was seen by several parties here. He is described as being about six feet tall, light hair and mustache, weighing about 200 pounds. The stranger left Marion and late in the evening reached the home of John Riley southwest of town. Mr. Riley told Marshal Cannan that he asked for something to eat at his house. His throat was seriously cut, and he talked and breathed with the greatest difficulty. He refused to let Mr. Riley send for a physician, saying that he could get along without one. On being invited to remain over night he said that he preferred not to do so but would call for breakfast, which he did. He declined to say much about his injuries, merely stating that some parties took advantage of him while asleep and cut him. He seemed to have plenty of money. He had a son of Mr. Riley's to take him to the Ohio river and crossed into Illinois. Mr. Riley, aroused by the stranger's suspicious and peculiar actions, came to town and notified the authorities. The affair is a very mysterious one. Evidently the man is guilty of some crime; at least his strange actions would lead to that conclusion. It is said that his description tallies with that of one of the three men who escaped from the Eddyville jail recently.

Don't forget that we handle the famous Mci nney Bread.

'Phone 28. H. F. MORRIS & SON.

Goods Promptly Delivered to any Part of the City.

STEVE NATION DEAD.

Well Known Young Man Dies Suddenly at Fords Ferry.

Sunday morning his many friends in this city were shocked by the sad intelligence of the sudden death of Mr. Stephen Nation, of Fords Ferry.

On Saturday evening Mr. Nation retired to his room after working all day, to bathe and dress a wound in his side caused by an abscess, which formed as a result of a serious attack of fever a few years ago. Members of the family heard unusual sounds in the young man's room and on entering the room found that Mr. Nation had fallen to the floor. He died in a few minutes without speaking. Death was caused by the rupture of a blood vessel in or near the wound.

The funeral services were conducted at Dunn Springs church Monday, in the presence of hundreds of friends. The deceased was a member of Blackwell Lodge, No. 57, K. of P., of this city, and a member of Zion Hill Lodge No. 371, F. & A. M. A large number of the members of the two lodges attended the funeral.

Mr. Nation was postmaster at Fords Ferry and also had charge of a mercantile house at that place. He was a son of Mr. William Nation, 29 years old, and unmarried. He was a young gentleman of high moral character, and was well and favorably known in many sections of the county.

REV. GOOCH DEAD.

A Well Known Baptist Minister Passes Away.

Rev. Charles L. Gooch died at his home at Blackford on Wednesday of last week.

He was prominent in church circles, popular as a preacher and loved and admired as a man and a christian. He was forty-six years old and had been preaching eighteen years. He leaves a wife and two daughters. His wife was a daughter of the late C. L. Curry, formerly warden of the Eddyville prison.

THE INSTITUTE

Will Be Held During the Week Beginning Aug. 17.

The Crittenden County Teacher's Institute will be held at Marion during the week beginning August 17th. All persons who have certificates or who expect to be examined for certificates to teach are expected to attend.

JNO. B. PARIS, Supt.

THE MEETING OVER.

Concluding Services of the Revival Wednesday Evening.

The series of revival services came to a close at the opera house Wednesday night, after being in progress nearly three weeks.

The meeting resulted in great good. The ministers of the various denominations worked together faithfully and the bonds of love and friendship existing between the churches were greatly strengthened. There were about fifteen conversions.

ACCEPTS ANOTHER CALL.

Rev S. J. Martin, pastor of the Presbyterian church at this place, who has served his little flock faithfully and well for the past four years, has accepted a call as stated supply of the First Presbyterian church of Marion, Ky., and left with his family last Thursday morning for that place.

The announcement of Bro. Martin's anticipated change, which came to us only a short time ago, was indeed an unpleasant surprise, as almost every one who knew him had, because of his devotion to his work, pleasing personality and strict attention to his own business, became to love him, all of whom regret to lose from our town and community such estimable people. We heartily commend this good christian family to the good people of Marion, and extend our very best wishes for success in their new field of labor.—Delta Democrat, Tunica, Miss.

Another Precinct Heard From.

The Cave-in-Rock Era of July 3 has the following:

"Joe Walker rented property from Mrs. C. A. Shelby and was to have moved to town Monday, but being quietly told by our citizenship he best not do it—he didn't. This is right, too. Check the negro influx upon a town at all times and you have no cause of after regret. Walker is a good, quiet old colored man, but Cave-in-Rock doesn't need him as a resident, for precedent's sake.

We not only promise to save you money, but we'll show you the saving. You'll never find us too high on a single item and on many goods you will always find us much lower than same can be bought elsewhere, in other words you will always find us with more bargains and better bargains than you can get elsewhere. CLIFTONS

MYSTERIOUS ACTIONS

Of a Stranger With His Throat Cut—Bloody Vest Found.

Several days ago the team a man was working in a field on the Dollar farm in Caldwell county, near the Crittenden county line, became frightened at some object in a fence corner. The driver started to investigate, when a man sprang out of the corner into the road. He stopped to let a man on a horse pass. It was noticed that he wore a rough bandage around his neck and acted very suspiciously. He walked on up the road. In the fence corner, it is reported a bloody vest was found. In a pocket was found a gold watch. The authorities at Fredonia were notified of the man's strange actions and the bloody vest was turned over to them. Marshal McCullom, of Fredonia, tracked the man to this city, but declined to arrest him, as he could make no direct charge against him. A report in circulation that a man had been cut up and robbed in Caldwell county was not substantiated. The injured man was seen by several parties here. He is described as being about six feet tall, light hair and mustache, weighing about 200 pounds. The stranger left Marion and late in the evening reached the home of John Riley southwest of town. Mr. Riley told Marshal Cannan that he asked for something to eat at his house. His throat was seriously out, and he talked and breathed with the greatest difficulty. He refused to let Mr. Riley send for a physician, saying that he could get along without one. On being invited to remain over night he said that he preferred not to do so but would call for breakfast, which he did. He declined to say much about his injuries, merely stating that some parties took advantage of him while asleep and cut him. He seemed to have plenty of money. He had a son of Mr. Riley's to take him to the Ohio river and crossed into Illinois. Mr. Riley, aroused by the stranger's suspicious and peculiar actions, came to town and notified the authorities. The affair is a very mysterious one. Evidently the man is guilty of some crime; at least his strange actions would lead to that conclusion. It is said that his description tallies with that of one of the three men who escaped from the Eddyville jail recently.

GUS HYATT,

The Noted Outlaw Said to be Frequenting His Old Haunts.

Madisonville, July 4th.—It is reported that Gus Hyatt, the noted outlaw and train robber, who in the past years has won so much notoriety in this section, has been seen by various parties in these parts again.

It will be remembered that Hyatt, by the use of explosives, blew a hole in the prison wall of the state penitentiary at Nashville, Tenn., last year, and freed several convicts, standing the guards off with two revolvers.

Hyatt has several friends in this section, but more enemies than friends. He is considered by the people of this section to be equal to Harry Tracey.

He put up one of the most daring fights ever known in this section, about four years ago in Union county, when deputy sheriffs of that county and six or seven other men tried to take him into custody, which fight resulted in the death of the deputy sheriff and the retreat of the remainder of the posse, and Hyatt was uninjured and escaped.

It was said that the hold-up of the fast express between Guthrie, Ky., and Clarksville, Tenn., was one of the most daring train robberies ever before perpetrated; he, single handed, took complete control of the train for several minutes, until he availed himself of all the money and valuables on board the train. This adventure led to his arrest.

There is a standing reward for his arrest, and it is said the express companies will give \$5,000 for him, dead or alive.

ABOUT WOMEN,

Radium was discovered by a woman.

One-sixth of the landowners in Great Britain are women.

The girl with the shovel hat appears to be scooping all before her.

The only lady admiral in the world is the Queen of the Helens.

In Ireland there are 211,000 widows, as compared with only 88,000 widowers.

PROF. EDWARD E. PHELPS, M. D., LL. D.

Greatest of All Physicians.

Eminent Discoverer of PAINE'S CELERY COMPOUND

Prof. Edward E. Phelps, M. D., LL. D., was born in Connecticut and graduated at Yale.

His unusual talent soon brought him reputation and prominence. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer in Dartmouth College. The following year he was chosen to the most important professorship in the country, a place that he occupied when he made his world-famed discovery of Paine's Celery Compound.

This infallible cure for those fearful ills that result from an impaired nervous system and impure blood, has endeared the great doctor to the world.

We have a special department of advice, and will answer free of charge any questions about dyeing, send sample of goods when possible.

Direction book and 45 dyed samples free. DIAMOND DYES, Burlington, Vt.

EDUCATIONAL MOVEMENT.

Cincinnati, July 1.—Prominent Kentucky educators and college presidents have met here and formed an association which they believe will develop a wide-reaching influence and importance in the state and beyond the limits of that state. The Inter-collegiate Association of Kentucky was formed, although the constitution and by-laws are still to be formulated and adopted. Those attending the meetings said that the recent scenes of disorder and bloodshed in certain districts had hastened, if not originated, the movement to have the leading institutions of the kind in the state in closer touch that more earnest effort and wider scope of attainment might mark the educational work of Kentucky.

The educational institutions represented were Centre College, Kentucky University, Kentucky State College, Georgetown College, Wesleyan College and Asbury College.

Low One-Way Colonist Rates

On the first and third Tuesday in each month, from May 19th to Sept. 15th inclusive the Illinois Central Railroad will sell one-way tickets to points in the southeast, also to points in Arkansas, Indian Territory, Oklahoma, Texas, New Mexico, Kansas, Colorado, at very low rates—about half fare. For full particulars and rates to any point desired, call upon or address

Lon Johnson, Agt., Marion, Ky.
A. H. Hanson, G.P.A. Chicago, Ill.

30,000 people was destroyed at St. Pierre, on the island of Martinique by almost the same means of those at ancient Pompeii, almost in a breath. Thousands of people are killed every year by accident and thousands through neglecting their liver and kidneys; this you should not do, always keep a box of Hill's Universal pills on your list of family medicines and you will never need to watch your liver and kidneys for they will always be cleansed. Price 25c; for sale by all patent medicine dealers in the county.

PREACHER AND EDITOR.

A preacher came at an editor in this way:

"You editors do not tell the truth. If you did you could not live. Your newspaper would be a failure."

To which the editor replied:

"You are right, and the minister who at all times and under all circumstances tells the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and pulpit go hand and hand with whitewash brushes, and pleasant words magnify little virtues into big ones. The pulpit, the pen and the grave stone are the great saintmaking triumvirate."

And the minister went away looking very thoughtful, while the editor turned to his work and told of the surpassing beauty of the bride, while in fact she was ugly as a mud fence.

WHAT A PAINTER SAID.

Henry Cook once said: Hill's Specific cured me of the cramp after taking one dose. This great remedy has proven as prompt in hundreds of cases, and will immediately relieve or cure diarrhoea, flux, dysentery, cholera morbus, cholera and griping pains; it is astringent, Anodyne, Aromatic-Mild, pleasant to take but effective. Price 25c at all proprietary medicine dealers in the county.

The woman lawyers of New York have a club where they go for lunch and rest. The club has about 100 members.

I have practiced medicine for 36 years and have consulted the leading physicians in this country in regard to a remedy for dyspepsia, but have never been able to find anything that would effect a cure until I used Kodol Dyspepsia Cure. Could not eat anything but milk toast for months, but since I used Kodol I can eat anything, and feel that my health is better than it ever was in my life. I can not say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia if taken as directed.—M. D. Settle, M. D., Big Hill, Ky.

TREE PLANTING.

One hundred acres of land in the sand hills of the Dismal river forest reserve, Nebraska, were planted this spring by the bureau of forestry. On 80 acres 100,000 pine seedlings were set out; then another 20 acres were sown with seed. The work will continue during the summer. The nursery will be enlarged as to cover two acres. This will hold some 2,000,000 seedlings. The bureau intends to increase the size of the nursery so as to make it grow enough seedling trees every year to furnish sufficient stock for the whole of the Niobrara and Dismal river reserves, which are now being planted. It is intended to turn barren sand hills into forests by planting. The Dismal river reserve includes 86,000 acres, the Niobrara reserve 126,000 acres. A survey of the boundaries of the Niobrara reserve will be made the present summer by E. J. S. Moore, of the Bureau of Forestry.

ABOUT SCREENS.

The ordinary window-screen offers no protection from prying eyes, but the wire netting can be easily made to serve the purpose of a real screen as well as a protection from flies and other insects. This is accomplished by giving the outside of all screens a thin coat of white paint. Strange as it may seem, the paint will not be noticeable, and while those inside the house may look through the screen the same as ever, outsiders can not look into the room. The paint should be thinned with turpentine and applied with a broad, flat brush. If the paint is sufficiently thin and the work carefully done, it will not have the "daubed" appearance one sees in so much home painting.—July Woman's Home Companion.

A Surgical Operation

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for 30 years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of piles since.—H. A. Tisdale, Summertown, S. C. For Blind, Bleeding, Itching and Protruding Piles no remedy equals DeWitt's Witch Hazel Salve. Sold by R. F. Haynes.

Miss Lydia Carpenter, of the Plattsburg, N. Y., normal school is the holder of the American record among women for the high jump. She is only 15 years old, and jumped 4 feet and 4 inches high.

Remarkable Cure For Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan Texas. "I got temporary relief but it came back again and again and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment with out avail. Finally we moved to Boque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents cured me." For sale by Woods & Co.

\$32.85 TO CALIFORNIA

126 Main St., Evansville, Ind.
L. JOHNSON, Agt., Marion, Ky.

Three Indian squaws are seeking divorces from their husbands. They are Mrs. Kate Medicine Horse, Mrs. Matilda Beaver Boy, and Mrs. Anna Awe Dog. Many other Indian wives will apply for separation.

Catarrh of the Stomach

When the stomach is overloaded, when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarrh of the Stomach. For years I suffered with catarrh of the stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. Khea, Coppel, Tex. Sold by R. F. Haynes.

It is pretty hard to work up much sympathy for the American girl who thinks she has married a titled foreigner and then finds that he is a first class waiter or has an honorable record as a coachman.

Spring Ailments.

There is an aching and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is that during the winter there has been an accumulation of waste matter in the system. Herbine will relieve it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissue and give you strength instead of weakness; 50 cents at Woods & Co's.

FOR SALE.

A house of four rooms in East Marion, and three building lots in East Marion. Will sell all together or separate to suit purchaser. Property is well improved. Price reasonable.

SAM HURST, Ardmore, I. T.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by Woods & Co.

For a lazy liver try Chamberlain's Stomach and Liver Tablets. They invigorate the liver, aid the digestion, regulate the bowels and prevent bilious attacks. For sale by Woods & Co.

Just About Bedtime

take a Little Early Riser—it will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are different from other pills. They do not gripe and break down the mucous membranes of the stomach, liver and bowels, but cure by gently arousing the secretions and giving strength to these organs. Sold by R. F. Haynes.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on each box. 25c.

The Foundation of Health

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, Dyspepsia and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by R. F. Haynes.

You Know What You are Taking

When you take Grove's Tasteless Chilli Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay. 50c.

No woman or man in the state will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by Woods & Co.

Two carpenters of Kennett, Mo., viz: W. W. Hoskinson and Harry Howiescher, have both used Hill's Specific in their families and write of its wonderful healing power. It cured Mr. Howiescher's baby of a very serious case summer complaint; this is only like thousands of letters which we receive daily; it is doing this kind of work wherever it has been tried. A better remedy was never discovered for summer complaints, such as flux, diarrhoea, dysentery, cholera morbus, cramps, teething children, etc. Price 25c; for sale by all patent medicine dealers in the county.

World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion; and, assimilation of food, strengthens their nervous system, and restores them to the health, vigor, and elasticity of spirits natural to childhood; 25c at Woods & Co's.

Investments in Southern Lands.

Such investments are not speculative. The South is not a new country. Market and shipping facilities are adequate and first-class. The climate is mild and favorable. Notwithstanding these and other advantages, southern lands are selling for prices far below their real value, and at present prices net large returns on the investment. For a free set of circulars, Nos. 1 to 10, inclusive, concerning the possibilities of lands in Kentucky, West Tennessee, Mississippi and Louisiana, on and near the Illinois Central Railroad, for homeseekers and investors, address the undersigned.

LaGrippe, colds in the head, toothache, headache, neuralgia, nervous excitement, earache and palpitation of the heart, are all easily cured by Hill's Headache Tablets. They never fail to give instant relief; once tried will always win the good will of he who tries them. Price 25c. For sale by all dealers in the county.

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. Seven Million boxes sold in past 12 months. This signature, *E. W. Grove*, on every box. 25c.

GUS HYATT,

The Noted Outlaw Said to be Frequenting His Old Haunts.

Madisonville, July 4th.—It is reported that Gus Hyatt, the noted outlaw and train robber, who in the past years has won so much notoriety in this section, has been seen by various parties in these parts again.

It will be remembered that Hyatt, by the use of explosives, blew a hole in the prison wall of the state penitentiary at Nashville, Tenn., last year, and freed several convicts, standing the guards off with two revolvers.

Hyatt has several friends in this section, but more enemies than friends. He is considered by the people of this section to be equal to Harry Tracey.

He put up one of the most daring fights ever known in this section, about four years ago in Union county, when deputy sheriffs of that county and six or seven other men tried to take him into custody, which fight resulted in the death of the deputy sheriff and the retreat of the remainder of the posse, and Hyatt was unharmed and escaped.

It was said that the hold-up of the fast express between Guthrie, Ky., and Clarksville, Tenn., was one of the most daring train robberies ever before perpetrated; he, single handed, took complete control of the train for several minutes, until he availed himself of all the money and valuables on board the train. This adventure led to his arrest.

There is a standing reward for his arrest, and it is said the express companies will give \$5,000 for him, dead or alive.

ABOUT WOMEN,

Radium was discovered by a woman.

One-sixth of the landowners in Great Britain are women.

The girl with the shovel hat appears to be scooping all before her.

The only lady admiral in the world is the Queen of the Hel-lenes.

In Ireland there are 211,000 wid-ows, as compared with only 88,000 widowers.

PROF. EDWARD E. PHELPS, M. D., LL. D.

Greatest of All Physicians.

Eminent Discoverer of PAINE'S CELERY COMPOUND

Prof. Edward E. Phelps, M. D., LL. D., was born in Connecticut and graduated at Yale.

His unusual talent soon brought him reputation and prominence. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer in Dartmouth College. The following year he was chosen to the most important professorship in the country, a place that he occupied when he made his world-famed discovery of Paine's Celery Compound.

This infallible cure for those fearful ills that result from an impaired nervous system and impure blood, has endeared the great doctor to the world.

EDUCATIONAL MOVEMENT.

Cincinnati, July 1.—Prominent Kentucky educators and college presidents have met here and formed an association which they believe will develop a wide-reaching influence and importance in the state and beyond the limits of that state. The Inter-collegiate Association of Kentucky was formed, although the constitution and by-laws are still to be formulated and adopted. Those attending the meeting said that the recent scenes of disorder and bloodshed in certain districts had hastened, if not originated, the movement to have the leading institutions of the kind in the state in closer touch that more earnest effort and wider scope of attainment might mark the educational work of Kentucky.

The educational institutions represented were Centre College, Kentucky University, Kentucky State College, Georgetown College, Wesleyan College and Asbury College.

Low One-Way Colonist Rates

On the first and third Tuesday in each month, from May 19th to Sept. 15th inclusive the Illinois Central Railroad will sell one-way tickets to points in the southeast, also to points in Arkansas, Indian Territory, Oklahoma, Texas, New Mexico, Kansas, Colorado, at very low rates—about half fare. For full particulars and rates to any point desired, call upon or address

Lon Johnson, Agt., Marion, Ky.
A. H. Hanson, G.P.A. Chicago, Ill.

38,000 people were destroyed at St. Pierre, on the island of Martinique by almost the same means of those at ancient Pompeii, almost in a breath. Thousands of people are killed every year by accident and thousands through neglecting their liver and kidneys; this you should not do, always keep a box of Hill's Universal pills on your list of family medicines and you will never need to watch your liver and kidneys for they will always be cleansed. Price 25c; for sale by all patent medicine dealers in the county.

PREACHER AND EDITOR.

A preacher came at an editor in this way:

"You editors do not tell the truth. If you did you could not live. Your newspaper would be a failure."

To which the editor replied:

"You are right, and the minister who at all times and under all circumstances tells the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and pulpit go hand and hand with whitewash brushes, and pleasant words magnify little virtues into big ones. The pulpit, the pen and the grave stone are the great triumvirate."

And the minister went away looking very thoughtful, while the editor turned to his work and told of the surpassing beauty of the bride, while in fact she was ugly as a mud fence.

WHAT A PAINTER SAID.

Henry Cook once said: "Hill's Specific cured me of the cramp after taking one dose. This great remedy has proven as prompt in hundreds of cases, and will immediately relieve or cure diarrhoea, flux, dysentery, cholera morbus, cholera and griping pains; it is Astringent, Anodyne, Aromatic-Mild, pleasant to take but effective. Price 25c at all proprietary medicine dealers in the county."

The woman lawyers of New York have a club where they go for lunch and rest. The club has about 100 members.

I have practiced medicine for 36 years and have consulted the leading physicians in this country in regard to a remedy for dyspepsia, but have never been able to find anything that would effect a cure until I used Kodol Dyspepsia Cure. Could not eat anything but milk toast for months, but since I used Kodol I can eat anything, and feel that my health is better than it ever was in my life. I can not say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia if taken as directed.—M. D. Settle, M. D., Big Hill, Ky.

TREE PLANTING.

One hundred acres of land in the sand hills of the Dismal river forest reserve, Nebraska, were planted this spring by the bureau of forestry. On 80 acres 100,000 pine seedlings were set out; then another 20 acres were sown with seed. The work will continue during the summer. The nursery will be enlarged as to cover two acres. This will hold some 2,000,000 seedlings. The bureau intends to increase the size of the nursery so as to make it grow enough seedling trees every year to furnish sufficient stock for the whole of the Niobrara and Dismal river reserves, which are now being planted. It is intended to turn barren sand hills into forest by planting. The Dismal river reserve includes 86,000 acres, the Niobrara reserve 126,000 acres. A survey of the boundaries of the Niobrara reserve will be made the present summer by E. J. S. Moore, of the Bureau of Forestry.

ABOUT SCREENS.

The ordinary window screen offers no protection from prying eyes, but the wire netting can be easily made to serve the purpose of a real screen as well as a protection from flies and other insects. This is accomplished by giving the outside of all screens a thin coat of white paint. Strange as it may seem, the paint will not be noticeable, and while those inside the house may look through the screen the same as ever, outsiders can not look into the room. The paint should be thinned with turpentine and applied with a broad, flat brush. If the paint is sufficiently thin and the work carefully done, it will not have the "damp" appearance one sees in so much home painting.—July Woman's Home Companion.

A Surgical Operation

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for 30 years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of piles since.—H. A. Tisdale, Summerton, S. C. For Blind, Bleeding, Itching and Protruding Piles no remedy equals DeWitt's Witch Hazel Salve. Sold by R. F. Haynes.

Miss Lydia Carpenter, of the Plattsburg, N. Y., normal school is the holder of the American record among women for the high jump. She is only 15 years old, and jumped 4 feet and 4 inches high.

Remarkable Cure For Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan Texas. "I got temporary relief but it came back again and again and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment with out avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents cured me." For sale by Woods & Co.

\$32.85 TO CALIFORNIA

Daily until June 15th, the Illinois Central R.R. will sell tickets from Evansville to all California common points for \$32.85. Tourists sleepers every Tuesday and Friday from Princeton, Ky., to Los Angeles, San Francisco and intermediate points.

Local News.

Gossipy Letters From all Sections of the County.

RODNEY.

Mrs. W. S. Hicklin and daughter, of Marion, have been visiting here.

F. E. Davis, of Baker, attended the picnic at Sturgis the Fourth. John E. Roberts, of Mattoon, visited here Sunday.

Mesdames Bettie Martin and John King visited in Morganfield Thursday.

The little child of A. L. Sullivan, which has been quite sick is better.

Mrs. Ida M. Roberts and son, of Mattoon, visited here Sunday.

Mr. Ward, of the Chapel Hill neighborhood, will teach the school at Weston.

Miss Clara Nunn will teach the Bells Mines school.

Luther and Wallace Clift visited at Mattoon Sunday.

John and Finnie Moore, of Repton, visited here Wednesday.

Lint Sullivan of Mattoon, was here Sunday.

J. N. Truitt was in Sturgis Thursday evening.

Machen Wilson, a well known local machinist, is offered a position by the McCormick Harvester Co. They desire his services in the far northwest.

Albert Fritts will teach school at Post Oak.

The colored school between here and Weston will probably not be able to secure a teacher this year on account of the unexpected decrease in the number of school children.

Farm hands are very scarce.

Curtis Dye will teach the Baker school. The people of Baker are to be congratulated on securing the services of this worthy young man.

Mrs. H. L. Sullivan and son visited at Sturgis Saturday.

The little child of Tom Lamb, died Thursday of flux.

Charlie Nunn has an unusually fine crop of tobacco this time. He is topping it this week.

There is an epidemic of flux just across Tradewater in Union.

WESTON.

(Last Week's Letter.)

The river is slowly receding but the packets continue to make regular trips.

Dr. S. H. Potter and wife, of Dogwood, Tenn., are the guests of Dr. F. J. Douglass and family.

Rev. W. T. Oakley filled his regular appointment here Saturday evening and Sunday. A large crowd was present and the services were very impressive.

Misses Catharine and Myrtle Hill, Messrs Arthur A. Avitte and Cassie N. Cain, attended the Floating Opera at Caseyville Monday evening last.

C. N. Cain, who has been under employ of the Grand Rivers Mining company, has returned home and says that level country is very nice, but informs us that we may just give him the hills.

Miss Myrtle Hill, of Iron Hill, is visiting her sister, Miss Catharine Hill, of this place.

The many friends of Mrs. J. L. Hughes are pleased to know that she is recovering from her severe injuries sustained from a fall some weeks ago.

No difference what kind of a shoe you want if we don't show you the best for the price in town we won't ask you to buy.

CLIFTONS.

MATTOON.

A large crowd from here went to Sturgis Saturday; they all seem to have enjoyed their trip fine.

Tom and Jim Harmon, of Repton, are visiting their parents in Tennessee.

Miss Randy Ritch was in Marion Saturday.

John and Jim Burton called on John E. Roberts Sunday.

Harry Perkins of Tribune, spent Saturday night here.

Luther and Wallace Clift, of Rodney spent Sunday here.

John and Jim Franks and their families spent Sunday at Gladstone.

Wesley Clift, of Rodney, was thrown from a mule, breaking his collar bone and causing several other serious injuries.

Cassie Walker and Roy Woody will go to Union county to work on a farm. It seems that the Union county farm wages has a great inducement to our farmer boys.

Joe Carter, of Repton, was in the Rosebud neighborhood Sunday. Watch out Joe or you will get caught in the same snare that several other men have been here lately.

Miss Lucy Simpson spent Sunday at Crayneville.

Harve Roberts and family visited at Tribune Sunday.

John Burton lost his fine buggy horse last week.

There is strong talk among the railroad section hands of a strike for higher wages and a ten hour system instead of eleven which is the present system.

Adams & Cochran will set your tires while you wait, and will not keep you waiting long.

TOLU.

A child of Sam Lucas, died of dysentery last week.

Rev. John Hunt and wife, John L. James and wife, Josie Hunt and family and Bert Bradley visited Wm. James, of this place Saturday and Sunday.

L. A. Weldon was in Evansville Friday.

J. B. Perry was in Tolu Thursday.

Quite a number of our folks taken in the show at E'town recently.

Eagle Forman, of Cave-in-Rock, is visiting the family of Birch Gorman here.

Mrs. Elijah Curry who has been in our town under treatment of Dr. Clement, returned to her home last week much improved.

Louis Hoover and family visited F. E. Hoover and family Saturday and Sunday.

The young people enjoyed an ice cream supper at Jim McConnels Saturday evening.

Sandy Wallace lost a fine horse last week.

Will James has been confined to his room for several days with a foot trouble, but is able to hobble around on crutches.

Picknickers are expecting a big time at Milford Saturday the 11th. Everybody and his family are going to get some barbecued hog.

We are glad to note Mrs. Elmira Croft as improving.

Mrs. Sam Hunt and children returned from an extended visit with relatives Sunday.

J. O. Brown and James Paris returned from Paducah last week.

Miss May Fleming of Birdsville is visiting Miss Katie Bennett.

Rev. John Hunt preached at the Methodist church here Sunday and Sunday night.

FREDONIA AND KELSEY.

Mr. Kates, of Jacksonville, Fla. was here last week the guest of Miss Lena Buckner. He is a very pleasant gentleman.

A Boaz is in Paducah; he will return by way of Livingston county and visit relatives there.

The prices that I make on all lines are below anything you can find elsewhere.—Sam Howerton.

There was a large crowd in town Saturday.

Miss Isabel Howerton is visiting friends at Hopkinsville.

Wheat will all be threshed in this vicinity this week, and the yield is very small.

We don't buy cheap stuff, but first-class, all standard brands that have been sold by the best merchants for one-half a century, and the prices are lower than others get for off brands; this is why you find people buying from us, anytime you may come there will be something doing for we are always busy.—Sam Howerton.

Mrs. Fannie Bugg and little daughter, Virgie, visited relatives at Marion last week.

Miss Nellie Threlkeld, of Hampton, visited her uncle, A. S. Threlkeld, at this place last week.

Robt. Jackson, of Dyessburg, was here Monday.

Lots of new goods in every line. Sam Howerton.

SUPPORT

SCOTT'S EMULSION serves as a bridge to carry the weakened and starved system along until it can find firm support in ordinary food.

Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 50c and \$1.00; all druggists.

Begs for It.

Even the dog likes ice cream and begs for it, just as his mistress and the other children urge their mother to have ice cream for them. Ice cream is a popular and nutritious dessert. It is easily made at home in a

Peerless Iceland Freezer

(ONE MOTION) You can then have it as often as you wish. The children can freeze it themselves. There are no cogs on can top to catch the fingers or get out of order every time the freezer is opened. Three minutes is the freezing time.

Sold by Bigham & Browning.

THE IDEAL TONIC AND RECONSTRUCTIVE.

There's Life and Strength in Every Drop.

A scientific combination of the essential constituents of PRIME BEEF and PURE OLD MALT.

Louisville, Ky., January 22, 1906.

MEAT & MALT CO., Louisville, Ky.

Gentlemen—Having examined your Meat and Malt preparation, and being thoroughly acquainted with its composition and mode of manufacture, I can state that it is an efficient nerve and blood tonic. It excites the appetite and invigorates digestion, and is especially beneficial in nervous prostration and all diseases attended with debility. Yours truly,

L. D. KASTENBINE, M. D.,

Louisville College of Pharmacy.

MEAT & MALT CO., Louisville, Ky.
