## NEW COMPANY INCORPORATED.

Young Giant of Levis Neighborhood will Declare a Handsome Dividend the First Month.

### INDIANA OPERATORS MAKE A BIG DEAL NEAR SHERIDAN.

A gentleman in from the "Asbridge mine" Monday informed the Press that the mine has caved in pretty badly and all operations are suspended there for an indefinite period of time.

Our Sheridan correspondent says:

Darius Dyer, of Morgantown, with his friends, were roving over the hills last week in search of spar veins.

Fred Clement returned home Saturday. Fred is getting to be a number one mining man.

Our Levis correspondent says: James D. Hopewell, of Sturgis, President of the Keystone mining company, spent several days last week looking after the interests of his company. Their shaft is now 100 feet deep and they are now drifting to the vein and expect to soon begin taking out ore and putting it on the market.

Our Carversville correspondent sends the following:

The interest in mining in this vicinity has in no wise abated. Work on the Schoolcraft-Spears mine is going on at a lively rate. The 70 foot shaft is now giving out carbonate zinc and spar, in small quantities. The company mean to go to a seven hundred foot depth, and with the present facilities we are led to believe they mean business.

### IT IS A MATTER OF HEALTH

Our Toin correspondent says:

It is rumored that W. H. Temme, of Evansville, is developing some valuable minerals at his mines near this place. We understand that he has purchased near two thousand acres of mineral lands and will put in machinery a short time. All good people in and around Tolu wish Mr Temme and his company the best of success in undertaking to develop the long hidden treasures of our county.

A. F. Karges, of Evansville, Indiana, and his partners have been purchasing lands in the vicinity of Tolu, where they have already invested some \$25,000. It is understood that they are preparing to make further purchase and to start construction of a simple concentrating plant for handling the carbonate ores which they are now mining. The management of the enterprise is in the hands of Wm. H. Temme, an experienced German constructing and mining engineer.—St. Louis Lead and Zinc News.

Our New Salem correspondent writes:

There seems to be a calm in the mining business the past ten days although there has been some good sales made of mineral rights in this section the past week; some certain mineral companies are reaching out and securing rights to all the good property they can secure.

Wagons still continue to haul lumber to the Cullen mill; can't imagine where they can use the amount of lumber that has been hauled to that place.

Our Chapel Hill correspondent writes:

F. J. Clement and W. H. Biggins made a visit to Crittenden Springs last Thursday and while down there visited the Blue & Nunn mines, and also the Columbia and Major Clement mines, and found them all in operation and

everything progressing handsomely. Dell Clement selected some specimens from each mine to take home with him to Texas, to show his friends what old Crittenden county can produce to the world. Mr. Clement was delighted with what he saw, and said he would like to go down in one of those holes. But my!

The attendance of mining men at the St. Louis Exposition during the last fortnight, has exceeded that of the entire Exposition period preceding that time. What is equally interesting is the fact that they were from a wide scope of territory, as was shown by the fact that during a single afternoon the past week mining men from South Africa, Germany, Austria-Hungary, England and British Columbia, were among the callers at the Zinc News headquarters. They report a still greater attendance in prospect from their respective countries.—St. Louis Lead and Zinc News.

Capt. Haas of the Eagle Fluorspar company, has been in the city several days superintending the unloading from cars and transferring to wagon the great 200 horse power boilers which are to be put in their plant at the Cullen mines. Every bridge between here and their mill has been strengthened and the road put in to good condition for the stupendous undertaking. Men of small calibre would never undertake such a giant task. These boilers weigh 26,000 lbs. each, and came here, each of them, in a "private" car—each to itself. The unloading of the immense boilers and getting from Marion to the mines is one of the worst problems the company has yet had to confront.

William H. Temme, M. E., who is conducting the development of zinc, lead and fluorspar properties in Northwestern Kentucky, was a visitor at the Mines and Metallurgy building during the past week. He has been operating in this field for some months past and through the experience gained in working in similar mining districts in Germany expresses the belief that this portion of Kentucky promises to become quite a zinc producing field. There the zinc ores occur in several forms, principally carbonates outcropping which afterwards disappear and zinc sulphides appears in its stead. Some very pretty hydro-zincite is also encountered. Mr. Temme expects to erect a small concentrating plant on his property near Tolu this summer.—St. Louis Lead and Zinc News.

Messrs Massey & Little, coal operators from Indiana, have bought of E. J. Hayward the Chas Donakey place, near Sheridan, 145 acres, for \$12,500. This is one of the best trades ever made in this district, and augurs well for the mining probabilities around in that vicinity. Men like S. W. Little are not around except on business. He is safe, conservative, and a man of fine business acumen, well known as a coal operator and owner of many mines and towns in Indiana. The Editor of the Press has known Mr Little and had business transactions with his various miners' commissaries for several years, and we do not feel that we are exaggerating the case a bit when we say that no better or more solid man has ever been introduced to this field.

This property was purchased two years ago by Mr Hayward for \$3,500 and the recent sale is not only evidence of the rapid increase in the mining values of this district, but also places a snug sum to the credit of our affable young banker.

The Louisville and Marion Mining company was incorporated last week, capitalized at \$50,000. J. M. Persons is President, and C. H. Whitehouse Secretary and Treasurer. Mr Miller, of the Continental Tobacco Co., and G. C. Gray of this city are directors. The company owns and is operating the vein on the widow Franks farm, 7 miles west of Marion, on the Wallace Ferry road. The mine is three-fourths of a mile from the Old Jim and is on what is called the "Mary Belle Vein." They have a vein 9 feet wide, which was struck 8 feet from the surface. They are now down 28 feet, 20 of it is in mineral. Already 40 or 50 tons are on the dump, ready to ship.

This mine and company has the remarkable record of getting down 30 feet in fifteen days, and at the smallest expense ever heard of in mining. They can and will declare a handsome dividend the first month.

The success of this property is due to Mr. J. M. Persons, although his modesty will cause him to give credit to some of his partners, but he is recognized as the moving spirit in the development and general direction of the affairs of the company, and they are to be congratulated.

Mr Miller is a capitalist and is manager of the Continental Tobacco company's affairs in Louisville, and a man of known ability. Mr. Whitehouse is private secretary to Mr. Miller and is entrusted often with business outside of

his regular line. They are recognized and safe financiers, and that is proven by their good judgment in taking hold of this property.

The fluor spar being taken out now is of excellent quality, and a considerable vein of lead is found on the wall of the vein, which experts declare is 75 per cent pure.

The price which Persons and Gray received for an interest in the Widow Franks mine has not been made public, and is not known to any one except the parties themselves. Various rumors are in circulation as to the price, but they are all surmises. Enough however is known to justify the statement that they received quite a snug sum, and that each of the gentlemen have made a handsome increase to their bank account; at any rate they are both in a mighty good humor, and seem satisfied with themselves and the whole world.

### JOHN T. COCHRAN

Passes Away After a Long Illness At The Age of 70 years.

Mr. John Thomas Cochran died Monday morning at his home in East Marion, after an illness of several months, at the age of 70 years. His death came not unexpected to his family and many friends who had been for so many days anxiously watching his bedside while his life slowly but unmistakably ebbed away. The end came peacefully, tranquilly, as well befitted the closing of a life well spent. Though hope of his recovery had been abandoned for several weeks, his death was none the less a severe blow to his family and friends.

The deceased was the son of Robert Cochran and was born near Smithland, Livingston county, August 14, 1834. He had three half brothers, Allen and Henry Cochran and Wm. Coleman. Of these only Henry, who lives near Salem, survives him. He had one sister, Polly, who married Jonathan Rutter.

Mr. Cochran was twice married. On Feb. 19, 1857, he was married to Miss Sarah Ross and by this union two children were born; Mary, who married Luther Miller of this city and Sallie, who married Andrew Dunlap of Smithland.

On September 19, 1860, Mr. Cochran married Miss Nannie Moxley, who survives him. By this marriage nine children were born, three of whom—Fannie, Bab and William—preceded their father to the land of shadows.

Six children survive him; Thomas H. Cochran of this city, member of the hardware firm of Cochran & Pickens; Dora, who married R. A. Rodgers of Henderson; Annie, who married Judge J. G. Rochester; John, George and Healy, who are all well-known young business men of this city.

In 1881 Mr. Cochran moved from Livingston county to this county and took charge of Crittenden Springs Hotel which he controlled for two years or more. He then moved to this city where he has since made his home. For a number of years he was a member of the grocery firm of Gilbert & Cochran, and remained so until ill health compelled him to retire.

There was no better man than John T. Cochran. In whatever avocation of life he chose to engage, this was the universal verdict of the people.

As a business man he was energetic, honest and straightforward in his dealings with his fellow men. As a christian he was earnest and devoted to the cause of Christ and the church. For many years he had been a member of the M. E. Church South, and a leader in all good works.

The funeral services were held Tuesday morning at the Methodist church and were conducted by the pastor, Rev. T. V. Joiner, assisted by Revs. S. J. Martin, W. T. Oakley, J. F. Price and W. T. Reed, all of whom spoke feelingly and in terms of praise of the man who had passed to his reward. The venerable W. T. Reed, of Kelsey, who has passed his 80th milestone and has been a minister of the gospel for half a century, attracted attention as he moved in the audience.

The floral offerings were numerous and beautiful. The remains were taken to the new cemetery for interment.

## THE EASTERN WAR.

Some Severe Fighting and Both Sides Lose Heavily.

There has been some heavy fighting recently in the vicinity of Port Arthur on the Lian Tung peninsula, in which both sides suffered terribly. The dispatches given below tell the bloody story:

St. Petersburg, June 16.—A special dispatch from Liano Yang says the battle of Vafango raged the whole of yesterday, and the Japanese, receiving considerable reinforcements, crushed the Russian left flank and compelled the Russians to retire northward. The War Office announces that General Stakelbert was forced back by greatly superior numbers.

London, June 16.—A dispatch to the Central News, from Tokio says that the Japanese after fierce fighting yesterday, captured Pelissu, between Kai Chou and Soulantien. The Russians lost six guns and many regimental colors.

Tokio, June 16.—All doubt as to the sinking of the transports Hitachi and Sado has been confirmed.

Washington, June 16.—The Japanese Legation has received the following cablegram from Tokio, dated today:

"Gen Oku reports that on June 14 our main body advanced northward in two columns along the railroad, expelling the enemy from the east of Wafangtchen. At 5 p. in the enemy made a stand on the railway line between Lungwangmiao and Tsangshien, and after two hours cannonading were occupied at nightfall in the line between Panchelaton and Yuhoton. Another column, for menacing the enemy's right and covering our flank and rear, marched eastward of Foo Chow, and advanced upon the line between Tengehiskow and Nachialing. The enemy near Lungwangmiao was reinforced. On June 15 the enemy near Felison consisted of two and a half divisions, occupying the position between Tafangchong and Chengtsuehan. At dawn we opened attack and our main body advanced along the railway. At 9 a. m. the left wing of the column was joined by the forces from Tungchow and at noon by cavalry from Chiao-chiaton. Thus the enemy was surrounded by our forces near Teliaou, and after severe fighting they were routed and fled northward at 3 p. m.

"Our losses are estimated under

one thousand. So far as known we captured colors, fourteen quick firers and about 300 men, including the commander of the fourth infantry regiment of sharpshooters. Over 500 of the enemy's killed and wounded were left on the battlefield.

"Our scouts saw the enemy marching with Japanese flags, in this engagement, by which our military was misled and suspended fire."

New Chwang, June 16.—Firing has been heard distinctly in the direction of Kai Chou, since 10 o'clock last night. Two batteries of artillery rushed through town at midnight. The Second division of Gen Kuroki's army was reported to be marching toward Kai Chou yesterday afternoon for the purpose of taking the enemy in the rear.

It is positively known that the Russian forces in the vicinity of Kai Chou are divided. Half are at Kai Chou and the remainder about twenty miles east of there. The entire force numbers 35,000 men, including 600 Cossaks. There are rumors here of fighting at Port Arthur.

A private letter from Mukden says the press correspondents at that place are not hopeful of getting news from the Russians, who give every indication that the correspondents are not wanted. Many of the correspondents are preparing to leave.

## A \$10,000 Passenger Station,

Franklin, Ky., June 15.—A new depot is assured. The Louisville and Nashville railroad company proposed that if the citizens would buy the Duer vacant lot on the east side of their track, a \$10,000 passenger depot would be built. Leading citizens had an impromptu meeting and subscribed \$1,500 to purchase the lot. C. L. Duer signed a paper in which he agreed to convey the lot to the company.

## SHOT TO DEATH.

Lebanon Junction, Ky., June 15.—Mary Thompson, a negro woman who last night murdered Joe Irvin, a well known man of this place, by cutting his throat with a butcher knife, was taken from the back up early this morning by a mob which shot and fatally wounded her when she tried to escape.

About 2 o'clock this morning a mob of thirty persons came into the town, battered down the doors of the prison, and put a rope around the woman's neck to take her out to lynch her. She fought desperately and the rope which was a small one broke. Wrenching herself free from her captors she started to run but the members of the mob opened fire on her and she fell unconscious and wounded in several places.

The crime with which the woman is charged was committed following a dispute between her son and Irvin, who was one of the best known men in the community.

Early in the afternoon Irvin asked the Thompson woman's little boy to return a pair of pliers which he had loaned the negroes and the boy replied he had returned them, but failed to show where he had placed them. Hot words followed and the boy became impatient. Irvin reproved him and the boy immediately ran home and told his mother. The woman became mad with rage and securing a butcher knife started after Irvin whom she found working in a melon patch. Without saying a word she slipped into the field and crept up behind him. As he was stooping over weeding out the vines she reached down and slashed his throat, nearly severing his head from his body by one powerful stroke. She then fled to her home.

Irvin's wife heard the groans of her dying husband and went to his assistance, but he died in a few minutes. Officers at once went to the home of the woman and placed her under arrest. The woman is almost of giant size and weighs 250 lbs.

## HORRIBLE CATASTROPHE

New York, June 15.—The steamer General Stocum, carrying a Sunday school excursion from St. Marks German Lutheran church, caught fire in East river off Hell Gate this morning and burned to the waters edge.

Hundreds of persons perished. The disaster was witnessed by thousands of people on both sides of the river, and as rapidly as possible hundreds of small boats and launches set off to render assistance.

With the boat burning under his feet the Captain stuck to his post in the pilot house and the engineer remained at his post below until the boat was beached. Even then the passengers were not safe, for they were some distance from shore and the boat was a roaring furnace.

It is estimated between 400 and 500 persons sprang into the water. An eye witness said the greatest loss of life was due to the collapsing of the upper deck. It fell with a crash soon after the fire started, crushing hundreds on the lower deck.

A large part of the crowd on the doomed steamer were children, and there was little hope for them after they had gone overboard. The current in East river at this point is very strong, and scores of little ones were sucked down by the whirlpools at Hell Gate. One man who went out in a row boat said he saw fifty children perish in those whirlpools before he got to them. The loss of life was fully five hundred persons, burned and drowned.

## ATTEMPTS SUICIDE.

New York, June 19.—Samuel M. Burbank of Arizona, formerly of Henderson, Ky., a retired merchant, attempted to kill himself today by cutting his throat in a law office. He is now a prisoner in a hospital, charged with attempted suicide.

Samuel M. Burbank is 55 years old, and a brother of Caleb A. Burbank, the residuary legatee of the late Ambrose Brackett Burbank, a millionaire who died June 17 last, and for months up to the time of his death was nursed by Samuel M. Burbank. It is believed that Samuel M. Burbank's mind was affected through his close care of his uncle and for some time his brother has feared such an outcome as that of today.

## GRADUAL DECLINE

This is the fate of sufferers from Kidney trouble, as the disease is so insidious that often people have serious Kidney trouble without knowing the real cause of their illness, as diseased kidneys allow the impurities to stay in the system and attack the other organs. This accounts for the many different symptoms of Kidney Disease.

### FOLEY'S KIDNEY CURE

as it stimulates the heart, increases the circulation and invigorates the whole system. It strengthens the urinary organs and gives you new life and vigor.

#### Chicago Business Man Cured

Foley & Co., Chicago, Gentlemen:—About a year ago my health began to fail, I lost flesh and never felt well. The doctor thought I had stomach and liver trouble, but I became convinced that my kidneys were the cause of my ill health and commenced taking FOLEY'S KIDNEY CURE. It increased my appetite and made me feel stronger, and the annoying symptoms disappeared. I am now sound and well.—J. K. Horn, 1354 Diversey Blvd., Chicago. June 11, 1902.

#### Cured His Wife

E. C. Watkins, sexton of the Methodist Church, Springfield, Pa., writes: "My wife has been very bad with kidney trouble and tried several doctors without benefit. After taking one bottle of FOLEY'S KIDNEY CURE was much better, and was completely cured after taking four bottles."

#### One Bottle Cured Him

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but a one-dollar bottle of FOLEY'S KIDNEY CURE effected a permanent cure."

#### A Strong Heart.

A strong heart is assured by perfect digestion. Indigestion swells the stomach and puffs it out against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its function naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to the blood and tissues all of the food nutriment. Tones the stomach and digestive organs sold by Woods & Orme, Druggists.

### DEMOCRATIC TICKET.

For Congress,  
OLLIE M. JAMES.

The vote on the question of bonding the school district for \$5,000 for the purpose of adding additional rooms, heating and sanitary apparatus, and some other needed improvement to the "Marion Graded School" was indeed a gratification to all lovers of education. Last Monday when the polls were opened, 100 solid, substantial citizens—progressive in all that the word implies—were on hand, each vying with the other to cast his vote first for the measure, and from the time the polls opened until they closed the interest did not cease. The opposition was weak and when the final count of all the votes cast was had it was found that the advocates of good school room facilities had won by a majority of 10 to 1. This could not have happened in many towns. Marion is an exceptionally strong advocate of all religious and educational movements. It's in the atmosphere, and the citizens are to be congratulated on it. Soon, now, we will see rise a massive "annex" to the present building and before school opens the quarters will be ready. Next year will be the greatest in the history of the school.

### HICKLIN-SIGLER.

Mr. James Hicklin and Miss Eva Sigler were married Wednesday evening at 8 o'clock at the residence of the officiating clergyman, Rev. T. V. Joiner, only a few of their friends being present to witness the union.

The bride is the daughter of the late Francis J. Sigler and came to this city two years ago from her home in Morganfield to reside with her sister, Mrs. John Sutherland. She is a handsome and a most amiable young lady, and is quite popular.

Mr. Hicklin is a young business man of this city, being a member of the grocery firm of Gilbert and Hicklin.

### Emelius P. Haynes Dead.

Emelius P. Haynes, the oldest citizen of Livingston county and well known in this city, died at his home in Smithland Friday after an illness of several months of general debility, aged 83 years. The Paducah News-Democrat of Sunday says:

Capt Milt Haynes, aged 83, the oldest citizen of Smithland, died there at 8:20 of general debility.

Capt Haynes had been in feeble health for a long time, due to old age. He was born in Smithland in 1821, and was the oldest native of that place.

Capt Haynes was for many years engaged in boating on the Ohio and Cumberland rivers and known to river men, especially the veterans, as he had retired from active life several years ago. Capt. Haynes made his home with Mrs. Adda Dunn, his daughter, of Smithland. His other living children are Mrs. Julia Phillips of this city, wife of Capt. Frank Phillips, of the Fowler Wharfboat company of this city; Capt. Kitt Haynes of Cairo, but formerly connected with the Fowler-Crumbaugh boat store of Paducah, and Mr. Harvey Haynes, of Texas.

The petit jury will be impaneled on Tuesday. The names of those summoned to act as petit jurors are given below. ### HELLO, CENTRAL.

Alert Cupid Gets in His Work at the Telephone Office.

Wednesday morning at the residence of the bride's mother, Mrs. Fannie Jennings, Mr. W. B. Butler and Miss Vic Jennings were united in marriage, the Rev. Jas. F. Price performing the ceremony. After receiving the congratulations of their friends, the couple left on the 11:45 train for Dawson, where they expect to spend a few days, going from there to Paducah and will probably visit St. Louis and the World's Fair before returning home.

Both the bride and bridegroom are popular young people of this city and a host of friends wish them joy in their wedded life.

Mr. Butler has been for several months manager of the Peoples' Independent Telephone Co., in which office he first met the handsome Miss Vic Jennings, who was employed as operator in this office. It was here while the two susceptible young people listened lovingly to the siren songs of the wires that Cupid, stealing a march on them, got in his effective work.

### Charged With Burglary.

Tom White, Jr., who is in the county jail here serving out a fine imposed upon him by the police court for a breach of the peace, is said to have made a confession to the city authorities implicating himself and Rochester Wallingford with the burglarizing of Cochran & Pickens' hardware store and Schwab's produce house a few weeks ago. Wallingford, who has been missing since the burglary, is thought to be in Paducah and a warrant has been issued and sent there for his arrest and return to this city.

### REPORTED MARRIED.

We copy the following from a Mesa, Arizona, paper of June 14th:

O. L. Pickens and Miss Leven Peterson visited Phoenix yesterday afternoon, returning last evening. Their friends say that the young couple stole a march on them and were married while at the capital. So far they have let the public do the guessing, neither affirming nor denying.

But the opinion is almost unanimous that they are married.

A private letter from Ohio says he is not married. He ought to know.

### Tale of a Martyr.

MISS SOPHRONIA JENNIE MOD-

Studied hygienic twaddle  
Till she got it in her noodle  
That she couldn't live on food.  
With a streak she never would parley;  
On the happy Over Yonder  
Where the hosts angelic wander,  
And on such things she would brood.  
Nothing not by art digested  
Miss Sophronia molested.  
And she got herself infested  
With the cerebellitis fat.  
Till the little wit created  
In her skull evaporated,  
And her common sense was slated  
To go slumping to the bad.

She ate hay and wheat and barley;  
She chewed soap nuts small and gnarly;  
And she used to sit and ponder  
Nor with solid stuff like that.  
But she stuck with grim persistence  
To her predigested existence,  
And she fought with firm resistance  
All temptation to get fat.

So in course of time she grew to  
Be a part of what she's chew to—  
Ready Gats she ate at 2:30.  
And Aspetic bran at 4;  
At just 5 she'd eat her dinner  
Of Dust Corn (that was a winner).  
As she kept on growing thinner  
She asphixiated the more.

Well, this tale must have an ending,  
And it is no use pretending  
That the end we are intending  
Is a triumph, for it ain't.  
Miss Sophronia Jennie Moddie,  
With her hygienic twaddle,  
Through eternity will toddle  
As a predigested saint.

### Other Disasters.

"Here's a report circulated, Weary, dat' youse has got married!"  
"No! No! Indeed! I only been caught in two railroad wrecks and a cyclone lately dat' all!"—San Francisco Examiner.

### His Safeguard.

"Yes, I managed to stammer to Mr. Fincatch, 'George, I have long wanted to say to you,' when he smiled idiotically and shook his head."  
"What did he say?"  
"He said: 'It's no use. That's my deaf ear.'"  
"Which ear was it?"  
"I really couldn't tell."—Cleveland

THE BUG AND THE CAPITALIST.

Once a bug met a misfortune, by which it fell upon its back and lay there helpless for many an hour. It chanced that a Capitalist called Grasshopper, came that way, and seeing the helpless condition of the bug, he walked up to the bug and spoke in a sympathetic tone:

"How did all this happen?"

"By a stroke of misfortune," answered the helpless bug. "Why don't you help me up?"

"What is it worth to you if I help you up?" asked the Capitalist.

"It is worth more than I can tell for I will die if no one assists me."

"Will you give me one-fourth of all you earn hereafter as long as you live?"

"Help me on my feet and then I can bargain with you better," said the Bug on His-Back.

"No, no," replied the Capitalist, "let us have our understanding now."

"All right," said Bug-on-His-Back, "help me to my feet again and I will give you one fourth of my wages hereafter as long as I

live."

"Is it worth any more than that to give you this valuable assistance?"

"What more do you want," meekly asked Bug-on-His-Back.

"Give me a mortgage on all your property for half its value."

"Well, I will consent to that also," came the response.

"And more than that," said the Capitalist, "I should like to have you sign away your rights to a certain piece of land next to my farm."

"Well, go ahead," said the poor Bug. "I suppose you want all I have."

"Oh, no," said the sympathetic Capitalist, "I only ask what is fair and reasonable." So the kind-hearted old Grasshopper wrote up a paper embodying all the promises that Mr. Bug-on-His-Back had made.

"Here, sign this paper, calmly requested the Capitalist.

"Help me to my feet and I can sign it better," replied the Bug.

"No, no," replied the Capitalist, "you don't grasp the situation rightly. I want you to sign this paper before I help you."

So Mr. Bug-on-His-Back signed the paper as best he could, and then Mr. Capitalist, hurried away and had the papers properly recorded; and when he returned he reached forth his hand and said:

"In the name of humanity and for the great love I have toward you, I will this day save your life and help you to your feet."

The Joy.

The joy is in the doing,

Not the deed that's done,

The swift and glad pursuing,

Not the goal that's won.

The joy is in the seeing,

Not in what we see;

The ecstasy of vision,

Far and clear and free.

The joy is in the singing,

Whether heard or no.

The poet's wild, sweet rapture,

And song's divinest flow.

The joy is in the being—

Joy of life and breath,

Joy of a soul triumphant,

Conqueror of death.

Is there a flaw in the marble?

Sculptor, do your best;

The joy is in the endeavor;

Leave God to do the rest!

## NO EXCUSE.

No man, however poor, is too poor to take his home paper. It is the cheapest and best thing he can buy. Every time the farmers hen cackles over the new laid egg his paper is paid for that week. It costs less per week than a postage stamp with which to mail a letter, less than one third of a cent per day. And yet there are a great many people who put up as an excuse for not taking their home paper, "I am not able; can't afford it."

The home paper comes to you every week, rain or shine, stormy or calm, telling you the news of your community, of the happenings in which you are naturally most interested. No matter what happens, the home paper enters your door every week, a welcome friend, full of cheer and sun shine.

It opens the door of the great world and puts you face to face with great people and great events. It shortens the long winter nights when you sit around the fire and read it to the wife and children. It is your advisor and friend, and should be in every household in the county. No man is just to his family who does not give them the home paper, no man is doing his duty to himself or to the community in which he lives who does not subscribe and pay for the home paper.

## Caught an Alligator.

While playing on the bank of the river near the I. C. depot yesterday afternoon, Jack Gouhot, a boy about fifteen years of age, caught an alligator. ## CHUNCHUS OF MANCHURIA.

Pierced Robber Bands Which Are Harassing the Russians.

For centuries the chunchus or Chinese brigands of Manchuria have been a power to be reckoned with. They were organized under chiefs and levied revenue on the commerce of the province, and now they are causing Russia no end of trouble.

When Russia began to take hold of affairs in Manchuria General Clerpitzky organized an expedition against

CHUNCHUS, OR CHINESE ROBBERS.

them and in six weeks 3,000 of them were killed, 2,000 captured and the rest scattered and hunted into the fastnesses of the mountains.

Since hostilities began, however, the chunchus have risen in numbers in the hills to the east of Hailien. A band of 500, armed with Mauser rifles, recently attacked the Russian outposts at Palepootze, killing and wounding forty-two soldiers. The brigands lost eighty-seven, among whom were six Japanese. Their leader claimed to be invulnerable to bullets.

## STRAUSS OF BERLIN.

Noted German Composer Who is Now in This Country.

Dr. Richard Strauss, the famous German composer, who is now in this country for the first time, is not in any way related to the noted Strauss family of waltz composers. Indeed, his music is of an entirely different order.

Here Strauss, who is about forty years old, is the conductor of the orchestra of the Berlin Opera House. He early showed a genius for music and at the age of six composed a polka.

DR. RICHARD STRAUSS.

When only sixteen, several of his compositions were performed in public, and the following year, 1881, his symphony in D minor was produced. Since then he has published nearly 400 compositions.

## RATHER PROLIFIC.

Should a society for the prevention of race suicide be formed in Oklahoma, Deputy Sheriff Frank Carter, of Lawton, would likely be chosen its first President, says the Guthrie, O. T. correspondent of the Kansas City Journal. Although married but eighteen years Mr. Carter and his wife are the parents of twenty-three children, all living. There are fifteen boys and eight girls in this remarkable family and it is said that President Roosevelt has written a personal letter to Mr. Carter, in which he wished the Oklahoman success in raising his children. Fourteen of the children are twins.

At one time, it is related, seventeen of the children were sick with the measles, and in order to supply them with water during the height of the fever Mr. Carter attached a hose to a faucet and in that way the children could pass it from one to the other without disturbing their parents. During their whooping cough period life was somewhat trying for the sheriff and his wife and he declared that when ten or twelve children are all whooping, with an apparent effort to see which could whoop the loudest and longest, sleep is next to an impossibility. This siege lasted for four months, and it was the only time that Mr. Carter found his large family an inconvenience. He declares that with the exception of the whooping cough period it is as easy to raise twenty-three children as only two or three.

The family resides in a house of but five rooms, and because of numbers special arrangements had to be made. In one room is a monster bed, into which all the boys pile at night lying crossways. The same arrangements obtain in another room, where the girls sleep, although there is more room to turn over. It was impossible to find a table which would fit in the house and at the same time seat all the children. They draw lots each week as to which ones will have seats at the table, and the rest stand up or have seats out on the porch. The clothing bill is somewhat large, but some of the boys are now getting old enough to work a little for themselves.

Mrs. Carter, who was Miss Lizzie Shaw, is only 39 years of age, and her husband is but 41. Both were born and raised in Lagrange, Tex. where they were married. The couple moved to Oklahoma in 1891, at the opening of the Territory and settled at Lawton where they have lived ever since.

Dr. C. J. Moffett is a graduate of medicine and has as much right to prescribe for the sick as any physician, and gives to mothers his "TEETHINA" as the best remedy they can use for their teething children. "TEETHINA" Aids Digestion, Regulates the Bowels, Overcomes and Counteracts the Effects of the Summer's Heat and makes teething easy.

## WILLED HIS COOK.

John E. Van Etten, the lawyer, poet and wit, of Ulster county, died recently, was wont to boast, in his lifetime that he knew a good cook when he saw one. His last will, which has been admitted to probate, bears evidence of the fact that he bore that conviction to the grave, says a Kingston, N. Y. telegram to the New York World. He practically willed the star cook to his son in the following words:

"If my good, efficient and faithful servant and housekeeper, Marie Brumund, shall be unable from the money she shall have in the Ulster County Savings Institution, and from her earnings to properly support and maintain her self in her station during her natural life, then I hereby charge my estate with the payment to her, from time to time, of such additional sums of money, hereby bequeathed to her, as may be necessary in her station to properly support and maintain her in her station during her natural life, and at her death I order that she be buried by my side.

"She is so efficient! and such a good cook that I have no doubt my son would be glad to keep her in the family."

After the death of Queen Victoria Lawyer Van Etten published a poem in which these lines occurred, and attracted no little comment at the time:

She was a daughter of a staunch old Tory.

But now she's dead and gone to glory.

He did not mention his wife in his will.

## A BOLD TRAIN ROBBERY.

Bearmouth, Mont., June 17.—Two masked men held up the North Coast limited Northern Pacific passenger train, bound east about a mile and a half east of this station. After bringing the train to a stop they dynamited the express car, blew open the safe and secured all its contents, about \$66,000. The safe was billed through from the coast to Chicago. Kid Curry, the former Montana desperado, is leading a posse after the train robbers. Another posse is in pursuit with the bloodhounds.

The hold-up was similar to one which occurred two years ago at nearly the same spot, in which engineer O'Neal lost his life. The robbers boarded the tender of the engine at the water tank at Bearmouth, and after having remained quiet until the train had gone a mile and a half, they crawled up over the coal and covered the engineer, Wade, and fireman Reed with their guns, and told them to throw up their hands. Engineer Wade was commanded to bring his train to a stand still and immediately complied.

The engineer and fireman were ordered from their engine, and, with the robbers, went back to the express car. Before making an effort to gain an entrance they forced the engineer to light a cigar. The express messenger was commanded to open the door but he refused.

## GETS \$250,000.

By a recent court decision the Methodist Episcopal Church South, of Kentucky, secures a gift of \$250,000 bequeathed to it by the will of Mrs Fannie Speed, of Louisville.

Mrs Speed was a widow who died possessed of an estate valued at \$500,000, and half of this sum was willed to the Kentucky Conference of the Methodist Episcopal Church, South, for educational purposes.

This will was contested by relatives on the grounds of incapacity and undue influence, but the decision referred to says the will must stand.

It is said a like sum of money will now be added to this amount for the purpose of establishing a Methodist college in the city of Louisville.

## WINS A MEDAL.

M. K. Cruce, who has just returned from the Castle Heights school in Lebanon, Tenn., was awarded the scholarship medal at that place. It is a handsome medal of solid gold. On one side the words, "Willie Buchanan Scholarship Medal," are engraved and on the other, Lebanon, Tenn. Awarded to Marion K. Cruce. This medal is one more sought after than any given in school, and is considered more of an honor to win than any other.—Ardmore, I. T. paper.

The friends of Cavitt Cruce and his estimable wife (who was Miss Fannie Clement, daughter of Maj Clement, of this county,) can scarcely realize that they have a son now taking medals and honors in a college, especially one so noted as the one above named. The Press, with their hosts of friends, extends them congratulations. It indeed is an honor to win a medal in such a class as this school turns out.

The Courier-Journal, the great Democratic weekly newspaper, free during the presidential campaign and until Christmas to all who subscribe for the Press.

The Crittenden Springs Hotel, in the heart of the mining district of Crittenden county, is only a 40-minute drive over the new road from Marion. Good accommodations can be had at the hotel. Write or telephone Mrs. R. T. Maves.
