THE RECORD'S MINING NEWS.

INCIDENTS OF THE TERRIT.

The second trial of George M. Sisco, charged with the murder of Miss Bessie Williams, closed on Wednesday evening, the verdict of the jury being “Not Guilty.”

It will be remembered that on the first trial the jury disagreed and Sisco was permitted to plead a plea of guilty, and was convicted under that plea. A grand deal of feeling has been manifested here and in adjoining tidewater counties and was manifested in and around the gallows on Wednesday afternoon.

It is hoped, however, that the verdict of the jury, untangling the evidence, will satisfy all parties that they properly did, will reassert the friends of the Sisco family and those who have supported Mr. Sisco, and will be able to support him in any matter he may need.

Judge Gorden, who presided at the trial, is well known as a man of high standing and is regarded as a very fair-minded, defender of the law as it was passed. His capacity as a jurist was noted and characterized as being a man of great experience and of the most upright integrity. In the many confusing points of evidence in the case, the jury was able to find its way.

The closing day Jury Monday adjourned the court to the Open Court, where many hundreds of people could listen to the closing arguments of counsel. The case was adjourned until Tuesday afternoon when the jury will begin its deliberations.

WOMEN AND THEIR DEBTS.  
When Are We Going to Make Them Pay for Their Debts?  

"You may say," said the lady, "that women are not responsible for their debts. That is true, but they should be made to pay for them in some way. They should be forced to make the payments, and the public should be made aware of their financial obligations.  

We are going to institute a system of registering all creditors and debtors in order to ensure that they are held accountable for their debts. We will also make it mandatory for all creditors to report any unpaid debts to the authorities, and we will prosecute those who do not comply with this law.  

In addition, we will institute a system of credit reporting, so that creditors can check the financial history of a potential debtor before extending credit. This will help to prevent the recurrence of debts in the future.  

We are determined to make sure that women are held accountable for their debts, and we will not stop until we achieve our goal."
