MINING NEWS.

Another Fine Vein of Mineral Near Salem to be Opened.—Other Notes.

Tuesday morning early risers saw the second great boiler for the Cullen mine passing through our streets under the care of Raymond Babb and Thomas Barnes. This great boiler is a duplicate of the one taken down to this mine some weeks ago, and like it weighs tons. It is a stupendous undertaking to get one of these giants from the mines, but the men in charge are capable and experienced and had no trouble before and we predict they will have none in this case. In all probability the boiler is at the mines before we go to press.

Greer-Marble mine have a new road through the Crittenden Spring land to get out to the road with their mineral.

Saturday was pay day for Blue & Nunn and "Old Jim" and "G. acres" employees were made happy to the tune of many thousands of dollars.

Buck Rice, of the Rose Mining Co., is superintending the development of this company's property in Hardin county, Ill. They have a fine vein of spar.

One of the two big boilers that were taken to the Cullen Mine, on a wagon especially built for the purpose and drawn by two engines.

Our Cave-in-Rock correspondent sends the following: About a half dozen men from Louisville, Ky., arrived here last week to go to work at the Lead Hill mine. This mine is known to be very rich and belongs to the Cave-in-Rock Mining Co., recently organized in Louisville. A suitable building will be erected and machinery installed in the near future.

Our Carversville correspondent writes: Work has been resumed at the Schoolfield-Spees mines. A new shaft is being sunk near the old one. The indications for zinc continue to appear. The enterprise is backed by a strong company, and every effort is being made and will be made the develop as far as possible the resources.

Judge Thomas P. Cook, of Murray, has apparently struck it rich near Marion, Ky. He took an option on the Franklin farm and spent \$1,500 prospecting without results. Within the past few days, however, the result on the LaRue

property, which adjoins Franklin's, have enabled Judge Cook to locate the vein and good results are expected. It is thought that the Judge will be on easy street within the next two years.—Mayfield Messenger.

A new company is to be organized soon to develop a mine north of Salem. The promoters are Ross Givens of this city, I. B. Bartee of Linton, Ky., and L. B. Henry. The lease is one of the best in this section and the gentlemen are to be congratulated on it. Mr. Bartee is a capitalist of Linton, Ky., and a man of great business acumen, and we predict much success for this new enterprise, with such men at its head as these three.

FOR SALE.

\$5,000 par value in stock of the Rose Mining Co., Hardin county, Ill., a paying spar mine. Has 100 tons of spar out. Haven't time to look after it; hence want to sell it. S. M. Jenkins, Marion.

DYCUSBURG.

Tuesday afternoon a fishing party composed of Misses Evangeline Scott, Irene, Mamie, Lily and Lucile Graves, and Messrs Brook Glover, Hugh Graves, Cleve Martin and Robt Scott, were out in Cumberland river in two skiffs enjoying the shade of the west bank and the river breeze at Groves landing, when the steamer Butt-orff and a tow boat met and passed each other near that point causing unusually high waves. The skiffs were filled with mud and water and each of the party was covered by the waves. The experience was alarming and the young disciples of Isaac Walton created a sensation when they returned to town drenched and muddy.

Dr Phillips has converted a part of his grounds into a squirrel-logical Zoo, that passers by find entertaining.

Misses Lucile and Helen Graves of Paducah, daughters of Dr. W. T. Graves of that city, are guests of their aunt, Miss Cora Graves, at the old Graves homestead.

Miss Mattie Brooks, after a visit of several weeks to her sister, Mrs Jennie Vosier, of Dycusburg returned to Nashville last week.

Charles Mayes and sister Minnie spent Sunday at Crittenden Springs.

Fred Glenn and family of Caldwell Springs were guests of Jos Bennett and Tuesday night.

Mrs T J Nunn, wife of Judge Nunn of Frankfort, and daughter Mrs R L Flannery and little daughter Virginia, are guests of the families of Messrs S H Cassidy and W B Grove this week.

Judge P H Darby of Princeton and E H James of Eddyville were in our city one day last week.

Hons J C Hodge and Chas Will son of Smithland were in Dycusburg Aug 5th.

Mr Brook, former cashier of Dycusburg bank, leaves this week for Humboldt, Tenn., where he will go into the banking business with M B Charles, formerly of this place.

GREAT RAILROAD

From Ocean to Ocean is Almost Completed in South America.

Within two years the east and west coasts of South America will be united by a span of steel rails, and the dreams of all engineers will have been accomplished. The first transcontinental road in the southern continent is on the eve of being completed. Trains now run from Buenos Ayres, Argentine, westward to a point only 40 miles from the terminus of the state railroad in Chili, which carries the passengers eastward from Valparaiso to the foot of the Andes.

Only the tunneling of the Andes remains to be done to complete the line. The surveying for this part of the road has been completed and part of the work done. For years it has remained dormant, and for years the hope of those interested in vast commercial enterprises in South America have been delayed. But now the news comes that the great and energetic republic of Chili has decided that the road must be completed as fast as laborers can blast the rock and lay the rails.

The very fact that it is the Andes that is to be crossed tends to heighten the interest in the road. It is far easier to cross the Rockies, even at their most precipitate points, than to get across the Andes. The passes there are few and far between. At the point selected for the tunnel that will pierce the backbone of the continent the rails will be more than 10,000 feet above the level of the sea. Nor is this all.

Owing to the precipitous state of the mountains at this point, which strikes their base at a direct line from the Chilean side, will be compelled to make the ascent by one of the most remarkable feats of tunnel building that has ever been attempted.

The road is to ascend through a gorge by means of a cogged rail, until it reaches the limit of elevation. Then it will enter the tunnel, which by reason of the sharp grades are built in a spiral, corkscrew shape, crossing under itself and winding around like the proverbial snake until the Argentine boundary line is reached. This tunneling is the problem which has been solved by some of the greatest engineers of this country and England, and now that actual work on it is being pressed it is expected that the road will be open for travel in about two years.—Brooklyn Eagle.

A Perfect Painless Pill

is the one that will cleanse the system, set the liver to action, remove the bile, clear the complexion, cure headache and leave a good taste in the mouth. The famous little pills for doing such work pleasantly and effectively are DeWitt's Little Early Risers. Bob Moore of Lafayette, Ind., says: "All other pills I have used gripe and sicken, while DeWitt's Little Early Risers are perfect." Sold by Woods & Orme.

Warts on her fingers, corns on her toes, she will be miserable wherever she goes, unless she uses Dr. Mendenhall's Corn Cure. 15 cents at druggists, or sent by mail on receipt of price by C. Mendenhall, Evansville, Ind.

How Two Tunnels Were Dug.

It appears that an interesting work has been going on in Chicago for several years without the knowledge of the public, in the excavation of a tunnel 14 miles in length under the business district of the city. This tunnel is a business undertaking simply, and is to contain a railway for the transportation of freight among the great mercantile houses and between them and the freight stations of the forty-two railways which enter Chicago, besides furnishing accommodation for telephone wires and possibly wires of other kinds.

It is almost incredible that a tunnel of this length, varying in width from six to thirteen feet, and in height from eight to fourteen feet, could have been constructed under the most crowded part of the city without even the knowledge of the newspaper reporters; but the tunnel is far below the surface, the depth varying from 27 to 65 feet, so that it was unnecessary to make temporary roadways over it, and the excavated material has been taken out at right through shafts opening in private ground and taken away to the lake front. The ground under Chicago is a soft clay, which was easily excavated, but it has been necessary to line it everywhere with concrete.

A considerable portion of the tunnel is already in use, and many business houses have shafts opening into it, equipped with elevators. Although an underground railway of this kind seems an expensive substitute for trucks and horses, it is quite possible that it may promote economy as well as convenience, in handling and transferring merchandise. Every one must see that the maintenance of a stable full of horses and wagons and of a multitude of grooms and drivers is an important item in the cost of carrying on business, especially when, as is the case in this instance, it can be so much better and more cheaply accomplished.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright, of New London, New York. For sale by Woods & Orme, Druggists.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at Woods & Orme's drug store.

WHO IS YOUR BOSS?

Who is your boss? does he go on two legs, Or is he the demon that lurks in the dregs Of a roisterer's glass? Does he hide from you far Or rise in the smoke of a fragrant cigar? Who is your boss? In your desk does he lurk To drive you all day? Is it Worry or Work? Don't cavil, you rascal; you worship some Joss, Be it man, thing, or habit? come, who is your boss? Who is your boss? come, be honest, don't hedge, Does it bear a stamped eagle and have a milled edge? Whose tag are you wearing? and whose song do you sing? For whom do you dance when they pull on the string? Whose brand are you wearing? what cult have you bagged? By whom, or by what has your collar been tagged? You may be boss of some one that I sing, But this is the question: Who's pulling the string? My boss? Ah, I'll tell you: A slip of a girl, Who fetters my heart with the gyve of a curl Straying down on her brow like a thief gone amiss On his way to her red lips to steal him a kiss. She scolds me, and molds me and holds me at will, Nor ever my fluttering heart will be still, When she brushes my cheek with the wisp of her curl. But who'd not be bossed by a slip of a girl?

West Virginia a Sure Thing.

Owingsville, Ky., Aug. 5.—Mr. Charles Burger, a prominent citizen of Huntington, West Virginia, in an interview here today stated that he had just returned from a trip to West Virginia, in which he visited almost every section of the state, and that the people are enthusiastically in favor of Parker and Davis, and that the Democrats are as certain to carry West Virginia as they are South Carolina.

FOR SALE!

The Old LaRue Homestead at Salem, Ky. Good brick dwelling house of seven rooms with good out-buildings and 27 acres of fine farming lands, in a high state of cultivation, all in one body, a part of which is within the town of Salem. A good bargain for some one. For terms address Dr. F. G. Lurue, 7-4t Smithland, Ky.

TAMMANY TO THE FRONT.

New York, Aug. 4.—Tammany Hall ratified the nomination of Parker and Davis tonight. The first mention of Parker's name brought forth boisterous cheers from the audience, which filled the hall. The name of Davis was also applauded. Resolutions were presented by former State Treasurer Thos. G. O'Sullivan and adopted. They endorse the national platform and pledge support to the national ticket. They call the President "The Man on Horse back" and denounce his protective policy and oppose monopoly. They declare for the independence of the Philippines and denounce sectionalism.

NOTICE.

A tract of land for sale of 171 acres, situated in the best portion of Livingston county, Ky., 1 1/2 miles east of Bayou; 100 acres in high state of cultivation, balance in fine white oak timber; two good frame dwellings; a fine stock barn; all necessary outbuildings lots of fruit of all kinds. Will sell present growing crop on said farm. For further information call and see me or address me at Birds, ville, Ky. 9-3t Jno C. Connell.

MONTANA IS FIRE SWEEP.

Kalispell, Mon., Aug. 4.—Thousands of dollars worth of property and countless thousands of feet of standing timber is being consumed by forest fires in this neighborhood.

Fourteen distinct fires are burning, and each has ravaged hundreds of acres of land. Several small towns and villages are threatened, among them White Fish, Columbia Falls and two villages north of here.

These places are cut off from telegraph and telephone communication, and the roads are impassable, being hemmed in by flames.

The latest arriving from there, who left Tuesday night, report several churches and other property have been destroyed, and dwelling houses outside the town are in great danger. It is thought, however, that unless a high wind should set in the main portion of the place will be saved.

Another large fire is raging near Dayton Creek, a heavily timbered section, may be destroyed. The whole country is covered with a dense smoke, which makes sunlight almost a novelty.

Escaped An Awful Fate.

Mr. H. Higgins of Milbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Woods & Orme.

A Spider's Intelligence.

Watch a spider spin his web and I shall be surprised if you ever kill a spider again. It takes him about an hour, sometimes less for he is a marvel and a quick worker and there is something almost terrifying about the skill with which he works. There is the body, no larger than the head of a much, yet enclosed within that more dot of nature there is an intelligence which is enabled first to prospect the area for his web, then to plan it out like a geometrician, and then to carry out his plan with workmanlike precision. Meanwhile, too, it must be remembered, he is not only doing his thinking and his weaving, but is spinning the material for it, all in that mite of a body. But perhaps the uncanniest feature of the whole thing is that the spider not only has his plan clear in his head but knows where he has made mistakes, and you can see him breaking off his misplaced threads here and there, making taut slack lines and securing shaky connections. —Success.

PENSION NOTICE.

LETTER FROM FLORIDA

Ed Press: I will say a few more words in behalf of this south before I pack my grip and go for my old home. Hurricane Form on the banks of the beautiful Ohio.

Since the rainy season set in this seemingly dry and parched land has turned a veritable carpet of velvet green. The many varieties of beautiful and fragrant flowers; the splendid vegetables and luscious fruits, every thing to fascinate the eye and tickle the palate with beauty, taste and fragrance. The pleasant breeze is always ever present, delightful and refreshing, especially while sitting in the shade of a moss deck. A live oak, china berry or pecan tree.

This is surely a country and climate where invalids may have some of the joys and comforts of life.

Then the cool nights in which to take your repose, which is always refreshing and healthful.

This country is filling up with a class of people who are energetic and expect to make this their future home. Some newcomers locate here almost every week. They are not waiting for fall. I find that it does not get as hot here as in Ky.

The people of the North have the wrong conception of this state being so hot. If you will just think how near Florida is surrounded by water, and the breeze from almost any direction is off of salt water, and therefore very pleasant and healthful.

The temperature very rarely rises to 96. Stock are looking well, also farm and garden truck. Oranges promise a fair crop.

With good wishes to the Press and its host of readers,

I am, respy,
Foster Threlkeld,
Dade City, Fla.

LETTER FROM KANSAS.

PHILLIPSBURG, KAN., July 26—
ED PRESS: I have promised to write to all of my friends, and with your permission will now do so through the medium of your paper.

This is a fine country to live in, more rain here this season than ever was known and everything is looking fresh and green.

There is one nice church house in this neighborhood, other congregations hold services in school houses, and I hope the time will soon come when we will have more church houses in this neighborhood.

Farming is nice here, the work being all done with machinery and the farmers raise grain principally.

Last week was harvest and you could hear the sound of the machines in every direction, and this week it will be the whistle of the steam threshers.

What is about half a crop; the rust struck it and caused the grain not to fill out; some have begun preparing the ground for the next year's wheat crop.

Corn looks fine, with every prospect of a big yield. The alfalfa fields have been cut and a large harvest and are ready to harvest again.

We have here everything to eat in the way of vegetables, and have a large fruit crop for this country. All the orchards are young.

Health is generally good with us. We have a telephone line through here, and almost every house has gotten a phone, and all enjoy the talking.

My letter is getting too long, so I will close, hoping to hear from some one who has left there and gone to other parts.

Respectfully,
Mrs Lizzie Crider.

Cholera Infantum.

WILLIAMS REUNION.

On Wednesday, July 28, 1904, the members and relatives of the Williams family gathered at the old home, now the home of Mr and Mrs T. E. Williams, near Fords Ferry, for the purpose of holding a family reunion.

The inclemency of the early morning made many sad hearts and as the clouds rolled by and gave way to the beautiful blue sky, just as the rays of sunlight drove the sadness from all hearts.

Crowds of mothers, fathers, brothers, sisters and cousins were en route until five generations were represented, including 105 persons had assembled at home.

As the noon hour drew near the extensive table in the big study yard was rapidly filled from the many baskets. To this was added the juicy meats from an old Kentucky barbecue pit, and two very enjoyable hours were spent doing justice to this spread.

After this the afternoon was spent in singing and pleasant visiting.

All agreed that the day had been delightfully spent, and when the shadows began to lengthen, and preparations for going home were being made, the choir sang, "G'd be with You 'Till we Meet Again." A Friend.

DEMOCRATIC TICKET.

For President,
JUDGE ALTON B. PARKER,
Of New York.

For Vice-President,
HON. HENRY G. DAVIS,
Of West Virginia.

For Congress
OLLIE M. JAMES.

Judge Parker has resigned his position as Chief Justice of the New York Court of Appeals to accept that of President of the United States.

The Democrats and Populists of Kansas have agreed upon an alliance by which the Democrats hope to carry the State for Parker and Davis. Better try a straight Democratic ticket.

President Roosevelt still keeps an anxious eye turned toward Wisconsin, and some of his heaviest guns will be turned loose among the woolverines. He would better. He will need them.

Ex-United States Senator Geo. Graham Vest died at 5 o'clock Tuesday morning at his home at Sweet Springs, Mo. Thus passes from earth one of the brightest lights and sunniest natures of his century.

This week Chairman Cowherd, of the Democratic Committee, expects to open the congressional campaign all along the line. He confidently expects a large increase in Democratic membership in the next congress.

Last week the Democracy of West Virginia placed a strong state ticket in the field. In deference to the wishes of the Vice Presidential nominee, all factional difference were settled and the party goes into battle with an unbroken front and flying colors.

From the manner in which the Democrats of both the Eastern and Western states are perfecting and solidifying their party organizations, even at this early stage of the game, they intend this campaign to be a fight to the finish. If, with the candidates it has, the party managers it has, the finances it can control and the enthusiasm and hope now actuating the rank and file; if, with all these advantages the Democratic party can not succeed in November, it would better throw away the sponge.

The recent exhibition of temper, to say nothing worse, displayed at the Fifth district Appellate convention in Lexington, is a mighty poor way to enter upon a campaign of harmony and universal good fellowship, and will hurt the party. This isn't a Kilkenny campaign.

Last week the Indiana Democracy nominated a strong ticket, headed by Hon John W. Kern for Governor. Mr. Kern was Chairman Taggart's choice for the position. Great enthusiasm marked the convention's proceedings and soon the Democratic watch-fires will be blazing from every hilltop in the old Hoosier state.

Notwithstanding the reiterated assertions of our Republican friends that this country is just now overrun and gorged, as it were, with "prosperity," the numerous strikes now on in these United States indicate a feeling of unrest and want of confidence between employer and employee which bodes no good to our people. We may look for the cause of this, not to the trades unions alone, but to the fact that a number of our largest Trusts have combined together to down these unions and break them up. Thus, in each strike the workingman knows that he is fighting not only for his daily bread and butter but for the very life of his highly prized union. Hence the desperation with which they battle.

"Unionism," per se, is all right. It has been given a legal status in the courts of the United States, which have decided that its label shall not be infringed upon; they have been acknowledged as proper and necessary by some of our most distinguished political economists. But the unions should kick overboard the "walking delegate." He is their storm center, who battens and grows rich from their misfortunes. But properly conducted these unions are a good thing. They prevent the American workman from being degraded to the level of the pauper labor of the old world. They enable the American artisan to retain his self-respect; and they serve as a balance-wheel to our free institutions.

All Equal There.

Here is a beautiful gem from the funeral oration at the grave of Congressman Burn, delivered by the late John J. Ingalls.

"In the democracy of death all men are at last equal. There is neither rank nor station nor prerogative in the republic of the grave. At this fatal threshold the philosopher ceases to be wise and the poet is silent. Dives relinquishes his millions and Lazarus his rags. The poor man is as rich as the richest, and the rich man as poor as the pauper. The creditor loses his usury and the debtor is acquitted of his obligation. There the proud man surrenders his dignities, the politician his honors, the workman his pleasures, the invalid needs no physician, and the laborer rests from his unrequited toil."

redressed, injustice is explained, the irony of fate is refuted, the unequal distribution of wealth, honor, capacity, pleasure and opportunity, which makes life so cruel and inexplicable a tragedy, ceases in the realm of death. The strongest there has no supremacy and the weakest needs no defense. The mighty captain succumbs to the invincible adversary who disarms alike the victor and the vanquished."

City Council Meets.

The city council met Tuesday evening with the following members present: Mayor Blue presiding; W. H. Copher, Levi Cook, G. C. Gray, Louis Clifton.

It was ordered for the Street committee to make contract with P. S. Maxwell to fix up well on West Wilson avenue, and for mayor or Blue to order a car load of tilting.

On motion it was ordered that the mayor confer with the county judge in regard to building a public privy.

Louis Clifton presented an ordinance extending the city limits one mile square and it was read a first time.

It was ordered that brick sidewalks be built in front of the property of Mary T. Murphy, on Depot street, said walks to be built five feet wide and to be completed within sixty days from passage of ordinance.

It was also ordained that sidewalks be built in front of Misses Mina and Tennie Wheeler's property, on south side of Bellville street, and Mrs. Mary Hibbs, on north side of said street, and Mrs. C. E. Douglass, on south Bellville and J. M. McChesney, I. C. Railroad company, Ed McNeely, W. R. Gibbs, Seldon Hughes, Mrs. Carrie Crowe, Mrs. Ann Gilbert, Geo. Boston, Jas. Paris, Thos. Clifton, and M. E. church.

SERIOUS R. R. WRECK.

Henderson, Ky., Aug. 8.—A freight train leaving here at 7:45 p. m., over the Louisville, Henderson & St. Louis railroad for Louisville, ran through a draw span bridge over Green river at Spottsville, dumping the engine and nine loaded cars into the river. Fireman Carl Lishen, aged 22 and Engineer Walter Reider, aged 32, of Cloverport, were drowned; two negroes were drowned. The span was open to let a boat through, and the air breaks refused to work. A danger signal was out.

THEY GO DOWN TO DEATH.

Pueblo, Col., Aug. 8.—One of the most terrible accidents in the history of railroading occurred at an early hour last night, when train No. 11 of the Missouri Pacific crashed through a trestle near the little station of Eden, eight miles north of Pueblo, carrying the smoker and chair car, which were filled with passengers, into the swirling, surging current below. Nearly one hundred persons were either drowned or lost their lives otherwise. As the engine struck the trestle, which had been weakened by a rush of waters, it gave way and the train plunged down, one of the cars being entirely lost in the muddy stream, and the other was carried nearly four miles down the river, and but few in them could have escaped.

ADDITIONAL LOCAL.

The Marion ball team came back from Princeton with nothing but kind words for the umpire, John L. Gray, and in fact for the whole Princeton team. They received the most courteous treatment and were loud in their praises. The trip passed off without a mishap, and but for the defeat, the boys would have been supremely happy. Umpire Gray's rulings in every instance were commended and were fair and impartial.

C. S. Nunn and wife, Miss Nann and Miss Dell Barnes left Tuesday for St. Louis to attend the Exposition.

Ira Bennett, wife and child, of Kelsey, were in the city Wednesday the guests of Rev. J. S. Henry and family.

J. W. Blue went to Louisville Wednesday.

Mrs. Lucy Caldwell is in the city the guest of her sister, Mrs. J. R. Finley. Her daughter Miss Lucy Caldwell married recently and is now living in Ohio. By a strange coincidence her husband's name is also Caldwell.

Mrs. Stillwell has gone on a visit to her sister in central Kentucky.

T. F. Newcomb has been confined to his room for several days with rheumatism.

Mrs. Fred Brantley is very low at her home in this city of puerperal fever.

Born to the wife of Odis Harness, near Memphis mines, on Thursday, a girl.

Ruthie, the fifteen-year-old son of J. W. Johnson, is very ill of typhoid fever.

H. H. Sayre has moved to the Crittenden Coke & Coal Co. office to be near post office building.

By oversight, Dr. Nunn's card states he is over James' office. He has moved to his elegant new office in the post office block.

Ross Givens has a new office in the post office building.

Dr. Daughtry's new office in the post office building are neat and elegant.

At the Union services at the Presbyterian church Sunday night, the large audience was treated to a solo by Miss Nelly Thomas, who has recently returned from Memphis, where she sang in the choir of one of the largest churches. Miss Thomas' voice is one of unusual sweetness, and her Marion friends are proud of her.

R. F. Dorr, the veteran undertaker, is abreast of the times. Recently when the new law went into effect which requires embalmers to have a license and to pass an examination to obtain same, besides having three years experience he went to Louisville and Cincinnati to complete his course. When he returns with the license he will be the only person in the county who can embalm the dead. He will be absent several days yet and don't want any of his friends to die while he is absent.

The Presiding Elder, Rev. Virgil Elgin will preach at the Methodist church next Sunday night and will administer the sacrament of the Lords Supper.

Quarterly meeting at Hebron Saturday and Sunday conducted by the Presiding Elder Rev. Virgil Elgin.

C. W. Cartwright, of Hardin, was in the city last week.

Mr. A. D. Non, of Morganfield, spent Sunday in Marion.

Who Will Be the LUCKY ONE?

We have a beautiful \$40 RANGE we are going to give away to one of our customers. We do not know who. With every Dollar Cash you spend with us you get a chance at the stove. We have on exhibition a glass jar of beans to be guessed at, and every one dollar's purchase entitles you to one guess at the stove. On January 1st the jar will be opened and beans counted by two disinterested persons and the nearest guess gets the stove.

It is no cheap, shoddy thing, come in and see it and you will see a No. 1 \$40 Range, to be given away to one of our many customers, and remember your chance is as good as any one else, and besides you get goods as cheap from us as any house in Marion and we pride ourselves in saying all our goods are of the best quality.

We will be at Piney again this year better prepared to cater to your wants than ever. We are prepared to care for 200 horses and care for them right. We are known to all and to tell you we are reliable people to depend upon is useless. Don't fail to call on us while there as we will have everything you want ice included and we will treat you right.

HEARIN & SON.

J. W. Crowe, of Morganfield, spent Saturday in the city.

J. S. Harris, of Sheridan, was in the city Sunday.

Miss Jesse French Smith, of St. Louis is in the city the guest of Mrs. Chas. Evans.

Jeff Smith, of Providence, spent several days with friends in town last of the week.

Lonnie Towery a former Crittenden county boy and a student of Marion Graded school has had his name changed by order of the county court, as will appear by the following motion.

Crittenden County Court Regular term 8th day of August 1904. Present and presiding Aaron Towery, Judge.

On motion of Lonnie Todd Towery who is of legal age. It is ordered by the court that his name be changed from Lonnie Todd Towery to Heverley Todd Towery. His fathers name being James B. Towery and his mothers name being Elizabeth J. Towery.

A copy attested:
C. E. WELDON, clerk.

The name Heverley is an old family name and one Mr. Towery likes especially. Hence his decision to have the change made.

Did it Ever Occur to You

W. H. Cashon and family, of Paducah have moved to this city and have rented the house formerly occupied by Mrs. Koltinsky's millinery store on West Bellville street, where they will establish a Wheeler & Wilson sewing machine office.
R. N. Dorr writes us that he has sued the railroad company for \$50,000 for loss of his two legs and that he was not offered a life job as reported and only a very small sum, not at all commensurate with his loss. He recently met with a railroad accident in Wichita, Kansas, by which he lost both of his lower limbs.
T. H. Cochran, superintendent of the Methodist Sunday school in this city and the entire membership of his school teachers and scholars, spent Thursday picnicing on the grounds of Crittenden Springs. It was a delightful occasion and all who attended returned jubilant, and none more so than Mr. Cochran.
The Hurricane campmeeting will begin Aug. 25th, and continue ten days. Rev. J. J. Smith and Miss Bertie Crowe will do the preaching and the singing will be in charge of Mr. W. B. Yates. It is said that nearly all the camps are taken and a large attendance is expected. A number of other ministers will also be present and assist in the work.
Miss Bertie Crowe, the lady preacher, preached an interesting sermon at the opera house Tuesday evening to a large congregation. Quite an interest was maintained in the meeting and at the close of the sermon an after service was held, during which a number of persons gave their hands in a promise to repent of their sins and one young man made a profession of religion.
Rev. J. J. Smith, returning from the Hampton campmeeting, stopped over in the city a few days. Monday evening he preached in the opera house to a large and appreciative congregation and during the sermon the audience was not only wide-awake, but not a few handkerchiefs were applied to the eyes of the more sympathetic. Mr. Smith is one of the most popular evangelists with our people and a number of years ago conducted one of the biggest revivals meetings ever held here.
Isabel and Virginia Guess entertained their little friends last Thursday afternoon from three to five. The most interesting game indulged in was the potato race. George Ome winning the first prize and little Ruth Horin the consolation prize. Another interesting feature was the Jack Horner pie which served as a center decoration for the dining table. It contained a present for every child with a ribbon attached which extended to each plate and after refreshments were served at a given signal all pulled their ribbons and how their bright eyes sparkled as each child received his part of the pie and thought what a lucky boy or girl am I.
Rev. Harry G. Summers, formerly of this place and for a number of years a popular member of the Louisville Methodist conference, now of Woodlawn, Ill., has met with good luck. The Sturgis correspondent of the Morganfield Sun says.
On Wednesday Aug. 3rd at the nice country home of Mr. W. W. Galbraith, of near Clayville in Webster county, Rev. W. H. Archey, of this place, said a most beautiful marriage ceremony that made one in holy wedlock the lives of Rev. H. G. Summers and Miss Addie M. Galbraith. Miss Galbraith, the bride, is a very elegant and attractive young lady thoroughly qualified for a preacher's wife. Her father, Mr. W. W. Galbraith, at one time ran the mines at Spring Grove in this county. The groom, Rev. Harvey G. Summers, is a minister of great worth in the M. E. church, and who is now in charge of a church or circuit in Jefferson county, Illinois, at Wood Lawn. Brother Archey invited your humble scribe to make a long trip with him, which was considered a made in a buggy, and for always thank him, as most enjoyable time, a not too long for years.

AN AUTOMOBILE IN MARION.

A party of tourists, four in number, passed through the city Monday in an automobile, en route from Nashville to the World's Fair at St. Louis. This was the first horseless carriage ever seen in Marion and the sudden appearance of the auto coming up Main street created a stir among our population. It was county court day and the streets were thronged with people, which added to the excitement. The small boys yelled and started in pursuit of the automobile, the whole crowd, big and little alike, following and yelling. The horse jockey left his plug and joined in the chase. The druggists, salemen, hotelmen, all made rush for the street. The merchant left his counter and made for the door. The grocermen left their bars of soap unwrapped and leaped into the street. One lady cried out "What a strange street car." A boy yelled, "There goes one of them threshers without any engine!" A Passes news gatherer walked down the steps into the street and was promptly run over by a gentleman who was going at a 2:40 gait, trying to join the procession.
"That's one of them automobile boys. Gee! can't it travel?" said a small boy, as the auto disappeared in the outskirts of the city.
"Yes," replied the news-gatherer, "of course it can," and he thought of the Chinaman's description of an electric car.
"No pusher, no puller, Allee same go like hellee!"
MARRIED IN EVANSVILLE
Mr. Edward J. Murphy and Miss Mollye Daniel, both of this city, were married Tuesday afternoon at the residence of Mr. and Mrs. Bennett Whitehead, No. 1804 South Governor street, Rev. F. W. Padgett, pastor of the Olive street Cumberland Presbyterian church performing the ceremony.
Miss Daniel left for that city two weeks ago to visit friends and Mr. Murphy following her Tuesday. The two were united in marriage. A number of friends were present to witness the union and a nice dinner was given by Mrs. Whitehead. After the ceremony the couple left for home, arriving on the 7:10 train. The Evansville Courier of yesterday says:
"A pretty home wedding occurred at high noon Tuesday at the home of Mr. and Mrs. Bennett Whitehead, 1804 South Governor street, when Miss Mollye Daniel and Mr. Edward J. Murphy of Marion, Ky., were united in marriage by Rev. F. W. Padgett. After the ceremony luncheon was served, only the immediate family being present. Miss Daniel has been the guest of Whitehead for several weeks and yesterday Mr. Murphy came up from Kentucky and they immediately determined to get married here.
Mr. Murphy is a prosperous young farmer and his bride is quite popular in her home. The best wishes of a host of friends accompany them."

Mrs. Josie Fritts Conger Dead.

Sam Y. Conger, of Vale, Tennessee, came back to his old home last Saturday on a sad mission. He was accompanied by his three motherless children and the remains of his wife who died in her Tennessee home last Thursday morning Aug. 4th, at 9 o'clock of an acute attack of the flux.
Mrs. Conger was a daughter of the late Phillip Fritts, of this county, and was born 36 years ago. She was a member for sixteen years of the Crooked Creek Baptist church and her remains were laid to rest there soon after arrival here. Rev. E. B. Blackburn, the pastor officiating.

PANAMA CANAL.

The final payment having been made by the United States for the property, the work of construction will be published vigorously until completed, which is expected to be within ten or eleven years. It is considered the most famous engineering enterprise of modern times and will revolutionize the world's sea routes.

William Barkley Parsons, the eminent civil engineer, who has just returned from an inspection of the Panama canal route in company with other members of the Canal Commission, says that the construction of the canal is perfectly feasible. After the commission had been formally presented to the President of Panama a thorough inspection of the canal route was made. In the various examinations the commissioners were assisted by the engineers of the French company. Mr. Parsons says that both Colon and Panama can be made beautiful places of residence as soon as a good supply of water and a complete system of sewers are added.

The Emperor and the Culebra cuts, constituting the most serious obstacles to construction of the canal, have been examined by Engineer Parsons, and he declares they can be operated successfully. In company with other members of the Canal Commission he made a study of methods to control the Chagres, which stream during floods carries an enormous amount of water. The sites for locks and the Boka dam, which could convert the central part of the route into a large artificial lake, were also examined.

It is estimated that the completion of the canal will cost \$144,000,000, and if the money to be paid the Panama Company and the Republic of Panama be added it will be seen that the cost of this work to complete will be at least \$200,000,000, and may reach \$225,000,000. The total length of the canal will be 49.09 miles. This includes seven miles of free sailing on Lake Boko.

Aside from the value of the canal to the United States, from a military point of view, it will prove a great value to the industrial and commercial interests of every section of the country. The expense and delay now incurred in commercial intercourse between the Atlantic and Pacific sections of the United States and in the trade between the Pacific States with Europe impose a serious limitation upon the progress of our industries.

Cheaper and more expeditious access to the Pacific markets will benefit not only the Northwestern States by furnishing cheaper raw materials and larger markets for their industrial products and the Southern States by increasing their exports of cotton and its manufactures, forest products, iron and steel manufactures, but also the Central West, which is now manufacturing extensively for the foreign and domestic trade. The canal will benefit all these sections by furnishing a larger business with the Pacific coast, and enhance their ability to compete with Europe in Western South America and the Orient. It will place Europe and the United States on a basis of equality in distance for the trade of the far East and Australia, the advantage at present being greatly in favor of Europe.

INDIGESTION

"I was troubled with stomach trouble. Thedford's Black-Draught did me more good in one week than all the doctor's medicine I took in a year."—MRS. SARAH E. SHIFFIELD, Ellettsville, Ind.

Thedford's Black-Draught quickly invigorates the action of the stomach and cures even chronic cases of indigestion. If you will take a small dose of Thedford's Black-Draught occasionally you will keep your stomach and liver in perfect condition.

THEDFORD'S BLACK-DRAUGHT

More sickness is caused by constipation than by any other disease. Thedford's Black-Draught not only relieves constipation but cures diarrhea and dysentery and keeps the bowels regular.

All druggists sell 25-cent packages.

"Thedford's Black-Draught is the best medicine to regulate the bowels I have ever used."—MRS. A. M. GRANT, Souda Perry, N. C.

CONSTIPATION

A MANIAC

Mrs. Maybrick is Now a Mental Wreck

London, Aug. 3.—Friends and relatives of Mrs. Florence Maybrick will be shocked to learn that while they are waiting her arrival in the United States, she is still in France and her condition is more pitiable than has ever been imagined.

Mrs. Maybrick is now with her mother, the Baroness de Roques, in Rouen. It can be stated on absolute authority that the long imprisonment has at last affected her mind. She is guarded from the public gaze with the utmost care, not even the servants of the house being allowed to see her. But it is known beyond doubt that she is so mentally prostrated that her mother feels the keenest alarm concerning her. Indeed, it is extremely doubtful if she will ever recover.

The long strain of imprisonment, coupled with the nervous tension due to her knowledge that her friends were always working in her behalf, proved in the end too much for her to bear, and when at last, after years of waiting and suffering, she learned she was again to be a free woman, the shock proved too much and she collapsed, both mentally and physically.

The Baroness de Roques, who has sacrificed both her life and her fortune to the object of securing the release of her daughter, is terribly affected. The physical and mental wreck that has been handed over to her by the British Home Office is not her daughter of the olden days, but a poor, shattered creature with all trace of humanity stamped out.

The Baroness has had two expert alienists in attendance on her daughter, and they have expressed the fixed opinion that Mrs. Maybrick must be taken to an asylum for the insane before she can recover. Even they express doubt as to the outcome.

The woman has no delusion, seemingly, but she is absolutely lazed and passive. Her appearance is pitiable in the extreme. There are times she does not even recognize her mother, and it is impossible to arouse her to action. She takes not the slightest interest in her surroundings. She has been buried from the world so long that she has forgotten all about it, and looks about her as one in a dream.

All the American plans are upset. There is no hope of the unfortunate woman being taken across the water at this time, or, indeed, in the near future, if ever.

One Minute Cough Cure

From Colds and Croup.

Will Affect Coal Market.

The report of the Walker commission points out that the canal will have an especially direct and important effect upon the market for American coal. Vessels engaged in our own European commerce through the canal will find it to their advantage to purchase American fuel on our Atlantic and Gulf seaboard, or in West Indian and Central American stations.

The larger commerce which the canal will cause to move across the North Pacific may increase the demand for the product of the Puget Sound mines. The low cost at which coal can be placed at tidewater on the Gulf and Atlantic seaboard, and the fact that there will be a considerable movement of vessels in ballast or with part cargoes westward through the canal makes it probable that the coal required for industrial purposes on the west coast of South and Central America, and for commercial uses in these regions, and to some extent in the coaling stations of the Pacific, will be supplied from the mines in the southern and eastern sections of the United States. The demands at home for the coal of all the mining centers of the United States will be enlarged by the canal in proportion to its effect upon the development of the American industries.

The effect of the canal upon the railroads in the eastern and southern sections of the United States will be favorable. The lines in the Central West will feel the competition in rates somewhat more than will the Eastern and Southern roads.

From an examination of statistics of vessel movements between the Atlantic and Pacific, it is estimated that nearly 6,000,000 net tons will pass through the canal in 1909 and about 7,000,000 net tons in 1914. Assuming that the rate of increase in traffic during the first ten years of operation would be 6 2/3 per cent., the tonnage that would pass through the canal in 1924 would be raised to approximately 10,500,000 net tons. At the rate of \$1 per net ton of register, the income from the canal would be in 1914 about \$7,000,000 and in 1924 about \$10,500,000. The annual cost of operation, it is estimated, will be \$2,000,000.

The extent to which the canal is used will depend largely on the rate of tolls charged. Light charges will give the Panama canal a large part of the trade that now goes by the Suez canal from the Atlantic ports to the Philippines and the East. The tolls by the Suez route are more than \$2 per ton.

THREATENS VENEZUELA.

Washington, D. C. Aug. 4.—President Roosevelt took his big stick in hand and swung it menacingly at the head of President Castro of Venezuela.

Minister Bowen, at Caracas was instructed by cable to lodge a vigorous protest against the seizure of the New York and Bermuda Asphalt company's property. If the Venezuela supreme court does not promptly reverse itself in the leading steps leading up to the seizure, the "big stick" will be swung again.

This time it will be a vigorous swipe, backed by gunboats and marines, who will take possession of the custom house at La Guayra and Porto Cabello, just as Germany did two years ago. After the regular 30 per cent of the receipts shall have been set aside for the old claims of the European powers now being paid, the plan is to pay the asphalt trust a sum equal to their average monthly profits.

This course was decided on at a conference between state department officials and the asphalt company.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. WOMAN WINS \$2,500.

Toledo, O., July 31.—Probably no one was more surprised than was Mrs. Herbert Tetlow, Washingtonville, Ohio, than when the postmaster delivered to her an envelope containing a certified check for \$2,500, signed by the Woolson Spice Co. of Toledo, O.

This good fortune is the result of an estimate made by Mrs. Tetlow, in accordance with the Lion Coffee premium offer to those coming nearest to estimating the 4th of July attendance at the World's Fair.

The total paid attendance at the St. Louis Exposition on July 4th was 139,650.

As Mrs. Tetlow's estimate was exactly correct she was given the first award. Mrs. Tetlow sent in only six answers.

M. K. Hassenger, Lamona, Pa., received the second prize of \$1,000. E. B. Roseboom, Frankfort, O., and Jas. Ashcroft, Raleigh, N. C., each received \$500 prizes. In all 2139 prizes, amounting to \$20,000 were awarded.

Throughout the last six months Woolson Spice company has been publishing in the leading newspapers of America an offer of \$50,000 in cash prizes. The \$20,000 just awarded is in their World's Fair contest. Another \$20,000 will be given in the same way to those who make the best estimate of the total Presidential vote to be cast next November. This contest is awakening great interest throughout the country, and Lion head trade marks are being eagerly sought after, some persons offering to pay as much as five cents apiece for them.

The progressive methods of advertising and profit sharing adopted by the Lion Coffee people are sure to add to the popularity of this already well known and widely sold product.

All told 33 people in Kentucky won prizes in this contest, as follows:

A FISH MURDER.

Owensboro, Aug. 6.—The identity of those whose mutilated body was found near the fair grounds has been identified today as Les Coomes, of near Slaughter, Webster county who was on a visit to Chas. Bryant. Les leaves a wife and six children.

No trace of his murderer has yet been found. Geo. White and Jas. Chapman, who found the body, and were held as witnesses, released this morning after an examination. It was said Coomes was out of a saloon here by about Saturday night, but the body has disappeared and no one of him can be discovered.

When his body was found it presented most terrible appearance three inches stake had been driven through the man's neck, holed him to the ground, and his hind body looked as if some oncoming spiked shoes had jumped and down on the body. Citizens of Owensboro are now wrought up over the murder, every effort is being made to apprehend the perpetrator of this.
