BIG STRIKE OF LEAD IN ILLINOIS AT 225 FEET.

A Seven Foot Vein of Lead Has Been Struck at Rosi Claire, Illinois.

The Ada-Florence shows up fine. The deeper they go the richer it gets.

The LaRue vein has more paying mines on it than any vein in this district.

The Louisville-Marion Mining company have struck spar at their -ander White mines.

D. O. Griffith, of Indianapolis, a stockholder in the Marion Zinc Co., was in the city this week.

Forty to sixty tons of mineral a day are hauled here now. The stream of wagons at the depot unloading are actually amazing and surprise all passers by.

HEALTH is the Most Important

The manufacturers of Royal Baking Powder have had 40 years of scientific experience. Every method of bread-making has been exhaustively studied in this country and abroad.

The result is a perfect product in Royal Baking Powder. There is no substitute for it. The purity and efficiency of Royal Baking Powder have been commended by the highest authorities of the world.

These facts mean two important things to all housekeepers:

First: that Royal Baking Powder is healthful and makes wholesome food.
Second: that Royal Baking Powder makes food good to taste.

ROYAL BAKING POWDER
ABSOLUTELY PURE

C. S. Knight, of Ft. Wane, Ind., President of the Marion Zinc Co., was in the city this week looking after the vast interest of that company.

Harpending, Porter and others have discovered a vein of lead and spar on the LaRue land. They are organizing a new company with Marion capitalists.

Mr. Reed, Supt. of the Kentucky Fluor Spar Co., has struck a new vein of fluor spar near the Yandell mines and on the Yandell property.

The Ky. Fluor Spar company are going to put in a new line of new machinery at the old Brown and Ward shaft on the Tabb vein, near Mexico.

The shipment of clay and spar from here now is something phenomenal. From 40 to 60 wagons per day unload at our depot, each day. Each brings a ton and some bring two; so you see it's a big thing.

The "Bitter Apple," owned and run by Major Clement, is working every day and getting out some very fine zinc and lead. The Major expects to sink a shaft 50 feet further before he starts any levels. This is considered to be one of the best lead and zinc veins in this section.

John B. McFerran, Sr., John B. McFerran, Jr., E. S. Monahan and William Miller were a quartette of capitalists who visited Marion last week. Mr. Miller is interested in the Ada-Florence mine and the others want to be, but did not succeed in getting an interest. The mine is proving one of the finest properties in the district.

The Rand Drill Company have the contract for putting in a new compressor at the Fairview spar mines. The company have been running their drills with steam, and as soon as this compressor is completed they will run them with compressed air. This will be a great improvement and economy for the company as well as for the miners.

Rev Charles Montgomery was in our town last week, and told us they struck a 7 foot vein of lead at Rosi Claire mines at 3 o'clock Wednesday afternoon; the fluor spar being so heavily charged with lead some 3 or 4 feet before they struck the solid vein that the miners told Mr Montgomery that two of them mined from 3 to 4 tons from noon to about 3 o'clock that day. Mr. Montgomery has nearly half a mile on the same vein and may get something just as rich at the same depth.

A very sad accident happened at the Big Four mines last Saturday morning. Allen King, a young man about eighteen or nineteen years of age, was loading buckets and hooking them on the rope at the bottom of the shaft. Some time Saturday morning a man wanted to go down the shaft in the bucket and as young King did not have the bucket loaded he sent it up empty and unfortunately did not hook the bucket on the rope properly. Just before it got to the top the man on top saw that it was not hooked properly and yelled to the men below to get out of the way, but young King unfortunately failed to do so and hence the bucket fell on him killing him instantly.

MAY EXPLAIN THE APATHY.

There is no denying that the campaign in this State lacks the spirit of former contests. There is the boom of rhetorical great guns from every stump; the news papers are beating the tom-tom and sounding the hewgag; some weeping, is being done for the enslaved Filipinos; and much waiting over the depredations of the ouel Trusts; but it is all of no avail. The populace refuse to get excited. They are going about their daily tasks in a lethargic way, either the result of a too full dinner pail, or an overdose of politics. In any event they are contented and serene, and while a dose of dynamite might scatter and shatter them, it would not disturb them.

This is the natural sequence of the feverish fights of 1896 and 1900. Those were strenuous years, The Democrats worshipped William Jennings Bryan. They found in his attractive personality; his torrential eloquence; his brave battles, single-handed, against the hosts of error and Plutocracy, all the qualities of inspired leadership, and they followed him with an enthusiasm that had its basis in a sublime faith, and that drew its fires from a genuine affection. It takes an age to produce such a man, and no matter how capable

and worthy his successor may be, it is not possible to give to him the self-sacrificing devotion which the true Democrats of Kentucky gave to Bryan.

DENIES KINSHIP.

J. F. Sommer is a preacher. At one time he was city correspondent for the Louisville Commercial. He is a strong temperance man now and has a good reason for it. He helped me in the Maddox precinct fight. After that he went to Olympia, the home of Col John B. Lane, an ex-Morgan man and a Gospel Democrat of the thirty-second degree.

Bro Sommer is an intense Republican. He loves to trace pedigrees and genealogies. He soon said:

"Col Lane your mother's name was Sommer?"

"Yes, sah," said Lane.

"As that is my name we must be some kin," said Sommer.

"No, sah; not one bit of kin," replied Lane.

"But our names are spelled the way, and we must be kin," Sommer persisted.

"No kin; sah; no kin at all" was the curt reply.

"You talk like you know," said Sommer.

"I do know, sah," said Lane.

"How do you know," said Sommer.

"I'll tell you how, sah. Never one drop of Republican blood flowed in any of my ancestors' veins; that's how," said Lane.

"You talk like a man can't be a Republican and be a Christian," rather warmly stated Sommer.

"He can't sah! He can't be a Republican and be like Christ," notly stated Lane.

"You can't prove that!" was the defiant utterance of Sommer.

"I can, sah, and will, if you want me to," said Lane, with emphasis.

"Try it, said Sommer, with dog-dare tone.

"All right, sah," said Col Lane.

"Didn't Jesus come to earth on a mission?"

"Of course He did," answered Sommer.

"Was not His mission the greatest good to the greatest number, sah?" followed quickly from Col. Lane.

"It was," said Sommer.

Then Lane fairly shouted:

"Pure Democracy, sah! Jesus was a Democrat, sah!"

Sommer wilted.—Rev. R. B. Neal in Georgetown Bugle.

Mrs Wm P. Tonry, only daughter of Mrs Mary Surratt, who was put to death for being involved in the Lincoln conspiracy, died recently.

Surprised Their Friends.

Quite a romance was the marriage of Will Adams and Miss Dora Stovall, both of the Crayneville neighborhood. Week before last they went to the World's Fair at St. Louis and while there decided to get married and in order to avoid publicity they went from St. Louis to Belleville, Ill. Miss Mabel Minner was with them and the Rev. Gardner, a Presbyterian minister, officiated. After visiting the Exposition for a week they returned here, she going to her home and he going to his fathers near Crayneville.

Miss Stovall is a daughter of W. W. Stovall of the Chapel Hill neighborhood and is a granddaughter of Mrs. Nancy Young, of this city. She is a young lady of fine christian character and much beloved by all who know her.

Mr. Adams is the son of W. A. Adams of the county and is a grandson of the late Jas. L. Hill, also belongs to one of the county's best families. He is a gentleman who is respected by all. At present he is special agent for the Aetna Life Insurance Co., and has charge of a large territory for that company. The young people will make their home with the groom's parents. The Press joins their host of friends in wishing them great joy and prosperity in their married life.

A Cheap and Simple Life.

Charles W. Armstrong, a veteran of the Civil War, has solved the problem of living happily on a little money. Alone in the world at the age of eighty, he is a gentleman of leisure and takes the keenest interest in the affairs of the world. Particularly the war between Russia and Japan. He supports himself entirely out of his pension of eight dollars per month. To do this he has arranged his expenditures with scientific exactness. Following is the schedule of his expenses: rent, \$3 per month; breakfast, a roll and a cup of black coffee which he makes himself, 2 cents; dinner, consisting mainly of vegetables, 8 cents; supper a cup of tea, made in his room, and a biscuit; tobacco for one month, 40 cents; clothes and incidentals \$11.40 a year.

A CLEAN CAMPAIGN.

There has never been a campaign freer from personal slander and vituperation than this one. Judge Parker set the example by his urgent insistence that no word of reflection against the character of President Roosevelt should be printed in the official text book. Of course the partisan newspapers on both sides are predicting that the country will go to the devil in a handbasket unless their particular choice is elected, but the candidates themselves are conducting the campaign on the highest possible plain.

Was Dave Colson Poisoned?

Pineville, Ky., Oct. 24.—Responsive to rumors of death by poisoning, the stomach, brain and liver taken from the disinterred body of David G. Colson, formerly congressman from the Eleventh district, have been sent to Louisville from Middlesboro for expert examination by County Judge L. K. Rice, of Bell county. The body of Col Colson was exhumed on Judge Rice's order, and his organs are now in the hands of Dr. S. E. Woody, who is making an examination to determine the cause of death and also the effect, if any, on the brain.

Rumors that Col Colson's death was caused by poison, and that this affected his brain so as to cause the wild ride through the mountains on the night before he died have been current in Bell county and in Middlesboro. These rumors were to the effect that an enemy had administered as a poison some powerful drug that killed, but not quickly. It is suggested that it affected the brain so as to cause insanity.

These rumors became so persistent that finally the county judge decided an investigation should be made. He gave orders several days ago, according to last information, that the body should be exhumed and dismembered, the parts that could show any trace of poison sent to Louisville, and a complete investigation made. The body was taken out of its grave and on last Thursday the stomach, brain and liver were shipped to Louisville.

This examination is in progress at Dr Woody's office, on 6th street and Broadway. What Dr. Woody has found, whether he has found anything or not, are questions that only he can answer. He has not yet made his report to those who employed him to make the investigation.

David Colson died on September 27, suddenly and unexpectedly. He had not been in very good health for some time, being a sufferer from the wound which he had received at the hands of Etienne Scott. After his death was announced that he had died from nervous prostration. Several days later the story of his wild ride came out.

Strange Hole in Ground.

Madisonville, Ky., Oct. 21.—The farmers living in what is known as the Greasy Creek neighborhood, about three miles from this place, are wildly excited over the mysterious appearance of a hole in the ground near the Greasy creek bridge, and on the side of the Manitou road. The hole is nearly twenty feet deep, four feet wide and the loose dirt has been scattered over the road way. The excavating has been done entirely at night. No one has ever seen the digger at work, but each night the depth of the place increases from a few inches to two or three feet. Whether it is the work of an unbalanced mind or the search for some hidden fortune is a fact which the farmers in the neighborhood have never settled in their minds.

Some Republican Methods.

Louisville Times: The Republicans are becoming desperate, so fearful are they that they will not be able to purchase the election in this district, the Third and the Ninth. Here is a copy of Letter No. 4. Persons can read between the lines and tell what a failure to contribute means:

Dear Sir: We greatly regret that you have failed to respond to our letter asking for a contribution to help pay the legitimate expenses of this campaign. You are aware that we must send speakers throughout the State, distribute literature and maintain an organization. If others had been

as indifferent as you have been the campaign would have collapsed long ago. If you are a friend to the Administration we believe you will gladly assist in this work now that you know how much depends upon your prompt action. If not a friend we can of course, expect no aid from you. But whether you will or will not assist us we trust you will do us the courtesy to reply to this communication. Are you against us in the fight? If for us send us the receipt of this letter a contribution as large as hitherto requested. Let us hear from you by return mail.

IN HARD LINES.

Cape Haytien, Hayti, Oct. 20.—The Haytien exiles who sought refuge on Inagua island have left that island and are on their way to Monte Christi, on the northern coast of Santo Domingo. The Haytien government, through the minister at Santo Domingo, has demanded that President Morales prevent exiles from landing on Dominican territory, or that he cause their immediate expulsion or arrest, in conformity with the reciprocal arrangement between the two governments.

It is reported that fresh disturbances have occurred in Santo Domingo, and that the custom house at Porto Plata has been or will be taken possession of by an American representative. Similar action is expected at Monte Christi.

WE GOT THERE.

Madisonville Hustler: Congress man Stanley drove from Henderson to Slaughter'sville Saturday night in order not to disappoint a crowd which had gathered there to hear him speak. He missed train in Henderson and at once secured a buggy and drove to Slaughter'sville. There he secured a new horse and while waiting for the change to be made telephoned to Slaughter'sville that he was on the way.

The congressman reached his destination shortly before 9 o'clock in the evening. The crowd was waiting for him. Despite the fact that he was worn out from the long drive he at once plunged into the speech and entertained the audience for two hours. The men cheered him wildly at times, and the speech was pronounced one of the best ever heard at that place.

WHAT WE BUY IN PANAMA.

What has Uncle Sam actually bought or contracted to buy at Panama? Let us take stock. These are the items.

Thirty thousand acres of land at terminals and along the route.

Two thousand four hundred and thirty-one buildings, including offices, quarters, store houses, shops, hospitals and terminal sheds.

An immense collection of tugs, dredger, barges, excavators, cars, locomotives and other machinery and appliances, not considered of much present value.

Work done by the old and new French companies, with an estimated removal of about 36,000,000 cubic yards of material at a cost of a little more than \$88,600,000.

Maps and drawings and the records gathered by the French engineers, valued at \$2,690,000.

The Panama railway, including three steamships.

For these several items the second or new French company is to receive \$40,000,000. Twenty-four millions, of this amount, less obligations, will be turned over to the old company, which spent at the time of its collapse nearly \$250,000,000, largely in promotion.

This Republic of Panama is to receive immediately \$10,000,000, annually, after nine years, the Gov. Gen. of \$250,000. The United States receives from Panama the right of a strip of land five miles wide upon each side of the canal. We are also to become sponsors for the continuance of good order throughout the new Republic.

The total excavation yet to be done is estimated at 95,000,000 cubic yards, not including the work at the Bohio dam and the Giganthe spillway. The completion of the canal to a depth of 36 feet from ocean to ocean, a distance of 45 miles, is expected to cost about \$145,000,000. Vessels will navigate this channel at a rate, includ-

Mrs. Mary C. Bourland, of this city, has filed a \$10,000 damage suit against Dr. Walter C. Lackey recently removed from the staff of the Western Kentucky Asylum at Hopkinsville, where he was acting as first assistant physician. The suit is brought in behalf of Spiegel Bourland, son of the plaintiff, upon whom it is alleged the defendant committed a cruel assault.

The petition states that Spiegel Bourland has been an inmate of the asylum for about two years, and alleges that on March 23, 1904 while his arm was bound and he was in the custody of two attendants, Dr. Lackey, who was at that time acting as superintendent of the asylum, did "wrongfully, willfully, maliciously and cruelly beat, bruise, wound and maim the said Spiegel Bourland and which cruel and inhuman beating and wounding was not in said Lackey's necessary self defense and was without any justification upon his part, and caused the said Spiegel Bourland great mental and physical pain and suffering and great bodily injury."

Bourland was sent to the asylum from this city. He is well-known here.—Madisonville Hustler.

Better than Pills

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25c a bottle by Woods & Orme, Druggists.

Like an Orange or a Ball.

Revere, Ohio, October 20.—As a result of the trial and conviction of the Amish father in Troy who refused to send his children to any but an Amish school, the people of that sect have promised to abolish the school in which their offspring were taught to believe that the world is flat. Hereafter they will obey the law by sending their sons and daughters to the recognized schools. Among other religious regulations the Amish, who believe in an absolute and literal interpretation of the Bible, refuse to take a legal oath because Christ said "Swear not at all." They also refuse to arise while affirming.

At the close of the trial R. S. Webb, of Garrettsville, attorney for the Board of Education, summoned the Amish leaders together and, in a plain but kindly talk, told them they must obey the law or go to jail; that their schools were subterfuges to evade the law, and that it was sinful and unlawful for them to deprive their children of the school privileges furnished by the state.

They expressed approval and promised compliance.

Can You Eat?

J. B. Taylor, a prominent merchant of Christman, Tex., says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefited me, and after taking four bottles, I am fully restored to my usual strength, weight and health." Kentucky's Triumph at St. Louis

The report of the Jury of Awards at the St. Louis Exposition embodies a record for the State of Kentucky of which every citizen may justly be proud. Some weeks ago, in the live stock contests, and particularly as regards horses of various breeds, Kentucky was awarded the distinction almost universally conceded to her. To receive now, after six months exhibit of her products in competition with those of all other competitors, such evidences of her superiority are very gratifying to the pride of her people. By the action of the jury she has been declared to be practically in the lead of other competitors, not only in the produce of the soil, but in many other departments in which her superiority has not been heretofore known or acknowledged. The fact that there were awarded 186 prizes, including six grand prizes, thirty-five gold and forty-three silver medals, constitutes in itself a record which will repay the cost and energy required to secure such recognition.

When Kentucky was first invited to take part in the Louisiana Purchase Fair, the failure of the Legislature to make an appropriation proved to be a fortunate oversight of duty. Under ordinary circumstances it would have resulted in no State representation in an enterprise which peculiarly appealed to the sympathies of her people. It was to be held in a state toward which she bore much the same relation that Virginia had borne to Kentucky, being largely settled by her sons, with the added consideration that it was due to the early spirit of the Kentucky pioneers in their contention for control of the mouth of the Mississippi, that the Louisiana territory was acquired by Jefferson. When, therefore, the legislature of 1901-2 adjourned without an appropriation for an exhibit there was but one way to avoid the mortification of being unrepresented, and that was by private enterprise. Leaders in the movement soon organized a commission and through subscriptions early took their place by the side of the official commissioners of other states in preparing for the exhibit which has done us so much credit.

It is due to these public spirited citizens, as well as to the later officials associated with them, on the commission to say that everything has been done with honor to themselves and to the satisfaction of the people of Kentucky, and with increased prestige to the State.

awards of the superior jury sufficiently attest the success which has attended our efforts to show wherein Kentucky has elements which should attract to its borders capital to develop its yet unexploited resources, both beneath and above its minerals, its forests and its rich soil, inviting the opening of mines, the establishment of manufacturing, and the extension of agriculture. In all branches we have shown that if not leading in the volume of our products they are at least not excelled elsewhere in quality.—Courier-Journal.

Robbed The Grave.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Guaranteed at Woods & Orme's drug store.

They have had their plant equipped with electric lights so they can put in extra time on rush orders.

FOR SALE—R. C. Walker's house and lot in Marion. One of the most desirable residences in the city. Price reasonable. J. C. BOURLAND, Agent.

Mrs. Annie Chastain Haynes relict of the late R. P. Haynes died at the home of her son, H. A. Haynes in this city, Wednesday morning, October 26th at 9:15 o'clock. Mrs. Haynes had been a patient sufferer from paralysis and other ailments incident to old age for a long time and while her death had been expected it was a great shock to her children who in all her affliction have been loving, dutiful and tender.

Mrs. Haynes was born in Saltville, Va., Sept. 8th 1833. Her father Samuel Chastain moved to Clay county Ky., when she was a child and there she grew to womanhood, and met and married Fulton Haynes then an attorney practicing in Manchester, in February 1854. The next year they moved to Marion where they lived for 30 years, beloved and respected by all. In 1883 they decided to move to Florida and she spent most of her time in Deland. Mrs. Haynes leaves six children: H. A. and R. P. Haynes this city, Duke, Zan and Sep and Mrs. Mary Gordon of Deland, Fla. Zan reached his mothers bedside from Florida Sunday, night, and Duke came in Wednesday only a short time after his mother had breathed her last. Mrs. Haynes was a member of the M. E. church of Deland Fla. The funeral will be held at the residence of her son H. A. Haynes this morning at 10 o'clock.

The political pot is boiling at last, and General Apathy has gone off watch. Congressman James spent Sunday in the city and had numerous callers. Mr. Speight, the Republican nominee, has been run off the stump and has quit the debates which he challenged the big congressman. They do say it was a shame the way Ollie has been attending to the gentleman. Down at Clinton Mr. James asked Speight to point out a single vote that James had cast in congress that could be criticised. Speight admitted that he had not examined the records, but thought James' constituents ought to have "writ a letter" instead of sending him to congress. And here is how Ollie limb-skinned him: "Your joke is old, sir. It was used by Noah, but in answer I desire to say that the people of this legislative district have wished ten thousand times that they had 'writ a letter' instead of sending you to Frankfort when you betrayed their confidence and violated the trust that had been placed in you." James also quoted from the record that Speight had moved to amend a resolution asking for ministers to open the Kentucky legislature with prayer, by inviting "the negro ministers also."

Mr. James left for Murray Monday morning, in company with several friends, and spoke to an immense crowd. It was his regular appointment there. James was always a fine public speaker, but he has improved wonderfully since he has served in congress, and now he is one of the best political speakers in the United States. Deal's band also went to Murray Monday to enhance the great crowd with patriotic airs. Mr. K. Robertson, editor of the Murray Ledger, came down Sunday night as a representative of the Parker and Davis club to accompany the Paducah party to Murray.—Paducah News-Democrat.

R. C. HAYNES HURT IN ST. LOUIS.

Chas. Clement and Albert Elder reached home safe and sound from St. Louis Saturday night, but their companion R. C. Haynes was not so fortunate. He fell from a street car while there and cut and bruised himself up considerably. His companions brought him home and Dr. Driskill was called to attend him. He is improving and will be able to be out in a few days.

UDLEY RAISED

At last the handsome steamer Bob Dudley has been raised and brought to this city, where she arrived by herself. Sunday the sand digging pump got all the water out of the hull of the Dudley, which had been bulkheaded around the hole knocked in her side when she ran upon the old Emma wreck. This caused the craft to float, but it was found that she still held firm and fast by the submerged wreckage of the Emma. Another proposition faced the boat

owners then and that was how to get her off the wreck. Finally the only solution was to chop the old Emma wreck away and this was effected. Steam had been raised upon the Dudley and when it finally got off the wreckage steamed away for this city.—Paducah News-Democrat.

MARY WOODSON

Lucky Will Give a Democratic Majority of 35,000.

York, Oct. 10.—Kentucky is receiving attention from the Democratic Committee than any other State in the "safely Democratic"

in a strange way, but it is the Democratic State will benefit by the action of the officers of the Democratic State Committee to Urey Woodson, secretary of the National Committee.

The National Committee some time ago addressed letters to the chairman of the State Campaign Committee asking that the names of the county precinct campaign committeemen of each State be sent to headquarters. This was done in order that the State and National Committees might co-operate with each other more thoroughly.

The Kentucky State Campaign Committee was the only one in the Union which did not comply with the request of the National Committee. Its failure to do so proved a great handicap to the National Committee but Messrs. Sheehan, Taggart and Woodson got their heads together and by addressing letters to Democrats in every county in Kentucky finally secured the complete list of Democratic Campaign Committeemen appointed by Auditor Haggar and his associates. With these names coupled with Mr. Woodson's knowledge of the State, the National Committee is now doing a world of work in Kentucky on its responsibility and independent of the State Committee. Practically all the literature in Kentucky's quota is being sent direct from New York, and is not being sent to Louisville. While good work is being done by Auditor Haggar and his assistants at Louisville, much more is being done in New York under Mr. Woodson's direction. Therefore, the party organization in Kentucky is at work under both State and National Committees and it is confidently believed that the result in Kentucky will be better than otherwise. The State is expected to go Democratic by from 25,000 to 35,000.

IN THE LEAD

Stands Kentucky in the World's Fair Awards.

As will be seen from the following St. Louis special to the Courier-Journal, Kentucky still holds her proud position in the front rank of States and bears off first honors from the largest and most complete International Exhibition ever inaugurated in the civilized world:

Kentucky Building, World's Fair, St. Louis, Oct. 18.—The familiar legend, "And There Stood Old Kentucky," must now give way to the Twentieth Century truth, "And there goes New Kentucky, far in the lead."

The State took a long step forward when it gave its support to the Kentucky Exhibit Association and demanded that the General Assembly supplement the fund raised by private subscriptions with an appropriation of sufficient proportions to make the representation at the Louisiana Purchase Exposition complete.

Giant strides to power and fame in the world's eyes followed that long step forward, making possible the honors that were heaped upon the State today.

This afternoon Hon. David R. Frances, president of the superior jury as well as president of the exposition, made the announcement, giving to Kentucky the awards. What a wonderful record! All Kentucky should applaud.

The thousands who have visited the Kentucky building, who have been profuse in their compliments on the "Home," its style of architecture, its furnishings and its management, have been told to make a tour of the State's displays of minerals, education, tobacco, agriculture and forestry; that the State building doesn't show but a small part of Kentucky's participation in the commemoration of the purchase of the Louisiana territory.

Those who have studied Kentucky's exhibits at the fair expected the International Jury of Awards to recognize some of the merits of Kentucky's representation, but they could not have hoped for the result obtained—186 awards. It is indeed a remarkable record, one that no State will beat and few, if any, will equal. The outcome is more remarkable when one considers that Kentucky had only three of her citizens as members of the jury, and these three served in one department. It can not then be said that the jury was prejudiced in favor of Kentucky.

Awards were made Kentuckians on Tobacco, Agriculture, Forestry, Minerals, and Whiskey. The list of awards is too lengthy for our columns, occupying some two columns in the Courier-Journal and the Press only has space to publish the awards in which our own people are more directly interested. Among the awards for minerals were the following:

Blue & Nunn, Marion, Ky., lead zinc and fluorspar, silver medal. Kentucky Fluorspar Co., Marion, fluorspar, silver medal. Mountain Lead, Zinc and Fluorspar Co., Paducah, Ky., lead, zinc and fluorspar, bronze medal.

Puzzle for last week was. Formed long years ago, yet made today; is most employed while others sleep, what few would like to give away and none would wish to keep.

Answer a bed. First correct answer from Miss Mamie Love, Marion, Ky.

I guess the answer to last week's puzzle to be an ocean. Ora Lloyd.

A SOFT ANSWER.

Said the wise man, "A soft answer turneth away wrath. A lady who believed in this precept said to her four-year-old Nellie, who is somewhat quick tempered, "If one of your play-mates speaks rudely to you, return a soft answer." "Soft?" Yes, now run along and play; mamma is busy." The child went out on the lawn where a neighbor's boy was mending a kite. She accidentally broke the kite still more, whereby the boy was made angry. "I don't like you, you're a horrid thing," he said. Little Nellie's eyes flashed, and she was about to reply with a very unkind remark, when suddenly recalling her mother's advice, she looked the boy right in the eye and said meekly and slowly "mush."

WOODS & ORME SUCCESSFUL.

Induced Dr. Howard Company to Make Special Price.

After a great deal of effort and correspondence Wood & Orme the popular druggists, have succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures. Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles that Woods & Orme are willing to return the price paid in every case where it does not give relief.

The old fashioned way of dosing with mineral waters, cathartic pills or harsh purgatives will soon be a thing of the past. The best physicians are prescribing Dr. Howard's specific because it really gives the desired results and on account of the small and pleasant dose that is needed.

Headache, coated tongue, dizziness, gas on the stomach, specks before the eyes, constipation, and all forms of liver and stomach trouble are soon cured by this scientific medicine.

So great a demand for this specific, Woods & Orme have been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon them at once, or send 25 cents, and 60 doses of the best medicine ever made, on this special half-price offer, with their personal guarantee to refund the money if it does not cure.

POLITICAL NOTES.

In the First, Second, Third and Fourth Ky. districts, where the silver democrats are most numerous the indications are for increased majorities in every county.

Wish for 30,000 majority and pray for 50,000, but as prayers are not always effective without good works do a little more working than praying.

When Cortelyou waves his "big stick" the Trusts cry in a chorus, "Don't throw it, Mr. Secretary, we'll come down."

The enthusiasm of New York Democrats for Parker and Davis is having its effect in all doubtful States, East and West. New Jersey, Rhode Island and Connecticut are responding with particular promptness to the demand for a sane and safe administration of national affairs.

This is not the time for personal bickerings or factional strife. The election of Parker and Davis will be a victory for every Democrat in the land. The campaign is not planned to advance any man's political future. The committee is working unselfishly for party success.

Every effort made by the Republicans to organize the Gold Democrats in Kentucky against Parker and Davis has failed. With the exception of a handful of office holders and office seekers not a dozen in all by actual count the gold men are back in line. They are tired of Taylorism and Rooseveltism.

If Roosevelt's slanders as a historian were not uttered against dead men, who in their lifetime were leaders of their party, and the pride of their sections, he would be sued for slander in every state in the Union. He has permitted none to escape his calumny. A bitterer or more unfair pen has never been wielded by a man who laid claim to the name of historian.

We have already spent \$37,000, 000 in the Philippines, or nearly eighty dollars each for every man, woman and child on the islands. Before Roosevelt gets through experimenting they will cost us twice that amount. Would it not be cheaper, not to say more humane, to give the little brown creatures their freedom and let them hustle for themselves?

This campaign will settle all Republican claims to Kentucky. Gov Beckham redeemed it last year with 27,000 majority, and this year the democrats will try and increase that. All future Republican nominations in Kentucky will be made solely with Federal offices in view as a salve for their wounds.

The Democratic newspapers of Kentucky have done valiant service in this campaign. They have given most generously of their time and space, without suggestion of reward. No request from the Campaign Committee has been denied. The victory in November will be largely due to their unselfish labors.

Two weeks from Tuesday and the battle will be over. There is

no time to waste. Find out what your neighbor is going to do, and if he is out of line, try and show him the error of his way. A little missionary work at this time will save many a political soul from destruction.

What is true of the Third Kentucky district, where Jim Richard son, one of the cleanest, brightest and ablest men in the State, is the democratic candidate, is equally true in the other districts where the Populists are making a pretense of running for Congress.

Mr. Bryan tells his free silver followers in Indiana that the money question is not an issue in this campaign, graver questions being up for settlement. He urges them to support Parker and Davis that the country may be freed from the control of Trusts, and that the burden of imperialism may be lifted from the people. The enthusiasm that greets him on every side proves that he is the liveliest deflected candidate for the Presidency in the history of American politics.

One of Many.

H. A. Tisdale, of Summerton, N. C. suffered for twenty years with Piles. Specialists were employed and many remedies used but relief and permanent good was found only in the use of DeWitt's Witch Hazel Salve. This is only one of the many, many cures that have been effected by this wonderful remedy. In buying Witch Hazel Salve it is only necessary to see that you get the genuine DeWitt's, made by E. C. DeWitt & Co. in Chicago, and a cure is certain. DeWitt's Witch Hazel Salve cures all kinds of piles, cuts, burns, bruises, eczema, tetter, ring-worm, skin diseases, etc. Sold by Woods and Orme, Druggists.

NOT VERY FRISKY.

Republican headquarters at the Galt House is full of silence, sorrow and campaign literature. The Chairman sits with bowed head waiting for visitors and the lonely stenographer nods in the corner, a picture of idleness and woe. There is nothing doing. At Democratic headquarters at Seelbachs all is life and action. Twenty young women are engaged in sending instruction to the perfect organization built up by Judge Hager and Secretary Haley. Fully 5,000 letters a day are mailed to voters. The Speakers Bureau is peopling the State with orators. There is an air of victory about Democratic headquarters which is unmistakable.

BRYAN IN INDIANA.

During the past ten days William Jennings Bryan has been touring Indiana in a special train, making some six or eight speeches at different points every day, and judging from the crowds that have greeted him everywhere and the enthusiasm evoked by his speeches, he has been doing splendid work for the Democratic ticket. In each of his speeches he has impressed on each of his audiences the deep interest he is taking in this contest and his sincere desire for the election of Parker and Davis. Mr. Bryan has lost none of his old time magnetism, nor have his free silver and Populist followers lost faith in him; and as these two elements hold the balance of power in Indiana, as between the Democratic and Republican parties, we see no reason to doubt the claim that the Democrats are making, that Indiana will surely land in the Parker and Davis column on the 8th day of November next.

POPULISTS MUST WAKE UP

What would the Populists of the Third district have to gain by voting for a candidate of their own party for Congress. He has no possible chance of election. Every vote cast for him is thrown away, or worse still, materially aids the Republicans. The populists have no truer friend than William Jennings Bryan. They have twice endorsed him for President. There is no danger that he would mislead or betray them. His advice to every free silver man and to every Populist, is to support Parker and Davis and the democratic candidates for Congress. The election of Roosevelt will strengthen the Trusts, make a breach in the tariff wall impossible and set back the cause of constitutional government fifty years. The Republicans stand for every policy which the Populists have fought since the organization of their party. It would be an unholy alliance to join with them now, when there is a chance to overthrow these conspirators, who have turned the country over to the criminal trusts and the brigands of Wall at reet.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma but your New Discovery gave me immediate relief and soon thereafter effected a complete cure. Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by Woods & Orme, Druggists."

THE PHILIPPINES.

Judge Parker and Mr. Bryan are agreed on the Philippine question. Mr. Bryan predicted four years ago that imperialism was a menace which would cost this country dearly in money and men. He warned the people against the militarism which demanded the expenditure of \$637,000,000 and the practical enslavement of 7,000,000 Christian Pilipinos, who are entitled to their freedom. He has lived to see his dread prophecy fulfilled to the letter. This year he is again waging war against the Republicans for their course in the Philippines.

Judge Parker's address on the subject at Esopus, recently, was a most earnest plea for a return to the old, safe paths, marked out by

the great blood purifier

Read this grateful letter from a prominent Kentuckian

I wish to state for the Foerg Remedy Co. of Evansville, Ind., that I believe their great Remedy, known as Foerg's Remedy, the great blood purifier, saved my brother's life some ten years ago. He was troubled with a blood disease, and it seemed he could get no relief until he took Foerg's Remedy same as manufactured by this company. After taking five bottles he was entirely relieved of his trouble, and when he died five years ago he was entirely well of that disease. I also took two bottles as a blood purifier and was much benefited.

People do not become interested in these subjects until failing health or a distressing outbreak of the skin reminds them sharply of their ignorance. Is it any wonder then that so many become the easy prey of vampires both inside and outside the medical fraternity, and too often, find a tragically early grave, where a little common sense knowledge would have shown them the means of recovery and spared their lives. the Constitution and walked in by the Fathers. It was a terrific arraignment of the imperialistic policy of Roosevelt, and his party. His utterances were clear and strong, impassioned by the sincerity of his convictions and filled with honest indignation over the wrongs of the Filipinos. No word that Judge Parker has spoken in this campaign has given such an insight into his resolute, admirable character as this plea for justice for the little brown men on the other side of the world.

Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Woods & Orme's Drug Store.
