AN OFFICIAL INVESTIGATION

Regard to the So-Called
"Cabbage Snakes" Made
by Health Officer.

IT IS PERFECTLY HARMLESS.

Some time ago I began an investigation of the so-called "cabbage snake," but not one of my assistants was able to complete the work and report it, as I had hoped to do.

The public has been much disturbed by the imaginative reports of snakes in regard to cabbage. For a time you could hardly look at the mail box without seeing some advertisement or hoarding of some sort in regard to cabbage snakes. The interest in this matter is hotly debated.

The so-called cabbage snake, as I have just said, is not a snake at all, but a small insect which feeds on the cabbage leaves, and which is quite harmless to the human race.

In my opinion, it is not likely that this insect will ever be an actual menace to the human race. The public, however, has been greatly excited by the reports of this insect, and I have been asked to give the public some information about it.

I have been able to find that the cabbage snake is a small insect, which feeds on the cabbage leaves, and which is quite harmless to the human race.

As a matter of fact, there is really no such thing as a cabbage snake. The insect which feeds on the cabbage leaves is a small insect, which is quite harmless to the human race.

In conclusion, I would like to say that the public should not be unduly alarmed by the reports of the cabbage snake. It is quite harmless, and there is really nothing to be afraid of.

Can You Figure Out the Differences Between Parkers and Cleveland?

The rivalry of the Cleveland years has been dominated by the Parkers and the Clevelandites. Each side has a set of rules and customs they believe in, and they fight to defend them. It is not uncommon for people to be divided about which side they support, but ultimately, the outcome of the conflict is up to the electorate. The Clevelandites believe in their city’s future, while the Parkers are more focused on preserving their own. The rivalry has fostered a culture of creativity and innovation, as each side tries to outdo the other in areas such as music, sports, and politics. It is a testament to the ingenuity of the people of Cleveland that they continue to battle for control, and the result is a city that is constantly evolving and changing. The rivalry is likely to continue for some time, as both sides believe in their cause and are not willing to back down. It is up to the electorate to make their decision, and it is up to the authorities to ensure that the conflict is resolved peacefully and fairly. The rivalry of the Cleveland years is a reminder that conflict is a natural part of human society, and that it is up to us to make the best of it. It is a testament to the resilience of Cleveland that it continues to thrive despite the challenges it faces. It is a city that is full of potential, and it is up to the people of Cleveland to make the most of it.

With the Republicans ever on the alert, thus the Campaign in Crittenden County is rapidly drawing to a close. A Majority of 60 Expected for Republicans Ticket.

N. E. T. FRANKS, OF OWEWEN, speaks to SPOKES TUESDAY.

In this county the Democrats have been giving their best to prevent the election of a large number of Republicans. They have been very active in the villages, and have put up a strong party straw at the election. It probably is in the villages that the vote will be decided. In the rural parts of the county, except the towns, and they have not put up a large number of votes at the election. Perhaps the only place that they have been active in is the town of Crittenden County, except Henderson, and they have not put up a large number of votes at the election. Perhaps the only place that they have been active in is the town of Crittenden County. If the Republicans do well in the towns, they will be re-elected to office. The Republican ticket is the only one that will be re-elected. The Republicans have made up their minds to get the county and the state. If the Democrats do not get the county, they will be re-elected to office. The Republican ticket is the only one that will be re-elected. The Republicans have made up their minds to get the county and the state. If the Democrats do not get the county, they will be re-elected to office. The Republican ticket is the only one that will be re-elected. The Republicans have made up their minds to get the county and the state. If the Democrats do not get the county, they will be re-elected to office. The Republican ticket is the only one that will be re-elected. Republicanism. Five Per Cent. of World’s Pop- ulation Has 50 Per Cent. of Its Area.

Not So Under Cleveland.

Most every vote against the Republi- can party this year is a bad mortis for the American system of government by a congressionally nominated dictator. Mr. Cleveland, now more than any other man, is the sure death of the nation. The first step in the policy under which Mr. Cleveland is going to lead the whole country is the absorption of the nation by the South and the South by the South. The following is the list of notable Republican leaders:

-John C. Breckinridge, Sales, Virginia.
-Benjamin F. Wade, Ohio.
-George W. McCrary, Terre Haute, Ind.
-John A. Bingham, N.Y.
-James W. Selden, N.Y.
-D. H. Burnham, Chicago, Ill.
-Dr. H. Strode, Fort Worth, Texas.
-Chas. F. L. Brown, New York City.
-D. D. Deans, Dallas, Texas.

And now the leaders of the Southwestern and Southern Republican associations are this week charging Mr. Cleveland with nominating about 300 of the most disloyal and most representative of the American people and will go to every means to prevent the nomination of Mr. Cleveland.

A Runaway Drift.

Terminated with any one of the above-mentioned leaders of the Republican party, the American people are now in the position of having to go to the polls at the election, and the first thing that comes to mind is that they will have to choose between two candidates, the one of whom is the acknowledged leader of the American people and the other of whom is the acknowledged leader of the American people.

The highest ambition of the American people is to have a Republican candidate for the Presidency chosen from among the American people. This is the American people’s right and this is the American people’s duty.

President Chamberlain, as a result of the American people’s demand, has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people. He has declared that he will accept the nomination of the American people and will not accept the nomination of the American people.
