Washington, D.C. Jan. 26th—The recent continued high of the cotton market is the cause of the increased price of tobacco, according to the Assistant Commissioner of the United States, who says that the average price of leaf tobacco in the United States is now from $1.50 to $2.00 per pound more than it was a year ago.

The market is large and active, and the receipts of the new crop are being sold promptly. The price is strong and the demand heavy.

The following prices are quoted for the various grades of tobacco:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Price per Pound</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medium</td>
<td>$1.50 - $2.00</td>
</tr>
<tr>
<td>Extra</td>
<td>$2.00 - $2.50</td>
</tr>
<tr>
<td>Supreme</td>
<td>$2.50 - $3.00</td>
</tr>
</tbody>
</table>

The quality of the leaf is good, and the farmers are expected to get a good price for their crop.

The Department of Agriculture has issued the following statement:

"The tobacco market is in a very active and speculative mood. The farmer who has a crop on hand should hold it until the price rises.

"The high price of tobacco is due to the increased demand for leaf tobacco, which is used in the manufacture of cigarettes and other tobacco products.

"The present high price is expected to continue for some time, and the farmer should not be induced to sell his crop until the price reaches a certain figure.

"The Department of Agriculture advises the farmer to hold his crop until the price rises to a figure that will give him a fair return for his labor.

"The farmer should also be careful to see that his crop is properly cured and aged before selling it, as the quality of the leaf is very important in determining its price.

"The Department of Agriculture will be glad to give the farmer any additional information that may be required in order that he may be able to realize the best possible price for his crop."

WALTER BLACKBURN OFFICERS Elected

To Taxpayers who have not paid the 1904 Tax:
I have just made my settlement with the county, and I will saddle on to settle with the county for 1904.

The State settlement exhausted the funds on hand. I am compelled to call on you for your annual remittance. I hope this call will be sufficient and I am sure it will be if you are inclined to treat me right.

You will each receive notice in a few days as to the amount due, and I trust you will feel that it is something important, and something that must be attended to at once.

This CARD MEANS YOU--NO ONE ELSE REFERRED TO.

There Is an Ever Increasing Need for Vacations

April 21, 1908

There is very little that is more seriously needed than our vacations. The general demand for vacations has been increasing. It is no longer sufficient to say that we should be able to enjoy vacations. It is now expected that we should be able to enjoy the vacations, and that we should use our vacations in the most effective way.

In our fathers' time and even before, the idea of a vacation was a luxury. The idea of a vacation was not even a thought. The idea of a vacation was not even a possibility. The idea of a vacation was not even a dream. The idea of a vacation was not even a reality. The idea of a vacation was not even a word. The idea of a vacation was not even a concept.

But now, in the 21st century, the idea of a vacation is not only a reality, it is a necessity. The idea of a vacation is not only a dream, it is a requirement. The idea of a vacation is not only a concept, it is a necessity. The idea of a vacation is not only a possibility, it is a requirement. The idea of a vacation is not only a luxury, it is a necessity.

There is a growing realization that vacations are essential for the well-being of individuals and society as a whole. The demand for vacations is not only increasing, it is becoming more demanding. The demand for vacations is not only for rest and relaxation, it is for personal and professional development. The demand for vacations is not only for leisure, it is for productivity.

In a world where work is becoming more and more demanding, vacations are becoming more and more essential. In a world where stress is becoming more and more common, vacations are becoming more and more necessary. In a world where time is becoming more and more precious, vacations are becoming more and more valuable.

There is no doubt that the need for vacations is growing. There is no doubt that the demand for vacations is increasing. There is no doubt that the importance of vacations is becoming more apparent. There is no doubt that the necessity for vacations is becoming more evident.

There is no doubt that there is a growing need for vacations. There is no doubt that there is an ever increasing need for vacations. There is no doubt that there is a strong demand for vacations. There is no doubt that there is a growing necessity for vacations.

There is no doubt that there is a strong need for vacations. There is no doubt that there is an increasing need for vacations. There is no doubt that there is a strong demand for vacations. There is no doubt that there is a growing necessity for vacations.

Therefore, there is no doubt that there is a growing need for vacations. There is no doubt that there is an ever increasing need for vacations. There is no doubt that there is a strong demand for vacations. There is no doubt that there is a growing necessity for vacations.

MORAL DILEMMA

When men in prayer tend to be a moral dilemma, it may be due to the fact that they are seeking to uphold their own moral standards while neglecting the moral standards of others.
