LATE NEWS.

Happenings in This and Other States of General Interest.

Austin, Tex., Feb. 6.—Not since 1894 has this section of Texas been visited with as severe a cold spell as now prevails. Central Texas is generally maintaining a temperature of forty degrees. To night the mercury is fifteen above zero and the ground is covered with sleet. There is a wood and coal famine to such an extent that some citizens have been forced to take their buggies and phaetons to the mountainous regions north of the city to get wood for temporary use. Fuel supply men held open all last night, but could not meet the demands by half.

Los Angeles, Cal., Feb. 6.—Reports from Southern California show a continued downpour of rain and great damage from floods. All railroads from out of Los Angeles are tied up, and there were no trains on either of the transcontinental lines in or out of Los Angeles today.

The damage to the streets of this city will reach twenty thousand dollars. Crude oil was carried down into the main part of Los Angeles from the surrounding highlands where numerous oil wells are flowing, covering both streets and sidewalks with naphtha.

A Washington special says William Henry Jones, defeated Republican candidate for Congress in the Third district, has gone after the scalp of United States Marshal James in earnest, and is securing endorsements. It is said that his application and letters of endorsement will be filed here shortly.

The same special says: "People who are acquainted with the inside of Republican politics tip E. T. Franks stronger than ever to succeed himself as Collector at Owensboro.

Madisonville, Ky., Feb. 7.—The project of building a railroad from Providence to Wheatcroft, a distance of twelve miles, to connect with the Illinois Central at the latter place, has been revived. The fact that the promoters of the road have secured the right of way to within a few miles of Wheatcroft, makes it appear that the road is a certainty and it is understood that work will begin on it soon.

Paducah, Ky., Feb. 7.—A report is in circulation that the iron furnaces at Grand Rivers, Ky., have been purchased by the Illinois Central from the Hillman Land and Iron company, which is composed of St. Louis capitalists. It is said that the railroad will make its own iron and build a rolling mill there. These furnaces were built by Thomas W. Lawson, author of "Frenzied Finance," several years ago.

Madisonville, Ky., Feb. 4.—After a ten years absence and his family not hearing of his whereabouts, William Peak has returned home to friends in this city. He has been in the Philippine Islands for this length of time and had never written. The members of the family supposed he was dead, as he never let them hear from him. He is now the guest of his brother, of this city.

Chattanooga, Tenn., Feb. 9.—For the first time in its history Chattanooga is completely ice bound. On account of crossed wires street car service was suspended early in the evening. The streets are in total darkness and telephone and telegraph communication are obstructed. Street car and electric light service can not be resumed before noon tomorrow.

Atlanta, Ga., Feb. 5.—Never before in the history of Atlanta has the ice king held such a firm grip on the city as he has tonight; traffic is completely at a standstill, street car service closing down at nightfall. The entire electric light service except that in the immediate center of the city, was dead.

Maysville, Ky., Feb. 6.—A sight never before witnessed here was the transporting of a monument across the ice in the Ohio river on a large sled drawn by two horses. The freight on the steamers Kanawha and Tacoma have been reshipped by rail.

Whitesburg, Ky., Feb. 6.—The Kentucky river has been frozen over for nearly a week, so that horses and wagons can cross upon the ice.

Corbett and Nelson Will Fight.

Young Corbett is to have another fight with "Battling" Nelson. They have been matched for a go in San Francisco, February 28, weigh in 130 pounds 6 o'clock on the day of battle. The referee has not been selected, but will probably be Jack Welch. Jimmy Britt has agreed to fight the winner.

CONTINUED COLD

Only in a Few Localities is Anything Like Early Relief Promised.

Washington, Feb. 6.—The Weather Bureau announced today that the outlook is for continued cold weather, not only in this section, but over a large part of the United States. Zero weather extends as far south as Oklahoma, and the Dakotas report 20 to 30 degrees below zero this morning. The coldest point shown by the official reports is Valentine, Neb., which registered 32 below.

The snow and sleet storm which centered yesterday morning in the lower Mississippi Valley States has traveled rapidly northeastward and is now off the New England coast and the maritime provinces, passing out to sea. An unusually heavy precipitation of rain has occurred through New Mexico, Arizona and Southern California for some days. While the cold snap continues undiminished in the Northwest and the Missouri valley, there are signs of moderation in Assiniboia. The forecasts are for continued snow in New England, the lower lake region and Eastern New York, with somewhat lower temperatures to-night, and increasing cloudiness is predicted for Southern districts Tuesday.

The Cost of Billiard Balls.

The statement is made that every billiard ball of ivory has cost a human life. This result comes from elephant hunting or from the massacre of natives who are in possession of and refuse to give up the precious material, one year's supply of which is said to represent the death at some time or other of 7,500 animals.

Egg Famine in Chicago.

Chicago, Feb. 6.—Chicago faces the worst egg famine in its history, according to the local commission men, and the price may go to fifty cents a dozen or higher in a few days. The cold wave is the cause of the shortage, and it has been of such long continuance that the storage supply is almost exhausted.

Little Mining Being Done.

The Commodore Mining company has quit sinking their shaft, on account of having too much water to handle with a windlass. But they are opening up another vein until such time as they can get machinery in the shaft to cope with the water. This company intends sinking one hundred feet before drifting, this will give them six or seven levels on each side of their shaft. Superintendent Persons says that this will give an output of at least one hundred tons per day, which would be the largest producer in the district.

The severe weather of the last week or ten days has caused most of the mines in Crittenden county to close down. The jiggs at the Columbia froze up and they had to suspend operations until the weather breaks. But all miners are kept at work at the spar mines at the Mary Belle.

A new mining company organized in Evansville, Ind., has started operations on the Paris place, near the Pogue mines. They have sunk a shaft about sixty-five feet deep and are drifting in search of their vein. We all wish them success and hope that they may strike it.

The machinery has been moved from the Asbridge mines to the Matthews mines, where a large body of fluor spar is already in sight. The old shaft has gotten too dangerous to work in at the Asbridge mines and there is talk of sinking a new one.

Mr. Reed, the Superintendent of the Kentucky Fluor Spar company, is getting all of his mines in first class shape, and has more fluor spar now in sight than ever before.

All those that have closed down on account of the cold weather are anxious to see warm weather, so that they may resume work.

The new vein of lead and fluor spar struck at the Columbia property at the Mary Belle still shows up very fine.

Has Changed His Mind.

Frankfort, Ky., Feb. 6.—Senator Gus Richardson, of Meade, returned here this morning for the rest of the session. He says he has decided not to contest the nomination of R. W. Owen, of Hancock county, who was last week given the Democratic nomination to succeed him.

A RAILROAD WRECK.

REPTON, Feb. 5.—ED. PRESS: All trains were delayed on account of a wreck half a mile north of this place. Through freight No. 355 and extra No. 381, both south bound, were running close together. At foot of grade generally known as Burton hill the first train bearing a heavy load stalled and extra coupled on and assisted over the grade, where the first train was released and the second train followed close behind: about a quarter of a mile from the top of the grade the engine of the first train refused to work and stopped when the second train, unable to stop, ran into the rear of the first train, crushing the caboose and one box car of merchandise, which were destroyed by fire; another car was derailed, the engine of second train almost demolished; no one hurt. The loss estimated at several thousand dollars.

Valuations Raised.

Hopkinsville, Ky., Feb. 6.—The Christian County Board of Supervisors have completed their work. They raised the property valuation about \$300,000, which will bring the assessment up to \$9,600,000.

LITERATURE OF LUKE I, II.

1. The "Ave Maria," Luke 1: 28, is the angels salutation to Mary, and means hail Mary.

2. The "Magnificat" Luke 1: 46-55 is the song of Mary when she visited Elizabeth. It means the magnificent song.

3. The "Benedictus" Luke 1: 68, 79, is the song of Zacharias when his tongue was loosed.

4. The "Gloria in Excelsis" Luke 2: 14 is the song of the angels when they appeared to the shepherds.

5. The "Nunc Dimittis" Luke 2: 29-32, is the joyful expression of Simeon when he met Christ in the Temple. "Nunc Dimittis" means depart now.

6. The "Stabat Mater" Luke 3: 34, 35 is the message of Simeon to Mary as she stood in the temple with the child Jesus. It means "The mother stands."

IN MEMORIAM.

(Published by Request.)

Mrs. Cora Freeman Graves, wife of Mr. J. A. Graves, of Milburn, Ky., the subject of this sketch, was born Dec. 28, 1859, and reared near Frankfort, Ky. She was brought up by Christian parents and was a member of a large family, all of whom are good citizens. She had a liberal education and some poetical talent, which she never cultivated. She professed faith in Christ and united with the Baptist church at about the age of sixteen and lived a consistent Christian life until her death, which occurred Jan. 21, 1915, at her home near Milburn, Ky., after a long spell of serious and painful illness. Everything was done for her that could be done by her devoted husband, who never left her, and her kind neighbors and friends, who showed her all the attention possible, but could not stay the hand of death, which terminated her career as above stated.

She was married to Mr. John A. Graves Nov. 8, 1882. To them have been born seven children, two of whom are dead and five living—two daughters and three sons. They traveled the pathway of life peacefully and happily together for twenty-three years. She was one of the best and truest of wives and mothers. She was truly a sweet spirited woman, having a kindly feeling, a good word and wish for everybody. She numbered her friends by her acquaintances, for none knew her not to love her. She loved her husband and children and home, which she always contrived to make bright and happy. She strove rather for the happiness of others than for herself. She was one of those beautiful Christian characters that honor God and bless humanity.

After her death her husband brought her remains back to Union county, their former home, and she was laid to rest in the beautiful Masonic cemetery in Morganfield by the side of her two little ones, whose spirits she has joined in that better land. Mr. Graves was attended by two young men, Messrs. Ed Stanley and Devo Watts, who were sent by the Odd Fellows' lodge, and remained with him until his dear one was laid to rest. Her funeral services were conducted by Bro. M. E. Staley, pastor of the Morganfield Baptist church. We hope the good, sweet things that he said will comfort the hearts of the bereaved. After this service the Odd Fellows' of the Morganfield lodge took charge of the corpse and bore it to its last resting place and laid it away very tenderly and sweetly, using the Odd Fellows' burial services. Members of the different churches in town rendered sweet and appropriate song service, both at the house and the grave. Our neighbors and friends showed us much kindness and rendered valuable aid on this occasion. Our dear sister has gone to rest and to be with Jesus and many loved ones, whom we trust have preceded her there. Her gentle spirit has passed beyond the reach of suffering and sorrow. She is at rest.

She leaves a husband and children, an aged mother, brothers and sisters, besides many other near relatives, who will mourn the loss of her, but their loss is her gain. Then, dear husband and children, aim to be submissive to the will of Him who doeth all things well, and say, "Not my will, but Thine be done." Let it be our constant aim and

effort to meet her and all our dear ones who have gone home to God and to glory. Sweet be her sleep till she awakes to sleep no more.

G. H. GREGORY.

Mrs. Cora Freeman Graves was a resident of Crittenden county for a number of years, residing in the Repton neighborhood, and many friends sympathize with the bereaved husband and children in their bereavement.

Shooting Scrape.

George Jackson and Ben Ramsey, both of the Hanson country, were in town last Saturday. While here they got more or less under the influence of liquor. In the afternoon they started home together and on the road a few miles from town they got into a misunderstanding about something. The result was a shooting scrape in which Jackson used his pistol on his friend.

The ball struck Ramsey in the breast, but on account of the heavy clothing worn by the man, the bullet did no very great harm. It was reported that the wounded man would die and again that he was dead. The wound is not a serious one and it will be a short time until the man who was shot will be able to attend to his duties. —Glenn's Graphic, Madisonville.

Disadvantage of Owning Railroad.

Representative Page, of Biscoe, N. C., is in a plight such as comes rarely to members of congress. He is the treasurer and chief owner of the Ashboro and Aberdeen railroad, some eighty miles long. There was a wreck on that road the other evening in which the Rev. G. A. Oglesby, pastor of a neighboring church was killed. It was the first time any one was ever killed on the road. Mr. Page was doubly grieved over the occurrence, because it was unfortunate for his road and also because

the victim was his warm personal friend.

But to add to his troubles, Mr. Page learns that the dying request of Mr. Oglesby was that the member of congress should be the administrator of his estate. As the estate will naturally claim damages, Mr. Page feels that it would put him in a delicate position to have to sue his own road. At the same time he does not like to refuse compliance with a dying friend's request.

The Slaughter.

The interstate commerce commission has issued a report on railroad accidents in the United States during the month of July, August and September, 1904, showing 228 passengers and 103 employees killed, and 2,154 passengers and 1,593 employees injured in train accidents. Other accidents brings the aggregate casualties for the quarter up to 1,032 killed and 13,207 injured. There were 1,439 collisions and 1,321 derailments, the damage to cars, engines and roadway being \$2,439,073. The report says that while these figures show a gratifying decrease in the number of employees killed, these three months as a whole may be termed the most disastrous one quarter on record in accidents to passengers.

FOUND THE STILL.

Deputy United States Marshal Jones, aided by a special detective, on last Wednesday discovered an illicit still sixteen miles north of Hopkinsville, not far from Fruit Hill.

The still was found in a log hut under a bluff, but the rest of the machinery and all the machinery and all the whiskey had been removed, about two weeks previously. The capacity of the still was 60 gallons.

The owner of the still could not be discovered; but we venture to prophesy that if he is in the land Deputy Marshal Jones will find him.

It has been suspected for some time that illicit distilling was going on somewhere in that neighborhood.

PERISHING WITH COLD.

Baltimore, Md., Feb. 4.—Eleven oystermen are perishing from cold and hunger on a great marsh five miles to the westward of Deal's island, in the lower Chesapeake Bay, and unless aid reaches them by tomorrow night it is feared they will perish.

No more horrible plight than the predicament of these men can be imagined and tonight the people on Deal's island, who could see before the sun sank the signals of distress from the marooned men, and who were powerless to aid them, are wild with excitement and anxiety.

These oystermen sailed into the desolate waters on January 16th with eight small tonging boats, scantily provisioned, and practically since that time they have been frozen in the ice. Their desperate condition was not realized until today, when the men were observed making frantic signals, to the people on Deal's island.

The condition of the men was telegraphed to Baltimore and a plan was immediately started to have the tug boat Annapolis start from Annapolis tomorrow morning at daybreak and endeavor to cover the intervening fifty miles through great floes and fields of ice to the vicinity of the men before they perish.

The place where the men are marooned are barely submerged at low tide, and due to the shallowness of the water it is believed the ice crusher can get within a mile or two of them.

In that event means will be employed of shoving flat bottomed skiffs over the snow covered waste of ice with the hope of successful rescue. A difficulty that confronts the willing rescue party at Annapolis tonight is the fact that no pilot can be found in the city who knows enough about the waters of the lower Chesapeake to steer the boat through the dangerous sound about Deal and Tangier islands. For this reason the starting of the ice boat will necessarily be delayed until a pilot can be taken to the Annapolis early tomorrow morning.

GORGED FOR FIFTY MILES.

Evansville, Ind., Feb. 4.—The worst conditions in many years prevail tonight on the lower Ohio river. The gorge at Cloverport, Ky., which formed the first of the week is growing in size hourly, and is said to be almost 50 miles in length. People are crossing the river at Cloverport on the ice; the gorge at French island is holding intact, and a new gorge several miles in length formed today at Newburg, ten miles above this city. A gorge is forming tonight a quarter of a mile above the city, and another is forming about half a mile below here, which promises to fill the channel of the river before morning. A gorge is also reported at the Louisville and Nashville railroad bridge at Henderson Ky. A large gorge is forming at the mouth of the Wabash River which promises to become several miles in length. Green River is frozen over for the first time in many years, and all boats are tied up, the Bowling Green going to the bank at Livermore, Ky., today.

Cooked to Death.

Olive Hill, Ky., Feb. 4.—John Leon met his death in a horrible manner today at Leon, this county. He was making some repairs in the steam chock at the stove plant when some one turned the steam on him, not knowing that he was in the box. When found he was literally cooked to death.

MOORE SKIPS.

Smithland, Ky., Feb. 3.—A sensation has been created in Livingston county, in which several prominent people figure, the facts of which have just come to the surface.

Yesterday Lloyd Moore, of Salem, this county, was arrested on the charge of causing the ruin of Miss Belle Watson a well known young lady. He was placed under a bond of \$200 and his trial was to have come up today before Jus-

tice C. L. Stevens at Salem, but Moore has skipped out and his whereabouts is positively unknown.

Al. Moore, a brother of Lloyd Moore is also wanted on a serious charge. He has left the county and can not be located, having taken sudden departure when he learned that a warrant had been issued against him. He is charged with setting fire to the residence of Clem Devenport, and one half mile from Salem. News-Democrat.

For Representative.

We are authorized to announce
T. H. COCHRAN
Of Marion, as a Candidate for Representative from the counties of Crittenden and Livingston, subject to the action of the Democratic party.

The recent snowstorm was very general and very disastrous throughout the country, especially so in portions of the south, where icy blockades formed where they were never known to exist before, causing immeasurable hardship and suffering among the people, outside of great pecuniary losses, the result of an almost complete stagnation in business. The orange crop of Florida alone was damaged to the extent of millions of dollars, fully two-thirds of that crop being ruined. And while the snow was falling here rains were deluging Southern California and Arizona, where at Phoenix the legislators had to flee from the capitol for their lives and wade waist deep to higher ground in order to avoid being drowned in the rising waters of Salt river. In time, up to the present time we have certainly had an exceptionally severe winter, with no present let-up in sight, but our people may congratulate themselves on being far more comfortably situated than a great many of their fellows.

There is talk of superseding General Kuropatkin with General Linevitch. Kuropatkin is cautious and falls back when he sees it necessary. Linevitch is a dashing fighter and believes in keeping at it. A parallel case occurred during our civil war, when General Joseph E. Johnston was superseded by General J. B. Hood. Gen. Johnston was cautious and kept his army intact. Hood believed in fighting and in a few weeks campaign Old Pap Thomas had scattered his fine army to the four quarters of the globe. Now let us see whether the parallel is carried to a similar conclusion between the armies in Manchuria.

Rev Joseph W. Warder, D. D., a noted Baptist divine, died Saturday last. About his first pastoral work was the charge of the Baptist church at Frankfort in 1852. He was a nephew of the late Governor Charles S. Morehead.

The called session of the Kentucky Legislature has come to a standstill on the question of the amount to be paid for a site for the new State Capitol. The Democrats accuse the Republicans of obstructing legislation while the Republicans "stand pat" and say nothing. Hence the deadlock.

Bebout-Street Nuptials.

The marriage of Miss Elizabeth Street and Mr. Lewis L. Bebout took place this morning at 10 o'clock at the First Baptist church. The ceremony was performed by Rev. G. W. Perryman. The church was decorated in palms. The bride wore a pretty going-away gown of blue. There were no attendants but ushers. They were: Mr. Wallace Weil, Dr. Will Owen, Mr. Melville Wallerstein and Mr. Klein, of Nashville. Miss Courtie Paryear played the wedding march.

Immediately after the wedding the couple left for Jacksonville, Fla., and other Southern cities on a bridal trip. They will reside, when they return, at 1107 Monroe street.
Mr. Bebout is stamp deputy for this district and is also a well known and popular insurance man of this city. The bride is the daughter of Mrs. Annie Street and possesses dainty beauty and charm of manner. She has many friends.—Paducah News-Democrat, Feb. 7.

New Trial Granted.

Paducah, Feb. 4.—In the suit of L. E. Stevenson, against the I. C. railroad, Judge W. M. Reed granted the defendant a new trial. The plaintiff was given a verdict for \$25,000 damages for the death of his daughter, who was killed while walking a trestle at Dawson Springs.

POQUE MINE

Destroyed by Fire Early Wednesday Morning.

Wednesday morning between 5 and 6 o'clock the engine house at the Pogue mine burned with all the contents. The two engines and boilers were damaged, and nothing was saved. It is not known how the fire originated as it was beyond control when discovered, and the entire building was reduced to ashes in less than an hour. There was no insurance. The loss will amount to several thousand dollars. The Pogue is one of the Marion Mineral Company's properties and has been operated by them very successfully, it being one of their best products and in fact one of the finest mining properties in this district.
The company will rebuild at once and expect to be running as usual within thirty days, and in the mean time have a large supply of spar on hand to take care of all orders.

Judge Givens Ill.

Judge M. C. Givens, of Henderson, has been critically ill for the past few days, but at last reports from his bedside he was better and hopes are now entertained for his recovery. He is seventy-three years of age and is well known to the older citizens of this county.

HAS STOOD THE TEST 25 YEARS

NEWS NOTES.

William F. Shoffner, for a long time agent of the Illinois Central Railroad at Princeton, Ky., died at the Gray-street Infirmary yesterday morning following an operation for cystitis after a short illness. Mr. Shoffner entered the Infirmary only a few days ago. He was transferred to Princeton last December from Omega, I. T. where he had occupied the position as agent for the Illinois Central for several years. He was thirty-eight years of age and is survived by a widow. His body will be taken to Water Valley, Miss., the home of his childhood, for burial.

It is announced in London that Signor Guglielmo Marconi's marriage to Hon. Beatrice O'Brien is fixed for March 16 at St George Hanover Square. Marconi met his sweetheart a year ago when staying at Lord Dunraven's house near Limerick. She is a bright, comely, but somewhat rustic-looking girl, fond of out door sports, and is also well read. She is a sister of the present Baron Inchiquin and a daughter of the fourteenth Baron.

Maj. John Phelps, a prominent lawyer, of Hopkinsville, is lying at the point of death in his apartments in that city. He suffered a stroke of apoplexy and when found by friends he had probably been unconscious several hours. He is a son of the late Hiram A. Phelps, a distinguished Southern Kentucky jurist and nephew of Jas. H. Phelps, of Louisville.

At Milton, Ky., the Ohio river is frozen over, the ice being ten inches thick. For nearly a week about a score of teams has been engaged in hauling grain across from Madison. Today the 10,000 pound boiler for the flour mill of Harford Bros. was brought across on a sled drawn by two horses.

Three hundred school children had a narrow escape when the school building at Stryer, Ohio, was burned. The fire started in basement and had spread to the halls before the alarm was given. All the children were rescued through the windows.

The Illinois Life Insurance Co. has leased an entire block of ground in Chicago, and will erect a building thereon greater than the Masonic Temple. The estimated cost of the building is \$3,000,000.

Etta Wolff, of Princeton, has filed a petition in bankruptcy. Her liabilities are \$9,555.15 and assets listed at \$2,000. She failed recently in the millinery and dry goods business in Princeton.

Three passenger trains were wrecked on the Rock Island railroad within twenty-four hours.

LEVIAS.

Where is the "goose bone" that promised a mild winter?

Don't be alarmed if you see Carter McDowell fanning himself this zero weather. It's a new boy at his house.

Murray Conyer, who has been in Evansville for quite a while, is visiting friends and relatives here now.

The school closed Friday with an entertainment at night. Notwithstanding the zero weather, a large crowd attended and were handsomely entertained. The selections and training showed a master hand. Everything was first-class, and we were justly proud of our school and teacher. The people of the district greatly appreciate the faithful, efficient work of Miss Addie Boyd, our teacher here for several years past, and will be glad to have her again next year.

John H. Grimes entered the Marion school Monday, having completed the common school course here.

Fred Love and wife of Marion, are visiting friends and relatives here this week.

James B. Carter, Jr., entered the Marion school Monday, our school being out.

W. J. Davenport was appointed librarian by the school trustees and will give out and receive books every Saturday from 11 to 12 M.

Prospect work commenced on the Glad Threlkeld place Monday under the supervision of Will S. Lowery. This the same vein as Mary Belle, Ada Florence, Hope-well, Dollar and LaRue mines, and will doubtless soon be one of the paying mines of the district.

"Tolu Rock and Rye" is not a circumstance to that Tolu Snowdrift Flour.

NEW SALEM.

With the care of a good Doctor and good nursing we are convalescent after a four weeks tilt with rheumatism and gripe.

Mrs Blake Hopkins, Miss Carrie Harpending, and a little babe of Jesse Tyner's are all convalescent.

Who ever saw a worse winter than this has been so far?

Every one that has an ice house has it filled.

Henry Brouster has the boss flock of lambs of any farmer in this section; his flock of spring lambs numbers 25.

There has been less farm work done this winter than any in the past 15 or 20 years.

Travel has been suspended during the past five weeks.

Rabbit hunting is all the recre-

ation taken by our boys this bad weather.

Berry Davidson has moved from the Brouster farm to the widow Croft's farm, near Salem.

Miss Jennie Clement's school closed at New Salem last week. Miss Jennie taught the patrons a good school.

The mining interest in this section is at a standstill this cold weather.

Will this generation ever see a turnpike in this county; we hope so. The question comes up if one is ever built, who shall build it? It seems very easy for Marion to get anything she wants, why not the county; Marion is as well equipped as any little inland city in Ky.

John Harpending has a telephone put in at his father's residence.

Herbert Austin has been absent in Illinois the past month visiting his grandparents. Herbert was caught on the other side when the freeze came.

Address, Manager, 810 Como Block, Chicago, Ill.

H. C. Moore, of Hopkinsville, is arranging to move early in March with his family to Dallas, Texas, where he and his brother-in-law, Henry A. Hodge will embark in the insurance business. The Hopkinsville News Era says: "H. C. Moore has completed arrangements for removing early in March with his family to Dallas, Texas, where he has accepted an important position. Mr. Moore and his estimable family have lived here for a number of years and have made a number of friends who sincerely regret their departure. Mr. Moore is at present traveling for the Benet & Seitz Grocery Co. of Evansville, and will be succeeded in this territory by W. L. Staton.

The Siegel-Meyer-Reed Co. was the attraction at the opera house last Saturday evening, and every one who was fortunate enough to hear them went home more than pleased. Mr. Siegel proved himself master of the mandolin and rendered several of the latest pieces in a way that showed he was all and more than he claimed for himself. Mr. Meyer was a fun-maker all the way through the performance and his imitation of the chicken and grand opera were great and he was the best piano player that ever came to Marion. Miss Reed, reader and impersonator, will not be soon forgotten and she was as good as the best and her impersonations were well rendered. All who failed to hear her missed a treat.

Best clover and grass seed in town. See me before buying. Special prices on large orders. Robert Boyd, Salem, Ky.

February 14 is Valentine's day—call Woods & Orme's for your valentines.

County Supt. John B. Paris and Rev. Jas. F. Price, two of the county board of examiners last Saturday examined the following students all of whom passed: Burt Woodson, Tom Johnson, Elsie Wring, Margaret Rankin, Margaret Linley, Agnes Travis, Emma McDowell, Bertha Moore, Edie Jones, Lila Kuykendall. This was an unusually large class.

Woods & Orme have just received one thousand rolls of wall paper of the latest and choicest designs.

Quincy B. Love, who has been located in Texas for several years, visited here Sunday and Monday from his new hotel in Clarksville. Mr. Love is having about \$5,000 spent in improving the Arlington hotel there, and when completed he will have one of the best arranged houses anywhere in this section. We are glad to have him close to us, as his friends here are always glad to have him visit in their midst.—Smithland Banner.

Woods & Orme are headquarters for Valentines.

The Marion Electric Light & Ice Co. during January wired and completed equipping for lights the following residences and business houses: Lowenthal & Co., new main street butcher shop; E. J. Hayward's residence, additional lights; Pickens & Cavender's new two-story residence, C. J. Haury, Jr., residence; Frank Ackert's new residence, Ray Bros. Palace Shoe and Clothing Store, M. Schwab, residence, additional lights; J. M. McChesney, residence, additional lights; C. E. Weldon, county clerk's office; Nunn & Tucker, furniture store, additional lights; R. L. About the Inaugural Ball.

Writing on "Inaugural Balls," in the March Delinator, Catherine Francis Cavanagh concludes with this paragraph of advice: "To the thousands all over the country who read accounts of the inaugural ball in their home paper, many with heart-burnings and envy of those who could and did attend, I would say: 'Don't! It is not worth it!' It is a most public affair, which anyone who can pay the price of entrance may attend. You may go dressed to be seen and to see, and accomplish neither because of the great crush. Dancing is almost an impossibility. Do not let the plea of wishing to see the President be your excuse, either, for every new executive gives those who would wish him well the chance to do so at the White House during the week of his inauguration."

Church Dinner.

The ladies of the Christian church will serve dinner Monday, Feb. 13, 1905, at the new Pierce building on Belleville street. They will also serve cream and cake in the evening from 6 to 9. All are cordially invited.

Youth and Age.

With youth 'tis Summer fair and fleet,
Roses and no rough wind;
But youth's glad summer gone, the bitter sweet
It leaves behind.

With age 'tis Winter, peace is his,
That white peace of the snow;
And when slow winter goes, peace still
It is.
He does not know.
—John Vance Cheney in Delinator for March.

Letter From Massachusetts.

Lynn, Mass., Feb. 3, 1905.
Editor Press:—Enclosed you will please find check for two year's subscription to your paper. Don't know what I'd do if it were not for the Press. Although twelve hundred miles away I know just when Mr. Brown shingles his barn, when Mr. Funkhauser goes to town, just when Mr. Whitt digs his potatoes, etc. But the most interesting part of your paper and that which amuses me most is how nice I can keep track of all my old sweethearts, I know just who everyone of them are making eyes at, and they wonder how I find it out. Never think of the Press, you know. You won't put them next, will you? You will please change my address from Liberty street to 184 South Common street.
If I could think of something real nice to say, wouldn't object to having it published in your paper, but you know I never could talk when I really wanted to, so will say good-bye and good luck to you.

The fast meetin of "skollars" will be next Monday nite, an the teachers hope that awl of em will be present at roll call. If they like laffin, they will be there alright fur "Loffin" is the motto of the "Singin' Skule Begiment."

Editor Press:—On Saturday January 13, 1905, I left Marion for Lexington and Memphis, Tenn. and found my boys and girls well and so doing. Stopping off at Hardin, Ky., and Cardover, Tenn. I also found the weather cold and disagreeable as at home. I guess I can beat any man in Crittenden for railroad men. My son W. F., is section foreman at Lexington, Ky., J. R. extra foreman at Cardover, Tenn., also I have a son-in-law extra foreman at Memphis, and one at Lexington, Tenn., also a son-in-law at Lexington as brakeman. So you see that I have a pretty good reason for going over the N. C. & St. L. R. R. at least once a year. J. R. gave me a dollar for the Press and I think I will get another dollar from W. F. Will be home some time before long.

SEEKS PEACE.

The President Adopts a New Policy Toward the South.

Jackson, Miss., Feb. 3.—Mississippi politicians believe that President Roosevelt has repented his action in the Arcola post office case, which caused much discussion throughout the South, and is now making amends to the Southern Democrats by the appointment of Confederate veterans and other Democrats to many post offices in this state.

During the last few months many post offices have become vacant and among the many appointments made by President Roosevelt there has not been a single instance reported in which the patrons of the post office are displeased with the choice.

More women are in charge of post offices in this State today than was ever before known in its history, and among them are many widows of Confederate veterans, appointed since the president began his new policy.

Old soldiers who served throughout the Civil war in the Confederate army have also been selected for office.

Democratic post masters have become numerous and it is said that Democrats have received appointments with as much and probably more frequency than Republicans.

Many incidents have come to light where the President has refused appointments to Republicans of the "for revenue only" class and selected lifelong Democrats in their stead.

The press of the State is daily taking note of the apparent change in policy by the President, and much comment of a favorable nature has been the result.

That President Roosevelt has started on a course by which he intends to placate the Southern people, and to remove from their minds former unpleasant occurrences, is the generally expressed belief of both Democrats and Republicans.

All Run Down

THIS is a common expression we hear on every side. Unless there is some organic trouble, the condition can doubtless be remedied. Your doctor is the best adviser. Do not dose yourself with all kinds of advertised remedies—get his opinion. More than likely you need a concentrated fat food to enrich your blood and tone up the system.

Scott's Emulsion of Cod Liver Oil

is just such a food in its best form. It will build up the weakened and wasted body when all other foods fail to nourish. If you are run down or emaciated, give it a trial: it cannot hurt you. It is essentially the best possible nourishment for delicate children and pale, anemic girls. We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Token to Mrs Grassham.

At the last meeting of the Woman's Missionary Society before Mrs C. C. Grassham moved to her new home in Paducah, the officers of the Society presented her with an elegant testament, in token of their appreciation of her faithfulness and splendid efforts and very valuable assistance as a member of the Society. The testament was presented by the President, Miss Laura Champion, to which Mrs Grassham replied in a few words, full of feeling, assuring the members that their associations had been pleasant; that her leave was sad to herself and that she appreciated the gift more than any words could express—Smithland Banner.

That Tickling in the Throat

One minute after taking One Minute Cough Cure that tickling in the throat is gone. It acts in the throat—not in the stomach. Harmless—good for children. A. L. Spofford, postmaster at Chester, Mich., says: Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. Three doses of One Minute Cough Cure half an hour apart, speedily cured her. I cannot praise One Minute Cough Cure too much for what it has done in our family. It always gives relief. INDIAN TRUST FUND.

Washington, Feb. 5.—Sensational disclosures in reference to the alleged use of Indian trust funds for the support of sectarian schools were made yesterday by Senator Ford, in a statement to the Senate committee on Naval Affairs.

In addition to the charge that Roman Catholic schools have received 98 per cent of the money expended under contracts made by the Indian Commissioner, the senator said that he had been approached by a representative of a Catholic association with a promise of carrying a certain number of stated districts in California for him in return for his influence in bringing about a continuance of such favorable contracts.

The Sunshine of Spring.

The salve that cures without a scar is DeWitt's Witch Hazel Salve. Cuts, burns, boils, bruises and piles disappear before the use of this salve as snow before the sunshine of spring. Miss H. M. OBITUARY.

Death has again visited our circle and claimed as his own Miss Nannie Scott. Miss Nannie was a daughter of Jack Scott of Caldwell county, and was born April 30, 1881. Last May she had the measles, which subsequently ran into the consumption, and she has suffered eight months; but Tuesday night at half past eleven o'clock death relieved her of her sufferings.

Her lamps were trimmed and burning and in robes of spotless white she met and journeyed forth with the true bridegroom. To her friends and family she said: "Farewell! I am going home; meet me over there."

Grave Trouble Unforeseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. LA GRIPPE—PNEUMONIA

So many people who have apparently recovered from an attack of *La Grippe* are stricken with *Pneumonia*. This is due to the fact that the Bronchial Tubes and Lungs are left weak and unable to resist disease.

FOLEY'S HONEY AND TAR

not only cures *La Grippe Coughs*, and prevents *Pneumonia*, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when **FOLEY'S HONEY AND TAR** costs you no more and is safe and sure. Contains no opiates.

I had a bad case of *La Grippe* about ten years ago which left my Lungs so weak that I have been troubled more or less every winter since until I used **FOLEY'S HONEY AND TAR**, which cured me completely and my Lungs no longer trouble me.—J. H. BROWNING, D.D.S., Orrick, Mo.

G. VACHER, 157 Osgood St., Chicago, says: "My wife had a very severe case of *La Grippe*, and it left her with a very bad cough. She tried a bottle of **FOLEY'S HONEY AND TAR** and it gave immediate relief."

The 50c bottles contain two and one-half times as much as the small size and the \$1.00 bottles almost six times as much.

RUSSIAN SPIES.

Russia is preeminently the land of spies. Democratic and socialist France has raised the spy system to a State function, but in Russia it is the very soul of the State.

In Moscow, in the streets agents of the police are stationed every five hundred yards; in addition, secret agents watch the houses day and night, one being allotted to every four houses, and in every house is another spy, the porter. Go where you will you are never out of the watchful eyes of the police. You brush against spies in your hotel, as in the theatres, in a restaurant as in the drawing room of a friend. It is ridiculously easy to recognize those you meet in the fashionable resorts. They have evidently been instructed to disguise themselves as gentlemen, and for one of them the livery of a gentleman is a frock coat, a silk hat, and always, by rain or sunshine, an umbrella. The famous third police. A stranger might fancy that in a cab, talking English and French to a friend, he would at least be safe from surveillance; but his friend will touch him significantly on the shoulder and talk of the weather; the fat caddy on the box, somnolent with white hair and good paternal eyes, may be a spy, more skilled in the languages than the travel-ed stranger; and if the cabman has been found loitering near the big clubs, the hotels or the embassies, the chances are strong that he is. A subtler police than that of the third section, the akhrans, which has its ramifications in every cap-

Invaluable for Coughs, Colds, Whooping Cough, Croup, Bronchitis, Asthma and Sore Throat. GET THE BEST.—All substitutes are fictitious imitations of the genuine. Per bottle, 25c and 50c.

Lemuel Downess, of Warrick county, Ind., writes: "Had a severe cough for nearly three months. Tried everything. Thought it was going into Consumption. My attention was drawn to Dr. Otto's Spruce Gum Balsam and procured a bottle, and it cured me. I recommend it to all people troubled with a bad cough."

Mrs. Albert J. Schulz, 250 Jefferson Ave., Evansville, Ind., writes: "A year ago I was taken with a gripe and a severe attack of bronchitis. The cough wore out my strength. Nothing the doctors gave me relieved me. I finally got a bottle of Dr. Otto's Spruce Gum Balsam. After taking the first dose I felt a change."

The Beef Trust.

Washington, Feb. 1.—It can be said by authority that unless the corporations constituting the alleged "beef trust" shall heed the injunction made permanent by the decision of the supreme court of the United States, the government will institute proceedings against the individual members of the corporations to enforce the decisions of the court. The proceedings will be under the criminal law, if such can be instituted. The minds of the president and his cabinet are fully made up on the question. They have determined that the "beef trust" shall obey the law, and now that the highest court in the land has upheld the hands of the administration, it is said they will permit no further "dilly-dallying" with the subject.

Give Your Stomach a Rest

Your food must be properly digested and assimilated to be of any value to you. If your stomach is weak or diseased take Kodol Dyspepsia Cure. It digests what you eat and gives the stomach a rest, enabling it to recuperate, take on new life and grow strong again. Kodol cures sour stomach, gas, bloating, heart palpitation and all digestive disorders. L. A. Soper, of Little Rock, Ky., writes us: "We feel that Kodol Dyspepsia Cure deserves all the commendation that is given it as it saved the life of our little girl when she was three years old. She is now six and we have kept it for constantly, but of course, she only takes it now when anything disagrees with her." Sold by Woods & Orme, druggists.

The Cigarette Law.

Section No. 12277, Kentucky Statutes, read as follows:

It shall be unlawful for any person to sell or furnish to any person under 18 years of age any cigarettes or cigarette material or to give same or to barter the same to any person whomsoever with the knowledge that the same is to be given or sold or bartered to such child, or persuade, advise or compel any child under said age to do the same.

Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction of same shall be fined not less than five nor more than twenty-five dollars or serve from one to six months in the county jail or both at the discretion of the court.

Missouri Senatorship Fight.

Washington, Feb. 1.—Vigorous effort is being made by administration influence to secure a settlement of the Missouri Senatorship fight.

It may be said that a definite plan for the settlement exists, though this plan will probably not be advanced unless the president and the administration are convinced that it will accomplish the desired solution of the difficult situation.

The idea is to offer Mr. Niedringhaus the equivalent of a senatorship. Probably the only equivalent of a senatorship would be a first-class embassy or a cabinet portfolio. The embassy tentatively suggested in this connection is that to Mexico.

The White House is seriously concerned about the election of a Republican senator from Missouri. The administration wants and needs a strong Roosevelt senator from the state.

Legislation is on foot which is essentially Roosevelt legislation. Its stumbling block in the end will lie in the senate. Accordingly, the need is imperative for a Roosevelt faith, one who will not gum the cards.

Mr. Wm. S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by Woods & Orme, druggists.

Killed By Train.

James S. Slaton formerly of Hanson, but who has been rail-roading for some years was killed by being run over by a train at Mount City last Saturday. He was employed by the I. FOLEY'S HONEY AND TAR
stops the cough and heals lungs

Old Times in Tennessee.

Probably few people know that the original name of the State of Tennessee was Franklin, or that 1788 the salaries of the officers of this commonwealth were paid in pelts, but the following is a correct copy of the day:

"Be it enacted by the General Assembly of the State of Franklin and it is hereby enacted, by authority of the same, that from and after the first day of January, the salaries of this commonwealth be as follows, to-wit:

"His Excellency, the Governor, 1,000 deerskins.
"His Honor, the Chief Justice, 500 deerskins,
The Secretary to His Excellency, the Governor, 500 racoon skins.

County Clerk, 500 beaver skins,
Clerk of the House of Commons, 200 racoon skins.

Members of the Assembly, per diem, three racoon skins.
"Justice's fee for serving a warrant, 1 mink skin.

At that time the State of Franklin extended to the east bank of the Mississippi river, and on the west bank was that great unknown forest region of Louisiana. It was then a "terra incognita," save a few canoe landings and Indian trading posts on the river banks. It was known as the district of Louisiana.

The State Franklin, which became Tennessee 1796, was almost as little known. The now great city of Memphis was a mere trading post, and was not laid out as a village until 1820.

Pelts were as plentiful in those days as pennies, and much better distributed for purposes of currency and barter.

TILINE.

Dear Editor: Since papa's subscription has expired and today he has renewed his subscription, I shall be pleased to send a few words together with the "Tiline Items."

First, I desire to thank the editor for his kindness to me in printing my letters. I am truly glad you are a christian man, Prof. Jenkins, and may God's richest blessings be with you and yours. We all enjoy the PRESS. We will welcome it to our home for the next twelve months.

Tiline is doing fairly well, considering the cold, disagreeable weather.

Rev. R. L. Tilley held quarterly meeting last Saturday and Sunday at Thompson's Chapel. He will fill his regular appointment in Tiline next Sunday.

The Tiline boys are enjoying their hunting sports splendidly. Mr. Perce Smith, of this place, is now attending school at Grand Rivers, Ky.

Misses Jennie and Fannie Smith are in school at this place. We have the best most thorough, and determined teacher the writer has ever gone to, that is, in a free school. You cannot go to Mr. Orman Vick, unless you study real hard. I wish every teacher in the county would be as eager to teach thoroughness, as Mr. Vick. The school will be out February 17.

Mr. Lacey Vick is visiting his brother, Prof. O. L. Vick, of this place.

Mr. Ross Moss, of Arkansas, will move on a farm near Tiline with his wife and little son. We welcome you, Mr. and Mrs. Moss.

Johnnie Vick, of Illinois, is visiting his sister, Mrs. Alfred Montgomery.

The odor of "popcorn" attracts my attention, so I'll say, good luck to the PRESS and each reader. Your friend and reader, ELLA CHARLES.

FIFTY YEARS

From a small beginning this firm has grown until our factories now cover many acres. Some of our machines sold fifty years ago are still giving faithful service.

WHEELER & WILSON SEWING MACHINES

The Rotary Lock, a distinctive feature, originated with this machine, operates in one continuous revolving motion. Compared to a shuttle it works on exactly the same principle as the circular buzz saw in contradistinction to the cross cut saw. The work that can be accomplished, the speed that can be made, and the ease and convenience of operation all are features that have combined to give this machine its present enviable prestige.

CARRSVILLE.

Prof M O Wright closed a very successful term of school at Eli on last Saturday. An examination for common school graduation was held January 27 and 28, at which seven of his pupils secured diplomas, only one out of eight failing. Those securing diplomas were as follows: John Quartermorse, Alvin Clemens, Leslie Johnston, Lula Sullivan, Grace Williams, Archie Campbell and Ross Williams. The graduating exercises were held at Eli Saturday night with a house filled to overflowing. Each of the graduates gave an oration which was well written and equally as well rendered. This is one of the small districts of the county and is no doubt at the head of the list of country schools in the number of graduates turned out in one year. After the exer-

cises, Mr Wright made a very touching speech in which he urged them to keep climbing toward the top. Before adjourning a motion was offered to give Mr Wright the thanks of the district for his honest and efficient work during the term, and every patron present stood up and thanked him for his successful work. At the beginning of the term Mr Wright offered a prize to the best student in school. Saturday the school unanimously conferred that honor upon Fred Garrett, who was one of the two pupils to be present every day of school.
