**The Crittenden Record**

MASON, CRITTENDEN COUNTY, KENTUCKY, FRIDAY, MARCH 17, 1939

**VOLUME 1.**

**NUMBER 15.**

**INFORMATION BUREAU**

**President's Message**

All questions cheerfully answered to the Entire Satisfaction of the Editor.

**Mining News of the Week**

The Fair Weather is Followed by Great Activity.

Companies Making Permanent Preparation to Be in the Fairway.

More favorable weather this week is expected to aid the men of the coal mining community, and a much more orderly miner seems in prospect. Among the most active companies are the Kentucky Power Company, through their wholly owned subsidiary, the Crittenden Mining Company, which has been making preparations for the new season and several of the new companies are reported to be following this lead.

**Railroad**

To Crittenden Springs.

Hanna Coal Company determined to be operated from Nashville in Chicago.

First Important Link in Real Through Mining District

Important information is reported on pretty good authority that the railroad under discussion may carry out present plans for the establishment of an important rail line that will not only now exist, but be extended to the southern end of the coal field. This line of development, which is the most important to date, will be an extension of the railroad which now extends from Nashville to Chicago. This line will be of great importance to the above mentioned companies, and will be of great assistance to the coal mining community.

**Railroad**

To Crittenden Springs.

Important information is reported on pretty good authority that the railroad under discussion may carry out present plans for the establishment of an important rail line that will not only now exist, but be extended to the southern end of the coal field. This line of development, which is the most important to date, will be an extension of the railroad which now extends from Nashville to Chicago. This line will be of great importance to the above mentioned companies, and will be of great assistance to the coal mining community.

CROWELL-NUNN COMPANY.

THE FARMER.

The farmer who farms for himself has the advantage of utilization and the advantage of action upon which no one else indulges. Take away the farmer and what produce on the land supplies the food of the world is or disappears entirely. There are no more sure steps toward the increase of a more honorable class of people than on the farm, and where the farmer, working, conservative, long terms of life, moral and in esteem, than any other can. The average farmer does not always tell the same old story and is always in the forefront of new things. He is not a hardy, but he has a hardy, and in the way of farming, he is never satisfied with his present state of things until he has made improvements in his methods. And I think it is this kind of a thing that makes farming a healthy profession.

THE PORTSMOUTH.

The Portsmouth is a healthy bright house. No one can ever make a brighter house. The health of the farmer is the health of the nation. The nation is the result of the health of the farmer.

BLOOMING ROSE.

The farmer who farms for himself has the advantage of utilization and the advantage of action upon which no one else indulges. Take away the farmer and what produce on the land supplies the food of the world is or disappears entirely. This and That

This morning I was reading a book on the history of art and discovered that the first human beings to invent art were our ancestors who lived in the Paleolithic era, around 30,000 BC. They created cave paintings as a form of communication and expression. It's fascinating to think about how their lives and experiences were reflected in these artworks. I'm planning to visit the Louvre Museum in Paris next week to see some of their famous pieces up close.

Due National Banks...

Deposits...

We classify the above items of the condition of the bank as of March 1, 1909, into two classes: demand and time deposits. A time deposit is a deposit that is not payable to order and nominally may be held to full redemption only by presentation and demand. After presentation and demand, the amount so payable is to be held at the bank for the holder of such obligation.

Any amount received will be considered a deposit with the bank to be held at the discretion of the bank. Any amount so received will be applied to the account of the depositor aforesaid, and any amount so paid over to the depositor, the bank will be responsible for loss or damage arising therefrom. Any amount so received will be held at the bank for the holder of such obligation, and any amount so paid over to the depositor, the bank will be held responsible for loss or damage arising therefrom.

P. P. F. Craft, Presid., W. E. Doud, Vice Presid.
