OUTPUT VALUED AT MILLIONS.

Expert Believes Supply of Mineral is Practically Inexhaustible—Other Information.

Mr. H. Foster Bain of the United States Geological Survey, has recently written a report on the most important fluorspar area in the United States. It is in Pope and Hardin counties, in the extreme southern portion of Illinois. The principal mines are near Rosi Claire, Elizabethtown and Cave in Rock, small towns on the Ohio river in Hardin county, and the northeast part of Pope county, and there are minor occurrences at various other points in these counties and also in Saline and Johnson counties. The area forms the northern part of the Kentucky-Illinois district. Mr. Bain's report is intended to supplement a fuller discussion of the district in general and the Kentucky mines in particular, which Mr. E. O. Ulrich and W. S. Tangier Smith, also of the United States Geological Survey, will soon bring out.

The first fluorspar discovered in Illinois was encountered with galena, in 1839, in a well on the Anderson farm, now the property of the Fairview Fluorspar company. In 1842 spar and galena were discovered near the site of the present Rosi Claire mine. From that time on mining appears to have been carried on more or less continuously in this vicinity. Shipments of fluorspar began in the early seventies, and since 1880 have been regularly reported.

The topography of the region is briefly described by Mr. Bain. Its most striking feature is a belt of high land which crosses the northern portion of Pope and Hardin counties and presents an abrupt escarpment face to the south. Extending southward to the Ohio river from Karber's Ridge, as the escarpment is called in Pope and Hardin counties, is a rolling, broken plain, sloping gently from about 600 feet elevation at the north to 500 feet at the south, to the upland plain the rivers are on their valleys which are the most part rather shallow and sharp walled. The Ohio is a master stream of the area.

The geology of the district is sketched out in considerable detail by Mr. Bain, and the ore deposits

are carefully described. Individual mines in the Rosi Claire area, in the Hicks area, and in Hardin, Pope and Saline counties are also discussed, so that the report will be of interest to all who own property in the district.

The ore deposits of Pope and Hardin counties are vein deposits, which occur along faulting fissures. The vein material consists essentially of fluorspar, and calcite or "calc spar," as it is locally called. Associated with these minerals are minor amounts of lead and zinc sulphides—galena and blende. There are also traces of other sulphides, notably those containing copper and antimony. Within the area are certain bodies of limonite which were formerly mined but are now unimportant. Fluorspar is the only mineral now mined in quantity. What was, therefore, originally a gangue mineral is one that gives value to the ore.

The Kentucky-Illinois district is not only the main American source of fluorspar, but it is the general market. Since 1882 the district has produced 260,000 tons of spar having a total value of \$1,521,029.

Prices for fluorspar are fixed by Pittsburgh quotations, less freight and commissions. At Pittsburgh the American spar comes into competition with English and German material imported through New York. The American mines supply the western trade and about half of the Pittsburgh trade. The importers control eastern trade and determine prices at Pittsburgh.

There are three main uses for fluorspar. The highest grade, which runs less than one per cent of silica, and is white in color, is sold either ground or in lump, for use in enameling chemical and glass trades. The second grade of spar is used in steel making and is sold unground as lump or gravel. It includes colored spar and may run as high as four per cent silica. It is demanded for open hearth work because of the great fluidity which it gives the slag. The lower grade of spar, including all running over 4 per cent silica,

or spar mixed with calcite, can be used in foundry work and while the price is and always must be low, there is possible an almost unlimited market. It is evident that the fluor spar mines of the Kentucky-Illinois district will have for many years an important and growing market to supply.

Mr. Bain believes that the ores will prove permanent in depth to the horizons below which they can not be worked, because of increasing cost. The low value of the ore places a somewhat severe limitation on the future depth of mining and it is possible that this feature alone will in most instances preclude work at a depth greater than 1,000 feet.

This report is published for general distribution, and may be obtained on application to the Director of the United States Geological Survey, Washington, D. C., for Bulletin No. 255.

FROM THE FRANCES DISTRICT.

MR. JENKINS: According to promise I send you a few items of mining news:

At the Pogue they have about got their machinery in good working order and will begin hoisting spar in a few days. In the meantime they have plenty of spar on hand to supply all demands. The new building is one of the best in the district and was erected under the supervision of the pushing Superintendent, Fred Clement, who believes in doing everything right.

The Kentucky Fluor Spar company have ten to fifteen wagons hauling spar from their various mines in this section. They are also installing machinery at all their mines. Supt. Reed is doing more for this district than any one we have ever had here, and he is, withal, a pleasant gentleman to work for.

G. M. R.

The Kentucky Geological Survey is to do considerable work in this part of the State. Mr. Fols is to have charge of the work and will have a corps of surveyors assisting him. Reports on each of the principal resources of the district are to be made as subject reports. Then county reports are to be made. The first work will be done in Livingston county, which begins at once, and then each of the other counties in the district are to be taken up. The work being done by the State has the interests at heart in development of its varied natural resources. Preliminary reports are to be got at as early a date as possible, and later more complete reports, so as to get the resources before the people as soon as possible.

The mines of the Frances neighborhood are in full blast.

For the Boulevard.

The luncheon given last Monday by the ladies of the city at the old furniture store room was a success in every way. Financially speaking \$96 were realized. The cooking was good and the entire menu was seasoned well and served with good cheer by as happy a lot of "waiters" as one seldom sees. Much credit is due to W. D. Baird for the enterprise, which he really put on foot, and to carry out the plans he was ably assisted by Mrs. Eva Moore, Mrs. Thomas H. Cochran, Mrs. C. S. Nunn, and Miss Nell Walker, and in fact most of the younger ladies in the city. On Saturday week they will give another similar dinner at the same place for the same good cause. First thing you know the Boulevard will be a reality.

PRESLEY GRAYOT KEMP

Six-months-old son of Mr. and Mrs. R. H. Kemp, of this city. He was named for Press Maxwell and John Grayot and his father hopes he will be like them, a true blue Democrat. Mrs. Kemp was a daughter of Noah Fox, of Iron Hill.

KINDLY REMEMBERED.

Last Thursday afternoon the Ladies Aid Society of the Baptist church gave us a pleasant visit. They brought with them quite a number of useful articles and eatables.

My wife was the happy recipient of a beautiful dress. I was kindly remembered by a fine pair of shoes and linen, which articles are very useful to a busy pastor.

Other articles received were domestic, sheets, towels, soap, table linen, counterpane, gingham, embroidery, hose, two pair of silk mittens, and a beautiful dress for our sweet baby girl, "Virginia."

A good "old country ham" in company with a well dressed chicken, pies cooked to satisfy the appetite of a preacher, canned goods, preserves, game, and a variety of pickles.

May God bless these people and help me in all my weakness to be more faithful and useful to them. As I am beginning my sixth year with this church my heart is made glad to see an increased interest in our prayer meeting, Sunday school and church services.

May God give us all strength to go forward to do great things for Him and may He keep us to the simplicity of His glorious truth.

I believe that a glorious revival awaits us and may every one pray earnestly that God grant us light in His light, and that the redeemer's cause may blossom as the rose. Yours in the love of Christ, T. A. Conway.

FREDONIA AND KELSEY.

Mrs. Wilson Dollar died Saturday morning at the home of her son, N. M. Dollar, near town. She was 89 years old and had been ill for some time. The interment was made Sunday at the Dollar graveyard, Rev. Miller conducting the ceremony. Quite a number of relatives and friends were present.

A. Boaz and daughter, Miss Georgia, visited relatives near Dyousburg recently.

Mrs. Fannie Bugg left Sunday for Evansville and St. Louis to purchase her spring stock of millinery; her trimmer, Miss Lillian Ragedale has been in St. Louis for two weeks, learning new styles.

John Clift, wife and little girl, left Tuesday for Kansas. His car load of stock, household goods, etc., was shipped Saturday. John was a good citizen, and we are sorry to lose him.

J. B. Ray came up Tuesday from Marion to make arrangements to move his family to Marion.

Seed potatoes, home grown, 60c per bushel; Red Cut Rare 75c; Early Ohio \$1; Early Triumph \$1.50 cts and sweet potatoes \$1 per bushel. Bennett & Sons, Kelsey, Ky.

NOTICE OF MEETING.

The Commercial Club will meet in regular session Tuesday evening, March 28, at 8 p. m., at headquarters in the post office building. Among the matters which will be brought up for discussion is the proposition to build a railroad to Crittenden Springs. The Club buttons are now ready for delivery to the members. Come to the meeting and get one. Jas. E. Crittenden, Sec'y.

Big Judgment.

In the Barren circuit court judgment was rendered against the L. and N. railroad in favor of Annie C. Mulloy, adm'r of Sam C. Mulloy. It will be remembered that Mr. Mulloy was killed by this road at Glasgow Junction some months since. The judgment was for \$5,000.

FOR SALE.

I have a good new derrick, complete, props, piles and hooks, that I will sell at a bargain. Also several hundred feet of nice seasoned lumber, and some carpenter's tools. Terms cash or secured note. Sue Morris, Lola, Livingston Co., Ky.

CHAPEL HILL.

Mrs. Addie Yandell is on the sick list.

Eura Bigham bought a fine milch cow from O. C. Cook, of Crayneville.

The health of this community is considerable better than it was two months ago. The la grippe has let loose and the people are getting straight once more.

Some few oats have been sown this last week. A very small acreage will be sown as seed is scarce and high in price.

Charlie Clement and Cal Adams are putting up a wire fence on the line between them.

Charlie Clement has purchased a fine saddle mare.

Fred Hill has decided that the cold country up north will have to do without him this year and he will try a big tobacco crop at home.

Miss Stella Hill visited B. F. Walker's family last Sunday.

Sunday was regular meeting day at Chapel Hill and a large congregation was on hand to hear Bro. Thompson. I am proud to say, that today makes the 20th year for Bro. Thompson at Chapel Hill, as pastor of that church, and through these many years Bro. Thompson has been as faithful in his attendance as any man could have been. He lives at Kuttawa and has made his regular trips monthly all this time, and I, as one, can say Bro. Thompson is a good man and a good preacher, and I am willing to say right here that we will keep him with us as long as time lasts. He is faithful in his duties and we ought to be faithful to him in all our daily conversation.

College Boy Hurt.

Hubbard J. Landrum, a son of County Clerk George W. Landrum, of Smithland, who has been attending school at the South Kentucky college, Hopkinsville, was taken home seriously injured, having been struck in the stomach by one of his classmates. But at last reports he was getting along all right.

Like a Letter From Home.

St. Louis, March 14, 1905.—Editor Press: Enclosed find \$1 in payment of subscription to your valuable paper, it is looked for with as much eagerness each week by both Mrs. Weidson and myself as though it were a letter from home and in fact it is. Just four years today since we were married, and "one of the conditions was that we should always have the Press in our home." I subscribed for it on that day and at this time each year I renew the offering. I am connected with Bert H. Lang & Co., in the capacity of a trader on the Board of Trade here and am highly pleased with my work and am getting along nicely, like it much better than the drug business, not nearly so confining and far more profitable. May you and the Press live long and prosper.

Yours truly,
AMPLIAS WELDON.

We have just received a car-load of American Field Fence. Everybody says this is the best fence in the market and we believe it, and if we didn't we wouldn't sell it. All who have purchased this fence of us will want it for all future purposes—so come at once before it is gone as prices are advancing and the next car will come higher.

Delightful Dinner.

Judge and Mrs. T. J. Nunn entertained with a beautiful dinner Friday evening in honor of the Judges of the Court of Appeals and their wives. The table, which was round, was beautifully decorated for the occasion, the color scheme being red and green, and this color was carried out in the jellies, ices, cakes, etc. Red candles in cut glass candle-sticks supplied the only light, except the one from the chandelier, which was also covered artistically with red shades. Red carnations were placed effectively in cut glass bowls and vases. The dinner was served in seven courses, and the following enjoyed their hosts' hospitality: Judge and Mrs. E. C. O'Rear, Judge and Mrs. Thos. H. Paynter, Judge and Mrs. J. P. Hobson, Judge and Mrs. H. S. Parker, Judge and Mrs. W. E. Settle, Col. and Mrs. James A. Scott. —Frankfort Journal.

FOR SALE.

Nice home in Marion. The H. P. Long residence on Poplar street, now occupied by M. Schwab, 7 rooms and hall, front and back porches, all necessary out buildings, double lot, shade trees, well and cistern, garden, fruit trees. A comfortable home.

S. M. JENKINS.

From B. F. McMican.

On the 30th day of August 1904, we left Morgantown, Ky., for Lebanon, Tenn., arriving here September 1st. The boys, Claud and Henry, entered school Sept. 4th. I entered the Theological Seminary Oct. 6th. We are well pleased with the town and schools. This is a great school town; there are five departments of Cumberland University. The school for young ladies and for young men; the law school; the literary and theological. There are about 700 students in all; about 60 in the theological department. The school are doing good; this has been the best year in the history of the institution.

I am very thankful the Lord has made it possible for me to come to Lebanon. This year's work has been worth a great deal to me and I am hoping that next year will be worth more. I have had better health this year than for years I would be glad to visit old Crittenden again and meet my friends, but this will not be possible for at least a year yet. I want to ask the readers of the Press to remember us in their devotion to God.

Fine Seed Corn and Potatoes for Sale.

I have a few bushels of "Leaming Improved" Early Yellow Corn for sale. This is regarded as the best Early Yellow Corn in America. It is the largest yielder, the safest cropper, more exempt from rot, and will stand dry weather better than any other corn. Planted as late as July it will mature before frost. It will make more corn on thin land than any other kind. Every farmer should try this corn. Price 50 cents per bushel, or \$1.75 per bushel.

Also the great medium early or main crop Potato, "Sir Walter Raleigh." It is enormously productive, large, very smooth and fine keeper. The quality is simply superb. It is said to equal the Old Snowflake, the standard of quality. I grew last year on a small plot at the rate of over 400 bushels per acre. Try this grand Potato and you will always grow it. Stock limited, order early. Price 50 cents per bushel, \$1.75 per bushel. Send postoffice money order, or registered letter. Address: A. B. COLEMAN, Princeton, Ky.

LETTER FROM ILLINOIS.

GRAND TOWER, ILL., March 14.
—ED. PRESS: Will you spare me space in the dear old Crittenden Press to write and tell my old friends in Kentucky a little about Illinois. We live in a nice little town with about 1200 inhabitants. It borders on the Mississippi river on the west, and the railroad on the east, and is a good shipping point. There is fine land here and it produces well. Wheat averages 25 bushels to acre and corn 50 to 75. It is a nice level country and the land sells for \$30 per acre. I farmed some last summer and will tell what one pea made—three measured pecks, and one pumpkin seed made 24 good large pumpkins. I call that good land. I know old Kentucky is a good state and Crittenden county a good rich mineral county, and is my old home, and never will say I won't live there any more, for I am likely to come back any day, although this is a good working place and wages are good.

We have two churches here, a Methodist and Presbyterian, but no Baptist. Bro Lish Jackson is our preacher and he preaches fine sermons, and is well beloved by all who know him and hear him preach.

Times are good here but I can't say that Illinois is as healthy as old Kentucky, and I don't think I shall make my home here.

I get the grand old Crittenden Press and are glad when Friday comes to hear from all the good people of Crittenden.

I will close for this time.
Very truly yours,
J. M. GUESS.

TRIED TO BREAK JAIL.

Charley Rogers and young Jasper Sigler made an unsuccessful attempt to liberate themselves from the county jail at Dixon, on Thursday night of last week; they tore up a bed in order to get a piece of iron to work with and then began making a hole in the wall of the jail. They were making good progress but the noise was heard by a member of the jailer's household and the attempt at flight was again frustrated. Rogers seems to think of nothing but making his escape, and

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

ter to the streets of this city is estimated by the Superintendent of streets to be more than \$500,000. Pavements and curbstones have been torn up and washed away, sewers and storm drains broken, and miles of street covered with a thick slime of sand, gravel and petroleum washed down from the oil regions above the city.

On the Santa Fe and Pacific railroads there were extensive washouts that held up traffic in both directions for more than 36 hours.

At the various seacoast towns the damage from wind and waves will foot up in the neighborhood of \$300,000. The piers were torn to pieces, wharves wrecked, scores of small craft driven ashore and broken up and many buildings on the shore battered and badly damaged. At Santa Monica the loss is estimated at \$200,000; at Long Beach \$20,000, and at San Pedro \$13,000.

A Dinner Invitation.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for indigestion, Dyspepsia, Gas on the Stomach, Sour Rittings, Bad Breath and all stomach troubles. N. Watkins, Beasus, Ky., says: "I can testify to the efficacy of Kodol in the cure of stomach trouble. I was afflicted with stomach trouble for fifteen years and have taken six bottles of Kodol Dyspepsia Cure, which entirely cured. The six bottles were \$1,000 to me." Kodol Dyspepsia Cure will digest any of the whole-some food you want to eat while your stomach takes a rest—rejuvenates and rows strong. This wonderful preparation is justly entitled to all of its many remarkable cures. Sold by Woods & Orme.

By Mistake.

Ladies, skip this paragraph. It is best that you not read it. It was set up before we had a chance to see it so we authorized the printer to run it upside down:

If she had to stand on her head, how would she get it at all? We know she'd get it at all. This poem she has already read. Now we'll bet ten cents to a far-thing. If she gets the least kind of a howl, you bet she'll find it out any-where. It's something she ought not to know. There's anything a woman would like to know.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by Woods & Orme.

"QUICKSTEP."

Evansville, Ind., March 12.—The dying request of Capt W H Sargent who was buried yesterday at Rockport, Ind., were carried out to the letter. Capt Sargent was an ex-Union soldier, aged 61, and died at Evansville, Ky., where he leaves a great deal of property. Before he died Capt Sargent said he wanted his body taken to his old home at Rockport for burial, that a brass band should head the procession, and should accompany the remains to the cemetery; that en route to the burial ground the band should play several lively, patriotic airs and "Home, Sweet Home," that on the way back from the cemetery the old time march, "The Quickstep," should be played and he requested that all should march with a quick and lively step.

The band was engaged by the relatives, and the wishes and requests of the dead man carried out. Captain Sargent was a native of Rockport, Ind., and from 1882 to 1884 was Auditor of Spencer county. When he died he was one of the wealthiest men of Evansville.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, F. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers, too. Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House, Chicago, says: "They have no equal for Constipation and Biliousness." 25c at Woods & Orme's, druggists.

TROUBLE WITH JAPAN.

Des Moines, Iowa, March 18.—Congressman John A. T. Hull, Chairman of the House Military Committee, declares that the United States will have trouble with Japan, and likely a bloody war over the Philippines in the near future. Congressman Hull declares he is not an alarmist, that in Washington and other Occidental capitals the opinion is entertained in the best informed circles that if Japan wipe against Russia she will proceed to the immense task of driving Occidentals out of landed possessions in the Far East and that the United States will come next to Russia.

"The Japanese need the Philippines," said Congressman Hull, "and they are certain they could wrest it from us. We must remember that in a war with them we would be in the eyes of the world as Russia is now. Japan would be close to the scene of war while we would be 7,000 miles from it. Even if we had a powerful fleet in Philippine water, we might have it crippled, as Russia was. Japan would prefer to buy the island, and if she collects a great indemnity from Russia she will have the money with which to buy.

"Now, the question may be put up to us very soon. If we don't want to sell we can safely expect that the Japanese will not lose time in finding occasion for trouble with us. The United States must be powerful enough on the Pacific to keep Japan in fear of our navy, or else it can never hope to retain possession of the islands.

"Our policy should be to fortify the Islands and Hawaii, so that operations against our Pacific coast could not be carried on from this group as a base. If our present naval program were completed we would have a navy second only to England, and it would be strong enough for many years to come, if we could keep it all in the Pacific.

Best Remedy for Constipation.

"The finest remedy for constipation I ever used is Chamberlain's Stomach and Liver Tablets," says Mr. Eli Butler, of Frankville, N. Y. "They act gently and without any unpleasant effects, and leave the bowels in a perfectly natural condition." Sold by Woods & Orme.

Child Burned at Lagrange.

Helen Irene Hennon, the three-year-old grandchild of B. F. Fugate, of Lagrange, while playing in the fire with a small stick yesterday morning set fire to her dress, and before aid could reach her was burned almost to death. Soon after help reached her the child became unconscious, and died at 2 o'clock in the afternoon. Monday's Courier Journal.

OBITUARY.

Jacob W. Bettis was born in Jefferson county, Tenn., Jan 20th 1823; was married to Julia A. Walker Dec 1, 1843. Five children blessed this union, of whom four are still living—Mrs R. A. Harold, Mrs J. W. Ainsworth, J. W. Bettis, all of this county, and Mr J. E. Bettis of Georgia.

His aged companion survives him, she being about one year the oldest.

They have 14 grandchildren and 23 great grandchildren. They lived together 61 years and 3 months. He had been a member of the Baptist church about 61 years and was a member of Deer Creek church at the time of his death. He had been a Mason about forty-three years.

Bro Bettis was a good, earnest christian man that loved his religion and enjoyed it. He was as a ripe shock of corn ready to be gathered, into the garner of the Lord. He fell asleep in Jesus the 28th of February, 1905. Funeral services by the writer. A large congregation of sorrowing relatives and friends were present, after which we laid him away in the Deer Creek cemetery with Masonic honors to await the resurrection when the trumpet of God shall sound, when he and all the saints of God shall rise, clothed in all the habiliments of glory.

Servant of God well done, Rest from thy loved employ, The battle's fought, the victory won Enter thy Master's joy.

Inflammatory Rheumatism Cured.

William Shafter, a brakeman of Denison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." STORM AT LOS ANGELES.

Los Angeles, Cal., March 14.—Today dawned clear and cool in Los Angeles and the great storm is over. The total damage is conservatively estimated at one million dollars.

The total rainfall here during the storm measured 3.52 inches, according to the Government rain gauge; at other points it approached as high as 5.40 inches.

The storm was accompanied by most unusual phenomena in the shape of a strong southeastern gale, the wind reaching a velocity of 60 miles an hour.

PET PONEY WHINES.

Tip Top, W. Va., March 15.—With his little body dangling at the end of a rope in the stall by the side of his pet poney, Fremont Ceno, son of John W. Ceno, a millionaire coal operator formerly of Philadelphia was found today in the stable at his home in this place. The child, only 13 years of age, had committed suicide because his father whipped him for a trivial fault.

The poney was whinnying and rubbing its nose against the face of its dead master when its body was discovered.

Pleasant and Harmless.

Don't drug the stomach to cure a cough. One Minute Cough Cure cuts the mucus, draws the inflammation out of the throat, lungs and bronchial tubes, heals, soothes and cures. A quick cure for Croup and Whooping Cough. One minute Cough Cure relieves a cough in one minute because it acts first on the mucous membrane right where the cough troubles—in the throat or deep-seated on the lungs. Sold by Woods & Orme.

What Andrew Carnegie Says.

Andrew Carnegie was the guest of honor at an informal reception and in a brief address he said: "It's a great country, Scotland. While I am a Scot I still love America, but in a different way. Scotland is my mother land, America my wife land. My claim to nobility is good. In Skibo Castle there is a record of an event that I show to English Earls, Dukes, and even the King when he comes to see us.

He said the record was that his uncle had been jailed for holding a meeting in defiance of the government, which was trying to prevent religious and political freedom.

"In England they have a King and they have a doctrine that the King can do no wrong. But, to matter work out right they won't let the King do anything. England is in reality a Democracy although they still preserve the kingly sham. My whole experience in life, gentlemen, has been that the more you know of human life the finer you find it. I am glad to see so many young men here. Get into business for yourself. Don't work for wages any longer than you have to. If you are true to the Judge within you need have no fear of the Judge hereafter. I am a great believer in the fellow who does something for himself.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

For Representative.

We are authorized to announce
T. H. COCHRAN
Of Marion, as a Candidate for Representative from the counties of Crittenden and Livingston, subject to the action of the Democratic party.

The move which is being made by some of the representative citizens of Salem, Ky., to establish a joint county fair for the counties of Crittenden and Livingston to be held at Salem, Livingston county is commendable, and is an enterprise which every good citizen should assist in. Livingston county has had a farmers club for several years which has been visited by the different Commissioners of Agriculture each year. Mr. Hubert Vreeland will attend again this year. The committee appointed by the Livingston County Farmers Club meets in Smithland the first day of circuit court, which is the second Monday in April. At that time they hope to develop a sentiment in favor of a joint county fair. The Press is heartily in favor of the movement. Nothing would benefit our farmers more than a county fair, and we are particularly fortunate in having this opportunity to join hands with our sister county, which has Salem as a middle ground, and which is in one of the richest agricultural parts of the State.

Governor and Mrs. Beckham are the proud parents of a brand new baby boy. The youngster came on the boards at the Norton Infirmary early Tuesday morning.

Gen. Linevitch, who succeeded Gen. Kuropatkin in command of the Russian armies, is still retreating with his demoralized and starving forces before the victorious Japs, who are pressing him on both flanks and rear with Kuroki working around to the front in order to cut his line of communication and thus block his retreat to Harbin. After being summoned home in disgrace by the Emperor, Kuropatkin was subsequently ordered to return and take command of the First army. There is a growing suspicion that Gen. Kuropatkin has been made the scape goat for the gross inefficiency of the Russian General Staff.

LATER.—It is reported that the army of Gen. Kamawura has beaten the Russians to Kirin, and cut off their further retreat.

Madisonville has strong hopes of a glass factory, says the Henderson Gleaner; which reminds the Press that Marion is an ideal spot for such an industry. We have close at hand and in touch with goodliness of transportation all the raw materials entering into the manufacture of glass, and this material is in almost inexhaustible quantities. In booming Marion our Commercial Club should not forget the vast possibilities in the glass manufacturing industry which lie at our doors.

Union county is after the Standard Oil Company with a big club. Last week the grand jury at Morgantown returned 151 indictments against that company for selling oil at retail without a license. The company is liable to a fine of from \$50 to \$1,000 on each indictment. Other counties, in different parts of the State are doing the same thing.

"The young woman of the leisure class is in better health today than she has ever been, for the reason that she has been driven into the open air. With health as the incentive she has drifted into various exhilarating, blood distributing, appetizing, sleep producing, engrossments, which are counting for the physical, mental betterment of all the sex."

The weather bureau has sent forth a warning that a dangerous rise is coming out of the headwaters of the Ohio.

Hon John L. Grayot, our efficient Commonwealth's Attorney seems at his best at this term of court and is doing some valuable work in prosecuting the evil doers. To our mind there is not a more conscientious or better prosecuting attorney in the state than Jno L. Grayot—Princeton Leader.

Attorney Grayot stands high in this community and is always cordially welcomed among us by all save the law-breaker, to whom he is in truth and in deed a "holy terror."

Last Saturday, on the 67th ballot, Major Wm. Warner, of Kansas City, was elected United States Senator from Missouri to succeed Hon Francis M. Cockrell. During the final ballot wild scenes of disorder occurred and a number of fights took place among the members. Major Warner is a well known Missouri Republican. The President has appointed ex-Senator Cockrell to a very agreeable and comfortable position in the Government service.

The rape of the gubernatorial chair in Colorado is an accomplished fact. The Republican legislature of that State have turned out Alva Adams, whom the voters elected as the Executive, and have given the office to Peabody, whom the voters rejected. It was not a question of the wishes of the people. It was simply a question of having a Republican Governor of Colorado. And they got him—by a steal.

Gov. Beckham has come out flat-footed in favor of Judge Paynter for the Senatorship. With the Judge as a nucleus around which to rally all the anti-Blackburn elements, there would seem to be more than a fighting chance for his success.

Joe Blackburn is not to have a walk-over for the U. S. Senatorship. Judge Paynter, of the Appellate bench, has formally announced his candidacy for the position—and there are others.

Tuesday, the 21st, was the day of the vernal equinox, which controls the Easter Sunday, which always comes on the first Sunday after the first full moon after the vernal equinox.

FOR JUDGE PAYNTER.

Gov. Beckham Comes Out in Favor of the Distinguished Jurist

Louisville Times: "Gov. Beckham, who is in the city today, was asked about the candidacy of Judge Thomas H. Paynter for the United States Senate to succeed J. C. Blackburn, as officially anticipated by The Times yesterday and officially announced this morning. The Governor said: "I am very glad that Judge Paynter has concluded to announce his candidacy for that office and I shall cheerfully support him. He has an excellent record on the bench of the Court of Appeals and he is well equipped by natural talents and by his long service in the lower House of Congress to make Kentucky a useful and valuable member in the Senate. By his industry, his ability and his fidelity, to his people he will give our Commonwealth a prestige and influence in that body not held by this State in many years. "I believe he will win the nomination and the election in the next General Assembly beyond a doubt."

BECAME A WINDLASS.

Anderson, Ind., March 15.—While Otto Creason, aged 24, was adjusting a wire fence machine today, in Shemers factory in the city, he was caught in the reel and his body became a windlass and which the machinery wrapped the heavy wire with such speed and so tightly that he was early crushed to death then and there. His screams brought other workmen to his assistance, but before the machinery could be stopped so many layers of wire had been wrapped around him that he could hardly breathe.

The doctor fear that he sustained injuries and they say his recovery will be the next thing to a miracle.

JUMPED FROM TRAIN.

Harvey Nall, a well known young man of Kuttawa, was dangerously injured while jumping from a passenger train Sunday afternoon. He was injured internally and his head struck the tracks, causing concussion of the brain.

Nall is a son of Prof J. J. Nall who is one of the best known most prominent men of his county. He was picked up by the crew and taken to his home at Kuttawa, and later news from there is that he is resting nicely.

KIDNAPPED.

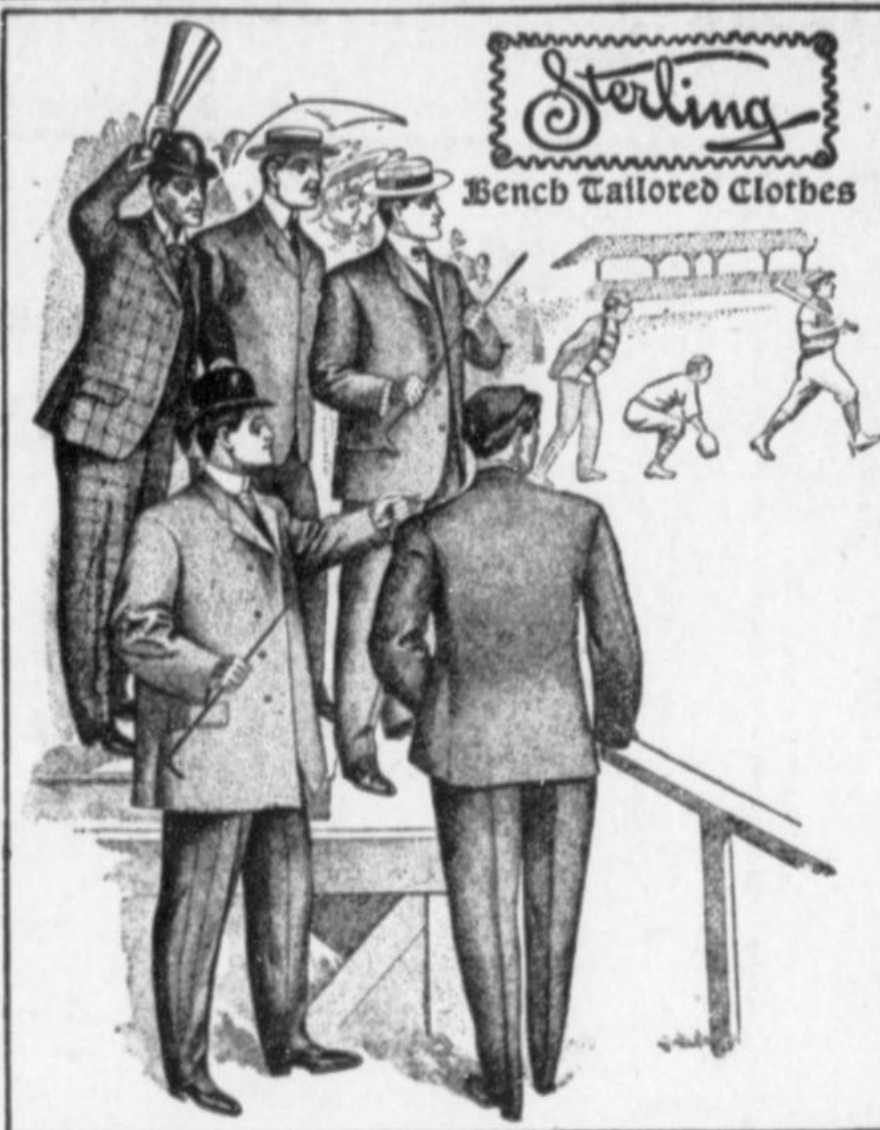

Reno, Nev., March 15.—Will Hatch, a mining man of Deane, arrived in Goldfield last week. He brought a dress suit and when he was invited to a dinner last night he arrayed himself in it and went out on foot.

He attracted a crowd at once and his was the first dress suit seen in the camp since the first tent was placed there. When in front of the leading saloon he was kidnapped and taken to the back room where he was placed on a box and exhibited at a half dollar per head as the man with the only dress suit in Goldfield.

Hatch was angry at first but the humorous side of the affair appealed to him and when the function was ended the gate money was "blown in" on champagne for Hatch and the crowd.

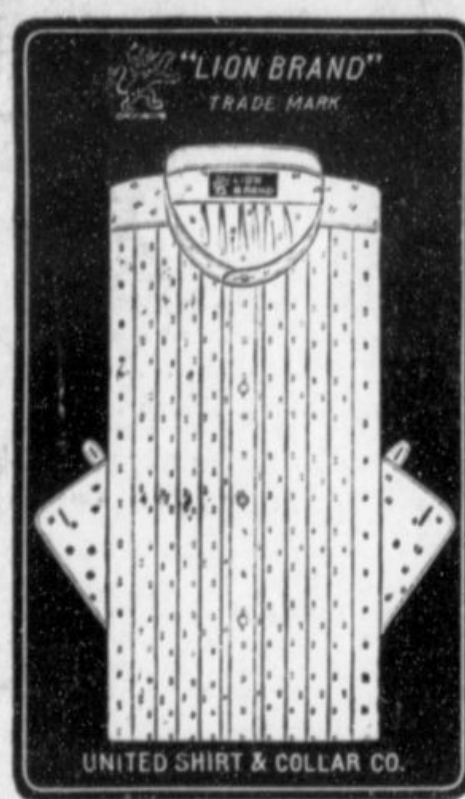

Tom Wring, the Singer man, is busy as a bee delivering machines. This month has been one of his best.

Mother's Day at School.

We were the recipient of an invitation
from Mr. Evans to attend "Mother's
Day" exercises on Friday afternoon to
which we heartily responded, knowing
there would be something interesting on
hand. On arriving we found the door-
way blocked with immense pyramids of
tropical fruits and confections. Sup-
posing they were intended for the school
we gave them only a casual glance.
Imagine our surprise when we were in-
formed they had been furnished by the
high school boys in honor of their moth-
ers. Surely the hearts of these boys are
in the right place. We listened to en-
gagements on mother's influence and felt
very grand and resolved to be better
mothers than ever. Mr. Price, who
came as substitute for his wife, gave
some good advice. The exercises closed
with some pointed remarks by Mr.
Evans. Long live the M. G. H. S.

Quietly Married.

The marriage of James E. Cruce and
Miss Edna Butt was quietly solemnized
Saturday at the home of Rev. Keller,
who officiated. The wedding was a
great surprise to the many friends of
the couple, who were kept in complete
ignorance of the affair. There were
only a few present at the ceremony. The
groom is of excellent character and is a
son of Mr. and Mrs. Lefe Cruce. He
is in the employ of the Crown Bottling
Works. Miss Butt's parents reside at
Davis. For some time the young lady
has been in the employ of Madden &
Co.—Ardmore, I. T., Telegram. Jas.
E. Cruce is the son of A. L. Cruce and
was born in this county and has a great
many friends and relatives here. He is
a nephew of Lawrence Cruce of this
city. The Press extends congratulations.

CASTRO'S DEFIANCE.

The Venezuelan Chief Orders the French Cable Cut.

Williamstadt, Island of Curacao March 14.—It is alleged that President Castro has ordered the court to render judgment annulling the contract and authorizing the seizure of the French Cable company's property.

The Government has cut the coast cable east of La Guaira, to prevent communication with the revolutionists, who are active at Trinidad.

The Europeans at Caracacas are greatly excited.

Diplomats here regard the action of President Castro in this matter, as well as the seizure of the American Asphalt company's property in Venezuela, as an attitude of uncompromising defiance toward both France and the United States.

Paris, March 14.—The reported action of President Castro of Venezuela in reference to the French Cable company has caused considerable indignation in official and cable circles here. It is believed the situation may become serious. The Foreign Office today received a dispatch from Caracacas, indicating that the situation in regard to the cable company was strained, with the possibility that radical action might occur.

No thought has yet been given to the possibility of using war vessels, yet several are available for that purpose.

By the Tonic Route.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Bilioussness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by Woods & Orme.

For a Wolf Hunt.

Evansville, Ind., March 13.—A large gray wolf, the first seen in this section in many years, was captured near Lincoln City, Ind., today, and tomorrow one hundred men on horseback with their dogs will enjoy an old fashioned wolf hunt.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

A VISIT TO AUNT MARY'S.

Oh! how hot I am said Delta, who had just arrived at her Aunt Mary's farm, and she walked in and sat down on the sofa. Aunt Mary took off her hood and said, "I hope you are not tired after your long ride. Come on and I will take you up to your room, where you can wash your face and hands for dinner for it is nearly ready, then you and I will go over the farm yard as I have something to tell you."

After dinner was over Aunt Mary said, "I will tell you now, there is a little girl not far from here, and she is coming over this evening to see you. You must let her show you over the farm yard and let her take you to the lake. Tomorrow morning Uncle John, Ruth and I, will take you to the cave." "Oh! how glad I am," and Delta jumped up and clasped her hands.

There was a knock at the door, and in came Ruth. Aunt Mary said, "Delta this is Ruth, she has come to see you." "I am glad you came Ruth, take off your wraps and rest awhile and then we will go to the pond and row awhile and play."

"I am not at all tired, we will go now." So they started off. On the way they saw some chickens. "What are those little things, are they birds?" asked Delta, who had always lived in the city and had never seen any chickens in her life. "No," said Ruth, with a laugh, "they are chickens, the largest ones are roosters, the shortest and fatest are hens. The hens lay eggs, but the rooster does not lay eggs, but struts around and crows. Come on, for we'll never get there if we stop to talk."

The pond was now in sight. "Come on," said Delta, "let us run and see who can get their first. Oh! what a pretty boat, jump in, but do you know how to row it? but come on and get in, sit down and I will start her off."

"Look at those pretty ducks. How pretty they look swimming in the water, and there are little ducks?—why there is water in the boat. Oh! look it is getting my feet wet, what shall we do? Oh! it is turning over." At this they both began to scream. But no one was near, but they were near the bank and the water was not very deep, so after a hard struggle and wading through mud they got out but they were very wet. "What will we do," said Ruth, "My dress is so wet," and she began crying and so did Delta. "But," said Ruth, "crying won't help us, for we are wet already without crying, come on we will go to the house."

Aunt Mary was up stairs when she heard the children calling her. "Oh Aunt," said the little girls, "we fell in the pond." Aunt Mary put clean dresses on them. It was supper time and after supper she told them a story.

After while Ruth said, "I must go home for it is dark and I am afraid to go home." "But," said Aunt Mary, "you said you could stay all night and until Delta leaves tomorrow at dinner."

The next morning each little girl got on little white ponies and Uncle John and Aunt Mary rode black horses to the cave. They had a fine time and after dinner Delta's father came after her to go home. She thanked her aunt and told her and Ruth to come to see them. The next summer they came and Delta showed them the city things.

LA GRIPPE—PNEUMONIA

So many people who have apparently recovered from an attack of *La Grippe* are stricken with *Pneumonia*. This is due to the fact that the Bronchial Tubes and Lungs are left weak and unable to resist disease.

FOLEY'S HONEY AND TAR

not only cures *La Grippe Coughs*, and prevents *Pneumonia*, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when FOLEY'S HONEY AND TAR costs you no more and is safe and sure. Contains no opiates.

I had a bad case of *La Grippe* about ten years ago which left my Lungs so weak that I have been troubled more or less every winter since until I used FOLEY'S HONEY AND TAR, which cured me completely and my Lungs no longer trouble me.—J. H. BROWNING, D.D.S., Orrick, Mo.

G. VACHER, 157 Osgood St., Chicago, says: "My wife had a very severe case of *La Grippe*, and it left her with a very bad cough. She tried a bottle of FOLEY'S HONEY AND TAR and it gave immediate relief."

The 50c bottles contain two and one-half times as much as the small size and the \$1.00 bottles almost six times as much.

CONSUMPTION

WORKS WITH STEALTH

First, a slight Throat or Lung Trouble, a little neglect or indifference on the part of the patient—then Consumption! This has been the tale told of many a wasted life. The one truly scientific prescription against this dread disease is

DR. OTTO'S SPRUCE GUM BALSAM

FROM THE RED SPRUCE TREE

If you have a cough you do not need an expectorant, but a soothing specific to throw off the phlegm without coughing or straining. Dr. Otto's Spruce Gum Balsam allays inflammation, heals the lungs and strengthens the respiratory organs, thus imparting a vigorous energy to the whole system. Invaluable for Coughs, Colds, Whooping Cough, Croup, Bronchitis, Asthma and Sore Throat. GET THE BEST.—All substitutes are fictitious imitations of the genuine. Per bottle, 25c and 50c.

Lemuel Downes, of Warwick county, Ind., writes: "I had a severe cough for nearly three months. Tried everything. Thought it was going into Consumption. My attention was drawn to Dr. Otto's Spruce Gum Balsam and procured a bottle, and it cured me. I recommend it to all people troubled with a bad cough."

Mrs. Albert J. Schulz, 200 Jefferson Ave., Evansville, Ind., informs us: "A year ago I was taken with *La Grippe* and a severe attack of bronchitis. The cough wore out my strength. Nothing the doctors gave me relieved me. I finally got a bottle of Dr. Otto's Spruce Gum Balsam. After taking the first dose I felt a change. I took several bottles and was entirely cured."

TO CONTINUE THE WAR.

St. Petersburg, March 14.—The war council at Tsarsko Selo today is understood to have decided the question of continuing the war in the affirmative. The question of Kuropatkin's successor was discussed but the Emperor has made no final decision. Grand Duke Nicholas, a second cousin of the Emperor, is again mentioned and will probably get the place. But the Paris bankers may frustrate these schemes. They have refused to lend Russia any more money for war purposes and without money Russia can't fight.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my tried dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. Blackwell Coal Shaft at Clay Destroyed by Fire.

About 8 o'clock Monday evening, says the Clay Times, the alarm was given and it was soon ascertained that the buildings at the Blackwell coal mines were on fire. With energy that the fire fought and by the use of fire engines the march of destruction was checked only after a loss of five thousand dollars had been finished.

The new machinery had just been put in and was badly damaged. The hoisting engines were completely destroyed.

The company ordered new machinery Tuesday morning and expect to operate the mines again in three weeks. They had no insurance and the loss is total to the company.

The company takes this opportunity to thank those who fought the fire so gallantly. Their good work is appreciated and will ever be remembered.

The company had just finished building in some very fine machinery including the Norwalk air compressor and Harrison mining machinery. This would have increased their output very materially and enabled them to promptly fill the orders which are pouring in upon them.

Attractive School Houses.

This spiritualizing force that lead to more attractive farms, comfortable homes, better living in the homes, has its bearing in the improvement of material environment of the country school. By this is meant outdoor art movement for attractive school grounds. Planting of trees, flowers, shrubbery, etc., works a marvelous change in the appearance of things. It creates new ideals with reference to the country home. The school becomes a part in the great country movement of the country. It is a beneficent thing to our children to plant trees, flowers and protect the trees.

The in-door art movement is bringing more attractive school houses for the country child. That is a significant thing that Mr. Grace K. Turner, of Boston, did when he gave thirty-six pieces of art to the first consolidated country school in Illinois. This donation of statuary, casts, and framed photographic reproduction of the best paintings—all hanging on red walls—can not fail to bring a new life to the country children who came from school rooms lacking in everything calculated to give a spiritual uplift. The improvement and adornment of the 3.6 acres comprising the grounds of this consolidated school will in time bring about a change in the country homes. Soap, water, paint, trees and flowers with sanitary buildings are all other things will come due time if we do something more than wait.

There are great possibilities in the library movement, the effort to supply the country schools with good literature. Millionaires give libraries and art galleries for the benefit and profit of the city. But who is doing a service for the country children? It is a hopeful sign when a reading table, covered with good magazines and books, is finding its way into the country school room. If the school gives the child a desire to read good literature when school days are over

then truly there are possibilities in the movement to establish school libraries for the district school. In this age of good magazines and illustrated periodicals the country school teacher is doing a valuable service when the children are brought more and more into contact with the best literature and art. Such work will contribute to the American uplift in national life and instead of emphasizing the mere money getting, will point the way to the way to the wise expenditure of the dollar for those things that will contribute to a more complete life.

Don't despair blood poisoned sufferers

We can prove to you that we are able to absolutely cure you, clean your blood to stay clean and return you to perfect, robust, manly health. We guarantee this if you will use **FOERG'S REMEDY**.

READ THIS

This is to certify that I bought one bottle of Foerg's Remedy, December 13th, 1909 for bad blood, which caused me a great deal of trouble. I was not able to hardly work, suffering from fever continually for six weeks, every time I would skin my hands it would bleed and I would cure up. After taking only one bottle of Foerg's Remedy I am well from this trouble and am enjoying now good health. I take pleasure in recommending this wonderful Foerg's Remedy to anyone needing a good blood purifier. My address is Princeton, Caldwell Co., Ky.

Reasons for Bankruptcy.

[Chicago Chronicle.]

The petitioner in the Court of Bankruptcy was a young man of aristocratic birth. He had inherited a fortune of \$2,000,000 at the age of 23. Now, at 26, he was a bankrupt.

"How did you come to run through your money at this rate?" asked the Judge.

"A love of food ruined me, sir," the bankrupt answered. "I gave the best and costliest dinners America has ever seen. One of my dinners—a dinner of 10 covers—cost \$10,000."

"Foolish young man," murmured the Judge.

This Judge at the end of the session talked about the strange reasons for their bankruptcy that some bankrupts would give.

"A bachelor of 35," he said, "appeared before me owing something like \$75,000 for gambling debts, \$20,000 for wines, \$4,500 to his tailor, \$15,000 to the jewellers, \$1,700 to his haberdasher and \$1,100 to his florist. When he was asked the cause of his bankruptcy he answered:

"An inability to negotiate any more loans."

"The weather often causes bankruptcy. A succession of warm winters will make skate manufacturers and sleigh manufacturers and furriers go under. A succession of cold summers will ruin the hotel men and the shopkeepers of summer resorts. Weather unpropitiously dry will send to the wall the handlers of India rubber goods—waterproof coats, over-shoes, gum boots and so on.

"Insects hardly visible to the eye have caused the bankruptcy of florists, farmers and fruit growers. One of these insects, the phylloxera, made bankrupt the whole island of Madeira. Getting among the vines, it destroyed them utterly, and since that time

CALIFORNIA

Do you want to live where the climate is mild the year round—where labor is never oppressed by stress of weather, and where animal vitality is never lost by mere conflict with cold?

Do you want to live in a region where the resources are more varied than in any other equal area in the world, where the division of great ranches affords a fine opportunity to get a small farm that will assure you a competence?

Do you want to live where, with a minimum of labor, you can grow profitable crops of grapes and small fruit, oranges, lemons, olives, prunes and almonds, alfalfa and grain, where crops are sure, business is good and capital easily finds profitable investment?

Then go to California, where both health and opportunity await your coming.

The Chicago, Union Pacific and North-Western Line

is the most direct route to the Pacific Coast, and there are two fast through trains daily via this line, over the famous double-track railway between Chicago and the Missouri River. One-way Colonist

\$33 tickets are on sale daily, March 1 to May 15, at the rate of \$33.00 from Chicago, with correspondingly low rates from all points, give you an unusual chance to make the trip.

These tickets are good on daily and personally conducted excursions, on which a double berth in a Pullman tourist sleeping car from Chicago costs only \$7.00. Round-trip tickets are always on sale from all points at reduced rates via the

the wonderful Madeira that our fathers drank has been a thing of the past.

"A woman insurance agent once pleaded in my Court that a depreciation of beauty was the cause of her failure. She had been making \$7,000 a year, but an illness seized her, and this illness impaired her beauty greatly. 'Before and after' photographs of her were shown, and I must admit that her looks had suffered much. Since her illness she had been unable to make much money. Men had not listened to her as before. Her income, in fact, had fallen from \$600 to \$75 a month.

John L Harpending's parents are in receipt of a letter from him postmarked at Seattle, Wash., under date March 12, in which he writes that himself and companions are well and well pleased with the country so far. After a few days rest they proceed to go on to Portland, Oregon.

The farmers generally will be glad when the primary is over as they hate to take the time to talk to a candidate.

Dave Wolford, Lan Harpending and Bill Tyner attended the Masonic lodge at Marion Saturday night.

Your correspondent has had occasion to ride over a considerable lot of our public roads in the last 10 days, and we are sorry to say that we found them, generally speaking, in a bad condition. We taken the trouble whenever convenient, to ask the supervisors what was the matter and received the same answer: They said when the fiscal court paid \$1.50 per day they had but little trouble to secure plows and teams to keep up the roads, but since the Honorable Court had cut the price for plows and teams to \$1.25 it was almost impossible to get plows and teams and they had to fall back on the hoe and shovel and that it was impossible to make good roads without teams, plows and scrapers. We can't see where any good management comes in in cutting the price to \$1.25 per day for plows and teams, as our public roads are at least 50 per cent worse than when the supervisors could get the wherewith to work the roads. The gentleman from Tolu knows his business when it comes to the road question. We wish our county had a few more like him. We would find our public roads in quite a different condition from what they are now.

Aunt Narcissa Childres of View was the guest of friends in this section last week.

Jo Parker and wife of Livingston county, were the guests of his kinsman, Spillman Threlkeld, Sunday.
