The Crittenden Record suffered severely from the terrible fire which recently visited Marion, but made its appearance a little ahead of time but weak, somewhat ruffled and bereft of news and incalculable the fire.—Evening Constitution.

We would beg indulgence if we did not express our thanks to the management of the Rickett-Cook New Era for their aid, and hope they may receive the thanks of the citizens for saving the record for so many years.

The Improved Record, whose plant was destroyed in the big fire at Marion last week, made an extra "Bell and by saving these papers printed in a neighboring city, they did not lose one, for which they deserve our hearty thanks.

Bacache CURE

Diseased Bladder and Kidneys for Twenty Years.

DISEASED BLADDER AND KIDNEYS

DR. M. F. FENNER, Prophet, N.Y.

Our friends have been looking for a cure for diseased bladder and kidneys for years, and have been disappointed. There is a cure for diseased bladder and kidneys for twenty years, and the cure is Dr. Fenner's Kidney Bacache Cure, since it has been in the hands of men 11 years and is known as the best kidney cure ever devised.

The sickness of bladder and kidneys is a very serious matter, and the suffering attendant on it is not to be despised.

The late Dr. Fenner, of the United States, has discovered a remedy for the disease, and he has now published his discovery under the name of Dr. Fenner's Kidney Bacache Cure.

It is a powerful medicine, and has been tried in many cases, and has been found to cure the disease in every case where it has been tried.

The cure is to be had by Dr. Fenner's Kidney Bacache Cure.

The medicine is very powerful, and will cure the disease in every case where it has been tried.

In the three years since the medicine was first published it has been tried in many cases, and has been found to cure the disease in every case where it has been tried.

McCONNELL & STONE

DYAK HEAD HUNTERS

LEGEND OF THE ORIGIN OF THEIR TRADITIONAL PRACTICES

The Bushmen, who reside in the vicinity of the towns in this section, have a way of attracting attention to themselves that is unique. They are known for their ability to make a fire with a single blow of a stick. This is done by placing the stick on a flat stone and striking it with a stick from the opposite end. The resulting spark ignites the dry grass and foliage, creating a small fire that can be easily contained.
