NUMBER 1

SHERIFF REMOVED

On Account of Obnoxious Railroad Tax in Caseyville and Lindle Precincts in Union County.

Union county is again without a sheriff.

This, however, will not interfere with the administration of the county's affairs to any great extent.

Sheriff W. M. Berry, failing to give bond for the collection of the railroad tax in the Caseyville and Lindle precincts, has been removed from office.

Last Monday Attorney Helm, of the firm of Helm, Bruce & Helm, of Caseyville, made a motion in the county court that a levy be made on the Caseyville and Lindle precincts for the amount of the bonds outstanding against those districts and shared interest.

Being compelled to do so Judge Clements made the levy. Inasmuch as the debt represents about one-third of the property in one district nearly one-sixth in the other Judge Clements suggested that it would be advisable to make a levy for only a certain proportion of the debt. Attorney Helm stated that he would be perfectly willing to do that but as the probabilities were that they could collect the entire amount easily as they could a one per cent levy might as well be made for the full amount. The sinking fund board of the tax districts have expressed a similar opinion Judge Clements made a levy for the entire amount in the Caseyville district this amounts to \$31.40 on the \$100 worth property.

In the Lindle district it amounts to \$14.08 on the \$100. A levy of \$31.40 in the Caseyville district and \$14.08 in the Lindle district would be a considerable sum. The total assessable value of the property in the Lindle district is \$495,989; in the Caseyville district it is \$1,039,930. This is exclusive of the franchise tax, which amounts to about \$160,000 in the Caseyville and to a considerable sum in the Lindle district. From these figures it will be seen that the total amount in the two districts will amount to half a million dollars or more.

It is understood the attorneys representing A. J. Preston, holder of the railroad bonds, have had this levy made for the purpose of making test cases. They will attempt to collect the tax from the I. C. railroad, the banks in the districts and other corporations. The board representing the people, we are informed are ready to back up those corporations that helped them in the fight against collection of this tax, but the I. C. will have to look after its own interests. That road, so we are told, rather under the present management (or not we do not know,) when asked for assistance in making right ignored the appeal. The I. C. are now, therefore, indifferent to that road and declare that the I. C. has attorneys enough to look after the road's interest.

The next move on the part of the holder will be to secure a tax collector. It is not at all probable a man can be found in the county who will undertake the collection of the tax, hence a collector will have to be imported.

Then conditions will remain the same.—Morganfield Sun.

Lloyd Reunion.

F. Lloyd is going back west with her brother and sister and family met at Frank's residence on Bellville street last Sunday for an enjoyable day, having ice cream, lemonade and other things that heart could desire. The family were his wife, his wife and her children, James P. and his children, Birdie and Mary Lloyd. Also J. C. and his wife and four children; Marie and Marie Lloyd. Needless to say a happier family have been enjoyed than this little family reunion.

Called Meeting.

Master's Degree, Saturday, 8 o'clock, June 17. Full attendance desired. Brethren cordially invited. C. S. NUNN, Master.

Lamentable Death Near Levis.

Miss Hattie Donakey died last Friday morning, June 9th, at the home of her mother, Mrs. Harriett Donakey, in the Levis neighborhood. She had been complaining more than usual for several days, but as she has always been an invalid, nothing serious was apprehended. In the night she was taken worse and altho everything that loving hands and hearts could do was done 'twas all of no avail. She passed away peacefully at 3 o'clock in the morning. Miss Hattie was born July 24, 1881, and was nearing her 24th birthday. She professed faith in Christ when in her 15th year at Union and had lived a consistent christian. The funeral was conducted by Rev. J. S. Henry and the burial took place at Union church cemetery Friday afternoon. The floral offerings were numerous and attested in language stronger than words the esteem of her neighbors. A large concourse of sorrowing friends and relatives gathered at the cemetery to pay a last tribute to her beautiful character. Besides her mother, she is survived by a sister, Miss Lena Donakey. Mrs. F. G. Cox, of this city, is a half sister, also Mrs. W. L. Moore, Mrs. John Franklin and Mrs. R. E. Moore. Chas. Donakey, of Sheridan, is a half brother.

Is Now a Baptist.

John L. Shrode, superintendent of the power house of the Marion Electric Light & Ice Co., had a queer experience last week. He was repairing a valve to the intake pipe line which supplies the eastern with water from the lake and in doing so went down into the cistern on a ladder which collapsed with him, and precipitated him into the water which was twenty feet deep. John thought of all the mischief he had been engaged in in his past life and quickly decided to remain here awhile longer, if he could get out of the cistern, so he raised a yell and some say "Harvey" came to his rescue. Others say Lon Johnson telegraphed for the wrecking car with block and tackle while others say a young lady not many squares away, rescued him with her pa's plow line, and she says 'twas funny to see him climb that plow line.

Circuit Court Convenes Monday.

The June term of the Crittenden Circuit Court will convene Monday. No cases of any great importance are docketed for this term. The following is the list of those who have been summoned to serve on the petit jury: W. H. Wheeler, Sam Stenbridge, E. W. Love, A. C. Melton, Q. B. McKee, Ed Cook, R. E. Flannery, Judson Bennett, R. L. Orange, W. E. Potter, Kit Shepherd, Ben Rankin, Geo. W. Jones, F. M. Brightman, Geo. Wooldridge, J. B. Hodges, Rutledge Newcomb, R. D. Moore, W. N. Rochester, Chas. Birks, D. F. Murphy, J. H. Bruster, P. K. Cooksey, Lee Rankin, R. F. Wheeler, H. M. Cook, John Casner, C. E. Doss.

The Bi-County Fair.

The committee appointed by the Livingston County Farmers Club to meet the committee appointed by the Crittenden County Commercial met at Salem, June 10, 1905, and on being informed that the committee from Crittenden county could not be here, the Livingston County Committee on motion and second adjourned to meet at Salem any time designated by the chairman of each club.

Prof. Evans has conducted three institutes in Trigg county during the past few years, and is known to many of our people. He is one of the ablest educators of the state.—Cadiz Record.

THE DEAL CLOSED.

\$1,100,000 in Coal Lands Sold to A Syndicate Headed by J. P. Morgan.

Louisville, Ky., June 10.—More than a million dollars and 100,000 acres in coal lands were involved in a deal which was closed yesterday at the Seelbach Hotel, whereby J. P. Morgan, John W. Gates, P. A. R. Widener, and other capitalists interested in the North American Company, which controls the coal trust, came into possession of the best coal properties in Union county, Ky., extending into Webster and Crittenden counties. Options that were obtained on the mines of the United States Coal Company and the Trade-water Coal Company of Sturgis, Ky., expired yesterday at noon. Shortly before midday there two properties were transferred to the representatives of the coal trust, William J. Curtis and J. S. Ridley, both of New York, the purchaser being stated as "William J. Curtis, trustee."

IMPROVEMENTS PLANNED.

The improvements in the properties and the sinking of new shafts that will now go forward without delay will mean the employment of thousands of new hands, transforming the rural surroundings into one of the busiest hives of industry in the state. It has been the policy of the coal trust to do things on a big scale. In Northern Pennsylvania a small city of 5,000 population was recently transferred to it by the Widener-Elkins syndicate, which formerly owned the town and the mines that supported it. The fact that \$1,000,000 has been spent to acquire these parcels of land makes certain the development of the strata that lie under them to their fullest extent.

Will Go to Colorado.

Miss Nelle Walker will leave about July 12th for Denver, Col., to visit her friends, the Lovings and Franks. She will go from there to see her brother, R. C. Walker, and family at Grand Junction. She will travel over the Burlington and will go via St. Louis and St. Joseph, Mo., and will be absent several weeks. This will be a delightful trip for Miss Nelle and one she has earned and richly deserves.

Married Sunday.

Ernest Hushey, a young machinist in the employ of Adams & Pierce and Miss Ollie McConnell, daughter of T. J. McConnell, went to Tolu last Sunday and were married. The Rev. R. T. McConnell performing the ceremony. They were accompanied by Howard McConnell and Miss Lilly Duval. All returned home Sunday evening. The bride and groom took rooms at Mrs. Nina Howerton's where they will board for the present. Mr. Hushey has been here a year and is well liked by those who know him. Miss McConnell was raised near Iron Hill and has lived here a year, and has many relatives in the city and county.

S. S. Teachers' Training Class.

THE HEAVENLY HOME.

Seven was the number of perfection or completeness. The seven churches were typical of the church in all ages and in all spiritual conditions. After the messages to the seven churches, we have the three series of symbols, the seven seals, the seven trumpets, and the seven vials or bowls,—these symbols were interspersed with various episodes. Then comes the description of the "last times," closing with a glowing description of the New Jerusalem.

OUTLINE OF LESSON.

- I. Characteristics of this home.
 - a The river of life.
 - b The tree of life.
 - c The throne of God and the Lamb.
 - d The glorified servants of God.
 - e Things excluded from the city.
 - f Every curse, v. 3.
 - g All darkness and gloom, v. 5.
 - h All sorrow and crying, all pain and death, Rev. 22: 4.
- II. Testimony to this home.
 - a The angel's testimony.
 - b The certainty of these facts, v. 5.
 - c Their immediate application, vs. 7, 10.
 - d The fixedness of character after death, v. 11.
 - e John's testimony, v. 8.

SCHOOL OF PRACTICE.

- 1 Am I prepared for heaven?
- 2 If heaven is free from darkness and gloom and curse and pain and death, is it not reasonable that I should seek a preparation for this happy place?
- 3 Am I keeping the sayings of his book?
- 4 To which class do I belong spoken of in verse 11?

TOPICS FOR STUDY.

- 1 The New Jerusalem typical of the church.
- 2 The New Jerusalem typical of heaven.
- 3 The perfection of the city.
- 4 The size of the city.
- 5 The beauty of the city.
- 6 The blessedness of the city.
- 7 The ingress and egress of the city.
- 8 The abundant supplies of the city.

Marriage at Paducah.

Last Monday evening at 9 o'clock Miss Hortense Finley, of this city, and Mr. George W. Baueher, of Fort Wayne, Ind., were united in marriage at the residence of Mr. W. G. Whitefield on Kentucky avenue and Seventh street, by Rev. W. H. Pinkerton, of the First Christian church. The couple left Tuesday for St. Louis, where they will make their home for the time being. The bride is the pleasing and popular young lady cashier of William Whiteside's restaurant, and the groom is connected with the largest independent cigar factory in Cincinnati.—Paducah Register.

Mr. and Mrs. G. W. Baueher arrived in the city Tuesday afternoon to visit her parents, Mr. and Mrs. J. R. Finley. The bride has many friends here where she was raised and all will wish the happy couple much joy.

A Good Show.

The San Bros., show which was here Monday came fully up to the expectations of the people. These gentlemen are honorable men and were gentlemen in their dealings with our people. Both performances were well attended and the best of order prevailed.—Mayfield Messenger.

Comes to Claim His Bride.

Hugh B. Champion, recently a soldier in the Philippine Islands, and Miss Verna, daughter of Thomas Threlkeld of Good Hope neighborhood in Livingston county, were married Wednesday evening, June 14th, at 8:30 at the home of the bride's parents by J. S. Henry. The bride for some time has made her home in Memphis, where she was a stenographer, and is said to be a young woman of bright mind.

Mr. Champion is a native of Livingston and will teach somewhere in that county this fall. Several years ago he enlisted in the United States army and was sent to the Philippine Islands, where he remained until mustered out. He then came home and was a student here in the normal class ranking high in his class. He is quite popular here and deservedly so.

The Press extends congratulations and best wishes to him, and his benighted bride.

CON LINN

Wins the Third District Senatorial Nomination.

Eddyville, Ky., June 8.—Con Linn was nominated on the Democratic ticket for state senator of the Third senatorial district by the convention here yesterday afternoon on the first ballot.

The only names presented to the convention were those of Con Linn and J. R. Summers, of Livingston county. Linn received 16 votes and Summers 12 votes. The name of Felix Grasty was not presented for consideration.

Linn is a prominent young attorney of Murray and is county attorney of Calloway county. It is not known here for whom he will vote for United States Senator.

There was a contest in Lyon county, the committee on credentials reporting to the convention in favor of seating the regular delegates of Lyon headed by N. W. Utley and a minority report favoring the seating of the contesting delegation headed by Rev. J. W. Oliver. Upon call of the roll the vote stood 12 to 12 and the chairman, Ed. Phillips, ruled that the minority report was lost.

Her Eighty First Birthday.

June 7, 1905, dawned cloudy and threatening, but by nine o'clock quite a crowd of children, grand-children, relatives, friends and neighbors had gathered at the beautiful country home of J. S. Newcomb, two miles east of Weston, Ky., where his mother, Aunt Eliza Newcomb, was visiting to celebrate her eighty-first birthday. The crowd and feast of good things which were to be served later, had been gotten up by her children as a surprise for her, and to any one who saw the dear old grandma's happy face that day could say of a truth, it was indeed a pleasant surprise to her and one which, by every word and act that she appreciated.

The entire family, consisting of her self and Uncle Joe, her faithful partner for over half a century, with children and grandchildren were all present. The time was pleasantly spent in handshaking, talking and listening to delightful music, which was furnished by L. B. Cain on the violin accompanied by his daughter, Miss Nona, and Miss Birdie Williams on the guitar. At noon a delightful and refreshing repast, consisting of barbecued meats, cakes, pies, lemonade, ice cream, sherbet etc. were served out in the yard under the stately oaks and spreading maples. After feasting to our hearts content on the many good things, we again spent the time, which passed all too soon, in talking and listening to more music—among other old time pieces were the "Arkansas Traveler," "Money Musk," etc., but the near approach of the "King of the Day" to the western horizon warned us that it was time to say goodbye and start on our homeward way.

Each and every one expressed him or herself as having spent a pleasant day and one long to be remembered, and if any one enjoyed the occasion any more than she for whom it was given, it could not be told by words nor the happy expression on her dear face.

A. GUEST.

Married at Princeton.

After a courtship of several months which ripened into love, Mr. Oscar Gill, of Milburn, I. T., and Miss Cora Clark, of this city, were married Monday at noon at the Presbyterian church in Princeton, by the Rev. M. E. Chappell. Immediately after the ceremony they left for the Confederate Reunion at Louisville, and will be the guests of the Waverly Hotel for a week, after which they leave for Milburn, I. T., the home of the groom, where he conducts a large general merchandise store and a branch establishment at Wylie, I. T. They were accompanied to Princeton by W. H. Clark and Miss Ella McNelly. The groom is to be congratulated on winning the heart and hand of such an estimable young lady. Miss Clark was reared in this city and county and is a noble christian girl, with many attractions of mind and person. Their friends will wish them much happiness. The groom, while a stranger here, is highly spoken of by those who know him.

Mrs. Ruth James and Miss Ruby James went north Wednesday morning on the early train.

Childrens' Day at Deer Creek.

The Deer Creek Sunday School, under the faithful management of L. A. LaRue, prepared an interesting program and invited their friends and neighbors to spend the second Sunday in June with them. The invitation was largely accepted and brought a multitude of people together at an early hour, where indeed "a feast of good things" was spread before them.

The exercises opened with singing "Marching on to Victory," while the school marched in file to their places in the church, Ulie Threlkeld having charge of the music. The pastor, Eld. W. R. Gibbs, then read the first Psalm and led the congregation in prayer. The superintendent then introduced A. J. Behout, who in a few well chosen words delivered the welcome address, after which we all felt at home and glad we had come. R. A. LaRue responded. The children then took charge and you never heard such speeches, from the smallest tot to the fairy maiden. Speech after speech followed, all choice, helpful, uplifting selections and recited with telling effect. The training showed a master hand. The noon hour arrived and we were dismissed to the grove, where another "feast of good things" awaited us. Friends and neighbors and sweethearts spent a pleasant social hour.

The school again formed a long line and marched in to beautiful singing. The program of speech making and singing was again taken up. "The Claims of Missions" was presented by R. A. LaRue and W. R. Gibbs, and offerings were called for. Many cheerfully gave of their means to this great work. "The Arch of Fame" was beautifully rendered by sixteen young ladies in costumes. Other touching selections were recited. The exercises closed with singing "God Be With You Till We Meet Again," and prayer. All feeling it was good to be there. The church and Sunday school acquitted themselves with credit and showed earnest and faithful work on the part of the pastor, superintendent, teachers and pupils. The outlook is bright for that community.

A June Evening.

O. O. W.

The warm June sun goes by; and in the gloaming
There faintly falls upon my listening ear

The sound of distant music, nearer coming;
It is the tinkling sheep-bells, drawing near.

Then on the moss my weary head reclining,
And lulled by distant sounds, and gentle flow

Of waters—thus my drowsy sense resigning,
I rest and sleep and dream; while soft and low

Steal strains of music sweet, and gentle voices
Floating in accents soft and calm and clear,

And all my soul in sympathy rejoices,
And heaven stoops down my weary heart to cheer.

I wake, and still the music and the brightness
Of that fair day seem glowing as before;

The stars above look down with love and lightness;
The day, its joys and labors, all are o'er.

The Town Step-Ladder.

The step-ladder which goes the rounds of a certain neighborhood at this season is a dilapidated affair that needs more than an apology. The owners' apologies have been accepted long enough. One woman who used it yesterday found the only way it would stand was upside down, and she climbed it that way, the parts projecting against the wall. Since it started out this spring women have had to become contortionists to maintain a foothold and use their arms at the same time. One woman had to use both her arms to hold on and was compelled to wash windows with her feet. Another woman got no use out of the ladder until she had learned to balance herself on her head on the fourth round. It is found that if there is a bucket of hot, soapy water on top the ladder is sure to spread out and dump it. One woman has filed suit for damages for a fall she got on it yesterday. The owner has been notified that unless she gets a new stepladder to lend to her neighbors they will driver her from the neighborhood.—Atchison Globe.

Strike No. 9 Vein.

At 2:30 p. m. Tuesday a steam whistle at the mines of the Thomas Blackwell Coal and Mining company of this place announced that the company had struck No. 9 coal.

This vein was found at a depth of 252 feet and is over 4½ feet thick, with roof of three feet black and thirty-five feet gray slate.

From this and subsequent borings it is now evident that Clay and immediate vicinity is over an unbroken bed of the best coal in Western Kentucky, the area of which is wide in all directions with Clay as a common center.

This find establishes the fact that beyond all doubt the coal lands owned by this company, which constitute about two thousand acres, all in one body, is one of the finest coal fields in the country, this being the third drilling made by this company, all of which have shown the coal to be regular under all their property.

This company will begin immediately to sink their shaft at Clay, to this coal, and will be ready to furnish the full trade from the No. 9 vein which, in this section has already proven to be of the most superior quality.

This is not only a great hit for the company, but stands as another pointer to the bright prospect before our thriving little city, and our citizens generally appreciate the efforts of these enterprising business men in developing the natural resources of our position and congratulate them on their brilliant success.—The Times, Clay, Ky.

There can be no doubt that journalism has come to be the most powerful of all professions of civilization. I am not so sure but that in its extent an influence for good or evil it is not more powerful than all other professions combined. Truth is the great factor in peace and progress.—Whitlaw Reid.

ZILLAH, WASHINGTON.

THEY WERE BORN IN OLD KENTUCKY.

Sixty-five natives, men, women and children of the state of Kentucky and the counties of Caldwell and Crittenden, arrived on No. 3 last Sunday to cast their fortunes in the glorious Yakima valley. About forty of them concluded to remain here and have located in the vicinity of Toppenish and Zillah. They are a nice, thrifty looking class of people and as such, are gladly welcomed. The names of the head of the families learned were: J. P. McCaslin, E. R. Belt, J. A. and C. H. Waterstraw, J. N. Maxwell, James Johnson, H. D. Vinson and W. C. Cruce, Mr. H. C. Hill, of Zillah, is the man that induced this emigration. Mr. Hill is an old Kentuckian and has the confidence of the people of the blue grass state as well as the Yakima Valley. Be it said to his credit that every man, woman and child that arrived here has been provided with a pleasant position and there in room for many more. Next week about the same number will arrive, through Mr. Hill's efforts many of them well to do and will locate permanently.

Messrs. Harvey and Tom Jacobs and John Rushing are entertaining quite a number of their Kentucky friends this week, who arrived at Toppenish Sunday.

Geo. P. Eaton, was in Sunnyside the latter part of last week and first part of this week. Mr. Eaton is working hard in the interest of the new railroad.

Misses Anna Rass and Myrtle Jacobs went to Toppenish Saturday afternoon and Harvey Green and Ed Taylor accompanied them home.

We notice that Miss Nellie Jacobs (one of the Kentucky girls) was lucky enough to own a diamond since coming west, as she had in her care a very large one at church last Sunday evening.

At the Christian parsonage last Wednesday afternoon, March 22nd, the pastor, Rev. Mortal L. Rose, united in marriage Thomas C. Hill, of Toppenish, and Miss Arnalla Jacobs, of Zillah.

Any one wishing "a Tailor made suit" please notify Miss Myrtle Jacobs—perhaps she can give what "reformation" you need for I notice a Tailor has been consulting with her quite often of late.

Harvey Green, of Ellensburg, made a flying trip to Zillah Saturday evening to see "his best" and returned Sunday. We sometimes upbraid the March winds change the color of our faces to a tan but we are inclined to think it will change one of our Zillah girls to a green this time, (not the wind of course but the minister.)

Mr. Tom Hill and Miss Arnalla Jacobs made a flying trip to our county seat Wednesday, and instead of returning a Hill and a Jacobs they were both by the same name. Miss Jacobs has traveled over quite a large portion of the United States, from beyond the beautiful blue grass regions of Kentucky to this our beloved State but instead of locating on some beautiful place along her travel's she decided to make her future home by the side of "one" of the Hill's of Yakima Valley, Washington. We wish them the greatest happiness and success in their future welfare.—Toppenish Review, March 24.

Notice to Woodmen Camps.

State Manager J. H. Brewer desires to hold a district degree meeting in the Central Western District if the various camps manifest an interest in such a meeting. His time is very valuable and he will not hold said meeting unless there is an active interest. We wish to learn from the various camps as to where to hold this meeting. It will be held between the first of July and September 15th. Address all communications to R. E. RUSSELL, Dist. Mgr., Dawson Springs, Ky.

Other papers in the district please copy.

Files Suit for Damages.

Bedford, Ind., June 8.—S. B. Lowe, president of the school board of Bedford, today brought suit against A. C. Voris, banker, asking damages in the sum of \$10,000. It is charged that defendant had said that the plaintiff was at Cross Lanes, two miles south of Bedford, after midnight, a short time before Miss Sarah Schaefer was murdered in a buggy with Eva Love, Miss Schaefer's room mate. It is claimed that these statements, taken in connection with other rumors concerning the murder of Miss Schaefer amount to an insinuation of complicity in the crime.

Sturgis is Jubilant.

Great enthusiasm prevails at Sturgis because of the prospective coal deal. The great syndicate known as the North American Coal company, the ruling spirit of which is J. Pierpont Morgan, has taken options on a large part of Union county. They have an option on the Sturgis shaft, which has been run by Mr. Frankel, for \$400,000; on the new Baker shaft for \$100,000; on the U. S. Coal Co. situated below the Sturgis shaft; possibly have an option on the Smith property, which is the old Bell Mines section of Crittenden county, and a strip of the coal lands in Union county bordering on Tradewater. They also have options on a large part of the coal lands of Union county from Wheatcroft to Dekoven ranging from \$15 to \$20 per acre. If the trade "goes" about \$2,000,000 will be paid for the initiation of their enterprise. Mr. Morgan's syndicate a controlling share in gas, street car and electric light works of Memphis, St. Louis and Milwaukee. It is the intention of this syndicate to furnish their own coal from the Tradewater section. It will take about six shafts and 6,000 miners to furnish the coal necessary for their own consumption. They have been very busy for several days taking abstract of title in Morganfield, and it is believed by many that the deal will be consummated.

It is now believed that the new L. & N. R. R. will run from Providence directly to Shawneetown through Sturgis.

Notice.

Sunday school county convention to be held at the Old Piney Fork church, on Tuesday, July 18, 1905. Everybody is most earnestly asked to attend this convention. Sunday schools please come and let us all sing, talk and plan for better work in the future. Bring all of the family, your preacher and bring your basket full up to the handle. Don't forget the date. Yours for a good convention. R. M. FRANKS, County President.

CAVES IN CAVE LAND

Kentucky Caverns Will be Put to
Commercial Use.

BY WILLIAM E. CURTIS.

Louisville, March 13.—There are more than five hundred caves in Edmonson county, Kentucky, and at least 4,000 sink-holes—depressions in the earth of every conceivable size at various depths, without inlet or outlet except through tunnels which communicate with the caves. These sink-holes mark where caves have been filled by the earth falling into cavities. The largest sink-hole known is called "Eden Valley," with an area of more than 2,000 acres. The enormous depression is without inlet or outlet, and the geologists think it must have been made by the falling in of a series of great caverns.

New caves are being discovered constantly. The limestone rock which underlies Edmonson county has been gradually eaten away through the centuries until it is now honeycombed with caverns, many of which are connected by passages through which a man may crawl. Comparatively few of the 500 caves have ever been explored, although the curiosity of the geologists are continually making investigations. There is an "International Cavern Club," whose members devote their leisure time to exploring caves in different parts of the state, and Kentucky, being blessed with a larger number of such natural phenomena than any other section, is

their favorite working ground. The headquarters of the club are in Paris, and Rev. Dr. Horace Carter Hovey, of Newburyport, Mass., is the president. Dr. Hovey has spent a great deal of time in the cave district of Kentucky, studying various features of interest, and has written a great deal on the subject. In collaboration with Dr. Richard Ellsworth Cail he has recently prepared a considerable volume, which contains much new material.

Professor Carl H. Eigenmann of the University of Indiana, has been making an investigation of the animal life and air currents of the caves, and the results of his inquiries were published in the January number of the Biological Bulletin of the University. The air currents in these caverns and subterranean passages are a great mystery. They keep in motion all the time in the same direction, and often cross each other, and the larger the cave the stronger and more marked they are. At Mammoth Cave, for example, a strong breeze is blowing from the entrance at all times, and Dr. Eigenmann says, "the current may become a fierce gale if barometric changes outside are rapid or if the water in the cave rises rapidly." Barometric conditions outside have considerable effect on the currents. If the pressure is heavy, he says, there will be an inflow of air instead of an outflow, and this will be proportionate to the rise of the barometer and to the size of the cave. If the barometer is falling, there will be an outpour of air, which varies with the slightest shifting of an ordinary mercurial barometer.

Another extraordinary fact is that the temperature of all of the caves is precisely the same at all times, winter and summer. Meteorologists have hung up their thermometers for weeks at a time, and have made observations several times a day. But the mercury seldom varies a degree, and usually stands at 54 degrees Fahrenheit, regardless of the weather outside. The late winter has been the coldest known in this part of the country for many generations. In northern Alabama there has been sleighing, and ice has formed upon the ponds and rivers sufficiently strong for skating. People who have been digging sewers say the soil was frozen four feet deep, but the temperature in the caves has not varied.

It is not usual for people to regard these natural wonders as having a commercial value, but this is a practical age and an eastern syndicate has recently been making investigations and is now negotiating for the

purchase of a large area in the cave district of Edmonson county for the purpose of taking out the onyx and alabaster with which the caves are filled. According to the geologists all of the subterranean passages have been made by chemical action. The soil is underlaid by vast strata of limestone, and water charged with carbon dioxide has the solvent power to dissolve the stone. The action has been going on for millions of years and still continues. In the Colossal Cavern, one of the grandest of the group and the most recently discovered, is a hall or corridor called "Snowy Valley," where the floor is thickly covered with fine flakes of pure white gypsum, which is constantly falling from the disintegrating roof of the ceiling above and resembles snow.

This cavern furnishes remarkable illustrations of the processes by which the limestone has been eaten away. The work began in a fissure, or joint, in the limestone ledge which caught waters charged with carbon dioxide, and time has done the rest. In the Colossal Cavern you can see how the work was begun, and illustrations of every step, but there is no evidence that the erosion was ever more rapid than now or that the subterranean streams which furnished the water power were ever larger. The "problem is solution," as one of the geologists has called it, the great work of excavation, has never been arrested a moment since it began ages ago. The irregularity in the caverns is due to the fact that the rock is harder in some places than in others and yields less readily to solution.

The stalactites and stalagmites, which are also constantly forming, are of the finest quality of onyx. What is claimed to be the largest stalagmite in the world is found in the new Colossal Cavern, and is called "Henry Clay's Monument." It is ninety feet high and thirty feet thick at the base and has been built up by single drops of water falling upon a certain point for unnumbered ages. In the smaller caves are enormous blocks of onyx of all colors except green, which is accounted for by the absence of copper. There are blocks of pure onyx which may be easily quarried by machinery, 300 feet long and eighty feet thick to their visible depth, and how much deeper they may be nobody can tell. One cave contains slabs and blocks of beautiful cream-colored alabaster, perfect in texture, color and of uniform thickness (about two inches). One of these slabs has been found upon measurement to be over 100 feet long. In places they overlie each other like sheets of paper. A drill fifteen feet long failed to reach the bottom.

Nobody has ever attempted to quarry this beautiful substance. So far as known the onyx and alabaster of the cave district have never been utilized for practical purposes. But, as I have said, an eastern syndicate proposes to take advantage of this new and great source of wealth. Years ago and for generations the soil of the caves, which is rich in niter, was used for the manufacture of saltpeter. The natives called it "peter dirt," they dug it up in the caverns, brought it out in sacks, loaded it into ox carts and carried it to boilers, where the concentrated liquor was run through hoppers filled with wood ashes, boiled a second time and then cooled in wooden troughs. The bottoms of these troughs would be covered with crystals of potassium nitrate, and when the liquor was drawn off they were scraped out and the crystals were packed for transportation to powder factories in the east. The yield was about four pounds of nitrate to the bushel of "peter dirt," and in the early days of the last century it was boasted that Mammoth Cave alone could supply the whole world with saltpeter. Dr. Hovey asserts that the Americans would have been beaten in the war of 1812 if it had not been for the nitrate supplied by the caves of Edmonson county, Kentucky, at a time when our powder manufacturers were cut off from foreign sources of supply.

The railway company proposes to build a \$500,000 hotel, construct a trolley line from Glasgow Junction and set up an electric power plant that will light the hotel and the cave throughout and run the cars. Colossal Cavern is about a mile and a half from Mammoth Cave, from which wagons are now running to it regularly.

Eloped in a Launch.

DeWitt's little early risers brought the long sought relief. They are perfect." Sold by Woods & Orme.

A Ghost Story.

Richmond, Va., June 6.—According to a letter today from Scottsville, President Roosevelt is trying to buy a summer home in Albemarle county, a few miles from that town. It is said that he proposes to build on land which adjoins what is known as the "Old Ghost Place." On this land is a structure which has been for many years thought by the superstitious to be haunted.

It is said that a long time ago, while some men were digging a well on this place they found some iron ore which they thought was gold and spread the rumor that the place was infested by spooks in order to keep people away.

ANNOUNCEMENTS.

We are authorized to announce T. H. COCHRAN, of Marion, as a candidate for Representative from the counties of Crittenden and Livingston, subject to the action of the Democratic party.

We are authorized to announce CHARLES O. POGUE, of Frances, as a candidate for Sheriff of Crittenden county, subject to the action of the Democratic party.

With this issue the PRESS begins its 27th year. The last issue, Vol. 26 No. 52, comprised 2300 copies, the largest regular edition of the "Crittenden Press" ever printed; 37 States are represented on the PRESS mailing lists, besides the Philippine and Hawaiian Islands, Mexico and other foreign countries. The PRESS hopes to merit the liberal patronage it receives and will endeavor to give its patrons the local news and as good a general county paper as it is possible for us to get up.

The PRESS was started by Mr. R. C. Walker 26 years ago with a pint of old type and a wornout Ramage hand-press. It was a modest little 5-column folio, but being spunky and aggressive soon grew in popular favor and usefulness. At the time of its birth Marion was a dilapidated village of 500 people. To-day THE CRITTENDEN PRESS is a six-column, 8-page journal, clothed in the handsomest metallic garb that money can purchase; issued from one of the finest equipped county printing offices in Kentucky, printed on the latest improved cylinder press driven by a 5-horse power motor or a 4 h. p. gasoline engine, and has for its home what soon will be one of the handsomest cities of 2500 people to be found in the Southwest.

The recent deal by which the great New York coal trust, headed by J. Pierpont Morgan becomes the possessors of over 100,000 acres of the finest coal lands in the State, reaching from the eastern part of Crittenden to DeKoven, means much for Western Kentucky and especially the counties of Union, Webster and Crittenden. The present owners of this property are men who do business on a tremendous scale; it takes millions of bushels of coal yearly to run their various plants in different parts of the country, and this coal they propose to mine from their newly purchased property. This means that new shafts will be sunk all along the line; that from 8,000 to 10,000 miners, with their families, must be brought here to do this work, and estimating four to every married man's family gives us some 25,000 additional mouths to be fed and clothed by our farmers and merchants. Just figure out how much money that will put into circulation in each of the three counties in the course of a year.

The trouble within the ranks of the New York Equitable Life Insurance Company, which for months has raged with a vindictiveness hitherto unknown in life insurance, and which would have shivered to atoms any corporation based on a less solid foundation than the Equitable, have been settled seemingly to the satisfaction of all parties. Alexander and Hyde have disposed of a majority of their holdings to the opposition and are now down and out. The trouble was precipitated by a \$100,000 dinner party which it is stated young Hyde gave several months ago.

The Confederate Veterans have stormed Louisville and are now in full possession of the city. Several from this vicinity were among the storming party. Brave old boys! Well have they earned their period of rest and enjoyment.

There is a strong probability that terms of peace will be agreed upon between the Japanese and Russian plenipotentiaries; to which all good people most heartily say, amen!

Mrs. Frank Dagg and baby, of Henderson, were the guests of friends here this week and left Tuesday morning for home.

Mr. and Mrs. Haynes Receive.

In honor of Mr. and Mrs. W. O. Tucker, who arrived Thursday afternoon, Mr. and Mrs. R. F. Haynes entertained from 7 to 10 o'clock Thursday evening, June 8th. The house though spacious was well filled from the beginning until the end of the reception.

Those first to arrive, found the host and hostess—the bride and groom, Mr. and Mrs. John Nunn, Mr. and Mrs. Clem Nunn, in the receiving party in the parlor, later Mr. and Mrs. J. W. Wilson joined them.

In the reception room on the opposite side of the hall the sweetest music was rendered throughout the evening by Misses Sallie Woods, Gwendoline Haynes, Lilly Doss and Mrs. S. M. Jenkins.

In the cross hall to the rear of the main entrance, Miss Ebba Pickens presided with grace and dignity at the punch bowl.

Misses Della Barnes, Ruby James, Kitty and Fanny Gray and Leafa Wilborn assisted in entertaining the guests in the dining room.

Refreshments were served by Misses Gustava Haynes, Ina Price, Mildred Haynes and Verna Pickens.

The whole house was a bower of flowers, the decorations being profuse and arranged most tastefully under the guidance of the hostess and her mother, Mrs. S. J. Tucker.

In the upper halls the bridal gifts were displayed and were numerous and beautiful. A glimpse at them would be sufficient to make the heart of the fair recipient happy. Many were received at Frankfort which were not shown here.

Over a hundred acceptances were received and in entertaining this large number of guests, the hostess sustained her reputation of being one of the most charming entertainers in Marion society. The refreshments, all prepared by her own hand, were elegant and were daintily served. All in all the reception was a success and proves the popularity and esteem of the host and hostess as well as the bride and groom, in whose honor it was given, and it will remain an oasis in the social whirl for many days to come.

Those invited to be present were the following: Mr. and Mrs. E. J. Hayward, Mr. and Mrs. S. M. Jenkins, Mr. and Mrs. J. S. Henry, Mr. and Mrs. T. H. Cochran, Mr. and Mrs. Clem Nunn, Mr. and Mrs. John Nunn, Mr. and Mrs. Carl Henderson, Mr. and Mrs. H. A. Haynes, Mr. and Mrs. H. H. Sayre, Mr. and Mrs. J. H. Tonkin, Mr. and Mrs. John A. CHAPEL HILL.

Mrs. Jennie Hill is suffering with rheumatism.

Cal Adams and family visited Mr. Henry Wheeler's of View, Sunday.

Charles Clement and family were the guests of Frank Crayne of Pleasant Hill last Sunday.

Mr. Davis from Princeton was down last week and set up a very nice monument to Miss Ida Adams' grave in the cemetery at Chapel Hill.

Mr. H. S. Hill had a horse cut on a barbed wire fence last week.

Some wheat has been harvested in our neighborhood; the heads are small but have a good grain.

Clover and grass meadows are cut short on account of dry weather; the red top grass seems to be very good.

Oats are looking very well, considering the dry weather; a very small acreage is sown in this neighborhood.

SHADY GROVE.

Quite an interesting prayer meeting at Hoods school house; services begin at 9 o'clock a. m. each Lord's day.

Willie D. Tudor received a letter on the 5th instant from his brother Joe, who is in the Philippine Islands. Joe says a civilian who attends strictly to his own business may consider himself safe out there, but that soldiers are in danger of attack if less than ten or twelve in a group. Joe is now enjoying the life of a civilian and seems cheerful and happy.

Dennie Hubbard is once more a full fledged citizen of Shady Grove; he moved into his recently purchased home 5th inst.

Elders R. A. LaRue and W. R. Gibbs will exchange pulpits next fourth Sabbath; Bro. Gibbs will come to Shady Grove at that time to preach the funeral of an old lady friend, Mrs. Bettie King. Bro. LaRue will meet Bro. Gibbs' appointment at White Sulphur church.

R. T. F. Rowland reports large congregations and enjoyable services at the old people's meeting at Mount Zion M. E. church, on first Sunday in this month.

Like a Wolf,

Sheridan, Ark., June 7.—As a result of a practical joke in which he sought to frighten his fellow hunters with growls like a wolf, Mr. John P. Sneed, a young man of Pine Bluff, was almost instantly killed last night by Wm. Wooten, who fired the contents of a double-barreled shotgun in the direction of the noise.

Sneed, Wooten, Hardin and others had finished their day's hunt and were at their camp when they commenced to exchange accounts of personal experiences with wild beasts. Sneed was scarcely noticed when he quietly rose and left the party. Fierce growls behind Wooten were heard shortly afterward, and before any one could restrain him he grabbed his gun and fired in the direction of the noise.

Sneed was picked up unconscious and died in a few minutes. Wooten is prostrated by the accident. No arrests were made.

[W. B. Wooten is the name of a man who left this county last year and moved to Tennessee and afterwards moved to Arkansas, to a point near Pine Bluff. He was a subscriber to the PRESS and we hope it is not the same man who is in trouble as reported above. Our man Wooten went by the name of Berry Wooten.—Ed.]

From Dr. Perkins.

Our old friend, Dr. Perkins, serves notice on us to reserve him a ticket to the show in the following characteristic note:

Friend Jenkins—I will be in your city, D. V., on Thursday, 15 inst., expecting to see the show. Please reserve for me a complimentary for that occasion.

Ah! Friend Jenkins, No harp have I for the singing, nor fingers fashioned for skill; No foot for dancing, or bringing it down on the seats, with a will; But I've got an eye to see the fun, and an ear to hear the jokes And patience that cannot be outdone, —if they're decent, worthy folks.

Big Bargain in Lumber.

40,000 feet good building lumber, all dimensions and all kinds of timber, for sale at a bargain.

A sumptuous party was given at Rev. McAffee's Tuesday evening in honor of Miss Elgie and Moss Davis. Among those who attended were Misses Fenwick Wathen, Mildred Haynes, Mary Nunn, of Sullivan, Gustava Haynes, Bernice and Maud Driskill. Messrs. Lottie Gilbert, Trice Bennett, Leslie Melton, Roscoe Rochester, Maurrie Sutherland, Ray Flanary, Dick Gilbert and Wilber Haynes. Delightful refreshments were served and a most enjoyable evening was spent.

One of the most enjoyable features on the social calendar of last week for the younger crowd was a supper in honor of Misses Elgie and Moss Davis, of Russellville, given by Miss Mildred Haynes. Covers were laid for eight, the following young ladies being the guests at supper. Misses Inez Price, Mayme Hubbard, Gustava Haynes, Lena Terry, Cora Melton, Elgie and Moss Davis. Later in the evening a number of young gentlemen, among whom were Messrs. Ray Flanary, W. V. Haynes, Trice Bennett, Leslie Melton, J. Pierce Jones and Chastain Haynes joined the happy party and a most delightful evening was spent. Several games and contests as only such a hostess as Miss Mildred can select, together with music and refreshments served at intervals, made the evening a most pleasant one, and the guests left with one hope among many—that another such happy time as this would soon be theirs to enjoy.

CAVE-IN-ROCK.

Wheat is looking well except rust. J. L. Lowery has passed through a ledge of lead and now has a fine prospect for zinc in his mine.

Cecil Oxford, son of our county treasurer and assessor, was in Evansville last week for treatment for his joint disease. Mr. Oxford is in a serious condition. He has buried his wife, two daughters and a son, all adults, one daughter leaving eight little children, and has been operated on twice himself for cancer of the bone of the thigh, with still a strong probability of losing his leg, and now this boy, aged sixteen, is in the hospital in a critical condition and all this besides other serious troubles has occurred within two years time. We should feel grateful indeed when free from sorrow.

Dr. Paris accompanied Cecil Oxford to Evansville Monday.

Sut Ledbetter, wife and baby who have been visiting relations here the past two months, left Monday for their home in Oklahoma. Sut has prospered in the West.

The farmers are more belated with their spring work than for years.

James Mason, the people's man, happened to quite an accident Monday. While removing the crate from a new buggy he stuck a nail into his throat to the depth of about two inches.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol dyspepsia cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures indigestion, dyspepsia, belching, sour stomach, weak heart, etc. Kodol dyspepsia cure for what is sometimes called America's national disease—dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition. Sold by Woods & Orme.

Killed While Hunting.

Maysville, Ky., June 2.—Lemuel Oecull, aged about twenty-one and single, left his home near Orangeburg, this county, to go hunting. After he had been gone sometime his father, while passing a field, saw something lying on a stump, and going to it was horrified to find his own son dead, with his head and face full of buckshot. It is supposed that he had set his gun down first when it went off, the charge striking his head killing him instantly.

Has Stood the Test 25 Years.

The old, original Grove's Tasteless Chill Tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, No pay, 50c.

Dump the Forms.

Guthrie, Okla., June 3.—Unknown persons last night entered the office of the Guthrie Guide, the official territorial negro paper, and took the forms made up for this week's issue and dumped them into the Cottonwood river. There is no trace of the perpetrators of the outrage.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash. "I had a bitter battle, with chronic stomach and liver trouble, but at last I won, and cured my diseases, by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you, by Woods & Orme, druggists, at 50c a bottle. Try them today.

Fire at Crofton.

Hopkinsville, June 2.—Fire at an early hour this morning destroyed three storehouses at Crofton, in this county entailing a loss of \$7,000, with insurance of \$3,600. The fire originated in the millinery room of John H. Myers' general merchandise establishment. His loss is \$4,000 on stock with \$2,000 insurance. G. F. Myers' undertaking stock was saved. The Crofton bank was damaged to the extent of \$250 fully insured; the fire is supposed to have been of incendiary origin.

Serious Accident.

Middlesboro, June 2.—A serious wreck occurred on the Belt line, three miles from town and thirty cars were derailed.

Several of the train crew were injured and the fireman, Sil Wilson, will die. Several other men are missing and are supposed to be buried under the wreck.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for blind, bleeding, itching and protruding piles, Bucklen's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at Woods & Orme, druggists.

"Johnnie on the Spot."

London, June 5.—The correspondent of the Evening News at Manila, wires that seven Japanese destroyers are reported to be lying inside of Corregidor island and it is supposed that they are lying in wait for the Russian war ships if they attempt to leave Manila bay.

In Mad Chase.

Millions rush in mad chase after health, from one extreme of faddism to another, when, if they would only eat good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away. Prompt relief and quick cure for liver and stomach trouble. 25c at Woods & Orme's drug store; guaranteed.

Save 1-2 Your Paint Bills

By using Weir's Bavarian White Lead, the most durable and therefore the most economical lead or paint made. It has zinc in it. The zinc gives the paint a beautiful gloss and prevents the lead from destroying the LINED OIL WHICH IS THE LIFE OF ALL PAINT. "Pure Lead" by itself will eat and destroy the lined oil, thus causing the paint to become porous or open and dust off. Weir's Bavarian White Lead is better and cheaper than mixed paints because one-half of every gallon of mixed paint is linseed oil for which you pay \$1.50 per gallon and get an old, stale, unsound linseed oil. Buy fresh oil from your dealer's barrel at its true value. 4 1-2 gallons linseed oil and 100 pounds of Weir's Lead will make 6 1-2 gallons best paint ready to use, that will cost you no more than other standard brands of lead and much less than mixed paint and will last twice as long as either. Write D. T. Weir White Lead Co., St. Louis, Mo., for their booklet "Facts About White Lead." Weir's Bavarian White Lead is for sale by Cochran & Pickens, Marion, Ky.

Wooded and Won.

Marysville, O., June 8.—A romance which began in this city about a year ago has resulted in the marriage on June 1 at Weiser, Idaho, of Prof. J. M. Martin, son of J. P. Martin of Marysville, and Miss Frances Phelps of Ravenna, Ohio.

Prof. Martin was called to superintend the schools at Weiser a year ago and he took three Ohio teachers with him. Among them was Miss Phelps, who taught in one of the grades under him. He soon won her heart and hand. The bride is a graduate of the Oberlin, Ohio, college, and has taught in the schools of Ravenna. The couple are now on their honeymoon trip to Portland, Oregon, after which they will take up their residence in Lagrange, Ore., where Prof. Martin will superintend the schools.

Ten Warships.

Vienna, June 7.—A Constantinople correspondent of the Associated Press says the Italian government ten days ago sent ten warships to the coast of Yemen, Arabia, and refused to withdraw them until the Turkish government makes amends for the murder in Yemen of Italian subjects. On account of Turkey's lack of sovereignty in the Yemen makes it impossible, therefore the situation is grave.

TOPPENISH, WASH.

A Good Town, a Fine Country,
And a Great Future of
Possibilities.

[From Toppenish, Wash., Review.]

This great Yakima valley will be a "white man's country" within the coming year. The red man has his allotment, and by force of circumstances is a rich farmer. The half and quarter breeds are educated men, prosperous if they so elect, and otherwise if they please, in that they don't differ much from the Caucasian. Half the white men on earth would fiddle away a fortune in a week if they had it.

Too much maudlin sentimentality has been wasted upon Poor Lo by the Boston Indian Rights Association, consisting of long haired men and short haired women. What the Indian really needs is self-reliance. It may be a hard old school, this experience business, but we have all had our heads bumped, and they are better for the bumping. When this reservation is opened many thousands of happy homes will spring up in the God-blessed land. The red man will enjoy a greater meed of prosperity, than left alone in his aboriginal state. His children will enjoy the benefits of a magnificent public school system, he will hear how the white man raises cantaloupes, potatoes, big red apples, alfalfa, chattie mortgages, twins, sheep and a good many other things.

Every day a crowd of home hunters visit the town seeking locations. If reasonable rentals and conditions can be found they invariably remain. If this land were open tomorrow, in ten days every quarter section would be occupied by an actual permanent resident.

The reasons are many and plain: The rich alluvial soil has practically no bottom.

Water for irrigation is abundant. Colorado never grew as sweet a sugar beet.

Hood river berries look like culls in comparison.

Eight tons of Alfalfa are common. Greeley would hold a continuous carnival of joy if she produced such spuds.

And if that were not enough, everything in proportion.

Sounds like a real estate boomer's nightmare, don't it? Yet, every word is gospel truth.

And the town:

Waiting for years the advent of some sort of inspiration, Toppenish drifted, satisfied to be a mighty good trading point for the cow man, the sheep man, the native.

Irrigation, that greatest of empire builders, broke into the solitude.

The country had outgrown the town and a short time ago the enterprise of Mrs. Josephine Lilly

brought eighty acres of her allotment into the market as town lots, where the purchaser might get a warrentee deed.

Then there was something doing. Within two months half a hundred houses were started; this week a hotel and a big store are beginning to arise.

For the next few months we can but speculate. But in a year from now Toppenish will have five thousand prosperous, happy people, drawing their substance from the most fertile land on the face of the globe.

The future prosperity of Toppenish is assured. Lying as it does in the heart of the Yakima Indian Reservation, and also Yakima county, it presents an extensive area of productive land, second to none on the mundane sphere; is bounded on the north by the richest fruit bearing belt of land in the United States, and containing within itself thousands of acres of soil adapted to the growth of almost any class of crop that may be grown in temperate and semi-tropical regions.

As evidence of this there were shipped during the past season alfalfa, timothy, clover, wild hay, wheat, barley, oats, rye, corn, potatoes, onions, hops, wool, cantaloupes, melons, cucumbers, peppers, egg plant, apples, pears, peaches, apricots, plums, prunes, quinces, etc., as follows: Hay, 539 cars; potatoes 255 cars, grain 101 cars, fruits 186 cars, and shipped by express an amount equal to 40 car loads of fruit.

Live stock shipped to market from this point during the six months ending October 2 was 117 cars against 42 cars for the same period last year. The actual number of cars of produce shipped from May 1, 1904 to October was 1,479 cars, as against 1,684 for the same period this year.

In addition to the produce already referred to, the representatives of the proposed sugar factory to be erected at North Yakima are contracting with the farmers of this section for raising several hundred acres of sugar beets. The agricultural expert pronounces the soil around Toppenish superior to anything in the country for that purpose, the exceedingly mild climate being specially adapted to the production and harvesting of the crop sure and safe.

An abundance of water for irrigating purposes makes the land in the vicinity of Toppenish a sure producer of all the various products before mentioned.

Just What Everyone Should Do.

Mr. J. T. Barber, of Irwinville, Ga., always keeps a bottle of Chamberlain's colic, cholera and diarrhoea remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's colic, cholera and diarrhoea remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by Woods & Orme, druggists.

Begins the Survey,

Cincinnati, June 9.—With the expectation that the rivers and harbors committee of the house will be favorable to the proposed nine foot stage of the Ohio river the federal commission of engineers today began a survey of the river at this point.

A rumor is current here that the survey in this city is to determine the feasibility of such an improvement more than anything else, though it is understood that as soon as it is finished here the engineers will continue it further down the river.

Again it is thought by many and word has been given out by authoritative sources, that the beginning of the survey, which was planned for last winter, means that the work is to be pushed without stopping from Pittsburg to Cairo, and that the entire improvement as it is to be made will be laid out. By the source from which this information was gleaned it is further said that the survey is the genuine article and the one that will be followed in case the favorable report of the rivers and harbors committee is acted upon and an appropriation for the work allowed and not a test as is imagined by many.

The work of survey of the river from its navigable source to where it empties into the Mississippi, will take considerable time, though it is hoped to have it completed within the next four months.

Yellow Fever Germs.

Greencastle, Miss., June 6.—According to statements made by James McLauren, a relative of United States Senator McLauren, who has just returned to his home in Washington county on a furlough from his duties as a soldier in the canal zone. Uncle Sam has accomplished wonder, on the Isthmus of Panama in sanitary departments.

McLauren has been in the tropics for many months and served in the United States Army during the war in the Philippines. He says he has no more fear of yellow fever than he has of an ordinary chill, and for this reason he consented to a strenuous experiment made by the sanitary officers on the Isthmus in an effort to eliminate the dreaded yellow jack.

"I have spent much of my time in tropical countries and have seen many deaths from the fever," said McLauren, "and I was boasting one day of not being scared and was invited to allow myself to be placed at the mercy of the fever-breeding mosquitoes. I consented, and was placed under a bar with more than one hundred of the Panama insects, known to inject the germ of the yellow fever with every sting. I was attacked by fever four days afterward. The physicians forecast the time of my attack within an hour."

"I was ill for nine days but recovered speedily and never enjoyed better health than I did after being discharged from the hospital."

McLauren said that he was not the one Uncle Sam's medical servants incased in bars for experimenting with the bite of the fever mosquito. Several soldiers consented and not a case was lost. According to McLauren every stagnant pool has been drained with the exception of the far interior districts in the efforts to eliminate entirely the dangerous insect from the canal zone.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for consumption, coughs and colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At Woods & Orme's, druggists; 50c and \$1.00, guaranteed. Trial bottle free.

A Humbug.

Birmingham, Ala., June 7.—In an address before the Literary Societies of the Alabama Polytechnic Institute at Auburn, one of the leading State colleges, last night Dr. J. W. Stagg, pastor of the First Presbyterian church of Birmingham, in discussing the negro question spoke as follows:

"The conception of Booker Washington is the greatest piece of humbuggery that was ever presented to the minds of the American people. Booker Washington is the greatest exaggerator that speaks from the platform, and the greatest beggar that ever held out his hat to the American people."

Dr. Stagg declared that the negro was so inferior no education would help him, and he advocated the deportation of the race back to Africa, asserting that there was no future for them in this country. He asserts that in time disease will completely stop the growth of the negro race. As the negro never did anything voluntarily Dr. Stagg said he should be forcibly returned to Africa.

The Gilbertsville Bridge.

The officials of the Illinois Central have announced that the new bridge across the Tennessee river at Gilbertsville, Ky., will be formally opened for traffic June 20.

It is understood that many of the officials of the road will be present when the bridge is opened. An excursion will be run from Paducah. An appropriate program will be arranged for the occasion.

The handsome bridge is one of the finest in the South and cost the Illinois Central company over \$2,000,000 and has been under construction over eighteen months.

The bridge is being inspected today by Harry McCourt, general superintendent of the Southern lines of the company and Superintendent A. H. Egan.—News-Democrat.

Woman Caused Breathitt Feud.

Lexington, Ky., June 5.—Tom Cockrell, brother of James Cockrell, who was slain in Breathitt county, was arrested here yesterday on complaint of Bessie Hamilton, who charges that he had stolen a photograph of himself from her apartments. The Hamilton woman, it is claimed is the one over whom the Cockrell-Hargis feud originated, the killing of Ben Hargis, it is alleged being due to a disagreement between Tom Cockrell and Ben Hargis over this woman.

Big Boat Sinks.

Louisville, Ky., June 7.—The steamer W. W. O'Neil, the big boat of the Monongahela Coal company, which recently passed Paducah on the way up from New Orleans, with a tow of empties sunk this morning at the foot of Eighth street. The boat struck some obstruction, which tore a ten foot hole in her hull, and she sunk in ten feet of mud and water. The crew was not in danger. The boat will be raised. The damage will amount to five thousand dollars.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc.

Allay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves—not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs.

"Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

JOHN J. MOHRMAN, Pres. S. De Eng. Co., South Bend, Ind.
Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.
