Mattie Clark Surprises Her Friends

Miss Harriet Haynes Week Ends at Fred Roth's and Motor will Take Her to a Better Ball.

Miss Cornelia Clark left here Monday on a trip for Prescot, accepted by her brother, Mr. J. H. Clark, and spent part of the time at Chico, where she met some of the friends. They had hoped to meet the writer in Redding, but the climate had been so unsettled there that Miss Cornelia had decided to return home.

Miss Clark is a great asset to us and we expect to have her here at the end of the week. She is married once and has two children. She has been married to Mr. J. H. Clark for 24 years. He is a prosperous drug store kept in Redding and his home is a source of pride to his family. Miss Cornelia is a devoted wife and mother, and she is always willing to do her best to make the day for her loved ones.

The generous hospitality of Mr. and Mrs. J. H. Clark, together with the kindness of their friends, has made the week at their home a most enjoyable one. We all hope to be able to return the favor in the future.

The writer was present at the visit and was able to see the oil fields for himself. He is convinced that the district has a great potential for oil production.

Mr. and Mrs. J. D. V. are well known for their generosity and their contributions to the welfare of this city. They have been active in many charitable organizations and have given freely to the needs of the community.

The writer is glad to have the opportunity to express his appreciation for the work of Mr. and Mrs. J. D. V. and to express his hope that the district will continue to benefit from their generosity and their vision.

In Memorial

Jno. J. Babcock, of Water City, C., author of the following papers, who was suddenly taken away from us, with great regret, by the shortness of his life, on the 28th of this month, in his 56th year. He was a man of high principle, and a true friend of his country. For more than twenty years he was an active member of the Whig party, and his political opinions were ever consistent. His memory will be preserved in the hearts of his friends and the community. The family and friends of Mr. Babcock will feel the loss of his society and the last tribute of respect and esteem by the public, will be extended to him. The neighbors will feel the loss of a good neighbor, and the community will be deprived of a valuable citizen.

Big Tank

It was a huge tank to undertake the work of such a bed of land in such a short time. We put a tube down and a line was led from the tank to the cotton. It was a very efficient contrivance. The tank was placed on the level under the cotton and the water was sent through a pipe to the cotton. It worked very well. We have had some very good results from it.
