DISTRICT INSPECTED BY CAPITALISTS

With a View to Building a Belt Line Railroad from Mexico to Marion.

There is Considerable Talk of the Probable Location of a Railroad at This Place.

The Marion Zinc Co. have struck a rich vein of zinc and lead in their property.

W. E. Capel, recently appointed a member of the Board of directors of the company, is expected here soon.

The zinc found in this district is a sales item on the market.

The Syndicate minutes were read and the directors went into the committee to examine the records and the work of the company.

The directors then adjourned to the next meeting.

The directors of the company are anxious to get the line built as soon as possible.

The directors are very much interested in the progress of the work and the directors went into conference with the superintendent of the company to get the latest news.

A party of capitalists from Pennsylvania visited the plant yesterday afternoon.

The directors were much pleased with the progress of the work and the directors went into conference with the superintendent of the company to get the latest news.

The Record is now in its new and modern dress in which it arises from
the ashes of the late fire. No paper in Western Kentucky is in a better position
to fill your wants in the advertising or publicity line and none has a stronger
or more substantial following. Call on The Record, make your wants known
and leave a few suggestions regarding the business to the publicity of the
columns and note the results. If local and general news, together with
a variety of other reading matter makes a paper popular The Record certainly
covers all these features. If you have not no paper do not fail to send a dollar
to.
