NUMBER 4.

THE GREAT RILEY MINE!

A Scene of Activity and Life--Shaft 174 Feet Deep and Fine Mineral Being Taken Out--Lead 98 Per Cent Pure.

Very few people of Marion are aware that one of the best concentrating plants in this country is in two hours ride by buggy of this city.

Scarcely a dozen miles to the south-west of Marion on the borders of the county, with only a creek intervening between it and our rich sister county of Livingston lies the Marion Zinc company's Riley mine.

The concentrating plant is on an eminence several hundred feet above the territory surrounding it and here the shaft, 174 feet deep has been sunk, and around about it has been erected a plant the equal of any in America. No money has been spared in the selection of the equipment.

In the boiler and engine room, which covers an area of 50 feet long by 40 feet wide; 2 great steam boilers of 200 horse power capacity have been placed and their stacks reach high in the air and can be seen for miles around. They are of the best make obtainable, one being built by the John H. Bass Foundry Co., of Ft. Wayne, Ind. (Mr. Bass, who was born near Salem is now a millionaire foundryman, of Ft. Wayne.) The other big boiler and the 80 h. p. engine were built by the Brownell Co. of Dayton, O., which is an index to their character. It seems to have been the aim of the management to get the best of everything.

One hoisting engine in the elevator is of the Freeman pattern; another one in the foundry is of the Fairbanks Horse type. The three crushers and rollers were built at Cartersville, Mo. in the heart of the Joplin district, and are as good as money can buy.

The concentrating room is 75x25 feet and has "roughers," "cleaners," "sand jigs" of 6 cells each, and a new No. 5 "Wiffley Table," of the latest type. The line shafting, pulleys, and all that part of the great plant were built by the Joplin, Mo., mine Co.

The shaft is a double compartment 174 feet deep, 8x12 feet, one of which is used for the ladder, up and steam pipe for running the drills, two of which are in the shaft and are of the Sullivan type—the best known for deep mining.

The heavy timbers used in lining the elevator and in lining the shaft look as if they were put to last a generation; all the shows plainly it was put there for permanency; nothing cheap or shoddy has been used in the construction.

The hoisting plant is 75 feet above the ground and all mineral is fed from the hoister to the machines by gravity. The arrangement is unique and on every hand the signs of the minds who planned and constructed the various machines. The plant also has a work shop 25 feet long, equipped with all kinds of machinery necessary for repairing the plant in mining machinery.

There are 12 x 12; a magazine 8 x 12; a boarding house, one boarding house, and one men's room 12 x 20. Plans are now for three new cottages and a lodge or hotel to accommodate the management with offices when on their visits to the mine.

The features of the plant is the fact that two of which are located on the hill, and one in the water up 4,000 feet. The pool 9 feet deep has two steam pumps to draw the water from the reservoirs of tons of

ore rough, are on the dumps and many tons of crushed ore and concentrates. The company has bought a road way and is having it metalled in all the low places so as to afford a good highway to the market the year round. In all of this the Marion Zinc Co., has shown its confidence in this district and sooner or later other large concentrating mills will be erected on its other properties.

They own the Ray and the Lowery near Fredonia, and also the Belt near Lola.

The President C. S. Knight, lives in a mansion in Fort Wayne, Ind., and is interested in many other large enterprises in various parts of the United States and is as pleasant and genial a man as one ever meets.

The United States Geological Survey announces that a considerable amount of work will be done by it in Kentucky during the summer. Detailed areal and economic surveys will be made in the Kenova quadrangle, contiguous to the mouth of the Big Sandy river, by Messrs. G. H. Ashley and W. C. Phelan, under the supervision of Mr. M. R. Campbell.

In the same area investigations will be made in paleobotany by Mr. David White. In southwestern Kentucky underground waters and mineral resources in what is technically known as the Mississippi embayment will be investigated by Messrs. Eckel and Crider.

The Louisville, Prospect, River-view, Georgetown and Morganfield quadrangles will be mapped under the supervision of C. E. Cook, assisted by Messrs. J. B. Dangerfield and L. S. Smith, while hydro-economic investigations will be conducted by Mr. B. J. Lewis, and streams will be measured by Messrs. Hanna and Clapp. All or most of this work will be in collaboration with the State Survey, under direction of Prof. C. J. Norwood, the director. The resumption of such work, which has been in abeyance since 1892, when the Geological Survey of Kentucky was suspended, is due to the re-enactment of the law by the Legislature two years ago and gives promise of valuable results in making known the geological resources of the State.

In the prosecution of these investigations the members of both the Federal and State Geological Surveys should have the co-operation and assistance of the enterprising citizens in the several localities in which the work will be conducted. The local Commercial Clubs should also lend every facility in their power and take an active interest in promoting the success of the work, utilizing its results and also in making the results widely known. Since the suspension of the work of the State survey, many additional elements of wealth in the matter of oil, gas, economic clays and shales, which were not exploited by that survey, have since some prominently to the front and are known to abound in Kentucky. They now rank in point of commercial utility with coal, iron and other standard minerals—LouisvilleCourier-Journal.

The big North American company who are buying so much coal property now have three separate corps of engineers working hard establishing the lines and numbers of acres in each tract of the vast areas of land they are buying the coal under. One crowd is under Mr. Ward, a most eminent surveyor from the anthracite coal fields of Pennsylvania; and the second is under county surveyor Kevel of Marion, and the third is handled by our own county surveyor, Mr. McElroy, who is the equal of any of

them from anywhere and at any time. Work is being pushed very rapidly and a large force of lawyers are busy preparing the abstracts and about another million dollars will be paid out on this property by Pierpont Morgan and his associates in a few days.—Sturgis Herald.

Democratic County Committee.

The Democratic County Committee met in pursuance to notice in the town of Marion, on Monday afternoon at 1 o'clock. The meeting was called to order by the Chairman of the Democratic Committee, P. S. Maxwell. Mr. Maxwell tendered his resignation as Chairman of the Democratic County Committee to temporary Chairman Jno. W. Blue. Temporary Chairman, John W. Blue, in behalf of the committee accepted Mr. Maxwell's resignation. C. S. Nunn was then elected to succeed Mr. Maxwell. Mr. Nunn having held the office of secretary and treasurer his office was declared vacant and W. H. Clark was elected to succeed him.

No matters of especial importance were transacted. After a very pleasant meeting of the committee and after a vote of thanks had been extended to Mr. Maxwell for his efficient, faithful and ever helpful assistance to the Democratic party and committee in the service he had rendered it in the past fifteen years as Chairman of the Democratic County Committee, the meeting adjourned.

Entertainment at Lola.

One of the most enjoyable evenings of the month to be had at Lola, Ky., on Saturday, July 1st. The brass band will give a special effort to entertain during the evening, which will be devoted to a moonlight social, which means a general good time. Ice cream and mild drinks, the nicest of cake, singing by the choir, with recitations by some of the Sunday school's prettiest little folks. Everybody respectfully invited. Nothing but the best of order guaranteed. This entertainment is for the exclusive benefit of the Sunday school and given by superintendent, teachers and scholars.

W. L. Kennedy, superintendent; J. D. Foley, assistant superintendent; Addie Johnson, secretary; Dr. Davis, J. R. Tolley, L. P. Mitchell, A. M. Davis, Ida Mitchell.

Freedom Church Improved.

Old Freedom Church is showing up and evinces an air of prosperity, having just received three coats of white paint, also the old seats have been treated to a coat of red paint and the addition of eleven new benches fills the house full and affords ample seating room for all. The estimable good lady Mrs. Emily Brown, a member of this church, is soliciting help to buy a carpet for the isles and altar and we hope she will be successful in her undertaking. Some say that Freedom church must also have an organ.

Brothers Robert Nesbitt and Willie Fritts, who were appointed to supervise this work desire that the county papers publish this with the names of all those who helped by their donations and the amount given. As Uncle Jimmie is usually at the head of all church work we head this list with his name:

James Brown 75c; Henry Conger \$1; Willie Fritts \$1; Robert Nesbitt \$1; John Nesbitt \$1; Paul Conger \$1; Mrs. H. Holloman 50c; Mrs. Emily Brown 25c; Mrs. Maggie McEwen 50c; Mrs. Lizzie Conger 25c; Miss Rusey Brown 25c; Mrs. Nora Nesbitt 25c; Mrs. Jimmy Craighead 25c; Hugh Norris 50c; Ed Weldon 25c; John Brown 50c; R. A BETTER MARION

Arising Phoenix-Like From The Ashes.—Rebuilding Being Pushed Rapidly.

Adams & Pierce's big brick foundry and machine shop was the first of the new buildings completed. Copher's bake oven was completed a few weeks after the fire and has the distinction of being the first brick building to arise from smoldering ruins of March 28. Cochran & Pickens' large warehouse is ready for use. Mrs. Frank Wheeler's three buildings which are to be occupied by McConnell & Stone, Morris & Hubbard and Ray Bros., are finished as far as the brick work is concerned and will soon be ready for use.

The block containing James & James, Wood & Ormes, and Cochran & Pickens is almost completed, that is the brick work.

The excavating and laying the foundation of the Press and Record offices are being done. The new postoffice is up to the second story and the Marion Bank first story.

Preparations are now being made for laying the foundation of the Twentieth Century Inn, which will be adjoining James & James' offices, on Bank street.

Work was begun yesterday on the three story Masonic Temple, on corner Bellville and Main streets, and will be occupied by Taylor & Cannon.

On the lots next to Mrs. Wheeler's three buildings, Mrs. Frisbie is building two store rooms which will be occupied by Hina-Babb Co., and M. Copher.

Repented Too Late.

Niagara Falls, N. Y., June 22.—Distracted by pain, James A. Gilbert, 45 years of age, a prominent insurance man of Buffalo, ended his life today by leaping into the rapids from Goat Island bridge. Remorseful when he struck the water, Gibson struggled desperately to live. His plunges and jesticulations attracted a crowd, who rushed in every direction for a life line. When the line was finally procured it was thrown over the bridge, but Gibson, weakened by his exertions, loosened his grasp and was swept along in the mad rush of waters, only a few feet away from the brink of the mighty cataract. The man was tossed upon a rock, and still conscious, he made a last effort to save himself. There was no possibility of a rescue, however, and in a few seconds he was lifted bodily from the boulder by the current, tossed into the air a few feet, and into the falls. His body has not yet been recovered.

Before taking the fatal jump Gibson threw his hat into the water and left his coat on the walk of the bridge. In the coat was found an envelope on the back of which was written: "I can stand the aches and pains no longer. I fear I shall never be well. Let me go before I lose my mind entirely."

Splendid Results.

Louisville, Ky., June 24.—State Superintendent George L. Sehon, of the Kentucky Children's Home Society, submitted his annual report at the 9th annual meeting of the society held Thursday afternoon. The report shows that the financial receipts for the year were \$35,598.09. The total number of children handled was 527.

It is estimated that the society saved the State in the neighborhood of \$60,000, besides the good citizenship of 527 children. The growth of the society during the past year is considered phenomenal, the membership having been doubled until now it numbers 10,000 throughout the State of Kentucky.

Jottings from Canada.

Canada is quite cool, especially during a cool spell.

The Eleventh International Convention is truly a great one—one of the greatest in history.

There are about 2,000 delegates present from nearly every State in the Union, nearly every province in Canada and from England.

You ought to have heard the choir of 2,000 voices sing, and then the 5,000 auditors joining in the chorus. It was the "old time singing."

The first meeting Friday night was full of enthusiasm, full of gush and full of earnestness.

The Rev. Dr. Tyler, of Denver, Col., chairman of the meeting, said, "We shall begin this convention by singing 'America.' Then he said 'Oh, I forgot; we are in Canada. We shall open this convention by singing, 'God Save the King!'" It was sung with energy and the first stanza of 'America' was sung well, you would think, as a chorus.

The audience was obscured for a minute by the waving of 5,000 white handkerchiefs, the "Chauteauqua salute," that Bishop John H. Vincent, D. D., the Nestor of uniform lessons. He was chairman of the Lesson committee that selected the first series of International Lessons in 1872. He was the first man that prepared comment on these lessons. Well might he be thus greeted.

Dr. James E. Shepard, the colored secretary for the negroes, and who has made five or six thousand speeches to his race on Sunday School work, expressed a beautiful sentiment when Marion Lawrence asked him, "Are you satisfied with what we are giving you?" Dr. Shepard answered, "We want all we can get; but when you have given us what you think is right we are perfectly satisfied."

Talk about women speaking! On the platform Mrs. Bryner, Mrs. Mary Foster Rymer and many others were vying with the great orators of England, Canada and the United States. At the close of Mrs. Bryner's speech Saturday morning she was presented with a beautiful bouquet, almost as large as she could carry. These women are modest, not trying to be eloquent, but with their hearts burning with Sunday School work.

We are making an earnest effort to get the 12th International Convention in our own metropolitan Louisville.

Justice J. J. McLaren, of Toronto, was elected President. He said very happily on assuming the chair: "I can not govern you by the rules of Congress for I do not know them; I can not govern you by the rules of Parliament because you do not know them; therefore I shall endeavor to govern you and hope you may reciprocate the effort by the Golden Rule."

Lights Turned On.

Frankel said let there be light and there was light. While these may not be the exact words as they occur in the Scripture, they are especially true for while the big crowd from the surrounding country was here last Saturday night to attend the circus, the big dynamo at the power house was set in motion and for the first time in the history of our city the big 2700 candle power as lights were turned on, turning night into day, very much to the astonishment of the natives of the country who had never seen anything of the kind before. One old woman fell to her knees to pray saying that the world had come to an end, while others said that the light came from heaven to announce the fact that Japan had conquered Russia.—Sturgis Herald.

Situation Wanted.

By an experienced clerk and bookkeeper, a position as dry goods clerk or as bookkeeper for some good firm in Marion, Ky. Am employed at present by the largest concern in this city. For particulars apply to S. M. Jenkins, Marion, Ky., or address P. O. Box 211, Madisonville, Ky.

The reception given last Thursday afternoon at the residence of Prof. Chas. Evans by Mesdames J. I. Clement and Chas. Evans was one of the most pleasant of the season and was largely attended. The guests were entertained in a charming and most unique way. On entering each one was presented with peanuts, and these not opened until all the guests had arrived. Then it was found that each nut contained the fortune of its possessor. This feature of the entertainment was much enjoyed as from time in memorial it has been a weakness of the fair sex to have their fortune told. A mother goose contest was quite interesting, each guest reciting a rhyme from memory. The prize, a mother goose book, was won by Mrs. J. W. Blue. Another contest consisted in drawing the picture of a goose, and while each guest was expected to do her best blindfolded. In this contest the prize, a cut glass tooth pick holder, was won by Mrs. S. M. Jenkins. A third contest was original poems and compositions, on the goose, and the prize was easily won by Mrs. T. H. Cochran. The home was beautifully decorated, the dining room, where refreshments were served, being in red. Misses Jessie Smith, Kittie and Fannie Gray served refreshments, which consisted of delicious ice cream, sherbet, cake, candies and nuts. Punch was served throughout the afternoon by Miss Nonie Blue, of St. Louis. Among those who attended were noted: Mesdames Herbert Whitney, of Water Valley, Miss.; P. D. Maxwell, of Ardmore, I. T.; Ernest Melton, of Dixon; Gordon Flannery, of Dallas, Texas; W. J. Deboe, Ollie Tucker, Carrie Maxwell, T. J. Vandell, W. B. Vandell, S. T. Dupuy, R. F. Dorr, R. L. Moore, J. F. Dodge, S. M. Jenkins, J. R. Finley, R. F. Haynes, G. C. Gray, James Henry, H. H. Sayre, Tom Clifton, John L. Nunn, J. W. Blue, H. K. Woods, T. H. Cochran, H. A. Haynes and Misses Jessie Smith, of St. Louis; Lena and Ina Woods, Fannie and Kittie Gray, Rachel Orr and Nelle Walker.

On Friday evening, June 23, a number of friends of William Watkins were invited to his father's home on West Bellville street. Among those present: Misses Vera McCord, Pearl Doss, Bernice and Maude Driskill, Grace Moore, Freda Pickens, Maude Gilliland, Mary Coffield, Lizzie Gilbert, and Nellie Sutherland and Messrs. Will McConnell, Tom Cameron, Ray Flannery, Virgil Cox, Creed Taylor, Dick Gilbert, Sylvan Price and Emmett Koltinsky. Some amusing games were engaged in. Miss Agnes assisted in entertaining. A guessing contest resulted in awarding the prize to Ray Flannery.

A few of Miss Cora Melton's friends spent a delightful evening with her and her brother, Leslie, last Saturday. They gathered about 8:30 and spent the ensuing hours in merry games, happy conversing, entrancing music and much laughter. Ices being served added much to the enjoyment of the evening. Some present were Misses Gustava Haynes, Mayme Hubbard, Inez Price and Mildred Haynes and Messrs. W. E. Potter, Trice Bennett, Curtis Asher and Alfred Martin.

Obituary.

The death angel has again visited Freedom neighborhood and taken from our midst Mrs. Ada Butler, the young wife of Charley Butler, and daughter of Mr. and Mrs. Lum Fritts. We learn that the deceased fell asleep in the triumphs of a living faith in God, who doeth all things well, which is a great consolation to the bereaved husband, parents, brother, sisters and friends. Weep not for Ada, but prepare to meet her where parting is no more. It is indeed a heavy blow to part with our loved ones, but a great consolation that we can meet them again where parting is no more; but think of one who has prepared a bright and beautiful home beyond the grave; and the spirit of dear Ada will only wait a brief period when in sweetness and love she will meet her parents, husband, brothers, sisters and friends, to part no more.

AT REPTON

The People Assembled Sunday and Spent a Good Time.—Dinner on the Ground for All.

Before one of the largest audiences that has assembled at the Baptist church at Repton for some time, the Sunday school, assisted by the church, discoursed one of the most interesting programs ever rendered on such an occasion—Children's Day. The little ones did their parts well and also the older ones. At noon the crowd adjourned to the shade of the many trees and spread one of the bounteous dinners that has so long made Repton noted for its real hospitality on such occasions. After all had appeased their appetites they again entered the church and listened to the remainder of the program. The pastor, superintendent and all are entitled to a great deal of praise for their part in training the little folks to such a point of excellency. The program as rendered follows:

Found a Cure for Dyspepsia.
Mrs. S. Lindsey, of Fort William, Ontario, Canada, who has suffered

quite a number of years from dyspepsia and great pains in the stomach was advised by her druggist to take Chamberlain's stomach and liver tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these tablets, get well and stay well? For sale by Woods & Orme, druggists.

Beginning next Sunday and on each Sunday afterward, the I. C. train which leaves Evansville for Marion will leave there at 6:15 instead of 4:40, arriving here at 9:15, Sunday only.

Dashed Into Eternity.

Mentor, Ohio, June 21.—Running about sixty miles an hour, the Twentieth Century Limited, on the Lake Shore railroad dashed into an open switch at the passenger station here, at 10 o'clock tonight. Eleven persons were killed and twelve were badly hurt.

The train was Eastbound, having left Cleveland about 9 o'clock, does not stop here, and was running at a great speed. The engineer did not notice the open switch until the train struck it.

The engine left the rails and the combination baggage and smoking buffet car and car behind were jammed into it with great force and crushed, the fire from the engine setting them ablaze.

Fortunately most of the occupants of these two coaches were rescued before the fire reached them. Those in the rear coaches were not injured. Among the killed is the engineer; the other dead were passengers who were in the smoking car. The fireman was so badly burned that he will die.

Five bodies were horribly burned from the wreck. It was impossible to identify them at the scene of the wreck.

Eleven people were killed and sixteen injured, some of them fatally. This is the fourth trip of the flyer on the run from Chicago to New York on the eighteen hour schedule.

Later reports give the number of the injured at 21, and of these fifteen are seriously if not fatally injured.

Practically all the injured are burned and had to be extracted from the blazing wreckage by rescue parties.

The Salve That Penetrates.

DeWitt's witch hazel salve penetrates the pores of the skin, and by its antiseptic, rubeficient and healing influence it subdues inflammation and cures boils, burns, cuts, eczema, tetter, ring worm and all skin diseases. A specific for blind, bleeding, itching and protruding piles. The original and genuine witch hazel salve is made by E. C. DeWitt & Co., and sold by Woods & Orme.

TOURS TO COLORADO AND CALIFORNIA.

Choose Time, Route and What to See.

On numerous dates, May to October, 1905, excursion rates are in effect to Colorado, California and the Pacific Northwest. By specifying "Rock Island" west of Chicago, you secure the most for your money in the way of sights to see and side trips to take. Stop off in Colorado, take in the Rocky Mountain resorts, visit Yellowstone Park, then to Portland Exposition. Return via California. Full information from John Sebastian, Passenger Traffic Manager, Rock Island System, Chicago.

Murderer Shot Down.

Macon, Mo., June 10.—In the vicinity of Keota a posse of miners shot and killed Jack Plummer, a miner, who had a short time previously shot and killed Wm. Dale, a mine mule driver overseer.

Plummer had been discharged by Dale because of cruelty to the animals he drove. Plummer deliberately walked up to Dale and shot him dead and then fled, but was discovered by the posse of miners who called upon him to surrender. He replied with a volley of shots from his revolver and was then riddled with bullets.

Telegraphy.

Send for special information concerning our School of Telegraphy. Every worthy graduate secures a position. Address H. H. Cherry, Bowling Green, Ky.

Hotel Burns.

Murry, Ky., June 21.—The Murry hotel was completely destroyed by fire this morning about 7 o'clock. The fire is supposed to have started from a defective flue in the kitchen.

The hotel had been recently refurnished and remodeled. The loss was about \$5,000, nearly everything being destroyed. No one was injured.

The laxative effect of Chamberlain's stomach and liver tablets is so agreeable and so natural that you do not realize it is the effect of a medicine. For sale by Woods & Orme, druggists.

EXCURSIONS TO THE WEST

To the Pacific Coast—to California, Oregon, Washington—round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado—see Salt Lake City—visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.

A Strange Coincidence.

Lexington, Ky., June 22.—Miss Mary Etta Proctor, daughter of Thomas Proctor, of this city, was the victim of a strange coincidence on the occasion of her graduation from Cardone Catholic School, in Georgetown, and as a result her mother lives in fear as a fatality.

Just as the young woman stepped on the platform to read an essay a swallow flew in at the window and fell prostrate at her feet. Before proceeding, the girl picked up the bird and with tender hands revived it, and walking to the window permitted it to fly away, after which she began her essay, the subject of which was "The Flight of the Swallow."

This remarkable coincidence recalled to the mother the fate of another of her children several years ago, which was surrounded by a similar experience. On that occasion a swallow flew in at the window of the Proctor home and found lodgment behind a picture of one of the children hanging on the wall, and there it was found dead. A few weeks later the original of the picture also died and Mrs. Proctor believed the visit of the bird was a premonition of the child's death.

Mrs. Proctor has been made to take a hopeful view of the situation by her husband and daughter, however, by the fact that the recent visit of the swallow was not attended by fatal results, but that it was revived and went on its way rejoicing.

If in a kind of bilious mood,
You wish an aid to digest food,
No other pill is half so good
As DeWitt's little early risers.

The famous little pills early risers cure constipation, sick headache, biliousness, etc. They never gripe or sicken, but impart early rising energy. Good for either children or adults. Bob Moore, LaFayette, Ind., says: "No use talking, DeWitt's little early risers do their work. All other pills I have used gripe and make me sick. DeWitt's little early risers brought the long sought relief. They are perfect." Sold by Woods & Orme.

Touched Live Wire.

Nashville, Tenn., June 21.—While J. W. Richardson, L. B. Smith and B. W. Vogt, Cumberland Telephone linemen were straightening out a cable forty feet above ground, Smith came in contact with a live wire and began to shriek. Both the other men sought to aid him, receiving in turn terrific shocks. First Smith and then Richardson fell, the latter being probably fatally injured. Smith was seriously injured. The wire the men were carrying was charged with 2,300 volts.

Wanted.

Swept by a Cloudburst.

Glasgow, Ky., June 22.—A destructive cloudburst occurred in the extreme southern part of this county Monday at noon, the particulars of which have just been received, owing to the remoteness of the section in which the destruction occurred.

The water spout broke at what is known as Pisgah on Glover's creek, and from there to Barren river, a distance of several miles, crops, fencing and everything in its track was swept away.

THURSDAY, JUNE 29, 1905.

ANNOUNCEMENTS.

We are authorized to announce T. H. COCHRAN, of Marion, as a candidate for Representative from the counties of Crittenden and Livingston, subject to the action of the Democratic party.

Last week's PRESS contained a short editorial notice pointing out the danger to the traveling public from the recently installed fast passenger trains between New York and Chicago, put on by two rival railroads. In that notice the following sentence occurs: "And they will keep on lowering the schedule until some day there will come an obstruction, a crash, and a pile of twisted iron, splintered wood and human flesh." This prophecy was verified the very day it was printed. On its fourth trip between Chicago and New York the fast flyer ran into an open switch at Mentor, Ohio, when running sixty miles an hour, killing 19 persons outright and wounding sixteen others. Yet the PRESS makes no claims to prophecy. Common sense deduction makes it plain to us that any train of cars traveling near 1,000 miles over an American railroad at a rate of speed varying from sixty to eighty miles an hour is bound sooner or later to come to grief. Surely the speed of railroad passenger service should be regulated by Congressional enactment to a point compatible with comparative safety to human life. A full account of the recent wreck is published in another column of today's PRESS.

The Emperor of Germany has been strutting around for some time with a chip on his shoulder and he need not be surprised at any time should France knock it off. The French nation will never rest satisfied until they recover Alsace and Lorraine and just now a war with Germany would be very popular. If all reports are true the French army is in a far better state of preparation for war than is that of Germany.

The next International Sabbath School Convention is to be held in Louisville. This is quite a feather in the cap of Kentucky's metropolis, and also for our delegates.

The Ohio Democratic State Convention is now in session in Columbus. John L. Patterson is in the lead for the gubernatorial nomination.

Poland is just now giving Russia some uneasiness. Two of its largest cities, Warsaw and Lodz, are in open revolt and considerable fighting from behind barricades has taken place in the latter city, which has been placed under martial law. It is stated that over 2,000 have thus far been killed and wounded in Lodz.

It has been definitely settled that the Peace Commissioners will meet in Washington City early in August, the exact date not yet having been definitely agreed upon. Meantime both Russia and Japan seem averse to an armistice and a decisive battle may be precipitated in Manchuria at any moment.

News comes from Manchuria that Gen. Kuropatkin, former commander of the Russian army, has been killed. Another report says he was taken prisoner and 70,000 Russians cut off by Gen. Nogai.

Called to Blooming Grove.

Rev. J. S. Henry has been called to fill the pulpit at the Blooming Grove church in Livingston county, where he will preach every second Sunday. The church at that place was burned last spring, but the congregation is rebuilding a new church which will be dedicated as soon as completed, which will be in time for the meeting of the Ohio River Association, which convenes there Wednesday after the third Sunday in August.

J. W. Blue to Mary T. Murphy house and lot on Depot street, \$665.
J. W. Lamb and others to H. L. Cully 270 acres on Tradewater, \$1250.
S. G. Lee to Charlie Rawlston, 93 acres of land, \$700.

Completes Course.

Smithland Banner: Dr. F. G. La Rue returned Saturday from New York City, where he has been for the past six weeks engaged in the study of the latest things in his profession and the best methods and treatments known to the medical fraternity. He spent several hundred dollars in taking this course and the people of Smithland and community and Livingston county may have the benefit of his knowledge right here at home. There is nothing that commends him to the people of the county more than this progressive spirit which moved him to make this large outlay of money.

Teachers Examination.

At the teachers examination last week thirty-three teachers attended and took the examination, the following making first-class certificates: Misses Mamie Henry, Sylvia Travis, Mable Minner, Mattie Perry, Tennie Davis, of Nebo, and Ada Hill, of Chapel Hill; Messrs. Harry Babb, Irby Terry, Corbett Stephenson and P. M. Ward. The friends of Miss Mamie Henry are congratulating her on making the highest average of any teacher who took the examination.

Teachers' Training Class.

We now turn to the Old Testament. Our first lesson is Sennacherib's invasion. The northern Kingdom had been overpowered and taken captive to Assyria, which was then the dominant world power. Rome had just been built on the Tiber and was nothing more than a settlement or a colony, while Greece was in its earlier stages of national development. In its desire for word conquest it sent Sennacherib with a powerful army against Jerusalem. In addition to the lesson read 2 Kings 18:6-37; also 2 Kings 19th Chapter; also Isa. Chapters 36 and 37; also Byron's fine poem "The Destruction of Sennacherib."

OUTLINE OF LESSON.

- I. God's people in great peril.
 1. The Assyrian invasion.
 - a. Discouraging the people.
 - b. Their wonderful conquest related.
 - c. Israel's God defamed.
- II. God's aid sought, 2 Kings 19:4-20.
 1. Through the Prophet Isaiah.
 2. By the King in prayer.
- III. The great deliverance.
 1. By the angel.
 - a. No slain.
 - b. Humiliation of Sennacherib.
 - c. His untimely death.
 2. The results.
 - a. Jerusalem liberated.
 - b. Hezekiah magnified.

LIVING THE LESSON.

1. When Hezekiah was in great danger, he sought divine direction through the prophet; he also sought God in prayer. When I am in great distress, will I go to God in prayer? Will I seek divine instruction through God's prophets?
2. God delivered Hezekiah in time of great danger. He will deliver me in great danger, if I trust in him.

TOPICS FOR STUDY.

1. The history of Judah, reviewed.
 2. The Assyrian alliance.
 3. The Assyrian empire.
- QUESTIONS FOR RESEARCH.
1. Into what two parts were the kingdom of Solomon divided?
 2. How long did the northern kingdom last?
 3. What caused the captivity of the northern kingdom?
 4. Mention the good kings of Judah?
 5. What kind of a king was Hezekiah?
 6. Who was the greatest prophet at this time?
 7. What counsel did Isaiah give as to the Assyrians?
 8. Who has written a beautiful poem about this occurrence?

The New I. C. Bridge.

News-Democrat: The new bridge of the Illinois Central railroad across the Tennessee river at Gilbertsville, has been thoroughly inspected by Chief Engineer A. S. Baldwin and Assistant Engineer Pat Loden, of Chicago, and Harry McCourt, superintendent of Southern lines of the Illinois Central.

If the inspection proves the bridge to be satisfactory in every way, the opening of the bridge will be ordered for traffic.

The opening was to have been made Tuesday, but the work was delayed by the connection of the interlocking system, which has now been completed.

The new bridge is one of the finest in the South, and cost the Illinois Central company over \$2,000,000.

After inspecting the bridge the officials, accompanied by A. H. Egan, division superintendent proceeded to the Katterjohn Construction plant at Cedar Bluff to inspect the plant regarding the enlargement of the concern for a larger output of rock and ballast for the Illinois Central company.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol dyspepsia cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures indigestion, dyspepsia, belching, sour stomach, weak heart, etc. Kodol dyspepsia cure for what is sometimes called America's national disease—dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition. Sold by Woods & Orme.

Somewhat Puzzled.

Washington, D. C., June 20.—The State Department has not received confirmation of the press dispatch from Chifu, yesterday, that Japan had ordered European and American merchants out of Port Arthur. The dispatch was read with more than ordinary interest, however, and official advice are awaited with some anxiety by officials. In the absence of authoritative information the department is not discussing the report. What Japan's ultimate purpose is in requiring foreign merchants to leave Port Arthur is not known, but there is a suggestion in her reported action that the "open door" may be threatened. The course of the Japanese Government in this instance may be dictated entirely by military necessities. But should it be disclosed that it is in reality a commercial move, this government will have something vigorous to say on the subject. Secretary Hay is the author of the open door policy in China, and the United States would not look with favor upon any effort of Japan to jeopardize it.

Raid on the Dime Novel.

Columbus, Ohio, June 21.—News agencies in Columbus today received word from the management of the Union News Company that in the future detective stories and bloodthirsty dime novels of every description will be barred from the trains and stations of the Pennsylvania system. Train "news butchers" and news agents at stations all along the line today received the same orders from the company, which owns the privileges on the Pennsylvania System to send in all literature of this nature at once. It is explained by railroad men here that the order is in accordance with a decision of the Pennsylvania higher officials to eliminate what they consider one of the breeders of crime in this country.

Undermining Society.

New York, June 21.—Archbishop Farley declared at Carnegie Hall last night, at the commencement exercises of the College of St. Francis Xavier, that the evils of divorce were fast undermining the walls of our society and that the whole structure of society would shortly collapse should no hand be raised to ward off the advance of this tendency. The Archbishop said in part:

"A continuance of the evil of divorce, of the slighting regard for the marriage, must shortly lead to the downfall of society—nay, even now it is falling and must soon be dragged in the dust. We see that it is going to pieces.

"President Roosevelt, who holds in his hands the trust imposed by the people of the United States and who wields an authority in no mistaken manner has openly announced how he deplors the awful condition of society in this regard.

"I believe no president since Washington has made a more beneficial effect on the roots of society and the family than Roosevelt has by means of his frank declaration. Not only does the president preach the doctrine he believes but he exemplifies it in his own life and his own family stands as an illustration of what the nation's executive thinks and says of the race standards.

Had Fish for Breakfast.

The U. S. Coal company had surveyors making estimates of the coal field between the Baker shaft, now their property, and the Blackwell company's field, a few days ago.

One morning last week, while the surveyors were eating breakfast, at a fashionable hour, the representative of the Blackwell Coal company purchased the coal right of Wm. Muir, thus holding the key that unlocks the whole field, and the surveyors seeing this soon knew they were put out of a job around Clay.

The Death Shot.

A golden oriole built its nest up in one of our neighboring elms. During all the days of the lovely month just gone it cheered its neighbors, the busy farmers, with its songs of hope and gladness. One day, among the last of the speeding month, three or four boys, one of them carrying a glistening new rifle, passed up the road. As the boys neared the elm a shot rang out. One of the neighbors, ever on the alert to protect the musicians of the trees, ran out. The boys were going gaily up the shaded road, happy in their own life and freedom, but there in the dust of the highway, her bright feathers bruised and soiled by her death struggles, lay our oriole. The helpless birdlings, swinging on the slender twig, far beyond the reach of the sorrowing neighbors, twittered their young lives out calling for the mother that never came back. And yet we expend our time and means in sending missionaries to the "heathen" beyond the seas.—Ex.

Survivor's Story of the Wreck.

New York, June 23.—Mr. C. E. Pritchard, of Chicago, who arrived here this afternoon, speaking of the wreck at Mentor, Ohio, said:

"Not a man in the first car escaped death or serious injury. Not a man in the other cars was more than bruised. I doubt, however, if many of the poor fellows in the smoking car were absolutely burned to death. The shock and smash was enough to kill them. My friend John R. Bennett, of this city, was one of the killed, and here are bills and some papers I took from his pockets, and you see they are not so much touched by fire.

"My own escape was most fortunate. I had been talking with Bennett and we left the forward car at Cleveland to take a walk about the platform. Then we started. I imagined I would not smoke any more and went to the second car and sat down to read. Bennett must have gone back to the smoker and I never saw him again alive.

"Suddenly I felt a jar and as I had been in a wreck before, recognized it as putting on the emergency brakes. Nothing seemed wrong and there was an appreciable time before there was another bump. The car toppled over to an angle of about 30 degrees and the man sitting across the aisle fell forward onto me.

"I cannot speak too highly of the women. They never thought of themselves, but tended the injured, and done a hundred things for them no man could ever do."

Save 1-2 Your Paint Bills

By using Weir's Bavarian White Lead, the most durable and therefore the most economical lead or paint made. It has zinc in it. The zinc gives the paint a beautiful gloss and prevents the lead from destroying the LINSEED OIL WHICH IS THE LIFE OF ALL PAINT. "Pure Lead" by itself will eat and destroy the linseed oil, thus causing the paint to become porous or open and dust off. Weir's Bavarian White Lead is better and cheaper than mixed paints because one-half of every gallon of mixed paint is linseed oil for which you pay \$1.50 per gallon and get an old, stale, unsound linseed oil. Buy fresh oil from your dealer's barrel at its true value. 4 1-2 gallons linseed oil and 100 pounds of Weir's Lead will make 6 1-2 gallons best paint ready to use, that will cost you no more than other standard brands of lead and much less than mixed paint and will last twice as long as either. Write D. T. Weir White Lead Co., St. Louis, Mo., for their booklet "Facts About White Lead." Weir's Bavarian White Lead is for sale by Cochran & Pickens, Marion, Ky.

Livingston County News.

[From the Livingston Banner.]

Tuesday night little Ewart Edison Grassham Purcell, the four-year-old son of Dr. and Mrs. C. E. Purcell, died at their home on Ohio street in Paducah. He was ill several days of scarlet fever, made a bold fight for life but finally succumbed to the terrible disease after much suffering.

Little Ewart was the pride of the household and was a bright light in the home. Dr. and Mrs. Purcell being well known and very popular in this county they have the universal sympathy of the people of the county.

Dr. Fred LaRue left yesterday for his home in Smithland, after spending several days with Mr. Rid Reed and other friends here. Dr. LaRue, who has made two visits here in the last two months, has made many friends in Frankfort, who will always be glad to welcome him to the city. He will at once resume his practice at Smithland.—Frankfort Journal, 17th.

The Institute here last week is given up to be the best ever held in the county. The teachers, both new and old, were extravagant in their praise of Prof. Charles Evans, the instructor. He was at his best and talked with much feeling and earnestness on all occasions. He instructs several institutes this year, and judging his beginning here, there is a rare

Every Heart-Ache

Every pain in the breast, difficult breathing, palpitation, fluttering or dizzy spell means that your heart is straining itself in its effort to keep in motion. This is dangerous.

Some sudden strain from over-exertion or excitement will completely exhaust the nerves, or rupture the walls or arteries of the heart, and it will stop.

Relieve this terrible strain at once with Dr. Miles' Heart Cure. It invigorates and strengthens the heart nerves and muscles, stimulates the heart action, and relieves the pain and misery.

Take no chances; make your heart strong and vigorous with Dr. Miles' Heart Cure.

"I suffered terribly with heart disease. I have been treated by different physicians for my trouble without results. I went to a physician in Memphis, who claimed that I had dropsy of the heart. He put the X-ray on me, and in connection with his medicine he came near making a dash of me. Some time before this a Mr. Young, of St. Louis, was in our town. He saw my condition and recommended Dr. Miles' Heart Cure to me. I gave it little attention until my return from Memphis, when I concluded to try it, and am pleased to say three bottles cured me."

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for consumption, coughs and colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At Woods & Orme's, druggists; 50c and \$1.00, guaranteed. Trial bottle free.

Moonshiners Captured.

Princeton, Ky., June 23.—Deputy Collector W. J. Jones, of Henderson, and Deputy United States Marshal P. T. Nichols, of Owensboro, together with a posse captured Thos. Laws, Sr. and Thomas Laws Jr., 8 miles from here and lodged them in jail this morning on the charge of moonshining.

The Laws showed considerable resistance and were captured at the point of guns. The door of their residence was broken in in order to effect their capture.

Deputy Collector Jones states that the officers had had a tip on the case for several weeks.

The Laws are under indictment in the United States court for moonshining.

They will be lodged in jail at Owensboro.

Land Frauds Discovered.

Roswell, N. M., June 23.—What is declared to be a parallel to the land fraud prosecutions in Oregon and Montana has been started here by the arrest of Benjamin H. Tallmadge, of Chicago, of the C. L. Tallmadge Southwestern Land Company. Tallmadge was taken before U. S. Land Commissioner Karl Snyder and gave \$5,000 bond for his appearance.

The warrant was issued by Commissioner Snyder upon complaint of Gov. Clarkson, special agent for the government, who has been working in this district for several months.

It is reliably reported that this is but the first of many prosecutions that are to be brought for alleged frauds in land entries and deals in this part of New Mexico. It is further stated that thousands of acres of land in the rich artesian belt of New Mexico, has been secured by fraudulent land entries. This land, unimproved, sells at from \$20 to \$30 per acre. All of these cases are under investigation.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Future of Loomis Uncertain.

New York, June 22.—A Washington dispatch to the Herald is as follows:

It is certain that Francis B. Loomis, who has been exonerated of charges against his official integrity, but criticised by Secretary Taft for indiscretion in personal business ventures, when Minister to Venezuela, will not much longer actively serve as Assistant Secretary of State, the post he has had for more than two years. He has already planned to go to Europe for a portion of the two months leave to which he is entitled. He has gained passage on the Philadelphia, sailing from New York Saturday and plans to leave then.

President Roosevelt many weeks ago, decided to make Mr. Loyd C. Griscom, now American Minister to Japan, Assistant Secretary of State, and had thought of sending Mr. Loomis to fill the resultant vacancy at Tokyo.

PEACE CONFABS HELD

Earnest Efforts Made to Bring About a Settlement of Chicago Strike.

ALL ATTEMPTS UTTERLY FAILED

Federation of Labor Indorses Suspension and Requests the Presence of President Roosevelt—Developments of the Day.

Chicago, May 1.—Believing the fight now going on for supremacy between the Employers' association of Chicago and the union teamsters is to be a protracted one, the business men of the city took advantage of the suspension of regular business Sunday to procure an extra supply of material and supplies. Every available team and even one-horse vehicles were brought into use for the purpose of replenishing coal bins and to obtain other material necessary to the transaction of business.

While all these preparations were going on for an emergency, efforts were being made in Mayor Dunne's office at the city hall to bring about a peaceable adjustment of the teamsters' strike. A committee representing the Employers' association met a peace commission consisting of Bishop C. P. Anderson of the Episcopal church, Jenkin Lloyd Jones of All Souls church, Dr. Emil G. Hirsch of Sinai temple, Miss Jane Addams of Hull House and Dr. Cornelia De Bey of Neighborhood House. At the end of this conference a committee representing the unions met the citizens' committee and went over the entire strike situation in an effort to devise some means to bring about a peaceable ending of the controversy. The Chicago Federation of Labor was also busy considering the strike situation, but no action was taken to spread the strike to the affiliated unions. Believing that the teamsters are justified in the fight they are making, the federation passed the following resolution: "Resolved, that we request President Roosevelt, Governor Deneen and Mayor Dunne to investigate the existing conditions in Chicago before complying with any request for United States militia in the city during the present difficulty; and be it further resolved, that the president of this organization be instructed to appoint a committee to lay the facts before President Roosevelt, Governor Deneen and Mayor Dunne, and take such other steps as may be necessary to give effect to these resolutions."

The conferences in Mayor Dunne's office lasted six hours, and the peace commission appointed by the mayor failed utterly in its efforts to bring about a settlement of the strike. The plan for an armistice of 48 hours was rejected by both sides early in the conference, as was also an offer later made by the representatives of labor men, who asked that a committee of five citizens be appointed to arbitrate the matter.

A mob of 500 men and boys, headed by a number of striking teamsters, raided the main stables of the Employers' Teaming company and stamped the animals. This was a violation of the federal injunction issued by Judge Kohlsaat. The names of the union men involved, it is said, have been secured. The federal jury has returned indictments against the strikers arrested Friday.

Killed Five Bears.

Glenwood Springs, Colo., April 26.—President Roosevelt's hunting trip has been crowned with success far beyond his expectations or those of the most sanguine of his guides. Three bears were killed by the party Tuesday and two Monday, one by the president and one by Dr. Lambert. P. B. Stewart of Colorado Springs, one of the president's hunting companions, has arrived here accompanied by Courier Chapman. They brought the story of the hunt. The killing of the three bears was telephoned to them, and they understood that President Roosevelt brought down two of them.

Fatal Wreck.

Greenville, S. C., May 1.—Four killed and 11 injured, besides others bruised, is the fate of the Ogden educational party, whose special train was wrecked while entering the Southern railway yards here. The wreck was caused by a collision with a switch engine. The engine of the special and several cars were derailed and the baggage and dining cars telescoped and set on fire. The excursion has been abandoned. The list of dead follows: Charles M. Coope, flagman; J. Little, W. W. Cummings and J. F. Haynes, negro employees of dining car.

General Linevitch Talks.

Gunshu Pass, Manchuria, April 29.—General Linevitch granted an interview at his headquarters here, in the course of which he expressed himself as highly satisfied with the present condition of the Russian army and its readiness to assume the offensive. He manifested emphatic regret for the retirement from Mukden. The new commander-in-chief said that the peril to the army at that juncture was overestimated, and that the day was far from being lost when the retreat was ordered.

Saw the Russian Fleet.

Hongkong, May 1.—The steamer Stettin sighted from 30 to 40 vessels of the Russian second Pacific squadron in Honkoku bay, Anam, about 50 miles north of Kamranh bay, Thursday afternoon. The cruisers, which had their decks stacked with coal, signalled the Stettin to stop and questioned her. The fleet was preparing for sea.

OFFICIALS ARRESTED.

Charged With Extorting Money in Performance of Their Duty.

Pottsville, Pa., April 26.—The Taxpayers' association of Schuylkill county created a sensation here by causing the arrest of members of the school board, the entire borough police force and a justice of the peace, all of Shenandoah, charging them with extorting money in the performance of their duties. All waived a hearing and entered bail. Specific charges are made against school directors Joseph Bierstein, Jacob Noll and David Fleet, charging them with demanding \$300 from a widow for the appointment of her daughter to a school, and with having demanded and taken \$225 from Miss Hand for an appointment to the same position. Justice of the Peace W. H. Shoemaker is charged with felony and with conspiring with policemen to run up illegal bills of costs for cases settled at his office. Chief of Police John Frye and four patrolmen are charged with conspiracy and malfeasance in office.

Bradstreet on Trade.

New York, April 29.—Bradstreet's says: Irregularity still characterizes distributive trade, while industry is active and outdoor construction is of unprecedented volume. The weather has been rather too cool for the best of crop preparation or germination. Labor is well employed, and with the one conspicuous exception of Chicago, where the teamsters' strike affects trade and shipments, disputes are below the average for May 1. Prices of many staples have been weak and unsettled, and cereals, cotton, some kinds of pig iron, copper and country produce have moved lower. Railway earnings are good, and bank clearings this week heavily exceed a year ago. Collections generally are rather tardy, especially at the south. Crop conditions, though the season is backward, promise well as regards the cereals. A heavy wheat yield is in prospect.

Carnegie's Latest.

New York, April 28.—A gift of \$10,000,000 by Andrew Carnegie to provide annuities for college professors who are not able to continue in active service was announced by Frank A. Vanderlip, vice president of the National City bank of New York. Professors of the United States, Canada and Newfoundland will share in the distribution in the income of the fund. The United States Steel corporation 5 per cent first mortgage bonds for \$10,000,000 have been transferred to a board of trustees, and steps will be taken at once to organize a corporation to receive the donation.

Bank President's Confession.

Milwaukee, April 25.—Federal officials arrested Frank G. Bigelow, the deposed president of the First National bank of Milwaukee, on the charge of embezzlement. The arrest followed Bigelow's confession to the board of directors of the bank that he was a defaulter to the extent of \$1,450,000. Following Mr. Bigelow's confession, he was removed from the presidency of the bank and the facts in the case were laid before the federal authorities here without delay.

Hanged For Assault.

Americus, Ga., April 28.—Tobe Thornton, the negro who criminally assaulted Miss Margaret Dymukes, a maiden lady, near Preston, Webster county, 15 months ago, was hanged at Preston. The execution was witnessed only by officials and a few spectators. Thornton's victim was bereft of reason as a result of his crime and has since been confined in the lunatic asylum.

Nose Grafted On.

Philadelphia, April 26.—A most interesting and delicate operation was performed by Dr. Stillwell Burns on Thomas Dunleavy of North Adams. As the result Dunleavy has a new nose. It was fashioned out of the flesh and skin taken from his own arm and grafted onto his face. He will remain in the hospital until the appendage has grown firmly.

Schwab Gets Contract.

St. Petersburg, April 27.—Complete success has crowned the visit of Charles M. Schwab to St. Petersburg. Mr. Schwab's negotiations with the Russian admiralty have resulted in the practical conclusion of an arrangement for the construction in America of a number of formidable battleships of a type which probably will startle the world.

Double Tragedy.

Hot Springs, Ark., April 28.—A probable murder followed by suicide occurred in a rooming house here when W. H. Wilder of Kansas City, Mo., is alleged to have shot his wife, the ball entering near the left eye and penetrating the brain. After the shooting Wilder blew out his own brains. Mrs. Wilder can not survive.

Bowen Recalled.

Caracas, May 1.—American Minister Herbert W. Bowen has been recalled to Washington, and will leave Caracas during the day. Mr. Bowen has been summoned for explanations regarding charges which he has made against Assistant Secretary of State Loomis, who was his predecessor as American minister to Caracas.

Thirteen Miners Entombed.

Wilburton, Okla., May 1.—Thirteen miners were entombed and probably killed by an explosion in the Missouri, Kansas and Texas coal company's mine No. 19, four miles west of here. There is little prospect of their bodies being recovered for several days.

Ships Captured by Russians.

Saigon, Cochinchina, April 26.—Two ships loaded with rice for Saigon and bound for Japan have been captured by ships belonging to the Russian squadron.

DYCUSBURG.

Hon. Eugene Graves, of Paducah, accompanied by his sister, Miss Cora, went to St. Vincent last week where their niece, Miss Lillian Graves, was graduated with the highest honors of her class. He extended his visit to Dycusburg several days after their return.

Dycusburg was favored last week by Prof. W. T. Aydelott's very fine show. His moving pictures are decidedly the best that have ever been exhibited here. Prof. Aydelott, who is a graduate of several Southern colleges, including Vanderbilt University, was formerly a leading educator in Kentucky and Tennessee. His desertion of the ranks of teachers is regretted by those interested in the schools; but his shows are giving pleasure to a great number of people. Our town was certainly captivated with his show and wishes him good fortune wherever he goes, and trusts that he will again favor us with his exquisite views.

Plain Clothes Man.

In a small South American state which had recently undergone a change of administration the new potentate summoned an artist and ordered new designs for all the official uniforms.

"I wish showy costumes—very showy," he said, "for the people are impressed by them. I have here some sketches that I myself have made. Look them over and be guided by these ideas as far as possible."

The artist examined the sketches carefully. "This," he said, turning the pages, "is evidently for the navy and this for the army, but, if you please, what is this—a long plume on a three cornered hat, yellow dress coat trimmed with purple, and?"

"That," replied the chief of state gravely, "is for the secret police."

Be Kind Today.

Less spent on the dead and more spent on the living would bring about many happy results. Hearts are breaking, loved ones wait and tears flow all because of the withholding of kind words unspoken and letters never sent. The aged father and mother far off in the country would often be cheered did the son or daughter more frequently send them a letter. Behold the sad mistakes of others, their remorse, and profit by the same before it is too late. Today, now, speak the loving word, send the tender message, write the letter you put off day by day, and don't wait until you forget it or until bitter memories haunt you.

A Brazilian Household Pet.

Brazilians train a snake called the ghibola as a rat catcher. It is fifteen feet long, is harmless to the human being, becomes quite a household pet, is lazy in the daytime, but at night roams about the house in quest of its prey—rats. These animals it promptly kills by twisting their necks. When Brazilians have to pass from room to room in the dark they first put on their slippers. It would not be pleasant to plant one's bare feet on a cold slimy snake of that size.

Weak Human Nature.

From many selections from Marcus Aurelius we choose this as showing his keen insight into this weak human nature of ours: "I have often wondered how it is that every man loves himself more than all the rest of men, but yet sets less value on his own opinion of himself than on the opinion of others."

A Luxury.

"But," objected the heiress, "I have been accustomed to every luxury." "That's all the more reason why you should marry me," replied the impecunious suitor. "I'm a luxury myself."—Philadelphia Record.
