THE SOLUTION OF THE GOOD ROADS PROBLEM

The Spilt-Log Drag is the implementation that is revolutionizing the road mending of America.

NEW AND BETTER SYSTEM OF ROAD WORKING SUGGESTED

The Criftendon Record will continue to arm the Gospel of Good Roads mending. It requests to be on hand for the next occurrence of the movement.

The road mending branches of the various states have been informed that the Spilt-Log Drag is the system that is being adopted by the communities for mending the roads. The Drag is a simple and effective machine that can be used on any kind of road, and it will save labor and money in the process of mending.

To the Editor:

The Spilt-Log Drag is the system that is being adopted by the communities for mending the roads. The Drag is a simple and effective machine that can be used on any kind of road, and it will save labor and money in the process of mending.

S. W. Wilson, Editor.

MIGHTY WAS THE THRONG

That assembled to celebrate the Fourth of July.

It was a merry multitude.

That swarmed the hills and holmwoods about Crittenden Springs from dawn till late at night.

MANY PAST-TIMES AND AMUSEMENTS

The Fourth of July at Crittenden Springs was a gala day. The activities included games for all ages, a flag parade, a picnic, and a grand fireworks display. The day was filled with fun and excitement for everyone.

REUNION OF THE DAVISON FAMILY

A delightful day is spent by This interesting family.

The Davison family reunion was a celebratory event that brought together family members from far and near. The day was filled with laughter, stories, and cherished memories of the past. The reunion was a beautiful reminder of the importance of family and the joy of spending time together.

The following is a letter from Miss Cassie Davison to her sister Mary.

DEAR SISTER MARY,

I hope this letter finds you well. I am writing to you today to share with you the news of our family reunion. It was a wonderful day, filled with laughter, stories, and cherished memories of the past. The reunion was a beautiful reminder of the importance of family and the joy of spending time together.

Sincerely,

Miss Cassie Davison

The letter was written in a beautiful cursive script, filled with love and warmth. It was a beautiful reminder of the importance of family and the joy of spending time together.

The letter was a beautiful reminder of the importance of family and the joy of spending time together. It was a beautiful way to celebrate the Fourth of July and the love and bonds that our family shares.
MONEY FOR YOU!

We will on Monday, July 10th, 1905,
Begin Another Great Bargain and
Clearance Sale!

LASTING THE BALANCE OF THIS MONTH.

You remember the Great Bargains we gave you in April. The Bargains we will offer you in this sale are better still and more of them. We have been years and years learning how to find these good things for you. We are not afraid to quote you prices for we know that they are right.

LOOK AT THESE PRICES!

- A 30 cent 3 second bonds for 50 cents
- A 12½ inch story piece for 25 cents
- A Turkish hand piece for only 10 cents
- A 4 unguaranteed basket any 25 cents
- A 5 cent coffee per only 3 cents
- A big size wash bath for only 25 cents
- Extensive selection of favor sheets for
- Ladies' Oxford box 5 cents
- Men's shoe caps 5 cents
- Talcum Powder, good quality, for 3 cents
- 4 part dice, 25 cents
- Men's socks, a good size, for 1 cent
- Box paper and envelopes, 25 envelopes and 24 sheets paper for 3 cents
- Fancy felt sketch 15 cents
- A dozen April sale 10 cents
- Men's white vests 9 cents
- All wool or black hand sewn suits, worth $10.00 for only $7.50

Please do not ask us to sell you these goods on a credit. There is not another firm in this section of the country that will dare to advertise prices like we do. Why not? Because they want and get higher prices than we do.

We handle the Celebrated Brown's Star 5 Star Shoes. The only line of shoes in the world receiving a double Grand Prize at the St. Louis World's Fair. Why experiment with other shoes, when this line of shoes has been sold by us for more than seven years to the entire satisfaction of all who have worn them. Many have worn a single pair of these from three to four years. Ask Bob Danielson and we could name many others, but he is rough on shoes. We have a man's Brown's Shoe for $1.00 that is an eye-opener, and bargains in all line of shoes.

GREAT BARGAINS IN ALL LINES CARRIED BY US. It requires your "minerva" to advertise prices. But we know that our prices are right and our "minerva" is perfectly steady. Ask those who tried our April Bargains about our bargains. We can and will save you money if you will let us. Try us and be convinced that we sell better goods for less money than any other concern within your reach. Don't fall in early and get choice of the good things.

Syrup Pepin

PETER SYRUP CO., Eastpointe, Ill.

In the Germanlanguage, he continued, "the same sound is made by the combination of the vocal organs when they are employed to articulate the word 'vater.'" He then turned to me and said, "now let me show you how to make the word 'water.'" He put his hand on me and said, "take this word and make it longer and louder. It will then sound like 'wasser.'" He showed me how to move my tongue and lips to produce the sound of 'wasser.' I tried to copy him, but I found it difficult. He laughed and said, "you must practice a great deal to master this sound." He then explained the importance of the vocal organs in producing clear and distinct speech. He demonstrated how the tongue, lips, and palate work together to produce different sounds. He said, "the English language contains many sounds that are not found in other languages. Therefore, it is important to practice making these sounds accurately." He then asked me if I wanted to learn more about phonetics. I said yes, and he continued to show me different sounds and how to produce them. He also explained the role of the vocal organs in producing different emotions, such as anger or joy. He said, "the vocal organs are capable of producing a wide range of sounds, which can convey different emotions." His explanation was fascinating, and I enjoyed learning about the science of speech.
