Lingerie Hates

The modern lingerie-hater is one who has not only the defects of the old-fashioned corset, but the defects of the modern variety. From the point of view of comfort and health, lingerie is a disaster. Many of its most popular types are made of materials that irritate the skin and cause itching and other dermatological problems. The American Medical Association has warned against the use of some types of lingerie as they can lead to infections and other health problems. It is recommended to choose lingerie made from natural materials such as cotton or silk and to avoid using synthetic materials that can cause skin irritation.
