RESIDENCES BEING

Contractor J. S. Braswell is pushing the work on the two-story frame residence of Dr. A. J. Driskill, which is being built on Gum street in the Blackburn-Weldon sub-division of the the ten-room structur, and it will be built in the most substantial manner. The rafters and storm sheeting will be put colored dress. on this week. This house will stand on a solid brick foundation, and the fact The Keystone people, who, after a that every frame building should stand between \$44 and \$48 per ton of 60 per patient search of two years, struck the on a solid stone, concrete or brick foun-Ada-Florence vein, say their motto is: dation should be emphasized. The year coming during this week, has so "200 feet or bust." Also that this reader may not be aware of it, but this heavily charged the ground with water motto is of an expansive nature, and point is always considered by insurance it. that an additional number of mines will can be changed to a greater depth, if companies, who usually carry frame I simply say: from outputting for several weeks, the quality of ore continues to im- residences which stand on such foundations for from ten to twenty per cent,

> J. M. Freeman has begun work on his two-story brick residence to be erected on West Depot Street. Mr. Freeman owns, perhaps, a lot on the best elevation on this street, and when this building is completed he will have a valuable piece of property.

Work on the various buildings in course of construction is progressing rapidly and every resident of our new little town will have just cause to be proud of it when fully completed and business shall have been resumed under normal conditions. Many of the buildings are nearing completion and one or two are already being occupied. A great many are being built on a much larger and more convenient scale than before.

Mr. Smallmeir, the bricklayer for Contractors Boston & Paris, is pushing the brick work on the S. M. Jenkins office building on Bank street. He and his force have completed the brick tracts on brick work in Marion will be amply rewarded. R. L. SUTTON, fulfilled with credit.

A. C. Melton began laying the brick front on the Yandell & Orme hotel on Bank street this week. It will be a very handsome building, being a red select brick front laid in white mortar. Mr. Melton has already completed the brick work on five spacious buildings on Main street and on the pretty residence of County Clerk C. E. Weldon on Gum street and it is needless to Taking add that he will very soon complete the job he is now on.

> E. C. Jurgenmier and his crew will finish the brick work on the Marion Bank building this week and will then resume the brick work on the post office building, provided the long delayed timbers for which they have been waiting arrives by the last of the week, but, if not, they will turn The in again on the Masonic building. The carpenters are doing considerable inside work on the Marion Bank building and it will be finished very soon.

Boston & Paris are having the work BUILT done on the floors and ceilings in the WILL three big buildings just in front of Farmers Bank on Main street.

> These and many more are being pushed forward rapidly. When all buildings are finished and occupied, and quiet and order is once more restored, every Marionite 'should feel proud of his home town. It will be indeed a "City Beautiful," in its new, vari-

> > What and Who We Are.

I have been asked by a goodly number of my friends what my platform is built out of and who it is standing on Now, to state it in plain English,

True American principles fill my veins, freedom in the true sense of the word, less than where foundations are merely broad in our views, honest in our work, peaceful in our home, liberal in our contributions, charitable to all men of prayer and men who want to be gov-

erned by the Golden Rule. If we can get these principles instilled into men's hearts and lives, we will not need any jails or jailers; neither will we have any distilleries, saloons, blind tigers or police courts, and the "nine seventy-five" would go to get bread and clothing for women and hungry children. All of these expensive things would be done away with. We would have plenty of money to send the gospel into the home and to every

We seek to secure the nomination of good men to fill our offices, men who will work for the peace and welfare of the county, who will run our party lines with as much ease of conscience as a slide over snow.

In short, all men who belong to any orthodox church teach this. Now, before God and the church he joined, for The brick residence of County Clerk a man to go back on his vow is sin and C. E. THE HISTORY OF A ZINC MINE

Good Reading for Mine Brokers, Practical Mine Owners and Company Promoters.

A Paducah lawyer a year or so ago was in Crittenden county, Ky. on business and in walking across a tract of land fell over zine carbonate sticking out of the ground-which resulted in his hunting up the owner and securing a 40 year lease. On his return to Paducah he formed a company of merchants and claim robbery and self defense. When professional men to develop it. The first amount subscribed was \$5000,00; from young White's clothing was searched the start it has been mineral. In sinking two shafts, one 63 feet deep and one the five dollars were found in his hip 45 feet deep, 400 tons of ore has been taken out and now lies on the dumpcarbonate of zinc, lead and jack. Then came a difference of opinion about how to run it, and they found that mining was a business in itself.

Now to settle the partnership this great find is for sale at a price which in the circuit court, and thereby have about makes them even and in no way the real value of this bonanza-with 220 caused a certain class of criminals to be acres selected mineral rights (in fee.) This great property has been investigated by the U. S. Gov. Geological

Survey and special mention is made of it in their printed report. Being a stockholder it is put in my hands for sale.

All questions cheerfully answered. Commission Paid to Brokers.

CHARLES FURGUSON, · Com. H. C. McCord, W. R. KING,

Interesting Letter.

Mr. Editor:-

The sixty year old letter that you published last week was very interesting. It will occur to the mind of but few persons that it was written before our war with Mexico.

William Hale married Elizabeth Manahan in South Carolina. They were of Scotch-Irish descent and, after their marriage went to Virginia. From Virginia they came to Kentucky and settled on what is now known as the old Dowell farm seven miles east of this place. This was just about one hundred years ago. They carried my mother, then a babe, across the Blue Ridge on a pack horse. My mother was their oldest child and only daughter. They had three sons, one of which died in youth. Thomas, the oldest son, was a minister of the Gospel. Stephen Fowler, the youngest child, and author of the letter, graduated at Cumberland College, then a great institution of learning at Princeton, Caldwell county, Ky. Richard Beard was his teacher in Latin, Greek and Hebrew. After his graduation he determined to go to Alabama, then a new country, and considered in those days to be a great place for young men to start in business. My grandfather gave him a pendent Democrats of Livingston horse, saddle and bridle with the ubiquitous saddle, bags of those days and fifty dollars in money, and said: able to do for you, therefore, be honest and industrious and you will succeed. Good bye."

Then, Steve was gone on his long and perilous journey. He sold his horse, saddle and bridle, but not the saddle bags-they were his wardrobe. He went to work and taught a school, at the same time putting in all of the spare time he had reading law books. He returned to Kentucky and graduated at the law school in Lexington, went back to Eutaw, Alabama, and engaged in his profession and soon had a lucrative law practice.

About this time he married Mary Kirksey, the daughter of a wealthy planter and a year or two after this our war with Mexico came on and he raised a company of Alabama volunteers for the invasion of Mexico, under General Taylor. He was captain of this company. He participated in nearly all the great battles of this war and saw the famous Mexican, General Santa Anna, and was on the battle field when that general lost his wooden leg. He and his brave Alabamians helped to raise the stars and stripes at the capitol of the ancient Monte-

The Mexican war over, he returned home and engaged in his profession and was soon famous as an orator, statesman and jurist.

When the great civil war broke out, the state of Alabama appointed him commissioner to confer with the governor of Kentucky to ascertain, if possible, what part that state would take in the impending struggle.

My uncle, prior to this time, was a Henry Clay Whig. After this, he raised a regiment of Alabamians and entered the service of the confederacy as colonel of his regiment. He was sent to Virginia and engaged in all the great battles around Richmond in the early part of the war. His name had just been sent up with a recommendation that he be promoted to brigadier general when the great battles of Fair Oaks and Seven Pines came on. As he went into the fight he said: "Come on, my brave Alabamians, and the day is ours." When the struggle of that fateful day was ended and the smoke of battle had blown away, Col. Hale was among the dead.

His wife died of yellow fever about

CHAPTER IX.

THE fifth summer was passing uttered. since we came down Paradise road-the dog, Uncle Eb and I. Times innumerable I had heard my good old friend tell the story of our coming west until its every incident was familiar to me as the alphabet. Else I fear my youthful memory would have served me poorly for a chronicle of my childhood so exact and so extended as this I have written. Uncle Eb's hair was white now, and the voices of the swift and the panther had grown mild and tremulous and unsatisfactory and even absurd. Time had tamed the monsters of that imaginary wilderness, and I had begun to lose my respect for them. But one fear had remained with me as I grew older -the fear of the night man. Every boy and girl in the valley trembled at had held awake in the late evening to mourning I have never seen equaled in hear the men talk of him before they any other form of dissipation. went asleep-Uncle Eb and Tip Taylor. ful mystery.

"Drownded!" "How ?"

gaping. "Went away off round the together behind a pile of books, both world, an' they got a letter that said he looking very serious. The long hair was drownded on his way to Van Dieman's Land." "To Van Dieman's Land!"

"Yes, an' some say the night man is the ghost o' the one he killed."

I remember waking that night and hearing excited whispers at the window near my bed. It was very dark in the room, and at first I could not tell who was there.

"Don't you see him?" Tip whispered. "Where?" I heard Uncle Eb ask. "Under the pine trees. See him

An Atlas For \$1.00.

The Great Northern Railway has issued an atlas of 56 pages containing up to date maps of Iowa, Wisconsin, Minnesota, North and South Dakota, Montana, Idaho. Washington, British Columbia, Oregon, Kansas Missouri, Nebraska, Wyoming, Colorado, Alaska, Hawaii, Japan, Philippine Islands, China, the United States and of the

In addition to this, the atlas contains valuable statistical information relative to the States named above, is printed shows the lines of the Great Northern Railway, and is in every way a commendable work.

This atlas will be distributed at the actual cost of production and will be Metz & Sedberry's barber shop, now sent to any address upon receipt of in the Pierce building, up stairs, last \$1.00. Address F, I. Whitney, Passendoor, will soon remove to the new build- ger Traffic Manager, Great Northern Railway, St. Paul, Minn.

Ann Jane Foster, known as "Scooter" Jane," for her rapid walk and stiff carriage, met us at the corners on her way to the schoolhouse. "Big turnout, I guess," said she, "Jed-Feary an' Squire Town is comin' over from Jingleville an' all the big guns 'll be there, I love t' hear Jed Feary speak. He's so techin'." Ann Jane was always looking around for some event likely to touch her feelings. She went to every funeral in Faraway, and when sorrow was scarce in her own vicinity journeyed far in

"Wouldn't wonder 'f the fur flew when they git t' goin'," she remarked, and then hurried on, her head erect, her body motionless, her legs flying. Such the mention of him. Many a time I energy as she gave to the pursuit of

It would ill become me to try to repeat the words of this venerable seer. but he showed that intemperance was an individual sin, while war was a national evil. That one meant often the ruln of a race, the other the ruln of a family; that one was as the ocean, the other as a single drop in its waters. And he told us of the fall of empires and the millions that had suffered the oppression of the conqueror and perished by the sword of Agamemnon.

After the debate a young lady read a literary paper full of clumsy wit, rude chronicles of the countryside, essays on "Spring" and like topics-the work of the best talent of Faraway. Then came the decision, after which the meeting adjourned.

At the door some boys tried "to cut me out." I came through the noisy crowd, however, with Hope on my acta and my heart full of a great happiness. "Did you like it?" she asked. "Very much," I answered.

"What did you enjoy most?"

"Your company," I said, with a fine nir of gallantry. "Honestly?"

ck Silk Muslin With Sprays of oses and Leaves-Black and White tamine Over a Cerise Transpareny-Purple Linen Is New.

Irish lace boleros are the smartest ngs to wear with skirts of butcher's handkerchief linen. The new bolero a gypsy jacket cut in one piece or tted under the arms. As Irish lace expensive, attractive little boleros allt on the new lines are made of ifferent laces and embroideries deftly out together on the same jacket.

Dotted swisses are always favorites or odd shirt waists. The all white is

possibly the daintiest, although there are several attractive floral designs. One pretty pattern has a white ground dotted with black and sprinkled over with lavender orchids. Another has alternate dots of black and green. This swiss makes lovely whole gowns made up over green lawn or china silk. It costs \$1.25 a yard and is called St.

Chinese shoes that are tiny enough for the average baby are made into trimming. canning little receptacles for holding

There is a new shade very popular this summer called "Alice blue." It is a very pale, almost faded, gray blue. This color disports itself in ribbons, flowers and silks,

The dainty frock pictured is of yellow batiste. The full skirt has about the bottom three fitted flounces of batiste overlaid with fine white embroidery. A bertha of embroidery, ruffling and insertion trims the bodice, which is fastened with choux of mauve taffeta, which also make the folded gir-

WHAT TO WEAR

The new black silk muslin is printed in large sprays of roses and leaves in exceptionally pretty patterns.

A beautiful mauve crepe de chene gown is made with accordion plated skirt and bodice, the latter finished at throat and wrist with lingerle cuffs and collar. The hat worn with the gown s a large drawn mauve muslin affair trimmed with soft tinted pink roses.

An attractive black and white checked gown has pointings and a narrow waistcoat of crimson taffeta buttoned with tiny pearl and gilt buttons. The cuffs of finest lace are run with baby ribbon and plaited. They are worn as "toby frills" on the out-

NAINSOOK CORSET COVER.

side of the coat sleeves and jacket neck

row V shaped bands of black velvet ends in the back, completes the cospiped with white. The yoke and inner vest of white gulpure is relieved at the throat with black, white and cerise embroldery.

Purple linen is a new shade of this popular material. A gown of this color is very fashionable trimmed with old rose-a very abrupt contrast, to be sure, but most effective.

The corset cover in the cut is especially designed for wear with thin summer gowns. It is made of finest nainsock, shaped without seams, and stips on over the head. The top of the cover

is trimmed with a ruffle of valenciepnes lace, and below this are insertions of lace set closely together and pointed at the ends. A line of insertion and ruffle of lace with bretelles of ribbon finish the waist.

LINGERIE HATS.

This senson's largerie hats have con-LICE BLUE" STILL POPULAR. formed to the general style of chapeau which has turned the millinery world topsy turvy. Instead of being floppy affairs, all frills and lacy froufrou, they are comparatively stiff made on wire frames and saved from severity by narrow frills of lace that face the brim or soft plaiting that trens it.

There are stiff lingerie sailor shapes made of broderie anglaise, with a bow

same material at the side. These hats are nearer those of last year's design, but are much smaller.

The marked difference in the makeup of the new lingerie hats is the smaller size and the fact that the material is stretched across the frame plain instead of shirred or plaited.

The newest of all lingerie hats is of shaded blue or pink mull and sometimes made in both colors, the foundation in one shade and the embroidery

Stiff linen makes the crown of a lot smart lingerie bats, with sheer frills for the border. They toques on the lingerie order have their brims formed of ruffles of lace. At the back American Beauty roses are massed.

A dainty way to trim a frock of soft white silk is with a deep flounce on the skirt, adorned with a trellis work of white satin ribbon. The upward straps, about an inch in length, have white satin ribbon top and bottom.

A very simple and smart lingerie hat is shown in the illustration. It is made of sheer swiss embroidery, with a scalloped edge forming the brim. A soft bow of wide ribbon is the only

You like The Record!! Your friends would perhaps also enjoy its bright. crispy news articles, interesting serials, valuable advertising offers and other features.

Something for every member of the family is always furnished each week.

Your neighbor may become interested by just a word from you. Your effort will be appreciated by him as well as ourselves.

There are a great many names that ought to be added to our subscription list. and we believe our friends will assist in getting them there if we request it.

We do request each of our subscribers to try and add one name to our list. The contribution would be small. but in the aggregate would greatly lessen the burden imposed upon us by the recent fire.

No appeal for help has ever been made, nor is it now intended as a direct request for assistance, but we want more subscribers and we want our friends to help us get them.

The improvements which we have added, or will add in the future, will more than compensate those who aid us for their effort in our behalf.

Get your neighbor to adopt the reading habit by securing his subscription to THE RECORD.

ATTENTION, FARMERS!

The commissioner of agriculture, labor and statistics for the state of Kentucky, has advised Mr. Charles W. Fox, the correspondent from this county, that either himself or a representative of his department will be here on August 14, county court day. A farmers' institute will be organized in this county, the same as in almost every other part of the state. Everybody who can, is requested to come to Marion on that day to hear the address which will be delivered. A farmers' institute will benefit every resident in the county, whether directly or indirectly, and its organization should be by every reasonable means.

Crittenden county out of the rut of light and heat and all desire. stock raising and kindred pursuits, than occasional meetings of the farm- ing, it appears that the surest propoing classes and an exchange of ideas, sition for the consumer is to buy their Upward speed with source divine. and above all the feeling of kindred interests and mutual progression.

ed extensively, and there are some right in this community who have been Why he turned the furside inside, "all over the United States and a part Why he turned them inside outside. of Kentucky." They are more content Why he turned them outside inside. than yourselves, our untraveled readers, to adopt "Old Crittenden" as their place of abode and mecca of wealth-

things are necessary to make conditions of wealth-getting and home-making more favorable, and chief among these conditions is organization and concentration of effort. The spread of knowledge concerning the natural resources of the county and the proper efforts for their most rapid and favorable development, is a pre-requisite to successful farming, stock and fruit raising, "roadworking, and, in fact, every condition in life which promotes greater contentment and real happiness.

Organize, educate, concentrate, develop the natural advantages around you aud Crittenden county can be made a garden spot and the natural abode of health, happiness and contentment of its inhabitants, both present and prospective.

Don't go rainbow-chasing, stay here

and invite your friends to come. Let the commissioner of agriculture show you a few things you don't know, and put you on the right track to progress most rapidly, to the ideal condition you have in mind, but have not determined just where or how to find it.

MARION CAN DO IT.

accomplished, is good food for reflection for the citizens of Marion: "Elizabethtown, capital of Hardin

county, is a model city. No need of Mayor Dunne sending to Glasgow for experts. A visit to Elizabethtown would tell him more in practical, successful civic government than any European expert. No need of Louisville's civic reformers looking to Philadelphia, Milwaukee or Minneapolis to learn how to do things in municipal good government. Elizabethtown is here to teach them. The beautiful metropolis of Hardin county if not large, but the same principles which, carried out faithfully, make its civic government a conspicuous triumph would, if honestly reduced to practice, do likewise for the very largest urban centers. Elizabethtown in 1895 issued bonds for waterworks amounting to \$13,500. This, added to her balance of cash on hand, enabled Elizabethtown to put in a well-equipped water plant at a total cost of \$28,000. The last one of the water bonds has been paid off, burned, and the city freed from debt. The water revenue of the city last year amounted to \$23,000. The expense of running the plant was \$18,000, leaving a balance on the right side of \$5,000, or nearly 18 per cent on the original investment. Elizabethtown has now an abundant supply of clean, healthful water for household uses. It has adequate fire protection, a diminished death rate and a lessened tax levy. Its lawns are now well watered, its trees grow more exuberantly, its flowers and shrubs more luxuriously. It is truly a city of beautiful Kentucky homes and good people. Its water system makes it one of the most desirable residence towns in the State. Well done, Elizabethtown, "-Lonisville Herald,

Resbectfully, CHARLES W. Fox.

WONDERFUL, IF TRUE.

Mr. Editor:-

Your little fandango or family love feast seems to have been considerably mixed-something in the manner of my mittens. Read and be convinced;

where and everywhere you may go, Turned them coldside skinside outside:

-Rustic.

The following card sent out by a Detroit commercial club is worth read-They will advise, however, that many ing and pasting in your hat:

"If there is any chance to boom business, boomit. Don't pull a long face and look as though you had a sour stomach. Hold up your head, smile and look for better things. Hide your little hammer and try to speak well of others, no matter how small you really know yourself to be. When a stranger drops in, jolly him and tell him this is the greatest town on earth. Don't discourage him by speaking ill of your neighbors. Lead him to believe he has at last struck a place where white people live. Don't knock. Help yourself along by becoming popular and push your friends with you. It's dead easy. Be a good fellow and soon you will have a procession of followers. No man ever helped himself by knocking other people down in character or business. No man ever got rich by trying to make other people believe he was the only man in town who knew anything. You can't climb the ladder of success by treading on other people's corns."

It is reported that Judge Cantrill The following practical illustration may resign from Kentucky Court of of what a model Kentucky town has Appeals. As a man, Judge Cantrill may possess many good qualities, but as a judge, his elevations have been due to partisan services with which his rulings in the Goebel murder trials were very much tinged.

> The Hon. Gus Straus is certainly a very accommodating gentleman. Had a thousand dollars, ready to cash the check that was given for the money that A. M. Harrison got. Mr. Straus is also bondsman for Judge James Hargis. - Sun Sentinel.

The case of Mrs. Roach and the Crenshaw brothers was continued at Dixon until the December term of court.

The Coniterous Period.

Shall Girls Work?

By Rustic.

Permit me to congratulate you, Mr. Editor, on your successs in employing female help in your composing room, and I sincerely trust that you may find congeniality and that "peace of mind that passeth understanding." There are large numbers of girls, concerning seeking journey will be "experience." Turned them warmside furside inside, whom there is but one answer to the Consult with those who have travel- That's why he turned the skinside out- question. It is the answer of necessity. They must earn their daily bread. Mothers, sisters and brothers are sometimes dependent upon them. For them a life of leisure, if it were desirable, is not possible. To many of them the daily routine of life is a weary round, yet not, perhaps, so wearying or cloying as the life of the ceaseless pleasure

If there are many girls who are compelled to work by the necessities of life, there are thousands who are not. What shall they do? There is an education which consists in learning how to be waited on, and there are girls who have learned it to perfection. It is the art of being served instead of being serviceable. The needs of the working girl and the girl of fashion are evident. The one needs opportunity for leisure; the other needs to use the opportunities which leisure brings.

The question of work for girls has been answered in various ways in different countries and ages. In ancient times women worked, like Penelope, at the loom, or were skilled, like Helen, in the arts of embroidery; and woman still clings with great tenacity and with true instinct and a wider application to the birthright of making things beautiful, which is part of her mission in the world. Under the stress and privation of colonial days our grandmothers, whether Puritan or Dutch worked and overworked with fremendous energy in the home; and there is many a farmer's wife today who works as hard as any of her Puritan, Dutch or Bohemian ancestors. But the accumulation of wealth, the increase of inventions and the multplication of servants have relieved the housewife and her daughters of a good deal of drudgery. Penelope's loom is not set up in the home, but in the factory, and Helen's needle runs more quickly in the sewing machine, though deft fingers summon it again for Christmas

In this country the question of what girls shall do has been answered in two ways: First, by extending to woman the advantages of a higher education; and secondly, by opening to her a great number of vocations which were formerly closed against her. The higher education is even becoming fashionable, but it has been established on such a solid basis that the one who acquires it is petty sure to be something more than fashionable when she gets through. The higher education would be worth but little if this were not the result.

But we, to go still further in the education of our girls. No boy is considered well prepared for the tasks of life unless he is able to earn his own living. He ought to be able to do something more, but this, at least, is felt to be incumbent upon him. With girls, education was formerly merely oruamental and in fashionable schools, which are simply meant to be schools of fashion, it is still so. We are quite of the belief, to be sure, that any woman who looks after the ways of her household and takes care of her children, earns her way in life as certainly as her husband. It is a small matter whether he raises the flour and she bakes it or she raises the flour and he bakes it. But all women can not be bread-bakers and home-makers. The reverses of fortune, too, are sometimes rapid and severe, and some of the most painful cases which have come to our notice have been those of women reared in refinement or luxury who have been brought face to face with the question, "How shall they earn their daily bread?" Sometimes a home could be saved, a family could be kept together, a small income could be pieced out if the daughter or sister had learned how to earn a little money, and then, what is quite as important, how been asked to find planes for women who needed to do something and yet knew how to do nothing which the

world really wanted done. existence, but upon the relation of to see if it is hurt much. work to life and character. More and The house fly is a very tasty fellow. political reform, need women for their waking the baby from her afternoon herself to work mainly for the sake of those who want to sleep late of a The bids are now being tabulated reward for her service, and society will bind feet, using his wings as a rink. the work, will get the highest and best morning. ardent and fruitful workers in the field of philanthropy, education and reform, are found among women of wealth, and the danger with some of these devoted women is that they will do too much instead of too little. Yet, if one must sacrifice herself, let it be on the altar of charity and love, not on that of fashion and ambition.

In the new dispensation of duties, the home will hold as it always has, the chief place, and women who fulfill their functions there faithfully and well, can ask no higher task nor richer reward. It is not the good housewife. nor the good mother that will be sacrificed in the advancement of women. It will rather be the butterfly that flits here and there in society with its gaudy wings, or who idles away her time over novels and frivolities. This is the woman who can be easiest

Composition on "The Fly."

BY W. H. WALKER.

The fly is not born nor made nor hatched-he comes. He is of several classes-the horse fly, the house fly, the church fly and the dragon fly-then there are fly leaves and fly catches. The fly has two objects in life-to worry people and to have a good time. If he biliousness, to Dr. King's New Life succeeds in the former he never fails Pills. He says: "They are a perfect

THE SUNDAY SCHOOL.

LESSON VI. THIRD QUARTER, INTER-NATIONAL SERIES, AUG. 6.

Text of the Lesson, II Chron. xxxiv,

[Copyright, 1905, by American Press Association.] In the conflict of the ages recorded in the Scriptures between God and the and for whom God works and those who stand with the devil against God. And so it shall go on until the great conflict of which we read in Rev. xix, 19-21, when the enemy shall be overthrown and the leader shut up in the bottomless pit for a thousand years and the earth shall enjoy a reign of

righteousness and peace. Josiah was one of the few who did right in the sight of the Lord and realized a fulfillment of II Chron. xvl, 9. He was one of seven in the Scriptures who were named before their birth by Him who knoweth all things and declareth the end from the beginning. Nearly 300 years before his birth he was named by God as one who on certain altars would burn men's bones, and he did. Compare I Kings xill, 2, and II Kings xxiii, 16. Hezekiah excelled all others in the matter of "trusting in the Lord," but Josiah excelled in "turning to the Lord" (II Kings xvill, 5; xxiii, 25). To do right in the sight of the Lord without turning to the right hand or to the left and to please Him in all things is an attainment to which only one perfectly reached, but by His grace all believers might come much nearer to it if they desired it as much as Elisha desired that which he sought through Elijab the day that they were parted by a whirlwind.

Josiah began by getting himself right with God, for in his sixteenth year be sought the God of David, his father, evidently with the whole heartedness of Jer. xxix, 13. Paul's advice to Timothy was to first take heed to himself (I Tim. iv. 16), and our Lord taught us that if we would get the motes out of other people's eyes we must first get the beam out of our own eye (Matt. vil. 5). The first thing for each individual is a right relationship to God, and this can be obtained only by receiving His Son, the Lord Jesus Christ, and in Him the forgiveness of all our sins and a righteousness which makes us accepted in Him and gives us the standing of children and heirs of God and joint heirs with Jesus Christ (John i. 12; Eph. i. 6, 7; Rom. viii, 16, 17). This being established and we assured of it by the Spirit through the word, we are then as ambassadors of Christ authorized to move forward on behalf of the interests of His kingdom.

When Josiah was twenty, or in the twelfth year of his reign, he, being himself purified, began to purge Judah and Jerusalem from her idols and idolatry, doubtless remembering and obeying the Lord's words at the founding of the nation, "I am the Lord thy God; . . . thou shalt have no other gods before Me." When an individual or a nation has heard and seen Jehovah idols are no longer tolerated (Hos. xlv, S). In II Kings xxiii, 1-14, there is a more full account of the cleansing of the land, and there we learn that it was preceded by Josiah's reading to the elders and to the people all the words of the book of the covenant which was found in the house of the Lord. It is the word of God that sanctifies and cleanses (John xvii, 17; Eph. v. 26; Ps.

The burning of the bones of men upon the altars (verse 5) is more fully described in II Kings xxiii, 15-18, and when compared with the prophecy uttered nearly 300 years before, referred to earlier in this lesson, we cannot but be reminded of such words as Isa, xiv, 24; xivi, 10; Ps, xxxiii, 10, 11. To know the purpose of God, "the eternal purpose which He purposed in Christ. Jesus our Lord" (Eph. iii, 11), and to live in that purpose is the greatest of all honors conferred upon mortals, and

It is open to all. The last part of our lesson tells of Josiah's efforts to repair the temple and to undo the harm which had been done by other kings of Judah (verse 11), for though Manasseh endeavored to undo some of his great wrongdoing his. son Amon walked in his first ways and trespassed more and more (chapter xxxiii). The tabernacle first, then the temple, was the center of Israel as a nation, for there God dwelt in their midst (Ex. xxv, 8), and the neglect of God's dwelling place meant the neglect. of God Himself. Read the first chapter of Haggai and see what God thought of their neglect of His house after their return from Babylon and how He dealt with them because of it. When our Lord was on earth the temple building was in good condition, but the worship therein was hypocrisy, and they had introduced business into its courts, so that at the beginning and end of Hisministry. He cleansed the temple. The majority of people either wholly neglect God or render Him a formal worship, which is worse than none at all, for He seeketh those to worship Him who will worship Him in spirit and in truth. Believers are the temples of the Holy Spirit, mansions in which Father, Son and Spirit dwell (John xiv, 17, 23; I Cor. vi. 19, 20, and if we would know the power of God in and through us we must be willing to be undefiled by the world (Ps. exix, 1)

In verse 12 of our lesson we note that Results tell. Try the "Whitehall" then, is a faithful and wise servant?" Portland and see for yourself that it is (Matt. xxiv, 45) and I Cor. iv, 2, "It is required in stewards that a man be found faithful," It also calls to mind the warning in Jer, xivill, 10, "Cursed We ask you when you are interested be he that doeth the work of the Lord to see our line of men's pants and get deceitfully or negligently." The eyes of the Lord are ever looking for the

Millionaire's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrilbe example of the evils attendant on the possession of great wealth. But millionaires are not stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which for all stomach troubles for over thirtytorpid liver, thus creating appetite and insuring perfect digestion. It tones makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. For sale by Woods No. 2-alternate & Orme.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and looks now as if it will be only a short that is Catarrh. Hall's Catarrh Cure time until the Madisonville Traction is the only positive cure now known to Co, will begin actual work on the road the medical fraternity. Catarrh being as there seems to be nothing in the a constitutional disease, requires a conway to prevent the construction of the stitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving Billie Ruby and some of the other the patient strength by building up the urday night. Billie says he likes the doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials,

THE RURAL CORRESPONDENT

At last a good word has deen spoken for the country correspondent. The

Owensboro Messenger says: When the "country correspondent" writes that "the tire come off Bill Jones' buggy as he went to town last Saturday," he was going to realize that that item will be read with intrest in a distant city, perhaps, by some one who knew "Bill Jones" when He was a mere youth killing potato bugs on

It recalls other memories long since forgotten and for a few minutes carries. you, seemingly, from the bustle of the city, back to boyhood-back to the bay when you drove ever to the station; leaving the old folks standing in the door waiving their bandana handkerchiefs at you. You boarded the train for the city and upon reaching the metroplis you established yourself for life

You read in the next issue where "Jim Smith was around calling last Sunday . Something doin'." You knew Jim Smith's father, and that, too, recalls pleasant thoughts. It is with enthusiasm you scan the pages of the tion of the earth what a library is to by this map is the great number of issue of your home paper to see iff "Jim Smith" has married.

And yet people asks the editor why he publishes so much "stuff" from the little country towns, Every item written by the country correspondent is of intrest to some one. To those who have not visiteb their old homes for years it is like a letter. The Messenger might have added

humor, which often evokes a smile where all other humor fails. The rural writer is a very indispens-

that the correspondent also contributes

able inbividual. When to Shake Hands.

When to shake hands is a subject which depends somewhat on circumstances, yet a few general rules may be given. When a man is introduced to a woman she does not shake hands with him unless he is decidedly elderly or distinguished. If he is the husband or brother of the woman presenting him it is natural to receive him cordially by shaking hands; but it is not form to do so if he is a mere acquant-

A hostess should shake hands with every guest who comes to her house, both on their arrival and departure. Women do not shake hands when introduced to each other, but merely bow, when, however a young girl

first advance. Men shake hands when introduced to each other as an expression of good will. When paying an entertainment a man shakes hands with the hostess, and he may do so with friends who are near, dut he must not go about shak-

ing hands generaly, --- Exchange.
