WASHINGTON LETTER

From the Detroit Correspondent

James donated to the State of Michigan a very large and a very useful contribution to the State's fund. The amount donated was $1,000,000, and it is expected that this sum will be used for the support of the public schools in the State.

 Seriously, and feeling that the matter is important, I have been led to believe that the new organization will be a very good one, and that it will be of great benefit to the State and to the people of the State.

The Secret of Success.

Forty millionaires in August spent $400,000 on the United States alone for its own entertainment. The demand for amusement is increasing in every direction. The public is becoming more and more fond of amusement, and the more the public is entertained the more they will spend money.

The major of a city is a very important person. The mayor can do much for his city, and if he is wise he will do it. The mayor is the head of the city, and his word is law. He has the power to enforce the laws of the city, and he is responsible for the safety and comfort of the citizens.

A Know-Nothing party has been formed in the city of Boston. The Know-Nothing party is a political party that was formed in the United States in the 1850s. It was a party that was formed to fight against the Catholic Church and against the Irish immigrants.

THE BROWNIES HAVE ARRIVED IN MARION!

Are Germany on all the Principal Business Firms in the City—Will Remain Over Next Week—and the Rest of the Story to Be Told in Our Next Issue.

A new arrangement next was to be introduced to the business world. The Brownie Society was to be established in the City. The idea of the Brownie Society had been presented to the local business community, and it was decided to give it a try.

The Brownie Society was to be an organization of women who would work together to improve the community. The society would perform various tasks, such as cleaning up the streets, helping in hospitals, and supporting local charities.

There were many who had objections to the idea. Some thought it was too ambitious, while others thought it was unnecessary. However, the Brownie Society was determined to prove its worth.

The Brownie Society had a number of rules and regulations. Members were expected to be punctual, respectful, and hardworking. They were also expected to be willing to help others.

The Brownie Society was a success. Its members were dedicated and hardworking. They quickly became known as a force for good in the community.

The only problem was that the Brownie Society was not officially recognized by the city. This meant that they were not able to receive any official funding or support.

But the Brownie Society was not deterred. They continued to work hard, and their efforts were noticed.

The Brownie Society was eventually given official recognition by the city. This was a great moment for the organization, and it was a sign of how much the community valued their work.

The Brownie Society continued to grow and thrive. Its members were proud of their achievements, and they were determined to keep working to make the community a better place.

WINTER BLUES HAVE BROUGHT A

Change In Modes

MISS ALLERSON of the Misses Aller-
son Shoppe has been experimenting
with the latest fashions for winter wea-
ther, and her new designs are most en-
trancing. Women these days are very
particular about the quality of their
winter clothings and demand a lot of
the smaller details, such as trimmings
and accessories, which make the differ-
ence in a stylish outfit. Miss Aller-
son's designs are all very practical
and yet fashionable, and she has
included a lot of new ideas which will
be sure to create a sensation.
