The Country Plan of Farming

In the country plan of farming there is more money to be made with your farm land. Your farm land is your bread and butter. And that is the way to make your money. You need not labor for wages.

Rents on the farm where wages are paid are much more likely to be cut back than rents on the farm where you own your land.

The money that is paid for rent is a money that is spent and does not go back to the workman. You have a chance to buy your own farm land and build your own home. And that is what I want to tell you about.

The country plan of farming is the way to make your money. And that is the way to build your own home. And that is what I want to tell you about.

For several years I have studied the question of how supplies could be furnished the Farmer, Gardener, Builder and other classes of people at the least cost and lowest possible expense. I have figured out that debarring the cost and worry of keeping books, and debarring accounts that are never paid by some unfortunate individuals, but which profit on goods sold you help make up, cutting these items out I found that goods could be sold at 10 per cent less, at least, on the cash basis, and that is what we have adopted.

Are you willing to be in business with us?

And have one-half the regular profit usually made on Hardware? Then buy your goods at our store, the ONLY CASHE Hardware Store in Cranston County, and you will be convinced the profit has been divided with you, because you do not have to help pay the other fellow's account, nor the cost of keeping books. The prices will verify our statements. Come in and get our prices.

THE YOUNG MAN'S OPPORTUNITY.

Twenty years ago it would have been impossible to find a young man, who had not been educated, and who had not been to college, who would not have been satisfied to make his fortune in the city, as they usually were, in the store.

There may be a chance for you to make a fortune in the city, as they say now, but you may not.
