GENTLE CONCEAL.

Until now, for the wearer of the shirred sleeves, the only way of keeping the sleeves in place was to wear a garter to hold them in place. This was not desirable, as the garter was too tight and made the arm uncomfortable. The new method of holding the sleeves in place is very simple and very effective. The sleeves are held in place by the use of elastic bands, which are fastened to the sleeve with buttons. You Will Prosper in the Southwest

If you purchase a farm in the Southwest, we are preparing to tell you about your own country, you will see a great many things that will be of interest to you. In the South West, you will see something more than a dry land, you will see the land of the Indian, a country where the Indian will spend his last days. And you will find that the land of the Indian is as rich as the land of the white man.

There are three things necessary to a prosperous farm in the Southwest, and which, with the soil, will give you a good result. These are the climate, the water and the soil. These three things will give you a good result. Without one of these you will not get a good result.

We have no further information to add. This is all that we have to tell you about the Southwest.

Go Southwest Now

Take advantage of the opportunities in the Southwest. March 15 and 20, 1888, are the dates for the fair and the best opportunity to go to the Southwest is on the 15th or 20th of March. Go there early, and you will have a good result.
