HE CAN KEEP OUT OF JAIL

FEDERAL JUDGE GIVES OKLAHOMA MAN A CHANCE

Washington, D.C., April 20. Federal Judge William B. Bryant, of the United States District Court, has ruled that the State of Oklahoma cannot compel return of the man who was convicted of robbery in the District of Columbia. The judge has ordered that the man be released on bail pending trial in the District of Columbia.

The decision of the judge is based on the fact that the man was not tried in the District of Columbia and that the trial was conducted in Oklahoma. The judge ruled that the man had a right to a trial in the District of Columbia and that the man should be released on bail pending trial in the District of Columbia.

NARROW ESCAPE FROM PUMICE sonst

Lay in Wait for His Victim with Razor

New York, April 21. A man was arrested in New York City today for attempting to murder his former wife. The man was holding a razor and was waiting for the woman when she arrived home from work. The woman was able to escape without injury.

COBBS' NAME TO SENATE

President's Nominee William C. Curb Is Rejected

Washington, D.C., April 20. The Senate has rejected President Wilson's nomination of William C. Curb as Secretary of War. The vote on the nomination was 60 to 34.

The Senate has rejected the nomination because of the man's record as a lawyer in the District of Columbia. The Senate has been critical of the man's record and has expressed the opinion that he is not qualified for the position.

BAD FEELING EXISTS.

A group of persons in the Stoddard County Farm Bureau have been expressing doubt about a report that the cotton crop is in as bad a shape as previously believed. In this area, many farmers have been planting cotton early in the season and the results have not been good. Consequently, there is some concern about the overall crop yield.

W. S. Magazine.

T. G. Rauh are continuing to report increased interest in cotton farming. The group is working on various strategies to improve yields and ensure a better harvest. The magazine is distributed to farmers and provides valuable information on sustainable practices and market trends.

Dr. M. R. Raven.

Dr. M. R. Raven has been studying the effects of climate change on cotton production. The study involves analyzing data from various locations across the region to understand how changes in temperature and rainfall patterns could affect future yields. The results are expected to be published in the coming months.
