But it says blackmail. that it is impossible to overstate the material loss involved. Secretary Metcalf in his report to the President says that he has finished the inspection of the entire burned district and that while it will never be possible to tell exactly the number of dead, as many of the bodies were destroyed in the ruins, he thinks 300 will cover the number. There are about 1,000 injured in the hospitals of the city but of these there are only a few who are seriously hurt. The administration of the city, he says is excellent, everything considered, and the police, the militia and the regulars have worked well together. He gives full credit to Gen. Greeley and Gen, Funston for the excellent work they have done and says that but for Gen. Funston's prompt and enerhave been infinitnly worse.

Saturday was a big day in Central

Assaulted.

Negro Went in and Locked the Doors.

CAUSED MUCH INDIGNATION.

Hopkinsville, Ky., April 28.-Miss

Miss Smith came in town yesterday and swore out a warrant for the arrest of Enoch Sims, a negro living on another farm belonging to Williams in ing the same neighborhood. The girl was accompanied by Williams, who stated that the matter had been kept quiet pending a search for the negro.

The girl's story is that she was alone in the house, getting dinnner for the family in the kitchen, when Sims entered the kitchen, locked the door and by force and violence committed a criminal assault upon her. After accomplishing his purpose he left and as soon as she could do so she rang the farm bell to bring Mr. Williams to the house. She told her story to him and he with other neighbors finally located the hiding place of Sims Thursday night. Yesterday afternoon securing the warrant he left with Deputy Sheriff Jewell Smith to make the arrest. As the locality is nearly twenty miles from from town, the arrest has not been re-

Miss Smith is a poor but reputable deal of feeling, though no very great excitement seems to prevail. There is

NEW STATE CAPITOL

Will be Interesting Feature of Home Coming.

Gov. Beckham and George B. Harper, president of the Business Men's Association, of Frankfort, have decided upon the laying of the corner stone of the new State Capitol building on Sat- Guthrie, and his bondsmen. The town urday, June 16, of Home-coming Week. President Harper is in Louisville today conferring with the Executive Committee of the Home-coming Week celebration in regard to the details.

The decision to lay the corner stone during Home-coming Week adds a new and one of the most interesting features to the celebration of the return of Kentucky's sons and daughters.

It is planned to run a series of special trains from Louisville to Frankfort on Saturday morning and have the laying of the corner stone at noon. Gov. Beckham and the members of the Capitol Commission expect to invite former Govs, Simon Bolivar Buckner, Proctor Knott, Preston H. Leslie, James B. McCreary and William O. Bradley to take important parts in the exercises, and short addresses will probably be made by each. The members of the General Assembly will also be expected to have a prominent part in the cere-

induced to give up sin and turn to God. Her crown will not be a starless one.

She leaves a husband, three sons and three daughters to mourn their loss. Two sons preceded her to the sunbright clime above. She lived a true Christian life, and Aunt Mag, as she was familiarly called, will be greatly missed. I preached her funeral at the residence where she had lived so long and we laid her away in the family cemetery near by, which she had already adorned with flowers, to await the resurrection at the last day.

May the family down to the last generation so live as to meet her in Heaven. R. C. LOVE.

Rational Farming.

ing the lesson which her sister States must learn sooner or later, that the successful farmer must be educated to his calling. The latest movement of the Board of agriculture of that State is the organization of a course of lectures to be delivered in the country schoolhouses throughout the State. The time has passed when farming

was mere drudgery and the exertion of animal force. The farmer who occupies in his business about the same position as his horse, relying merely on muscular exertion, will shortly have no place in the great work of agriculture. The increase in population and the alarming decrease in the fertility of soil, resulting from bad management, are making it every year more and more necessary to use brains in the business of farm-

When agriculture is pitched upon a rational basis, when it is made a science and studied as the physician studies medicine, the minister theology and the attorney law, it will become a profitainstead of leaving the farm in search of some avocation where they can satisfy the energies and longing that are a part of youth, will in greater numbers be attracted to the soil and throw their great efforts into the work of

CONTINUED THREE DAYS. MEETING

The Ministers and Members' meeting of the Ohio River Association of the Baptist church was held with Clear Fork church at Shady Grove April 27 and continued three days. The following is an account of the proceedings:

1. After song and prayer service Rev. E. B. Blackburn, former moderator, called the body to order and proceeded with the organization. Rev. E. B. Blackburn was re-elected moderator and Rev. U. G. Hughes clerk.

2. Enrollment of members. 3. Rev. W. B. Gibbs read from 2nd Cor., 4th Chapter, and after prayer by Rev. Blackburn and song by the choir, ble and interesting field, and our boys preached the introductory sermon from 2nd Cor. 4:5, "For we preach not ourselves, but Christ Jesus the Lord: and ourselves your servants for Jesus, sake." This was indeed an excellent sermon, as was preven by the many hearty endorsements.

4. Adjournment to 1:30 p. m.

FRIDAY AFTERNOON. 1. Meeting called to order at 1:30 by moderator; song and prayer service.

2. Rev. M. E. Miller being absent, cy and Cora Hughes, was born Dec. 18, on motion Rev. C. F. Stewart, of 1905, fell asleep on the 24th day of Quinn, was requested to take his place the ground Friday and Saturday. April, 1906, age four months and six on program. 7:19; Heb. 6:8; 10:27.

V. 24. "Put hie forth." Better, "set before them," as one spreads a meal before his guests. "The kingdom of heaven is likened unto." A perplexing hindrance to the growth of the kingdom may be discerned by considering a not uncommon occurrence by which the growth of wheat in a field was hin dered. "Good seed." Pure seed of the grain he wished to raise, unmixed with seed of any other kind.

V. 25. "While men slept." During General Family Groceries, the hight, or while those in charge of the field were forgetful. "Enemy . sowed tares." A more diabolical device for wreaking vengeance upon an enemy can scarcely be imagined. "Tares." The original has a particle indicating that this sowing was over, or, on top of, what had previously been sown.

V. 26. "Brought forth fruit." Began to head. Not until that stage of growth was reached did any difference between the two kinds of shoots appear.

V. 27. "Didst thou not sow?" A form of question, assuming that an affirmative answer is expected. "Whence A few years ago while she was employed hath it tares?" A few stray tares would have caused no surprise and would have been carefully weeded out, as they are in that land to this day; but such an abundance of them was found in this field that even the servants questioned the advisability of

V. 29. "Nay . . . lest ye root up the that I could not even attend to me wheat." The roots of the two sorts of plants were by this time so interwined that any attempt at separation would be sure to cause death to the wheat. V. 30. "The harvest." The time for cutting the ripened grain. "Gather . first the tares." This would be a matter of no small difficulty. "Burn them." This would be done in an

IDEAS OF INVENTORS.

A German has invented a means of using light rays instead of wires for telephony. The system has been found very useful at sea, the searchlight carrying the voice perfectly.

An Italian engineer has recently developed a very efficient and economic process for welding steel and iron by means of acetylene gas. The heat produced by the combustion of acetylene and oxygen mixed at the moment of burning is about 7,200 degrees Fahrenheit, which is higher than the temperature of the oxyhydrogen flame and near that of the electric arc.

A very efficient stenotyping amchine by which a syllable (and in some cases two or three sylables) is printed in plain type at each stroke of the fingers, has just been invented by a Parisian. This result has been obtained by an ingenious ararngement of the letters of the alphabet. It is said that 50 words a minute can be speed of 125 to 150 words can be obtained in two months, and in some cases as high as 300 words.

vented which is reported to be sure to induce drowsiness and then sleep in ordinary cases of wakefulness, it is said to have almost hypnotic powers in that direction, though it consists in nothing but curiously shaped and irregularly placed "paddlers" attached to a slowly revolving wheel. It is claimed that if the sufferer from insomnia looks steadily at the contrivance while it is in motion he will be overcome by drowsiness and put

SPOTLESS TOWN

This is the Mayor of Spotless Town. The brightest man for miles around. The shining light of wisdom can Reflect from such a polished man. And so he says to high and low

The Cook of Spotless Town, you me Who takes the cake, as you'll age She holds it in her fingers now, It isn't light-but anyhow 'Twill brighten her domestic wos

A cake of plain SAPOLIO.

This brilliant man walks up and down Upon the streets of Spotless Town. The glitter of his shining star Arrests attention from afar. It lights the beat and goes to show That naught can beat SAPOLIO.

And so he brightens By polishing with SAPOLIO.

Who scrubs the floors of Spotless Town. Who fares but ill in To find a speck when she is through The town is so confounded Would take a pair of specs or two. And her employment ian't slow For she employs SAPOLIO.

It is no wonder he is lean. He's lost all patients now you know Because they use SAPOLIO.

It is a solid, handsome cake of scouring soap which has no equal all cleaning purposes except the laundry. To use it is to value it. What will SAPOLIO do? Why, it will clean paint, make oil cloths bright and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitches will prove all as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a sensible housekeeper and try it.

Persuades Foolish Man to Philosophize.

A man in the southwest had so much nervous energy to spare that when his mule's will and his crossed he tried to persuade the intelligent animal by a firm, well-placed kick located on the mule's abdomen, relates the Minneapolis Journal. You should never play another's game with him and expect to show up well at the finis. The mule is now only a Ph. D. in the graceful art of kicking, but he has the science of it by heredity and by entoyment of the game.

When he felt the kick he saw with the white of one of the eyes the man recovering from the recoil of the kick, he merely moved his left rear corner slightly and stubbed his hoof on the owner so severely that the man is now in the hospital and has had 14 stitches taken on his bump of perspicacity.

The foolish man sits in at the mule's own game, but the wise man persuades his friend to try it and watches results from s position 30 yards to the left.

Cures Cancer, Blood Poison and Rheumatism.

If you have blood poison producing eruptions, pimples, ulcers, swollen glands, bumps and risings, burning, itching skin, copper-colored spots or rash on the skin, mucous patches in mouth or throat, falling hair, bone pains, old rheumatism or foul catarrh, take Botanic Blood Balm (B. B. B.). It kills the poison in the blood soon all sores, cruptions heal, hard swellings subside, aches and pains stop, and a perfect cure is made of the worst cases that the system requires attention.

Heart Weakness.

Dr. Miles' Heart Cure has made many hearts well after they have been pronounced hopeless. It has completely cured thousands, and will almost invariably cure or benefit every case of heart disease.

Short breath, pain around heart, palpitation, fluttering, dizzy, fainting and smothering spells should not be neglected. Take Dr. Miles' Heart Cure and see how quick you will be relieved.

It cannot make a new heart, but will restore a sick one by strengthening the heart nerves and muscles, relieving the unnatural strain, and restoring its vitality.

"I had a very bad case of heart trouble. For six months I could not work. Last July I was plowing corn and feeling bad all day; in the afternoon in piowing one row I had to lay down, or fall down, three times. My heart throbbed as though it would burst through, and I had difficulty in getting my breath. I purchased a bottle of Dr. Miles' Heart Cure, and before I had used half of it I could lay down and sleep all night. Previously I had to get up from five to ten bottles, and my heart is as regular as and can work considerable for an old man, 841/2 years old. H. D. McGILL, Frost, Ohio.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money Miles Medical Co., Elkhart, Ind

Commissioners Sale.

Crittenden Circuit Court, Kentucky. Alice Myers Beavers, Plff., against Thorn Myers, Deft., Equity.

The World's Wheat.

It seems a curious thought that the supremacy of western civilizationthe ascendency of the wheat-eaters over the rice-eaters-may ultimately depend upon the discovery of some cheap process of producing nitrates; but so eminent an authority as Sir William Ramsey is sponsor for the statement. More than five years ago, says Youth's Companion, Sir William Crookes declared the population of the world to be increasing so rapidly that in a short time the supply of wheat would be insufficient. Since then progress has been made in several experiments directed toward increasing the world's harvest of wheat. Nevertheless, many scientific men feel that a wheat famine within a few generations is among the possibilities. Efforts toward averting or postponing this condition are directed: First, toward increasing the acreage-a process which is self-limited; secondly, toward increasing the yield per acre by im- of foreign miners. These were beaten proving the seed and selecting that back with "black jacks," and persuaded which is best suited to the locality by one of their number, also the chief where it is to be planted; thirdly, toward increasing the crop by feeding the plants more geenrously with nitrogen through alternation with noduleproducing leguminous plants-a process developed in the United States department of agriculture; and, fourthly, by the manufacture of nitrates. For years the supply of nitrates has come | Keefer, on Hickory street, they were | be kept. It is declared that the period | from Chili, but that source is nearing exhaustion. The sewage of cities ing stones. would supply enormous quantities if there could be found some method of saving and applying it which would not endanger public health. It is estimated that \$80,000,000 worth of fertilizer goes annually to waste in this way in England alone. The artificial man named Wilson fatally wounded the finance committee, and some noted menacing labor situation. manufacture, or rather the fixation, of and a number of others hurt in the nitrogen looks to the air as the great street. Dr. Keefers' house was riddled source of supply. But the processes with bullets. now in use are complicated and expensive. Many patents have been issued. One of the latest plants is that at Svaelgfoss, Norway, in which a waterfall of 30,000 horse-power has been hold his ground pending the arrival of utilized to generate electricity, by reinforcements, but later he was told which nitrogen is taken from the air to bring his command back to Pottsand absorbed by lime. The resulting ville. He was placed under \$500 ball. calcium nitrate is a powerful fertilizer. In this problem the young chemists and the young electricians of today have a work which will tax the ables and ought to satisfy the most ambitious.

Typewriting Records.

The old question whether there is any absolute limit of human performance in any particular line is particularly appropriate to the question of Prof. W. H. Dickey Kills Prof. V. typewriting records. A young woman of Springfield has recently made a record of writing 2,344 memorized words from Henry Ward Beecher's duel between Prof. W. H. Dickey, Liverpool speech in 30 minutes, thus superintendent of the Deming public beating a record of 2,099 words in a schools, and Prof. V. Francis Duff. Heroic Statue of Explorer in a St. half hour made by a man no longer ago than last November. This jump from 69 to 77 words a minute, says educators in New Mexico, which took the New York Post, is a feat proportionately as remarkable—to use the hospital with a bullet in his side. nearest sporting equivalent-as clipping off a full second from the record in the hundred-yard dash. It is an archaeologist. He came to this bringing the fastest typewriting pret- place because of ill health. He was ty close to the average requirements hailed at once as a valued acquisition of shorthand. Psychologists tell us by the community, and put in charge of the astonishingly stimulating effect on persons doing work involving rapidity or dexterity of the knowledge of what others have accomplished in the same lines. Once a certain feat is done or a certain record is made. Prof. Duff insist that there was an endozens are able to do the same thing. Will the typist ever become expert enough to do verbatim reporting without the use of shorthand notes?

Drain Upon Forcets.

The work of the forest service in gathering statistics of forest products WILY for the last year has furnished the basis for a provisional statement of the wood consumed in the manufacture of paper pulp. Returns from 159 firms, controlling 232 pulp mills, give over 3,000,000 cords as the total chief Bambaata, who has caused so amount of wood used. The wood used much trouble during the last few was divided among the various processes as follows: Sulphite, 1,538,000 cords; soda, 410,000 cords; ground wood, 1,968,999 cords. The total pulp production by all processes by the firms reporting was 1,993,000 tons. According to the census of 1900, the consumption of pr'pwood was then 1,986,310 cords, so that there has been an increase of more than 50 per cent. in the last six years. This demon- a fishing trip. In drawing a small ago, to end her life in her home, 549 strates, in a striking manner, the revolver from his pocket the weapon North Fortieth street, East St. Louis, drain upon the forests caused by the was discharged. The bullet tore off a pulp industry.

A Philadelphia mother sent a heart- him instantly. plercing appeal to the Atlantic City police, entreating their aid in finding her missing son. "My boy has never been away from home before," wrote the mother, "and I fear he has gotten into trouble. Please find him and failing to take ordinary proper care of send him home." Supposing the himself," was all McAleer would say. "boy," was a youth about out of knee breeches, the police began their search. Their surprise can be imagined when the "missing boy" turned out to be

MORE QUAKES AT FRISCO LABOR LEADERS

CAUSED NO EXCITEMENT AND NO DAMAGE.

Plan to Horrow \$200,000,000 On Government Indorsement at a Low Rate.

San Francisco, April 30.—Two slight earthquake shocks at an interval of an hour were felt here early Monday morning. They were of the same nature as a dozen other shocks that have been felt since the big quake of April

No damage was done, and there was no alarm.

Putting Check on Abuses.

In the first days of the fire little or no attempt was made to keep check on Mount Carmel, Pa., April 30.-Two foodstuffs, the main idea being to prothat under this excusable haphazard oreven when the lines were more tightly drawn, unscrupulous persons continued to take advantage of the general dis-The troopers had been guarding the tress, and it was then realized that the salvation of the situation rested with the army. So the officials of this branch

Gen. Greely's Plans.

That success will doubtless meet their efforts may be inferred from the comofficer of the town, to return to their pleteness of the plan of Gen. Greely. The unburned part of the city will be divided into seven districts, in charge of army officers, who will assume control of all the relief stations now established. Responsible civilians will be installed, under salary, at the substations, for the purpose of clerical work, and daily records and checks will of extreme distress has passed, and that at the earliest possible moment the issue of rations must be confined to helpless women and children and refused in enfeebled condition.

Finance Plan Bronched.

At a meeting, at which were present James D. Phelan, chairman of lawyers and bankers, a plan was broached for financing the city which it is hoped will meet with the indorsement of the general committee. It being estimated that the city has suffered a loss of at least \$200,000,000 by fire, it is conceded that there is not sufficlent thoney in San Francisco to reconstruct the city, and that the people here must look elsewhere for funds to rehabilitate their destroyed fortunes.

To Ask Government Indorsement. Mr. Phelan said that if the money is borrowed through ordinary channels the rate of interest will add a burden to necessarily increased taxation, that will be too heavy to be borne. The bonds of San Francisco, With this guarantee of the government, the city will be able to go into the financial markets of the world and borrow the needed money at 2 or 21/2 per cent, the bonds to run for 50 years, and constitute a mortgage on the best portion of

JOLIET FALLS TO

Louis Park Crumbles. to Dust.

St. Louis, April 30 .- A pile of white dust and a few fragments of staff are all that remain of the heroic statue of Joliet, which was taken out of the "main picture" at the World's Fair and set up at the entrance to O'Fallon park at Florissant and Harris avenues.

Without a warning creak the great equestrian image tottered and fell from its base in view of hundreds of pleasureseekers in the park. The figure, 25 feet high and 15 feet long, crashed to the ground.

The work of installing it at the enrance of the park was completed only three days ago at an expense of nearly

WORST HAZING ON RECORD

Student's Hair Cut, Head Smeared With Iodine, and He Is Thrown In Lake.

Madison, Wis., April 30,-Joseph W. student in the College of Letters and Science of the state university, went through the worst hazing experience Saturday night any freshman has had here for a long time. His hair was cut in a society lodge porch, and his head was smeared with lodine. Then he was thrown into the lake.

Freshmen themselves did the work. claiming that Pfiffner had "made" some remarkable university society that they did not like.

Caused By Anonymous Letters.

St. Louis, April 30.-Anonymous letters written to her husband in an endeavor to cause trouble between husband and wife caused Mrs. Stephen Simmons, and killed himself while on Brennan, aged 28, married four months swallowing carbolic acid. 1905, to Minnessota, North Dakota, lem was a Mr. George Warburton; but, his storeroom and the remnant of his stock to Offutt. In the meantime Offutt's long expected goods were received from Beardstown. Abe unpacked were the guest of Miss Dessie Johnson and. The round trip for one [fare ed the barrels and kegs into their places and, being provided with a Fast passenger service. Luxurious brand new book, pen and ink, found himself duly installed as "first clerk" of the principal mercantile house in New Salem.

Lincoln Becomes a Clerk.

A country store is an indescribable collection of miscellanies - groceries. dry goods, hardware, earthenware and stoneware, cups and saucers, plates and dishes, coffee and tea, sugar and molasses, boots and shoes, whisky and lead, butter and eggs, tobacco and gunpowder, with an endless list of things unimaginable except by a housewife or a merchant. Such was the store to the charge of which Abe was now promoted-promoted from the rank of a common laborer to be a sort of brevet clerk.

But Offutt's ideas of commerce were very comprehensive, and, as "his business was already considerably scattered about the country," he thought he would scatter a little more. He therefore rented the mill at the foot of the hill from Cameron & Rutledge and set Abe to overlooking that as well as the store. This increase of business however, required another clerk, and in a few days Abe was given a co panion in the person of W. G. Green They slept together on the same cot in the store, and, as Mr. Green observes

His Friend, Intimate and Bodyguard by way of indicating the great inti-

macy that subsisted between them

"when one turned over the other had to do so likewise." Since the trip on the flatboat Offutt's admiration for Abe had grown to be boundless. He now declared that "Abe ly a hundred people, but in 1831 knew more than any man in the United there could not have been more States;" that "he would some day be
