Big meeting of Tobacco growers at Providence.

To the Editor —

I was present at Providence last Saturday and believe that the meeting held there was the largest gathering of tobacco growers in the State. The earlier meetings held in Charleston were attended by men of different parts of the State, but this meeting was attended by men of one county who are all in the same district.

I am glad to hear that the meeting was successful and I hope that the growers in other parts of the State will take advantage of this meeting and attend the next one.

Yours truly,

The Resident Editor.

I am glad to see that the leaders of the tobacco growers in the State are giving attention to the subject of the crop this year. I hope that they will be able to improve the quality of their tobacco and that they will be able to sell it at a higher price.

Yours truly,

The Resident Editor.
