1. Public culture, printed in black, About the Only Attraction in Washington

Meat Lobbyists Trying to Manufacture Public Opinion by the Use of Money.

with the hot weather closing in, Congress casting about for some short cut that might take np the public mind, Washington just now but the meat fought so obstinately in the House committee on Agriculture that there are many hard words being said about the attitude of Representative Wadsworth, the chairman of the committee. During all the investigation that has followed the publication of President Roosevelt's report, Mr. Wadsworth has taken the position of counsel for the defense and while he has treated Mr. Wilson the representative of the packers with marked courtesy and consideration, he has acted toward both Mr. Neill and Mr. Reynolds, the President's commissioners, as though they were culprits on trial. In fact had he been their cause more warmly. The result has been to increase public feeling against the meat packers and there have been threats in the House that if an unsatisfactory report is made from the committee that the House will have no hesitation in voting against it there is an attempt on the part of the committee to make a whitewashing report on the Beveridge Amendment, the House will throw out the report and adopt the Beveridge Amendment as it came from the Senate. This would be against all precedent, for a favorable New Law report on any measure from the committee having it under consideration is almost tantamount to a favorable action by the House.

The meat lobby has been busy trying to manufacture public opinion. They have spent money wherever they could and as the papers have persistently What constitutes a topographical taken a stand in favor of the Neill papers with an immense display advertisement stating that "in view of the sensational reports" that has been circulated about the meat business Chicago, they wished to offer an invitation to all the people of the country and Washingtoniars in particular to visit the packing houses and see conditions for themselves.

This was a great piece of bumcomb for on the very day that the advertisement appeared, the President gave out a letter that he had sent to chairman Wadsworth, with some very pointed While Kentucky tobacco growers are extracts from one of his persoal friends

on the killing beds. The packers and the stock raisers just before the disclosures of condition in the yards, had heen clamoring for Cougress to increase the time during which they could transport cattle on the trains without food or water. As the law stands, cattle must be fed and watered once in twenty-eight hours, and the cattle sellers wanted to increase this to thirty-six hours. The proposition was monstrously inhuman in its conception. But starving and famishing is not the worst that happens. The cattle are bruised, gored, frequently knocked down and their limbs broken and this MIND MAY BE UNBALANCED Force of Men Began Work Last Week is the way in which many of the dead cattle reach the killing beds where they are officially "killed" a second time. It is quite possible that supplementary legislation will be introduced looking to a cure for this phrase of the evil. And it can not come too soon.

The rate bill has been recommitted to conference by the Senate which is FORMERLY LIVED IN dissatisfied with the outcome of the compromise. The Senate has won out Washington, D. JUVENILE COURT

of Especial Interest to A Good Citizens.

The new Juvenile Court law, which goes into effect about June 12, will be effective in each county in the State, and it seems of such vital importance as to demand the attention of parents and guardians and all citizens interested in the welfare of children generally.

The law provides that all offenses, not felonies, that are committed against the laws of the State by boys of seventeen years and under and by girls of eighteen years and under shall be heard in the Juvenile court, and it makes the County Judge the judge of this court. These cases are to 1 be heard in private and handled in the way of reforming rather than punishing these juvenile offenders. Probation officers are to be appointed to look after delinquent children put on good bahavior by the Judge and their duty will be to see that such Schildren are con- Must Certify to Assessor All Obligaducting themselves properly and to

KENTUCKY FLUOR SPAR CO.

of June, 1906.

The officers, directors and members having traveled all the way from Sikes- of the Kentucky Fluor Spar Company held its annual meeting in Marion June Mr. Hoover is of a good family and 13th. The company has enjoyed a reasonably prosperous year in the conduct of its business of mining and selling fluor spar with an occasional car load of lead.

During the last year they sold 12,000 tons of spar and made a reasonable profit, notwithstanding a great deal of development work has been done. The outlook for the coming year is particularly flattering and the stock holders are to be congratulated thereon. This company has more spar in sight at its various mines, and its spar mill here in Marion are all better equipped to handle their product cheaply than ever before.

The company is rapidly installing modern machinery at the various mines, notably at the Memphis. We dare say there is not a mine anywhere in this section that has as good an equipment of modern, up-to-date machinery, simple and effective for the purpose to which adapted as the Memphis, This where they operated fourteen this time ast year. These six mines produce more fluor spar per month than did the

fourteen. It is needless to say that at this meeting the management of those in control was commended and all officers and directors were re-elected unanisecretary and treasury; J. W. Blue,

THE OCTAGONAL SILO.

Prof. Fraser of the Opinion That It Is Not the Most Approved Type.

The accompanying cut shows an to be approved. It is better than the man, square silo, because its walls can be made more rigid than the walls of the

AN OCTAGONAL SILO.

square silo. The latter has walls that cannot be sprung out and it has no corners, while the octagonal silo has. The corner is always a place for the air to get in, and the presence of air tion in the food must be taken into member of the family. Sometimes an means the spoiling of the sliage.

The location in the corner of the meal be composed, largely of corn in country places for a dollar, and in that barn was and is popular. In the feed- the one instance and mainly of wheat case the table might hang down, and ing of beef cattle or other animals bran in the other, the cow could take the pew go against the wall, beneath than milk cows the location seems to larger quantities of bran without inbe a good one. But for cows giving jury than of corn. It is a more bulky milk it is different, as the odor from food. In any event, however, even the silage will taint the milk in spite where the feeding is sufficiently high very sunny. A more delightful screen of all the care that can be exercised it is questionable if more than eight is formed by vines running over wire by the milkers. An odor once in the to ten pounds of meal should be fed across the sunny end, or where a milk cannot be entirely dissipated by any kind of aeration yet devised.

THE LARGE FARM.

An Argument Against Their Being Maintained in the Thickly Settled States.

Large farms in our thickly settled states are not a benefit to any community. The farms comprising ten and twelve thousand acres of land result in dwarfing the social life of the people living on them. We know of one city located between two such farms. Citizens there say that these two great farms are a cause of detri- head of cattle and also give room for taken out when the cloth is shaken, ment to the whole township. The people living upon them are practically all transients. The owner of one lives in a large city hundreds of miles away, and his employes are people that have no particular interest in the prosperity of that part of the country. It is practically impossible to build up a proper community spirit where every man feels that his position is only temporary, and that to-morrow he may move on. It is a fact, too, that many of these large farms have been financial failures during a large part of their exist-

The man that tries to manage a 10,-000-acre farm on high-priced land has a very difficult task on his hands. He cannot expect his employes to have the same interest in things that they would have if they were the owners. One farm is divided up into 23 sub- either side. farms, and in each of the 23 farmhouses is a tenant and his family, and the is supposed to look after the inter- strips four inches wide and one inch est of 320 acres of land. But he is a thick from the feed room, k, down to hired man and thinks all that he can the manger. Hay racks are arranged get from it is his salary and the few above the mangers opening to the things he can raise around his house. room above, where hay can be put Is there any reason to suppose that he down. In the feed room a number of will bend every energy to make the bins for bran, etc., are built. Where plece of land bloom and blossom, as more stalls are needed, explains the he would if it were his own? Being Farm and Home, the barn can be built only a transient, there is no induce- longer and of the same width as dement for him to improve the looks of the property. There is the eternal presence of the idea of the lack of permanency in his position. This passes to his wife and to his children. He can in the main regard his position only as a stepping stone to something ably with the distance of planting. else. What we need, urges the Farmer's Review, is medium-sized farmsnot vast farms.

The writer has in mind another farm of 10,000 acres existing in the state of Illinois. The man who created that farm is wealthy and seems to have a mania for adding farm to farm. Some years ago the writer rode over this farm, and the effect made upon him was very disagreeable. The land was hardly half-tilled. The pastures were producing only meager growths of wild grasses. The tenants' houses were small and occupied mostly by an acid that is powerful in its effects then. The owner did not care to employ men with large families, as the silage is made from too green corn state law would compel him to sup- the amount of acld is large and its port a schoolhouse and teacher. This effects on the silage very noticeable. is always the tendency of these large One way to offset this is to apply a farms. HINTS TO HOUSEKEEPERS.

An old-fashioned remedy for sore throat that is said to be effective is a nutmeg worn on a silk thread around the neck. The hole through the nutmeg is made with a red-hot awl.

A bottle of camphor or oil of cedar with the cork left out, if hung on a hook in the closet, will keep away moths without imparting a disagreeable odor to the clothing.

To clean velvet, first brush er shake out all of the dust and remove any grease stains with benzine. If it needs freshening pass the wrong side over a bowl of boiling water and then over a hot iron. If it is badly crushed brush carefully with a soft brush.

Now that strawberries are in the market, try a strawberry salad, something which has the merit of novelty and something beside. Make cups of blanched lettuce leaves and put in each a few ripe berries. Dust with powdered sugar, and place on top a spoonful of mayonnaise into which whipped cream has been stirred.

If the carpets in summer are left down and covered with linen they are saved from moth ravages by brushing the edges with a hot solution of alum and water and sprinkling them over with powdered borax. If they are taken up and put away borax will preserve them as effectually and be far less objectionable than the dreadful carbolic acid balls, whose perfume cannot be mitigated nor overcome the next season by any number of potpourri jars whatsoever.

In case of earache do not put anything into the ear except by direction of a physician. The best way to relieve earache is to heat an iron or a brick, wrap it in two or three thicknesses of flannel, pour warm water on the top, when steam will rise at once. If the ear is placed close to the flannel the steam will permeate every part of

A shoe that is uncomfortable from pinching may be eased by laying a cloth wet in hot water across the place where it pinches, changing it as it grows coler a number of times. This will cause the leather to shape itself to the foot.

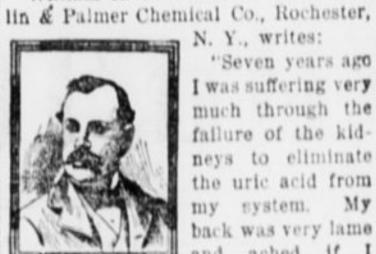

Stains on white flannel are hard to remove. The best way is to mix equal parts of the yolks of eggs and glycer- that Satin, apply it to the stains, and allow it to soak for half an hour or so before the article is washed .- Boston Budget and Beacon.

Take Care of the Hands.

CONCERNING CLOCKS.

Never allow the clock to run down, It responds to regular attention just as surely as a human being does and keeps its course truly when made to

follow its endless routine. The hands of a clock should always be turned forward. To set the hands by reversing the right-hand motion is to loosen delicate screws that hold them within reach of various cog

Never allow the clock to be moved from the position where it is well balanced. A deviation of two or three minutes a day from the correct time may be the result of an uneven placing of the clock, and once it is preperly adjusted it should not be shifted for dusling or for artistic purposes. This is especially true of clocks that have a pedulum.

Nothin' Doin'.

"Want 'ny fce?"

"It's fresh?"

"Yep." "Bring me up a two-cent chunk,"

"Where 're ye at?" "Six floor, back."

"Gee awp!"-Judge.

"Say, I came to this donce without an invitation." "So did I. How did you work it!" "Nobody stopped me. How did you?" "Same way. My wife's giving the dance."

TORTURED WITH ECZEMA.

Tremendous Itching Over Whole Body -Scratched Until Bled-Wonderful Cure by Cuticura.

"Last year I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body. and only my face and hands were free. For four months or so I suffered torments, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I suffered excruciating pains. They told me that I was suffering from eczema. Then I made up my mind that I would use the Cuticura Remedies. I used them according to instructions, and very soon in deed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1905."

BITS FOR BACHELORS.

Many men think themselves selfmade who are really marriage-made. The man who avoids matrimony on account of the cares of wedded life rivals the wiseacre who secured himself against corns by having his legs amputated.

Don't marry for beauty alone. Socrates called beauty "a short-lived tyranny," and Theophrastus pronounced it "a silent cheat." The man who marries for beauty alone is as silly as the man who would buy a house because it had fine flowers in the front garden.

It is in life as it is with a kite; it will not fly very high until it has a string tying it down. And so the man who is tied down by half a dozen responsibilities and their mother will make a higher and stronger fight than the bachelor who, having nothing to keep him stendy, is always floundering in the mud.

The Only Good.

"Father, why do these automobiles puff out so much smoke behind?" "Stupid! So the policeman can't see

A Harmless Laxative. If you must take a laxative, take a harmless one. Lax-Fos does not gripe, therefore does not irritate. Irritation is what does the harm. Price 50 cents.

There is no man who does not privately imagine that the law was not made by him.

Enthusiasm won't carry you very far without backing.

PROFIT POINTERS.

Nobody wants an over-anxious man. He gets on one's nerves.

Did you ever know a "tricky" man to make a permanent success? Matter is composed of atoms. Bust-

nesses are built up by attention to details.

Business is not necessarily hard work. Make it good fun, and you'll

Keeping Her Handy.

"That's a fine rope you have, Harker," commented the commuter with the lawn mower and the weekly ham under his arm. "What are you going to do with it?"

"Use it as a tether," replied Harker. "Ah! New cow?"

"No, new cook."—Chicago Daily News.

You Don't Have to Wait.

Every dose makes you feel better. Lax-For keeps your whole inside right. Not one gripe in a full bottle. Sold on the money back plan everywhere. Price 50 cents.

ISSUED WEELY.

SUBSCRIPTION ONE DOLLAR PER YEAR.

Entered as second-class matter July 15, 1904, at the postoffice at Marion, Ky., under Act of Congress of March 3, 1879.

FRIDAY, JUNE 15, 1906.

The meat packers are evidently not of the opinion that cleanliness is next to godliness.

Fifty thousand women in this land are anxious to see Mr. Smoot restored to the bosom of his families.

With an annual allowance of \$90,000 it will be young Queen Victoria's own fault if she had "nothing to wear."

The Hon. Wm. Jennings Bryan seems to have "carried" four States already-Missouri, Indiana, Ohio and Tim Sullivan.

It begins to look as if the Bryan band wagon will be uncomfortably crowded long before Grover Cleveland is heard from.

The Democratic candidate for governor of Kansas is charged with being a resident of Chicago. The campaign is evidently becoming very bitter.

And the gentleman that assured Senator Platt that the express company provision would go out of the rate bill in conference, is also a prevaricator.

Mr. Rockefeller is putting up \$1,000-000 reformatories "for boys" and deep down in his own heart, he may be regretting that Mr. Garfield is ineligible by a few years.

With 50,000 women demanding his resignation, it looks as if Senator Smoot is entitled to a little sympathy from the man who has only one woman fussing with him.

As soon as Congress has done its work for the correction of the meat packing evils, the Americans will begin to take an interest once more in the troubles of the Czar.

The man who nominated Grover Cleveland for mayor of Buffalo, governor of New York and president of the U. S., is dead. That ought to put an end to Grover's career.

A descendant of Columbus was at Last Sunday evening at 9 o'clock D. investment. How many farms can be Alfonso's wedding although the boy W. Ralston passed away, aged 69 bought for \$800? TOBACCO TIDINGS.

GEO. M. CRIDER, Editor and Publisher. Big Meeting of Tobacco tirowers at Providence.

> Last Saturday, June 9, at Providence, Webster county, there was held the biggest meeting of tobacco growers

> There were present, it was estimated, fifteen hundred to two thousand farmers, farmers wives and sons and daughters. The procession, headed by

of a mile to a mile in length. Private John Allin, of Tennessee, was the orator of the day. President Barrett, pending a wait for Mr. Allin, was enthusiastically called for and entertained the audience until Mr. Allin's arrival.

a great favorite, and stimulated by the warmth of his greeting and by the noble cause he advocated the orator simply surpassed all former efforts. The audience was wrought up to the highest pitch of enthusiasm and cheered the orator to the echo.

The work of organization in Webster has been accomplished. Witnesses to the demonstration made by the farmers at Providence have no remaining doubts concerning a co-operative sale of the present year's crop of tobacco Fully 85 per cent. of that crop, it is confidently believed, will be sold by co-operative sale.

At the conclusion of Mr. Allin's address the Hon. Bradley Wilson, of Hopkins county, was called for and made a rousing speech of limited duration. Webster county is simply afire with known as the "strip" or "stemming" county.

The oil was about two inches thick, covering an area of several miles, and appeared to be gushing up through the water in a heavy stream. Experts examining the oilan outlet through the gulf.

Wealthy Argentines have large country estates, called "estancias." Some cover an area of 300 square miles. It is not an unusual thing for the owners of these vast estates to have grazing on their pampas 60,000 sheep, 40, 000 cattle and 10,000 horses. The spaclous homes are furnished with every luxury, and a lavish hospitality of an almost forgotten age is dispensed to those who seek their comfort and shelter. Patagonia, as a part of the territory of Argentina, is fast forging to the front as a civilized state.

The son recently born to the countess of Suffolk and Berkshire, who before her marriage was Miss Daisy Leiter, of Washington, daughter of the has made the hair of Chicagoans stand late L. Z. Leiter, is Viscount Andover and Baron Howard. He is the heir of thinks he has a chance with the driver the nineteenth earl of Suffolk and of the "green dragon." Ellis will be twelfth earl of Berkshire. The title of earl of Suffolk, 1603, and that of friends, who are enthusiastic over his earl of Berkshire, 1626, were merged chances for beating Oldfield. in 1645, so the tiny Anglo-American baby will succeed his father as the twentieth earl of Suffolk and thirteenth earl of Berkshire.

New Orleans, La. The news from Havana of the official diagnosis of a case of yellow fever in the city of Ha vana and the reports to the Louisiana board of health of the presence of several suspicious cases there have resulted in a tightening of the quarantine against Cuba to the extent of requiring fumigation of vessels before leaving Uncle Sam Will Send Havana to the quarantine station.

It has just leaked out that the British steamship Whitehall has been in quarantine at Ship Island, off Gulfport, Miss., for the past twelve days on account of the presence of three cases of suspicious fever, one of which has been pronounced yellow fever by the marine hospital officer in charge of the station .- The Whitehall came up from Colon after taking a cargo of lumber there from Gulfport. The people of Belize, British Honduras, accuse the Whitehall of having been the ship that brought the fever from Havana or Colon to Belize last year. April a year ago the Whitehall put into Belize with

ACCIDENTALLY SHOT.

Mrs. Lee Herring Wounds Her Sister, Miss Addie Wadkins.

Fulton, Ky. - Yesterday at Beelerton, Ky., twelve miles north of here, Mrs. Lee Herring accidentally shot and perhaps fatally wounded her sister, Miss Lee Herring. While in Mrs. Herring's hands the weapon was in some unaccountable manner discharged. The bullet, a 38-caliber, struck Miss Wadkins in the forehead, penetrated the skull and came out at the back of her head. She fell senseless to the floor, apparently dead. The frantic screams the pistol brought people from every direction. Medical aid was hastily summoned and after a hasty examination the physicians found Miss Wadkins still alive. Heroic measures were adopted to save the girl's life, and it is believed she now has an equal chance between life and death.

TUCKER IS ELECTROCUTED.

Three Shocks Were Necessary to Destroy His Life.

Boston. - Charles L. Tucker was electrocuted at 12:12 this morning for the murder of Mabel Page. Tucker was officially pronounced dead by the prison doctors at 12:19 a.m. Three applications of the current were made. When Tucker arrived in front of the death chair he drew from his trousers pocket a brief statement, which he read. The statement was:

"I hope that God will forgive me for all the wrongs I have ever done in my

One Across Four Seas.

SOME PROBLEMS TO BE SOLVED ON THE VOYAGE

After Famous Cruises of Torpedo Boat Destroyers and the Dry Dock Dewey, Naval Officers Believe They Can Accomplish the Task.

Norfolk, Va., June 12 -- A fleet of torpedo boats has been assembled here which will proceed to the Philippines. There are some problems to be solved in the voyage of these little boats across the four seas, upon which the famous cruise outward of Commander Chandler's mosquito fleet throws no light. That fleet was Addie Wadkins. The ladies were ex- made up of torpedo boat destroyersamining a pistol in a store owned by | much larger boats than these about to be sent out-and consequently with much greater steaming radius, the most important consideration on such

> The boats of the new fleet are all simple torpedo boats; the Bagley, Bid die, Tingey, Thornton and Shubrick, averageing in displacement only Pacific coast, and that such about one hundred and sixty-five tons or a little more than a third of the destroyers.

So it is believed that it may be necessary to assist the little boats by towing them when their coal supply runs low and the weather is such that they can not be coaled from the convoying ships, and experiments will be made before the fleet sails to deter mine the ability of the convoying ship to handle the boats in towing line. After the experience of the first fleet and of Commander Hosley with the drydock Dewey, the naval officers believe that they can accomplish al most anything in that direction.

And made of course with elbow

This is the day of pastel shades. and we would repeat what was said not long ago about the modishness of a touch of light gray. Pale harmonies are liked better than contrasts.

We are affecting youthful modes. Not only is this evidenced by the childish lingerie hats but also by such a chapeau as a Tuscan hat lavishly trimmed with pale blue ribbons and brush roses; white crinoline straws with crown of spotted muslin and wreath of dog roses and ivy. A Leghorn simply trimmed with black velvet and white roses looks very well with a dress of white serge.

The black veil of real lace drapes with due charm the white or binch hat worn with a white gown. Some of these veils are very beautiful, and the pattern is brought out well in detail when seen against white. As a rule they are very becoming, forming a frame for the face, generally seen thrown back over the hat.

Sheer gray is in fashion for evening wear, and as a rule is made over colored lining. A very Frenchy costume was a transparent gray over an orange-colored silk slip; the gleam of the yellow through the cool gray very -and the print dress was eulogized beautiful. In the hair was worn an by many folk, looked upon as the orange algrette that came forth from apotheosis of the vaunted simplicity. a bowknot of silver spangles. Beafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the car. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I bebegan the use of Dr. Miles' Anti-Pain Pils, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same results." MRS. PARK.

721 S. Michigan St., South Bend, Ind. Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it falls he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind

DENATURED ALCOHOL

Will Be The Means of Saying Hundreds of Dollars to Citizens.

A plain statement of the benefits to be derived from the passage of the bill for the removal of the internal revenue tax on denatured alcohol justifies its passage. The opposition was from two sources: The Prohibitions and the Standard Oil company. The Prohibi tionists fear the alcohol may be smuggled to the dealers in liquor or redistilled for drinking purposes. The penalties provided will prevent such an attempt. The Standard Oil company opposed the bill because the denatured alcohol would take the place of gaso-

One gallon of denatured alcohol is 1 equal to two gallons of gasoline for fuel, lights or for running motors. It is claimed the alcohol can be made in large quantities for eight to ten cents a gallon. This would cut down the price of the competing gasoline one half, resulting in the saving of millions of dollars.

And above all else denatured alcohol is perfectly safe. Its substitute for gasoline would save hundreds of lives. It is also without the objectionable odor that goes with gasoline.

In Cuba denatured alcohol is sold for 12 cents per gallon and is in almost universal use. In Germany and Russia it is cheap and common. .

Rose One Hundred Years Old.

On the farm of J. F. Meacham, a ew miles from town on the Antioch road, says the Hopkinsville Kentuckian, is a rose bush that has bloomed every year for 100 years. The house occupied by Mr. Meacham was built in 1802 and four years afterward Thomas Kirtman, who settled the place, bought a pink tea rose, blooming in clusters, from a nursery in North Carolina and set it out under the window of his new house. It stands on the same spot today and is now bearing its one hundredth crop of blossoms. The bush is large and vigorous and seems good for
