

The Crittenden Record.

MARION, CRITTENDEN COUNTY, KY., JUNE 22, 1906.

NUMBER 50

COMING CRITTENDEN

Citizens Are Turning Heads Homeward

YEARS OF EXILE

Scenes of Their Child- Mingling With Chimes Other Days.

ON EDITOR AMONG THEM

One week is bringing to a number of old residents. A week in Louisville, their steps toward the old and mingle with their relatives in old Crittenden. A number we notice Mr. and his young wife, Grand Junction, Colorado. The son of Mr. R. C. Walker, editor of the Crittenden, managed and edited the Press for several years and sold to its present owner, Miss K. Woods, daughter of Press Woods, who is very well over the county. Wallace could not be pulled back to duty to live. Grand Junction is pure, clear and invigorating. He has a splendid position as rector of the Sentinel, a daily paper. The work is hard yet there is an outdoor exercise to make it a desirable situation. His employment on a vacation on half pay shows that his work is certainly

and his wife arrived in Marion last night, the 15th, after a sojourn of two weeks in Ardmore, I. T. He left for home about the 30th and stop again in Ardmore two or three days.

W. H. Wofford, of Washington, arrived in Marion from Louisville last week to spend a week among his relatives and friends. Wofford is employed in the War Department at Washington and there for a number of months Monday at the old home occupied by his brother, Wofford. Under the spreading of an old tree in the yard a fine dinner. Around this were gathered relatives and friends. Among the number were Wofford and family, Mr. Barnes and family, Mrs. Phillips and family, Mr. Philmore, Mr. Henry Wofford, Wofford, Tom Williams and

B. Wofford will leave for Washington, D. C., some time this week.

pilgrims of Home Coming Kentucky after seeing some of the old friends in Louisville wandered to the old home in Crittenden. They were delighted from the train and while walking up the hill Tom Dollins inquired his

is Dollins—Tom Dollins, son of John A. Wallace and used to play together at

it was. After thirty-one years of absence, Mr. John A. Wallace, the son of J. Riley Wallace, the family lived a half mile south of Marion on a road, the first house on the side of the old John Hughes farm, owned by Mr. A. J. Baker. The place the Wallace family place Erath county, Tex. Mr. Wallace now lives in Canyon

place family is well known to people of this county. John A. Wallace and his schoolmates at Chapel Hill, N. C., and Cal Adams, Chas. Tom Dollins, Geo. H. Crider, and many boys and many others. There was Rosa Armstrong, and Mr. Wallace his first wife. His mother is buried in the

old graveyard and he had no trouble finding the grave.

In 1875, when the family left Marion, R. W. Wilson was county clerk and J. H. Walker was sheriff. D. Woods was in business and was known at that time as laughing Dave Woods.

Mr. Wallace remembers a sale of the property of J. G. Hoover, owner of the old White tavern. At the sale his father bought a grindstone which was taken to Texas and used until there was nothing left of it. He also found at the home of Berl Walker a deep box cradle, cherry color, still in good condition that did duty for the whole Wallace family.

Mr. Wallace spent several delightful days among old friends and left for home Wednesday, the 29th.

Wallace C. Franklin, of Muskogee, Ind. Ter., arrived in Marion last Saturday. Mr. Franklin spent a few days in Louisville before coming home. He leaves for his home Thursday of this week.

In 1893 Senator Dawes was appointed chairman of a commission, the purpose of which was to make a settlement between the United States government and the five civilized tribes. These tribes were the Creeks, Cherokees, Seminoles, Choctaws and Chickasaws. In these tribes was vested a vast amount of property rights. At a glance it will be seen that the work to be performed was simply enormous. The commission appointed consisted of a number of commissioners and has been known as the Dawes Commission. In 1905 this commission went out of business and one commissioner was appointed to look after what remained.

Mr. Franklin is law clerk for this commissioner. He states that he is delighted with Muskogee. That it is one of the greatest towns in the west. Had a population of 4,000 in 1900 and now has 23,000 people. It is quite a railroad center having 96 train per day. Wallace has decided to make it his future home. THE RECORD extends him its best wishes.

A RADICAL STEP.

Paducah Presbytery of Southern Pres- byterian Church Make an Important Order.

The Paducah Presbytery of the Southern Presbyterian church met in Henderson last week. A delegation from the Southern Presbyterian church of Sturgis at that meeting presented a petition to be allowed to unite with the Presbyterian Church of the United States. The Northern Presbyterian and the Cumberland Presbyterian churches of Sturgis have united and entered the new Presbyterian church of the United States. Now comes the Southern church of Sturgis with a prayer to be allowed to unite with them. The Paducah Presbytery granted the prayer and the union will be made. Not only will the membership make the change but they will take all their property with them.

This of course is the action of one congregation and one particular Presbytery, but the question arises, is this the straw that shows which way the wind blows? Will the way be clear at an early date for the union of all Presbyterian bodies?

CHANGE IN BUSINESS.

C. E. Weldon Retires from the Hina Hardware Company.

Monday morning the doors of the Hina Hardware Company's store were locked and a force of clerks were put to invoicing the stock. Mr. C. E. Weldon sold his interest to Mr. Felix G. Cox.

Mr. Weldon, the retiring partner, is the county clerk of this county. Mr. F. G. Cox, the new member of the firm, is well known over both this and Livingston county and is a splendid business man of many fine qualities. He is owner of the Harry LaRue farm, which is thought to be one of the richest mineral bodies of land in this district.

We trust that success will attend the new firm.

Webster County Fair.

F. M. Hutcheson, Jr., whose management of the Webster county fair, at Sebree, last year was so eminently pleasing and satisfactory, informs the public that the fair will begin this year September 18 and continue five days. It will follow the fair at Evansville, preceding Henderson and Owensboro.

TOPOGRAPHICAL GEOL. SURVEY

More About Benefits to Be Derived From

SUCH CO-OPERATION OF THE

State With the United States Geo- logical Survey—Steer It This Way.

MORE ABOUT IT NEXT WEEK.

The U. S. Geological Survey is charged with the duty of making a topographic and geological map of the entire area of the United States, as well as studying its water resources and reporting on its other economic products.

The expense of this work to the Federal treasury is reduced by the amount appropriated by the various States for co-operative surveys. All agreements for co-operation being on the basis of equal expenditure, they necessarily reduce by half the cost to the Federal government of conducting its operations. An additional benefit of co-operation is the hastening of the completion of the topographic and the geologic map of the whole United States, which renders the maps available at an earlier date, not only of the United States but of the individual small quadrangular areas of different States, as a base for the further study of economic resources—geology, hydrography and the classification of lands.

The States benefit by co-operation, geology and allied scientific activities by the resulting deduction in expense of administration and the possibility of a specialization in detail otherwise unobtainable. It gains a complete topographic map of its area, which is of importance to the development of its numerous economic resources, and greatly facilitates the study and perfection of all engineering plans and works.

The topographic map is the base upon which the field investigations of the geologists and hydrographers are recorded, and which makes possible a broader and more general study of the results than is otherwise practicable. It was at once realized by State officials to whom such investigations had been assigned that an accurate and comprehensive performance of their duties was impossible without an adequate topographic base map. The expense of making such maps, however, was found to exceed in most instances the resources procurable from State aid. By co-operating with the Federal survey it was apparent that the opportunities for systematic mapping would be greatly increased in the States availing themselves of the personal and administrative knowledge of the survey.

States that have not entered this plan of co-operation with the Federal survey have not had much topographic work accomplished within their boundaries. This is not saying that without co-operation no topographic surveys have been made, nor will be made by the U. S. geological survey, but that co-operating States have had and will continue to receive preference in the matter, and that such States will have topographic surveys made of their areas of principal economic interest sooner and perhaps years before less favored non-cooperative States.

Kentucky has been for some years co-operating with the Federal survey. During the past two years the present inaugurated Kentucky State Geological Survey has co-operated with the Federal survey, allotting \$5,000 towards topographic work and the Federal government allotting the same amount. For the present year and for the next succeeding year \$10,000 has been allotted by each for topographic work in Kentucky. This for a period now of two years the State will have the benefit of \$40,000 appropriated for topographic work.

In the past years Eastern Kentucky has largely benefitted from co-operative topographic surveys; in fact, now almost the whole of the vast area embracing the coal field of Eastern Kentucky has been surveyed and mapped, beside several quadrangles in

the Central agricultural part of the State.

Topographic work is at last being carried on in Western Kentucky, and we want to reiterate operations to this floor-spar-zinc-lead district. We hope to show next week how this may be attempted.

SOME FAST RUNNING.

A Bird in the Hand Is Worth Two on The Cowcatcher.

Thursday of last week the South bound fast train that arrives in Marion 3:40 p. m. was pounding the rails, ties and dust in its mad flight towards Marion. The engineer had a death grip on the throttle and Conductor Colmesneil reeled like a drunken man from one end of the coach to the other.

Anchoring himself safely to a seat he endeavored to locate "where he was at" by the fast escaping landscape. The whistle sounded and the Cannon Ball rounded into the station at Marion. As he stepped to the ground Conductor Colmesneil knew a record had been smashed and was therefore prepared for most anything. Judge J. P. Pierce came rapidly from the engine holding a live quail which he had picked off of the cow-catcher.

The Judge informed the Conductor that he believed he would hereafter prefer walking to riding on a train that birds could not beat flying.

NEW TELEPHONE LINES

Cumberland Telephone Company Is Extending Its Lines Over This Territory.

The Cumberland Telephone Company will complete their line into Salem and an office will be opened in Norburn Farris' drug store by Saturday night. This office will be only temporary. The company will build an exchange there immediately and will then construct lines to Carrsville, Hampton, Smithland, Lola and Pinckneyville. They will run their line into Tolu and Dycusburg at once, with an exchange at each place, and are preparing to construct a cable across the Ohio river from Tolu, Ky., to Elizabethtown, Ill.

This will give splendid connection between this part of Kentucky and Southern Illinois into St. Louis.

Will Be Able to Walk.

Mr. Thomas Cochran has been confined to his bed for some days. His feet and limbs are not paralyzed, yet he finds he cannot walk a step. About all the use he has of himself is his voice which is singularly clear and strong. Another strange feature of the case is his inability to articulate which of course in the case of a Cochran is somewhat peculiar.

He has the constant attention of an expert trained nurse and all his friends think and hope that by close attention and careful nursing he will not only walk as well as anybody, but will also be able to converse intelligently with any one.

Dr. Dixon who has been attending him holds out the hope that he will be able to walk in about a year and talk inside of two years.

Of course this paragraph does not refer to Mr. Thomas Cochran, the hardware merchant, but to Mr. Thomas Cochran, Jr., his young son, who will be two weeks old next Monday.

Paul Walker's Church Disappears.

The old Pleasant Hill church, founded by P. L. H. Walker, will be torn down and a new building erected to take its place. J. S. Braswell, of this city, will have charge of the work. This church is called the Regular Baptist church. Some of the best people in Crittenden county belong to its membership. They teach and demand of their members a high plane of moral worth, and nothing short of doing right and treating their fellowmen according to the commands found in the New Testament will pass with their church tribunal.

They have some splendid devoted preachers. Eld. John A. Hunt, Eld. Frank Paris, Eld. J. L. Paris and the late Eld. L. H. Paris all belonged to this organization.

Notice.

To the officers of the November election 1905, that have not returned the keys and seals to the ballot boxes, please do so at once. Respt., C. E. WELDON, CLK.

FERTILIZER TRUST INDICTED

Bill is of Great Importance to the South.

ENGINEERED FROM CANADA.

Interstate Commerce Commission Has Dug Up Corruption in Coal and Oil.

SENDS OUT LETTERS TO RAILROADS.

Second only to the interest in the meat inspection bill is that aroused this week by the Department of Justice in finding indictments against the Fertilizer Trust. This trust is of more interest to the south than to the north as it has operated most largely in the states of Tennessee, Alabama, Arkansas, Mississippi, Florida, Georgia, and North and South Carolina. The indictments found against it are six in number and charge violation of the Sherman law and conspiracy in restraint of trade. It is said that in the states where the trust has operated, it has been able to put up the price of fertilizer from \$2.50 to \$4 a ton above what it would have been under free competition. The price has already dropped an average of \$2.50 per ton since the prosecutions have been impending.

One of the neat tricks of the trade that this investigation has unearthed has been the fact that the trust was practically engineered from Canada.

There was a company organized up there under the laws of Ontario known as the Colonial Development Company and supposed to have nothing to do with the fertilizer in the states. But as a matter of fact it was acting as the controlling company for all of twenty six supposedly independent companies in the United States and was adjusting territory, regulating sales and distributing profits. Now all of these United States companies have been drawn into the case as defendants. Among others it will be noticed that Amour, Swift and some others of the big meat companies with whom fertilizer is an important by product have been caught in the net and will have to answer for their participation in this as for a number of their other sins.

It took the Interstate Commerce Commission a good while to get busy in the coal and oil investigation under the Tillman-Gillespie resolution. It will be remembered that the first reply sent to Congress by the Commission was no reply at all and was indignantly returned by the authors of the resolution with the order to get to work. Well, the Commission has been working and has already turned a good deal of interesting material in the way of graft and corruption. But this week it sent out a circular letter to all of the railroads in the country that will furnish material for at least one volume of its prospective report. It wants to know the relation of all the roads to the coal and oil companies along their routes. Of course this will not touch all of the roads, because many of them

Washington D. C. June 19.—Interest in the Beef Trust fight still keeps to the fore. The latest excitement and resentment has been at the Capital where a letter from the President landed late this week telling chairman Wadsworth of the Agricultural Committee just what the President thought of the substitute for the Beveridge Amendment proposed by the majority of the committee. The letter goes over the situation in detail and shows that the House substitute for the inspection law is about as bad as it could be. It appears to have been drawn by the counsel for the packers and if it had been, as it probably was, it could not more nearly meet the requirements of the Beef Trust. The President says that he may sign it, but that if he does it will be with plainly written reservations. It is more probable that the measure will not be passed at all at this session and that the whole matter will be allowed to go over. This would suit the wishes of the Beef Trust and of all their friends of whom there are many in the House.

have no coal and oil lands along their routes. But there are a few questions that nearly all of the roads will have to answer and one that all of them will be in on. It's the question of where they get their lubricating oil, how much they pay for it, who the officials are who buy it, who the agents are who sell it, and a lot of other things, all directed palpably against the Standard Oil Company which is generally understood to control the output of lubricating oil just as thoroughly as it does the market for gasoline and coal oil.

It is a question whether anyone will ever read the commission's report through. It ought to contain almost as many volumes as the War Department's famous work "The Records of the Rebellion." But the series will have a whole lot of sensational matter in it and ought to be a valuable though cumbersome library of reference on the coal and oil business.

—(6)—

It has been announced from the Patent Office that Commissioner Allen, in response to a united protest from the inventors of the country, has decided to give up his prospective summer vacation and will hear cases all the hot season in hopes of catching up with the work of the office. This is a great concession. The Commissioner announced some time ago that all the other courts took a recess during the summer and that he considered himself a court and that he would do likewise. The work of his office is lamentably behind, so much so in fact that it takes two years in some cases to get a patent through the office. The matter was fought bitterly with the attorneys on one side and the commissioner on the other but the bureau of circumlocution lost for once and the work will be pushed all through the hot months though with small chance of getting up to date on the mass of cases that have been piled up. The real remedy will be found in making the entire patent office force work ten hours per day instead of seven hours until they catch up with their work. C. A. Snow & Co., Patent Solicitors, say that this remedy has been applied in years past with fine effect. The extra hour imposition will make them do real work during the day and in three months the unnecessary and disgraceful backwardness in the Patent Office will cease to exist.

CUPID PLAYS PRANKS

Popular Young Crittenden County Couple Elope to Elizabethtown and Are Wed.

Last Sunday Miss Sallie Weldon and Mr. Charlie Wright, both of Tolu, Ky., eloped and landed in Elizabethtown, Ill., where they were married. Miss Sallie is not yet eighteen years of age and it is rumored that her mother objected to marriage for one so young and therefore the elopement.

Miss Sallie is the daughter of the late Albert Weldon and sister of Mr. C. E. Weldon.

Mr. Charlie Wright is the son of Mr. Thomas Wright, a very prominent farmer, of Tolu.

The culmination of this wedding places the family of Albert Weldon in a rather peculiar situation. Mrs. Albert Weldon now has four sons-in-law and they are all named Charlie. They are Charlie Hina, Charlie Raymond Babb, Charlie Eugene Clark and Charlie Wright. Mrs. Weldon had a son now dead that was named Charlie and Charlie Humphreys is related to the family.

THE RECORD extends congratulations to the latest Charlie addition and hopes that Mr. and Mrs. Charlie Wright will live long and prosper.

WRITES ABOUT THE WEST.

Former Resident of Marion Gives Interesting Information.

Mr. Geo. F. Jennings, the carpenter who left Marion sometime ago, writes back to some of his friends here and gives some of the news of Oklahoma City, Okla. He says that crops are fine and that they have had plenty of rain.

He is now at work on a large building for the John Deere Plow Company, which will cost when completed \$25,000. He receives \$3.50 per day.

Oklahoma City has two roller mills and another \$50,000 one being built. They have six banks and three railroads, thirty miles of street-car tracks and thirty miles of concrete pavement. He also makes the statement that everything is high. The tax on a piece of property worth \$700 is \$72 per year, and the truth about the town is that everything is overestimated.

The Crittenden Record

PUBLISHED WEEKLY.

MARION, : : : KENTUCKY.

While Vesuvius is slinging mud, it never called the king of Italy a liar.

It is always wise to look on the man who keeps a diary as one who is loaded.

Seven anarchists are to be deported from Baltimore. Make it seventy times seven.

A Philadelphia paper tells of a cow that ate dynamite and "then became mad." Probably fairly burst with rage.

If, in seeking his short cut to the East, Columbus had started the Panama canal it might have been finished by now.

A Roxborough (Pa.) woman set a trap to catch a thief who had been stealing her poultry and trapped her husband.

Even Mayor Schmitz, of San Francisco, has his enemies. They are now charging him with practicing on the trombone.

United States Treasurer Treat announces that a "death of small bills exists." Just as if it wasn't always that way!

Let us hope that the Pullman porters didn't get coal mine stock as tips. They have had their share from the coal consumers.

The Panama canal supplies are to be purchased in this country, but with the proviso that their price must conform to the president's idea of economy.

Frequent and plentiful use of water, internally and externally, and the assured cleanliness of food materials, are the best safeguards against serious summer complaints.

A Belgian scientist has announced a hot-air cure. It is presumed that the country will have to tolerate the scientists till the railroad and mining companies are regulated.

One reason there are so many unhappy marriages is that a sweet-faced, gentle girl has an easy task in convincing a man she will give him his own way after marriage.

The German emperor would probably be less disturbed by the new Anglo-Russian agreement if he did not have a very vivid example of what such a combination could do to some of his pet schemes in a certain unpleasant experience of his at Algiers, Spain.

Snow is the condensed vapor of the air frozen and precipitated to the earth. When the air is nearly saturated with vapor, and is acted on by a current of air below the freezing point, some of the vapor is condensed and frozen into snow. The largest flakes are formed when the air abounds with vapor.

The lowest temperature on record in the United States is 64 degrees below zero, at Tabasco Garden, North Dakota. Greely, the Arctic explorer, has probably experienced a wider range of temperature than any other living man. He recorded 66 degrees below zero at Ft. Congor. On another occasion, in the Maricopa Desert of Arizona, his thermometer in the shade ran up to 114.

Dr. Strachan, bishop of Toronto, once received two church wardens, who complained that their congregation was the same sermon. He had preached it 12 times. The bishop asked for the text. Neither of the church wardens could remember. "Go back," said the bishop, sternly, "and ask your clergyman to preach the sermon once more and then come back and tell me the text."

It is claimed by a New York hospital doctor that the germ of rheumatism has been discovered. But there have been so many "sure cures" for rheumatism, and such an ocean of disappointments, that the discoverer will have long gone to his reward before suffering humanity will take notice of the germ "discovery," or even of the germ theory. Science has befuddled the rank and file, and the scientists themselves are rather unsteady on their legs.

To make vanilla ice cream by artificial means the alchemist took some triple refined cottonseed oil and placed it in a centrifugal machine which moved at a velocity of 3,000 revolutions a minute. A beautiful emulsion was thereby produced, which was then frozen, chemically, of course. The flavor was obtained by the addition of vanillin, glucin and nitrobenzol. They say that ice cream composed as above is sold in many southern states, where cottonseed oil is more plentiful, and consequently cheaper than milk or cream.

Truly, among ancient volumes there are none which yield better entertainment to the student of human nature and its follies and foibles than those dealing with ways and means to preserve mankind from ailments and disease. And though the present day is said to furnish better opportunities to the quack doctor and the valetudinarian than any former period in the world's history, a glance through some of the medical works of four or five centuries ago shows that it would be difficult to beat some of the suggested cures and prescriptions.

STATE NEWS HAPPENINGS

BEHIND MARCUM

Jett Says He Stole When He Shot Him Down.

Lexington, Ky., June 13.—Sitting in an armchair, coolly smoking a cigarette, Curtis Jett, serving a life sentence in the penitentiary, told a story in Cynthiana which stamps him the arch-assassin of the world.

Without the slightest hesitation or the least show of abashment, Jett detailed how he had crept up behind the young mountain lawyer, James B. Marcum, in the Jackson court house, and shot him in the back; how he had lain in wait in the circuit court room in the Jackson court house for James Cockrill and shot him down in the street; how he had planned and conspired for weeks with the men for whose money he was working to take the lives of these and other men whom they desired put out of the way.

Jett's confession was given to the press. It covers 20 pages of foolscap paper.

Cynthiana, Ky., June 13.—A fight between Matt Sloan, a convict, and Sam Jett, of Winchester, occurred in the waiting room of the depot here while the authorities were waiting to convey Jett to Jackson and Sloan to the penitentiary at Frankfort. Only for the prompt intervention of Chief of Police Hughes, it is thought, there would have been bloodshed.

HARGIS CASES

Transferred To Lee County and Will Be Heard July 2.

Lexington, Ky., June 16.—G. H. Jett, of Winchester, attorney for prosecution in the case of Judge James Hargis, of Breathitt county, charged with the murder of James D. Marcum, said that he had subpoenaed witnesses and that trial would consume three weeks at least. Trial begins July 2 at Beattyville, Lee county, the case having been transferred there from Breathitt. Officers left Jackson for Owsley county to arrest John Smith and John Abner, who are in hiding in the mountains. They are charged with firing shots that killed Dr. Cox. Smith is said to have confessed that he and Abner killed Cox.

ADMITTED TO BAIL.

\$15,000 Bond Given and Judge Hargis Released.

Lexington, Ky., June 15.—Judge Jas. E. Hargis, charged with the murder of Dr. B. D. Cox, was granted bail in the sum of \$15,000 at Jackson. The bond was immediately furnished, with Floyd and William Day and Alex Hargis as sureties. Hargis said: "I could take B. J. Ewen, Mose Feltner and Anse White and convict Jesus Christ of the murder of Abraham Lincoln for a paltry sum of money."

ASKED TO BE CANDIDATE.

Senator Joseph Blackburn Will Run For Governor.

Washington, June 14.—Senator Joseph Blackburn, one of the most picturesque figures in national politics, probably will be the next democratic candidate for governor of Kentucky. "He has received more than a thousand letters from Kentucky asking him to make the race. 'I am not a candidate for any office, but my sense of obligation to the democracy of Kentucky is such that there is no nomination from governor down that I would not accept if my party thought that by accepting I could save the democracy from defeat.'"

RELIEVED OF TAXES

By the Decision of the Kentucky Court of Appeals.

Covington, Ky., June 15.—By the decision of the Kentucky court of appeals wherein it is held that bonds for public works and municipal light and water works, and all other municipal works of necessity, are exempt from state taxes, this city is relieved of taxes on over \$1,000,000 of tangible property and franchises.

FOR THE DEFENDANT.

Covington, Ky., June 15.—In Judge Harbeson's court the jury returned a verdict for the defendant in the case of Emmett Brownfield against the Overman-Schroeder Cordage Co. The claim was for \$1,900 damages because of injuries Brownfield received in the cordage company's factory.

Primary in November.

Louisville, Ky., June 13.—The democratic state executive committee decided upon November 6 as the date for holding a primary election for all democratic state officers. At the same time a democratic nominee for the United States senate to succeed Senator McCrory will be selected.

University Gets Money.

Lexington, Ky., June 16.—At the 107th annual commencement of Kentucky university Prof. Walter White announced the college had met Andrew Carnegie's \$50,000 offer for a new science hall, and the intention of asking him for \$10,000 for a heating plant.

Eight Graduates.

Cynthiana, Ky., June 16.—There were eight graduates at the commencement exercises of the city school here Friday afternoon. The principal address was made by Dr. J. E. Harry, dean of the University of Cincinnati.

AFTER LONG YEARS.

The Name and Genius of Stephen Collins Foster Is Recognized.

Louisville, Ky., June 14.—While rain caused a postponement of the outdoor feature of the home coming week, it was unable to affect the fervor of the greeting extended by Kentucky to her long absent sons and daughters and the exercises of welcome day which were conducted in the armory were carried through in a manner both brilliant and gratifying, fully 10,000 people being present.

Louisville, Ky., June 15.—After long years the name and genius of Stephen Collins Foster has received a portion of the recognition that is his merit. For years his music has been sung by millions of people who never heard, nor gave thought to the composer's name, but he came, in some small measure, into his own, and the people of a great state whose name his gift of song has immortalized, rendered as best they could a fitting tribute to his memory—and their best would have highly honored any man, living or dead. A part of the Kentucky "Home Coming" was set apart as Foster day. Thousands of children, headed by bands which continuously played Foster's music, marched to the hall where the model of the statue which is to be erected by their contributions was unveiled.

DANIEL BOONE DAY.

The Event Was One of the Greatest Ever Held in the South.

Louisville, Ky., June 16.—As one day was given over by the "home-coming" jubilee to the memory of Stephen C. Foster, so another was, for the greater part, devoted to Daniel Boone. The great floral parade, which was postponed because of the rain, filled the streets of the business section. There were eight divisions in the parade, three of automobiles, one to one-horse traps and tandems, one to jollys and four-in-hands, one to pony carts, and the last to the department. The glorification of Daniel Boone came later in the day in Cherokee park. There was a reunion of descendants of Daniel Boone, about a dozen lineal descendants of the great pioneer being present. An hour later the statue of Boone, modeled by Miss Enid Vandell, of Louisville, and presented to the city of Louisville by C. C. Bickell, was unveiled. Brockton, a Castleman, of Louisville, made the presentation address for Mr. Bickell and the acceptance for the board of park commissioners was by Col. Durett.

REFUSES WRIT.

Court of Appeals Hand Down Decision.

Frankfort, Ky., June 14.—The court of appeals handed down a decision Police Judge McCann, of Louisville, refusing to grant a writ against to force him to retry the cases against saloonkeepers who violated the Sunday closing law, but they held that Section 1303 of the Sunday closing law, prohibiting the sale of liquor on Sunday, is constitutional, thus preventing any saloons from remaining open on Sunday. The effect of this decision is to make the law operative in the future.

The court was evenly divided on the question of granting the writ, but unanimous in holding the law constitutional.

FOR LIEUTENANT GOVERNOR.

Congressman South Trimble Has Announced His Candidacy.

Washington, July 15.—Representative South Trimble, who has announced his candidacy for the democratic nomination for lieutenant governor of Kentucky, says he will not be aligned with any faction or be upon any slate. Mr. Trimble has served three terms in congress, from the Ashland district, and has recently declined to be again a candidate. He has been active, as a member of the agriculture committee, at the hearings on the Beveridge meat inspection amendment to the agricultural bill.

WOMEN PRAYED

And Church Bells Rang While Local Option Piled Up a Majority.

Harrodsburg, Ky., June 16.—Local option carried here by 303 majority, after the most exciting election ever held in this city. The women held a sunrise prayer meeting to pray for the local option cause, while others prayed all day or remained on the streets to help the cause. Every church bell was rung continuously during voting hours. When the result was announced the fire bells and whistles joined in. A big jollification is being held.

Wore a Little Hat.

Louisville, Ky., June 16.—A natty negro, wearing a silk hat and carrying a cane, walked along First street. He created a panic among the women who had gathered to witness the floral parade. In police court he pleaded intoxication and was fined \$100.

High Professor.

Buffalo, June 16.—C. O. Lecompte, of Eminence, Ky., at the New York state amateur shoot, made high professional, with 43 out of 50 at 22 yards' line. J. A. R. Elliott, of Kansas City, got second, with a bout of 50.

GOV. PATTISON PASSES AWAY

Prolonged Sickness Brings Death Very Suddenly.

Cincinnati.—John M. Pattison, governor of Ohio, died at his home in Milford, a suburb of this city, at 4:20 this afternoon. He passed a good night and there was no report of any serious change during the day. During the afternoon the news from his home was considered favorable, and the announcement of death came without warning.

That the death of the governor was entirely unexpected was evident when it was known that during a contest over the requisition of Ellsworth Liverpool in the courts of this city today, both of the governor's physicians appeared to testify that his condition was such that he was able to transact official business. His private secretary, L. B. Houck, also testified to his good condition, explaining that he had recently gone over much business with him.

Although there has been for months an expressed fear that Gov. Pattison would not be able to return to his office at Columbus, the cheerful statements from his sick room tended to create a belief that any fatal outcome of his prolonged sickness would be long deferred. He continued to oversee the work of his office and through his private secretary, Louis B. Houck, transacted considerable public business, even when unable to arise from his bed.

Several times he seemed so far recovered that his speedy appearance at the executive offices was looked for at almost any time.

SOUTH CAROLINA CAMPAIGN

Col. Lumpkin Enters the Race Against Senator Tillman.

Columbia, S. C.—Col. W. W. Lumpkin today entered the campaign for the United States senate against Senator Tillman. Col. Tillman is a Confederate soldier, with a distinguished record. He is a nephew of a former chief justice, brother of a member of the present supreme court and grandson of a former governor of Georgia.

There are eight candidates for governor. Disparity is the main issue in the gubernatorial race. There are two candidates for lieutenant-governor, four for secretary of state, three for attorney-general, two for comptroller, one for state treasurer, two for adjutant general, one for superintendent of education, five for railroad commissioner and two for the United States senate.

NEARLY COST TWO LIVES.

Attempt of Italian Brigand to Rob Woman of Diamonds.

New York.—The attempt of an Italian brigand to rob a woman of a pair of diamond ear rings nearly cost two lives today. The would-be robber's victim was terribly cut about the face and head by a knife with which the thief attempted to cut the jewels from the woman's ears, and scarcely five minutes later the robber himself and a policeman who had arrested him were fighting for their life against a crowd of Hebrews who sought to avenge the assault. The robber was kicked and stoned and repeatedly knocked down before the policeman succeeded in safely landing him in a cell.

The victim of the assault was Mrs. Rebecca Kuper, and the assailant Joseph Carapace. He is 22 years old and has been in this country only about four months.

POISONED BOLOGNAS

Kill a Tent Dweller and Two of His Children.

Fort Smith, Ark.—As a result of ptomaine poisoning J. B. Baltimore, a tent dweller, and his eighteen months' old son and five-year-old daughter are dead and his seven-year-old daughter is critically at the Bell Point hospital. On Thursday of last week Mr. Baltimore purchased from one of the street lunch stands some Bologna sausage, of which he and his children ate heartily.

They were shortly afterwards taken sick and removed to the hospital, where the three mentioned died as stated. Mrs. Baltimore also ate of the sausage, but sparingly, so that she did not become fatally ill.

DISTURBANCES CONTINUE.

State of Unrest Still Prevails in San Domingo.

Washington.—Advises were received at the navy department today from Commander Southland, commanding the United States naval forces in Dominican waters, saying that there were further disturbances in that republic. The dispatch was at once sent over to the state department, where later it was acknowledged that the dispatch had been received, but the statement was made that it was of no importance and in fact conveyed no information of value. It is admitted, however, that ship movements show that the Paducah has gone to Sanchez, while the Duquesne has left Sanchez for Macoris.

NEW YORK FOUNDLINGS.

Shiplod of Them Sent to Points in Texas.

New Orleans, La.—The second batch of New York foundlings bound for points in Texas arrived today in charge of doctors and nurses on the steamship Proteus, and left tonight for Houston. Two were left here, one finding a home in New Orleans, and the other will be sent to North Louisiana. The points which will receive the remaining 51 are Houston, Chapel Hill, Brenham, Columbus, Weimar and Schulenburg.

PREPARED FOR THE CORONATION

TRONDHJEM, NORWAY, IS CAPITAL FOR THE NONCE.

ANCIENT CITY IS CROWDED

A Monster Demonstration By the Fisher Fleet at Aalesund, Led By The Royal Yacht Humdal—The King Pleased.

Christiana, Norway.—Trondhjem, yesterday a city of fishers, to-day is a capital. Many of those who will participate in the coronation of King Haakon have already swelled the population, and others are crowding north by steamers and trains. The gaiety over the confirmation of the country's new independence will reach its full tide Tuesday, when King Haakon Queen Maud and the baby Crown Prince Olaf reach Trondhjem. All over the country flies the flag of Norway—the white bordered blue cross upon a field of red—testifying to the fealty of the people.

King Haakon, Queen Maud and Crown Prince Olaf are continuing their journey northward along the coast. Sunday was spent in the vicinity of Molde, where their majesties were given a banquet at night.

A Great Demonstration.

Sunday began with a demonstration by the fisher fleet at Aalesund. Ninety steamers, 50 motor boats and scores upon scores of small craft participated. The royal yacht Humdal at first steamed through the fleet and was wildly cheered, and then the fleet formed in two long columns and steamed up the fjord, the Humdal leading. The families of the fishermen filled the boats. The crowd about numbered 8,000. At the conclusion of the parade all the vessels passed in review before the Humdal. King Haakon expressed his pleasure at the honor conferred upon him and at the picturesqueness of the marine parade.

CONGRESSMAN LESTER DIES OF HIS INJURIES

Washington, D. C.—The fear expressed that the injuries received by Representative Rufus E. Lester, of Georgia, who fell through the skylight of the Cairo apartment house, last Friday night, would prove fatal, were only too well founded. He died Saturday evening. The members of his immediate family were with him. The remains will be taken to his old home in Savannah for interment.

Mr. Lester was 68 years old and had represented the Savannah (Ga.) district in the lower house since the beginning of the Fifty-first congress, serving through most of his time as one of the democratic members of the rivers and harbors committee. He was a Confederate veteran and had served as president of the Georgia state senate and as mayor of Savannah.

THE BAN IS PLACED ON WOMEN.

The Barber Asphalt Paving Co. Will Employ No More Women After July 1.

Chicago, Ill.—"No women are wanted after July 1."

This is the general order that has startled the employees of the Barber Asphalt Paving Co., the great corporation practically controlling the asphalt paving industry throughout the United States.

Every girl employed by the company, which has offices in all cities of importance in the country, will be discharged on the date set in the order.

THE EDITORS WERE TOM TAGGART'S GUESTS

French Lick, Ind.—Over three hundred and fifty people, comprising the National Editorial association, were the guests, Sunday, of Thomas Taggart, chairman of the Democratic national committee. At night a concert was given in Mr. Taggart's hotel for the entertainment of his guests.

THREE AND A HALF YEARS IN PEN

Former President of Northwestern National Life Insurance Co. Sentenced to "Pen."

Minneapolis, Minn.—Dr. Jacob F. Force, who was former president of the Northwestern National Life Insurance Co. of this city, who was convicted of grand larceny, was Saturday sentenced to serve three and one-half years in the penitentiary by Judge Crooks. This is the first insurance scandal conviction.

To Make a Test Case.

Brooklyn, N. Y.—Sabbath day baseball playing by professional teams was resumed here, Sunday, and Cincinnati defeated Brooklyn 3 to 0, after the police had made five arrests in order that a test case might be made to the courts.

Order Restored in Bialystock.

Bialystock, Russia, via Warsaw.—Order has been restored. The three delegates sent here by the lower house of parliament have arrived and begun an investigation of the disturbance.

AN APPEAL FOR

WOMAN SENTENCED TO ASKS AID OF WOMEN

Mrs. Myers Charged With Murder of Her Husband, Says She Was Friends Not More

St. Louis, June 15.—The St. Louis Interference Mrs. Myers, charged with the murder of her husband, says she was friends not more.

Her Appeal. "I haven't a friend in the world," attorneys tell me that I am less Gov. Folk will save me there would be a chance to had the money to pay for me to the United States prison. But I have neither friends nor money. I believe, if the women of this will appeal to Gov. Folk will not let me be killed. I will die. I will die with my friends that I am innocent of the crime. Respectfully, "MRS. MYERS."

The Crittenden Record.

ISSUED WEEKLY.

GEO. M. CRIDER, Editor and Publisher.

SUBSCRIPTION ONE DOLLAR PER YEAR.

Entered as second-class matter July 15, 1904, at the postoffice at Marion, Ky., under Act of Congress of March 3, 1879.

FRIDAY, JUNE 22, 1906.

An Old Citizen Gone.

James Hickman Walker, aged 79 years, one of the oldest citizens and one of the best known residents of Marion and Crittenden county, left this life on Saturday afternoon just at five o'clock and entered into eternal rest.

Slowly but surely the machinery of life has been wearing out and the infirmities of old age asserting themselves, and the evening shadows closed in, the sunset of a long career came, and another human "landmark" of this section has passed away.

Mr. Walker has long been feeble, but up until the last day of his life he was able to be up. Saturday morning he grew very ill, and after suffering intensely for several hours, he sank into a state of coma from which he never recovered. Several relatives and close friends were with him when the end came.

The remains were removed from his home to the home of Mrs. John W. Blue, a niece, and on Sunday afternoon at four o'clock, a short but impressive funeral service was held, simple in conformance with an oft expressed wish of the deceased. Rev. J. R. McAfee, of the Methodist church conducted the service. A large concourse of friends, many of whom had known him from young manhood and had traveled along the rugged pathway of life with him, gathered to pay tribute to the memory of their friend and pioneer townsman.

At the new cemetery the interment took place. Revs McAfee and Price pronounced the last service. At the side of his wife, who died about three years ago, Mr. Walker was laid to await the Day of Judgement.

All the years of his long life were spent in Crittenden county, and for over half a century he had made his home in Marion. He watched Crittenden county grow from infancy to its present high state of development, and he was at the birth of Marion, and saw it first as a way-side, a hamlet, then a struggling village, and at last a modern and thriving little city. Few men have been as prominently connected with the affairs of Crittenden county, and consequently, none of older residents were better known than "Uncle Hick" Walker.

For thirty-four years Mr. Walker served in county official positions. In 1851 he was appointed deputy sheriff of Crittenden county under M. P. Haynes, and served until 1854, in which year he was elected sheriff and was reelected in 1856, serving four years. In 1862 he was elected circuit court clerk, reelected in 1868, serving twelve years in this office. In 1879 he was appointed master commissioner and trustee of the jury fund, and this office he held until 1894. A few years ago he was again appointed trustee of the jury fund but owing to his advanced years, resigned the office after a short term. In every office he served faithfully, making an official record without spot or blemish, and retired from office, retaining the confidence and respect of all.

James H. Walker was born on a farm near Tolu, this county Nov. 14th, 1827. His parents were Alexander Walker and Nellie Hickman Walker. He was one of a family of six children, all of whom, with one exception, have passed away. A sister, Mrs. Mary Henry Jones, survives him and was with him constantly during the last days of his life. She, also near the close of mortal life, awaits patiently the summons from on high that will enable her to join the loved ones in the life beyond the grave. Robert N. Walker, who died five months ago, was a brother. Mrs. Dell Wilson, Mrs. Lee Cook, and Mrs. Robert Mitchell, all dying years ago, were sisters.

In 1856, on Feb. 5th., the deceased was united in marriage with Hortense Gregory and together they lived for forty seven years, the wife dying on Dec. 12th., 1903.

Mr Walker was one of the most interesting characters of local life. Beyond doubt he possessed the best memory of any man living in Crittenden county. At any time he could call up names and faces of people prominent in local history, long since dead and unknown to the majority of the present generation. He was never so happy as when relating events of the years gone by. He really lived in the past, and his heart and mind dwelled always upon departed days. Not only with local history was he remarkably familiar, but he knew Kentucky History in almost all its phases from its earliest days. His acquaintance with the great Kentuckians of twenty, thirty and forty years ago was most extensive. His knowledge of historical events was wonderful in its scope, and such a powerful memory is rarely known. He often said that for many years when he was

sheriff and circuit court clerk that he knew every man by name and face in Crittenden county.

Kindly in disposition, large in heart, broad minded, honest in all his dealings, and considerate of his fellow man, Mr. Walker will live long in memory of those who knew him. Truly his long life was a useful one, and in passing from life to the grave, he rounded out a worthy, an enviable career.

The passing of the old men and the old women who have long lived among us naturally bring a feeling of sadness to nearly every heart. So long they lived and so closely have they been identified with the history of the town and county that with their departure it seems that some fixture, some vital portion of the community has been swept away never to be replaced.

Of Interest to Taxpayers.

For the benefit of the Tax-payers of Crittenden county I have the new law in regard to the taxing of Lien notes, mortgages, etc., printed, and ask you to carefully read the same, and if you have held any lien notes and mortgages within the past five years that have been paid off, and you have not released same of record, it will save you much unnecessary trouble if you will come in before the first of August and release same, as I will at that time begin to prepare the list, and it will take me some time to do so from the fact that I have to go five years back in compliance with a law passed by the last Legislature, which reads as follows:

10. Each county clerk shall, on or before the first day of September of each year, make and certify to the various county assessors, as hereinafter provided, complete statements of all purchase money notes, mortgage notes and other obligations for money due or to be paid, except purchase money notes, mortgage notes and other liens for money due, or to be paid, owned by banks or trust companies, as shown by the conveyances, mortgages and liens in his office. Said statements shall distinctly show the dates of execution and maturity of such notes or other evidences of indebtedness; the consideration therefor; the date of filing or recording same; the amount thereof, and the county of the residence of the owner, payee, beneficial holder thereof or other person or corporation liable for taxes thereon. Said statements shall be made to each county assessor of the State of such notes or other evidences of indebtedness as may be owned or held by persons or corporations residing, or having their principal place of business, in the county of such assessor. No mortgage, conveyance or other instrument or writing constituting a lien or other security for any note or other evidence of indebtedness shall be received for record by any county clerk of this Commonwealth unless such mortgage, conveyance or other writing give the county and State of the residence and postoffice address of the person or corporation owning or holding said note or other evidence of indebtedness, or liable for the payment of taxes thereon. Should there be an assignment of such note or other evidence of indebtedness, of record in the clerk's office, the assignment shall state the county and State of the residence and postoffice address of the assignee; unless any assignment is made of record, the original holder or owner shall be liable for taxes as though no assignment had been made. Any person who shall knowingly and intentionally give a false or fictitious address or name in any such instrument or assignment, as above mentioned, shall be guilty of a misdemeanor and shall, upon conviction, be fined not less than ten dollars nor more than one thousand dollars. Each statement made by the county clerk, as herein required, shall cover a period of one year next prior to the date such statement is required to be made: Provided, That the first statement to each county assessor made hereunder shall cover a period of at least five years prior to the time such statement is made. Said statement shall be sworn to by the clerk before some person authorized to administer oaths, as a full and complete statement of said facts. For his services in making such statements, the clerk shall be paid a reasonable compensation by the fiscal court of his respective county; said statement shall be returned by the various assessors, with their tax books schedules and list of conveyances, to the county clerks of their respective counties for the use of the Boards of Supervisors. Any county clerk failing to perform his duties under this section shall be punished by a fine of not less than fifty dollars nor more than one hundred dollars, to be recovered by warrant or indictment. Nothing herein shall be construed to effect the validity of any instrument or assignment heretofore made.

11. The assessor upon receiving from the county clerk the statement of all purchase money notes, mortgages, notes and other liens, as provided in section 10 of this article, shall fix the value upon each and all of said notes and liens, estimated at the price each would bring at a fair voluntary sale, and enter the same in his tax book against the owner or beneficial holder thereof as it is provided in section 6 of article 1 that the property assessed shall be entered and he shall return said statement to the county clerk for the use of the Board of Supervisors.

12. All taxable estate shall be assessed and valued as of the first day of September in the year listed, and the person owning or possessing the same on that day shall list it with the assessor, and remain bound for the tax, notwithstanding he may have sold or parted with the same.

From the above, it will be advisable for all parties that have within the last five years, held purchase money, mortgage or other lien notes that have not released same of record, to come in before the first of August and release them, otherwise they will make part on your list of taxable property. No doubt but there are a great many such notes of record that have been paid but never released, but in making out the list for the assessor we have no way of telling whether or not they have ever been paid except where releases have been made on the margin of the deed and mortgage books. For each release, the clerk is allowed by law, 25c, to be paid by the party making the release.

Trusting that you will give this due notice.

Very Sincerely,
C. E. WELDON, Clerk.

Chamberlain's Salve.

This salve is intended especially for sore nipples, burns, frost bites, chapped hands, itching piles, chronic sore eyes, granulated eye lids, old chronic sores and for diseases of the skin, such as tetter, salt rheum, ring worm, scald head, herpes, barbers' itch, scabbies or itch and eczema. It has met with unparalleled success in the treatment of these diseases. Price 25 cents per box. Try it. For sale by Haynes & Taylor, the enterprising druggists, of Marion.

Owensboro Tobacco Market.

The best average sales of tobacco for the year were made Monday morning at the auction house, says the Messenger, when seven loads were sold and all but one crop brought above \$3.50 for leaf and lugs. These sales were the first made since May 28, when two loads were sold and none had been sold for two weeks before. The total sales of the year to date are 2,704 loads. The sales on Monday were as follows: A. French, \$4.65, \$8.00, \$2; J. B. French, \$8.70, \$8.70, \$2; S. A. Tonia, \$8.50, \$8.50, \$2; W. M. Lyons, \$8.30, \$8.20, \$2; Dean & Seaborn, \$7, \$4.20, \$2; Dean & Seaborn, \$4.20, \$4.20.

Deadly Serpent Bites

are as common in India as are stomach and liver disorders with us. For the latter there is a sure remedy. Electric Bitters; the great restorative medicine, of which S. A. Brown, of Bennettsville, S. C., says: "They restored my wife to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by Haynes & Taylor, druggist. Price 50c.

Death From Lockjaw

never follows an injury dressed with Bucklen's Arnica Salve. Its antiseptic and healing properties prevent blood poisoning. Chas. Oswald, merchant, of Rensselaerville, N. Y., writes: "I cured Seth Burch, of this place, of the ugliest sore on his neck I ever saw." Cures Cuts, Wounds, Burns and Sores. 25c at Haynes & Taylor's drug store.

Newspapers for sale at this office.

THE PAPER THAT MERITS YOUR CONFIDENCE

The Crittenden Record

Built up from the ground in eight months to an unusual prestige standing, then unfortunately burned out absolutely, but it never missed an issue and today greets you brighter and better than ever. In fact it's the up-to-date Western Kentucky Newspaper.

That's the Record's record, the paper that has won for your patronage.

It contains all the best General News and all the Local News in Crittenden County, and remembers adjoining counties. It is read in the home everywhere. If you are not a subscriber send in a dollar and become one now, only \$1.00.

CLUBBING RATES.

We have made arrangements whereby we can furnish you any of the following Daily Papers and THE CRITTENDEN RECORD at the price named:

| | |
|---|--------|
| St. Louis Republic, daily except Sunday | \$4.00 |
| " " " " " " | 6.80 |
| Louisville Evening Post and chart | 3.50 |
| " " " " " " | 3.00 |
| " " " " " " | 3.50 |
| Courier Journal daily except Sunday | 6.40 |
| " " " " " " | 8.20 |
| Inter Ocean daily except Sunday | 4.20 |
| " " " " " " | 6.00 |
| Louisville Times | 5.00 |

If you can get the daily paper of your choice and THE RECORD at almost the price of the daily alone. We can also furnish you any paper not named above at clubbing rates.

THE RECORD with any of the following Weekly Papers:

| | |
|------------------------------|------|
| The Courier Journal, weekly | 1.00 |
| Louisville Herald | 1.00 |
| Nashville American | 1.00 |
| Cincinnati Enquirer | 1.00 |
| Globe-Democrat, semi-weekly | 1.00 |
| Home and Farm, weekly | 1.00 |
| Yellow Jacket, twice-a-month | 1.00 |
| Live Stock Reporter, weekly | 1.00 |

THE RECORD one year, and

| | |
|--------------------------|------|
| Breeders Gazette | 1.00 |
| Practical Farmer | 1.00 |
| McCall's Magazine | 1.00 |
| Tom Watson's Magazine | 1.00 |
| Johnston Mining Magazine | 1.00 |

What you want in this list we will be pleased to quote you lowest club prices.

THE RECORD is now in its new and modern dress in which it arises from the ashes of the late fire. No paper in Western Kentucky is in a better position to fill your wants in the advertising or publicity line and none have a stronger or more substantial following. Call on THE RECORD, make your wants known and leave a few suggestions regarding your business to the publicity department and note the results. If local and general news, together with a variety of other reading matter makes a paper popular THE RECORD certainly has all those features. If you want no other paper do not fail to send a dollar to

MEYER & SON.

How to Break Up a Cold

It may be a surprise to you to learn that a severe cold can be completely broken up in one or two days. To do this, however, prompt action is necessary. The first symptom of a cold, a watery discharge from the nose, thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition in one day or two. For sale by all druggists. Taylor, the enterprising druggist of Marion.

Grover Cleveland is a poor man, but he need not think that can attract the attention of the public when he rises to make a speech on the need of tariff reform.

Old newspapers, 25c per hundred.

RECORD office.

LITTLE RECORDS.

F. W. Nunn, Dentist.
Cherry Ice at Haynes & Taylor's.
John Nunn is quite sick.
D. Threlkeld was in town this week.
Will Crawford and family spent Sunday in Tolu.
Ladies see our 5 and 10 cent counter.
Old Mr. H. F. Kuykendall is improving slowly.

Mrs. J. R. Montgomery, of Elizabethtown, Ill., is visiting the family of D. Woods.
Mr. Turner Hodge and son, of Aimes neighborhood, was here Tuesday enroute to Colorado.
Call at M. E. Fohs' tailor shop in rear of 5 and 10c store and look over his new line of pant goods.
Born to the wife of Geo King, a fine pair of twins, a boy and a girl. Mrs. King is getting along fine.
Fourth of July excursions over the I. C., one and one-third fare, for the round trip, tickets on sale July 2, 3, and 4 good returning July 8th.
E. S. Love came home Sunday from his work on the new railroad. Mr. Love is running three teams and is delighted with the work.
Mrs. Fannie P. Walker and her sons, Lucien and Joe, left this week for Chicago for a months stay and recreation with the brothers of Mrs. Walker.
The ladies of the Chautauquan Club will entertain their husbands at a picnic luncheon on the lawn of Hon. W. J. Deboe, on Friday evening at 7 o'clock.
Mr. Forest B. Heath is building a fine residence in Marion for Roe Williams of the Fords Ferry neighborhood. Mr. Heath is one of the best mechanics we have ever had.
From letters lately received we learn that Mrs. C. S. Nunn is very much improved. The prospect of seeing her husband about July 1st undoubtedly has something to do with the improvement.
Mr. Guy Olive, of Eddyville, Ky., formerly a Marion boy, started to Grand Junction, Colorado, last Tuesday to visit the family of R. C. Walker, and also expecting to make Colorado his future home, if pleased with the country.
Quite a number of correspondents and considerable other important matter was crowded out of last week's issue for various reasons. We are not much better off this week, but hope to get things straightened now in a week or two.
The Crittenden Press states that F. B. Heath went to Louisville to buy his finishing material for the Roe Williams house. We wish to state that we are furnishing every piece of lumber in the Roe Williams' house, both rough and dressed. Boston & Paris.
Mr. Thos. Chappel, of Dawson Springs, Ky., and Mr. L. D. Bishop, of Cedar Vale, Kansas, have been visiting Messrs. William and Thomas Yandell. Mr. Bishop is a stock king of Kansas and owns 3,400 head of cattle. He is a step uncle to the Yandell Brothers.
Owing to confusion incident to the selection and installation of new machinery we omitted proper credit for an article that appeared in last week's issue under the caption "School Children be Examined." This article was copied from a current issue of the American Practitioner and News and is from the pen of Dr. T. Atchison Frazer, of this city.

Ladies see the 5 and 10 cent counter at Hicklin Bros.
Messrs. E. H. James and Jesse Olive left Tuesday for an extended trip through Indian Territory and Texas. They go with a view of seeking a home in this section of the country.
A splendid communication from Dycusburg reached us this week too late for publication. It was accompanied with a report of the Dycusburg school, which will appear next week. We regret this letter, as well as several others came in too late to be put in type.
AMONG THE CHURCHES.
The Rev. J. F. Price will preach at Dixon next Sunday.
The County Sunday School Association of Webster county will hold its annual convention at Providence next Tuesday. Rev. J. F. Price, of this city, will attend.
The services at the C. P. church last Sunday morning were interesting and edifying. The pastor preached on the theme, "Likeness to Christ." Text: 1 John 3:1, 2. He said that there are two things that we know from this text: 1st, We are the sons of God. 2nd, We shall be like Him. First, in the resurrection and glorification of our bodies. Second in knowledge. We shall not be omniscient, but our minds will constantly expand. Third in moral character, not in degree but in kind. Fourth, share with Christ the joys of Heaven. At the close of the service Mr. Lee Vick united with the church.
Eld. J. S. Rowe went to Dixon last Saturday and preached there Sunday in order that he might encourage the disciples there to build a nice church, which building they have in contemplation having subscribed three thousand dollars already to its erection.
The series of meetings conducted by The Martin Family, of New York City, came to a close last Thursday night. The large auditorium was filled to its utmost to hear Bro. Martin's lecture on Cuba and the Caribbean Sea and all were pleased with it. Ten faithful workers were added to the one body under his preaching. The Martin Family left on 11:30 train Thursday night for Chicago.
John D. Goes to Dycusburg.
John D. Gregory went to Dycusburg Tuesday and accepted an offer of town marshal from the Dycusburg town council. T. J. Yates was elected police judge Tuesday morning and as soon as he gets his commission from Gov. Beckham Mr. Gregory will assume the duties of his office. Dycusburg is fortunate in securing John D. He served as night watchman here in Marion.
An Alarming Situation
frequently results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life Pills; the best and gentlest regulators of Stomach and Bowels. Guaranteed by Haynes & Taylor, druggist. Price 25c.
Lost His Reappointment.
As we go to press word comes that Mr. Joel Deboe, postmaster at Clinton, Ky., has lost his re-appointment. The President sent the name of G. W. Berry to the Senate, June 20th for confirmation as Postmaster at Clinton. He also sent the name of T. F. Beadles for Postmaster at Fulton. Joel Deboe is a Crittenden county boy and his many friends here will be sorry to hear of his misfortune.
Sore Muscles.
Prominent athletes throughout the country find that the best treatment for sore muscles after severe exercise or hard work of any kind, is a hot bath at bed time, which opens the pores. This should immediately be followed with an application of Chamberlain's Pain Balm vigorously rubbed into the skin. This liniment removes all stiffness and soreness and has become a favorite rub down, as it acts promptly and keeps the muscles in excellent condition. For sale by Haynes & Taylor, the enterprising druggists, of Marion.
UPTON SINCLAIR
Boy Who Raised the Packingtown Ltd.
New York, June 19.—To Upton Sinclair, a mere boy in years and appearance, is given credit for the swift legislative action at Washington which followed president Roosevelt's confirmation of the exposure of the meat packing industry of Chicago.
It was after the president had read the novel "The Jungle," in which Sinclair told in thrilling narrative the horrors of Packingtown, that the young novelist and self-confessed "muck raker" was summoned to the White House to repeat personally the charges he made in his book.
The President, it is said had lost his

DROPPED DEAD!

You pick up a paper nearly every day and read that some man or woman in apparently perfect health has died suddenly at a banquet, on the street, at the theater, at the house, at the office, at the hotel, at the club, at the restaurant, at the dance, at the party, at the wedding, at the funeral, at the hospital, at the prison, at the gallows, at the execution, at the battlefield, at the sea, at the air, at the land, at the sky, at the earth, at the sun, at the moon, at the stars, at the planets, at the galaxies, at the universe, at the end of time.

Dr. Caldwell's Syrup Pepsin

after eating. It relieves that "full feeling," stops fermentation, aids digestion and prevents biliousness and constipation.
T. G. HAMMEN, Waggoner, Ind. Ter., under date of May 21, 1902, writes: For over a year I was troubled with my heart. Doctors and medicines were unable to help me. Finally I noticed an advertisement of Dr. Caldwell's Syrup Pepsin stating that oftentimes Heart Trouble was caused by indigestion, and that Syrup Pepsin would cure indigestion and gas on the stomach. I tried it and was fully cured and wish to take this means of letting others know of the merits of Dr. Caldwell's Syrup Pepsin.

Your Money Back

appetite for meat, and was convinced that if Sinclair's charges were true he had taken the cover from one of the greatest public evils.
"I am twenty-seven years old" he said to me when I called at his office. "I was born in Baltimore of poor parents, and I gained my education in the College of the City of New York and Columbia University by writing for newspapers and periodicals. I was fourteen when started writing. My first work was anything but serious—in fact, I earned money faster, I found, by writing jokes. When I was seventeen I had complete a book containing 80,000 words. I have been told that it was very bad, and I guess that's right.
"I felt that I had ideas, and I wondered why the world would not give me credit for my high ideals.
"Six years ago I left college and started to write my book 'King Midas.' I had had a pretty tough fight for a living in New York, but it was no worse than I endured in Canada while writing this book. I lived in shanties and tents and often subsisted on game and fish. There have been many weeks that I have not had a cent in my pockets, but somehow I always felt, even though my books were rejected with great regularity, that in the end I would win out my chosen profession.
"I obtained my first information of the conditions in Packingtown from socialists, of whom I am one. I determined to write the story. A New York magazine publisher sent me to Chicago and I wrote six articles. Two were printed; the others destroyed, as the editor doubted my statements. This fired me with renewed ambition to tell that awful story to the American people. I returned to Chicago and lived for seven weeks in Packingtown. My socialist friends assisted me. Many were employed by the packers, and I was enabled to get all the information I needed. I was engaged one year in writing the book.
"I am glad if my work has been of service, not only to the meat consuming public, but to the wretched workers in the Chicago stock yards. Not yet can I get from my eyes the miserable scenes I witnessed there. My story has been criticised and doubted on every hand. I wrote it to tell the truth relentlessly.
"I saw with my own eyes the rendering of condemned hogs into lard, saw them doctoring spoiled hams by pumping them full of chemicals by means of a hollow needle; saw the rooms where rats, dead from poison, are shoveled up and dumped into the hoppers for sausage meat.
"My statement that men have actually fallen into the lard vats and have come out in the form of 'pure lard' is literally true. I have proved absolutely that fingers of workers cut off in the machinery have been ground into prepared meats.
"There can be no question of the immorality of the atmosphere of Packingtown. There has been much doubt cast upon my assertion that a forelady employed in one of the factories worked in connection with a disreputable resort in Chicago. The truth is this thing is common."
"Do you eat meat?" I ventured to ask.
"Never, except that which comes from my own little farm. I would no more eat meat purchased in the regular way in New York than I would eat poison or filth.

The Louisville Daily Herald and THE RECORD both one year for \$2.00.

supplies the following plans for a
self-feeder for hogs.

The front as shown in the first illus-
tration is 28 inches high and is made
of inch boards running lengthwise of
the feeder. If desired, these boards
can be run up and down and nailed to

SELF FEEDER FOR HOGS.

a frame at top and bottom. I prefer,
however, to have the boards run
lengthwise. The rear side slants to-
wards the front being nailed at the
bottom as shown in Fig. 2. In the
same cut AE represents one of the
legs in the rear that furnishes the sup-
port to the slanting back (D). These
supports are set two feet apart on a

CROSS SECTION OF SELF FEEDER
six-foot feeder and four feet apart on
a 12-foot feeder. The bottom of the
self-feeder is made of plank, as shown
at AB in Fig. 1.

I have placed 1x3 pieces across the
front as shown at FE, so as to keep
the hogs out of the trough. Placed 12
inches apart there is ample room for
the hogs. The sketches explain them-
selves. Anyone can make one of the
feeders with a hammer and saw and a
little material as follows:

One 2x12 plank for the bottom,
dressed on one side.

Two 1x12 pieces for the front, dressed
on one side.

Three 1x12 pieces for slanting back
dressed on two sides.

Besides the above some 1x3 strips
will be needed to make the guards. I
think that anyone will be able to make
this feeder from the drawing and de-
scription I have given.

COWS AND COWS.

One Animal Differs from Another and
Must Be Fed and Managed
Accordingly.

A good cow in good condition may
eat my ration as given and make one
and a half or two pounds of butter fat
per day. Another cow in good condi-
tion will eat and digest the same
amount of feed and make but a pound
of butter—how about her in relation
to her feed? This is the problem a
Pennsylvania farmer is seeking to
solve, and in reply to his question the
Ohio Farmer says: That does not dis-
prove that the possible milk producing
elements were in her ration, for on a
similar ration the other cow made the
greater returns. It is not in the feed.
It is in the cow, and if she will keep
on doing her daily one pound task for
about 300 days she is meeting her ob-
ligations even to the extent of being
conspicuous in such modest perfor-
mance; but the other cow is a very much
better cow.

Again, there is a good conditioned
cow that on such a ration makes only
half a pound of butter a day, what
shall we say of her? She is a fraud,
a hanger on, an absorber of the sweat
of the outside of the dairyman's brow
because he doesn't sweat a little more
on the inside of it. Such a cow
should be stuffed with nubbins and
other cheap feeds and moved on to the
butcher.

The government is going to embark
in the production of these general pur-
pose animals; these misfits of the live
stock industry, we are told, as if we
didn't already have them in herds and
droves. We dairymen may not always
know what we want but there are
many simple things we know we don't
want.

Mortgage Raisers.

The cow, the hog and the hen will
support the family raise mortgages
and bring in money every week in the
year, says the Farm Journal. The
world cannot beat that combination
for steady reduction.

Thumps in Young Pigs.

Thumps is caused by the young pigs
becoming overfat, as the result of too
little exercise and too much feed. The
pigs should be stirred out of the nest
when not turned out, and thus made to
move about.

PASTURE FOR SHEEP.

Much Valuable Information May Be
Gained by Study of Eng-
lish Methods.

Pasture for the flock is ever a para-
mount question with the ardent flock-
master, and while frequently dis-
cussed, the solution is far from being
at hand. We American flock owners
have a great deal to learn regarding
pastures, especially as to quality and
quantity produced. Our English breth-
ren excel us in pasture management.
They more fully appreciate its im-
portance to economical live stock
production. In the years gone by
nature has been our most intimate
friend in supplying green forage for
our flocks. We have come to rely upon
her supply as inexhaustible and have
paid little or no attention to offering
any assistance to increase her pro-
ductiveness. The older our country
grows under our present system of
farm management, the more unproduc-
tive our soils will become from inces-
sant cropping, and unless some thought
is given to establishing a more perma-
nent supply than we have already at
hand, our sheep raising industry is
going to be seriously handicapped.

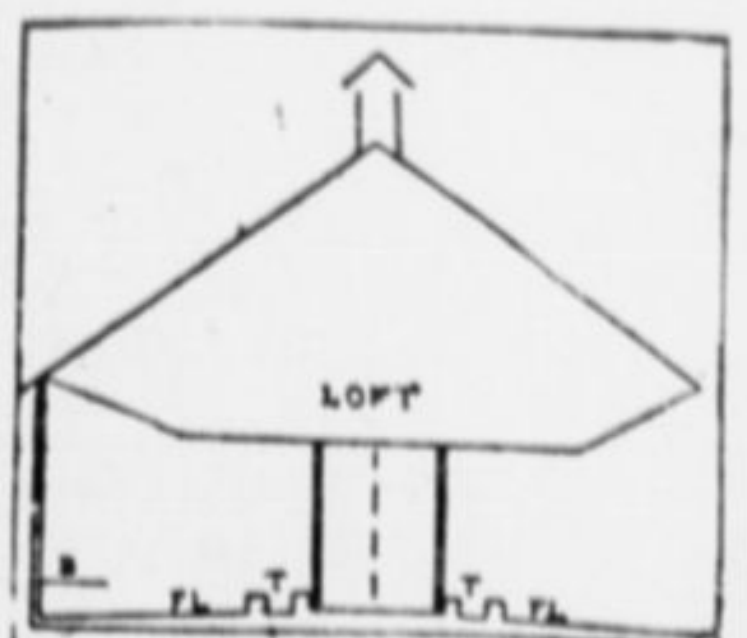

The American flockmasters can well
afford to study English methods of
pasture management. While our con-
ditions are not coincident with those
in the old country, there are many im-
portant facts concerning their meth-
ods of handling pastures, well adapted
to our present conditions, and will
admirably assist in rectifying our pas-
ture evil. It is my opinion that Ameri-
can flockmasters sooner or later are go-
ing to be compelled to adopt some per-
manent method of maintaining pas-
tures, the same as those followed in
the older countries where the land is
more intensely cultivated. So far, in
this country, very little attention has
been given to establishing permanent
pastures and maintaining them for a
series of years. There are several rea-
sons why our present conditions war-
rant such a conclusion. In the first
place, as our country develops the land
is going to increase in value and con-
sequently land owners are going to be
forced to cultivate more intensively.
They are going to be compelled to
grow two or three blades of grass
where formerly only one grew, in or-
der to make agriculture profitable.
Then, too, our live stock enterprise
must be brought to a higher level, that
is, we must grow more and better
stock upon a less pasturing area, and
thus reduce cost of production. We
also must give our cultivated soils bet-
ter attention by returning more or-
ganic matter, and less pastured off.

Permanent pastures, either in long
or short routine, must in the near fu-
ture come into practice to furnish
green food for our flocks. We cannot
afford to allow our present lands to lie
in pasture, because they are poorly
adapted to pasture production. Good
pasture, the same as any other crop
raised and cultivated upon the farm,
must be sown and maintained with
equally prudent management if the
best results are to be obtained. There
are always, upon most farms, certain
fields having soil better adapted to
pasture production than to the grow-
ing of farm crops, and can be more
profitably maintained in pasture than
in the regular routine. Such lands
are naturally adapted to pasture pro-
duction, and can be made far more
profitable if seeded down to some per-
manent meadow and maintained for a
few years and by proper fertilizing
caused to increase in productiveness.
Under such management a higher
quality of herbage can be grown upon
less area, with additional quantity. At
"Forest Grove" farm, says the Ohio
Farmer, we are seriously considering
the establishing of some permanent
pasture land for maintaining our
flock, and maintain a larger flock up-
on a less pasturing area. It is our in-
tention to seed one field down to sev-
eral species of grasses and by the ap-
plication of fertilizer increase its pro-
ductiveness. Every flockmaster can
well afford to give this matter of pas-
ture for the flock some careful
thought. We have the climate, the soil
and the brains to make the best
pastures in the world.

REAR SLANTING HOG HOUSE

Canadian Authority Gives Some New
Ideas in Reference to
Arrangement.

Grisdale, of Ontario, has a design of
a hog house that will appear as some-
what unique to American hog raisers.
The general idea of the plan may be
secured by referring to the accompa-

CROSS SECTION OF HOG HOUSE.

ing illustration. The passage down the
middle is represented as higher than
any other portion of the hog house.
Conveniently arranged on either side
are the feeding troughs, and back of these
is the feeding floor slanting to the rear
of the pen. On a raised platform in
the rear is the sleeping place for the
hogs. The floors are supposed to be
made of cement, so laid that all water
will tend to run to the rear and to one
of the two corners. This provides a
rear drainage, and as the water must
pass under the sleeping platform there
is reason to believe that this
will always be fairly dry.

ORACULAR OBSERVATIONS.

Many a good resolution quickly runs
down at the heel.

A pretty girl can teach a man most
anything but good common sense.

It pays to look a mule in the face
when you have anything to say to
him.

About half of the things bought on
credit would not be bought if cash
were demanded.

Have you noticed that the bottom
of a cup of joy that runs over is sel-
dom far from the top?

It's a good deal better to think
poetry than to write it, and better to
write it than to print it.

Marconi Anticipated.

An Egyptologist and an Assyriologist
were disputing about the relative ad-
vancement of the two ancient peoples
whom they were studying.

"Why, sir," cried the Egyptologist,
"we find remains of wires in Egypt,
which prove they understood electric-
ity!"

"Pshaw!" answered the Assyriolo-
gist, "we don't find any wires in Assy-
ria, and that shows that they under-
stood wireless telegraphy!" — *Stray
Stories*

"Be Pleasant Every Morning Until
Ten O'clock; the Rest of the Day
Will Take Care of Itself."

This is one of the best little ser-
mons we know. Have you ever
stopped to think that the morning
is the time when your temper is usu-
ally ruffled, and have you ever
stopped to think that the cause of
bad temper in the morning is nearly
always because your stomach has not
been working properly during the
night? It has contained a lot of in-
digestible substances that form gas
and makes you have dreams. It
breaks up your rest and you wake up
in the morning tired, instead of re-
freshed, as nature intended you
should.

Our grand sires required no ad-
monition to "Be pleasant every morn-
ing until 10 o'clock; the rest of the
day will take care of itself," for they
digested their food and woke up full
of life and energy ready for the day's
duties, and this was because they
lived on simple foods instead of high-
ly seasoned palatable concoctions,
which contain no nourishment. Na-
ture gave us milk, wheat and eggs,
and on these foods a person can
live indefinitely, but if the milk is
skimmed, and if the outside of the
wheat is taken off the kernel, and if
the lime, the salt, and the iron, which
is in the outer part of the wheat
berry, if these are all removed, you
have simply starch alone, the starch
goes into the stomach and becomes
sugar.

Do you know that a person would
starve to death on plain white bread
and water? Do you know that he
could live indefinitely on whole wheat
bread or on whole wheat food and
water? These interesting facts are
all set forth in a book called "Back
to Nature," which tells about proper
living and gives recipes for meals of
the simple kind—the kind that makes
you strong and well, the kind that
makes you "Pleasant every morning
until 10 o'clock." This book is pub-
lished at a great expense, but it is
given free to every reader of this
paper. It is an advertisement of
"EGG-O-SEE," the great food—which
is baked and predigested and is all
ready to serve from the package you
buy at your grocers. You get more
life and energy from a 10-cent pack-
age of EGG-O-SEE than you will get
from a thousand dollars' worth of
white bread. This is no idle claim.
It is a scientific fact. We want to
tell about this simple food question,
so write us and say "Please send me
a copy of your book 'Back to Na-
ture,'" and the book will be sent you
at once without charge. Address
EGG-O-SEE CO., No. 19 First Street,
Quincy, Ill.

Suggesting Safe Course.

McFibb—That fellow Huskie called
me a liar!

Newitt—Yes?

"Yes. What would you do about
it?"

"Well, if I were you, I'd make it a
point always to tell the truth when
he's around." — *Catholic Standard.*

Music for Neighbors.

"I've got to practice on the piano five
hours a day," said the disconsolate
small girl.

"What for?"

"Cause mother and father don't like
our new neighbors." — *Washington
Star.*

Best He Could Say.

"What do you think of these preak-
-a-boo shirtwaists the girls are wear-
ing?"

"Well, they're almost clothes!" —
Louisville Courier-Journal.

The more experience men and wo-
men have in rearing children, the slow-
er they are to give advice about rear-
ing children.

WOOD'S FEVER PILLS
FOR HALF A CENTURY
WOOD'S FEVER PILLS
HAVE BEEN RECOGNIZED AS A SURE CURE
for all BILIOUS and MALARIAL DISEASES.
As a Female Regulator, Blood Purifier, and
Laxative, they have no equal. 50c a box.
DR. WM. WOOD & SONS, Cairo, Ill.

TONIC TREATMENT

Weak Stomach and Sick Head-
Cured by Dr. Williams' Pink Pills.

The symptoms of stomach trouble
vary. Some victims have a ravenous
appetite, others loathe the sight of food.
Often there is a feeling as if of weight
the chest, a full feeling in the stomach.
Sometimes the gas presses on the liver
and leads the sufferer to think he has
heart disease. Sick headache is a fre-
quent and distressing symptom.

A weak stomach needs a tonic
and that there is no better tonic
for this purpose than Dr. Williams' Pink
Pills is shown by the statement of
A. C. Merrill, a mining man, of Cal-
ifornia, a veteran of Battalion C, U. S.
8. Regular Infantry.

"I had never been well since I
left the army," he says, "always having
trouble with my stomach, which was
weak. I was run down and debilitated.
Could keep nothing on my stomach
and at times had sick headache. I
thought I did not care whether I lived
or died. My stomach refused to digest
even liquid food and I almost stopped
getting well as I had tried all kinds
of medicine without relief. I was
laid up from work some time. I
year, six months of which I spent in
the hospital."

"One day a friend recommended
Williams' Pink Pills to me and I
began taking them. They cured me
of my stomach trouble and I was able
to do my work. I had tried all other
medicine had failed. I had recom-
mended the pills to a great many
for during my recovery every one
me what was helping me and I
them Dr. Williams' Pink Pills. I
do not speak too highly of them."

If you want good health you must
have good blood. Dr. Williams' Pink
Pills actually make new blood and re-
shatter nerves. They are sold
by all druggists or sent, postpaid, for
cost of price, 50c. per box, six boxes
\$2.50 by the Dr. Williams' Medical
Co., Schenectady, N. Y.

Girls' Help

At a certain age all
girls need the help of a
pure, reliable, tonic
medicine, to establish a
regular habit, that may
remain with them
through life. Much ter-
rible suffering, in later
years, is prevented, and
sturdy health assured
by taking

WINE OF CARDUI

WOMAN'S RELIEF

at this critical time of
life. "I gave Cardui to
my young daughter,"
writes Geo. Maston, of
Greenwood, Neb., "and
now she is a well-
checked girl, happy,
light-hearted and gay."
Strongly recommended
for all female troubles.
Try it.

At all Drug Stores

YOU CANNOT

CURE

all inflamed, ulcerated and catarrhal
conditions of the mucous membrane of the
nasal cavity, uterine catarrh caused
by feminine ills, sore throat, sore
mouth or inflamed eyes by simply
dosing the stomach.

But you surely can cure these stubborn
affections by local treatment with

Paxtine Toilet Antiseptic

which destroys the disease germs, checks
discharges, stops pain, and heals the
inflammation and soreness.

Paxtine represents the most successful
local treatment for feminine ills yet
produced. Thousands of women testify
to this fact. 50 cents at druggists.

INTERESTING LETTER

BY AN OTTAWA WOMAN

Dear Mrs. Kellogg of Denver, Color.
of the Woman's Relief Corps,
Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Col., to Mrs. Pinkham, Lynn, Mass.: "Dear Mrs. Pinkham: For five years I was troubled with a tumor, which kept me from my housework, and life became a burden. I was confined for days to my bed, and I could not bear to think of an operation, and my distress tried every remedy which would be of any use to me, and I was told of the value of Lydia E. Pinkham's Compound to sick women. I decided to try it. I felt so discouraged that I had no hope of recovery, and when I began to feel better, after the second week, thought it meant temporary relief; but to my surprise I found that I kept gaining, and the tumor lessened in size. The Compound continued to build up my health, and the tumor seemed to be melting, until, in seven months, the tumor entirely disappeared and I was a well woman. I am thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative power of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember that Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

Another medicine in the world has never achieved such widespread and unqualified endorsement. No other medicine has such a record of cures of female ailments.

Mrs. Pinkham invites all sick women to write her for advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction since her decease has been helping sick women free of charge. She has guided thousands to health. Address, Lynn, Mass.

Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

PURPOSE OF THE COURT.

Understood by a Lawyer Who Knew How to Circumvent It.

Hon. A. G. Jewett, lawyer, politician and man of sarcastic wit, was once trying a case in the supreme court in what, Me., his home city. The judge presiding, before being called to the bench, had tried many cases against Jewett, who did not entertain a very high opinion of his ability, relates the Boston Herald.

In his closing argument Jewett, in defiance of the rules of the court, started in to read some law to the jury. The court pounded on the bench and said: "Mr. Jewett, you must not read law to the jury in your closing argument." Jewett kept on reading without so much as a glance at the court. The court, in thunderous tones, ordered him to stop.

Jewett, who had by this time read all he intended to read, turned calmly to the judge and said: "Did your honor address me?"

"I said," roared the judge, "you must not read law to the jury in your closing argument. I will give the law to the jury. What do you suppose the court is here for?"

"What is the court here for?" responded Jewett, in high falsetto, "I suppose you know, sir, to keep order, with the aid of the sheriff, sir, with all due respect to the sheriff, sir."

Only Rich in Embryo Yet. The Hud—How did you get your start in life, senator?

The Senator—Why—er—I haven't really got started yet, you know. I am only worth \$10,000,000 as yet—Judge.

KNOWS NOW

Doctor Was Fooled by His Own Case for a Time.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts.

A physician speaks of his own experience: "I had used coffee for years and really did not exactly believe it was injuring me although I had palpitation of the heart every day."

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and since that time I have had absolutely no heart palpitation except on one or two occasions when I tried a small quantity of coffee which caused severe irritation and proved to me I must let it alone."

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes which gives it the proper rich flavor and the deep brown color."

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients. "There's a reason."

A remarkable little book, "The Road to Wellville," can be found in drug stores.

QUARTERLY REVIEW

Sunday School Lesson for June 24, 1906

Specially Prepared for This Paper.

GOLDEN TEXT OF QUARTER.—"Never man spake like this man."—John 1:16.

TOPIC OF QUARTER.—The words of Jesus.

TRUTH OF QUARTER.—Jesus spoke only words of help and comfort.

Review of Christ's Life.

It will clarify the minds of the scholars to go back to the beginning and construct a chart showing the principal events in Christ's life up to the transfiguration. This chart the teacher may form before the class, then cover it, and ask the scholars to reconstruct it, in writing, on the spot. In the arrangement Stevens and Burton's Harmony has been followed:

I. Thirty Years of Private Life. 5 B. C. to the summer of 26 A. D. Birth. In Egypt. In the temple.

II. Opening Events of His Ministry. Summer, 26 A. D. to Passover, spring, 27 A. D. John the Baptist. Baptism. Temptation. First disciples. First miracle.

III. Early Judean Ministry. Spring, 27 A. D. to December, 27 A. D. Temple cleansed. Nicodemus. At Sychar.

IV. First Period of the Galilean Ministry. December, 27 A. D. to early summer, 28 A. D. John in prison. Rejected at Nazareth. First preaching tour.

V. Second Period of the Galilean Ministry. Early summer, 28 A. D. to Passover, spring, 29 A. D. The twelve chosen. Sermon on the Mount (Lesson I.). Jesus and the Sabbath (Lesson II.). Second preaching tour.

Widow's son at Nain (Lesson III.). In Simon's house (Lesson IV.). Parables by the sea (Lessons V., VI.).

Gadarene demons (Lesson VII.). Third preaching tour. Twelve sent forth. John the Baptist killed (Lesson VIII.).

Feeding of the five thousand (Lesson IX.). VI. Third Period of the Galilean Ministry. From the Passover, spring, 29 A. D. to November, 29 A. D.

The Syrophenician woman (Lesson X.). Four thousand fed. Peter's confession (Lesson XI.). The transfiguration (Lesson XII.).

The "Miracles and Parables" Review. Most of our quarter's lessons are either miracles or parables. Give each scholar a copy of the following list of questions:

1. What was the miracle (or parable)? 2. What does it show of Christ's character? 3. What lesson had it for Christ's immediate hearers? 4. What lesson has it for us?

Ask the scholars to come prepared to answer these questions for each of the nine miracles and parables we have studied, and to apply the questions also to the other three lessons, so far as they are appropriate.

Books.—From what Gospel were the largest number of these lessons taken? Which Gospel reports most fully Jesus' Sermon on the Mount? Give titles of the lessons that are found in Luke. Why are we studying three Gospels at once?

Places.—I. In what province of Galilee do we see Jesus in these lessons? Where did he preach the Sermon on the Mount? Lesson 1. Where did Jesus work his first miracle of raising the dead? Lesson 3. 2. From what pulpit did Jesus deliver a sermon made up wholly of parables? Lesson 5. 3. From what place was Jesus urged to depart? Lesson 7. Where was John the Baptist put to death? Lesson 8. 4. What distant regions did Jesus visit? Lessons 10, 11. 5. On what mountain, probably, was Jesus transfigured? Lesson 12.

Persons.—6. Who charged Jesus and his disciples with breaking the Sabbath? Lesson 2. 7. What Gentiles showed great faith in Jesus? Lessons 3, 10. 8. Who supplied to Jesus what the discourteous Simon neglected? Lesson 4. Who were interested in Jesus' parables so that they sought to understand them? Lessons 5, 6. Who, in the country of the Gadarenes, was healed by Jesus? Lesson 7. 9. Who slew John the Baptist? Lesson 8. Who incited him to do this? Who made the great confessions of Christ? Lesson 11. 10. Who witnessed Jesus' transfiguration? Lesson 12.

Teachings.—11. To what have we paid special attention in this quarter's lessons? Quarter's Topic. 12. What was men's verdict about the words of Jesus? Quarter's Golden Text. 13. What did Jesus teach by the story of the Two Foundations? Golden Text, Lesson 1. 14. What did Jesus teach about the weekly Sabbath? Lesson 2. 15. How did Jesus once state his authority over death? Golden Text, Lesson 3. 16. With what words did Jesus comfort a sinful but penitent woman? Golden Text, Lesson 4.

Golden Thoughts. We may drop our buckets into empty wells but they will cause no strain on the windlass.

Where no fish are the fisherman whip the water in vain.

We need an armor for the camp as well as for the conflict.

The man who goes through life with an excuse on his lips will probably go into eternity with a lie in his heart.

Every man of manly instincts honors a manly man, but even a sneak displaces a sneak in his heart.—United Presbyterian.

CHILD'S AWFUL SKIN HUMOR.

Screamed with Pain—Suffering Nearly Broke Parent's Heart—Speedily Cured by Cuticura.

"I wish to inform you that Cuticura Remedies have put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot, and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep. One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. I tell you that Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent, my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

ODD BITS OF INFORMATION.

The Hawaiians are the world's best swimmers.

A frog cannot breathe with its mouth open.

Japanese children are taught to write with both hands.

An elephant will carry a load of 5,000 pounds with ease.

Quakers are very healthy; their average longevity being 61 years.

The English school of water-color painting is the best in the world.

The turbot lays 12,000,000 eggs a year—11,999,800 more than the best hen.

A certain jail in Mexico consists of an oak tree with chain and staple attachment.

Dried currants, fed regularly to horses, give them phenomenal strength and endurance.

At Quito, the only city directly on the equator, the sun rises and sets always at the same hour—six o'clock.

The Russians have the best teeth—an excellence which they impute to the regular chewing of sunflower seed.

In Spain a physician gets five cents a visit from a working man and 20 cents a visit from an aristocrat. He is supposed to tend the poor for nothing.

DOES YOUR BACK ACHE?

Cure the Kidneys and the Pain Will Never Return.

Only one way to cure an aching back. Cure the cause, the kidneys.

Thousands tell of cures made by Doan's Kidney Pills. John C. Coleman, a prominent merchant of Swainsboro, Ga., says: "For several years my kidneys were affected, and my back ached day and night. I was

languid, nervous and lame in the morning. Doan's Kidney Pills helped me right away, and the great relief that followed has been permanent."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

GOTHAM GRIST.

In New York city there is one policeman to each 459 persons.

New York's cemeteries, with their 3,165 acres of land, are sufficient for the burial of the city's dead, at the present death rate, for 150 years.

Since Peter Minuit, in 1626, bought Manhattan island from the Indians for \$24 in merchandise, there has been a daily average of 39 persons arriving in the territory now known as New York city.

If the sewers of New York city were placed end to end in a straight line they would reach from here to Pike's Peak, 1,710 miles, and the paved streets of the city would make a road along one side of them all the way.

If the wind that blew over New York city in one week recently should continue its way, at its average velocity, it would make the circuit of the earth and be back there the last week in August, if it moved at the rate of nine miles an hour.

A Harmless Laxative. If you must take a laxative, take a harmless one. Lax-Fos does not gripe, therefore does not irritate. Irritation is what does the harm. Price 50 cents.

Still Spiteful.

Her—Yes, she married him to spite another girl.

Him—But why did she divorce him? "So he could marry the other girl, and thus spite her some more."—Chicago Daily News.

FITS, St. Vitus Dance and All Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer. Send for Free \$2.00 trial bottle and treatise. Dr. R. H. Kline, M.D., 931 and 933 Arch St., Philadelphia, Pa.

Hard to Shut Up. "Putting a parrot in a strong cage," remarked the Observer of Events and Things, "doesn't shut the bird up altogether."—Yonkers Statesman.

The mind is a storehouse, but it needs a necessarily be a junk shop.

Make your boy's food tasty—Mother—for it has to do some big things. It has to make flesh, blood, bone and muscle and supply boundless Energy. Remember, the boy of today is the man of tomorrow.

Don't injure him physically and mentally with indigestible meats, pastries, rich puddings, etc., that act as a drain on his nervous energy.

But feed him plenty of

Egg-O-See

all there is to wheat—and he'll be your heart's joy—strong, healthy, bright, smart and quick at his studies. You won't have to coax him to eat it either, Mother, for his delicious rich flavor when eaten with cream and sugar is just what he craves most for.

Egg-O-See keeps the blood cool and is the ideal summer food.

Give him some tomorrow—"there won't be no leavin'."

Prepared under conditions of scrupulous cleanliness. Every grocer in the country sells EGG-O-SEE—the whole wheat cereal. If your grocer has not received his supply, mail us 10 cents and his name (15 cents west of the Rocky Mountains) and we will send you a package of EGG-O-SEE and a copy of the book, "Back to Nature."

FREE "back to nature" book

Our 32-page book, "Back to Nature," outlines a plan of right living, including menus for 7 days and recipes for preparing the necessary dishes, based on a whole wheat diet, with suggestions for bathing, eating and exercise, illustrated from life, exceedingly simple and attractive. By following the precepts, abundant and vigorous health is sure to result.

Published to sell at 25 cents a copy, this handsomely illustrated book will be mailed FREE to anyone who writes, as long as this edition lasts. Address

LOCAL NEWS

The Continued Story of Current Events

Lo'a.

We had a nice rain on Monday.

Miss Stella Belt is on the sick list.

Miss Carrie Sisco is on the sick list.

Mr. Vernon Malcom was in town Sunday.

Mr. Elbert Daniel brought twenty-one dozen eggs in town this week.

Mr. George Daniel brought sixteen dozen eggs in town this week.

We had a nice time last Sunday, it being The Children's Day.

Mrs. Croft has a big girl at her house.

Mrs. Johnson has a big girl at her house.

Mr. Clyde Tyner and Mr. Marion was in town Sunday.

Mr. George Fisher and George Sisco made a flying trip to Illinois.

Mr. Coy Belt and James Sisco went to Self Spring last week.

Miss Stella Belt and Miss Mina Sisco is going to school at Louisville this week.

Tolu.

There are a small rise in the river which enables the regular packets to continue navigation.

Some sickness in this community.

Miss Eva Clement, daughter of Dr. I. H. Clement, is reported right sick.

Mrs. John Franklin is better.

There is a few people in Tolu, that would like to have the name of the town changed to Farmers City. Well Tolu has been Tolu since 1881, twenty-five years. All our deeds call for Tolu, even the M. E. Church having a Tolu circuit in their work. To change the name would cause no end of trouble and could not possibly benefit any one. There is a petition of county voters asking the postoffice department to not change the name. There is also a move on foot to incorporate Tolu. The people do not want the name changed by the ratio of 8 to 3.

If it continues seasonable there will be more corn raised around here than there has ever been in one year.

The farmers are cutting wheat. Yield light, grain good.

D. W. Stone, who is off the road on account of sickness took the school census last week. There are 114 pupils in this district.

Tolu has a public well bored between D. W. Stone's store & Wm. Dalton's store on the side of the latter. It is about 40 feet deep.

Rev. Sydney Moore was in town Sunday.

Mr. Charles Wright and Miss Salie Weldon gave their friends a surprise Sunday by going to Elizabethtown, Ill., and being married. The Rev. Holloway, of the M. E. church married them at his home. This couple is O. K. and the writer as well as a host of friends wish them a smooth and peaceful voyage down the stream of time and finally a safe landing on the other side.

*Bink Farmer, from Hardin county, Ill., was here Monday.

Wm. H. Tennue was in town Monday.

Mr. Bloomfield, the mineral man, reports much zinc at the Sullenger mines, where he is working.

Deafness Cannot be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Iron Hill.

Bro. Oakley filled his regular appointment at Sugar Grove Sunday.

Miss Edith Pariah is spending a few weeks with relatives in Providence.

Tom Lamb, of Marion, attended church at Sugar Grove Sunday.

C. C. Walker and family, of Farmersville, visited relatives in this vicinity Saturday night and Sunday.

Mr. and Mrs. A. A. Deboe and Mrs. Maggie Oakley, of Marion, attended church at Sugar Grove Sunday.

J. T. Stewart and family visited J. H. Travis's family Sunday.

Quite a crowd from Enon attended church at Sugar Grove Sunday.

G. D. Kemp's family, who have been in Louisville for the past week enjoying the Home-Coming, returned home Sunday.

Miss Bertha Moore and brother, of Repton, worshiped with the Sugar Grove congregation Sunday.

J. M. Walker and Henry Butler went to Marion Monday.

Fredonia and Kelsey.

Mrs. E. Richmond Overby went to Lafayette Monday to visit her mother, Mrs. Ashbrook.

A new miller arrived here from Nashville Monday. Johnson is going to New Mexico.

Walter Brinkley is at the point of death.

C. S. Jackson is in Louisville under treatment.

Miss Clemmie B. Doon, of Azalea, has been visiting relatives here for the past week.

Rev. E. R. Overby went to Princeton a few days ago.

Rev. M. E. Miller and family have returned from Dekoven, where he has been holding a meeting.

We had the best rain here Monday night since early in April.

Mrs. Mollie Dulaney and Burney Landes went to Princeton Monday.

W. C. Glenn was in Kuttawa a few days ago.

Gid Dollar, of Princeton, was in town Sunday.

William Parr, of Missouri, is visiting relatives here.

Dr. J. N. Todd is in Chicago taking a post graduate course in medicine. The doctor is one of the leading physicians of this country and is always on to the latest treatments, has a large practice and when not attending a patient is studying.

Mrs. T. B. Hughes and children are visiting her father, J. R. Jackson, of Crittenden.

Presley Ordway, of Kuttawa, was in town a few days since.

Would like to fix up your deeds, mortgages, affidavits, pension papers, do your printing and furnish your literature, etc.

W. C. Glenn, Notary Public.

Mrs. Kit Martin is able to be out again after a long spell of sickness.

Henry Parr is building a house at the Hill Medical Spring, where he expects to renew his youth and regain his health.

Mrs. John Towery was taken dangerously ill Sunday evening, but was soon all right again.

Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at Haynes & Taylor, druggist. Price 30c and \$1.00. Trial bottle free.

Levias.

A light crop of wheat is being harvested this week.

James Minner and family visited relatives here Saturday and Sunday.

Dr. Fox visited his parents at Shady Grove last week.

Pastor W. R. Gibbs, of Sheridan, was among his flock here last Thursday.

Miss Osie Gilles celebrated her birthday by giving her young friends a pleasant dining Saturday.

The telephone people are about completing the long distance line through this section.

Mrs. L. L. Price is confined to her bed with rheumatism this week.

Miss Lura Conley, of Bowling Green a lady friend of James B. Franklin, was a pleasant visitor at his bedside last week.

John H. Grimes returned home last week from Memphis, Tenn. He has been in a business college there since January.

Miss Mabel Vandell, of Marion, is spending a few days with sick relatives here.

Edward Conyer, a sick relative of

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same success." MRS. F. J. K. 721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

Mrs. Fanny Settles, was moved to her house last Saturday.

Miss Nellie Gray, of Salem, visited here last week, the guest of Miss Catharine Carter.

A pleasant musicale at J. A. Davidson's Saturday night. The Garrett Bros., of Salem, were there with their stringed instruments.

Chas. LaRue and family visited relatives in Marion Thursday and Friday.

Thos. J. Davidson and family, of Corydon, visited relatives and friends here last week.

Mrs. Parthena Gilles is visiting her daughter near Repton this week.

O. G. Threlkeld and family visited near Carrsville Sunday and Monday.

A good Sunday school at Union every Sunday at 9 a. m.

Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of Diarrhoea and all forms of bowel trouble. For sale by Haynes & Taylor, the enterprising druggists, of Marion.

Fords Ferry.

(Too late for last week.)

Bob Rankin visited Tom Williams Sunday.

Gale Ford went of Marion Tuesday.

Lonnie and Herman Clift were in Rodney Monday.

The river has been rising for the past few days.

Ruth Clift went to Blackford last week.

C. M. Clift has recently set out nearly eight acres of tobacco which has taken a fine stand.

Will Fowler burned off his new ground Monday.

Farmers are in despair over the continuous dry weather. Exclusive of a few showers we have not had any rain in this vicinity for many weeks.

Joe Kirk attended services at Mt. Zion Sunday.

C. M. Clift and son, Luther, went to Cave-in-Rock Thursday.

Lester Brantley, of Mattoon, is working for Will Fowler.

The recent cool spell has been bad on corn.

Miss Dessie Clemens, who has been dangerously ill for the past few days, is convalescing.

Tom Ferrel and family attended the show at Cave-in-Rock Thursday.

Mrs. Fred Cook, of Mt. Zion, was in this vicinity Sunday.

Luther Clift is on the sick list.

Tom Ferrel is contemplating moving farther down the river next fall.

Aaron James is very busy plowing corn.

C. M. Clift will commence building a tobacco barn in a few weeks.

We are all very sorry over Mr. Crittenden's misfortune and hope he will be more successful in the future.

MR. GRADY AGAIN.

Writes an Interesting Letter on Educational Matters--Higher Standard for Teacher.

Valparaiso, Ind., June 9. --While teaching in Texas I was elected by the county association, editor of the educational department of the county papers. My experience with the teachers of Erath county, Texas, led me to believe that Mr. Watson would not have much help with this department of the RECORD. I hurriedly wrote my first letter that I might lend a helping hand in the work. I have never been able to find a place to hitch my "amen." I desire to return home in August perhaps I had better explain myself.

I want to be understood. Let no one think for one moment that I believe you as teachers do no good. I believe that all teachers should study methods used by successful teachers. I often hear teachers say that nothing good can be had by studying books on school management and others of like nature. Such books contain advice for teachers. For a teacher to refuse to listen to men of experience is like a boy who refuses to listen to his father's warning. When I am told something is wrong why dive headlong into it without first trying to find out something more about it? Should I begin farming down on the old farm--I know but little about farming would it be wise for me to never seek the advice of my neighbors? A friend said to me, why do you want the child to seek the advice of his parents on all occasions. I do not believe that the child or the teacher should seek advice without first trying to solve the problem.

"Teach the boy to be independent," said a country teacher. Who is independent? We depend upon our neighbors--our friends for life. Let a man feel that he has lost all his friends and he is not likely to live very long. I heard just recently a speaker say that the criticism of the American people caused the death of an ex-president of an old line life insurance company.

We are not independent. We are as helpless as children. I am of the opinion that man will succeed to that extent in which he values a friend.

I am told that my standard for teachers is too high. In a way I will admit that the standard is too high for Tolu, Shady Grove, Levas or here at Valparaiso, but if it is my brother with whom you are to deal the standard is not too high. The successful teacher has no other way to deal with a boy, only as he wishes others to teach his relatives. Tolu, Shady Grove, Levas and other places of the county is the standard too high for you individually?

The teacher who knows only the common branches has just enough to pass the examination and no more. This is his capital invested. There are farmers in Crittenden county who have sixty or seventy acre farms. Man can farm on seventy acres. If this land is mostly clay hills he will have poor success. He can not well get along on a less number of acres. I look upon the teacher as I do this farmer. The teacher with common school education (farm) will drift along hardly making a living. The teacher reviews and the farmer fertilizes, some way manage to keep "soul and body together."

It will take some time to improve our school so that it can be noticed. Nature makes no leap, we must be satisfied with a slow growth.

Because I am in college does not lead me to believe that all teachers can attend college. I do not censure you. Perhaps had it not been for the aid my father has given me I would never have been a college student. While I believe you are wrong yet I want you to feel that I am your friend. I know not the course others may take, but as for me and mine we shall attend school.

I do not want to be a teacher with just enough capital (knowledge) to run my business. If I am to be a farmer I want to be a good one or I prefer to be a day laborer.

I do not think it is right to throw all the blame of poor schools on the teachers. The parents are greatly responsible for present conditions, but the teacher must take the lead.

Is it the child's duty to help father and mother make a living? The child owes you not one cent for you having raised him. You owe him a chance to win success. You owe him an education. The child came into the world on your invitation. It is your duty to give him the best chance possible. You are not too poor not to educate them. Perhaps this is all you will be able to give them. The child is not a servant but a gift from God. The child owes his parents a success in life, that they may be happy. Is it possible for any father and mother to be happy when the boy is not a success, especially when they feel they have not done their duty in bringing him up?

We must have better schools. Can't a poor mother be crying aloud "can't some one save my boy?" We may preach, preach and preach against the saloon but so long as the boy has a desire for liquor he will have it. The public school must reach the boy for the preacher can not.

C. E. GRADY.

CRITTENDEN COUNTY

| | |
