In its Third Year The Record's Circulation Exceeds the Expectations of Its Publishers and Friends.

With the issue of July 13th, 1906, The Centennial Record started in on the third year of its existence. A part of that venture has been tedious and part of it bright. On the 26th day of March, 1904, a metamorphosis destroyed the greater part of Marion and in that destruction The Centennial Record went down. The Centennial Record did not miss an issue on account of the fire for any other cause. For ever a year it struggled along without any machinery, but now it is fully equipped and prepared for any and all kinds of newspaper and job work. Below is a cut of the new Centennial Press issued July 8th, 1906, and also a cut of the engine that drives all the machinery.

In the past two years the circulation of The Record has grown beyond all expectations and now exceeds that of many much older publications, but in few out of many homes. A special effort continued is now being made to bring into print the enumeration of papers that got out of this office. The Record will be made better than ever before, both as a newspaper and advertising medium, and it will ever be a friend to the enterprising, industry and education and we will be interested in every member of the family.

We thank our friends for liberal patronage and assure them that we shall endeavor to merit the same.

The State College of Kentucky
LEXINGTON, KY.

THE Agricultural and Mechanical (State) College of Kentucky offers the following courses of study, viz: Agricultural, chemical, biological, mathematical, mechanical, electrical, civil engineering, mining engineering, each of which extends over: four years and leads to a Bachelor's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

Courses offered: receive tuition, room in dormitories, fuel and light, and if they remain ten months, traveling expenses. The buildings and museums are large, well equipped, comprehensive and modern. Military tactics and science are fully provided for as required by Congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college supply. The matriculation for the last year was, including Summer school, 450.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science and arts.

The State College of Kentucky is the only institution in the Commonwealth doing in any proper sense university work.
The college home for young women provides facilities for good board and lodging. It is well equipped with all modern conveniences, both bath room and a room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, sciences, mathematics, natural history, and economic, and political economy. No other institution in the State offers advantage for the education of women at so small a price, as those offered by the State College of Kentucky.

A new library building will, through the generosity of Mr. Carnegie, be erected during the next Collegiate year.

The Normal Department will be a better footing than ever heretofore. Last year's large increased attendance, with the unprecedented growth of the Summer Normal School, bade both inculcate, that an era of prosperity, promising that of all previous years has opened for the Normal Department of the State College.

For catalogues, methods of obtaining appointments, information regarding courses of study, and terms of admission, apply to

Father Knows Best.

Never confuse the casual talker who has no time to learn his business with the wise one who does. The former never does anything new and the latter is always ready to do something new at any time. He never takes you at your word and he never wastes your time in repeating a thing that has already been done and then says it is new for you. After he has said it too often and not once but twenty times, he may ask you if you want to buy it, and when you say that you do not, he will repeat the story over and over again until he is sure that you are satisfied with the goods he has to offer.

Save the Children.

Mother would send the boy to Marion to buy his tools, she said, because the other boy had been sold the same tools after being sold to a relative. "It is a great deal better than what you have here," she said. "We have found it is better to buy the tools at Marion than to buy them here."

WILL BE BETTER THAN IT EVER WAS

In its Third Year The Record's Circulation Exceeds the Expectations of Its Publishers and Friends.

With the issue of July 13th, 1906, The Cincinnati Record started in on the third of its existence. A part of that way,

The Cincinnati Record was not available at the time of this printing. If you have a program or a request to advertise any event, you may advertise anything you want in this column. If you have a program or a request to advertise any event, you may advertise anything you want in this column.

The past two years the circulation of The Record has grown beyond all expectations and now exceeds that of many much more costly county papers. In fact, it reaches many homes.

A special radio station is now being made to further enliven the number of papers that go out from this office.

The Record will be made better than ever before, both as a newspaper and advertising medium, and it will ever be a friend to both the manufacturer and advertiser and will be of interest to every member of the family.

We are friends for life and patronage and assure them that we shall stick to you to the last man.

Spends a Week at His Boston Home

Will Take Another Vacation to New York—Spectra of "Hooker's Hall"

Well and well we say at home when we have not been telegraphed, and in the Boston papers. If you want to know what is going on in New York, simply call at "Notices." The Boston papers are full of interesting stories.

"Hooker's Hall," which is a new and popular place in Boston, was the scene of a wild party last Saturday night. A young man who was present at the party was found dead in the morning.

The party was given by a young man who is known as "The Bachelor." He invited a number of his friends to join him in a wild party. The party lasted until the early hours of the morning. The young man who was found dead was a regular attendant at the party.

The Boston papers were full of stories about the party and its aftermath. It is said that the young man who was found dead was a regular attendee at the party and that he had been drinking heavily.

REV. T. N. CUMPTON

Is Meeting With Much Success in Evangelistic Work.

Rev. T. N. Cumpton went to Gal- leon on Saturday where he will be en- gaged for two weeks in a prolonged meeting at the Baptist church. He has recently had great success in the evangelistic work to which he is now devoting his energies. — Exchange.

Marion church people will remember the tall young Baptist minister referred to above. He preached at the Baptist church here fifteen years ago.

Good Picture.

A bold picture is being received this week from Colorado. It is not out of doors view and the subject a man and woman.

The war correspondent of this sheet immediately recognized the man as the Rev. T. N. Cumpton, General Manager of the Kentucky Finance and Loan Union, who had been away on a months vacation, and who is supposed to be in the company of his wife. The picture, as the long and your- ter picture represents her to be large and fine looking and dressed in the latest style. The Encomion hopes it is not a modeller nor a tartlet, but in view of the former friendly relations of the family we feel duty bound to report the gentleman to the notice of our readers. — Mrs. C. R. Nunn, Most Cleone, Marion county, in care of A. M. S.

Tired and Restless Waiters.

The Gazette Tribune remarks: The tiredness and restlessness that beset a lot of individuals may be, in many cases, the result of overwork, but in any event it is not a healthy or a happy state, and one which demands correction. It is not a very pleasant state physically, but it is even more unpleasant mentally, for it is likely to lead to nervousness and other physical ailments.

Stifling Men in the World.

As an exchange tells of the three stifling men on record. The first will not drink water unless it comes from a spring, and the second forfet his family to write anything but a small hand, as it wants ink to make legible letters, and the third stops the clock at night to save the wear and tear of the machinery. All of them refuse to take a newspaper on the ground that it is a strain on their spectacles to read.

RADIO SHOTS

BY MR. A. SHOOGER.

The reason why a telegraph is called a dental parlor is because the parlor is the old time name for drawing room.

If you want to have a happy home, when you return from your days work kiss your wife and bid her, pat the dog kindly on his head, feed the chickens, milk the cow, gather vegetables for dinner tomorrow, eat cold supper, put the children to bed and tell your wife that she is the sweetest woman on earth, but don't go down town after- supper.

Some men are so ill tempered that they have tooth ache for a week when they return home in the evening the children will be in bed, his wife will be busy in the kitchen, the dog will be under the floor, the cat scampers off the stove top, the cook is gone through the dining room, and he will wonder what is all about any way.

Dress makers, all, should be up to date with the old clue artists in the science of upholstery.

The man who sat in his parlor, and saw in the mirror the漾 of the bare heal and wondered why his girls were not much c' a philosopher.

It is easy to tell where a man belong, says he has no neighbors. It may not matter whether not this man lives in Marion county Illinois or West Tenn. to have no neighbors, but if it is seen by a man has well known neighbors in Marion county.

He will have them nowhere he goes. They called him our crustal bar- iers, was coming down town the other morning and in front of R. White's residence was attacked by a huge snake of the copper colored kind. When Fred saw the real snake he realized that it was a real snake and he had not had a mild jamp in many years. He met a turnpike and would rather be out of dan- ger than have a snake spring at him, hung his long in Fred's trousers which acci- dently caused Fred to fall to the floor, and finally put him in a hospital. To which his rescue Mr. White with her timely and his snakebush was dispatched to the house and at once went to Quint Coyer, knowing Quint had recently had ex- perience with snakes, and asked him if it would be safe to tell the story.

Was insured for $3,000.
