In its Third Year The Record's Circulation Exceeds the Expectations of its Publishers and Friends.

The State College of Kentucky
LEXINGTON, KY.

The Agricultural and Mechanical (State) College of Kentucky offers the following courses: Ag. Engineering, Chem., Hort., Math., Mechatrical, Physical, normal school, classical, mechanical engineering, and music. The courses extend over four years and lead to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

Counties appoint one teacher, room rent is $200.00, fuel and light, and if the county has a hospital, and

The libraries and museums are large, well equipped, comprehensive and modern. Scientific and scientific are fully provided for as required by Congress. The courses from the several courses of study readily and excellently position and liberal remuneration. The demand is largely in excess of the ability of the college supply. The matriculation for the last year was, including summer school, 51.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science and arts.

The State College of Kentucky is the only institution in the Commonwealth doing in any proper sense university work.

The college home for young women provides facilities for good board and lodging. It is well equipped with all modern conveniences, including both room and a room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the State offers advantages for the education of women at any comparable fee, those offered by the State College of Kentucky.

A new library building will, through the generosity of J. T. Sargent, be erected during the next collegiate year.

The Normal Department will be a better footing than ever before. Last year's fiscal years brought attendance, with the unprecedented growth of the Summer Normal School, both indicate that an era of prosperity surpassing that of all previous years has opened for the Normal Department of the State College.

For catalogues, methods of obtaining appointments, information regarding courses of study, and terms of admission, apply to

JAMES R. PATTERSON, P. D., L. I. D.,

Fall Term Begins September 13th, 1906.

WILL BE BETTER THAN IT EVER WAS

To the publishers of the Record:

In the first place, we are conscious of the fact that we are not the only publishers in the county, and we are aware that the competition will be keen. But we have faith in our ability to meet and overcome the competition, and we believe that we can do so.

To our patrons:

We have every confidence in the future of the Record, and we hope that you will continue to support us.

Cheaper Farm Lands

Southwest Offers Fine Opportunities for Securing Estates.

Many farmers in the Southern and Eastern states are finding the value of their land increasing day by day. This is not only because of the high prices being paid for the land, but also because of the fact that they are now able to raise their own food in the country, saving in this way a large amount of money.

The agricultural opportunities are great in the Southwestern states. The land is fertile, the climate is healthy, and the people are friendly. The transportation facilities are excellent, and the land is ready for settlement. There are many fine opportunities for those who are willing to take advantage of them.

The land is offered for sale at a low price, and the terms of payment are easy to meet. The land is free from encumbrances, and the title is clear and absolutely free from all claims.

For those who are interested in purchasing land in the Southwest, we recommend that they make inquiries at the office of the Woods & Orme Drug Co., where we have a complete list of the properties offered for sale.

Nature Begins at the Root Never at the Summit

Secrets which Unlock the childhood of old have been discovered and science is making use of them in its work of rejuvenation.

Do You Doubt?

Do you doubt that the time will come when a health department will examine all of your vital organs and you will be told that you are older than you are? Do you doubt that the day will ever arrive when a health department will tell you that your health is adequate for your age. Do you doubt that a day will ever arrive when a health department will tell you that you have a more youthful potentiality than you have ever revealed? Do you doubt that a day will ever arrive when a health department will tell you that you have a more youthful potentiality than you have ever revealed?
