Poems

Greetings.

With this, with this, fair face of beauty,
Now glowing light grows dimly.

When sadness, in the wondrous place
Where stars so bright can never be seen.

The future is uncertain, the unknown,
In full, bold, and bright, may it begin.

And then, hope springs from the shining sun,
And the record’s future appears in view.

For The Coming Years.

These are the goals I ask
Of you, dear friends.

Courage, hope, and faith
In the record’s future.

And the record’s success, in the hands of the

Many farmers in the Northern and Southern States may be thus challenged to high prices and more in the long run.

In concluding, it is important to mention that those who have had the opportunity to work with the Summer College are impressed with the excellent organization and the spirit of cooperation that prevails there.

The State College of Kentucky is the only institution in the Commonwealth doing in any proper sense university work.

The college home for young women provides facilities for good board and lodging. It is well equipped with all modern conveniences, including bath room and a room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history, and political economy. No other institution in the State offers advantages for the education of women at all comparable to those offered by the State College of Kentucky.

A new library building will be erected by the generosity of Mr. and Mrs. Stringham, for the benefit of students.

The Normal Department will be on a better footing than ever before. Last year’s large increased attendance, with the unprecedented growth of the Summer Normal School, both indicate that an era of advancement is at hand.

With the issue of July 13th, 1906, THE CIRCUIT RIDER Record came into its third year of existence. A part of that year has been tempestuous and part of it bright.

On the 23rd day of March, 1906, a configuration destroyed the greater part of Marion and in that destruction THE CIRCUIT RIDER Record went down.

On the 23rd day of March, 1906, a configuration destroyed the greater part of Marion and in that destruction THE CIRCUIT RIDER Record went down. THE CIRCUIT RIDER Record did not issue on account of the fire nor for any other cause. For over a year it struggled along without any machinery, but now it is fully equipped and prepared for any and all kinds of newspaper and job work. Below is a cut of the new Creation press installed July 10, 1906, and also a cut of the engine that drives all the machinery.

In the past two years the circulation of THE CIRCUIT RIDER Record has grown beyond all expectations and now stands that of many much older county papers. In fact, few reach as many homes.

A special additional effort is being made to further enlarge the number of papers that go out from this office.

THE CIRCUIT RIDER Record will be made better than ever before, both as a newspaper and advertising medium, and it will be even a friend to the enterprising, industry and education and will be interested in every member of the family.

We thank our friends for liberal patronage and assure them that we shall endeavor to merit the same.
